---

P Peter 00:01

We are we have decided that this week is we looked around this town with absolutely nothing cooking that we could figure that we decided that

J Jimmy Carper 00:11

that camera didn't even have the damn carwash today that

P Peter 00:14

well who in the hell need a car wash been raining for three damn days?

J Jimmy Carper 00:17

I know but I was gonna go just get the inside vacuum

P Peter 00:22

There you go can you come over

J Jimmy Carper 00:26

here inside the vacuum cleaner in the rain?

P Peter 00:30

Vacuum you're inside anyway it's like a piece of cheesecake off the table block away she gets a good chicken Didier Florida. Girl defenders have quick answers like rich regions and GAVI leagues go straight to that. We are we have

J Jimmy Carper 00:50

you haven't done the top 10 yet.

P Peter 00:52

910 1112 We just have a bazillion things that people need to know it's it's top 10 Plus, about tips that people need to know and things they need to be aware of as they prepare for this fabulous Gay Pride glowing with pride parade they're getting ready for it's gonna electrify now let's face it, right there's lights. People need to know certain things and the theme is glowing with Boeing with pride is the theme and there's a few few things you ought to consider as you begin to prepare this little of that load and that's gonna electrify Yes, yes. Okay. So and not in any necessarily order of anything. But we have decided there's a few things that people might want to consider if they're going to win and really do this parade thing right and get this float out or whatever they're going to be doing on the road. And the first one is take a Peter red wire on red wire, black wire on black wire. I think that's pretty important.

J Jimmy Carper 01:58

That's a pretty basic thing.

P Peter 02:00

And the next one the next

C Connie 02:02

one's pretty basic some some people might have forgotten about this. You might want to check your stretch before inviting that 300 pound drag queen to write on your flow

P Peter 02:11

Yeah, that's Oh Holly and I think another thing would be blood knows how to make sure you know if your AC or DC that might be interesting. That's why

J Jimmy Carper 02:22

they listen to this show

P

Peter 02:29

that one French fry oh yes I wish something tickle my throat anyway right

C

Connie 02:40

go for it. You might want to check with the prime committee to find out just how many strands of Christmas lights you can plug into your cigarette lighter

P

Peter 02:49

Yeah, so we're not sure but we think there's a limit to how many Christmas lights will go into a lighter we think that also very important that would be defined a friend with the Time Life series on electricity before you glow with pride

J

Jimmy Carper 03:09

that would be for me

o

03:10

yeah

o

03:10

this time Life series and

P

Peter 03:12

find that Time Life series booked

C

Connie 03:13

up before you plug in probably your local lesbian will have that Yeah, I

P

Peter 03:17

think check your friendly local lesbian she will have along with plumbing supply. Oh, go ahead.

C

Connie 03:23

Now for those of you who are confused, let us just clear this up a Chevy pickup truck and a string of Christmas lights does not afloat make that true. Creative wheels turning Yeah.

P

Peter 03:34

Also we feel that the perhaps there could be those who may want to attend the Calvin Merced Calvin Murphy's advance camp for baton twirlers prior to this parade before they light those batons on Hi, see, I mean, like, it's wonderful. I don't

C

Connie 03:51

if those of you are not big sports fan used to be a rocket player. Now he's a commentator, and he really does have a twirling camp.

P

Peter 04:00

And before you light your baton, you may want to talk to Kelvin either

J

Jimmy Carper 04:03

that or you could talk to Marvin zimbler Because he used to correlate the talk.

P

Peter 04:08

Don't even go there did and he said what happened to his hair?

J

Jimmy Carper 04:13

seen him do it. It is just bizarre.

P

Peter 04:16

When he lit that baton on, oh, maybe I don't even wanna go live in your own.

J

Jimmy Carper 04:24

I hate a slimy baton.

P Peter 04:28

Especially when it's lit on both. Oh, god. Okay, another one. If

C Connie 04:32

all else fails, just try and sleep with the float judge prior to June 28. That might have been

P Peter 04:40

another little thing people might want to remember is to please if you're going to be marching carry two flashlights one in each hand if you're marching behind the Mounted Patrol.

J Jimmy Carper 04:49

Yeah. Oh, yes.

P Peter 04:55

And that is by the way, another little tip we have here is to wear rubber soles. Not a rubber body suit when plugging in things in water. Ah another question that rose up before us is, how many blonde Queens does it take to screw in the light bulb? Just a question we don't know.

J Jimmy Carper 05:16

No answer on that one bring it to the committee may take more than then

P Peter 05:20

probably committee may want to put an answer to that.

C Connie 05:23

And also don't get carried away with the jumper cables. They're not tip clamps. Oh,

P Peter 05:27

well, I don't know. You could give an entirely new definition to glowing with pride. Certainly good. Or another thing we thought might be really helpful would be to suck up or suck Jimmy Carper, the parade Marshal for a good spot in the lineup our final tip for this year's gay pride parade to people but we think the two most important ones might be sacking up carrying your flashlight buying them out of patrol and watch those jumper cable typically.

C Connie 06:08

We like to do our part we do whatever we can.

P Peter 06:13

My god, I'm telling you. The time has flown time has flown. Yes. Yes. And let's see,

C Connie 06:22

I got this one last little story.

P Peter 06:24

Please do. We got a couple little stories. But the reason for

C Connie 06:27

the research department brought this beauty in. And I think we just have to share it. Let's see. In the last six months, several Reports have surfaced from the old Soviet Union country that nearly bankrupt factories have been forced to pay their workers merchandise instead of cash. Included were eggs paid to farm workers in Siberia, old train cards given to railroad workers in the Ukraine. Salaries from 33 to 42. Brazil's a month by an underwear factory.

P Peter 06:57

Hey, Donny, that's coming large.

C Connie 07:00

Not sure what those go for in the black market. And from another Russian factory? Rubber dildos. Whoa, they're paying folks in rubber delta, which are in from the dildo factory, probably. But listen to this. They're not as valuable as they used to be. They're in surplus, according to The Economist magazine magazine, because the market has turned to electronic vibrator. Does and everybody's done now battery operated. We live in this shame.

P Peter 07:31

That is incredible. But we live in this United States of America. And we you know, sometimes bitch about how bad it is. But can you imagine being paid in what it is? You do not think what it is you do out there, ladies and gentlemen. Can you think of all the awful things that you could

have to take home as a paycheck? I mean, think about it for a minute. Oh, by. There are things that are worse to take home and 32 deal though. Probably pickup

 Connie 08:00

lines are a little bit different over there. Now instead of yeah, you want to find out where people are working before you date them. And then you'll be able to use these bra. People bringing home bras. They might have a chance to old train cars as

 Jimmy Carper 08:19

well. It would lower your rent considerably.

 08:23

But the deal though, people Yeah,

 Peter 08:25

we might want to take it. Yeah, or the butt plug people. I mean, either or we

 Jimmy Carper 08:31

you know, it could be interchangeable.

 Peter 08:34

We saw this and just said now wait a minute, you know there. How would you like just think about for a minute. Let your weird warped mind run down the highway on this one. What could you be paid off in a scary, scary thought? Yes, it is. You know, I mean, like, Oh, my Jesus. Cool. We need to also remind everybody that on the 14th there is an international AIDS candlelight Memorial and mobilization and it's hosted by the HIV service providers in this city. It's going to be on Sunday May 4, which is coming up very quickly. The place is the hospice at the Texas Med Center right on Holcomb like you know five Holcomb to be exact. And the time is 7pm. And it's really like a large, large large annual grassroots aids event. So people

 Connie 09:23

are doing this memorial all over the country and and we're doing it here and

 Peter 09:28

and they did it at tranquility park a year or so ago. They had a fabulous Yes. Lax singer that was just to die for and a bunch of other things and people really gather and kind of remember and get energized and whatever and this year it's going to be at the house was Texas, Texas Med Center on Holcomb. Nice place if you need any more information you can call 5219862 Okay, and there's valet parking and herself Park and everything else at night. unleavened Holcomb anyway, love math coming up. And that's something that we really need to kind of attend and gives you a chance to remember things and put things into perspective.

 C Connie 10:09

And you know, it's so great all the folks who now are taking advantage of protease inhibitors and all the new stuff that is coming out and it just kind of makes your remember that people who aren't here for those Yes,

 J Jimmy Carper 10:19

it is. And for those of us who are taking it, it, there's a little bit of guilt involved. You know, like, Why did I survive long enough to get it when he didn't? She didn't. So,

 P Peter 10:34

could you just not done yet, baby? That's it.

 J Jimmy Carper 10:36

I am not done yet.

 P Peter 10:37

To be glad. Oh, and we are? And did you hear about the guy for our closing remark that went into the bar. Nobody else in the bar, not a soul. He in the bartending or just a beer bartender brings him a beer, drinking his beer, eatin the knots and drinking the beer and sitting there and all of a sudden he hears, Gee, what a really nice tie you've got. And kind of thinks, Well, it's been hard at the office. You know, maybe I'm just kind of stretched here a bit. So I continue to drink his beer and eaten things and pretty soon. Here's a pretty hot shirt you're wearing too big boy. Wow. He goes bartender bartender. Come on over here. Just a second. You get a problem with the beer. What's matter, buddy? I mean, he says no, no, no beers. Fine. He says, Listen, are we the only ones here? Or do you see anybody else? It goes, well, you know, it's kind of funny. A minute a guy sitting here drinking my beer eating nuts. And he goes, I hear this voice kind of says he really sharp tie. Yeah, didn't think much about has been kind of hard day at the office, you know? And I've sent him comments later, and I hear this voice again. You pretty hot in that shirt. Like bartenders. Oh, not to worry, since those are complementary nuts.

J Jimmy Carper 11:59

What away pretty funny, and it wasn't even dirtier.

P Peter 12:02

I know. We're trying really hard. We're trying so hard. And we know it's hard for you. Well, it had nothing to do with the Texas Aggie joke that we did earlier about why you can't put certain things on certain days.

J Jimmy Carper 12:16

Oh, well, I thank you. Well,

P Peter 12:18

Mr. Jim, it's just been too fabulous and too good

J Jimmy Carper 12:20

for next month, the fourth Saturday, fourth Saturday

P Peter 12:23

and we will have some chit chat about the upcoming jocks and dresses thing. We'll have some other little newsy items, things we'll have another hot top 10 list we'll have some other either very filthy or very clean jokes depending on my you know writers for the week.

J Jimmy Carper 12:41

Well, you know we, with our listeners, we like we tend more to the filthy stuff.

P Peter 12:46

We'll try real hard. And we're just going to be just busting our little bun Zola's trying to wait to see you riding down in the parade.

∅ 12:58

Have you been practicing your

J Jimmy Carper 13:00

way? No, I

P Peter 13:01

haven't. Well, now it's gonna mean touch your crown. Touch your pearls way too.

J Jimmy Carper 13:08

I'm just gonna be screaming

P Peter 13:12

you're always screaming. Well, you know.

J Jimmy Carper 13:16

The theme is glow in the dark so they had to get a flailing fagot

P Peter 13:23

oh we have a net we had that other news story we really should have. We've been glowing in the dark and and whatever. We really shouldn't use that one too. We'll save it will save for next we have a story from from somewhere in the world wasn't similar another country about underwear. Right? It's too funny. And it talks about glowing in the dark. We'll say that next month. Another reason to come back and listen to the crazy Peter and Connie link to show that we love you Houston

J Jimmy Carper 13:52

coming up is Margo with leather news. And she's got a couple of guests tonight and in the meantime in between we're going to have some Anita Franco from an album of hers from 1991 called not so soft and this is a coming out song called Small world you're listening to it on after hours career radio with attitude on KPFT Houston and KEOS be in group with drunk in a dress. And before that Anita Franco with a great coming out song called Small world you're listening to after hours queer radio with attitude on KPFT Houston and KEOS College Station I'm Jimmy Carper. And with me is Margot Carr Margo grace, Margo grace. got it wrong. Okay.

14:48

We'll just we'll just have to take you out and beat you later. Oh. Well before before we get into I have a guest on the phone with me this evening. Before we get to that Joe On venovenous isn't going to be able to make it this evening. What's his partner dawn? Yeah dun dun dun would

young to be able to make it this evening. What's his partner doing? Yeah, can, can, can't work.

15:09

you bring my night?

15:13

Anyway, he got sick this week apparently had some kind of intestinal problems. And they took him to a colon specialist on Wednesday. And on Thursday, they did some exploratory surgery. And two hours later John found out that they'd done surgery. Oh, and they wouldn't tell John anything until after the surgery is over. Because John was not family.

J Jimmy Carper 15:39

Boy that oh, crap again? Well,

15:41

you know, it just brings up the issue that what you need to do is you need to make sure that with your partner, you have things like a living will and durable power of medical attorney. Because if you don't have that,

J Jimmy Carper 15:52

you need to have it for each other. Exactly. For

15:55

emergencies like this. Exactly. You know, a female friend of mine down in Corpus who had the same thing happened. Her partner went into the hospital and they called the girl's mother who has she hasn't talked to in five years. And they wouldn't tell her anything because they didn't have the paperwork. Yes. Anyway, getting on to more fun stuff. Yes. The first person I have on the MS. Gulf Coast letter was held in May or in March. What month is it now? In March? Is it April? I think so. Anyway, it was held in March. And we had a very interesting thing happened at the MS. Gulf Coast weather contest. We had a tie. Whoa, you're kidding. I am not kidding. We had Tiffany Swanger. Who's here in Austin. Yes. She won. And also Mr. Cheryl, from Jacksonville, Florida one. Oh, great. And on the phone with us. We have Miss Mr. Cheryl. And so we want to talk to her about the things that she's doing this year. And so Cheryl, are you there? All right. Can we hear her? Okay, we'll see. Okay.

J Jimmy Carper 17:01

I'm looking at the meters

17:02

Okay, let's try this. Can Cheryl say hello? Oh, yes. Oh, good. We can hear you. All right. So Cheryl, tell us a little bit about what brought you to run for Ms. Gulf Coast leather, and what your issue for the year is as Ms. Gulf Coast letter?

Nancy Rodriguez 17:20

Well, my issue for the years basically what brought me there, it's called next guard. And basically what next guard is, is you have your old guard, which is our history and our roots, and basically where everyone came from. But there was really no place for the women or the transsexuals or the drag queens, or any of the people that were often side. So new card came about and kind of rebelled against that. And created during the Latinus feet. Rather than everyone being separate, and separating. Let's bring the old guard forward. teach everyone our roots, pull together and create next guard the future of leather.

18:04

Ah, that sounds that's so what you're trying to do is is you're trying to take the the traditions that we have from the the 40s with the men that came out of the military that established all of those old guard protocol rules, and combine them with all of the different people that are now getting involved in the leather community. Correct? Oh, that's wonderful. That's wonderful. How, how do you approach teaching people or helping people come together with this,

Nancy Rodriguez 18:35

a lot of that is is a part of the reason that the old guard and new guard and the new leather don't get along is not understanding the traditions. So it needs to be open for people to learn the traditions learn dungeon etiquette and not have these people that are off to the side that don't understand what has to go on in a dungeon atmosphere that don't understand what the appropriate approach and a bar that just don't have a full grasp of the situation. They're curious, you're interested or they're actively pursuing leather activities without any actual guidance. Does not safe.

19:13

No, it's not. No, it's not. No, of course, that is one of our primary concerns is is the safety and the consent quality and all of that that we have tried to

Nancy Rodriguez 19:24

incorporate. What you do is you get these people together that are interested. And you teach them the etiquette and the old rules. And you allow them to establish those into what they are

doing. And you get together as a group.

19:42

Oh, that's wonderful. That is that is really wonderful because there's so much that that both groups can teach each other. This is true. So what are you what do you got on your calendar for the next couple of months that you're going to be doing?

Nancy Rodriguez 19:58

Right now we're still pursuing Vic Driehaus on victory health is a food bank that provides when the local Lutheran Social Services Ryan White, and what have you cannot because of T cell count as well as for other aspects of life, anyone who needs to not enter chemical influence, who's trying to make it if they're attempting to make it and they're willing to try to get off of drugs or alcohol, and the doing that under guidance, then we assist them with groceries, blankets, housing, whatever my house is victory, health aid. We just got everything going back again, because we had people from victory house, one that had become ill. That's back on the road, we published a nother Food Bank that includes a soup line in downtown through one of the pastors that was in our neighborhoods. The Jacksonville Humane Society. Next weekend is having an adoptive bond because it's adoption weekend for all animal shelters throughout the United States, or at least the state of Florida. And they have a goal of adopting 100 animals. And we've organized between myself, my lover and a few other people that are there, a leather contingent and a gay contingent to assist with volunteering, because we're going to be very short staffed, wonderful. To adopt out animals, teach people about animals, assist them with their pets, things like that. We recently had the walk for hope for a central Florida drummer just went by spring in the south Atlanta isn't in solidarity. The next main upcoming thing is age, right. Orlando.

21:39

Age, right. Orlando, right, what goes on there.

Nancy Rodriguez 21:44

Basically, everybody gets together bikes, cars, trucks, whatever. And it's done like a walkathon in a roundabout fashion. Cool. That's being put on by one of the groups. It's in Orlando. And it's led, organized.

21:57

Wonderful. And then you've got I remember you told me you had Ms. North Florida weather coming up.

Next 100% 00:05

N

Nancy Rodriguez 22:05

Right, that's on May the 31st. And we will be hosting a dungeon party to teach next guard, teach Old Guard values and teach technique and what have you that will be held here at our house. Wow. So you're opening up your house, we're gonna put everything in storage or seven out of the way and turn the entire place into a dungeon. Oh,

∅

22:25

my goodness. And now you're doing that, if I remember correctly, from what you told me off the air, you're doing that as a fundraiser to help you to go to international Ms. Leather, is that correct? Right.

N

Nancy Rodriguez 22:34

It's by donation only. It's not something that's mandatory, because it would not be fair to leave people out that don't necessarily have the finances. What we're going to be doing instead of doing the classes like they do a lot of the contests, actually putting it in the dungeon atmosphere, teaching dungeon etiquette having a mistress of the household with the slaves to wait on folks and entertainment, and then classes in separate rooms with an open vengeance space that's under supervision. And if someone wants to learn something, someone can teach them, then they can hands on learn how to do it.

∅

23:11

Oh, that's wonderful. That's wonderful. Yeah, that's a really safe way to learn things because that's, that's always one of the problems. We talked about it when we when we ran Ms. Gulf Coast leather out here was that a lot of times people who are very new to the scene will see something at a demonstration at a contest and then say, oh, I can do that. And possibly hurt someone especially with things like the whips and the fireplace and things like that.

N

Nancy Rodriguez 23:40

Right. We did a waxing demo last night as one of those straight dance bars. It's going out of business. It was there last weekend and we've done it several times there and it's one of the turning into a classes type situation on various things. It was kind of interesting.

∅

23:55

Oh, that's wonderful. Now I know that the MS Gulf Coast covers a very large region and I guess it's kind of good that we that we have two Ms. Gulf Coast leathers this year because we cover both the Texas Oklahoma Arkansas, excuse me, someone who was just kissing the back of my neck, Arkansas, Louisiana, and then into Alabama, Mississippi and Florida. So it's it's a very large region. Have you got any plans to reach out into Alabama, Mississippi, those areas?

N

Nancy Rodriguez 24:29

We have discussed it here. There's a couple here. That's why I'm saying we what we're going to try to do and also with Gibney. It's been discussed she's going to try to go one direction. I'm gonna try to go the opposite direction. She's gonna go the opposite side of Texas, Florida sighs Texas right now. And I'm gonna try to hit Alabama and Mississippi. I've been watching to see if there's anything going on. And if there wasn't anything going on, I was going to send out some letters and things to some of the clubs to see what I can find out and just kind of show up if they have something in particular.

♂

24:59

Well sounds weird. Wonderful.

J

Jimmy Carper 25:01

I have to say I have to break in here and say that you're listening to after hours career radio with attitude on KPFT Houston and KEOS College Station.

♂

25:11

We of course always have to get those those plugs in it every hour half hour or something like that. But anyway, sounds wonderful. I'm going to let you go because I know it is horribly late there and from what you told me earlier, you're gonna have to get up early so your other half can go to work

N

Nancy Rodriguez 25:28

through real quick before you go. Yes, they did Disney. Orlando will be very busy. During the seven people are invited to show up looking gay if they are gay however they normally dress. People say for gay people look different. I don't really think they do

♂

25:44

know all the all the gay people I know look like my neighbors.

N

Nancy Rodriguez 25:48

And also Atlanta leather Fest and se drummer is June the 15th.

♂

25:53

Wonderful, wonderful. Well make sure to one there. Make sure to let us know if there's anything

that comes up or anything that you want to let us know about. Please do that. And I will let you get at least a couple hours of sleep. All right. Have a good night. You too. Actually. Good morning. Take care of Cheryl. Okay. Bye bye.

J Jimmy Carper 26:16

Oh, that was nice. That was really, really, really nice.

♂ 26:21

Yes, Cheryl. Cheryl is a wonderful woman she the fantasy that she did for Ms. Gulf Coast leather was a really wonderful fantasy where she came in as a slave was brought up and left the stage with a slave. So it was very much talking, you know, dealing with the issues of training someone to be a talk.

J Jimmy Carper 26:42

And I liked the inclusiveness thing very much

♂ 26:45

that you notice now that the leather community really is reaching out to everybody you have now, up until very recently, the heterosexual, kink leather, whatever you want to call it community was very closeted. They did not have the support group that in the gay leather community. And so we're starting to bring those people in, and they don't know the history of the gay community, and they don't know the history of the game of leather community. And so that's part of what shows working on is educating people like that. And also there's people who are drag queens, who are into the kink and up until now, we'll even here in town, some of the bars won't let in drag queens, right? Because they're not dressed. Right, whatever. I think it's silly. Of course it is. It's, it's it's in the words of the country and western song, you just want to go up to them and go, here's your sign.

J Jimmy Carper 27:42

But isn't that always the way the the outward community, you know, it's like Stonewall Stonewall happened because of drag queens, God bless us. And dikes. You know, and those are the people who formed the community. And now we find that the leather community is incorporating bisexuals and transgenders into their community. So it's time for the the overall gay community to take note.

♂ 28:11

Well, you know, it's it's very much something that I've talked about with several people. And that is that the more divided we are, the easier it is. You got it for us to be put under and put ~~back in the closet. And I don't know about you, but I have too many things in my closet~~

BACK IN THE CLOSET. AND I DON'T KNOW ABOUT YOU, BUT I HAVE TOO MANY SHOES IN MY CLOSET.

J Jimmy Carper 28:29

That I don't have room for me and they're there now.

♂ 28:31

That's right. That's right. So I'm not going back in the closet. Thank you very much.

J Jimmy Carper 28:35

No, no, I don't think I could.

♂ 28:42

So you look like you've got a song for us?

J Jimmy Carper 28:43

Oh, I do. I do. We've had a request. Actually. We've had a couple of requests here.

♂ 28:49

Oh, wow. Um, no, no, you had a message from someone who called in earlier. That's

J Jimmy Carper 28:53

right. Lloyd from the ship channel called in and said that he really liked the show. And he listens every week and to keep it up.

♂ 29:00

Wonderful. Wonderful. We're glad to have you out there. And oh, of course, you of course know that that gay men are not allowed to be Butch. Oh, you know, that's one of those stereotypes, right? They've got to be you know, Nelly snap queens. Of course. All of the Leatherman. I know don't fit that image.

J Jimmy Carper 29:21

That's true. And would you believe I'm not a bottom?

29:25

Oh my god. Oh my god.

Jimmy Carper 29:28

Anyway, Peter was saying before he left he wants wanted to know if Lloyd had a big shift and wanted to know if he wanted to park it and Peter's porque

29:46

sounds like Lloyd sounds like Lloyd may have a day

Jimmy Carper 29:48

Yes. And Tom in southwest Houston had a music requests for the Crying Game by Boy George and I have not been able to get a hold of Scott Lewis yet who has all of my Boy George who Record.

30:00

Oh dear your CDs oh my goodness so you don't have

Jimmy Carper 30:04

your Boy George I don't have any Boy George with me Scott Lewis has it

30:07

♀

30:50

I promised someone that I would do that for them.

♀

30:53

That is Tiffany Salman

J

Jimmy Carper 30:54

is everywhere. Everywhere. Every everywhere, everywhere, everywhere. I mean, I mean, she was like, at the Louis weekend. She was like in control of all of these wonderful jello or shots on the patio or screen shots, I believe shots. Yes, that was the most incredible thing I want

♀

31:16

to tell you. I went in and did one of those foreskin shots and that poor boy just shrunk up so tiny when he saw me. I think he was afraid I was gonna bite it off

J

Jimmy Carper 31:31

okay, can't we think of really wonderful ways to raise money? That was just fabulous.

♀

31:37

Yeah. It was one of the more sick and twisted ways we raise money that we can really like that. Oh, yes, definitely. Definitely. So Tiffany, let me start with just asking you what brought you to running from his Gulf Coast leather.

♀

31:52

31.54

actually running from US Gulf Coast leather was the next step. And in my progression, I am still the current Miss Texas leather pride. And so I get rid of that actually in about a week

32:06

now. And I'll wait a minute now. From what I heard you're going to be Ms. Ms. Texas leather pride for the rest of your life.

32:12

That's very true. NLA Austin, which is where the title is from, actually is taking a cue from NLA International and they are going to an ambassador ship so they are no longer going to be doing the contest in the title. Texas leather pride. So Alan Wagner who's my Mr. TLP and I are going to get sashes redone that say Mr. And Mrs. Texas leather pride forever. So but Dennis golf because leather was the was the next step. It was the regional title I had done Texas. And I feel that I've done a very successful job with Texas and I haven't heard any complaints yet. So I wanted to go on ahead and see if I couldn't go on and incorporate what I had done in Texas, on a regional level. And since there's so, so little that I know of and that most of us in Texas know of, of a leather community in states like Alabama and Mississippi and Arkansas, I really liked the idea of of traveling to, to the different places and trying to seek it out. So

33:13

well. That's great. That's right. And then that brings me to what is your your issue for the year.

33:19

My issue for the year is for all women, every woman to attend her annual gynecological exam, only one out of six women attend their annual exam regularly. And it's a real big issue for me when I was actually just a couple of years ago, I went in for my annual exam. And I had a precancerous and you know, at the age of 20 and, and I had just gotten my annual exam the year before so he said that if I would have had if I would have waited that it would have developed into cancer and so it's it's a personal issue for me, I had a grandmother who died of ovarian cancer, my mother had breast cancer at a very early age. And so that is my issue for the years to make sure that we have so many women in our community that help us out so much we all have mothers, we all have siblings and and this is just one small way that we can help take care of each other.

34:17

And of course, one of the big problems is is that with with aids that there are so many women that you know they don't discover that women have AIDS until it's it's progressed very foreign and they're beyond help with the drugs.

34:31

And that goes back to the fact that women women predominantly and and I'm sure men are the same way I can't judge because I'm not a man but women Yeah, but but people I think probably in general don't don't think to go to a doctor regularly. I mean, I don't I don't know anybody who goes and gets a physical every year. So it's it's important. It's an important health issue for everyone to go and get a regular checkup. But yes with especially with HIV and AIDS women, women, young women between the ages of 18 and 24 are indeed the highest number of of people getting infected with HIV right now

35:11

new HIV cases

Jimmy Carper 35:12

are dropped in there. And I have used some statistics on the air about breast cancer. And it's my understanding that in straight women, one out of six or seven will be affected by breast cancer and then lesbians one out of three,

35:29

actually, the statistics don't really have anything to do with Lesbian and Straight. Let me tell you where the statistics come from. And what we're assuming to be lesbians, it's actually one in three of women who do not bear children. Ah, and so that is, that is a predominantly lesbian group. But but but that is a misconception. It's not necessarily lesbian. So

35:50

yeah, so I'm one of those ones, right? I

35:52

am, and I am as well,

35:53

right. But and didn't they say I remember, one time reading something that basically if you, if you don't have children, you have run a higher risk for breast cancer. And then if you do have children, you run a higher risk for cervical cancer. Yes. And so I mean, you're damned if you do, you're damned if you don't just go get the regular checkup. That's right. Now, now,

J

Jimmy Carper 36:18

really important. It's honestly really important. And men need to be aware.

o

36:22

Definitely, yeah. Oh, yeah. You

o

36:23

know, well, because we all do it's really funny because in fact, I do a really a really funny stand up kind of routine on how going to the gynecologist is better than sex. And, and I think it's real funny. I always tell people, one of the best ways to remember to go get your gynecological exam. Go with your mother. This is the woman who dragged you there when you were 14 years old, but she's gonna make real sure you attend that regularly. And by that time, by the time you start going, you can make sure she's getting her mammogram there. Yeah. And it just goes back to taking care of one another. Yeah.

o

36:56

Now I know that you've got TLP coming up next weekend, right? Yeah, in Austin. And then I was looking at my calendar here. Let's say I have my calendar here, let's say so you're ahead of me. Well, hey, what can I say and then we've got Gulf customer coming up two weeks later. Great. Great. That's that's I always like to have see that that connection between Ms. Gulf Coast and Gulf Coast. Oh, definitely. And I love it. We always get the the people who miss printed and put Ms. Gulf Coast drummer. Oh no.
