announcement that, that that just that. If anybody wants to send in a \$50 pledge on plastic we will send them a photograph proving that we do nude Right? Absolutely.

00:14

Yes, absolutely use you put you make a \$50 pledge you call 7135265738713526 KPFT. And we will send you a picture. Yeah as a thank you. Yeah, we we will we normally don't give out premium no at that level, yet the \$35 level you get a bumper sticker at the \$50 level, you will get a picture of us. Nude and semi nude. Yes.

00:45

And she has such a lovely buzzer

00:50

and I am not. I am not exact No ifs and buts or exactly. There they are. Yes. And it's very important that you do pledge to KPFT been here for 30 years. You don't get programming like after hours anywhere in the country. Much less right here in Houston. Except here. Oh 9.10

01:16

Good anything like this anywhere in the country?

01:19

Not even not even in San Francisco sets. Right?

01:22

In fact, they don't even have a gay show in San Francisco. Oh, they do less after hours.

01:30

Do not get after hours anywhere fugs And it does cost money to run the radio station or bills. You know how your bills come in. Every month. You go oh, crap. Yeah, my electric bill is \$100. Yeah, we think of one think of what Kpf T's electric bill cost into the 1000s. Yeah. And without electricity, no broadcast, no broadcast? No after hours, no. KPFT so it's very important that you do pledge your support to this radio station. Let me give you the number at 71352657387135 to six KPFT volunteers are standing by we have seven open phone lines and plaid Central.

02:16

Okay, now it's time for Thank you wealthy.

02:19

You're welcome

02:20

after hours news interviews with big Ryan Chris.

02:49

Sorry I missed up on your music here tonight. Um, okay. It's time for Hello. Yeah, I messed up on your music tonight.

03:00

What else is now well, I

03:00

wanted to I usually start on cut number seven, but for some reason it was cut number eight.

03:08

You were thinking something else cut I guess.

03:31

This is after hours news and views with big Roy and Chris. As always expecting to experiencing technical difficulties. Try this headphones. Roy, you're talking to me? We're in the same room. We don't need to worry about headphones. Ladies and gentlemen, if you cannot tell them that we're not a professional radio station, we're not paid to be here. That's why we need your pledge to support. So,

04:02

okay,

04:03

are you as satisfied as you can be? Oh, yeah.

04:06

I'm not getting the feedback. I was getting my poor little ears. All right. Welcome, everyone. And like to start off with apparently it looks like Miss Laura Schlessinger is up to her old tricks again. And it seems like three weeks of silence on gay issues, folks was just a little bit more than she could stomach and after her brief attempt to keep quiet on gay issues in order to save her multimillion dollar deal with Paramount Television. Miss Laura is now trumpeting on her homepage, a book about healing homosexuality. Like it's some sort of illness. And the book is called coming out straight. And the foreword is written by Dr. Laura by Laura Schlessinger herself. T and Paramount is giving her an audience of 20 million people and won't be helping her Hawk these anti gay books and not at all I'm come on Summit for Paramount's promise that Dr. Laura days of going after gays are now over. Folks, homosexuality is not a disease. It's not a condition. It is no more a condition than being born with blond hair or black hair. It is no more a disease than being left handed or right handed or ambidextrous. It is not a disease. It just is. And so once again, she has proven that she has no standing in the psychiatric or psych psychology field or social working. She Laura Schlessinger needs to stick with that physiology. She knows absolutely nothing about what she is speaking about. She's a bigot, plain and simple. And that's all I have to say about. That's all well I want to give her time for on this particular issue this week.

06:07

And now we're going to head into exile, the 27th Westheimer street festival in exile.

06:15

Day two we'll be starting up here. It does not say but it will be on Sunday.

06:24

Jamie's asleep. Sunday, May 7 at Eleanor Tinsley Park on Allen Parkway. It's been moved from its Westheimer st Westheimer Street location due to lack of permits from the city council. It did not get down to the event but I did see it on the television they have erected street signs of Westheimer. along there ahead of rechristening Allen Parkway. There'll be the traditional band stages extreme sports, BMX, bicycle stunts, inline skating skateboard demonstrations, and a skydive demonstration. As well as on Sunday, the urban animals will be hosting their popular skating jobs. And art cars will also be on display. An easy way to get to the event is going to be the Mary's in exile. And there's a shuttle service running from Mary's to the Mary's booth on Allen Parkway. And that's available at Mary if for Mary's which is at 1022 Westheimer.

07:32

That's right there across the street from catty corner to Crossroads called a catty corner to crossroads. That's correct. Any rate? Okay, on a little bit more serious note. According to the Houston press, I mean, the the Houston voice and the Houston Chronicle. The University of Texas researcher wants to know why many men who are being treated for prostate cancer experienced sexual problems after treatment, but don't seek help. And listen, they're saying that less than 25% of men who experienced problems after treatment, ask for help. That means more than 75% are not getting it. And Leslie Schroer has received a grant from the American Cancer Society to study by mail and by phone more than 2000 men. Shover has a few preliminary guesses as to why men don't ask for help. They're too embarrassed for their physicians don't bring the issue of or their fear of insurances won't cover. And of course, men never ask for help, not even when they're driving. But folks, prostate cancer is a very serious thing. And for those of you that have been readers of the eclipse magazine, the the Ask woody column has dealt quite a bit about prostate cancer, and this last month, in fact, this week, he has some interesting stuff concerning prostate cancer. And he's saying that his trusted medical advisors tell him that there is nothing you can do to prevent prostate cancer. The consensus is that it seems to be genetic. Some men are predisposed to it. Just like some women are predisposed to breast cancer. Prostate cancer is second only to lung cancer as the leading cause of death among American men. 40,000 men die from it every year. Now, the good news is that screening tests can detect it early before it becomes life threatening

09:38

and you're getting a lot of you're wasting a lot more information along these lines since New York City Mayor Rudy Giuliani has known has been diagnosed with it and I think part of was prostate cancer. Part of the reason why you see some problems with the screening and that is in the earlier years, you can just you can take a blood test or a Blood stool test tour, the PSA test is what they call it. For prostate. Many men are afraid of what happens when they get older. And that is the digital exam, which is basically the rubber glove and think warm and pleasant thoughts. And for I guess we can say nine tenths of the men Male Society, they have a little trouble bending over a table with someone coming behind him with a rubber glove. But it is a serious topic. And I even had a Rudy Giuliani joke about that, but I'm not going to say it because I don't know if I can say it due to FCC regulations. It is a serious topic, you talk to your doctor, get the test done. I think it's usually in your 40s that you need to start work, extra worrying about that and get the test done regularly. And don't be afraid of it. We have so many

diseases in that out there nowadays that if they're not, if they're not curable, when they're caught early, they're at least very treatable and manageable. So get all the tests done, you can and keep yourself safe.

11:10

I'd also like to point out though, that it says here, almost 80% of men diagnosed with prostate cancer are older than 65. That means 20% are younger. And again, early testing, as in breast cancer or prostate cancer or in anything, early testing is the key. The longer you wait, the longer you put it off, the worse, the worse it's going to be in prostate cancer if you wait too long time, not. Besides killing you, it could also make you impotent. Yeah. Early testing early treatment can prevent that from happening.

11:55

Okay, the gay Comedy Jam returns to Hughes. Oh, yes, a double dose of chuckles as gay comics, Scott Kennedy and Bob Smith returned to Houston on May 7, bringing Kennedy back to his native Texas. If you have not seen these two before, they are a quite a funny pair. Scott Kennedy has opened in the past had been an opening act for Garth Brooks, is last year was invited to the Aspen Comedy Festival and has now moved on to bigger and better things he's had regular stint out in Las Vegas. Bob Smith is an author who's written has written three books, and has also appeared on Comedy Central's show out there and as a semi regular guest on ABC is politically incorrect. Now, Bob Smith will be autographing his latest book openly Bob at Crossroads market. tomorrow, Sunday, May 7, at 2pm. And then tomorrow at 8pm, the gay Comedy Jam will be performing at the laughs stop 1952 West grey. And it's a like I said, it's a great comedy show, you'll see a lot of interest, you'll hear a lot of interesting jokes and you may not hear them too often as a somewhat positive gay joke, right? Not the butt of the joke but a positive end of it. Yeah.

13:27

Now I'll say this Scott keep both Scott Kennedy and Bob Smith have been here at KPMG on numerous occasions. And we will have them back again some other time. And talking about stuff that is kind of slightly twisted. What do five friends have in mind by naming their may 24 cabaret musical fundraiser, songs slightly twisted. Well, this is a unique tongue in cheek cabaret musical fundraiser. Charles Baker, who's a pianist and an organizer of the event as well as a graduate of the body positive Wellness Center Program explained that this is the sort of material are performed with cabaret in Seattle. And he's happy to do something while enjoying and enjoy while benefit, benefiting the body positive Wellness Center. And there's also going to be the Gay Men's Chorus involved in this program. And it's going to be Wednesday, May 24. At 1930 norfork near Sheppard, south of Richmond Avenue. 22:10

for those who find places easier by general location names. That's the spring Kline area. Oh, okay. We're at 1960 near Veterans Memorial.

22:21

All right now,

22:22

if you wish to send us an e mail, fan mail, hate mail, pictures, stories, news items, you can email us at after hours. [kpft@hotmail.com](mailto:kpft@hotmail.com).

22:35

And that's all we have for this week's edition of after hours news and views for Chris on big ROI.

And that's it folks.

22:45

Oh my god, it's under 20 minutes.

22:48

Okay, you are listening to Kpf ti 90.1 Houston and we are also ke O 's at 8.1 in College Station that

22:57

empty Houston and ke o holiday shed and we have people to thank Bill and Jerry called in with a very generous pledge. And we are very happy to have that. Thank you both of you.

23:13

That's right. We are

23:16

Yeah, no, I just It's just Oh, it's just nice to have nice people call in with pledges. Not

23:23

exactly nice people, nice supporters to keep us going where two pledges away from reaching our goal. We have over one hour we have one hour and three minutes to do it. So jump in with the other fine folks. Folks call us 71352657387135 to six KPFT. We are now in day number three of our summer fun drive. Here at KPFT. We depend on listeners supporters to keep us going. Oh, we got it.

23:56

Yeah. Adrienne called in with the pledge on a credit card. That's great. Yes. And Paul has given us a nice pledge also. Okay, we're

24:07

almost getting there. We are getting there. And thank you very much. Give us a call pledge your support because you do not get diverse DOD. What is it diverse or diverse? Either? Wow, wait, okay, well say diverse. You do not get diverse programming anywhere on the radio dial,

like you get here at KPFT. If you love after hours, if you love KPFT give us a call support. It jumped out at the \$60 level that 16 cents per day \$5 per bond. You can use your electronic fund transfer Visa, American Express or whatever they call it, Visa, American Express Discover Card exactly 7135265738713526 KPFT.

24:57

And some of you may be saying elke Who the hell was Alki elke is a volunteer here at the station just like we all are only elke volunteers a whole lot more than most folks because she comes in and does a lot of the production work.

25:15

A lot of production work as set here Monday I do lesbian and gay voices on Monday through engineering, do the engineering Rundas beautiful console here. And also also I set through the worlds on Tuesday I'm here Thursday, I fill in on Crossroads on the wonder of four ships one to 4am chefs whenever they need me. Plus, I do all the production here too. Yeah, so I'm working hard. And sure you are staffing

25:45

and LP volunteers to come on the show to pitch.

25:49

And this is basically like for me I'm what's considered an entry level gymnasts is kind of like broadcasting school for me. Ah, it's a great education. So KPFT serves a lot more than one purpose. And we've been on the air listener sponsored commercial free since 1970 30. years. Yeah, so credible, isn't it? And it's very incredible. up the good work and give us a call. We're almost at our goal. We have one hour, you can do it. We can reach our goal at 7135265738713526 KPFT. Do it now and the folks who keep us on there. That's

26:32

right now can you kind of slid over a little thing here that you do engineering for lesbian and gay voices that's heard on the station every Monday night eight to 10. Eight to 10pm. Yeah, Jacqueline skied, Joan, Devlin, Glenn halt. And you and

26:50

we haven't new one, but I can't you know, I'm not that good with.

26:52

26:53

I don't know, David's last name. Yeah, he's he's now David knows after hours, because he's listened to after hours for many years to and got the chance to do some radio. And so he's volunteering with lesbian and gay voices. I think it's great. He does rip and read with

27:11

Glenn Hall. Yes. And that. That is a very, very in depth look at all the news throughout the community. Sure is nationwide.

27:20

I like to think that that lesbian and gay voices is like, Oh, 60 minutes. And we're more like Jay Leno or something that got kids in the hall or for MTV

27:38

News, that we get a little crazy, but occasionally we do have a serious topic.

27:43

That's true. Right? That's 100% True. There we go. And we

27:48

have yet to see 60 minutes. They lead in program to that to be a new program. Whoa. Considering the age of some of the people you see on that that network. I'm glad they don't have nude programming. off right. Whoa.

28:01

Just came in and dropped off some cash money here. Thank

28:07

you. Oh,

28:08

thank

28:09

you. Very nice. That's what makes it happen. everybody pitches in works together the volunteers. You listen without the volunteers without the station, you would not hear this program. And that's why it's important to notice that they've turned jack on the \$20. Bill. They've turned Jackson into Christopher Lee.

28:35

You're right. Yeah. Just the thought.

28:43

Doesn't show us Adam's apple. Yeah, no, the other one. Yeah.

28:46

So we'd like you to join the ranks of all of these other folks and become members of KPFT and after hours, give us a call. 526-573-8526 KPFT now we go to some music

29:12

already then, Oh, I forgot this one makes noise.

29:16

I was that music. That was

29:19

horny. I thought that was an appropriate theme. Since that since we were at the first half we were celebrating National masturbation month. You weren't listening in this national masturbation month. So give it all you got.

29:35

So and that what are the other 11 months of the year?

29:39

Denial. Dr. Joyce, Dr. Joyce Brothers used to say that three out of four men admit to ~~masturbating and the other one's lying. But that was horny and that is from the Queen of Folly~~

masculinity and the other one's lying. But that was funny and that is from the Queer as Folk soundtrack and I'm still waiting to see it with the information of when The bastardized American version comes out on Showtime.

30:05

Actually, I don't know where they got it. But the community center was screening it last night.

30:13

Yeah. Lobo does rent the, the original British version. And unfortunately, when it gets to American TV, and on Showtime, it's going to be sanitized. They already stated that the 16 year old is going to be 18.

30:27

Oh, when they won't, you won't be able to tell that he's getting rammed

30:30

that the video is worth the first it's showtime? Of course you will not. Because see that one involves showing a naked person a naked man's ass

30:41

since we weren't on introduce ourselves in cases people who forgot who we are. We weren't on last month. Daylight Savings Time. Oh, that's right. This get ahead of ourselves.

30:50

This is after hours. The next generation this is I'm Chris, Jason. And we're still around here for some strange reason.

30:59

I'm still trying to figure that one out.

31:01

So yeah, we're, I wasn't sure who I was going to be here this week. So I figured Horni would be a good way to start. And my

31:11

birthday is next week. So we know it's a perfect theme song for my party.

31:16

plays from what we've heard of yours is the theme song. The cops would be a perfect one for your parties. Well, since we were going to be we don't have any Yes. One thing I wanted to talk about that we didn't actually say in any of the other segments was the millennial march on Washington was last week. And I get I got to catch a little bit of it. The first half hour in the last half hour, unfortunately. And one thing I have to say to the next people who decided to organize a march on Washington, please, please, please, no more lesbian comedians at the event.

31:54

How like Ellen DeGeneres?

31:57

Well, I mean, 9093 Whateley adularia saying she was glad the Clintons were elected. Because finally it was a first lady that was worthy of having to intercourse. I can't. This isn't the Peter show. So I can't say the F word. So after we finally got done living that statement down, we get Margaret Cho up there saying that she wants to use the Washington Monument as a large strap on dildo.

32:25

Now, you think that would be something a gay man would say?

32:28

Well, she's bisexual. So she still thinks in those terms. Has she come out as bisexual? I've been told that I haven't heard it officially. But I mean, she was. Well she did say later on in one of her one of her jokes that she had. The first time she had sex with a woman she had the debate on. Am I gay? Am I lesbian? Am I bisexual? And she decided she No, she's a sloth. And so now she's trying to organize a sloth Pride Parade.

32:53

So she's trying to join the ranks of many, many gay men in the city. Yeah,

32:57

the name was passed around that Jason You were going to be the Grand Marshal.

33:04

I don't even know how to respond that when I'm tired. Like sleeping, not tired.

33:09

So and then Alan generous coming on there saying that she's like, if she wasn't for the fact she was such a nice unkind person there she would go to the protesters rip their signs in half and shove them up their ass. And I haven't heard.

33:21

I kind of love our anti gay protesters, especially at the Houston gay pride parade. They've got those little pink signs out there and all kinds of artistic

33:31

decoration, a little

33:32

pictograms kind of national symbols.

33:35

I think they're kind of cute. But within there's definitely some cute boys on the picket line.

33:40

What a better way to pick up man 10% is not enough recruit, recruit, recruit. But now with L L in there. I haven't heard such compassion that can cause such compassion there since George W announced he was compassionate conservative. But that's another story

33:54

like kind of like military intelligence. But I was actually really upset because I was planning on going to the March on Washington. And unfortunately, due to a lot of scheduling conflicts.

34:08

Yeah, unfortunately, I was sitting in San Antonio when all that was going on in the middle of their Fiesta celebration, which is there about the San Antonio equivalent to Mardi Gras. So where they join the river. It's not the one where they drink now it's where they have their with what they call the largest nighttime parade in the United States. I think we need to get a counselor and figure out if our pride parade beats their flamenco.

34:31

I don't know I'm sure somewhere in the rules that says gay pride parades don't count.

34:34

Well, considering the fact that during the let's

34:38

just let them say largest, straight, nighttime

34:41

floating, floating nighttime parade. But now I mean, because like the Millennium march on Washington, they they lost 100,000 People from the time they announced it during the show during the program. When the mayor of Washington did it to when Pat Robertson was talking about it the next day, somehow they lost 110,000 people.

34:59

That happens a lot Like in Washington, you'd be amazed. Especially when you have Republicans doing the counting.

35:08

So this is also still marathon and we are still in need of pledges, we've had a great to showing us support there the last part and we could use more. So we're gonna put a little plug in right now, if you want to put in a pledge of support, let people know that this program that this show is needed. That's the important thing. We get five hours a week out of all the radio stations, all the programming that goes on in the city, we only get five hours for a positive look on the gay lesbian, bisexual, transgender community and money talks. So we need that support. And let everyone know that we are still a viable part of the community. We need, that there's people out there who are being helped. And

35:51

folks trust us when we say you don't want us out on Saturday nights amongst you.

35:57

Well, I just drive around the neighborhood and cruise the streets. You're the hellacious one who's

36:04

only 21. I'm supposed to be young.

36:09

Yeah, no. Yeah. But unfortunately, you've been saying you've been 21 for three years. At least that's what you tell them at the front door. So if you wish to call in a pledge of support at 713526 KPFT 5265738. Ever the sign, you haven't memorized it yet? Now, I always remember jam KPFT. By the time they put up the numbers here to tell you they tell you to remember the letters but the only time they put numbers up here is when it's time for pledges. So calling with your pledge of support. And are we going to ramble on some more we

36:46

do want to begin breaching on the topic that you discussed earlier, or

36:51
