Sunday from two to four, at Crossroads meet Dr. Silverstein and perhaps have him sign a copy of the book. It's very interesting. One of the other subjects that I would like to talk about and have you share your expertise on, is the matter of intimacy between gay males, it seems to be something that I frequently hear people talk about as a problem. And the thing that is sad is to me that manifests itself. I see two guys who seem to be very compatible sexually and otherwise, personally. And just at the moment where everything should be settled and nice. And well, one of the guys in the pair seems to go on a self destruction binge and wreck entire relationship. And it's even I can read it in their eyes sometimes that it's just a feeling of being unworthy, that they're not deserving of love. They're not deserving of happiness. How do you address that as a professional?

♂

01:05

Well, first of all, it's not a gay problem, it's a male problem. And both genders great men have problems with intimacy. Sex, in general is easier. But more intimate feelings that make a person feel vulnerable, or difficult. I'm not sure that I, gay men, particularly or wrecking their relationship, what men seem to like is some sense of distance of independence. And when they feel that he's not alone, that it's possible. And when they feel that the other person is smothering

♂

01:54

them, they tend to run away. And that may be one of the things that you're saying. There are some men who liked the idea of setting up house having very strong anchors in the relationship. Having good relationships with the inlaws. The other men that are very upset about this need for autonomy is more important than anything else. When you get these two kinds of guys together, the need for autonomy, the need to build the nest, then you get that

kind of class you're talking about. But if you have to invest, so to speak, they they furnish the house very quick as call it, and we get two men who live all the time. They could submit mix, match, and mismatch that causes the swept

 Brian Bradley 03:05

would you say that gay men are any more or any less dysfunctional vendor heterosexual counterparts.

 03:15

But probably, again,

 03:15

with gay men is, is that it's too easy for a woman it's more complicated. In the course, it has been traditionally true that we have chosen lots of heterosexual marriage hate each other because although that is going to change,

 Brian Bradley 03:48

we seem to be able to get into, but not yet maintain relationships, as well as the counterparts but I think it's probably what you mentioned, we don't have this truth.

 04:01

The average heterosexual marriage is over before the years gone. I mean, this is not a great model for us to envy. And there are lots and lots of gay couples get together years and years and years. Together my love for 20 years. And I love to work together. So it's the thing is that young guys can see that. See couples like that and see them because now without bars, we're not dancing with this with the other members of the choir kind of life. So they don't see the role models with lots of us.

 Brian Bradley 04:44

And there's nothing that says that we as gay men, when forming our relationships have to base that formation on what I perceive most oftentimes as a broken flowered heterosexual model.

 04:58

It's foolish to flip the house on Meanwhile, because they have enormous trouble. I think the statistic is more than something more than 50% of heterosexual marriages in divorce, and probably about 25%, which like so on.

B

Brian Bradley 05:22

Issues such as spousal abuse and child abandonment, and such as that are primarily, you know, heterosexual. But you mentioned earlier, one difference between the original joy of gay sex and the president addition is the God you addressed issues such as spousal abuse,

♂

05:42

there isn't a lot of it is probably interesting enough, there's probably more of a lesbian relationships than there isn't. But whether there's a little or a lot that should exist, and we'll give some information about how to get away someone who was abusive, and certainly there's no reason for that person to stay in a relationship that makes no sense.

S

Scott Lewis 06:16

You're listening to Brian Bradley interviewing Dr. Charles Silverstein, the author of the new joy of gay sex on after hours KPFT World Radio 90.1 FM we're gonna go back to Brian's interview now with Dr. Silverstein

B

Brian Bradley 06:36

is playing in the gay community the gay and lesbian

♂

06:45

alcoholism, drug and drug abuse, incident total alcohol, lesbians and gay men probably are equal the alcohol and alcohol and drug abuse is probably the number one reason why gay men practice unsafe sex. Most of the core design of drugs are mainly drugs. They are the drugs that people take to dance and dance on either will be special or left out NDA for people who take these drugs, but I don't want to seem like something terribly square, I am square with the string itself up against a question about the country is filled with drug rehabilitation programs. And the proportion of gay men who take the people who take these drugs probably not probably, but the proportion of HIV among people who take these drugs is many times higher than those who got

♂

08:26

the the society the drugs are expensive. And it eats up. Money, the mortgage money the sex that people have is really dull in a way because they don't remember much of it.

♂

08:53

So people who are very shy with drugs, because it cuts down on the shyness and they feel bolder with the drug. Which is fine. Except they don't know that much about afterwards. I have a patient recently battle for all sorts of drugs. And he used to go over this firearm every summer. Finally, at some point where the alcohol drugs clearly out of control, and he had the good sense to stop. And he said to the things some of those the first time that he remembered that seven years ago he was one of the people who constantly said he was funny. But it wasn't a matter of China's.

 B Brian Bradley 09:44

Do you feel that gays and lesbians turned to alcohol and drug use for reasons that are different than their heterosexual counterparts?

 09:54

Yes and no, I think some of the reasons are the same and some that have to do with their own internalized homophobia. to work and have sex or make contact with people, if they're drunk or drugged out, or whatever. And that way they forget feelings about themselves and their own low self esteem.

 B Brian Bradley 10:17

And has the overall psyche, in your opinion of gay awareness changed much in the 15 years between the first book and the president? Oh, yeah,

 10:26

I think so. But there's still lots and lots of people who will not stop taking drugs no matter what it provides the soul lots of people who will continue to drink alcohol no matter what. It's really too bad that so much of their life goes on, wrapped up and really very difficult for a person to escape alcohol, who wants to react to that?

 B Brian Bradley 10:59

What can we do to prevent this from happening to the up and coming gay and lesbian youth?

 11:07

Well, there really is very much. I mean, you get people get Foundation. And second do they want? Yeah, it's sort of sad in a way, because they're probably some young guys listening to this program that we're going to go out soon. drink too much. Maybe take some great pills of purple pills and white pills, and you know, whatever someone is willing to give them, and 2018 to 16. And it's gonna get affected by HIV. That's too bad. And all we can do is give that person information. Who's going to use it? Why?

B

Brian Bradley 12:03

Is it important to know the reasoning behind that? Is it because gay and lesbian people have perhaps in some cases less self esteem? Or is it just human nature?

♂

12:17

I think part of it is because their self esteem, and part of that is because they're scared.

♂

12:26

Part of it is because as everyone wants to be loved, to feel attracted to unwanted. With drugs, some people feel more attractive. Trouble is that there's another side to that point, that some other side of the point is responsible behavior, where they allow themselves to be infected with someone else.

B

Brian Bradley 12:59

Do you think if our political climate changes with the Clinton administration that perhaps overall, the nation will begin to look at gay and lesbian issues and the issue of AIDS, and perhaps there'll be less pressure on us to perform or conform to so many different people's ideas of what we should be? And perhaps we can get on to the more important thing of just living our lives like regular Joes and Janes? Or do you think the special problems that gays and lesbians have will always be there in some regard?

♂

13:40

I think that eventually, no one's going to care. So two or three years from now, Prophets had the juvenile generation. But I think it'll be a point where

♂

14:00

the, the classification of couples will be between child person, couples and those with children. And that will be thinking about whether it's homosexual or heterosexual because it just won't be relevant to that society. In a world where the least useful model is a baby. The production of babies is not important, except the supplies that we have excessive and so there will be other kinds of relationships that will be desired. And so home says Well, we were just just not

B

Brian Bradley 14:51

well, until we reach that point. I think it's important that we realize there are professionals such as yourself To practice and write books that keep us informed, and empowered, and give us

great reasons to be proud of ourselves and each other. And so I really want to encourage everyone who can to come out to the Crossroads market Sunday, between two and four were Dr. Charles Silverstein, the author of the new joy of gay sex will be. And even if you can't make it, then please make an effort to get this book, buy it, borrow it. But more importantly, read it and understand that you are a part of it as much as anyone that he may have been writing about. And our sex lives are a significant part of our being. But it's not everything, but it is important. And it's because of persons such as Dr. Silverstein that we have come this far. And hopefully we won't have that much more room to go. Before we do reach the point where in society being gay or straight is just really unimportant, and nothing but a personal matter. Thank you for being with us. Tonight. Dr. Silverstein. I really appreciate you coming to Houston, and I'm looking forward to the third edition. Thank you. Thank you.

Rebecca and I went camping, we made camp, we spent some time eating, we were laying down by stream, and all of a sudden there were shots. My arm exploded, Rebecca was hit twice and started to bleed to death. tempted to carry her pose on successful, the entire walk out of the woods, I believed myself to be hunted. My name is Claudia Brenner. We were identified as lesbians by a stranger with whom we had no connection. He will spend the rest of his life in prison. But Rebecca, who was 28 years old, is gone.

Lucy Chappelle 17:58

Homophobia can kill, education is the only lasting weapon against bigotry, which is why the lesbian and gay public awareness project wanted you to hear and think about this message.

Scott Lewis 18:11

For more information, write us at Post Office Box 65603, Los Angeles, California 90065. Brian, I really enjoyed your interview with Dr. Silverstein. And I cannot wait to look through my copy of the book, which was a very generous gift from my co host, and was signed by the author. We're gonna go to a new song that's out by Patti LaBelle. It's on her live album that just came out a couple of weeks ago. And she talks a little bit about the problems in the world with people not liking each other and hating each other because they're gay or black or, or white, or so forth.

And sings one of my favorite songs afterwards. So I'm gonna go to that. And I'm going to dedicate this to one of my favorite people. This goes out to James who I met here two months ago on the husband hunt, you owe

 Brian Bradley 19:01

me that to also so I've got your book and I've got your husband. Now if I can get you a personality, you'll be a good person as

 Scott Lewis 19:08

well. We'll talk during the song.

 19:11

We don't have much time anymore.

 19:13

So if we hold things in if we don't let people know how much we love them while they're here. They could leave us and we'll be feeling sorry. We're losing people. Today's to so many diseases, cancer, AIDS, sickle cell, Alzheimer's, even homelessness, and addiction. And we're losing people today because we're afraid to touch them if they're gay. We're afraid to touch somebody if they're white, or afraid to touch someone if they're Asian or if they're black. We have to start loving each other a lot more and say to each other, I appreciate you while you're here. So just just in case, it happens or it's happening around you just Say to that someone would say to my sister

 20:05

that I love you I love you and love

 Scott Lewis 20:14

that Patti LaBelle can say

 Brian Bradley 20:16

and she need all over that sound in chauffeuring. Okay, just when you thought it was safe to come out once again the Republicans had left Houston they'd fold it up their big tent or big umbrella as they like to call

S

Scott Lewis 20:29

it wasn't very three people. Well, they

B

Brian Bradley 20:33

those three when they did there it left a lot of space but apparently not enough space for the diversity of this great country has. Thursday night I had the unfortunate, unfortunate to have a conflict and scheduling otherwise I would have been able to have been down at the show knees on it and East. We have four women with us tonight here from wack, Rita Ruth, Susan Newman, Mary Johnson and Amanda Sue lock. They did attend this meeting. And I'm reading from a flyer where the extreme right wing of the Republican Party had announced that they were going to have this meeting and lo and behold, but the resurrection brought us Dr. Steven healthsci. Again, and these women are going to tell us tonight their experience with Dr. Haute see, and his other zealot, so I don't I guess I don't know who to start with. I guess I want to start with you, right. I've heard a lot of gossip in it off. Yes. She has a big mouth too. I hear. I heard several things about you this week before I met you and they said you gave a stellar Academy Award winning performance. Why don't you briefly tell us what your interpretation of the meeting was? And be as graphic and Frank as you can be or want to be? And let us know just who the enemy is and how you perceive that enemy the other night and then let us know what you responded how you responded.

👤

22:00

Thank you. Yes. As we all know, the Republican Party convention was this a disgrace that they splintered into three parts they have their own weight as all Gods will fall of their own weight? They did. Thank goodness, Betsy Blake is pro choice. We'd like to help her if we can, however, the middle I don't know what they're doing. But the far right extreme conservative wing of the Republican Party this being led by not only Steve Holsey. But James, parrot.

B

Brian Bradley 22:35

Get this woman obey him quick. Three in the morning, yeah, right.

👤

22:40

We went to their meeting. And the most peculiar thing that struck me is that they never one time mentioned family values, poverty, child abuse, wife, women's abuse. Well,

S

Scott Lewis 23:00

that's because that's because they weren't there to talk about their home life.

👤

22:40

23:03

No, they finished. All they want to talk about is what you do in your bedroom, and who you do it with. And they were so vulgar and so depraved and perverted, that they even had the guts to, of course, say words like dirty, filthy queer. They didn't say at the meeting that did say it on their phone, when I call them earlier, this James parrot said that he said that didn't want any non Christians in there. And their organization, and so forth, but they did say something and please, Ann Richards, please forgive me for saying this. They called our dear Governor \$100 horse on a motorcycle. And I resent that because this shows their extreme hatred of women their extreme disrespect. Even if they didn't like and Richard, they certainly should respect the office. They are so homophobic if they know what the word means, which I don't think they do phobia is extreme fear of Are You Listening parrot and hold see, and they're listening because I called and told them and they are said they would listen? Are you listening? That and I feel and everybody feels and I know, in fact, that the reason why you're so homophobic is because there must be latent homophobia, I mean, homosexuality in you that you cannot deal with it in a decent manner. So you're fighting it in an evil way. So you want to punish yourselves, your children and us because of it. Why don't you just be normal and say, I'm a homosexual, for instance, me I'm not a homosexual or gay or lesbian, but they do not scare me. They do not frighten me. I respect them. As long as they behave respectfully. You should do the same. All right now if you're really as for pro choice, if you really cared about have babies you would be in Somalia helping those beautiful children that are dying daily by the by the hundreds. So you're a hypocrite. You're liars. You want to say you want to get Clinton Gore out and and Richard's out and you could replace them easily by your what they said, remember? And I said, I thought myself well if you do it by voting and do it honestly and you haven't been doing it honestly because you lie to get into office, and then your claws come out. She I'm forgetting.

Brian Bradley 25:36

You're doing well. I'm just sitting here wondering why wack has those drums? Hey, I'll give this woman a microphone. You don't need any drums.

25:43

already. I get excited not forget, okay, as the regard to homophobia Me thinks that protest too much. Otherwise you wouldn't be so fearful of people

Brian Bradley 25:56

wrote to tell her I'm sorry to tell us what words you shared with Dr. Cozzi and the rest of the audience, your performance person, I understand that you stood up and got everyone's attention. And everyone was praise Jesus. And he knew and Amen. And amen. And you and all that stuff. Did you get any Pat's on the head, by the way?

26:15

Oh, no, not really. Let me tell you what happened. I got so bored. And I got so tired of hearing their garbage. And all they talked about was sex, sex, sex. I mean, I came to hear about solving the world's problems. Instead, they want to know what I'm doing in my bedroom, of course

the world's problems. Instead, they want to know what I'm doing in my bedroom, of course, because it's so perverted, you know. And God bless him. So yeah, that's for sure. And somebody's got to know that nobody would. So I thought, well, I've got to break this up. I'm sorry. So and we were undercover mind you, all of us. There are many of us undercover. Incidentally, I want to say I have

 S Scott Lewis 26:51

a meeting is what I heard. Pardon me. Half of that meeting, were undercover.

 B Brian Bradley 26:55

Tell me how does feminazis go undercover?

 26:59

I don't know. But anyway, when I got tired of hearing their garbage, I thought I started in the headlock, the door. It was a small room. And I was scared to death because I thought I'm not gonna be able to get out of this. So they locked the door. And then I started edging over and I waited for the speaker that was speaking to finish her garbage. And then I said, May I speak? I've got a few things to say. And they didn't say yes or no, but I pushed myself. And and I said, I started with smiling growlingly. I said, I want to thank you for this wonderful meeting. I appreciate having been here. You have taught me that we've become too complacent. You have taught me and to remember that we have still enemies left in the game in the backyard snake. No, that's right. We might cut in half praise the Lord their legs and Hello. Yes,

 B Brian Bradley 27:50

preach it, sister. Oh, yeah.

 27:54

And then, after they were so gullible, and so

 B Brian Bradley 27:59

hot for Jesus is the term

 28:01

that I have said, and for instance, you I think you're a bunch of bunch of bigoted, prejudiced, repressive, repressive, oppressive and whatever. Nazi bastards out there and looked at me with their mouths hanging open that I don't think they understood, because they didn't move. They

were paralyzed. They need a dictionary. And that's it. So then I thought, Oh, God, I'm not gonna get out of this. And I kept trying to unlock the doors. I'm not gonna turn my back on your enemies. You don't do that. I kept trying to open the door. I couldn't do it. You know, my mouth is going like this. And so then I said, what I was gonna say, real quick.

28:41

You talked about pro choice. And

s Scott Lewis 28:43

you said long live and Richard's and long lived. And Gore. That's right.

28:47

That's right, did say. And so finally, as I got out, I thought to myself, as long as they don't touch it, and pray over me, they can and I want to say now I want to tell them now to keep their Bibles and their rosaries out of our ovaries. That's what I want right now. Do you want

s Scott Lewis 29:05

you know, Kim, you you said something. Kim, Susan, where Who am I talking to?

B Brian Bradley 29:10

I will just pretend like you're looking in the mirror. Scott. Go on. You've already flubbed it up. Her name is Susan. Susan Newman, she changed it five minutes ago.

s Scott Lewis 29:23

Nobody listens to us anyway. Susan, you said something when we were there the other night that you I think Rita Rita went into her. Would you call it a monologue or a

B Brian Bradley 29:36

diatribe?

s Scott Lewis 29:39

After Rita went into her diatribe, Susan, you talked about or you asked them, well, what are you gonna do about this? I hear what you're saying. But what are you going to do about this problem with the homosexual

29:53

testing woman had brought up homosexuals and I asked him what they were going to do about it. And basically, they do not answer the question. And I just went on and on about how they were going to witness and pray to God. However, they did say that they would accept a homosexual, if that person repents, and if that person cannot change their sexual preference, then if they become celibate that they would be welcome in their party, and they

B Brian Bradley 30:19

will be just as frustrated and harassed as they are.

30:22

They also said that they asked for, you know, homosexuals to repent. But they said that they would not compromise and would never forgive homosexuality, which, you know, goes against the basic tenet of their what was

30:35

really funny is this other man who I believe his name is Charlie Heartland is about 100 pounds overweight. And he was saying that it's just like alcoholism is you have to get rid of the drug. And I'm just wondering what his problem is,

B Brian Bradley 30:50

well, maybe we need to take care of SlimFast to his arm or something. Oh,

30:54

and also, I'd like to mention that he talked about his daughter who has some disease, I'm sorry, I don't remember what it was. He said it cost \$11,000 A year to maintain her. He said when she was before she was born, that the doctor told him that his wife could die. And he said, let her die that the child was more important. After the meeting, I went out and discussed it with him. And he said that because of his faith, that that's the way it was. And if his wife died, she died and lost my train of thought. She had already lived her life. And this was a new life. So her life was very meaningless. And I think all the women should listen to this because these Republican men do not care about your lives.

B Brian Bradley 31:38

I think that's probably the reason we're sitting here having this talk. Now, I'm hearing a lot of

comments from people, such as you know, Clinton Gore in office, now we have 11 new senators and six women in office. And now the work is done. We can all sit back and rest. And I know I personally feel I know you women do also, since we talked earlier, that our work has just begun that these people are going to react very vehemently. Did they let the audience know the other night what any of their agenda was, by any chance, what plans they had on in the local area, just to have to start

32:13

at the grassroots to get in the Jesh judgeships, and little county offices, you know, and start down at the low grassroots area, and then workup and eventually control everything, get the Clinton go out, and Richards out and so forth. Now, they are so depraved, like I said, that we mentioned already that Milan, Richard No, I

32:39

did. I did. Okay, I just wanted to send that when some of their strategy that they were talking about, first of all, they're trying to go at Betsy like very strongly, and they want to get her out of office. And they trashed her the whole time, insinuating that she was a stupid, crazy, lazy woman. And also, they, their whole, their whole feeling is that Clinton is a one term president, because he can't live up to His promises. his economic plan is so depraved that it will inevitably end up making the economy worse. And that if he doesn't live up to His promises, it'll be the Read My Lips thing. And if they could do that, to George Bush, you know, the Almighty, then they can certainly do it to Clinton. And basically, I think that that was about it for their strategy. They didn't really seem to have won, but they did talk about that they were going to use the fact that they live. There's a very large population of conservative Republicans in Houston. They didn't give any statistics and I'm sure if they were they weren't sound and so I don't know how large I imagine quite large though. Harris County is typically very public right? And that George Bush is coming back and they're really going to try and and get this movement going in Texas and, and Houston, particularly.

B Brian Bradley 33:55

So one of our other guests here tonight is Mary Johnson. Mary did when you were sitting there listening to these comments, and as humorous and funny as they can sometimes sound. Did you leave having taken these people and their intention seriously? Or was it just a Night's Entertainment for you? How do you feel about these people? How committed are they to swinging you know the Bible back into schools and taking choice away from women and maintaining the ban on gays in the military and such as that?

34:26

I think they're very serious. And very, very dangerous to AI. It really scares the hell out of me. It really does. Because these people, the thought that I would get the way they talk, they're not going to stop at nothing. And also do clinic defense and if you see how they're act out there,

this is this is what I'm talking about. They will push and keep going and push and keep going until you They'll do what it what they have to do what it takes to get this done.

B

Brian Bradley 35:04

So you wouldn't say that your familiarity, your contempt for these type of persons comes from a familiarity. Do you suppose that the people sitting out there in the audience listening tonight should be just as afraid of these people as you are? And you're certainly not jaded on the issue, but you're just not to the realization? You've seen it? You've heard heard it? And don't you think that those Fitz sitters out there need to wake up and smell the coffee?

👤

35:31

I think they do. They they have a choice to make, and they better make it soon and get on one side of the fence or the other?

B

Brian Bradley 35:40

That's right. That's right. Susan, go ahead.

👤

35:46

I just wanted to say I found a big parallel between this meeting last night and the David Duke rally last year, because they talked about having one religion, and one culture and I thought that was very chilling. And also another thing I wanted to mention was they put God's law above man's law and this one woman, she I don't know who she was. But she said that they would do anything. And if they were killed in the act of doing something that they knew they were going to have in any way. So it didn't matter. Godspeed. Yes.

S

Scott Lewis 36:19

What? As you as you were there, and you sit through this, and you see all this. And I think it's important and exciting to mention that Wak had more people outside. Then there were inside. They had half of the people inside were representative of organizations that were there to see what the hell was going on with withhold see, and not there in support, but more or less as spies. What is what is this citee That, you know, what does this do to you? What is your motivation after you've been in there and heard him because we see him on the media? You know, as a nice, Parker put it to me today, she said, What is scary to me is that Steve Holsey is on the news, looking mainstream. You know, what's your strategy? Now? Where do you go from here? How do you attack but I'll tell you, what I

👤

37:10

would like to say is that we know and we have always known but we know for sure. Now, these

people are outlaws, they do not obey any laws, they do not feel they're responsible to anybody, but they're so called God, whatever that may be. And since they, we know that pro choice, for instance, is law of the land. Very shortly, our gay sisters and brothers will have full rights and full respect. But these people refuse to acknowledge it and refuse to obey the law. And we're going to have to change it. They're a small ragtag band. But then Hitler started as a small ragtag band and look where he got. And the reason why he got that because people let him get away with it. We're here to stamp the snake out, and cut crush their heads and not allow them to flourish. Hatred cannot flourish. Not I cannot allow it to flourish,

 B Brian Bradley 38:06

and sounds like a prescription for liberty. And I'm so very glad that whack you, women and other people took the courage and had the forethought enough to go down there and face these people. It's not always the easiest thing to do. And it really gladdens my heart to see more of a coalition of people coming together and trying to respect and foster human rights because that's what it comes down to not gay rights or women's rights. It's basic human rights. And these white male heterosexual dominated power hungry brokers are scared of us now. But if we could just stay together long enough, and be ever vigilant as Voltaire said, we can defeat these people in the end, it is our responsibility to do it. What you did may sound meritorious and it was but it was your responsibility as intelligent citizens and I thank you very much for exercising that responsibility. And if you're sitting out there on your big fat duff and you're not doing this I then don't complain when they come to get you. You got that Mary. Is that it? Thanks again for coming tonight. Ladies are really, really appreciate it again.

 S Scott Lewis 39:19

Absolutely. Jackals. Yeah, we're gonna send you off with a song that

 B Brian Bradley 39:24

let's let's give the listening audience wax phone number here because folks can turn out and come to the meeting. It's 8679581 Once again, that's wax number 867-695-9581.

 39:40

How about Jane's parents name and number? Okay.

 B Brian Bradley 39:43

I'm not arguing this woman should be protesting in my house in the morning.

 39:47

Awesome. One more thing that I think people should know is that they openly admitted that ~~they were fascists and there and that they supported the fascist regime and that's just if you...~~

they were fascists and there and that they supported the fascist regime and that's just if you know anything about that. It's very scary.

 Brian Bradley 39:59

Okay. A rate of return is going to give us the organizer of the North Channel conservative associations phone number.

 40:07

His name is James parrot, ta R R O T number is 4538778. Please call and find out exactly what these jackals and perverts are all about.

 40:21

Thanks. All right,

 Scott Lewis 40:22

we're gonna send you off with a song. That even gives me new hope because I didn't think I would ever hear anything like this coming from somebody like Garth Brooks. And this is a song off his new CD that he has co written called we shall be free.

 40:38

This saying come in from New Rafi just know when I close my eyes, I see the way this world shall be with me your king Nene. And we're back.

 Brian Bradley 41:09

Well, Mr. Garth Brooks, not only is he good looking, but he's politically correct. I haven't heard that song before.

 Scott Lewis 41:15

That's not a nice song. And you know, somebody asked him, I don't know who the interview was with or whatever. But they asked him they said what about what about this song? And he said, You know, I was brought up that you just don't you don't treat people like that. You know, you don't hate people, because they're born different. A lot

 Brian Bradley 41:32

of novel idea. Hopefully people that haven't been his audience before will bias the days and keep him on the airwaves. And just he rattled up Nashville.

**S** Scott Lewis 41:42

You said some of that that had caused quite a stir up in Nashville is that,

**B** Brian Bradley 41:46

yeah, maybe Pearl flipped her hat or here. The advocate this month has a two stories actually about country music, Kathy Matias interviewed and then there's the story about AIDS in the Country Music Awards, and the people not being allowed to wear the red ribbons and such but Kathy Metalia did actually she wore three for three friends of hers that had died. But the this current edition of Advocate has the full story on Garth Brooks and nice long interview with Kathy Metalia. Very interesting. I'm glad you brought that Scott.

**S** Scott Lewis 42:20

I like it a lot. There's a couple of things we're going to talk about real quickly. Before we have to go the first thing I want to talk about this Ron Wilson thing Oh, what an a&m?

**B** Brian Bradley 42:30

Yeah, I called Dear Ron the other day and thank goodness he wasn't in the office. But Al Freeman in his Houston office, I spoke to him at lunch. And let him know where there's a significant portion of Ron Wilson's campaign coffers have always come from and where a large number of his votes have come from. If you remember very quickly, Texas and a Texas a&m, one of their sororities or fraternities or whatever those white people do when they get together, had a party and it was called the jungle party and it was very racist. And he was very correct and admonishing them for that in but he's continues to beat the drum of racism. And as I'm glad he does, but he feels as if black people perhaps are the only people in the world that have ever had any discrimination carried out against them. We know that's not true women have gays have everyone has, it's just not right. So as a matter of raising awareness for people at Texas a&m University, he brought in a local music promoter who is a member of a Houston temple of the Nation of Islam, by the name of Kwan nail X made that real pretty. And this Quan L x made a statement to the listening audience that night, that with black women having so many problems, and there being so few good black men, according to him to choose from, then we didn't have any time for the stupidity in the foolishness of homosexuality. Well, Ron supported him greatly in his right to say that. However, he did not point out that he didn't agree with that type of homophobic statement. And then when he was questioned about it, he went on and on and said he had no intention to apologize that Guanella had nothing to apologize for it. And just I think Ron Wilson has forgotten who has been buttering his bread all these years and quite frankly, I'm just fed up with him. He may be a Democrat, but I think he's out of sync with things and you know, someone called him a yapping dog recently and that might just be appropriate. So that's the Ron Wilson deal but if you're, you know, in Austin dropped by, give him a call and or call his office here in town to talk to Al Freeman and let him

know that you're you are a gay or lesbian vote. You're a gay lesbian campaign contributor and and you won't be doing that. The next go round for Mr. Ron Wilson unless he stands up for all of his constituents, and that includes gays and lesbians.

 **Scott Lewis 45:08**

I read an interesting letter. It's in the twit. It's in the

 **Brian Bradley 45:11**

voicemail. You wrote one.

 **Scott Lewis 45:12**

I read one. Oh, I

 **Brian Bradley 45:14**

even find that hard to believe. Me, I haven't heard him damn cats in weeks. And I'm glad we have it.

 **Scott Lewis 45:25**

Anyway, it's very interesting. It's talking about the March on Washington, and the potential of moving it to Denver, Colorado, in a show of solidarity with the gays and lesbians that live there and a show for the people who voted this amendment to an showing them that there's a very large community and that we aren't going to take it and I was I was very interested by this letter, it comes from Pasadena, California.

 **Brian Bradley 45:58**

Ohio when the Rose Parade, huh. Well, they there has been some talk locally and nationally. And I don't think it's real serious about moving the march to Washington. It's logically impossible. I mean to Denver it's logically impossible disappoint the March on Washington, that will be April the 25th of next year is too big of an event to at the last minute to move to Denver. I think symbolically, people have expressed that sentiment but as the votes showed in Colorado, there were more people in opposition to gays and lesbians and their civil rights, then there were people in favor of having those rights extended to them, where I know we need to have solidarity with them and to support them. I think we need to keep our dollars out of Colorado and not visit Colorado and keep up the undeclared boycott so much as it is and to support the idea of moving to what March is really I think just meant to be tongue in cheek Scott actually. So I don't think we'll be marching over the Rockies we're going to have to have dinner with Bill and Hillary in Washington

S

Scott Lewis 47:10

what else exciting is going on in our in our little gay Well, we've

B

Brian Bradley 47:13

had a Tuesday was World AIDS Day and queer nation and act up and many, many other organizations the city in the county observed World AIDS Day and marked the eighth time that the World Health Organization has asked that that day be set aside to remember people with that have died from AIDS and HIV disease and to heighten the awareness of the great calamity that has fallen upon humankind and it was very successful Oh, I don't know what else did you do anything this weekend like double duty Jenny Greg coupon or something? I don't

S

Scott Lewis 47:57

Yeah, Brian. I joined Nutrisystem. What are you trying to say here?

B

Brian Bradley 48:02

Nothing darling.

S

Scott Lewis 48:04

You are so hateful to me. I've done nothing.

B

Brian Bradley 48:07

That is why I'm hateful to you. Are you like slowly fading?

S

Scott Lewis 48:14

I'm slowly fading into music. And I want to explain to Jimmy Carper. Right now, Jimmy, I just love you because I think you've had a lot of your carts near magnet or something. Because none of them are working and that's why we're not playing we shall go forth which we normally play right now. We're just playing a little little Tracy Chapman about the world be in a better place. That's the only thing I could find on such short notice when a card wouldn't work.

B

Brian Bradley 48:37

Get your hands out your pants in your mind.

S

Scott Lewis 48:41

Those are your hands in my pants.

B

Brian Bradley 48:43

Oh god I'll never eat again. Well, I'm sorry I missed you last month and I'm glad to be back Scott. Tonight. Two hours have went much quicker than way.

S

Scott Lewis 48:57
