with for a while, it always turns into that would be weird. Or, you know, we're too close to friends and I don't want to mess that friendship, because that's always the answer. And I like I've talked to several different people. And they get that answer too. So I know it's just not a defective mind. No, we're like, all these random guys are like,

00:22

Yo, you're so gross. No,

00:23

honestly. Go ahead.

00:25

Okay, no, that's how my girlfriend I start off with started off as really good friends. And that was one fear that I had, that it was gonna mess our relationship up, you know, that it was gonna be that, you know, I like you, you're my friend, you know, and kind of Mr. Relationship up, and you know, she would feel uncomfortable being around me. And that, you know, all our mutual friends would be like, we have to schedule things around, you know, this. So it, you know, it makes things a lot more tense. But once your friends in the beginning, and you know, you've gotten to know them, and you spent time around them, and you know, you've hung out and all this stuff it makes it makes you transition from friends to more than friends a lot more smoother than I think you're cute. Hi, I think you're cute. I just fed you on the street. Let's date. You know, it's, it's a lot easier.

01:13

No, I agree. I think it's a lot of it has to do with trust. And I know, especially with women, it's trust is a huge deal. And I think when you go into a friendship, personally, I'm not gonna be friends with somebody if I can't trust them with my deep, dark secrets. And I think that that's a huge important part of a relationship is, if you haven't established that amount of time in which you've learned to trust and you'll have faith in one another, then the relationships not going to be founded on really solid ground, and something is going to come up later on. I mean, it could be 20 years down the road, something's gonna come up, and it could crumble in a heartbeat. And that's just not worth risking. On that

01:55

note, we're about out of time. So I think we should go ahead and do our shout outs. Finger. Did you want to start out?

02:02

You don't have any shoutouts I can't think of any names. Oh.

02:05

Julian Julian wanted a shout out. Susu shout out to Julie Hey,

02:10

Julian. Yeah, go kitty. Oh, Elaine, and in Michelman Courtney and Oh, wow. Yeah. Don't forget Milo and

02:22

Milo, David. David. David. David. I love you, David. I love you even though like you're you never tell me you love me. David, David is Courtney's brother and Courtney's brother is straight and like we have this ongoing inside joke where I tell him he loves me, where I tell him that I love him and as harsh as it sounds.

02:47

I don't all the person that I'd like to shout out to is not listening. I know she's not listening. But it's the sentiment. Yeah, it's just, you can shout out and make them listen to it later on. Wanted to say your name just in case one of the creepy people that know her parents.

03:05

All right, then, you know, she knows Yes. Yeah, exactly. Go ahead.

03:08

You got any shoutouts Matt?

03:09

Um, if my sister's still up, hey, Ali, I can't believe you're up at like 230 in the morning. Mom's gonna kill you. And to just all my friends who are insomniacs and listen to the radio late at night, because we're all crazy.

03:26

And I don't think I know anyone who's listening who's not already here. So I'm just gonna say Hi,

03:32

Matt. Okay, well, I told my mom I was gonna give a shout out Mom. Hi and my dad. Thanks for everything. I love you. So cute. I wish I did a better one. Okay, let's start over now. Happy Holidays

04:30

I just thought we didn't get to sing any Christmas carols Oh no. Please

Chris Harrison 04:36

do you want to do your the way? Oh no, we don't do that anymore. You don't have to Okay. What do we thank you hatch Happy Holidays and we will see you in the coming up is mistress Max and. That was Dave Hall again with Christmas in Vermont. It's time now for the leather line. The mistress Ihsahn

05:11

Yes, she is. Good morning. Good morning. all you wonderful perverts out there. People who just can't sleep this time. Good morning. Okay, the leather line. I'm a little pissed this morning. So this should be kind of an interesting show here. First, let me say happy holidays to everyone. It's been a heck of a year, kind of glad it's over and feeling fortunate to have survived. Unfortunately, there are a lot of people who didn't make it through, as well as I have. So you know, little shout outs to them. The show today? You know, sometimes it's not even about answers. You have to even know what the question should be. And this is a case of my not even having too many intelligent questions, because I'm totally confused. There's a new law called 2257. I've read it. I may not be the sharpest knife in the drawer. But I'm not the dull one, either. And I've spoken to lawyers and other people, and they have read this law, and everybody seems to have a little different take on it. And unfortunately, that seems to be the problem with the law. And this law says that something obscene adult oriented or something with regard to websites. If you have pictures depicting anything obscene, you have to have releases from all the models saying that they're at least a team. You have to have their names ranked serial number, bra size. Oh, sorry, not that one, right. And any other name that they may have used at any other time? I guess this kind of leaves you with? Well, anyone and everyone you deal with is absolutely upfront and honest. And bla bla bla bla bla. And this information must be held in a place of business that is open for at least 20 hours a week. And you know, maybe that's not so bad. But the thing is, what the heck is obscene? I can think of a lot of things that are obscene to me that definitely are not to someone else. And certainly a lot of things that I do. Someone else may view as obscene, which is really cool, too. It's just that you know, my thing is my thing and yours is yours. Well, that doesn't seem to be the case. Anyway, this law is probably best understood. By the I will beep myself out here beeps who wrote it. And unfortunately, in addition to that, the translation of it is left up to other beeps all over the place in different states and cities to decide what obscene is. Anyway, we're going to discuss this thing as best we can. It let's make KPFT radio that listens to you. And I'm saying this right now just to keep from saying a whole lot of things that they really will beat me out about and we hope that you call in and participate with questions and the number is 713-526-5738. I have in the studio with me, Mistress. Misha more.

09:11

Good morning. Merry Christmas.

09:13

And Misha more has been in the lifestyle. Do you want to tell them how many years I won't you know?

09:22

over 14 years,

09:23

okay. And also on the telephone. I'm having a very special guest. Her name is Empress M. And she is a woman in Connecticut who very recently had a taste of this two to five seven.

Chris Harrison 09:45

We have her on why on the air right now in Paris.

09:49

Good morning. Good

09:50

morning honors area.

09:52

Very good. How are you so glad you could join us this time of morning.

09:56

Thank you for inviting me.

09:58

Okay. Um, where do we begin? Um, I know that you have been through a lot of issues and been in a state of confusion for several weeks now.

10:12

Yes, around six weeks.

10:14

Okay, six weeks ago, the powers that be entered Empress M's facility and took all of her BDSM position. Yeah, just about, yeah, all of her BDSM possessions, all of her computers, et cetera, et cetera. She was not charged with anything. And why don't you fill us in on on what happened with you what you've experienced with this new?

10:42

Okay. On November 16. What's like pretty much the whole police force, along with the state police and a forensics unit. knocked on the door. I didn't open the door. But the door was slightly ajar. And they, you know, I was withdrawn they stormed in. We had no clue why they were coming in. Only that they were. And when they did, we were ushered to the couch and the raid began. One of the officers said that he was looking for something specific, that he would let us know what that was when he found it.

11:26

Did you? Did you ask them that? Did you ask them what they were there for? What they were looking for? What this issue was at all?

11:33

Yes, we asked them numerous times. You know why they were here. We asked them for the warrant. We asked them, you know, what was the specific item? It seemed to us that they were looking for anything, any everything and anything that had to do with, you know, a computer BDSM anything related? That was equipment, personal effects. And they just took everything without even looking at what it was they were just tapping it into boxes.

12:07

Okay, well, you say personal effects, what type of personal effects did they take? Well,

12:13

it took personal things out of the bedroom, I have a slave that has a collar they even took that they took photographs of my son's wedding, which has nothing to do with BDSM

12:28

or the kinky wedding or something.

12:32

They have, I believe, a birth certificate, and they have numerous papers that have nothing to do with BDSM files that I don't know, if they're listed on the search and seizure, you know, affidavit that they had given me, there's no way to know, you know, my filing system is not 100% know exactly what they took, but I know it's not here anymore.

13:00

Okay, now on this this warrant? Did you see this warrant? Or were you given this warrant when they entered your property? No.

13:10

They said that they had the word, and that we would see it at the end of the rain. They never produced the warrant. And I happen. They took all the stuff, it took five hours, they went through all the stuff. And then they took a picture of a piece of paper. So we thought immediately that that was a warrant, and they were gonna give it to us. It turns out that they left with the paper that they brought in, we're not sure what it was we only know that they took a photograph and left. So later on, I would say after four weeks. I had put it I had put an article on the internet. And people were confused as to why I didn't get the warrant. The police department didn't make any comments. Nobody knew that the radio existed because there was no way to prove that it did. So there was a lot of questions whether or not it was making it up. Really? Yeah, absolutely. That was the biggest thing. And then that is that. Why is she pretended that she got rated? Because if there's no press, there's no way for them to, you know, kind of say that you did it. Right. I mean, there's no police report. There's no Ray. There was no I mean, it seemed like it didn't happen. And it's not until like four weeks later, did you know we get any word or they did a interview with my attorney. When I hired an attorney. They did an interview with him. Why not that time was the first place that you know, posted something about the race gave us a leg up on people least knowing that it did occur, because he's a very well respected attorney. works specifically in this area.

15:04

So there was no record of this at that, you know of until

15:09

no record, there was no record that was released to the public. Okay.

15:13

All right. All right. So you had told me at one point that they informed you that the warrant was sealed?

15:20

Yes. Later on when they made, the first interview that the police department did was a newspaper called The Journal Inquirer. And and so Connecticut, they had said in the newspaper that they had given us the warrant.

15:38

Okay, do you have the link to that article? Do you have the link to that article?

15:46

Yes, it's on my site, and present that net. Okay. And all of the links to all the articles that were ever written are on the site along with the affidavit that we received today. This might be a silly question.

16:02

Do you know why you were targeted?

16:05

We do now. I don't know why I was targeted. But we know what the affidavit states that I received today, earlier today. And what is that? What is that? Is this nine page affidavit? along with a copy of the search warrant? Okay. Okay. Should have gotten at the time of the raid, but it was sealed, right? Well, we don't know whether or not it was actually sealed at the time of the raid? Because we don't know. It wasn't? No, according to me, it doesn't appear that they would know about all of the items that they have listed in this affidavit unless they were ever in my house already. They were not.

16:52

So you think that the search warrant was done after they seized?

16:57

I do but try to convince somebody that's not in the lifestyle that it was done after, right? Because we're in the adult industry, we're not looked at as the same as anyone else. And just a

regular business. I mean, our businesses aren't recognized as, you know, legitimate businesses, even though some, some aspects of them are completely legitimate. The gray area exists, right? There's no way to get around that. I mean, I've searched and I've tried to do the right thing. And, you know, tried to go by the standard that they set in the town, but it's absolutely impossible, because no one knows what that standard is. You know, I already talked about the 2257 that's an issue where we have absolutely no clue as to what your say that you're in network where you do your website, sign up seeing exactly what Connecticut can be completely different from, you know, Texas. But you're you're viewing my staff in your area, why me What's NASA they gonna say? Because you viewed it in your area that now you're committing a crime?

18:07

Well, they the way this thing is set up. Yeah, they can do that. It seems, you know, it's up to some nit wit, who's you know, anal retentive to decide? Well, you know, I think this is obscene.

18:24

And for the asset then after the, after the first article in the journal Inquirer, another article came out, stating that the police said that the warrant was sealed. That's a contradiction from the first paper and the first lieutenant that said, we had given the shelf over the wire. So they said they had given it to me, and then they said it was sealed at the time of the raid. So did they give it to me or wasn't a sale? That was the question. Later on. We were told that it was gonna stay still sealed until they investigated the computers. My computer's about a forensics lab being investigated for sadomasochistic pictures and videos and my furniture is being investigated. For that is what I have in this affidavit.

19:25

Can you can you read that part for us, please?

19:35

Okay, American, y'all

19:36

probable cause in the eyes of Connecticut? I would say that so much of it. It says a computer system that may have been used to access data that depicts individuals engaged in being gay conduct, and use the facilitated criminal enterprise of prostitution or other non compliance businesses password used to restrict access to the computer system or data, computer system documentation and written or data form or other related items CSET items transport that computer systems data and related items to the State Police computer crime unit for forensics examination and review. The forensics examination will include making copies of the data and examining the contents of records correspondence, notes papers, Ledger's personal telephone

and address books telephone toll records, telephone messages, slips, memorandums, files fasters documents pertaining to criminal enterprise of prostitution or non compliant business computer images, files, cameras, video tapes, motion pictures, photographs simulated, simulated provided in any documents and records at any time reflecting the receipt of acknowledgement of trade of sadomasochistic materials. And with change the strange back costumes and paraphernalia indicate sadomasochistic activity, which they believe is prostitution. Now, I don't know if you read in there any kind of sex for money, but that's not in there. But yeah, on the warrant, it says promoting prostitution second degree, promoting prostitution third degree because if you advertise on the internet with these types of material, you are a prostitute or you promoting a prostitute. Then it says permitted prostitution. And of course, last but not least, they believe because I'm doing this after I get my permit, that I'm in violation of zoning regulations.

D

Dawn 22:04

Is your site a membership site? Yes, this is a membership site. How long have you been on the internet? My site has been up.

i

22:16

Since I had the permit, what the town my membership site has been up. I've been on the internet for a couple of years I've been I've always been, you know, a DOM and I've always practiced the lifestyle. But I didn't. I was never a pronoun. Now, it's a little bit different was meant a lot of people lifestyle. And that's kind of notation. And I guess this is gonna build me up another application. But you know, it's been it's been tough now, because I was one of the people that went and really wanted to do it the right way. But I think I was too honest. And that is why they targeted me, but

i

22:59

I'm not sure about that. But the thing is even the mere fact that you're talking about an internet membership business and think about this, Misha, okay, internet membership thing, okay, I don't care, tiddlywinks? sadomasochism, I don't care what it is we're talking about over the internet. Yes. Now I don't know if sex and prostitution has changed and OB like old fashioned, but I thought that was when you got together. And you did some some the wild monkey bang. So how do you get prostitution out of what somebody looks at? on the internet? So what I mean, what do they

i

23:53

know, you have to remember that when you have a membership site, or when you put up pictures and content, you have to actually take the picture, you have to actually videotape the content. So while you're videotaping the content, even though entertainment and making these videos is totally legal. You know, if they're not obscene, you have to have a place to actually do the videotape in it. So what they're saying is, they did not know when they busted in my house, that I was videotaping content for my membership website, which is that when I'm touching

someone, or if I'm spanking someone, or I'm doing anyone those BDSM activities that we all know and love, they are saying that I am committing an act of prostitution, or I'm promoting it. The promotion is when I advertise it. Is it a live video feed Police Department said are these membership have people in your neighborhood? I couldn't believe it. I'm like, No, it's, it's worldwide. They thought that people bought memberships and came to my house. And then we showed them on the computer. That's how much they really investigated this. They didn't even know what they were doing.

25:18

This came about do you think that they just kind of put in a number and just

25:25

how it came about?

25:26

How did how do you think they did you?

25:28

He goes through the the affidavit there was a letter sent in to the police department stay in this one 1205 The Anfield Police Department we've received an unsigned anonymous letter which referenced an s&m Prostitution house operating in the town of Anfield. The letter states attention. And so police vice department, I thought you would like to know that you have an s&m Prostitution house. In your town, I was surfing the internet and came across ampersand that net. If you check the privacy policy, I think you will see the name and address of the owner. Thank you for your time. Now, the 2257 record that I have to hold has my name and address on it because I hold the record him I must have that to run this site. Which means that my name and address is public knowledge. According to the lawyers that helped me to the to 257 and the town, I have to have that there. So they knew immediately that if they click on that record, they're gonna see where I am. So naturally, they can begin watching what I did. That was over a year ago. You think that in that time, if they found any prostitution, they would have arrested me immediately. But they get in. They waited until this person sent the same exact letter. Again, six months later.

26:59

Okay, were you in the middle of filming or doing anything when they came in?

27:03

In Syria? I just

27:07

very essence me. Okay, now I'm sure there's a finish. We can't We can't hear you. Jimmy. Jimmy's asking you a question. Okay, he's got to fix this thing. Oh, there you are. Okay. This is Jimmy Carper, the fantastic person who produces this show and allows us to be able to talk about all this stuff on the air. Jimmy.

27:36

Sounds like what they are trying to do is equate BDSM with prostitution. Exactly. And that is the thing that has to be explained that this is play there is no sex involved?

27:52

Absolutely. Well, they say that it causes a state of arousal. That is sexual. Exactly.

28:01

Right. But what is arousal mean?

28:04

They can't determine whether or not you should determine each act as an individual act. And they would have to say, Well, is this prostitution? Or is it not prostitution? And this is why most of the time when these types of things happen. They don't make a final arrest. If it's BDSM, because they just don't, they just don't know what to do with it when they get in a court of law. What are you going to say? She spanked me she spanked when she spanked me? I had an accident. I mean beliefs bank in the sacks? I mean, it's sexual, but it's not sad. Well,

28:43

you know, part of that, and we've talked about this before, Jimmy, you've got some vanilla guy who makes pornography in his garage in Pasadena, California. And that's okay. And no, no, but he does the s&m videos of 1520 years ago that are some of them are still circulating, yes. Where sex is very much a part of what you see. Not only do you see sex, you see what appears to be a lot of non consensual activity. You know, and people are very narrow minded to a certain degree. It's like, well, that's what somebody told me or that's what I see. So that how it is how it has to be. They watch this 45 minute video of some chick getting snatched off the corner and taken and beaten and raped. They have no idea that this happens to this woman every week with the same guy doing it but Fred 20 years Yes,

29:56

11 29:50

but you talk about if it's illegal to have Have something that causes a arousal called lewd and lascivious behavior, then you're gonna have to tear all the Playboy magazines off exactly the shelf.

30:09

Hey listen I see a good look in sports car and I get hard

30:14

you know that's arousal

30:20

I mean, so when does it stop? Exactly? Don't know it's never going to add really? They can do it to just about anything and what will only be left with I mean we won't have any right well they're

30:35

not going to stop if people out there think oh, this is just them pro Dom's. You know what I mean? Half of them are prostitutes. Anyway, that's what I believe. And you think it's not about you, you got a problem. We got to take a minute for station identification. I

30:53

need to remind people that they are listening to after hours queer radio with attitude. Right here on listener sponsored Pacifica station. KPFT Houston. 90.1 FM 89.5 in Galveston, thank you.

31:12

Okay. Anyway, back to at this stage. And I think this is within the BDSM community. And that is whether you're in the closet, out of the closet tied up in the closet, whichever. We cannot afford to think that this is just a production issue, that this is just about public dungeons or places where people go to do things, because the truth is, they are not going to stop there. This would not be the first time that the government has jumped all in your bedroom.

31:54

No, you know,

31:55

and it's going to, that's where it's going to end up. You know, they're already in your kitchen in your bathroom. basically telling you how you need to look and everything else and robbing you of most of your life because you need to be in their fishbowl at work working all the daggone time ignoring your life, your kids and everything else. I'm on a roll here. Do you get any support from any of the other pro Dom's or lifestyles there?

32:23

I have not been contacted by one pro down in, in Connecticut. As a matter of fact, they're pretending Iona exists. Now I have been contacted with people like this just rolls and other people from all over the place, but nothing in Connecticut. And it's really upsetting. Seeing that everyone in Connecticut basically does the exact same thing. So for me, I would have liked to talk to them to help them protect themselves. But I didn't realize that they were in such fear. But I then found out that is maybe the cause of one of them. The original letter that went out, I believe, is from one of the people that started a rumor about me back when I first put my website up, I had a problem kind of with them. And the reason why I say it is that that the tax that was sent to the police department is the same exact type text and email word and that I got in my email from this person along with some other horrible things. But it's always been said and sounds and told to me that this person was out to get me why I have no clue. Only that I was I would say I came on the scene, I think too quick for her to be able to manipulate me like she does some other people and I wasn't really in a position where I thought other people was gonna make a rule for me. It's not that I wouldn't, you know, like to have gone and made friends with some of these dams, but they don't seem like they're very close net there. There seems to be stabbing each other in the back every chance they get and it's something that I don't believe in. That's a human attributes. as helpful as you can no matter what you do.

34:27

Well, that's kind of a human attribute carry it though. You know what I mean? Everybody kind of watches their own backyard. But you

34:36

have to watch your own backyard. But you know what, you don't help somebody. You don't hurt somebody else just to gain notoriety for yourself.

34:45

Somebody will make a career out of that. Are you kidding?

34:52

I learned a lot believe me. I've learned a lot

I learned a lot believe me. I've learned a lot.

34:55

Is this going to affect you in terms of okay, what's going to happen to you Um, yeah, well,

35:00

I can tell you in the midst of all this, and one of the reasons why I created ampersand.net, the membership aspect of it is because I was after my divorce about three or four years ago, I'm a nurse and I, I decided I needed to make more money because when I got a divorce, I went through a bankruptcy. And I needed to make payments, because it's chapter 13, I need to make payments on my bankruptcy, which is a lot of money per month. Basically, I needed to make an income over six or 7000 a month, along with the website and what I do, I was able to make my payments with them taking away my business, everything, my website, I can't update my website, they took away like \$20,000 worth of stuff, all of the computers, everything. I am two months behind now on my trusty payment, because I was just making enough money to pay them back every month. And now like I was getting anything out of it, I was saving my house and now I'm gonna lose it anyway. So my house, as a matter of fact, I got a letter from the trustee stay in that they're gonna dismiss my case, which was, they don't care why I can't say that they came in and took all my stuff and slander my name in the paper. How would I get a job anywhere else? Do you think anyone's gonna hire me as well? Professionally, do you?

36:36

Would you still try to continue with the websites? Or has this friend do you say,

36:44

we're going to end up after I lose the house, I'm probably going to end up moving to probably a bigger city. And I will continue to do the website. I'll change what I how the website, not not what I do in the website. I'm not going to change what I do in the website. Absolutely how it has to go. Because there's certain things that I've learned that you cannot put on your website. And I would say

37:12

the things tribute

37:14

attribute page in the session page is an absolute no, no. It is a target area for Law officials. Also, one of the things that I learned is that their favorite hangout seems to be the dominant guys and the boards that we talked on back and forth, you know, basically about every subject

under the sun

37:38

or any of these boards or anything mentioned in the affidavits that you receive.

37:43

Absolutely, they were. Yep. As a matter of fact, the stuff that they have in the affidavit was copied right off of the board's

37:53

really, any board didn't particularly only have

37:56

a copy in cash that was not written by me and using it. In this particular case, which boards

38:07

which boards in particular today.

38:10

Back home. They also went to some of the Domina. The dominant boards, popular genre board. They don't want to make some of the bigger things like Yahoo and Google and types of places are all, you know, obviously being patrolled. I mean, it's a known fact, they can have access to your computer, through your online provider, they can go right into your email, which what they that's what they did. They don't have to have a warrant to do that.

38:50

Okay, now this particular law has been on the books actually for 15 years,

38:56

like DOJ recently. Since Gonzalez has an all out war on porn,

39:07

I thought he was specifically BDSM that he was talking specifically

39:11

BDSM sadomasochistic behavior. So what they're gonna do is they're gonna start with the most lewd act and work their way down. Let's say that they start with someone that you know, does something like, oh, I don't know the

39:25

Yeah. Is really loose. I'm sorry. What was that?

39:29

I would say urination, to be a big topic for everyone. urination to them is considered obscene. They want everyone to take down their sites that include urination, but now the civil rights attorneys are saying we don't have to take down those sites because we're allowed to have those hitters up is not considered lewd in the eyes of what they believe the kind of our constitutional rights today. Yeah, so we're Again, with the system, we're saying, on one hand, I'm gonna keep my material up. And if you don't like it Come and get me. So I was accused of having material up and Thomson, the government, someone like me, that makes x amount of dollars per month. Time to talk the government well,

40:24

somebody needs to totally bizarre.

40:27

But that's the way it's laid. And now after they get done with this, they are now targeting those areas that I told you about to target in the news groups, their target in gate gay insights. And one of the reasons why they're doing that now is because they are assuming that the woman that posts on these sites privately during sex, virmani or BDSM, for money, if you have someone on your site as promoting themselves, you are now becoming someone that promotes other people. It's almost like pimping and pandering. I mean,

41:03

if you have like links, if you have links on your website to other people, then that is pandering.

41:12

Which is in the affidavit? Yeah absolutely So now places like I told you just a few minutes ago

which is in the unadvised. Yeah, absolutely. So now places like I told you just a few minutes ago, one of those big major sites, now they post pretty much everyone in the BDSM lifestyle along with anyone and everyone who wants to fill out a profile. Okay, so you go in, you fill out a profile, and then they find out later on that you have your own website, you can't post your website on these. No, you can't. So they find out, you know, because you're popular, they stay seeing your pictures on the internet, they see your pictures there, people are smart enough to put two and two together. You go say, Hey, I'm gonna look at that person, you find out that person is a pro down. And you're now saying, Wow, I got that person off of that site right there. And I went to her site. And that person said they weren't to charge me for a session, they go back to the News Group and say to the News Group, hey, you have people on your site that I'm trying to date, then say to me, they're gonna charge me to date me? Why are you allowing people like this to be on the site, and then the seven people that come and see are the same people, they're making the complaint?

42:40

Well, if you are a pro DOM now and you have a site or on a personal board, then it should not be a bait and switch kind of thing as well. I have to say that you know what I mean, when people

42:56

fill out a profile, there's going to be policies that are put in place to say that if you have a website that promotes X y&z You will not be able to profile on this board, then they're gonna get in trouble if you do anything. To make it so nobody can do anything. And no one people that they get scared to take down their sights, the better off it's going to be for them. Well, I don't know. Nobody knows what to do with this. I mean, every day something's going on with I know you

43:33

also miss an Indiana having some issues similar to yours. Are you familiar with her story?

43:44

Yes. I'm familiar with Australia, but not not enough to talk about the exact

43:51

right, but she got invaded. Okay. All right. She is really trying to fight city hall. I did read where the press conference that the official was having to talk about what a terrible place she was running. She showed up at the front. Yeah, she showed up at the press conference and shot some questions to him that she's very, very worked very, very well. Now. She just went with honesty. I know what I mean. And he had to back down a bit, but it has not curtailed any of her problems or issues.

44:29

No. No, and the unfortunate part about that is, the more that she fights for her rights, the more they make a spectacle out of her even though she's fighting for her rights, and trying really hard to gain the support of, you know, people from all over the place. Having the same problem as me. I'm doing it a little bit different, but at the same time, I understand the division She is said to me that he was, you know, upset, basically with the community. Yeah. And the people in the lifestyle, that they aren't supporting her more,

45:12

either you would think that we would, but it's also a double edged sword. You know, the same reasons that I took down a lot of photos of other people on my site, not that they did not give me races, etc. But still, you know, if you take yourself and then and them, you know, the most aggressive and excited and enthusiastic exhibitionist doesn't necessarily want you to know that He's CEO of Huffine, fluffer. Right, you know, or messenger or, you know, poopsie, Bable, Tish. You know, I mean, you kind of understand, but then there comes a time when you gotta make a choice, sometimes we do, you know, it's, it comes down to sometimes saving your face, or saving your ass. And right now, our ass is up for grabs. Yeah, you know, our freedom, our ability to whip who we want to be with who we want. Be will be what we want. You know, just, you know, I usually have like, the, the toy of the month. Yes. And I usually do a lot of descriptions and all that. But I just wanted to do something that had a little audio this time. Something that everybody could relate to, he can know. Yeah, he touched Yeah. Folk. All you folk out there. This one's for you.

47:21

Do you know, speaking of just strange as rules and everything, is it here that you cannot have? And an artificial? Yeah, yes. Yeah. Yeah, you can look like one.

47:40

Well, the law states that. You cannot sell dildos. It's the Delta law. You can't sell Texas, in Texas. And you can you cannot own any more than six. If you own more than six, you're probably in the business of selling them.

48:03

Oh, my God. Yes. But but you can buy dildos. You know, you can have one for every day of the week. But if you have that seven, one, you're in trouble.

48:13

And it can't look like the real deal. Absolutely.

48:18

Even though they are selling. Hey,

48:23

Dell, no, you know what I mean? It's all very strange.

48:28

If they can't look like the real one, they will have to be probably a really bright color misshapen. That's kind of like the real one isn't.

48:43

Very good. Very good. Why won't you? Well, now you don't know what you're going to do. Are you going to kind of become a spokeswoman or the poster child for this thing? Even after it goes away? Are you going to still? Well, it continue to

49:03

live? Yeah, it's changed my life completely. There's some there has to hatch, we have to do something. We have to be able to get enough people together, that they're going to have to put some law on the books that makes our lifestyle and what we do for work, if we want to do sessions for pay legal or legalized part of it, or there's got to be something they legalize everything else. So they're trying to somebody has to speak for us. I mean, I don't know how many will absolutely do that. I know there's people out there doing it, trying to do it. Now. I don't know why we can't quite naked anywhere to get anything in the gray area

49:53

because your community is so closed.

49:56

Exactly. It's a bad thing. Hey, you know,

50:01

that's what Merlin was just bringing up earlier,

B

Bobby 50:05

I was just thinking, you know, we live in a it's, I think of it almost in terms

50:12

of showing it on TV as part of movies that much in the closet that they're using it to entertain the vanilla

50:22

public. Exactly. Because goddess Heather is going to appear on CSI for the third time coming up here. So really work. And

50:33

then on the other hand is saying, no, no, no, you can't do that.

B

Bobby 50:37

You know, I think of it, there's a part of me that thinks of it much in terms of the government's excuse for not having gays in the military or in any of the major, you know, political whatever's offices, offices, and government and whatever, in an open fashion. That there's this crazy idea of, you know, their blackmail, and all these things that could be in somebody could have something over you and all of this nonsense hidden is

51:09

a man have a fetish for that. The more

B

Bobby 51:12

people Yeah, the more people who, whatever their thing is, reveal that tomorrow in the class and be out there and say, you know, yeah, so it is the CEO of this, that or the other thing, you know, and we were talking earlier on the subject of people who say one thing out here, but they're the ones getting there, you know, you know, on all fours in the, you know, the ones where you just have to say, look, the more it is out there, the more people are honest about it, and this is a part of the way it is, yeah, not the not the bright vanilla, you know, picket fence world that everybody thinks that, you know, the ones who want to control everything I think it is, the more power you eventually have. And the and I think it really, truly sucks that we're not willing to support each other

52:18

in this era, you know, because we because we are more concerned with property rights as opposed to human rights. That person who loves to get his behind whipped and tied up in, you know, everything else wants to continue to be able to afford to buy the toys and have the fabulously furnished dungeon. So

52:45

he's gonna walk through the naughty that exactly, totally legal.

52:50

So he's gonna walk that Republican right wing road by day, so that, you know, he can do this other little thing at night or at lunch break. Because those a thing to protect is not who you are, but what you have.

53:08

What bothers me the most, I would say is our community in general. On one hand, you can talk face to face with someone that does the exact same thing as you and yet they'll say I do a different you must be when you hear someone else accusing one of the people that have been arrested. Condemn talks about when you hear someone say, Well, you must have did something wrong statement. This was that was the most ridiculous thing and hurtful thing that I've ever heard in my life because it is saying, I do the same thing as you but I'm better or different.

53:51

But it's the same concept of the female that got raped must have dressed to you know, sexy

54:00

thing when you are faced with it. You know, when they come into your home when they came into my home, I now know and I'm on both sides. I'm on the other side now saying to myself, Oh, my God, not only are is of analysis public, against what I do, and they think it's perfect community is people in my own lifestyle. Think well, I

54:28

have a lot. You have a lot of people in the community. I mean, the community that I was in, in Virginia, right for many years, I tried to participate in the groups. They were not having it. A lot of people in our own community equate pro domination with prostitution. Yeah, it's true. Unfortunately, they just we're not trying to date you know, every time I turned around, they

came up with some new law or rule to keep me from participating. You know, which was really crazy, because I saw most of their subs and everything on a professional basis. You know what I mean? I would not reveal that to them. So I would walk in the room and act like I didn't know anybody, you know, and I knew everybody. But that's just, I It's that fear based thing, I guess. I don't know what the heck it is. And I started the show saying, I didn't know

55:33

if they come out with it. They may be targeted, and they don't want that. But if enough

55:39

people do come out, I mean, you know, look at how long it took the gays to do their thing. And now they can get married and everything well. You're not saying everything is coochie Fredo you know what I mean? Because we still riding on the back of the bus in some places for all intents and purposes. Yeah. But

56:06

people I mean, we're still trying to teach people about our lives and our communities. That's

56:10

exactly what it's all about. Since

56:11

we're still in the baby stages or lifestyle more accepting they're gonna be

56:15

That's why people need to come out of the closet about it.

56:18

But if everyone responds by shutting down and not speaking up, which they do, then how will people know Mike well, they and it's really going to be then you can start outing people, but it's going to be to your generation that it's going to have to do the politicians

56:36

that are voting against this and lawmakers and and public. All the old

56:43

folks there they are petrified okay, it's going to be the next generation and that's going to have to

Bobby 56:52

do they have to get generation beyond but you have to get such a sad thought off their

56:59

bank behinds.

Bobby 57:03

They had a word for what's going on today. McCarthyism, you know, they had a word for it. It was called McCarthy perhaps

57:10

Yeah, that's it and

Bobby 57:13

this and we asked what the system people didn't Did nobody see Good night and good luck.

57:22

You're dating yourself?

57:24

This one just came out? I haven't even seen it yet.

Bobby 57:28

Born when that when when McCarthyism started? Well, I was

57:32

well, in case you missed it. Here it is again. Yes. Exactly. What

Bobby 57:37

it's a terrifying thought to me that we could slot that we could allow. And the MAR slide. Yeah, we sit back and say, This doesn't affect me. Yeah, this isn't my fight. This isn't my well guess what, just like I said in that little thing in the pit in the voice there they were doing if you don't get out there and say it if you you know, with that, if you don't stand up for your rights, they go away. If you're not

58:07

part of the solution, you are part of the problem now.

58:13

Probably many people to just stay quiet and hope that they don't charge me with a crime. And I was totally you know, I said, Yeah, I probably could have did that and went their way but I couldn't do that. I just couldn't do it. Yeah. I said I will put everything on the line my name everything I ever said fine. I will say look, I'm not changing what I did I did it the best way that I could do it. Well then what I thought was legal in an area that remains gray. Well, you did have a permit the law is then you need to be able to tell me that what I'm doing is wrong and make it a standard for everyone. Because if you're going to make an arrest on a dam that's doing X y&z You are then going to have to arrest every single person in Connecticut, or we're going to do this as a national law or state to state law. There's no way for them to be able to make a lawn this kind of the thing that

59:15

gets me all of this is about protecting the children. Okay? Why aren't parents fricking responsible enough to put the net nanny, cyber diva Dodo, what ever all of those things are control on the computer. And if you're going to do some type of regulation, then make a law of that any and every adult site has to have this on their website as well. So when the two come together, they'll just butt heads and go their separate ways,

59:52

because they have to be able to take to make a law. That is that's basically you So,

1:00:01

one handle that

1:00:03

if you think about the seatbelt law, I can remember when I was a child, we didn't wear seatbelts on the car. But now everybody wear seatbelts. It's just a normal thing. You'd go on the car you put on the seatbelt. That took a while for people to do.

1:00:17

But they made it a law that helped.

1:00:20

Everyone abided by it, we got used to it. And it's common practice now,

1:00:25

but the thing is, you are not going to stop people sexuality. I don't care if they want to swing from the chandeliers. You have it written where people are stopping on the way up stated farms and doing all you know, yeah, I mean, you are not going to stop sexual you're not going to do it. And I mean, I'm am a spiritual person and all that. But look, home girl knocked down Sodom and Gomorrah and it still didn't work. Okay. Yeah, it's going to happen. So stop trying to control that and put other things in place. Why aren't parents responsible enough to take the few minutes it takes to put these safeguards on the frickin computer? You know why? Because they want to look at the

1:01:22

computers and TV because they want to look at the porn that inspired me so they don't have to watch the children.

1:01:30

But the other thing is, they want to watch the porn. So if they put that things on there, they can't get to it.

Bobby 1:01:37

People and this is that's another thing when the parent no longer one. When the parent said, you know you have all these parents going on, I ate over you know, this is this is wrong. It should go away. This is wrong. This is this is this is against our children. This shouldn't our children shouldn't see this. Well grow up be a parent and turn off the blankety blank machine. Okay. Computers called parents. Okay,

1:02:07

I think Miami Vice Squad shoot up every gun dog thing that moves across the screen. I think that's obscene. Yes, but it's like selling like hotcakes. They don't mind. They don't they don't mind killing this money knowing that we can do

Bobby 1:02:24

mind taking their eight year old to see the Passion of the Christ with and see blood spurting everywhere in one scene. Yeah, yeah. Yeah, but they want but they want to wreck and have that little kid Am I saw this happened when I went to see this movie. An eight year old going Mommy, why are they doing that to him? Yeah, yeah, that's not good.

1:02:49

But that that's okay. That's okay. You can do that. Actually, you curiously torture somebody and kill him. But let's play do that. And this is not a good

Bobby 1:03:00

thing. It's it makes me insane. Sorry.

1:03:04

I look very insane for doing it. You know? So I mean,

Bobby 1:03:08

be a parent. If you don't want to see your kid do something.

1:03:14

I feel like I'm in a time warp or something. I don't know if we're going

1:03:19

to do. Yeah, we definitely.

1:03:24

One, I never heard about this stuff. Although I knew that they started at that. I believe that the DOJ has started doing their craft town on porn in 2001. They did it before that. Well, yeah. Because they want the 50s better every year. They want get more freedom.

1:03:48

Well, would they want the 50s back but they want it according to I Love Lucy and the Donna Reed Show and things of that nature. didn't do any of you remember, Natural Born Killers. Remember the segment where they was showing? What was that? The family show where everything was supposed to be nice and nice wood actually the father was raping the daughter and and beating her and Eva show they showed. They showed it in a black and white thing. And Rodney Dangerfield was supposed to be you know, it was that 50s family? Oh, yeah, it was supposed to be everything perfect. But it was shot as if it was really the background of what was going on. You know what I mean? And that's it. It's not that these things were not happening in the 50s kid just didn't talk about it. You didn't have CNN, you didn't have the access to the information. So we want to go back to the appearance of everything being hunky dory

1:04:56

has less access to tell us what's going on. Yeah,

1:05:00

it's about being, like responsible with the amount of information that are actually giving out. I mean, they will go out of their way to, to broadcast anything and everything right without regards to to people's lives or, and in the 50s. They were much more reserved and what they would actually broadcast on live radio.

1:05:22

Think it was not, I think it was more like censored. I think they've gone totally a deal on now, way out there.

1:05:32

They will, they will take any story, they will trash anybody for price.

1:05:37

Because it's about sensationalism. You know, that that's what we're bound like it's

1:05:44

Boddy 1:05:44

from they put it in the name of protecting us from bad things. protecting us from protecting us from ourselves.

1:05:54

No, they are protecting us from the things that vague now. I'm still trying to figure out that day is that was a question you asked him, you know, 60s, they, they shot Kennedy, or you know, it's that the golden rule, their goal makes the ruling circles.

1:06:15

There's so many issues that need to be resolved before we can actually become a better people anyway. I mean, you know, with the media going as crazy as they are and our community and the BDSM community to the gay community still trying to find their way in the world. It's, it's just going to be a learning experience in the next couple of years. Yeah,

1:06:34

but it's difficult to find your way if someone is deliberately putting up the wrong street signs and detour signs and, and go this way on a bridge that they know, doesn't even

1:06:49

is becoming the norm. Now. I mean, I know that it always has been, it hasn't been so much, though. I mean, it. It's continuing. Since this happened, I have had phone calls, from people asking me for certain things that were I have never gotten my life.

1:07:13

Well, that's been happening the last few years. I never heard a body worship until three four years ago. Me too. What I mean things that people would not deign to ask. Just rip them through the door. You know, I get I'm outraged. But I think a lot of that, and I've spoken about this before, you have a lot of You're serious adult sex workers have taken refuge under the umbrella of domination. Yeah, because it was taken for granted that we did not do sex. It was not about sex. And some,

1:08:00

you know, taken for granted that we would not get

1:08:03

exactly but you know, Hermione Hoh, figured out that oh, look, I could call myself mistress Hermione Ho. I can do this and not go through any changes.

B

Bobby 1:08:18

Sounds like an entirely different Harry Potter was

1:08:24

the next series that I never, I never even know. This is how, you know, before the internet, I never even knew that people got paid for doing the stuff that we do. Because I have been like this. I've always had slaves to me, was a new experience that has been absolutely incredible. I have met people from all over the world that are wonderful people. Yeah, but this is a time that people in the lifestyle. Some of them probably shouldn't be in the life. Oh, yes. Are

1:08:58

there people who shouldn't even be allowed to breathe, but we don't need to go into that. And women have done this for a long time. Some of them are called wives. You know, whether they're on the submissive side or the top side, but you know, in the 50s that's what they were called. You know, wives, you took care of the home. You You You did all this you satisfied your husband in exchange for what? Something? Okay. And I'm sure it was just not his moral support is because he went to work supplied you with the, you know, 1953 Ford, and you know, all those good things all the trappings? Yeah. So

1:09:52

devil bake oven and you vacuum.

1:09:54

Right, right. But I think a lot of this is you know, and the forefathers of this country warned against religion getting all caught up in government. And I think that is really the bottom line with this

1:10:17

community like

1:10:18

that they like us or we, I don't think they like that we detect nouns and Soviet position is

1:10:25

no, it's the opposite to you have a lot of submissive females, and I applaud them. Just tremendously. I

1:10:35

think that they agree with the nails. I mean, think about some of our forefathers and think about the people that are in a typical vanilla lifestyle. The things that they say about the nails that are submissive are,

1:10:49

that's why they don't, but that's why they don't want to come out and talk about it. What point were you? Oh, hold on one second, sir. What were you going to say? A minute ago, I

1:10:58

was just gonna say that. I mean, you know, we're community that was like what we do for the most part and and whether we're paid or not, we do because we love it. And we do, because we get something out of it. Whether we're top or bottom right that it is. It's indescribable. Yeah.

1:11:18

Yeah, but they are dictating what that should be. There are you know, okay, what we do is not about sets, but let's just go on and talk about sets. There are things on the book laws on the books in certain places that say that oral sex is a crime. Bad oral sex is.

1:11:49

Beautiful Well, no, you just teach them how to do it. Right. We'll go from there. And pass that knowledge off to the elders.

1:12:03

Nature's not a public class can come in and have fun.

1:12:07

But you know, you can have you can now purchase these types of videos and everything like in play girl Playboy van

1:12:19

with a series.

1:12:20

Okay, so, you know,

Bobby 1:12:23

you said something about founding fathers. They and the far right conservative folks are always dragging out what the Founding Fathers, you know, intentions were, and the end their food, frickin intentions and their and their good, solid Christian. At which point, I would remind them that most of the signers of the Declaration of Independence are not by definition, Christian.

1:12:53

Exactly, exactly. And that is what brought them over here in the first place to get away from the crap that we are going through right

Bobby 1:13:04

now. And 200

1:13:06

we really haven't learned anything. No.

1:13:12

Tea Party

1:13:17

Tea Party, because I'm sure we would have enough to come and serve

1:13:29

tea party?

1:13:30

Yes. Yes. I don't know. How are we doing on time? Do we need a station identification here? I can't wait. I've saw the light the thing light up a few times. But nobody, no calls,

1:13:43

no calls. You know, it's Christmas.

1:13:45

I don't know. But that's because I want to do a follow up of this next month.

1:13:54

Well, I'm going to be going to court in my town on January 5, and we should you know, it's gonna be interesting because I live in you know, I would say a medium sized town where I've been in the court before now for anything legal but you know, have that in there with people that have had, you know, just minor type in Have you lived in this field day? Because this is stuff that they just do not talk about.

1:14:30

Okay, how long have you lived in that area?

1:14:33

I've been here since 1995. Okay, let me ask you this never had a problem with any neighbor. Anyone?

1:14:40

Right. Have you contacted like national media on this have you like you know, I mean, if it were me, like

1:14:55

what can I say? You can all you can do is tell why? And the longer I had to wait for the word like I contacted the National Coalition for sexual talks about them for the warrant. I'm not,

1:15:13

I'm not talking about that. I'm talking about the TV stations of Village Voice, CNN, just

1:15:22

all my contacts, hoping somebody would contact them for me, never just told me their story like most of the newspapers. I haven't really, I don't know who I should contact first, to be honest with you. I know that there's a lot of sources out there that probably would ruin the story. But yet again, you know, how they tear things apart? So

1:15:46

it's not it's not you have, you know, no risk, no goodies. You know, you run the risk unless you're doing something live. You know what I mean? That that may happen. But the idea in terms of the bigger picture is to talk about this. Yes, we have to get it out there. So then why not try that?

1:16:09

Wow. I was waiting for the court date. And so they see we're dealing with the attorney wants to do. I didn't want to go out there kind of in, make statements that were untrue. Doesn't know what, what does this pertain to? Because if I make a statement on TV, I don't know what I'll be held liable

1:16:34

for? Okay. Okay.

1:16:39

Is a fear is that slander? If I say that the newspaper did X to me, which I think that they did?

1:16:46

Well, you can not mention that part and simply share your experience will

1:16:50

definitely be in the future. Now that I've got this warrant. I think it's time for me to speak out and make claims as to what this says this is an eight page affidavit claiming things that are totally ridiculous. They can't do this. And I want everyone to make it public.

1:17:12

Yeah. Yeah, unfortunately, they can, as long as we continue to allow it. And it's not something that will change overnight.

1:17:23

That's why I want to be able to take this piece of paper that I have here and let them tear it apart on TV or somewhere. Let them say to me, Look, you have a spanking bench, therefore you're a whore. Let them tell me because I think that anyone out there that has half a brain would be outraged. And basically saying that this furniture in some way, shape or form makes you into a prostitute. But you know what? That's napkin everyone that is a prostitute. When some places in the world,

1:18:00

it's exactly and, you know, I think the world would have blown itself up a long time ago. If it weren't for some prostitutes out there. You know what I mean? Think

1:18:11

state and every town has a scandal going on? Yeah. Oh,

1:18:15

yeah. I mean, it's the oldest profession in the world. And hey, it sells when food sometimes. I'm

1:18:24

very interested in that in my town. There was an article in the paper the same time as my article ran, I was on the front page. And the police chief that raped a 12 year old boy was someone on the third page. I couldn't believe it. I was not important in that part.

1:18:44

12 year old boy. Now that's interesting

1:18:49

that most of the public content commented about in this town. But do you know that I probably would have sold more papers?

1:18:59

Oh, you sensationalism. Yep. Well, I don't know if this is a call or not. But anyway, I want to say you're listening to KPFT radio that listens to you. Awesome, wonderful queer radio call in 713-526-5738. If you wanting to find out more about this issue that we're talking about with Empress M, you can visit her website at [Empress m.net](http://Empressm.net) and or visit me at [www dot max rules.com](http://www.dotmaxrules.com). That's our you I z. This is some very interesting stuff. A very interesting time that we we live in right now. So do you have anything any words you'd like to add before we start exiting Misha?

1:19:58

I don't know. Looks like the two of you have the same

1:20:01

name but didn't realize it. Okay,

1:20:03

that are gonna be dropped, because naturally, they're going to be investigating all my materials, they're going to be keeping probably all my stuff, we're going to try to get it back or asked for the materials back on January 5, I am going to start doing a lot more pressing media. But we have taken up all legal defense funds, because obviously I'm completely Yeah, you gotta be on the streets. So I can find another job or restart my business again, without a new guidelines that I'm gonna have to follow, because I'm probably going to be watched continuously. So I do have it set up on my site at M percent that net, if anybody's interested in helping or just someone for emotional support, or anyone calling that can shed a little bit of light on the situation is very helpful.

1:21:01

Okay, Miss Moore, do you have anything you'd like to say to him percent more people out there,

1:21:06

I'll pray and wish you the best.

1:21:08

Thank you so much.

1:21:09

You're welcome.

1:21:12

And hopefully they will see and understand that you've kind of taken it for us. Okay, absolutely. Let us please stay in touch. Merry Christmas.

1:21:34

Merry Christmas to everybody. All right, be safe,

1:21:37

be safe. And well. Thank you. Okay. Good night.

Bobby 1:21:42

You know, there's something that strikes me that the we seem to have forgotten how to do in this country. That get there's one right they have yet to deny us, which is the right to vote.

1:21:59

That up to a power you can vote

Bobby 1:22:02

means whether but in the sense that when you see people, or you see some politician doing or saying something which you do not agree with whether or not it ends up meaning something in the long run it we have the right to vote, and we have the right to buy by doing that voting, we have the right to say, I disagree with what or I agree with what you have done, and I am willing to put you there or take you out of there. You know, and

1:22:38

but that's not really true. And

B

Bobby 1:22:41

we still we still have the right to vote. And that is true, whether or not it ends up counting. And I still believe that it actually does. Because if it didn't end up matter. If it didn't matter so much, then we wouldn't have had all that trauma in 2001. We wouldn't have had to wait a month and a half to find out who the President was. Because even though many

o

1:23:13

bogus info

B

Bobby 1:23:17

but because it was so close.

o

1:23:20

Okay. I've got a lady Silverfox on the phone from North Carolina. Can I get her on there Jimmy?

Absolutely out about that. And we will try our darndest we are going to have to organize we are going to have to educate the people because evidently Many think that domination is the same as as you say the sex industry and we are not exactly. It was such a great opportunity for people to get themselves together. Yes,

o

1:24:21

I call us to see engineers.

o

1:24:25

... ..

I call myself a cerebral lox

1:24:30

and we are going to have to be very very savvy about this. Yes, or it will go totally underground again, which may not be a bad thing either.

1:24:41

Well, you know, it's we still I don't care where it goes underground around the corner. I think it's still imperative that to Jill Carter saying, you know, each one teach one we have to teach people about what it is we do? Yeah. Okay. Are you giving me education? Okay. Well, I sure am glad that you call lady Silverfox from North Carolina and I'm going to talk to you soon. But I do need to wrap up and they are getting ready to give me the boot in here this morning.
