I just in and of themselves, goes through such a tough time. You know, a lot of them go through really tough times. And the the gay and lesbian kids, you know, go through that added issue of not being able to be who they they aren't, there's no mentors that you know, their teachers, you know, very, very rarely will we ever hear about a teacher that's out. Oh, absolutely, you know, and we know that they, they're there, but we don't hear about it. And so, you know, the kids continued to get to get this education and almost conditioned to keep it under wraps. There's no one else like you out there. And it's very confusing.

00:47

There. Now, I'm going to the PFLAG meeting tomorrow, I have been invited to come to the PFLAG meeting tomorrow, which is down off of Texas Avenue, dammit. So I'm going down there. And I'm going to try and push this idea across. But I but this is this is merely a starting point. It's it's all the this program is right here is unsafe. Here is my handkerchief. I throat in the center of the ring. Now you join me by throwing yourself but we need no longer to tolerate. And we in the gay community have got to quit being afraid of what these two bits big? No, I'm not gonna say. But these two bits, big it's out here. I had another word I was going to use came in I heard a better not because you don't push the damn button. I sure what. But anyway, we got to be afraid of what these so called hypocrites are saying that we're doing because we know to lie. We know to lie. Of course we know. And we don't need to stand by our fear afraid that somebody's going to believe those it's going to believe them are going to believe them anyway. Right? Yeah. But, but But it's what I'm wanting to do is I'm wanting to start something and get our heads together and work together and start taking care of this problem. Remember this to the kids chapter listening. If you are called a faggot, or queer, at school, if you are hit at school, you a hate crime is being committed against you. If somebody writes on your locker, faggot, where or anything like that, you understand a hate crime is being committed against you. You do not have to tolerate that. Am I right?

02:12

11 02:45

You are right. And the only piece that I would add on to that is for the students to the teenagers or younger, who have experienced some of those incidents, to go to someone that you trust. And still, it may or may not be your teacher, it may be a friend, it may be someone who might be a counselor that you connected with. It may it might be someone that knows that you're out to go to someone and talk about it. And that's the critical initial step. I think that needs to happen.

03:18

That that's why the switchboard is here. And that's why we have this was born. That's why we have monitors Counseling Center. PFLAG is it is above all, and it's who it is. It is mom and dads who have kids just

J Jimmy Carper 03:36

like you right, Gary, I know you head up the Hate Crimes Division over at Montrose Counseling Center. How's that been going lately?

03:44

Well, I'd like to say that I I have no business, but I do have business. Which means that I have clients that have been targeted. You know, it's a strange thing. And it's, it's very difficult at times, it's very challenging to see what, you know what people can basically go through what can people can come out of being targeted. And it's also sort of enlightening and almost empowering for me to see the strength of people and what they can go through and continue living and have a zest for life. But you know, it's happening. I'm only getting a fraction of what's happening out there.

J Jimmy Carper 04:35

I understand that like I just said with the switchboard we're just getting right you know, the tip of the iceberg.

04:41

Do you remember when the police decided to go undercover in Montrose escaped

J Jimmy Carper 04:51

and they were bashed out to all get

04:52

11 04:55

out there, but two weeks and and and I heard one of them make a steak But I don't know how those people do it. You know? And not only that, but one of them had been getting into baseball. Sure. And the filter hitting with the baseball bat, you know what his statement was? Why are you arresting me? He's only a faggot. You believe that this

J Jimmy Carper 05:18

is the kind of thinking we have to turn around and things like Allen's coming out will help that. Yeah, that was definitely if you know someone who's gay, it lessens your chance of being a bigot against gays and lesbians. But and let's not leave out bisexuals and transgendered people.

05:37

No, no, when I use the, but when I use the term gay, that is all inclusive

J Jimmy Carper 05:44

of lots of times we use the word queer to incorporate everybody. It's, it's still a controversial term. And I honestly wish that we could come up with something different or bright everyone

05:57

no till channel 13 That it's controversial.

J Jimmy Carper 06:04

But Gary, something else about about your you were talking about how some people get empowered, or how you get empowered watching people. It's amazing to me to see that some people after a gay bashing can snap back out of it and some other people, it really affects them for a very, very long time. Is there some common denominator or what's what's the difference here? Or?

06:29

Well, it really does depend on the individual. And I think like any incident that a person goes to goes through some, you know, they can just say, Oh, well, that's I don't need to expect that. And they just go on with life. And it doesn't really affect them as much behaviorally or emotionally psychological. Okay.

J Jimmy Carper 06:49

When you say expect that, that means that you don't mean like I deserve that.

06:53

No, definitely not. But you know, they figure well, it's a part of being who I am. Yes. And they've, they've come to an understanding of that. And I think that, in and of itself, should raise some eyebrows that we're at a place where that where it's not something where we get extremely angry with with every single incident that happens that oh, the I just got, you know, someone called me a fake, you know, oh, well, someone keyed my car, you know, as it was parked outside of heaven. Oh, well. You know, some people, some people do that. I'd say probably the people that are seriously physically attacked, have more and more barriers need to get through. They have the physical, the basics. Hospital time getting out of hospital and then sense of being violated. Exactly, exactly. And then they can start touching on the emotional ways that it's touched them, and how it continues to affect them after the incident. What Yeah,

08:05

yeah, a personal incident that happened with me. And you know, what, four years ago, I was Randy field. And we were outside of the stop and go do you remember that? And we're this was a street person. street person walked up, and he said, I'm looking for faggots. Randy and I were talking to some Christians. Insane as you did a lot. Yeah. And, and he hit me alongside of the job and stand and timestamp me twice. I still have my stomach here. Where

Scott Lewis 08:45

this was the street person or the Christian that stabbed you. Yes. clarify that. Yeah.

Jimmy Carper 08:51

No great person. Yeah. Okay.

08:54

Because you said I would have been either. Yeah.

08:57

But But Randy fields? Yeah. And I would get but the thing about it was when the cops came, you understand? I'm bleeding. You understand? And they wanted to see they didn't care about the street person who did the stabbing they wanted to see if brandy fields and I had identification and even we had to turn around and put our hands on the car

 Jimmy Carper 09:26  
when you've been when your blade or

 09:28  
have been attacked. Yeah, they could care less was this info was

 Scott Lewis 09:32  
this understand new cheer?

 Jimmy Carper 09:33  
Yeah. Oh, yes. Oh, yes. This was around the time of Christ. This is around the time of Broussard. Yeah. So so now this just be but that's the thing. You know, I know that happened to you when you probably aren't over it yet. But you know, the thing that happened to Broussard being killed that has affected a lot of gay and lesbian people and we're still affected by that even though I never met Paul Broussard. I guess I'm still very much affected by that possibility that it can still happen today. Yeah.

 10:07  
And it has an Paul Broussard has not been the last gay murderer.

 Jimmy Carper 10:12  
No, no, no, no,

 10:15  
no, no, no, not by longshot. No, no, there are others that it's happened to.

 Jimmy Carper 10:21  
I know, I know. Scott, you have been very involved in the poultry sorry. The whole thing with his mother and keeping these boys who perpetrated the crime in jail.

 Scott Lewis 10:35  
Yeah, it's a matter of fact, I was in The Woodlands last night with at the Tina Turner concert. And the people out there are so friggin rude. I can't stand you know, I hate going out. 610.

Anyway, I don't like to go beyond 610. The altitude change and everything goes in flight movies are always so crappy. But so we went out there because for some godforsaken reason, you know, Tina thought it was closer to Dallas or something. So we go out there and this woman makes this snitty comment. As I tell the woman next to her, I say well, you know, ignore it. She's from the woodlands. And the woman said, I know they're so bitchy out here. And I said, you know, you'll never You'll never get me to like these people. They killed the their attitudes killed a friend of mine. 10 of these monsters come down and kill this friend of mine a few years ago. And she said, Paul, yeah, Paul was a friend of yours. So they know. And it has changed attitudes. And it has helped a lot. Yeah.

11:31

Yeah. It. It does seem as though there there is an attitude change. That lives changing. But I can still remember Gary from the 70s I can remember a gay person being beaten on the sidewalk into cops simply wait,

Jimmy Carper 11:51

well, that has changed. We've come a long way. But we still have a long way to go because they're still being crimes perpetrated out there.

Scott Lewis 11:59

Let me tell you how far we've taken a different face. When I got gay back. The cop took me back up to heaven where I was working. And I was just shaking. I was so nervous. And he said, What do you want? What do you need? I said, I need a margarita really bad. He went got it for me. I had a whole new respect for HPD.

12:20

Yeah, I mean, we can't really do blank blanket statements with all of HPD.

Jimmy Carper 12:24

Yeah, no, we really can't be carrying some really great work. Yeah. And a lot of the folks with HPD work very well with Q patrol, right? Yeah, we have we have a very good rapport with HPD. Because if we call them they know that we're not just fooling around, something has happened. And fortunately, I don't know of anyone on Q patrol that has had to call the police in a very long time. Things seem to have calmed down on the nights that Q patrol is out. Now, there are other nights,

13:02

right? Yeah. But, but to take an old fart like me, I don't I don't really see that much difference

between your jackrabbits and a bug tip or a white tailed so so I have a tendency to blanket over.

13:17

And so sometimes you just have to forgive me for that.

Jimmy Carper 13:24

I have to interrupt you and let everyone know that they're listening to after hours queer radio with attitude on KPFT Houston and KEOS College Station. I'm Jimmy Carper,

Scott Lewis 13:35

the oldest DJ in town older than Paul Berlin, Jimmy I'm an old man these teeth in her mind because I paid for him Carper.

Jimmy Carper 13:45

So rude that Scott Lewis, Tom, Richard sincere. And Gary Norman from the Montrose Counseling Center, we're talking about abuse and hate crimes.

13:57

And and now it's where I'd like to go with what can we start to do now? It is a problem. It cannot continue on. It will not continue on. Therefore, what can we walk in the Montrose counseling center the switchboard the Gay Lesbian switchboard. And I'm hoping to get PFLAG and so forth. But what can we start to do now? We probably need to meet some time and get our heads banging together. And, and come out with with ideas that we can work to our organization within our organization. In a closer relationship I'm okay. Because the thing is that the old farts like me are not going to be around very long, much longer. Okay, I probably will not live to see 150 I'm sure that. But anyway, the those that are coming after us is, will take the banner, if we're not willing to support them if we're not willing to support. And this is only one area, and by the way, Gay Pride Month is coming up, and we want our kids to know, it's going to be a party, and you're welcome to the party. Okay, that's an absolute, but anyway, we need to support them, we need to support them 100% weight, we need to see hat as an organization that is just as important as any other organization and treat it as such, treated with the respect and the dignity that hats deserve. Right. And, and, and so what do you think about the idea that, that once I get to these other organizations, that we set a meeting with you? Would you be willing to go that route with us?

16:20

Sure, you know, I can, I can look into it also on my end and see, you know, what kind of resources we have, that we can put something together for this, you know, because our is our

resources we have, that we can put something together for this, you know, because our, in our area is more the therapy part and doing that kind of things. It's a good place that we're in, in the sense that we do have a number of groups, agencies that can provide their specialty to the effort, yes, that we can draw from. And I think it is imperative that we get a number of these people, you know, on the on the bandwagon, so to speak. Yes. Like, like, listen, the gay, lesbian, straight Teacher Network, you know, hatch, and there's 20, something, which is a wonderful group. You know, if we can get a number of these people together and talk about the problem, because we know that it's a problem. It's something that we need to look at, definitely.

17:21

Now, yeah, I do understand that a kid under 17, it is difficult to go through the organization without mom and daddy. Okay, now, I'm hoping we can settle this problem with the help of PFLAG Parents and Friends of Lesbians and gays. And I'll be talking to them tomorrow. But, but I can see an opportunity here. And we cannot allow this opportunity to pass a spot for you. They are very important. We have a tendency that if they can't spend a whole lot of money in our bar areas, in our stores, that they're not in, they're not that important. Only those athletes are working and able to spend money and for our for our businesses are what's important, wrong, those that's coming after, I only wish that we had an organization called hats when I was growing up. And it's a great organization. But, but but we need to incorporate all organizations in into stopping hate crime, not only within within our area of Montrose, but also in our schools, right in our Junior High in our high school. And we need to let these kids know, you are part of our community. You are important to us, because you're the one that's going to carry the community.

18:53

Right. And, you know, being realistic, it's not going to be an easy task. No. And we know that it's going to be a long, difficult process. But we do need, we do need to get started on it because it needs to have a start somewhere.

19:08

Gary, i i And Jimmy and I know Jimmy Carter, Jimmy Carter has never been afraid to take on something that he thought might be difficult. But we're also French

Scott Lewis 19:20

Quarter on half price Thursday.

Jimmy Carper 19:24

Well, yes, but we all have our place you see at the switchboard, we get the probably get the initial calls. And we can tell that, you know, just talking to someone over the phone, just the kind of therapy that we do, which is not really therapy, just phone talking. We know when when

somebody needs more than what we can, we can offer and we can do our best to get these people to to contact the Montrose counseling center and they have to be the ones to do it. Yeah, that's the big point there. Yeah, they have to take the first step.

19:59

That's right. it. And I think Jimmy that that, that that is an important thing that can be said there, first of all, to take that first step. Let me back out here, that first step, it seems as though you're all alone, you're in the dark. Sure you don't know what's going to happen. But I will guarantee this, that once you take that first step, that first step, you will find that, that the darkness just disappears out of nowhere. Okay. And the hope comes in that there are people out there. And the only thing that why it seems so dark is, is we have been waiting all along for you to take that first step. Come on to us. Because we're willing,

Scott Lewis 20:48

and I'll tell you this, and Tom wants that toaster oven.

Jimmy Carper 20:52

Tom wants that toaster oven. But anyway, but you know what you said just now about coming out of the darkness. It's the same for the bigots because once the bigots are just afraid of something they don't know. Exactly. And once you know someone who is gay or lesbian or bi or trans, that fear just kind of melts

Scott Lewis 21:21

away. It does. They go through their own coming out process. Yes, it is.

Jimmy Carper 21:25

Very true. Yeah. And it must be really tough for a dyed, dyed in the wool bigot or, you know, someone that we think we may think of is probably a closeted gay because they're so vocal against us. That must be really tough for them.

21:48

Well, really, I cannot, because I'm not an officer of the of the switchboard, but it's what I'm saying is that as a member of the switchboard, I can volunteer for me. And I believe that that the switchboard will also say, we'll be more than happy to work with the manufacturer. The switchboard has been wanting the members of the switchboard are very enthusiastic group of

people, the ones I have met, and very caring and loving people. And, and I think that once this idea is put over to him, let's, let's start putting our heads together. Now let's start coming up with the plan.

 Jimmy Carper 22:32

And that may be the right way to go. Because you know, on our own the whole the whole thing is like insurmountable. But the switchboard is now regrouping, you know, we're building back up, we're small. And you know, just the whole idea of trying to cure the ills of the world of hate crimes or abuse is just just too overwhelming. But maybe a coalition of people can do that.

 22:59

A lot of times, that's what it does take. It even like to talk about individuals sort of coming out of the darkness and knowing that they're not alone, that it's not only affecting them. A lot of the times it's the same with groups that feel that they're the only ones that are working on their passion. And once they figure out oh, wait, you know, there's Montrose Counseling Center, there's the switchboard show, there's hatchers like, oh, well, you know, I have a support system. Also. That makes that almost re energizes the entire effort.

 Jimmy Carper 23:34

And a lot of it is just getting the word out.

 23:36

Yeah. Yeah, that's the big thing. But I think that we can get the cooperation of the of the game media to do this. But I think it's what we

 Jimmy Carper 23:51

have to do. That's a given. Yeah, absolutely.

 23:54

But I think it's what we have to we have to get together. That's what I'm wanting to do. But I'm more but but I'm ready to say this now. And I'm going to say that the craft of the hate crime against our young in the schools is going to stop there. There. I don't care if I'm the only sob out there that's making that claim it is going to stop. I am not allow I am not going to let it happen. It has it leads to suicide. It leads to depression. These kids are dropping out of school. We don't need that. We need the youth of of our future of our community to continue on. And if you want to call me a chicken queen, I don't really care because I know that's a lot too. And anybody that knows me knows that I like older men and honey I'm 54 years old now that now

you figure how I can get by on chicken. Well, I'm fit for and I like older people But anyway, they are important to me, I see them as a vital important part of our community. And I am not going to allow it to continue some way or some way now you're going now. Now people

 Jimmy Carper 25:15

have strong words, Tom, strong arts.

 25:18

Yes, it is. And, and I make no apologies, Try me. That's what I say. But it's not going to continue. I'm not going to let it continue. And this was the point, this whole thing was hard. Because the more I looked into, the more I dislike, and that one story I told you about is not the only one time

 25:42

now, I'm sure they're in vast numbers extremely,

 25:46

this was a very hard thing to put together. Many times I've just sat back, I've started writing, and, and all these things just going through my mind of what I've heard and people I've talked to, for instance, there is out here in the Montrose area, where we're 14 year olds are being prosecuted. prostituted on the street, and there was this fat ass out here, that's getting some tell him, I'll pay you this amount of money and then take them out there forcibly, right? That's happening in the micro, and that's going to stop. That is going to stop. But because these kids seem to have no alternative, and Mom and Daddy threw him out of the house, because they don't want a career in a house. Okay, yeah, then they're taking advantage on the street. And that's not gonna happen, we're going to find them a place where they can be safe again,

 26:45

we really do need to give the, you know, the youth, specifically the gay, lesbian, bi and trans youth voice? Yeah. Because so many times the youth in general, don't have a voice for what's going on. And it's just compounded by so many more barriers, you know, dealing with sexual orientation. So, yeah, yeah, I totally agree with that.

 Scott Lewis 27:14

You know, I saw a review copy last week of a film that's going to come out, I think, in about two months, called boy's life too, if you remember, I guess a year and a half ago film called Boy's Life, which was three short films about gay youth. Now, they have four short films, one of these films is an interesting story about a gay bashing, gone awry. Five or six guys going to beat this

couple up, when they come out of a club, one of the guys is a cop, and he turns it back around on him. And I'm reminded of that, as we sit here and talk about this and think that's kind of the ultimate gay bashing situation is to turn it back around on them. Unfortunately, that's very rarely possible.

27:55

It's what I would like to see, especially during the summer months, also, is for these kids to have a place to go dance. They don't really have any kind of activity that they can that they can say, wow, we've got a dance on Tuesday night, every Tuesday night, we've got this dance we can go to and because we're so afraid, that good heavens get the hang around the bar scene, the cops are gonna rageous No, they're not. I saw a group of these just wanting to be in that atmosphere of gay people. And it's all they were doing was walking up and down Pacific street, they just want to feel the excitement of being with other gay brothers and sisters around ramp symmetry, do an interesting go to the bar. And and then I witnessed people on pacifically tell her it will go Why are you here? You know, you don't need to be here on Pacific Street to hell they don't. They're a part of our community. They're not going into bar. They just want to feel that togetherness. And if we reject that, then how much more and I'm not willing to settle for that. But I'd also like to see a place open, where they can go back where they can go and enjoy themselves.

Scott Lewis 29:17

Tell where people can go if they want to be involved in what you've proposed, as well as if they want to be involved in the Montrose counseling center until the little bit about the services that y'all offer.

29:29

Okay. Briefly, we do counseling case management and education, and primarily with the gay lesbian, bisexual and transgendered communities. And we have specific concentrations of HIV AIDS, chemical dependency, more generalized counseling and in the hate crimes program, and our phone number is 713-529-0037. And if any of these things that we've said tonight at all triggers anything with anyone, please give us a call. If it's a coming out if you're having some questions, if the Elon episode just pushed you to the point where you need to talk to someone, and there's no one really to talk with, you give us a call. And you know, we'll talk with you.

30:23

And the switchboard is five to 930 to 11, five to 930 to 11. And it's unfortunate, but because of volunteers, we're not able to stay open 24 hours today, although we'd love to. We do have limited hours, usually from seven to 10. Sometimes we're we're there at six o'clock, and we'll stay to 11. I didn't know what to do that. Or 1030.

Scott Lewis 30:55

Scott Lewis 30:55

Tom has been known to stay till 130. And he throws little dances. A real table dances Oh, Jimmy usually tips the most.

31:03

Well, we've got some other

Jimmy Carper 31:06

other people to come on the radio. Yes, we do. We've got several other things to cover tonight.

31:11

But let me say Gary had bald spot on your head again

31:13

being here. And please count on me to be in contact with you. Again, if I show up down to the counseling center sometimes, and say I want to see Gary Norman, and you're busy just say, Come back later, you'll vessel B and see me.

31:29

I won't be saying that.

31:32

You wouldn't be the first one. But anyway. Do I know you think that

Jimmy Carper 31:41

maybe I am. But anyway, now we've covered a very, very sensitive topic tonight. And a very serious one.

31:49

And I will be going to PFLAG tomorrow and we'll be putting this full face in front of them and what I've got in mind. I have an idea of what I want to do. How how I want to go about doing it. I'm not very good at that.

Jimmy Carper 32:04

Okay, well, in future week you're gonna report on it.

32:07

Yes. And we will and and as a member of the switchboard and I can assure you that those I know that are on the switchboard would be excited with working, working with you on this. Within the prints of the switchboard, I plan to even personally go outside of that and work together with the head on because I think it's very important. Now hoping P five will become involved, gay and straight teachers and also also hatch. I think it's important that we have all these programs together, working together toward a common goal. Right and definitely, that is helping each other. And I appreciate guy.

Jimmy Carper 32:50

Thanks, Tom. Tom, we

Scott Lewis 32:51

appreciate you putting this together for us, Gary Norman, for coming out. So late on a Saturday night.

Jimmy Carper 32:55

We Gary Norman ripcord whenever we asked Gary to come on the show. He's always here. That's what do you

Scott Lewis 33:01

normally do on a Saturday night?

33:03

Um, listen,

33:06

J

Some kind of like, well, it would have been like you at the French Quarter until you said new Oh, well. It's called fighting fit and it's by Jean. God is this gene? No, no, no, no, it's I think you get the out you should go. You should go to the record store and look for jeans album. It's called drawn to the deep end. That's Jimmy Carper of the cover.

J

It is not his Jimmy.

S

Scott Lewis 34:08

S Scott Lewis 34:43

J Jimmy Carper 34:46  
I mean, keep going. We want to touch a little bit on because we know very little bit about the the Gay Lesbian film festival that's happening this year.

S Scott Lewis 34:58  
I thought you were going to talk about those spreads A hair adhesive things. bald spot? No, no, no then it couldn't have been that because you know a lot about those because you buy it by the case. Hey, so anyway, the Gay Lesbian Film Festival. I'm excited about that. When's it happening and what is happening, you know, later in the year, okay, it's I think the end of May through

J Jimmy Carper 35:17  
kind of like into Pride Month. That's great. Okay. And it's happening, just not at one place. It's happening at many different places, right, like

S Scott Lewis 35:27  
your sex life. Yeah, it starts out at the landmark theater with the world premiere of love valour, compassion, ooh, love elegant passion is of course based on Terrence McNally's play, right, which is going to be at the alley at the same time. And it's been made into a movie with Jason Stewart. I know Jason Stewart that pricy gay comic, bitch, I hate her.

**J** Jimmy Carper 35:53  
No, the other one. Jason.

**i** 35:56  
What's his name? Jason.

**J** Jimmy Carper 35:58  
Alexander.

**S** Scott Lewis 35:58  
Jason Alexander. That Jason Stewart in she a bit Oh, I just wanted to rip that wig right off her head. Oh, no, man. Don't you dare give that horsey back his hair. I can't believe it. So anyway, Jason Alexander from CSL. He's the shorter guy with the balls funnier. Yeah, he

**J** Jimmy Carper 36:18  
does all those great computer commercials about meeting somebody over the computer where you can see each other. Well,

**S** Scott Lewis 36:24  
people who don't have people watch those. So anyway, which amazes me why I haven't seen one. So anyway, he plays the Nelly us little queen in this movie. They sent me a two minute preview. He is hysterical. And if you saw him on OUT magazine, he was on the cover with us and with that gorgeous model only wearing boxer shorts. Jason Alexander had his hand on the front of the boxer short Yes, possibly checking the Mercer Dyer with possibly just making it look like he was checking the merchandise with a big gasping look on his face, or be checking that merchandise and you'd be buying it with one of Stanley's credit cards we talked about. So that's may 23. I believe that that opens what else is coming up in film all Flamingo? hengstler

**J** Jimmy Carper 37:09  
Mangoes the revival and I hear it's only going to be here for a week. One week. That's disgusting.

**J** Jimmy Carper 37:36  
Well, yeah, this they've added to it. Yeah,

**S** Scott Lewis 37:39  
in John Waters comes back on he talks for about 10 or 15 minutes and shows a lot of things that were supposed to be in the original script. Yeah, it cut out and talks about them and shows the scenes at one time. It's real funny one time he says you know I don't know what the hell we were thinking when we did this agenda. See? I those that confused me. I've never seen anything like it. But it's classic divine classic John Waters and what's

**J** Jimmy Carper 38:04  
what what's great is that it was made, what 25 years ago. And even today it was

**S** Scott Lewis 38:09  
right you just start you'd gotten your first Social Security Great. Yeah.

**J** Jimmy Carper 38:14  
And even today it is am I'm quit even today it is still shocking. Oh, you know

**S** Scott Lewis 38:20  
what? That's true. Yeah, one of the quotes about it in the press kit was like an exploding sewer. It has like an exploding sewer. It has to be seen to be believed. Yeah. Let me tell you it is like an exploding sewer. Not much shocks me anymore. Also shocking was that Huster white. Did you see that?

**J** Jimmy Carper 38:38
