The following program contains language or images of a phrase or a sensitive nature which may be considered objectionable by some listener discretion is advised. Oh yes, you've tuned into after hours queer radio with attitude right here on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news interviews, dialogue and music geared for gay, lesbian, bisexual and transgendered people and their friends. Hear it after hours, we may be diverse, but we have one thing in common. We are all out of the closet and urge everyone to come out of their closets. That means standing up for yourself taking responsibility for your own life and being proud of who you are. Realistically, we know not everyone can do that because of age job or frame of mind. That's okay, we're here for you too. So sit back, relax, and enjoy this week's edition of after hours. Hello, Houston and college station and welcome to the May 6 edition of after hours on Jimmy Carper. And a couple of things I want to put in your ear is that let's see. Let's see. Let's see. First of all the music that you heard was that last song was off of a great new CD from the mp3 people called main stream in volume one and it's all queer music. That was the song number one Deidre McCalla, who has been around for quite a while doing queer music called girl you don't know. And you can get that mp3 Just click on there and ask for mainstreaming volume one and you'll be able to listen to clips of all of the songs that are on here and listen to some new gay artists as specially they've got the John Gilbert leave it song pride that you that everybody loves that's on this CD. So check that out before that was from a another compilation called out loud. And that was the original virgins doing a song called heaven. So, just very quickly, I want to say a few things before we get into the bisexual night. Yes, and DD it's bisexual night, folks. First of all, stop by and see your friendly folks at the community resale shop down at 515. Richmond, they can use what you don't need, and they probably have a few things that you'd like to pick up on. That is a great place because AIDS patients are allowed to go in there and pick up 20 \$30 worth of stuff every month or two. Right copy Richmond

B

Bobby 04:08

currently like \$35 every form every four months. Okay, and yeah 15 Richmond that's where I get a bunch of my clothes. Yeah,

04:17

I go to I go. So yeah, it's you

Bobby 04:23

know, it's just a little claustrophobic little place. And you go rifling through stuff and go Ooh, that's nice.

04:30

Most everybody there's volunteer where the shoes came from. Oh, really? Those are fat boo. And my phone

04:39

seems a little limp tonight. Yeah,

04:40

I must have had a day like mine. I was I got my monthly haircut today over at Marvins well, actually Thursday over at Marvins in a barber shop over on nother business on Richmond Avenue. That is for the A community around I don't know, 1300 block or something. strip shopping center, something like that. You know, 6570 year old man who's been in the Montrose hair for 42 years a good low it's like the barber shop you you went into when you were a kid, your Daddy took you into that kind of thing where now you can go in there and be queer. Oh, there you go. Mixture of every hairstyle

Bobby 05:27

Yeah. ever known to man.

05:30

It's the kind of place where your dad would check you. Yeah, right kid. You

05:34

bet my dad did take me to one above 00. That's

05:37

right. You went in there got the ball D for summer, right? Yeah.

Bobby 05:41

I remember those. My father used to take me to this little Italian guy who used to do hair cuts like that. It was just like, then people wonder why gray hair like this?

05:51

No, no, I know. So there's a mixture of you know, really old straight men and gay men. So there you go. A little something on the serious side. A member of the Royal Sovereign and imperial court of the single star Jerry Moran is in Hermann Hospital. He is a an M. Past emperor of the court. And we'd like to hear from you. He's in Jones pavilion, room number 661. You can send cards there or Go Go Sam, in case you didn't know about this Jerry Moran and Herman hospital. And there's a new pot pie restaurant right on Richmond at Greenbrier across Greenbrier

Bobby 06:43

roughly in front of that new place. It's where the that the gumbo shop used to be? I guess what they used to call it the not so very long ago. It was the gumbo shop now and then it's been a few other things. Yeah, it's

06:58

not so high. And it's huge, you know, and it's really nice and big. And I was talking to John there tonight, the owner and he's looking He's got the whole upstairs space too. So he's looking to make that into a party room for gay groups. Cool. Excellent. And there is so much room there that BiNet could meet there now and have their own little corner. Wow. Speaking of buying that they are here. And before I introduce anybody I want to say I am quoting Eric ropes. He political advocate for sexual freedom. As a friend once said to him, I love bisexuals. They're the only queers left that still have sex in their name.

07:48

And is that? Is that true? Is that true? Is that true?

07:52

Inside a voice outside?

07:50

07:58

Yeah, Gigi is here with Jay. Oh, yes. And Jim was here a minute ago, he disappeared.

**B****Bobby 08:08**

He just sort of drifts it and you wouldn't think that somebody who you know of his particular, you know, size, size and appearance could fade in and out of the woodwork so easily. Yes, he does. Yes. You know, he does it admirably. And another thing,

**G****Gigi 08:26**

and we got tonight, Jay is here to do book review. Oh, good. She's gonna do the John versus Joan. Well, John Jones case on money.

**M****Michelle 08:37**

And there was a article in Rolling Stone, what a couple of years ago or something that kind of exploded the myth behind that. And then the author of the Rolling Stone article went on to write a book called as nature made him and I've been seeing this thing everywhere.

**◊**

09:00

Yes.

**M****Michelle 09:02**

Often enough in a science fiction book club, they had thought that was very strange, but it's very strange. I mean, it's just this has been everywhere. It's in every bookstore I've been in. So don't say

**G****Gigi 09:14**

coming to that. And then of course, well now it's Sunday. It's National masturbation day. Yeah.

**◊**

09:24

And here we are. It's Biden that night we're doing nude radio

**G****Gigi 09:26**

Yes. Name radio.

09:29

Dado almost anything.

09:32

New radio is happening right here in this station. Oh, yes.

Bobby 09:37

Getting neutered by the minute. Keeping my clothes on. Thank you. Masturbate. Done. No, thank you. This is it.

09:49

Did this why? What happened?

Gigi 09:52

Basically, it's a fundraiser from good vibration. Well, it'll be something to pledge a certain amount per minute and then you go home and do it and put the timer on and however many minutes you do it is how much you rise

10:09

for a week or get really sore

10:16

labor camp baby

10:18

I just found out about it this past week, so I didn't get the chance to get a whole bunch of people to donate money so Can I Can I still do it?

10:27

Yeah, we can still do okay

10:34

do it then would that still be masturbation though?

Gigi 10:37

Oh, wow. If we do ourselves we can still watch each other masturbate.

10:41

You can have mutual masturbation Yeah, you can masturbate and helping and there's a friend right behind me Yeah, that's one way to put it ready to go very friendly with that one I don't you just love Oh my oh my oh my left where did she go?

Gigi 11:09

But you know it's kind of interesting. You know, the when you sent me that email I masturbation month and masturbation day tomorrow. Got me thinking about masturbation and you know, it's like you've done this in the past. It's like, you know, a lot of times we just kind of whip it out and do it and that's done. Yeah. But you know, I'm kind of made an exercise a while back where I would fix myself a romantic dinner put on candlelight take a nice luxurious bubble bath and just said things can lead one thing to another and make a nine out of it. And you know, we we usually get traveled to take someone out to die

11:58

you're dating yourself but it's something Yeah.

Gigi 12:03

And you know, it's like you know with with think about masturbation is you know, it's like we don't think about it much. No, we don't we just

Michelle 12:14

say they do it. Yeah, it's like considered a deficiency or something.

12:18

I know and to think that men most men's I think I'll bet most men in the world have more sex on the toilet than anywhere else.

12:28

Or shower.

12:33

Yeah, but your legs get too weak, you know, standing in the shower for years now.

Bobby 12:39

Standing thing No, no, no, it's much easier sitting down. But you know.

12:45

Yeah, but then you drowned. Yeah. Of course I'm

Bobby 12:51

less they're there. They're less pleasant ways to drown and you know, there could be hit there are worse ways to go, you know?

Gigi 13:01

flexible enough I can get myself a blow job. Wow.

13:08

I can't bend my

Gigi 13:10

gymnastics days. However, I can do this. If I can do that. I would never leave the house. Me either. Most people say that but that's

13:20

that's. You get tired of different partners after

Gigi 13:24

there's something you get from

13:26

other people. Ah, yes. Sad, sad. Well, I

J Jimmy Carper 13:30

have a little thing here about why masturbate? Ah, good. It says because masturbation is immensely pleasurable, invigorating, rejuvenating and fun. Because sexual pleasure is each Perth person's birthright because masturbation is the ultimate safe sex. Because masturbation is a joyous expression of self love. Because masturbation offers numerous health benefits, including menstrual cramp relief, stress reduction, endorphin release, stronger pelvic muscles, reduction of prostate gland infection for men and resistance to yeast infections for women. Because masturbation is an excellent cardiovascular workout. Ooh. Because each person is their own best lover. And if you're not, you better get that way. Because you're probably not going to be worth much to anybody else. Well, I've

M Michelle 14:28

heard that most men have their first orgasms. Like in their sleep. Yes, and most most women don't have their first wet dreams until after they've had an orgasm and for a lot of women that comes from masturbation really and so most guys have the first orgasm you know without really Yeah, being aware of it, I guess. And for most women No, they don't have when

14:53

I think of it. I think I did have mine in my sleep. The first one because it scared me. I'm almost I woke up and thought I peed in the bed. I'm

15:00

almost sure remember that long.

G Gigi 15:07

I'd like to kind of throw another angle on masturbation,

15:10

so to speak. That alone

G

Gigi 15:14

kind of got me thinking and, you know, it's like, you know, it's kind of interesting. We have so much homophobia out there. But when we touch ourselves, what are we doing? We're playing with the same gender. And it always surprised, you know, even when I was a kid, and played with myself, and then later when a start was able to masturbate to full orgasm, and it made me wonder how can someone play with themselves and think sex with someone of the same gender is bad? Yeah, which I just blow my mind. Yeah, yeah.

♀

15:58

Before we go any further we need to remind folks that this is membership dry. Ha, yes. Alki. Hey, let's get some your edges. Want to grab a mic in there? I've got them all on Jamie. Let's

G

Gigi 16:11

let's get some pledges for masturbation.

♀

16:17

Dress to help yourself.

♀

16:22

We always do. I mean,

♀

16:23

I don't have a headset.

♀

16:26

Here you go. Okay, well,

♀

16:31

this is hear myself. I know I'm on Yeah. Oh,

♀

16:34

yeah. I have all of the auditions on so should be able to hear yourself in there. I don't know

why. You're there. Can you hear now?

16:45

I'll take this one. You know, I mean, before I can pitch I've just, let's see. There's one, two, there's all these naked people in the stage. Totally cool.

16:59

He's getting moist back there.

17:01

Yeah, I'm getting wet. Anyway, well,

17:09

first, I

17:10

can't I need to. Yeah, please. We have a we have a very good, very outstanding after hours. This is a very outstanding outspoken radio program on a very outspoken radio station. We are the best. I mean, I've never been to a station in my entire life. And I've been DJing off and on since 1984. And I've never seen anything. You have to pledge your support. You have to I have to give you the number at 7135 to 65738713526 KPFT. Go ahead and jump in. Jump in at the \$90 level. That's Penny, the debt thing it comes to what 24 cents a day. Yeah. And we have seven offer. Yeah, we have seven open phone lines, to my knowledge, and let's get the phones Regan 7135265738713526 KPFT, support queer radio with an attitude. Right? That's right only as queer radio deaths as queer radio with a very good attitude.

18:21

We've been here for well over 12 years. And we've got some very good faithful listeners out there. Not not the least, including Bill and Jerry, some a couple that I met this weekend over at the community center, it seems that this switchboard is moving in over there. And Bill and Jerry are volunteers. And so what do you know, you know, I ran into somebody that's been listening. And in fact, Jerry has been listening since Ray started wild and wild

18:49

and Stein, and now is back in the early he knows in the mid 70s When they start

18:56

and that's how, how Jerry came out. So and I've heard from many, many people who say that they listen to after hours, you know, in bed with the covers over their head, you know, with the transistor radio, or that headsets or something not. And then the last one to tell me that was Francisco Sanchez, who is now a co host on this show. So yeah, it makes me feel alone. Well,

19:22

let me let me give it let me run down a little story. I've met this dude today from New York, driving around and driving a Lexus from New York City and I'm sure he probably lives in a big expensive condo for 1500 a month in Manhattan. I am in a way he's calling up all the adult dads in the Houston press and the what's the other one the sundowner looking for as you know is what do you call it? companionship, if you can afford to call and I told him about after hours. So if you You can afford to do that. If you can afford to pledge your companionship, you can definitely afford to support this radio station, you'll get a double combination. And you'll have the girls and the Prestea for your companionship and us for entertainment. Seven winds rain five to 65738713526 KPFT. Give us a call we have right now.

20:28

That's right, we have a modest goal to meet. It's not that much. And so what I like to do, and what I'd like to be able to do is just come on very briefly.

20:36

Yeah, very, very, all the chefs have a modest go

20:40

every now and then. And just, you know, say, Hey, this is it, rather than beat you over the head with it, you know, because

20:47

what does that matter scope that

20:49

I don't even know.

20:51

20:51

This is the first time I've ever pitched and didn't know what the goal was.

20:55

But our goal was normally been around three to \$400.03

20:59

to \$400. And we have over and out of 7000 Less centers. Hey, that's a lot less than it was then it's also a lot of money. So pick up there. If we have more than that, really that you know that many people are 71,001 of

21:18

those people would blow us out of the wall. I

21:20

know. I know.

21:22

Now I see the sign back here. It says we have 7100 listeners listener supporters less than or so

21:30

people who actually actually support

21:33

so we have no telling how many listeners Yeah, well 1000s When it says over here Yeah. 112,000 listeners and 7100 listeners supporters. So

21:46

be be that person who's a listener?

Gigi 21:48

Actually. we have more listeners toniaht because we're we up at the word out that we're now

on web radio. Ah, and we've got lots of people tuning in.

21:59

So there it is, folks. 7135265738713526 KPFT. You can even jump in at the \$35 level if you want to \$90 level two or three \$90 pledges we'll make our go. If our goal is what's the goal? 300 Yeah, let's say four \$90 pledge that and

22:24

I'll be a static I'll just pee myself

22:34

the board operator the body fluids

22:36

that might occur here.

22:43

The board operator will pay the person pinching who has may well have an orgasm. Get the phones right and 7135 to 65738713526 KPFT. You love this radio station. You love. After hours queer radio with an attitude. This is the only station in the United States of America with not just queer radio but with attitude. That's right. That's why it's very important for you to pick up the phone and pledge your support. 713526573871352 6k p f t.

Jimmy Carper 23:25

And now for national masturbatory day, I have a special piece of music. Actually, Jim brought it in for me. I'd forgotten about this piece of music, but it's fun. You'll like it. And here we go. You're listening to it on after hours. Quit radio with that attitude on KPFT Houston and ke O 's college station

23:57

that's a lovely little number by name barmston Barnes. Two men who were neither of them are named at Barnes and a they are not related. But hey, you know, they play some really wacky music.

24:12

Yeah, there were three members of Thompson twins

24:15

something. I want to thank Jim Vaughn for reminding me of that piece of music. Bring me well, perfect for Nash national masturbation day.

Gigi 24:28

Yes. And here No, just stay. Here's another little thing on masturbation day just today, Sunday, Sunday. So while it's masturbation month to month,

24:41

kind of come for a cause day.

24:43

Oh yeah.

24:49

That's right. You sent me all of this information, Chris. Yeah,

Gigi 24:54

yeah, traitor. And I want to throw in another little thing on masturbation Yeah. As you know, I found long ago that if you put on long show for your partner and masturbate for them, they can learn really neat techniques to do back on you later. So there's another good reason to masturbate.

25:20

Sure, we can cope with 100 of them.

25:23

I can imagine, well, well, well, well, why

25:27

don't we get into some book reviews? Yeah.

25:35

Yeah,

Michelle 25:35

so see how am I supposed to segue from that? Jump in and see what happened. Well, the book I brought is called as nature made him.

25:47

Wait a minute. This is too good. Chris just handed me a note and said, there is a webpage to go to. For the masturbation Hall of Fame and antique vibrator Museum. Oh, cool. It's www.gotgood.vibes.com

26:06

good vibes. Oh, Howard. Yes. Yesterday.

26:13

The vibrator company Yeah, in San Francisco.

26:16

Oh, I've been there when the Carole queen.

26:17

Oh, they are so nice out there. It's like a little it's a very small place and you know, they're just really sweet and nice to name and China dolls. Yes, they do something for everyone. Yeah. But no, I think we have something for everyone.

26:38

On that site, they take you to the you get to see some of the different things Jocelyn elders of course has her little page on the in the Hall of Fame. Oh, good. She

♀ 26:45  
should

♀ 26:48  
stop on that for national masturbation month. Somebody had to cover that. Yeah,

♀ 26:53  
somebody had. Oh, yes.

♀ 26:56  
We can always count on you for that. You know, but those truly special

♀ 27:00  
event something called National masturbate. Yes, that's

G Gigi 27:05  
what that's this month. And well, it's it's good for you. It's healthy. And you know, it's called for bisexuals. It's called Jack and Jill offs. Exactly.

M Michelle 27:17  
Yeah, I was gonna say didn't last year Good Vibrations had a contest for new phrases. new names for masturbation. Yeah, I can't remember all of one of my favorite was polishing the pearl. That was

♀ 27:32  
nice. Yeah,

♀ 27:33  
I thought that was petting the kitty. That was also

27:40

I can't remember all of that. I've seen

27:42

some women who'd like their kitty slapped a lot

27:49

of people that like to have their monkeys Oh, yes.

27:55

We're having fun tonight, folks.

28:02

You know, hey, we're having fun.

28:05

All of that once you get your money.

28:08

I wanted to have my monkey spanked. I love it.

28:11

So are we ready for the book review now?

28:14

We're really ready now.

Michelle 28:18

Okay, well, as I say the book is called as nature made him subtitled The boy who was raised as a girl and it's by John Cola Pinto or Kala Pinto heavy say his name. He wrote an article for Rolling Stone magazine on this case. In this case, very famous case, John Money is a very famous, I

guess you'd call him a sexologist or something back in like the 50s and 60s and stuff. He was talking about homosexuality and train sexuality and all this stuff. very favorably. And, but he's also the guy who came up with the idea of quote unquote, fixing intersex children at birth or immediately thereafter. His theory was, first of all that a child can be the gender is fluid up until the age of about two years old, two and a half, something like that. And also, he said that intersex kids, if they're born with ambiguous genitals need to be fixed because if not, they're gonna have massive, massive psychosocial problems. So that was that was his theory. Back in, like I say, the 50s and 60s, which has now spread to just about every single country in the world that intersex children are operated on to look more like either boys or girls that well, back in 1967 there was a case that came up twin brothers, one of whom had his penis burned off in a circumcision accident. Oh, I

29:52

know. Isn't that awful? I

Michelle 29:54

mean, it's just Oh, it's just awful. And the horrible thing is the reason why they had the boys circumcised I mean They weren't going to do it. But it was this this they had this condition where the foreskin looked like it was growing closed. Oh, doctor said, Okay, well, the kids need to be circumcised in order to fix this. So they tried it on the one little boy. I guess it was Bruce was his original name. And, you know, oops, there you go and burn off so they didn't touch the other boy. And the condition cleared up on its own. So the thing is, I mean, they didn't even need to do this operation. So it's really horrible. So they had this little boy with no penis, basically. I mean, everything else was perfectly intact. It's just, you know, he had like a teeny little stump. And they heard about John money. And they took the boy to, to money to I think Baltimore is where he was. And money said, Okay, well, you know, tell you what, since he doesn't have a penis, he's going to be completely traumatized for life. He's never going to be able to live normal life just raise it as a girl that's no problem. You know, he's young and if they were 18 months old, it's okay. He'll be fine miss it, just do it what now? And he said yeah, don't worry about it because that was his theory. Nurture over nature completely. So he wrote this up in all and so that's what they did they castrate him and fixed them all up and everything said okay, it's a girl put dresses on it long hair and everything like that. And it's a matter of fact this picture right here on the cover you can see this looks like a little girl running around and stuff this was the kids were like 18 months old just under two years maybe something like that. And you can see you know, I mean complete looking exactly like a girl here little dress the curly hair and everything like that. So this case was made very famous because money never referred to the kids by name but in everything he wrote from then on and still he still maintains this that it was successful little girl grew up and perfect little daddy's girl and very delicate and feminine likes to play with her little dollies and her tea sets and and her twin brothers just as boyish as can be and like to play with his trucks and stuff like that. So he he used this one case to prove that it was the gender was completely nurture over nature had nothing to do with how you were born had nothing to do with it. It just had to do with how the child was raised.

32:09

Sounds like a case of reverse transsexualism.

M

Michelle 32:15

Yeah, kind of. So and so all his work up until then had been with intersex kids and he says yeah, they had no problem now here was a case where the child was completely male. And then due to this accident, you know then was raised female and so he said that it was a complete success you know all this stuff. So there you go. Gender is completely malleable. Well, Kala Pinto in doing all these interviews and he did extensive interviews with people who knew these kids from when they were you know way back teeny tiny had no idea this child was originally born male. None of these every single one of these people said that girl was not a girl. There was something I mean that was not a little girl and this child was never feminine this child never fit into that girl everybody all the kids all the teachers all that everybody knew this was not a girl so so much for John muddy you know so much for his theory here and of course he was only he was reading everything the way he wants to read it and stuff like that. And so this I mean, reading this book is just absolutely excruciating because this poor kid you know, everybody's trying to tell him you're a girl you're a girl, you're a girl and he knows he is not a girl. But there was nothing he could do but you know and everybody and so he had no idea it wasn't till he was like 14 years old. They finally said okay, well you know what you weren't actually born a girl you actually born a boy and then he's like, Oh, that's what it is. And at that age, he immediately switched back reverted back to being male Okay, and is now perfectly happy he's married his wife had three I think three kids from another you know, marriage and stuff like that perfectly happy being a guy no problems. So anyway, it was just I was very readable book and like I said, call a Pinto Winton did extensive interviews with everybody with a family with a Mother, the Father, the brother, this kids and creative all these people and stuff like that. And there was another guy actually everybody talks about John money and all of what John money's done, you know, and his whole nurture over nature which he still maintains in all of his books. He's never printed a retraction. He still says that the it's called the John Joan case. That was the pseudonym that was used, and he still says that it was successful and he still maintains gender is nurture over nature still maintains that

O

And one of the sad things is that the AMA American Medical Association has bought into this 100% and encourages doctors To Change intersex kids well, and based on this case there

M

Michelle 35:05

was yeah, there were there was something that someone said in here was they're kind of in a bind. I think it's the intersex Society of North America, whatever it is, and is whatever. Um, and they basically said that the doctors almost feel like they have to continue doing this because if

not, they have to admit they screwed up 1000s and 1000s and 1000s of kids lives, you know, you

35:29

got to start somewhere. Yeah, I mean, it's kind of what I'm saying. You're gonna wake like the Catholic Church and wait for 500 years until you may say, gee, we were wrong. So

Michelle 35:39

I made you read this and you just say, if this is I mean, even if this is the worst case has ever happened. This is pretty. I mean, this it was it was really painful to read this. And we have this,

Bobby 35:52

we have this concept, you know, that we have to fix things because we think they're broke. You know, that, you know, we we have, you know, society has, you know, society
