00:00

It is but this is to like, the public.

00:03

They know who you are. They can't see you.

Bobby 00:05

They can't see you.

00:06

All they have to do is go to Hollywood and look for the twins. They'll figure it out.

00:13

There's this one twit pair of twins who comes in they're like holding hands and stuff that's hot

00:20

that we're on the pool table.

00:22

I have to go out I need to go hang out at Hollywood. And

I hope so cuz I need to go hang out at Hollywood. And

c

Chris Harrison 00:26

remember if you if you swing by Hollywood, and you see the sets of twins, the gay are looking one. Okay.

o

00:34

You know what I told this girl at school this week, we're sitting there in history class, and I was telling you about a friend of mine who's a makeup artist and she was like, How come you're not gay enough you don't do any gay things. And you Aetna, you act two straight. And finally I got so fed up with her listening to her bitch about how gay I wasn't. I was like, You know what? I suck dick. That's enough for most people. Okay, it should be enough for you to

o

01:00

get that shutter out.

o

01:04

My teacher he's a really cool guy. And he's really hot. But he's like, Travis, I'm cool with it. But she can't say it that loud in class.

B

Bobby 01:19

Chris has an aneurysm on the other side of

o

01:25

me it all the more

c

Chris Harrison 01:27

and more I'm looking at this. I'm not sure whether I want to go to this event to protest or to join in the what event? Exodus is coming to Houston. And I just had just took a while researching to figure out what church is going to be

o

01:45

which probably my late

C

Chris Harrison 01:49

February 19 to Grace Community Church i 45. And oh, incidentally, I live right now. The farm row, Grace Community Grace Community Church brand new building.

J

Jimmy Carper 02:00

And that is not Grace Lutheran. Jones. Very different churches, folks.

C

Chris Harrison 02:05

And I gotta tell you this, you know, you know, I'm going there. If only if the music director will be performing. Oh, hot. Kinda Yeah.

Ω

02:19

This ladies and gentlemen, is why people go. You know, the thing about X's international they call how many people come in every day and stuff. Think about how many are going out.

Ω

02:27

Okay, wait a minute. Is he gone through the Exodus? Hello,

Ω

02:34

looks like I know someone who was one of those. Yeah. And he said he's never gotten so much in his life.

Ω

02:42

That's what I'm thinking. I mean, it's like going to a Sex Addicts Anonymous and getting laid in the parking lot

Ω

02:49

was Jim Gray, and he's a big old fat guy.

Ω

02:53

Exodus International, the group who's to like leaders were spotted coming out of a gay club in Washington, DC. And then they left their wives for each other. Yes, okay. It works. Ladies and

gentlemen. Okay,

 Chris Harrison 03:05

now here's the thing. Okay. And now we're looking at the conference speakers. They've got two female speakers. And the one is it doesn't know how. But here's the thing. The one she's in this fairly normal business, female business conservative attire. The other woman who has supposedly been fixed. wearing a tie, ah, obvious. And a sport coat. Not a woman's sport coat because there are no shows. I don't see shoulder pads in there. There's her her shoulders. She is the she joined focus family and his homosexuality and Gender Analysis. She served as executive director of crossover ministries

 03:49

while she crossed over.

 03:52

I saw a button the other day that said focus on your own damn family. I like that. Yeah. Did anyone read the article about Exodus International and groups, such as them in the Houston press a couple weeks ago, but a month and a half?

 04:06

Set the train on the cover? Yeah,

 04:08

it was interesting because the all the people they interviewed Yeah, all said I never felt sexually attracted to men. However, I never fit in with girls. So that's just who I ended up with. Okay, if you are not sexually attracted to men, you aren't gay. Okay,

 04:24

I'm sorry. That's pretty much it. And yeah,

 04:26

I mean, there's a lot more to it than sex. Trust me. I could never feel the way about a woman I do about my boyfriend emotionally. But if you aren't sexually attracted to men, you just aren't gay. Just like I'm not straight because I'm not sexually attracted to women. Exactly.

J Jimmy Carper 04:40

And my theory is most of these people are really bisexuals who are repressing their same sex desire,

04:49

a lot of screw up. Well, something happened that screwed them up in the head. So they thought well, I can find acceptance in the gay community because we accept pretty much anybody How

J Jimmy Carper 05:00

can we say fundamental religious dogma?

05:04

You know, there's there's all kinds of reasons that people have for going and whatever. And like, you know, there's plenty of the gay community have parts of the gay community that can be really annoying and drive you really insane. No, they can be really, really dark places for a lot of people to go. That drug addiction is rampant. Yeah, the sex is promiscuous. Drug

05:28

addiction is rampant everywhere, though, I'm sorry. To say the straight people are doing drugs.

05:34

But as, as an entire community, it's much more open and accepted in the gay community. Because we are a community there is no straight community. It doesn't, I'm telling you, like I've been in both sides. I've been in both sides of the drug world gay and straight and everything in between. And the openness that you have in this, the gay community and the if you were to take the same number of gay people and the same number of heterosexual people, I'd be willing to bet you'd have a lot more frequent abusers if not out and out addicts in the gay community. And a lot of that is trying to step away feelings of oppression and differences and things like that.

06:12

I mean, maybe it's because I'm in high school, but like, pretty much 75% of the people at my school do drugs.

06:18

Yeah. Okay. That's a normal part of growing up, but don't do it. We're talking about grown adult career oriented people that are still out in the bars that, you know, whatever age they're at, doing drugs, and so I can understand an idea of like, wanting to escape, but you don't want to escape to that. I mean, there's other ways of getting out of those things. But

c Chris Harrison 06:40

it's gonna be, you can expect to get answers to tough questions like, Is it genetic?

06:46

And what do I still want to do with my hand cannot be prevented?

06:51

Oh, stop taking thyroid pills, ladies while you're pregnant?

c Chris Harrison 06:57

No, no. It was

06:59

also a roid and diet pill, which is funny because my mom took thyroid pills. And now you're gay. My mother, and my sister is bisexual and my stepsister is a lesbian. Three out of eight is not bad, folks. Three out of eight.

B Bobby 07:12

My mother took thorough thyroid medicine, and I'm the youngest of seven. And I don't think my mother was ever a lesbian. Although she did bear striking resemblance to Ethel Merman during the later years causes

07:25

it causes lesbian babies.

c Chris Harrison 07:28

What is being taught in school? What causes homosexuality? What should I say to my children about it? I don't think it's right. What should I do?

 **Bobby** 07:38

I know what exactly causes homosexuality, straight people, anything,

 **Chris Harrison** 07:43

I think conservative right wing fanaticism. What should the Church's stance be? What about gay rights and minority status? And how do I help my friend who's gay? Help

 07:57

drop to your knees and unzip his pants.

 **Chris Harrison** 08:02

Comments from past conference attendees? My husband and I are both public school teachers. And we will use this information to confront homosexuality within our school conference.

 08:12

No, no is the is the drawl written?

 **Chris Harrison** 08:15

Now it's just interpretive.

 08:18

Well, you know, it's there. Okay.

 **Chris Harrison** 08:21

One thing I especially appreciated was hearing from former homosexuals. Anyone that can give facts and figures but honestly, if I want to learn how to build a house, I go see a carpenter. Thank you. Jesus.

 08:36

Straight line.

08:38

Oh my god.

c Chris Harrison 08:40

If you want to make that house fabulous, y'all find a fag tomorrow. And

08:44

while you're on that, I mean, they act like we don't have any place in their frickin lives. And it's like, who would do your hair? Who would do your flowers?

c Chris Harrison 08:54

That stale package of honey rose peanuts on the airplane a man, you know,

B Bobby 08:59

she's on the subject of carpenters. Perhaps they should go back and read that fuck that involves walk on up a carpenter once he wants to

09:11

walking around the desert with 12 men all that time.

c Chris Harrison 09:15

This seminar gave me intelligent, balanced biblical information about the causes of homosexuality and action I can take within my community,

09:24

balanced and biblical in the same sentence.

09:26

But I'm gonna go out on a limb here and say intelligent and biblical cannot exist in the same sentence. Yeah, that's

C

Chris Harrison 09:32

like, you gave me permission to love my child in spite of his homosexual lifestyle, and to make it clear to him that his lifestyle is not what God wants.

O

09:42

You're going to hell faggot. I love

B

Bobby 09:46

and if you believe most of this, you also believe Moses was 900 years old. Okay,

C

Chris Harrison 09:53

so now they're having, you know, they've got to take someone who overcame lesbianism Ah,

O

10:00

thank God. What is that?

C

Chris Harrison 10:06

Dr. Dick we'll be there Oh, I'm sorry Dr. Dr. Dip what is the

O

10:13

date of this conference? This is just in case any of our listeners want to go become St. February

C

Chris Harrison 10:20

9 2005 Grace Community Church four to five.

O

10:28

So want to go oh my god. I want to go sit in there and take notes last

B

Bobby 10:33

name.

c

Chris Harrison 10:35

It's a dynamic one day conference addressing understanding and preventing homosexuality preventing.

o

10:41

I'm gonna offer the condom I'm gonna offer them \$10,000 If they can change me right there on the spot. And I will do it. I swear to God, I will bring in any him.

c

Chris Harrison 10:48

They'll bring in Benny Hinn, they're on the hands and I want to be

b

Bobby 10:52

there. I know what I want from you for Christmas.

c

Chris Harrison 10:56

For those people who are interested, you know, it's always good to see what the other side's talking about. It is love one out, I o v e w o n. O ye o even have the word out. there.com the church if I remember correctly, is grace.tv. To be all the grace ones were taken in the United States, so they had to go to two Boulia to get their web address. The story on the Houston press was back in October, the article just go to Houston press.com. And you can just put in Exodus and it will take you to the October 14 edition of the story called The reorient Express

o

11:41

is there anyone listening who actually like believes that they could be changed? Yeah, I've Africa after

c

Chris Harrison 11:47

I leave some of these shows. You know, I'm ready to call Exodus.

o

11:53

Does anyone here think you could be changed? No. Does anyone does it? Okay. Does anyone here think you weren't born gay? My boyfriend doesn't think anyone is born gay. He doesn't

think anyone is born straight.

B Bobby 12:04

Your boyfriend is also a rabbit.

♀ 12:08

publican. Oh, my God, would you people drop it? Oh, I love you anyway. No, he thinks people are born with no sexual orientation, some whatsoever wrong somewhere along the line, like something happens to them. And I think that's absolutely ludicrous because my straight identical twin brother and I had the same upbringing. Okay,

C Chris Harrison 12:27

well, what's happened now? Has he told you what happened to him that thinks was his trigger?

♀ 12:32

I don't think he knows he doesn't know he just thinks that something. I he doesn't think it's like some abuse or something. Just something, maybe nothing that actually happens to you. But somewhere you're in brain development after you're born. When does he think this happened? I have no idea.

J Jimmy Carper 12:49

Because when I was four years old, I was playing around with the other four year old down the street. Now, you started young. You know, for me, it's it was just a natural thing. I didn't know what it meant until I was in my later teen years. I never heard the word homosexual until I was 15 years old. Like I've seen exactly. When I was, but that was it. I mean, it was that it just came naturally

♀ 13:25

very much. You know. Yeah. Having

B Bobby 13:27

met your brother though. I can't imagine that he actually gives a crap as to whether what the reasons are why you're gay. And he's straight. And you know, I mean, it just doesn't seem you know, it doesn't bother him that you're gay.

13:45

Oh, my brother. Yeah. Oh, no.

**Bobby** 13:47

I mean, it doesn't faze him in the way that was talking about. Yeah, you know, yeah, it's

13:51

my boyfriend who thinks that we were not born gay.

13:54

Were weren't born with an orientation.

13:57

Yeah. Well as I can handle that a lot better than like this girl the other day at school telling me I was born straight. But something happened to me to turn me gay. I'm like, No, I can accept the theory of you're born with no orientation. She hasn't lived life. That's kind of I can somewhere see where you're going with that train of thought, but telling me that I was born straight now. That's just absolutely plenty.

14:19

I was prancing and my Pampers. Okay, I was born with a walk that i

14:24

i Seriously.

**Bobby** 14:26

Costume at nine. I found

14:28

a picture of me and my brother the other day when we were in preschool. We had our lunch kits. Mine was pink. Okay. I'm like who ever bought me that lunch kit turned 50k Thank you, mother.

14:38

It's the lunch kit. You know I had one with all the NFL football helmets on I'm kidding. But I mean it was like you know you couldn't have had a more open up brand. My mom pushed me in absolutely no direction whatsoever. I wanted GI Joe she got me GI Joes Barbie. I got Barbie if I want had Tonka I got Tonka if I wanted the Malibu Corvette, I got the Malibu Corvette. I mean it was like Well, whatever her theory was make him happy. Don't let him cry. Like, you know,

15:11

oh man carry at four years old. How did she feel about your dressing up and like, my mom's clothes?

**Bobby 15:17**

See, I never had a thing from my mom's mink coat. Ever. I

15:21

never dressed in my mother's clothes or her brother did.

**Bobby 15:26**

Expensive case ever. So

15:27

my most vivid memories really dressing up in my mom's clothes and wearing her like high heels.

15:34

Because I mean, we're talking about this the other day, I think and someone said, Well, what boy hasn't done that gay or straight? And I was like,

15:41

never. You know, a lot of them won't admit it. Yeah,

15:44

15:44

I'm okay. I would come clean about that. If I had I've dressed up in a dress for Halloween ones.

B 15:51

Like Joey Sugarbaker with a five o'clock shadow isn't a good

15:54

time to dress to

B 15:56

a pantsuit, darlin pantsuit. I wanted to just briefly go back to Jimmy's question that started this insanity about what what about what, you know, whether we'd be doing things that we wanted to do, as opposed to what we need, we felt like we had, like we had to do. And for me, that's, it's it's it's no longer about doing what I feel obligated to do, because I have no relatives here. I have family. And it's just and and for me, those are two different things. I will I know I will spend it with people I consider family I just, you know, and thusly I will be doing something that you know, I want to do not something that I love. I must do

16:52

consider family to be not just you know, their biological family, but the people they interact with, and that kind of way. Yeah, yeah. I mean,

17:03

that's I genuinely like most of my family so it's kind of fun and I love all the kids so it's like, gives me an excuse to go hang out at Toys R Us.

B 17:14

Calm going to Toys R Us. It's the buy me stuff like you need excuse.

17:18

I know, but you know you can only buy yourself so many bars.

17:21

I wouldn't I was in Value Village day before yesterday, and I saw an orange jumpsuit and I

thought if he called me immediately. I seriously thought about it. But I don't think it would have fit you. I'm sorry.

17:36

I don't need it to fit me. I'll find

17:39

he just wants it at the bottom of his bed. That's all he needs such as fetish as an orange jumpsuit at the bottom of his bed.

17:46

Strange fish.

17:48

But cool. Go to county jail. Glass tiny strange fetish. Let's see I dress up like weird furry animals and rub myself on other people while wearing the costume. Yeah, that's a little bit. That's kind of bizarre.

18:03

Yeah. Strange is cool.

Bobby 18:07

And I dressed in a top hat and brightly colored blue clothes. You know. fetish

C Chris Harrison 18:15

to wear our favorite Husky is

18:18

next question, because I have a little blue.

18:23

I'm so happy to be vanilla. You're just vanilla eyes. You don't have anything

YOU'RE HAPPY TO BE VANILLA. YOU'RE JUST VANILLA CYES. YOU DON'T HAVE ANYTHING

 **Bobby 18:27**

yet. Vanilla. Right. Your obsession, honey. The elections been over how many months now? You've still got carry on your call? It won't come

 **18:41**

off. It's shoe polish. Okay, I've scraped at it. It's scraped off some. I've tried. Yes. And that is not a fetish. It doesn't get me off. Well, John Edwards does. No Oh, that reminds me. Why are there no bookmarks in Washington, DC?

 **Chris Harrison 19:07**

God? Let's do another joke. I

 **19:11**

prefer their pages bent over.

 **Bobby 19:16**

Yeah, I get that. Everybody in the room? Like Yes. Heard that one.

 **Chris Harrison 19:26**

That's been around since before you were born.

 **Bobby 19:29**

Because you know that scandal was before you were born. Yeah. When Barney

 **Chris Harrison 19:33**

Frank. That was Mr. Barney Frank. Mr. Frank, he, unfortunately his little rent boy at the time was running a bordello out of the representatives apartment in Washington. And that was so he got a little slap on the wrist and a tingle later on. Ah, let's do the story of the weird. Thank you. I actually got busted for something here. A doctor please give We'll see the oral sex case. The unwanted one. Yeah, a Bronx Doctor Who began performing oral sex on a patient while examining his genitals, pled guilty sat Thursday to sexual misconduct prosecutors day. Part of

the plea agreement. Brian Shaw 42 of Wilton, Connecticut will be sentenced to six years probation and required to register as a sex offender just for a blow job. Yeah, the DA said the VA he's a

20:28

doctor they they hit them hard.

c Chris Harrison 20:30

Sentencing was set for February 2 2005. He also had to surrender his medical license. The patient a 49 year old truck driver had gone to the Throgs Neck urgent medical care facility. Strange name. Let's just talk about this again. I received a VJ at a place called Throgs Neck urgent medical care. And he's upset

B Bobby 20:52

I'm done that there's any that

c Chris Harrison 20:53

truck driver Come on, and because of a rash on his chest and legs Throgs Neck bridge, Oh, where do you get the rash. During the examination, Shaw began to examine the man's testicles and then performed oral sex on him against his will.

21:08

What? What he had tied to the Padam tied to the bed or something.

21:16

He didn't they didn't say finished him off or something. But he just started

c Chris Harrison 21:20

that now. Here's now here's the reason why was probably a little severe. He was acquitted of a similar charge in 2002. He's a repeat offender.

21:30

Well, and they also penalize doctors a lot. Because

c

Chris Harrison 21:33

yeah, because it was yeah, it was, you know, abuse of power, mistrust of power. But you know, come on, even if the truck driver was straight,

o

21:43

he was just checking for a hernia? or more,

o

21:47

can they do a taste test?

o

21:50

From understanding there's a lot of truck drivers that get things done.

c

Chris Harrison 21:54

But I mean, come on. I mean, how many guys?

o

21:59

If you're serious? Actually, no, no? What? Do you really not understand where this truck driver is coming? From? What

c

Chris Harrison 22:09

I could understand that being a doctor, but I mean, going to trial,

o

22:14

I'd probably be pretty upset, too. I mean, if some doctor just start going down on me all the sudden, it's just kind of you just don't do that.

c

Chris Harrison 22:22

What was the other thing is this, okay, you've got this truck driver, he's gonna be these manly kind of guys. Okay, he's having to admit he got a BJ from another guy. So, you know, there's that fear factor for him. There's a second thing of, you know, we're talking about this. A lot of

the truck driver culture, you know, what goes on in truck stops and rest stops and all that. Yeah. You know, I can understand, you know, that was not what he was expecting when he got to the doctor's office. But, you know, to have charges brought in six years probation for this, I can understand losing his license. Yeah, that's understandable. Because, again,

23:00

I don't think your truck driver had to do with the sentencing

c Chris Harrison 23:03

charges.

23:05

I would, too. I would press charges against a doctor, if you just started. If you just put my dick in his mouth while he was examining it. I mean, that. Oh,

B Bobby 23:14

I, you know, I think, I don't know there's something because I think it would occur to me that if if, you know, given the the reputation of truck drivers and stuff and such, you would think the truck driver would simply just sort of, you know, give the guy a broken nose and Lee Yeah,

23:37

well, we don't have all the information. I mean,

c Chris Harrison 23:40

I read you the whole article. Was the ACT completed.

23:46

I wouldn't be happy if it wasn't completed. But I'd be like, Oh, okay.

c Chris Harrison 23:51

But, I mean, yeah, there are some aspects to it. I'm like I said the fact that was doctor patient. Yeah. But you know, the fact that this thing went to trial,

23:59

they've never seen my doctor

Chris Harrison 24:05

Well, that's all the story I had on that one.

24:09

Lucky truck driver, bad doctor.

Chris Harrison 24:14

What's new, you're good at accounting, and

24:19

he needs to practice his medical.

Chris Harrison 24:22

Yeah, but see, he doesn't like I think I think the orange jumpsuit remember was six months, six years probation.

24:26

That's okay. He's still on paper. He still has an officer to report to it can rugs near

Bobby 24:32

the Throgs Neck bridge is in New York. So it's also a town of the same name in New Jersey and Pennsylvania.

24:42

He said a Bronx doctor how old the doctor was from Connecticut. He went to the Bronx to practice.

Chris Harrison 24:48

CHRIS HARRISON 24:40

I hate this. New Start typing on the board. Not the keyboard that wasn't going to work

24:54

doesn't make the computer do things right. I

24:56
