SUMMARY KEYWORDS

people, hours, gender, roger, studies, good, girl, houston, money, read, play, kids, golden gate park, diamond, interesting, talk, started, folks, book, listening

SPEAKERS

Jimmy Carper, Michelle, Bobby, Gigi

 **Bobby** 00:02

We have to fix things because we think they're broke, you know that, you know, we we have, you know, society has, you know, society sets these ideas of what everything is supposed to be. And if it doesn't fit that picture, it must be broke, it must not be right. It must be

 **Gigi** 00:23

some, it's gotta be male, or it's got to contain that, right?

 **Michelle** 00:27

There was an interesting study done in column Pinto mentions this. This was done back in the 50s, before they started, you know, quote, unquote, fixing the kids of I can't remember how many was like 200 250, intersexual, or something like that. People who were born with the ambiguous genitals, and they weren't fixed, nothing was done to them. Once they got a little bit older, if they opted for surgery, they could do that. But it was their choice, not anybody else's. And over and over, get all of these 250 people were fine. You know, here's money going, oh, you know, they're going to be completely screwed up for the rest of their lives, if they don't fix and blah, blah, blah, they were fine. There were there were even guys who have the micro penises, you know, in two inches or something like that? Who didn't get knee surgery? Because at the time, what were you going to do? It's still kind of iffy, but um, you know, and they're perfectly fine, they're married, they're happy, they have good sex lives. You know, there were a few people, maybe you had some problems, but you got 250 People just grabbed 250 people off the street, you're gonna get people

 01:30

out here. No kidding. Oh,

M

Michelle 01:33

so Colin mentioned this and says, you know, this study was done. And there have been a few studies now, you know, for the few intersexions who haven't been mutilated or anything like that. And they all turned out just fine, too. But the interesting thing was a person who did this study back in the 50s. This is a, I believe, was a doctoral dissertation. The person who did the study, and found out that intersex people when they grow up with ambiguous genitals have no problem. It was John Money himself. No, I read that. Oh, my God, did this study he interviewed personally interviewed all these people and found out hey, they don't have a problem growing. I mean, you know, everybody's got problems. You know, let's just get

♂

02:18

right here. But they did Hey, do your suck. Yeah.

♀

02:22

You know, and if they weren't traumatized by man or so

M

Michelle 02:24

no, no worse of a time than people with

J

Jimmy Carper 02:27

with no, I mean, and you know, those effeminate boys and tomboy girls, who are now adults, we know what we went through. And you know, I'm, my life is going past me as you're talking about this, because I know what this I know what this poor kid went through.

M

Michelle 02:49

Yeah, yeah. And except you never had to deal with John Money natural to is this guy in talking about John Money, oh, he sounds just like a basket case, Mass. I mean, what he was, he had this whole idea, all these weird ideas. You know, like, if kids don't engage in sex play, they're gonna grow up warped and twisted and stuff like that. So he would force this girl and her brother or two twins or whatever. He'd make them take their clothes off and force them to do sex play with each other. And he thought this was like, supposed to be

J

Jimmy Carper 03:23

a good thing. When it happens naturally, it's okay. His

03:26

child just ain't why, right. It just wired all

03:32

kids are, you know,

Gigi 03:34

read the original article from Rolling Stone. And, you know, there's so much in that. I mean, you know, John Money, had conferences with the parents and, you know, taught them, you've got to bring this child that this way and gave very specific guidelines on how to cultivate this child as a girl and even gave step by step directions and spent hours of counseling with this girl.

Michelle 04:09

Yeah, you know, like,

04:11

brainwashing that was the problem. Yeah.

Michelle 04:13

And they had nowhere to go to. I mean, that's, that's also the painful thing. It's not just with the guy's name. Now he changed his name to David. And so it's not just what David had to go through. It's everybody else, your whole family and you're just reading this. You're just thinking this family is incredible. Yeah, they stay together. They're strong, and they support each other and love each other. And David has said, There's no way he could have gotten through this without his family. Sure. And you read this and you think these poor poor parents completely alone, no idea what to do. And then this eminent prestigious doctor comes and says, Hey, don't you worry, I got the answer. Here you go. And As Judy said, it's a it's a total brainwash, and they had no idea and they didn't know most of the stuff that he was doing with their kids either. By the way About this sex play, they didn't know any. I mean, they knew that Brendan did not want to go. I mean, she just like, would refuse. I think she ran away from home or something like that rather than go visit him. And when she was adamant, I'm not gonna do this anymore. They said, Okay, you don't have to, you know, and then they found out later what happens on Oh, Wow, no wonder you don't but so the family is very supportive and very incredible too. And your job, your heart just goes out to them. And like I said, the book is written. And it's interesting, because not one thing that he quotes in here, everything that he quotes in here is true. This is not fictionalized, in any way, shape, or form. So he did all these interviews with people got these quotes, massive amounts of interviews, and time and hours and hours of it and stuff. And so you can really get the feel for the people coming through. Another thing I was gonna say at the time, too, and this is also just what's what's very painful, is there was a man, I

think his name was Mickey diamond. And he's from Hawaii, out of University of Hawaii, it was like the same time that well, 1967. So a little bit after John money's already been established, and this guy was just a graduate student. And he did an experiment with guinea pigs or something. And the mom of guinea pig was pregnant and injected her with testosterone. And all of her babies, all of her girl babies came out very masculinized and tried to mount the other girls would never, you know, be mounted or anything like that. And so he said, Oh, that's interesting. So they did a lot more testing every single time it came out the same way. So they were saying, it has nothing to do with nurture. It has to do with nature, it has to do with the hormones, the fetus is washed in, you know, in the womb there. And so that's why some girls grew up very masculinized and some boys grew up very feminine has to do with hormones. It doesn't have anything to do with no nature or nurture over nature, whichever. So he so he heard obviously knew about John money, he said, Hey, man, I think we should get together and do a paper on this. I think this is interesting. Oh, no, no, how dare you. I'm an eminent, you know, very important type of guy. You're just a nothing. So I'm not going to do brother. So you just let me go money on. On one case, extract one failed case, I might say extrapolates to everybody, you know that it's the people listen to them. Because

 Bobby 07:22

it's amazing how you put enough letters after somebody's name. And everybody listens to it because it

 Michelle 07:27

was so loud to and diamond tells a story. I think it was dire. Somebody told a story about when diamond and because because diamond was going on and basically publishing all the stuff saying, you know, John, money's wrong here. We did all these experiments. And this is what we found. So they met at a party, and diamond came up and said, Oh, Dr. Mani, I've been wanting to meet you. It sounds like a very nice guy. He wasn't antagonistic at all. He's like, I'm really glad to meet you. You know, because we're kinda in the same field. Other we're on opposite sides. Is that interesting? Money hit him was how

 08:00

is that sort of mature reaction

 08:05

doesn't have it all together.

 Michelle 08:07

And that's kind of the image that comes across. Whenever like any of the kids would would defy him. He'd be screaming and yelling at him and stuff. You know, so I mean, gee, no wonder he's he's such a well known name. You disagree with him? You know, you get a fist upside the

face. Yeah.

08:23

Two slices short of a low.

Michelle 08:27

So now they're talking about how diamonds studies are now, you know, coming to light and people are now learning more about them and our weaknesses. Oh, so then diamond studies were starting to be published in like the summer of 1999. Wow, that's, you know, just last year a year. But at least they're, you know, people are starting to pay attention to them. And from 1967 to 1999. Hello, no, that's awful long time.

Bobby 08:53

67. That's the year before I was born. I know Jim don't start. It gives every time I mentioned that he gives me this look like go to hell. Evil.

Michelle 09:07

So anyways, there's a very good book and, and really lets you see how all this stuff can affect a child. You know, and when you I mean, it's bad enough to know how this has affected the kids and stuff. But then when you realize how flawed the studies are, that everyone's basing their actions on and even money studies him, you know, the studies that he himself conducted are completely contradicting him. You know, and you're just you just think and this guy's so called a scientist. And you just floored me it was a very painful book to read in that sense, but it was a very quick I think I read this thing in like, two nights or something. I know, I know. I'm a fan. I think down. The chapters are short enough that when you finish one you say, oh, I'll just read another one. It goes like that for you. Yeah. So and there's some pictures in the middle to of the family and the kids when they were little and growing up, and oh, another thing that really got me now one thing is kind of confusing is, whenever they talk about the child, they always mentioned Brenda, and whenever they talk about the guy, they say David was the same person. And so I mean, it makes sense. Sure. But it is kind of confusing when they'll say things like, David said that Brenda was really scared about something. And you just kind of go, Okay, it's the same person. But David himself when he talks about that he doesn't use the first person when referring to himself as a girl. So he doesn't say when I was going to school, I had a hard time he uses the second person, he says, so when you went to school, you had a really hard time. Wow. And then after the time, when he I guess, 14 or 15, I think it was when he changed back to being a man, then he started referring to himself as I again, but whenever he talks about himself as a girl, he uses the term you

Jimmy Carper 11:04

sounds like he needs to distance himself from that.

M

Michelle 11:07

Yes, I mean, that is a little bit right there. I thought that was,

J

Jimmy Carper 11:12

well, that's a nice, you've got to admit, that's an odd background. Oh, yeah. But then again, it's a background that many transgendered folks can relate to,

M

Michelle 11:22

you know, and all this and so you really, really get a good feel for that. What's it like to grow up? Knowing that you're not what everybody else says you are? And, and knowing that's wrong, and everybody is telling you, you're wrong? And just wow, it was a really good book. I mean, it was it was tough to read, but it was. And for people, I think it's very accessible for people, I mean, who are not even maybe necessarily sympathetic towards transgenders, or intersex or something like that. It'll make you very much, you know,

B

Bobby 12:04

isn't that a good idea crossed the line crossed the whole spectrum, you have what we now call the queer community. I mean, where we spend, we've spent, I mean, how many people spent so much of their younger years being told that they are not what they know, they are saying same thing with a somewhat more extreme? Yeah, you know,

G

Gigi 12:33

I think it goes to show that, you know, gender and sex is a lot more complex. Oh, yes.

♀

12:42

Oh, yes. You know, it's not just one building.

M

Michelle 12:48

Well, that's something else too. That just kind of was interesting. You know, I've read a lot of other transgendered people's stories. And it's, it was it's kind of struck me like you were saying, I mean, this is not a simple issue here. But Brenda never, there was something in there about saying Brenda never wanted to be a boy, Brenda knew she was a boy. And so So here, this person is obviously a guy, obviously a man. There are other people who are obviously women. And then there are some people who are obviously, neither or both me or miss Gigi. And so

yeah, so we talked about this dichotomy here. This dualism, it's either male or female, and then you realize there's people who aren't, but they have this feat, but then when you only have well, you

J Jimmy Carper 13:40

know, you know, you get it, we can get into that at but first I want to say that you're listening to after hours on KPFT Houston and ke O 's College Station, we can get into this, but you know, what does being male or being female mean? And then the queer community, those roles are so blurred, blurred by community, and it really rarely gets blurred.

M Michelle 14:09

Even though that's, that's interesting, too. And, you know, here I'm a big old feminist, so I mean, don't talk about roles to me here. Even so, there's still some people who say, you know, I am a man I am a woman, whatever that Eve even you know, regardless that has nothing to do with what they like to do. I've noticed that too. You know, I am a man I know I'm a man here. Let me cook something for you. You know, and I don't mean barbecue, you know? Someone tiramisu or something like that, you know? Or like in my family, my my mother, Woman, my dad, man. You know who's the one who will mom cooks I guess but you know, who's the one who got the scroll saw for Christmas? My mother who's the one who got the pressure cooker? That's my dad, you know?

♂ 14:56

So, yeah,

M Michelle 14:58

I don't think either of them ever quit. stint there sexualized, you know, gender identity, excuse me, you know, so So I do think, you know, while there's roles to play and stuff like that, there's also one's feeling of who one is, which has nothing to do with that. And that's where I find interesting that a lot of people, you know, how do I know? Am I a man or a woman? Or, you know, what's that all about? And then you start realizing that it's not just to there's a whole range of gender. Yes. Be and it's yes.

J Jimmy Carper 15:29

Let's take a break and play some music and come back and talk about membership drive, which we haven't talked about in about a half hour and that number is 526573852 6k PFT. alkanes. Just came right in there. Just jump in on that mic. We'll do a quickie. Minister.

♂ 15:58

Okay, jump in and join us at the \$90 level. That's only 24 cents per day. You know what that comes to per month? \$7.50. Oh, gosh, basically, it's pennies. Yeah. Jump in at that. 30 And we got thank you gifts, too. We should do don't hesitate to MasterCard visa. Oh, that's right. Tronic funds transfer. Money works. Fabulous.

16:24

We do love that. Yes, we do because we get it right away.

16:27

Or you can jump in and join us become a Kpf team member at the \$35 level, which is nine cents per day. \$2. Not even \$3 per month, it's 290 per month. 71352657387135 to six KPFT we have seven open phone lines, folks.

16:49

Jimmy Carper 16:49
Okay, and while we're waiting to hear from you, here's a little song from new discovered artists on after hours Matt de ye. He's He hails from Hawaii. And it's a song that sounds like it would work into this discussion. It's called. I'll reinvent myself. Right here. After hours KPFT Houston and ke O 's coverage and welcome back after hours. Yes. Something I wanted to play and missed the button. Sorry, buddy. Hold

17:40

buddy. Yeah. Hey, we did it. Hey, we successfully pull that off. Well, girl,

17:45

you can push the button.

17:50

Say we can push the button?

17:51

Yeah. Are you queer? Wait a minute. Are you doing marathon? Yes. How much money have you raised? None. Yeah, well, don't make me open the itching and cleaning. I

18:02

Jimmy Carper 18:02

know. I know. Remember those? Yeah, I do.

18:05

Hey, I'll tell you a reason you should give money. Why should call right now the number is still the same, RIGHT? Jimmy

18:12

713-526-5738

18:15

Is the reason you should call on September the sixth 1987. I came into the radio station with four other people. And we did a show called after hours. And it's been on the air every Saturday night since bringing Houston gay news and music and everything in between. So you have to go to your phone and pick it up and call right now and make a pledge because it's very important that this show that we started so many years ago, continue the focus KPFT know how much this means to you. Right now. You bet. Hey, Mary, I've got some news for you. What's up, you're gonna be getting some CDs from me. I'll really I bought a CD burner. And I'm gonna put everything we did for the last 10 years on the CD.

18:59

Actually, some of that

Jimmy Carper 19:00

actually some of the highlights I've been listening to the shows for the last week. I think I'm enjoying them now more than I did when I when we done the first damn busy. But as some other news for you what, on Monday, out at the AIDS memorial grove here in San Francisco's Golden Gate Park. Yes, we put Rogers name in the circle of friends. So it's there forever and ever and ever. And it's very, very cool. Roger. Yeah, I'll send you some pictures. Roger Kinzer, who was who was your other half in here for the very first show of after hours and here until the very last one that you were on? That's very true.

19:47

And he passed away in 1995. But we added Rogers name to the to the circle of friends. It certainly aids memorial grove and Golden Gate Park, national historical sites. that'll be taken care of forever. I've got some really good news. Yeah, Roger sister was expecting a baby and guess when she had it when to go around my birthday.

20:13

Happy birthday candidate and don't look at their younger

20:27

pictures from the from the more memorial grove Jimmy and I'm gonna be sending you some CDs really funny stuff, and some really serious stuff and just some of the first shows that we ever did. Because I don't know how much of that you have. But you'll have one CD.

Jimmy Carper 20:41

That's pretty amazing. How are you gonna have to tell me how you do that? I have a car. I just don't know how to put the stuff in. And I'm so

20:47

excited about it. Anyway, did you bring that song I wanted? I have it. Okay, so one more time. On September the sixth 1987. Roger Kinzer and Brian Keever. That's right. And Mark Smith. I walked into the city of the KPFT. We did a little show called after hours. And it's been going ever since. And we've been to every parade and every rally and every March and every eight. Funeral every eight victory because there have been some victories are happening. Yes. And we continue to do the things that Harvey Milk told us about but right now, I want you to do something for me. Because when I started this show, I never realized that it would go as long as it has, and it needs to continue. Because there are still young, gay and lesbian people out there and transgender people out there. We think there's nowhere to turn and this station, this radio show that you're listening to right now gives us people hope, and you have to be a part of it. So go to the phone and pick it up and call us make a pledge, you'll feel good about it. It'll do good for the station that I won't call up and visit Jimmy next. Call us it's 47135265738 takes KPFT and they take all your plastic honey, you call them and they'll take it or drive down to the station and give them your money. But anyway, in all seriousness, Roger meant the world to me and me too that a lot to the show. If you really wish I was there, they're screwing up my moment. I'd like to see a big button here in the Montrose that anyway, I was listening to a tape today when Roger was reading a book called The Way of love the way of life you remember that? Certainly do. And I'm going to put some of that stuff on on CD for you because it was really a great thing that he did to come down and read textbooks and other books to our our listening audience that they would have, have had no other opportunity or the place to You're right. That's right. And I Roger just meant so much to me. And it was so nice to walk into the AIDS memorial grove here in San Francisco and see his name in the circle of friends how nice there's a little song that is Marianne to bring in play for me. And I want you to call and raise some money before this film is finished. Okay. It's very, very important in all seriousness to to call and support after hours, and let the folks at KPFT the management folks know just how much the show really means to Houston. So go to the phone and do it for Roger. And do it for all those Rogers that don't have their name in the memorial grove and Golden Gate Park. So one more time the numbers 713526573826 KPK. And Jimmy if he has a song queued up, it's ready to go. This is for Roger, baby. I know you're out there somewhere watching over us, along with Harvey Milk and Pat Parker and others have gone before us. And I love you and I

miss you and Jimmy I wish you all the best this morning in Houston. I want you to raise a lot of money. So I'm San Francisco I send you this song It's my old friends webinar skin Philipson is calm. Last emotion and you're listening to it on after hours on KPFT Houston 90.1 FM Thank you

J

Jimmy Carper 24:19

Romanovsky and Phillips Gotta love that last emotions from their album trouble in paradise came out in 1986. That was the year before after hours started on the air and this music was used a lot Romanovs again, Phillips was played a whole lot on this show because there weren't a whole lot of other folks out there making music you know, not even velvet mafia, not even velvet mafia.

∅

24:55

It's amazing how far we've come and yeah, those years

J

Jimmy Carper 24:59

it was Good to hear from buddy again. And I hope that Jerry and Bill were up to hear that. Because Jerry specifically mentioned, buddy to me. And then last night when when I first met him, and just nice, just nice. And that was a nice thing to do well, in the, in the grove there in San Francisco. That is an AIDS memorial park that was put there by and paid for by the citizens of san francisco. Yeah, that's cool. Yeah. Isn't it nice? Anyway,

B

Bobby 25:45

it's nice to know that I can still feel things after all these years. Yeah, yeah. be thrown by, you know, stuff like that. Just like, because we've all seen so many people go.

J

Jimmy Carper 25:58

I know, I know. And we sometimes we get the strange idea that this crisis is over. It is far from over. I know she'd be so lucky. I know. You know, every time I have to take all those pills, that reminds me and you have suffered those side effects and, and all of that, and the fact that Houston, activist leader, Richard wiederholt died. Just recently, last week last week. Yes. And that that brings us back to reality to let us know that no, this epidemic is is far from over. As a matter of fact, it's worse than ever.

G

Gigi 26:42

Yeah. And reading so I just world countries, and

∅

100% 00:00:00 00:47

J Jimmy Carper 26:47

and yes, and now President Clinton has has, has named it a national emergency. Yes. Because of because of that.

B Bobby 27:00

I just marked five years of being positive this past month, see? Wow. Long way to go. Yes.

J Jimmy Carper 27:12

And we were having so much fun doing? Yes. In fact, somebody had a very good idea, because the phones have not been ringing and we want them to ring at 7135265738526 KPFT. That if somebody calls in with a pledge of \$50 on plastic, and that has to be their own name on plastic. Which means the right team. Yes. We will send a picture proving that we do nude radio here

G Gigi 27:56

Miss J to even autograph it.

J Jimmy Carper 27:59

So ah, yes. And we will be more than happy to send you proof that nude radio occurs at KPFT on the bisexual night.

♀ 28:13

Yes. And last

B Bobby 28:17

and apparently there have been a few people trying to get nude outside. Because we got mooned a little while ago while you were talking that you missed it entirely. And you know, I didn't want to interrupt the thing because you guys will but I but some guy just sort of dropped his pants at the window. Notice that I was looking out the window and dropped his pants. I thought that was quite entertaining. That's the biggest thrill I've been getting in a long time.

J Jimmy Carper 28:44

Second only to having them drop their pants and showing me their front. We do

G Gigi 28:53

yes, I have just gotten in and I hope I'm saying her last name correctly. It's Deb con these new book that just come out okay, that got some of the first copies because she sent them to me. Wow. It's called Blessed by spirit by sexual PDA.

29:15

I've read about that.

Gigi 29:17

Yes, I have 10 copies to sell now you do yes. So for by camp coming up. That's by camp coming up. That's right. That's right. And she's even sent me and J an autographed copy how nice and I'm halfway through it and Jays starting to work on. So we'll be doing a book review on it real soon. Oh, cool next month or the month after, and he has agreed to do a live interview with us. Looking forward to that. So we've got a lot coming up in the next couple of months. For after hours. Queer radio with that.

29:54

So the name of the book again is it's busted by

29:57

spirit Beisa troll people. It's

Jimmy Carper 30:01

by Deb in your area. Kalon Klondyke con Condi,

Gigi 30:08

Condi something like that. It's

30:10

Kalon D,

30:12

K, O. K. Oh, well.

J

Jimmy Carper 30:16

That's all they need. Oh, I just got a big ol hairy Moon there.

G

Gigi 30:24

But I have gotten halfway through the bag. Yes. And just as a little pre run, I bet. It does talk a lot about gender and not just the fluidity of gender but the spiritual aspects of gender. It talks a lot. There's stories in there about the Two Spirit from Native American traditions, who were considered very holy people, because they were able to be both genders and make love to both genders, which American Indians believed gave them the pathway into both the material world in the spirit world. So it's a lot of interesting perspectives in the spec. And what I like about it is it's I mean, it gives a good cross section of a lot of different religions from the bisexual perspective. So it's really awesome

∅

31:35

so what is buying that doing lately?

G

Gigi 31:37

Well, we're getting ready for buy camp. And we were we meet every Wednesday night 730 to nine o'clock I bet the hobbit Kapha Oh, yes. Oh, I love that place. Oh, yes. And Wi

J

Jimmy Carper 31:53

Fi is right down the street from there. The brand new Pop Pop is like a half a block of Wayfarer

G

Gigi 32:05

but yeah, we'll be doing by camp that's coming up may 19 into the 21st. If you want more information about it, visit the binary he's sim website which is www.flash.net Ford slash tilde the character my house. That's two. Okay, right now it's a hard one

J

Jimmy Carper 32:32

but so what if they don't have when they're not on the net?

G

Gigi 32:35

Can you call Yeah, they can call the BiNet line and it's 713-467-5438 I believe

J

Jimmy Carper 32:46

that okay. And the the lalalalala it's this is an Austin. Oh, no, no, this is something else I'm looking at. Oh, I'm

G

Gigi 32:57

looking at the October thing and Austin. Yeah, that's coming up this coming October but more about this bike. Yeah, the bike camp. We're gonna be you're gonna be camping out. It's a campout it's gonna be about an hour and a half south of Dallas which is at the rainbow ranch campground. And I've already gone out and visited the folks out there and seeing the campground they're giving us lakefront campsites exclusively for biking or you got to be able to get naked and now they know new down allowed nudity Okay. creates too much of a stir with the locals he gets into well they've got a Boy Scout camp just right across from their case Oh my right across the leg

♀

33:45

you're probably

G

Gigi 33:46

not we don't you know with all this stuff going on with the Boy Scouts right now

J

Jimmy Carper 33:59

those those boys can entertain each other anyway. From what I hear

G

Gigi 34:06

by camp are having a drag king and queen show and we're gonna have a bye boys BBQ kickoff. And we're having a drum circle. Oh, nice and storytelling about the campfire, and all kinds of stuff. So we've got a lot coming up. Sounds like fun, some very interactive workshops

♀

34:30

for by folks or folks that love them

G

Gigi 34:32

by and by friendly. Gay, Lesbian, straight. All are welcome to join us in the festivities questioning whatever.

J Jimmy Carper 34:45

Oh, and let's see coming up October 13 through 15th in Austin at the Holiday Inn south will be the bisexual network. The second annual South Central Regional Conference.

G Gigi 34:59

Yes. And it's gonna be a big heck ya know all the keynotes from the first conference that if it's going to be in Austin, we will be there. Good night includes curl Queen for its Klein. Whining Brian, it's gonna be quite a packed show.

J Jimmy Carper 35:16

And let's see if you want to get some more information about that. You can email you yes by house@flash.net Right, b i h or usc@flash.net.

G Gigi 35:32

And email me if you need more information on by Cambell yeah.

35:36

Great,

35:39

great. Okay, got a lot. Thank

J Jimmy Carper 35:41

you for being here. And thanks for NewsRadio Oh, you bet. I really love it each and every, every month we go for you. Oh my Yes. And it's such a nice way go. Oh, my. Let's see, before we go to the news, let's hit it with elke Alki

36:04

Yes, she is I'll be on my 123 She

J Jimmy Carper 36:07

almost did News Radio tonight too. She almost did News Radio tonight to Oh, okay.

36:15

Which one of these works that wouldn't hear anything?

36:17

I'm down. Oh.

36:20

One on the floor.

36:23

Okay, that means I bend over.

36:26

Careful there.

36:28

Okay, I can hear myself okay. So I have to be careful bending over

J Jimmy Carper 36:32

Yes. Especially when that's in DD. We've been doing nude radio and we already made the announcement that, that just that if anybody wants to send in a \$50 pledge on plastic, we will send them a photograph proving that we do nude Right? Absolutely.

36:53

Yes, absolutely use you put you make a \$50 pledge you call 7135265738713526
