But, you know, I'm more than happy to do my education at the level of, you know what life is like with lesbian couples living down the street. So I can come to trust, and they can find out how we got to be in this predicament?

Chris Harrison 00:16

Well, I mean, that's the, that's the big thing that you have is the fact that you're first moving in that, you know, even if they don't recognize the transition portion, the fact that you've got this, this couple moving and as lesbian couple with two kids. And you know, usually if you see the lesbian couple, you know, it's it's a new thing to have kids. So to have have one as old as your son, is there gonna go? What's going on with that? And then, if they take the time to ask and ask it politely hear the whole story. The story

00:48

is always interesting, because it always starts with So whose kids are those?

Chris Harrison 00:54

Ours?

00:55

There ours? Well, yeah, I know that the biologically those kids are they know there are? Well, okay, well, do they have a father then? Well, of course, no.

 Chris Harrison 01:12

They're, they're assuming a turkey baster was involved. And it wasn't that.

 01:18

And it just gets more and more interesting. And eventually, they'll figure it out.

 Chris Harrison 01:23

You just like watching their jaws drop. More and more dawns on them, the lower and lower the jaw gets,

 01:30

there is a little bit of satisfaction that occurs with that, I'll admit.

 Chris Harrison 01:36

But I can imagine where that would come from that says, I mean, you know, you get these people who it's like, you know, they think they know the answer since like, we can handle lesbian couples there. We we know, we know quite a few lesbians. They fixed the roof on our house last month. We love lesbians. And then when they find out the rest of the story, they're gonna be like, Oh, okay, this is something new for us. The

 01:59

greatest compliment I have ever gotten was just before the Lobby Day in Austin. What Not? Not? What's it been three and a half years, you know, the session before the last one. When I showed Rae Hill, the, the sheet of paper I was intending to leave, and each of the legislators office who I visited, that had a picture of me and my spouse, standing in our living room in front of the picture of the Basilica of the assumption, the oldest Catholic basilica in the United States where we were married. And our two children, my son in his Boy Scout uniform, and my daughter and her Girl Scout uniform, and a little four or five paragraph bio about our family. And he looked at that and said that, that, that right, there was probably the sharpest arrow in the transgendered quiver of arrows to send to Austin. Because it's like, nobody expects to see that they expect to see what they think of transgendered people based on Ricki Lake.

 Jackie Thorne 03:12

They expect to see a man and her dress is what it is. And

 Chris Harrison 03:16

they don't expect someone who's as well adjusted figures like

 03:20

to see a man and a dress who's got a job as maybe like, you know, a prostitute or a hairdresser. And, you know, family would definitely not be involved,

 Jackie Thorne 03:30

or are they are they want them to they want them to be like, Jack Benny or Milton Berle or Flip Wilson or something like that, you know, a comedy Dame Edna,

 03:44

you know, yeah, it's we're here for the shock value, or we're here for the comedy or we're here. You know, but life's not like that, folks. I mean, it's the the vast majority of the transgender community is relatively stable, well adjusted individuals who hold them regular old jobs.

 Jackie Thorne 04:06

Well, this this was one of the points that I made with Culberson. And it was rather ironic that he did not respond to this boom. The comment that I made to him was, as you know, wouldn't you rather have these people being productive, employed taxpaying citizens rather than being on welfare? And this one you don't see almost hear the knife going in?

 04:32

The employment non discrimination act where there are so many so many people who as soon as they either come out or get outed as being transgendered,

 Jackie Thorne 04:44

fired? Yeah. Well, you know, the example that I was using was a friend of mine from Fort Worth, who was a an engineer, with the city of Fort Worth making 80 to \$90,000 a year. And when she went to her supervisors and said that she was wanting to transition, they said, no clean your desk out, you know, we're gonna we're gonna eliminate your job, which was the way that they were the only way they were able to, you know, to fire her. And she literally went on welfare for about six months while she was taking training and schooling to be become an electrologist. And she is now in electrologist, up there in fort worth making probably less than half of what

she was making when she was an engineer. And all of this experience and knowledge and education is totally wasted. And that's, that's the that's the real criminal part of the the attitude that people have.

05:49

And it absolutely does not require a transition. I mean, the classic case is the theater Orla versus Winn Dixie case where Peter Euler is just this guy, you know. And he, he happens to be he happens to be a crossdresser off hours, has nothing to do with work at all didn't affect his work performance, one single bit. Management found out that he was a crossdresser. That was the end of his job.

J Jackie Thorne 06:18

And he had no recourse.

C Chris Harrison 06:20

Beth's we've it's time to Colin into it. Unfortunately. It's, we've we've had Dean on the line and I think our next groups coming in here. Do

06:32

you think you'd even even so that's all Yeah, it's

C Chris Harrison 06:35

so we have to say goodbye. It's it's a shame we've to to end there. But of course, you know, we open door policy, we have cars come on in whenever you get back here just Euston or give us a call with no glad to slide you in. And well,

06:52

well my my near term schedule for Houston is the state Democratic Party will be holding their convention in Houston on the weekend of June 17. I intend to be down there for that maybe we can do a little little reporting from the Democratic Party. And then after that would be the pride pride parade. And at least once or twice more in the summertime, I'm thinking but what we'll find out as we get there. Well

C Chris Harrison 07:18

make sure you keep in touch with especially come around the pride because we're looking at some special stuff at that time. We're not letting I don't think we're letting the secret's out yet.

But uh, we got some big stuff coming up then. So very cool. Well, we always want to continue to hear from you and like say whenever you're in town, stop on by him.

07:35

Well, you know, for all the people out there who listen to me over the years, if you ever want to get in touch it's really the best are at gender web.org. See, it

Chris Harrison 07:46

helps you didn't put your last name on that one.

07:50

Beth, learn Beth, learn not to ever use your last name on this radio, honey.

Chris Harrison 07:55

I like Jimmy started using mine. Unfortunately, my name sounds no one could spell it after hearing it. So yeah,

08:02

I haven't. And that's okay. Because, you know, I love Brenda Thomas very dearly, but he hasn't quite learned how to spell my name. And so it was misspelled in the program and consequently misspelled in the triangle and

Chris Harrison 08:18

everywhere else. The downside is they say there's no such thing as bad publicity as long as they get your name spelled right. Yeah. Yeah. So Well, I'll tell

08:27

you what, it's been an amazing several years working with you folks. Every every other month here. I really appreciate the opportunity if Jimmy's listening out there in the lobby or whatever. Yeah, I

Chris Harrison 08:38

think he's gonna say he's stepped out. I'm not sure I'm not gonna. I'm not gonna make excuses. Well, he just stepped out.

08:46

He does. He does that from time to time. That's why he has co host handle that sort of thing. Yeah. You know, I just wanted to say thanks for all the opportunity and the time and and I really have appreciated and I hope the listeners have appreciated it as well. Oh, we

c Chris Harrison 09:03

do appreciate you having having you around here, Beth. And best of luck up in Dallas. Thank

09:08

you very much. All right, thanks. Maybe someday there'll be an after hours north.

c Chris Harrison 09:14

It'd be after hours north North. North or we hadn't we had an after hours north for a year actually in Huntsville. Sam Houston State radio had a a an after our show. So yeah, well, we'll work with you. Well, we'll find your community radio station. We'll help take you over take over for you.

09:33

Oh, take over I see that sounds went to work is it he? Will

c Chris Harrison 09:37

will come and hear them and tell them we need to get you on there.

09:40

We've done this before we know how it can be done. Step aside,

c Chris Harrison 09:43

Mary. Well, we know what we're doing. But uh, alright, so we're going to let you we're gonna let you go. We're gonna go over here to Dean and

09:52

thanks again, folks. And you know, normally I say Till next time, but it'll just have to be That's all for now. One, whatever. And then as you my usual ending to thine own self be true. Take care, folks. Bye bye.

 C Chris Harrison 10:08

Thank you, Beth. Thank you. And we're now going to switch over to Dean Becker. See, hang up with Beth. Dean Becker. Are you on the line? I think so. You hear me? Hi, Dean. Good evening. Good evening.

 10:23

Yes, I guess I better come up with something that I hope you didn't pay the ransom. I'm not sure what I should say about last week. I'm sorry, I, I slept through it. To be honest.

 C Chris Harrison 10:33

We figured you were still recuperating from the 425 years that might

 10:37

have been it too. And you know, when you get a little older, you you can't burn the candle on both ends and the middle anymore. And I sometimes still tend to do that when I'm when I'm getting my work done.

 C Chris Harrison 10:47

Not a not a problem we were able to get through.

 10:49

Well, sure. Sure. I'm but just the same, you know how much I appreciate the opportunity to speak to your audience. Sure. You know, it's kind of crazy. You hear this news coming out of Iraq, you know, the torturing prisoners, abusing them sexual situations, et cetera, et cetera. It's nothing new. It's what's been happening here in the US for you know, at least 30 years with this drug war with you know, the humiliation of prisoners super Max's and just the horrible situations of prisoners getting beatings and hidden from all you know, purview. It's, it's nothing new and at all this week on cultural baggage, I'm going to be focusing on those comparisons, if you will. I've gathered together some good people to speak on it. Judge James Gray, our own Ray Hill is going to add his much more than two cents worth. A good friend of mine, and ours actually que Lee who has worked extensively in Florida, fighting Jeb Bush and his prison system, who has a website making the walls transparent, the internet, at least nationally known for her work, she has sponsored many fine organizations. I have some comments from Barry

Crimmins. You may know him he's a nationally known satirist, he works with a Christmas comedy coup players here. KPFT. And he also has, he's currently working with Air America, the new democratic station, the

 Chris Harrison 12:28

new network that's going around the different like they're about seven or eight markets going through the country. Right.

 12:34

And then we'll also hear on the same subject the Iraqi prisons. And you know, the, the easy comparison to what goes on here in the US, US 5% of the world's population 25% of the world's prisoners. Now, there's something going on here friends, and we need to take this snapshot this look we have at this Iraqi atrocities and realize it's us, it's here is what we do to our own people. Well,

 Chris Harrison 13:04

when you consider the fact with with, when you look at the part that we're talking about the prison system, there is quite a bit of the members who are in the prison industry, who are over there, you've got the contractors who do work for prison, very well stated in deeds industry or industry, they're over there that can take all this time to do this work while in the reserves. And so you've got the people who are trained in doing that, who are doing the stuff here. And I've I forget if it was one of the KPFT news segments, I believe they're talking about, you know, it shouldn't be much of a surprise to people in Texas who remember the video from the prisoner. The prison raid in Brasilia County, it was another person it was a jail raid that they had done and they showed dragging, stripping the prisoners and dragging them through the jail. And even at one point in the hallways, even even at the point of having a dog bite one of them. Yes. And you know, here we are talking about I mean, when when Donald Rumsfeld actually comes out and says, you know, I've seen other pictures and you know, the worst are still yet to come.

 14:10

The you know, we saw the horrible picture of the man with the underwear over his head when they put women's underwear on a man's head in this very brutal you know, scenario. This is humiliation and it's also I think, to get the guards that giggle and that they're enticing, maybe anal rape, etcetera, etcetera. You know, there there is another venue where a gentleman I think he's out in Arizona, he actually makes the the jailer makes the prisoners wear women's underwear on the outside of their clothing as humiliation again were in Arizona and this man is actually a Rae Hill told me today. This man has actually won awards as a good jailer.

 Chris Harrison 14:55

Oh yeah, I'm... I think

on year. Joe Ricard I think

15:00

All right that yeah he outside Tucson or something or other Yeah, he's

c Chris Harrison 15:02

the he's the the consider the world's toughest Sheriff he he actually to help take care of the overcrowding, he goes out and puts has a tent city where he puts them out there and you know the prisoners issue uniforms that they use instead of the neon orange he uses hot pink. And all their uniform part is hot pink and that's part of the that's part of his thing. In fact on he was interviewed recently I didn't get to see it the week that it aired Originally, the Showtime special Penn and Teller's BS. I can't say though I don't know if I can say the full name of the show. Bull hockey, okay. They, they did a show on drug war and showing how much of how false it is where it comes from. And they interviewed this guy. And he's like saying, you know, if it wasn't for the laws, people would be out doing drugs and out driving and all that other stuff and not doing anything responsibly.

16:05

Of course, it's been such a hit like that. I don't know if you got to hear last week's show. We had an interview with Tommy Chang, and he was talking about when they busted him for selling bongs on the internet. He said, Well, I guess they must have figured if they took away all the bongs people would stop smoking pot.

c Chris Harrison 16:25

You know, I think, yeah, no personal experience here. But you take a can of soda drill a couple holes in and you've got a ball,

16:32

you can drill a hole through a pair in a bar. I mean, Tommy finished his skit by saying you take away the bonds people turn into MacGyver in a heartbeat.

c Chris Harrison 16:43

That's the I remember Dennis Leary made a comment about that saying that, you know, the only thing that marijuana marijuana doesn't that marijuana promotes is carpentry. The fact that they'll they'll look at anything and they'll say, you know, this can be a bomb. They'll turn a skull into a bong.

17:04

They use shot guns in Vietnam, as I recall, a shot at a physical shut down because you had gotten that you could just open up the chamber. You know, put the pot on one end. It was a nice long draw. Cool it off time it got there. Yeah, so I want to read you part of a letter to the editor that's probably not going to get published. The listeners may have seen this story was in the Chronicle on May 5, it was titled marijuana abuse hits high levels with adults. And here was my response. It's not at all surprising that the National Institute on Drug Abuse NIDA would proffer that being caught by bosses, principals, or policemen for smoking marijuana should be deemed abuse. Nor should we be surprised that Dr. Nora Volkow, director of the Institute postulates that they quote need to develop ways to monitor the continued rise in marijuana abuse and dependence and strengthen existing prevention and intervention efforts. And quote, I continued demonizing the millions who use marijuana medicinally is the only way these quote scientists can assure themselves a continuing paycheck, and then go on to chastise the Chronicle, etc. And I close it with it, despite protestations to the contrary by drug drugs are John Walters, many medical organizations have recognized the use of medical marijuana including the 6 million strong American Nurses Association in a world where marijuana has been shown to be a valid and useful medicine by studies conducted in England, Canada and elsewhere. NIDA and a pseudo scientists of the US preordained the conclusions of any study under their control. The real surprise in this story is that the Houston Chronicle would take this propaganda feed from the AP and NIDA and once again follow along blindly right back into the web of US government and deceit.

c Chris Harrison 18:59

Yeah, the end of that. Penn and Teller episode, they showed one of the seven remaining government sponsored medicinal marijuana users.

19:13

Yes, I know three of them. This guy.

c Chris Harrison 19:16

His has a has a condition where he gets painful bone spurs that could end up severing his ligaments and arteries and such. And he goes through and he shows you the joints that he gets from the federal government

19:31

attend 300 joints a month. I recall that it was a Georgia I can't I think it was less than George McMahon.

c Chris Harrison 19:40

Do you remember his professional because it was a stockbroker? Oh, that

19:43

is Irv Rosenfeld.

Chris Harrison 19:46

Okay. And they sat there and they showed the guys hanging out, going through. He's talking about all the joints that he smokes and they go, Yeah, he does this and it's hard to get breaks from go and smoke a joint because he's busy stating, trading stocks and they go Oh, yeah, this isn't some hippie bubble going on who is this guy sells stocks. He's that he does that important job, he does that much stuff. And you know, it's not your typical stoner thing. And then they, they got real cutie they showed him smoking a cigarette smoking a joint with the White House in the background. And with a capital in the background, and I think the I think there was just those two places. And so they're making comments about that said, you know, we did it for a reason, because, you know, it looks, it looks cool on the promos. Plus, we're hoping somebody would peek out the window and get the clue.

20:37

Someone needs to get a clue. I did want to alert folks that this on the cultural baggage show this week, my guest will be Eric Sterling. He's had a article published in the Journal of religion and spirituality for this in social work. And it's in the spring issue. And we will talk about the fact that this drug war is so broken, there is no one anywhere that can debate this anymore. John Walters hides when he goes to a down to give a talk, he doesn't tell anybody where he's going. And then they kind of surprised it on a hospital ward or something. And he gives his little speech and he's gone. None of them can stand and defend this policy. And this drug war is over, as soon as enough of those listeners out there, write that letter to Congress, and, you know, call their US Congress office, you know, the number is easy, it's a one 800 Number. And, you know, the whole point of it is, we own the battlefield, the other side cannot even come on, all we have to do is go out there and plant our flag. But we need to make it official at least get enough people where the press will take a picture.

Chris Harrison 21:51

Yeah, you know, once they realize there's enough support behind something, you know, politicians Jump Jump fence, the newspapers, jump fence, it's, they're not going to stick their neck out unless they think there's somebody out there who's going to take part of that, who's gonna, who's gonna support them, if they think they're going to, they think well, if they jump over to this other side, they're just going to lose all their, their bases support and sometimes you just have to let him know hey, there are you. If you do change sides, you get this other base of support. You don't need to worry about the other side.

22:20

Right. And I often think of the you know, my job, what's my job? I'm driving people down to the river of reform, baptizing them forcibly if need be. That's my job. I. So what I feel is my compulsion at the very least.

C

Chris Harrison 22:37

Oh, yeah. Okay, well, Dean, I had anything else you're gonna throw at us? No,

♂

22:41

no, not for tonight. I once again, want to thank you for the show and an Adios Tibet. All right.

C

Chris Harrison 24:21

24:57

Chris Harrison 25:05

25:11

in case y'all didn't know the,

Chris Harrison 25:13

you know, the lights aren't coming on yet. It's like, well, you know, probably how can we tell people the phone number 713-526-5738.

25:18

Again, that's 713052 6k P, F. T.

Chris Harrison 25:30

Remember, that's keep playing fag tune as KPFT we're gonna be hearing that you're gonna hear that number given out a lot here next week, we're getting ready for our spring pledge time. So absolutely, you know, it's one of those opportunities. We don't come to you that often

during the year to say, we need your support, we need you to just show show your love for us in other ways, and we know we get the love from the MBBS. But you know, we also need to show that love to the station manager that we're here we're viable part of this community KPFA

26:05

looks like we got our three callers on line. So I guess that's it deadlines over with everybody that's in the basket is in the back seat for Melissa Etheridge. No more No more call and we're

c Chris Harrison 26:15

going to be getting that set up. And we're gonna do the drawing here a little bit later here during Francisco Sanchez. Segment.

26:21

I forgot to say something earlier when Jimmy was doing it was telling everything that's going on and community Hollywood cafe over here has got this awesome dating game going on. And I promised Jeff that I would mention it because it's really kind of cool. It's something new that's going on Wednesday nights. It starts about eight ish. You suppose started some of the reverse starts about eight ish. A

c Chris Harrison 26:39

standard time eight o'clock? Yeah,

26:41

you know there's so late but it's really quite interesting what the first is they've started they started like two weeks ago the first night that they're kind of ran through was kind of like a you know, get the bugs out trial rags. That was a trial run. They picked what to say about six contestants IT people that wanted to do it. And then they picked out of the six they picked like three to narrowed it down and and they've got like a date and a and a

c Chris Harrison 27:02

look into the microphone.

27:05

And I can see people talking behind my back. But you

 Chris Harrison 27:09

were probably there weren't you see what actually

27:11

was next to him? To me, this was my date for the night. So what they were doing is they picked like out of the six people they

Bobby 27:21

were not even talking about you're not gonna talk about your shorts, young lady.

Chris Harrison 27:28

Okay, all right. That's fine. Look, later on. We're having the free leg contest. So you too can get it over with Max.

27:34

Okay, so anyway. You win.

Chris Harrison 27:42

She's, she's still finishing up the divorce once the divorce is finished. And she goes back to Sharon. Oh,

27:48

Lou. Okay, so the Hollywood date games, I took six narrowed it down to three, those three, they actually followed around, they got to go on a date. And to the movies, they follow them around with a little camcorder recorded it then this next Wednesday night, which was last Wednesday. What they did was they played though what the dates were like on the big screen there. Well, this next Wednesday night is going to be called Speed dating. What they're going to do is they're going to pick people, just if like you and I were to go hmm, I'd say Oh, I think he's cute. I'm gonna go out with him. So they're immediately gonna approach them and you know, it's just gonna see how many dates they can hook up with in this time. Oh, that was that form? Okay, yeah. So but the format changes. They've got three formats. So it's rotating and shifts of how they're doing it. So this this Wednesday night at eight o'clock will be speed dating, and then I'm assuming the next Wednesday, it'll start over with regular date Hollywood dating. Okay, so this

c

Chris Harrison 28:40

is a speed dating, I was thinking of that other version of where you kind of like, you know, you divide up the group and a half and half sit in the chairs. The other ones are kind of stationary. And it's like, you know, you talk for three minutes, and then it makes sense. I think they call Jewish speed dating. No, no, no, no, no, no, no, no, it's because it was started by some of the Jewish community centers as a way of people getting together and meeting so you just basically, you know, men and women, and you just kind of split, you split them up with a group and the men the women stayed seated and the men talk you you spend three minutes you write down numbers, if you're interested and then you know, at the end of the time, they blow whistle and you move to the next person blow whistle ring a bell something like that.

b

Bobby 29:20

I thought they called it speed dating because of the amount of time the relationship lasts. We're not all like you.

c

Chris Harrison 29:29

You don't know You don't know his history. Hey, that's foreplay for you.

♂

29:35

So so this this Hollywood dating is going to go on all year in the summer. So of course, we invite you to come out and join us. This is quite an interesting event going on over there. And of course, Hollywood backs the gay community so of course we back them.

c

Chris Harrison 29:49

Yeah, it's easiest to find it's the large gay flag flying in the Montrose area.

♂

29:53

Right behind South Beach. Yes, exactly. Right there, I

b

Bobby 29:56

guess gay flag in town,

♂

29:57

the biggest one in town. So

C

Chris Harrison 29:59

If that didn't put a little pep in your step to realize that it's time for our Hispanic segment we've got Francisco Sanchez and big Roy.

♂

30:28

Good morning.

R

Roy McCarthy 30:29

Good morning.

♂

30:30

How's everyone?

♂

30:33

We're great.

C

Chris Harrison 30:34

Mike on there.

♂

30:36

Absolutely fantastic days look on Chris's face. Good morning, Chris.

C

Chris Harrison 30:42

It's been a long day and you know, I gotta get up tomorrow and cook Mother's Day.

♂

30:48

What is everyone doing for Mother's Day?

R

Roy McCarthy 30:49

Well, I don't know I know this and I'm expecting a lot of gifts and everything because all my life people always been calling me You mother. Get fountain. Right

♀

31:01

we're not going to tell you what we're gonna get you just catch

C

Chris Harrison 31:09

Roy loses a line on his ROI. What

♀

31:12

happened to Roy

♀

31:15

was there a top state a bottoms day

♀

31:22

deep such

C

Chris Harrison 31:25

as the crowd goes.

♀

31:29

Well, what am I doing for Mother's Day taking my mother out to late lunch I think is what we decided me and my sister. I just let them make the plans and I just sort of

♀

31:38

tag along tag along.

♀

31:39

I thought about taking my mom over to Berry Hill for a mimosa dessert of Berry Hill Mimosa Sundays.

♂ 31:49

That sounds like an idea. That's what

♂ 31:51

I'm thinking. Just get her drunk.

R Roy McCarthy 31:53

I remember the last time I got my mother anything for Mother's Day. She's She's too ill now to understand anything, but I actually got her mates her for a whole week. Oh,

C Chris Harrison 32:05

wow, that sounds good. You should have found one. I had buy one get one free. So you could have some come over to your play?

R Roy McCarthy 32:13

No, Chris. Chris knows what he's talking about. But actually, Chris. I actually did clean up my place.

C Chris Harrison 32:21

Yeah, well, I know they finally the EPA cleared up some super funds. Got that brownfield taking care of natural disasters? Through Chris,

R Roy McCarthy 32:30

they found out what was wrong with my computer. I didn't crash it. It was just a total demolition derby. It was not just a powocard

C Chris Harrison 32:40

That's what you get for trying to download gay porn on a straight guys computer.

32:47

That gay porn will crush you quicker than anything.

R Roy McCarthy 32:49

I Ain't that the truth is that extra talk about pop ups. You type

32:54

in gay porn on Google. And you are going to get so many damn pop ups. It's unreal, as good is gonna crash you.

R Roy McCarthy 33:03

Especially zip files. So between unloading downloading zip files, right, and then instead of turning the computer off, like I know, people that would do I would put it into hibernate, which is a huge, no, no. A huge No, no.

C Chris Harrison 33:21

Well, considering the fact you live in an apartment that's actually older than you are and uses and uses tin foil for wiring and the electrical system. You know, at that time, I think the most electrical appliance that apartment was designed to handle was a radio. So I mean, we're not talking about high quality area there. And that's an electrical system. And that can screw up a computer easily. But we're starting to sound like Jay Lee's show. And I still have my hair. So

R Roy McCarthy 33:52

no Chris actually came over and he tried to help me with mine and

C Chris Harrison 33:58

my best recommendation was for him to go online and download the 700 club because it needed a healing

34:06

my computer looks like that right now. So

C Chris Harrison 34:13

.....

he said check out the webinar on

 Roy McCarthy 34:17

the web over there. I know our listeners would not believe what Chris and Mike are doing over there on the

 34:21

research it's research

 34:24

debt research this stuff for after show stuff.

 Chris Harrison 34:29

Oh, yeah, that's that's we're planning on doing a in depth interview on people who put advertisers on the internet.

 34:37

This one says six 343 C 32 w 29 years old looking for. Okay, well, we'll talk about that. I

 34:49

wrote putting things on hibernate might late that someone put my date life, my dating life on hibernate and it's been stuck there. I think I'm gonna try that website

 Chris Harrison 34:58

that we're using right now.

 34:59

So I've been cruising this since I got here I'm supposed to be working and

 35:04

the whole downtime, okay, how much time is spent at work, but he will play on the internet. That's why I'm fixing it.

R

Roy McCarthy 35:09

We don't want to know, everything we do. That's why we're asking. I

C

Chris Harrison 35:14

mean, my company, there's not a lot of people have internet access. And I'm given it because sometimes I have to do research or purchase things for the company, online. And one time the head of security came to me and goes, Do you realize you use the internet more often than anybody else in this company? And it's like, Oh, really? And so then once my boss finally started getting, looking at the reports, it's like, no, you need to quit doing as much research for everybody. I, I'm trying to be good about I mean, I go through and about the worst thing I look up at work, is I'll read Dan savages column on Houston, press.com. And if you have never read it, I highly recommend you go over it's Houston. press.com. Scroll down on the left hand side is savage love. And it's an advice column. And it is some of the weirdest stuff you're gonna find in an advice column. It's, I mean, some of the stuff that he gets into the topics there. And he's, it's very intriguing. And yeah, I can't really do a copy and paste on some of this stuff. Because I'm not sure if my company is checking for certain words. I listen. We couldn't read his column on air.

R

Roy McCarthy 36:34

That bad. Check it out. We could always say it was wardrobe malfunction.

C

Chris Harrison 36:41

Now he's part of the I mean, his big thing here lately has been spreading the campaign on with Rick Santorum from Pennsylvania, who is so anti gay marriage and so much anti gay period. They had a contest of, you know, naming something of the sex act after him. And so they picked a fairly disgusting, nasty thing that they're calling sanatorium. And so they now have a website called spreading sanatorium. Oh, and that says, oh,

∅

37:14

that sounds like something for the CDC to

R

Roy McCarthy 37:15

know that sounds like something Dan Savage would concoct

C

Chris Harrison 37:21

can cause it's the T at the end. It's I mean, it's an that and also some people talk about, you know, they see things in his articles. They would never expect to see it in the mainstream press. And then they see an episode of some show talking about pegging, pegging, pegging. Yeah. Which is a term that tastebuds really started using of women who strap it on and give it to their guy. Oh, yes. And so there was you know, Chris, guys

 Roy McCarthy 37:55

guys,

 37:57

supposedly straight couples versus like, straight No,

 Roy McCarthy 38:00

no, no. That guy likes that tell me he's not telling me he's not a real guy at heart He's doesn't know what a lack

 38:08

of pie who's that character likes? Oh, shoot party guy.

 38:16

What is his niffler Stiffler stiff Meister stiff Master?

 Chris Harrison 38:20

Yeah, there are some a lot of what some of the people are with what they say with that thing is you know the the straight man just love to park the pink Cadillac in the back garage on their women and so some of the women are saying hey, if you want to park it there I get first shot and that's where some of that comes in so there's part of that and there's some guys that you know that have realized that the quickest way to the G spot for them the prostate is through the back area and you know a little bit of playing there is a it's something that they enjoy so whether or not they want to still say they're straight or not. I don't know that's irrelevant and if if Roy knows anything about straight men who fool around game and then

 Roy McCarthy 39:13

trust me, I know. They like they just like to keep that illusion. Meanwhile, they're getting it either way, but I'm really straight. Well

39:25

as long as someone's getting it whether gay straight

Roy McCarthy 39:28

don't know you go. But now the well actually before he came back down I was I was doing better than the Catholic priests. As far as my celibacy.

39:40

I should be a Catholic priests at this rate. Houston prides cover model contest. I was looking through the queue. So hopefully we'll have some cute Hispanic boys trying out for that. I think that'd be good. Really. The cute pride cover model contest for cute Texas magazine. So check that out. I think you can email them at model search at cute Texas mag. xen.com And maybe Michaels perusing that website can find a couple of likely contestants here that he can direct to there.

40:08

I've already found a contestant he is rarely asked.

C Chris Harrison 40:15

He's still searching through that he switched back over to get that

40:17

comic gay.com now and I'm looking at a screen name, which I won't do on the air, but he is 23 with a big Baylor shirt on. And he's pretty damn hot. 23 510 145 pounds. He is white European. his mannerisms are in the middle.

C Chris Harrison 40:39

He's not out to everybody. So that leaves him out.

R Roy McCarthy 40:42

Baylor Baptist University though,

40:44

but he enjoys social functions. He's very flirtatious, intellectual and loving he occasionally smokes and drinks alcohol but he doesn't use

40:54

because you need to sanatorium or what is

Chris Harrison 40:58

he and I'll tell you off air what it means he

41:01

responded to me and I told him you really cute but he hasn't talked back

Chris Harrison 41:05

to me. But now the model search they're coming up with pride events coming next month for about six weeks away from six weeks

41:14

away from Pride and I will actually be here for the Pat ever since they had my temporary to have not been here I got to see it because I have been either in New York or two other cities and I've been very fortunate for some reason I just work has taken me to New York for pride and I in for the past like few years it's been in nighttime parades are you going to be in Houston for the game I will be here finally it looks like so we're

41:37

not going to release very many details. But we are doing a massive Gay Pride after parade event. I'm not going to give out anything else. So we're gonna it's gonna be live on location, but it's gonna be awesome.

Chris Harrison 41:50

We'll give you the details on that. Are you planning on being in the parade? Or watch somewhere? Site finds on group there? Yeah. If people get stuck getting their act together, I'm looking at one of those rare events of trying to be in two possibly it will same time. So I'll be looking for someone to try that. I'll be looking for someone with a taxi service to shuttle shuttle me back. Why

42:11

don't we have little pride taxi services take you from one float to the other?

C Chris Harrison 42:16

Well, that's what the dykes on bikes are supposed to be for. But

R Roy McCarthy 42:20

I thought the private committee would help with that. I like those little gold EZ go golf carts, right?

C Chris Harrison 42:26

I'm not sure. But like I said, as of right now, I'm not getting it. But you know, I've got I've got

R Roy McCarthy 42:32

to get my act together on that.

42:33

Speaking of pride committee, anyways,

R Roy McCarthy 42:38

Chris is very important that's coming up that I do want to mention, Tuesday, May 18, is the day for the HIV vaccine Awareness Day and they're asking people to wear their aids rip and their aids red ribbon, upside down to form a B. V for vaccine. Okay, that's going to be Tuesday, May 18. shows your support for HIV vaccine research, and it shows that you appreciate all the people who are working to stop this killing virus. And it is still killing people.

C Chris Harrison 43:22

And what day was that again?

R Roy McCarthy 43:23

Tuesday, May 18.

C

Chris Harrison 43:27

Okay, Tuesday,

R

Roy McCarthy 43:27

I got it was on the back page of the triangle.

o

43:31

said Tuesday, May 13, where you're a driven very worried upside down in support of vaccine research. And where do you get information on this type of website?

R

Roy McCarthy 43:41

Yeah, they have a web. We

o

43:42

love websites here.

R

Roy McCarthy 43:43

Yeah, we love websites. It's the only webcasts we can do. Yes, you can get more information@www.aidsinfo.nih.gov or you can call one 800. HIV 0440.

C

Chris Harrison 43:58

Yeah, we're broadcast on the web. Fortunately, we don't have webcams in here. But now that is a good thing. The audio is simulcast and hopefully if the hackers stopped, we're archived on the internet as well as KPFT archives dot o RG.

o

44:16

That sounds good. Then still promoting an event here on KPFT after hours with Melissa Etheridge that Michael has been putting together we'll be giving away some prizes later in the show. Yeah, we're

C

Chris Harrison 44:27

gonna we're gonna pry him away from the gay.com chat holding.

R Roy McCarthy 44:33

Really strong at neuro bar here.

C Chris Harrison 44:37

Yeah, networking.

♂ 44:39

We call it networking. I'm not looking. Green chatty.

C Chris Harrison 44:44

Yeah. You just want to interface right I

♂ 44:48

enter where?

R Roy McCarthy 44:51

Enter what? What's your face where

♂ 44:53

we write that down. Enter face

♂ 45:02

So stay tuned. Mike will be giving away some prizes later on to Melissa Etheridge Honza

♂ 45:07

Melissa Etheridge stuff to give away tons of stuff. Why don't you come in, by the way, um, she will be in Houston may 15 and 16th that numbers which is right across the street.

45:14

That's right, we drove by. And I saw that and I just wasn't, why did you play hit numbers?
Because that's like the

45:21

greatest venue they could find. I guess

c Chris Harrison 45:22

it's one of the well, you know, one of the people said that it's, you know, the, the high school, the junior high school gym was closed for remodeling. But now, what a lot of the big artists do nowadays is you know, they're tired of doing the, the arena circuit, they're tired of playing in the stadiums and all that, and it's good to get back to your roots of where you where you started. And you're down there with a smaller group. And when it comes to in our area here, I mean, it's numbers is about the closest venues to small towns, small area, performance stage that you have, and then you have our clubs. I mean, you can do some of that stuff at riches. But you know, it's still it's a different vibe, I think and you know, to have it down here in the Montrose area. And I think in the monitors are really numbers is the is the only place for to hold event an event like that lasted

46:15

last 100 years of the woodlands. So that was that was an awesome event. And I like most Etheridge happened.

c Chris Harrison 46:22

I think a lot of the places where she's gonna be playing at, it's the smaller venue. It's not your traditional theaters that you're playing.

R Roy McCarthy 46:29

Well, you know, Eric Clapton who strayed, but very, very gay friendly. He said, There's nothing like returning back to the small crowds and that's, you know, he's done. This last couple albums. The last couple of live albums that he did, were with a smaller crowds. He said, it's much, much better.

c Chris Harrison 46:52

You know, it just you can get a lot closer to the audience and to people who, who got you there. So,

46:59

and that was interesting. I Boy George was in town recently for a party, which is an official mic

c Chris Harrison 47:04

back on mic. Yeah, I

47:05

got to step in there. Kpf booty was there. Cat can you get out cave here? We were there. We got to interview boy, George. He was great. Awesome. Awesome. He was real nice guy. So yeah, so

47:17

yeah, that was that was a time to come out in the 80s. I mean, that was sort of I guess I was in high school at that point. And someone like Boy George being out there out there. Way out there. Oh, yeah. Was was certainly

c Chris Harrison 47:28

he didn't need to be caught in the men's room to come out.

R Roy McCarthy 47:32

No, no, I don't want to see with George Michael. And when, with that outfit he wore for that. So wake me up before you go. In the video. No straight boys going to be dressed like that. I mean, we I knew I knew he was a queen. From the moment I laid eyes on him and

c Chris Harrison 47:50

get ready for this. George Michael now wants to do a collaboration and help write a song for Justin Timberlake. And he's awesome. I bet. He's also hoping on recreating the Madonna Britney scene with him and Justin. This was reported on one of the British news pro they

48:09

need someone to play Christine

48:10

need someone to play Christine

Chris Harrison 48:14

for the third one of the party, I don't know if they're actually

Roy McCarthy 48:17

George Michael is here in Texas. Right outside of Dallas. He's got a horse ranch with him and his boyfriend didn't

48:22

know where that was gonna clip Dallas, Dallas what public bathrooms

Chris Harrison 48:31

after the tea room gossip, we'll talk about that website later on.

48:37

That's after after hours. What else is going on? We have to get at least one segment in real news. And we usually do a decent job of at least getting one and Martino Nellis. Kintaro is leaving Diego Bucha National Hispanic Association National Gay and lesbian organization based out of Washington DC is leaving after spending quite a bit of time there building up the organization and almost tripling its budget doubling its staff and expanding the number of the programs that it has addressing a lot of issues affecting gay and lesbian. Latinos in this country, and quite frankly, in our organization, who, who's who's, despite being very aggressive and be very focused on the issues is also on many issues, also driven or larger organizations and steer them in that direction to concerns that may have been overlooked at legal, for example, is very involved in trying to push the Gay Lesbian immigration issues long before he tarsi was and that's not a slight at HRC. But organizations like Google have really been focused on grassroots issues and issues that impact our community and seeing Martine go is I think, wish him the best. I haven't spoken to him yet. I have called him earlier in the week, but I'm sure he's flooded with not only doing the business there take a little bit of calls as well. So connection

Roy McCarthy 49:56

with the stonewalled Lawyers Association. In fact I interviewed him on my new segment one time, because about a year ago, specifically about the immigration issue facing the Hispanic people here. So there's like a whole bunch of groups that are working on this

Chris Harrison 50:17

and that, in fact, their organization has changed names. It's no longer the immigrant rights Task Force believe it's Immigration Equality. Yeah, I remember seeing a thing about that with

John Nash from starting up his his practice now with John seminoe. Oh, good. And Phyllis Frey. Oh, that's gonna be an awesome practices came out of retirement to partner with the simonneau Law Firm. And

R

Roy McCarthy 50:41

we're, and it just, it just now hit me, this whole thing with gay marriage will have a huge impact on the immigration thing, because once you're married to an American citizen, and that citizenship automatically falls over to you.

o

50:59

Because I think we had mentioned that, I think last year on the show before last Friday, I was getting tons of calls from friends who are in that situation, asking or just friends or friends and people just calling you know, now, Massachusetts, it's allowed this guy to go marry a boy in Massachusetts, it's saying it's got to be like, Well, no, not exactly. But

C

Chris Harrison 51:18

now, plus, plus the fact that they're pulling out this law from the 16 is 1800s, or 1600s. Now, since 1776, has been 1800s, there's a law in the Commonwealth of Massachusetts, that you have to live in Massachusetts to get married. So it's not like you can run off to Vegas, and you know, anyone can get married in Vegas. In Massachusetts, you have to think both partners have to be

R

Roy McCarthy 51:49

friends, residents, residents, so

C

Chris Harrison 51:50

they're not going to have any of this matrimonial tourism that everyone was expecting that would happen. I mean, that's that's one of the things that Governor Mitt Romney is pushing is the fact that you know, here's this ancient law on the books and we're going to we're going to enforce it oh

o

52:11

well, there you go. We're gonna get one music break then we're going to come back and wrap up and then before we close we're gonna listen a little bit music we're gonna come back we're going to think Michael be ready to give away some Melissa Etheridge goodies. We'll come back and wrap up in a little bit but let's take a live music break I think we're listening to Jade still

Somebody out in radio land says I have a sexy radio voice. Isn't that very nice? He says oh my god. Okay, so we're moving on now. We

58:39

not gonna tell you about the Abercrombie and Fitch picture. We were talking about a little while like

c Chris Harrison 58:47

I love this. Yeah. So

58:49

anyway, I'll have internet and we don't? Well,

58:52

c Chris Harrison 59:14

 Chris Harrison 1:00:26

very easy to go to KPFT dot o RG and on the left hand side, there's a button for Latin for the Latino programs here on the radio station.

1:00:34

So check that out and hope you've enjoyed our programming. And one of these days every once in a while, you know, a guest that we have scheduled actually does show up. And when they do if you have to give you notice they show up in threes and fours. They just sort of come on in. Oh, I just for an update for Karis. Friends care has been here before for you to Carrie Dion was in an accident last month and was in the hospital for about a week to a week and a half and she is recuperating. Well I spoke with her earlier in the week and still in the little discomfort but very lucky to have come out of that accident as fine as she did. She's having a hard time at it. But he's doing much, much better now. And I almost forgot to mention that but she has been a guest here before and so if you keep her in your thoughts and prayers, that would be great. And maybe we'll have her around when she is back up and Adam

Chris Harrison 1:01:28

Well, we're going to wrap this segment with once again another little shout out Jade Esteban, you know, why do I get a shot of him? As often as you can? That's

1:01:37

an Oh, somebody's gonna turn my mic on here. Yeah, that's that's a good looking picture right there is

Chris Harrison 1:01:42

his from his album Angel. Jimmy's only got four songs pink highlighted, which is only for we're supposed to play. And since I played the English for since I played the Spanish version of Bella Marina started off, I won't play the English version. So we're gonna go now with falling again. And we'll be back with round table and that button you're going to turn on my microphone so that I can.

1:02:18

Okay, Chris forgot to program the thing. We're on blaming that on Chris, because engineer David was not in here and did not program that CD. And as soon as I figured that piece of

paper, I'm going to tell

c

Chris Harrison 1:02:30

you what we were listening to. Well, it's not gonna help because I don't think I wrote anything down. Well,

o

1:02:33

it was Queer as Folk dive in the pool by Barry Harris. It was off the queers folk soundtrack. And then the last one was a handy

c

Chris Harrison 1:02:42

decision. And the song was reciprocate. Chiluba asked for that one. So, okay, we had to give it in there.

o

1:02:51

And so, and I want to remind all of y'all that you're listening to after hours queer radio with attitude on 90.1 KPFT in Houston, and at 9.5 in Galveston and as always on the web at KPFT dot O R G. And as everybody should know by now, it is time for the roundtable. And we've got our merry cast of crew in the N word.

b

Bobby 1:03:16

Now held the gang's all here.

c

Chris Harrison 1:03:17

Okay, let's just do a sound off there from the nine o'clock hour position and go around

o

1:03:22

I guess would be you Tony the token straight guy met the other token straight guy.

c

Chris Harrison 1:03:30

That's right. We've got a round trip available now on the subway because we got two tokens to ride

1:03:39

we swear that's almost a mall park full of tokens. Brett forgot to introduce himself. So so so I'll do a forum. Right. Marlon favorite queer in the radio station? No, sorry, Scott.

1:03:56

I was gonna say that was me.

1:04:00

I have more history.

1:04:01

I'm sure you do. From history.

Chris Harrison 1:04:07

I just I just opened up a letter here and I see a sign saying boys suits and I was just

1:04:14

You're so good to me since the baby came.

Chris Harrison 1:04:19

Okay, let's

1:04:23

that's my way of saying I love you Michael.

Chris Harrison 1:04:25

Well, actually, you know, I gotta we're gonna start with the MBB letters and Scott is mentioned in here.

1:04:32

Oh Lord, really?

OH LORU, really?

 Chris Harrison 1:04:35

From the world famous world infamous Smiley. He wants to know is Scott the same Scott of hatch in 9495?

 1:04:45

Oh, yes, he is. And you do know me smile. I had lived in

 Chris Harrison 1:04:48

Jefferson apartments at 99 Jackson, the one with the huge

 1:04:59

that would be the one So I was telling you your your dirty laundry there.

 1:05:03

Oh, that's okay. There's plenty of my laundry hanging out around Montrose. Oh,

 Bobby 1:05:09

yeah, but these days, here's his own laundry.

 Chris Harrison 1:05:13

I can't give Stacy the note because Stacy's not here this week, boy Josephat. And who else? Whoever else? Hello, warm wishes, Bobby. Happy birthday to you. Thank you to your may 15. May 19 19. I think she turns 35 or 45, something like that. 5565

 Bobby 1:05:37

This is the 100 getting flat 36 I'll be 36

 1:05:45

but should we please? Well, I

c

Chris Harrison 1:05:47

don't know. You're the one who took the big chair. So

♂

1:05:52

we had a technical question in the middle of Yeah, you were in the big boy pants now. Hey, I have

B

Bobby 1:06:00

to wear long pants.

♂

1:06:05

And he can pull them off and on. In more ways.

B

Bobby 1:06:08

He's good at that lately. Excuse me.

♂

1:06:18

Chris, you're not supposed to swallow Chris. Oh, wait, maybe that's why I don't have a date.

c

Chris Harrison 1:06:27

Okay, and Smiley is asking who is who is standing in front of me. Yes, that is Stephen. That's the Stephen. Puff Pastry boy who had the very nice graduation party last week the team was attended. Fabulous. I certainly hope his brother has Rycote recovered from the incident.

B

Bobby 1:06:44

I will forever have that visual of you. And the staircase and the Yeah, the stray watch over your shoulder.

♂

1:06:53

Who didn't tell me about that part.

 **Bobby** 1:06:55

That was fun.

 **Chris Harrison** 1:06:56

Oh, yeah. I kind of forgot that.

 1:06:57

You forgot carrying a cuboid over your shoulder. Nobody

 **Bobby** 1:07:02

else did. Yeah,

 **Chris Harrison** 1:07:03

unfortunately. Well, the problem was this. With his squirming and his screaming like a little girl.

 **Bobby** 1:07:11

You don't want to hear.

 **Chris Harrison** 1:07:14

I'm surprised my back lasts as long as I did. Getting up to there. I'm telling you.

 **Bobby** 1:07:18

Well, he in his defense. He was kind of funny. Briony Brienne Oh, yeah. Yeah,

 1:07:26

I heard that part.

 **Chris Harrison** 1:07:29

You know, I was I was hitting on this 20 year old drunk boy at this party. Right. He's 21. Now 21? Who knows? All right. Change the straight status. I told them I'm hitting on him. And

they're going. You were hitting on him? Yeah. I was hitting on him in front of his brother right. In front of his sister. I was hitting on him in front of his parents and they're like, You did what?

 **Bobby** 1:08:01

He was so gone. Oh, yeah.

 **Chris Harrison** 1:08:03

It was. It was hightailing it out of there.

 **Bobby** 1:08:07

He was. Oh, no, he

 1:08:09

wasn't hightailing anywhere.

 **Chris Harrison** 1:08:12

Oh, that was reason why I was dragging him upstairs. So

 **Bobby** 1:08:16

so he could be laid down alone.

 1:08:21

How unfortunate.

 **Chris Harrison** 1:08:25

He was I think it was the belle of the ball. There was more people hitting on him. It's like you know the forbidden fruit and he's drunk it's like he won't remember

 **Bobby** 1:08:34

he must have woken up with one heck of a hangover

1:08:43

Well, I heard Brett Where is he? Oh, write him back here in the corner. Get out of the corner. He likes it in the corner.

c Chris Harrison 1:08:52

Okay, smile said a couple of news articles here a wedding

B Bobby 1:08:55

tray in the corner was a leg spread go figure

1:08:59

you're gonna have the big chair back Erland

1:09:05

I guess you would call that a bottom cherry Angel

c Chris Harrison 1:09:08

look it looked at if you're if you're playing if you weren't planning on but playing some music here. I've got the song for you. You can find it on pansy division. What you can dedicate it to Brett. What? From you big bottom

1:09:24

one name to that there.

c Chris Harrison 1:09:25

There is a song called big bottom. But it's so describes you David.

1:09:30

Hey guys. My rear end out of this. Nice. I really do have one called big bottom. Yes. And it's on the CD that's in there.

B Bobby 1:09:42

So what else does smiley

C Chris Harrison 1:09:47

talk about? So what smiley he's got up front. We got to talk about what he's got to deal with ass.

♂ 1:09:51

Hey, hey, no little three letter words. We've

C Chris Harrison 1:09:55

gotten 40 minutes we've got 4549 minutes to share 39 And so we have enough time talking about his ass. Three, we just can't say four letters.

B Bobby 1:10:07

And therefore you can say that on the air,

♂ 1:10:10

leave my ass out of it anyways.

C Chris Harrison 1:10:13

That's what most of the people who see your say about the wedding trade ready for gay marriages. And okay, okay. Yeah, the wedding trade. That's a bunch of florist hairdressers, photographers. Chefs, why would they have issues with gay marriage? The wedding is in weddings already constituted 20 for a \$50 billion a year industry in the US. They same sex wedding show was held in Seattle on April 17. And there was one in Washington DC. And they're expecting another event in Las Vegas and Los Angeles. Brides magazine even did an article on gay weddings. So we've talked a lot about gay marriage. And it's like, you know, Marriage

B Bobby 1:11:02

Marriage is a 50 billion billion. Did you say billion

♂ 1:11:07

 Chris Harrison 1:11:07

billion with a B?

 Bobby 1:11:08

And divorce is \$100 billion a year?

 Chris Harrison 1:11:14

Yeah, I might tick to think that, you know, I mean, they're saying the wedding trades ready for gay marriage? Well, you know, the gay industry is there's such a so much that the gay community already into the gay into the marriage industry with a different topic. Yeah. Which sounds like we're teasing and all that I mean, with when you look at the fact that you're catering your florists, your hairdressing, those are considered standard operating. These are queer professions. And when you come down to it, it's you know, it's amazing to say that, you know, they always say always the bridesmaid

 Bobby 1:11:50

never the bride. It's about time to be the bride, or

 Chris Harrison 1:11:53

the groom, or wherever we're setting up anything in between. See, he has a thing on here. Apparently, sometime here recently, it was the anniversary of the passing of Ryan White. Who, who died 1990 At the age of 18.

 Bobby 1:12:14

God hasn't been that many years. Yeah, yeah.

 Chris Harrison 1:12:17

I mean, Ryan White, was one of the people who unfortunately became a very noticeable symbol for the HIV AIDS community. And because of the fact that, you know, he wasn't gay, he was he was a palpable one, because, you know, he was considered a victim, because, you know, he got it because he had leukemia and had to take lessons but wasn't leukemia philia haemophilia in the drugs, he was using used blood byproducts, and that caused his hand to contract HIV AIDS, and some of the horrors that he went through just for being HIV positive. I mean, houses being burned down, teased, tormented run out of two or three towns, I think, before he passed away. And, you know, it's one of the things that we so many of the organizations are the Ryan White foundation that goes in and helps us some of the charities here, but, you know, I mean, like Bobby said, 9090, that was 14 years ago,

B Bobby 1:13:21

how long ago I moved to Texas.

1:13:23

Well, he not only put a non gay face to AIDS, he also put a child's face to AIDS.

C Chris Harrison 1:13:30

Yes, and I mean, that, that was that was, I think, also helped with the vaccine. You know, this isn't some, this isn't a disease, it's only for 30 year old gay white males that, you know, there are other phases to this. And that's as part of it was the fact of this comes down to with, with Ryan White and the illness that he had, had acquired and how he showed strength through it, the fact that he was, uh, you know, people gave him a lot of crap. And he's still persevered and opened up a lot of people's eyes at that time, which is,

B Bobby 1:14:07

I'd like to believe we've come a long way since then. Now, I'd like to believe.

C Chris Harrison 1:14:12

Yeah, unfortunately, when you've got people in the White House that are you know, they they put someone on the on the AIDS Committee, that's anti gay. That's kind of crazy to say. But

1:14:27

you also look at the current administration, they're not exactly known for doing intelligent things as a secret service combusting through the front door.

C Chris Harrison 1:14:39

So once again, we want to congratulate Wilson on becoming a MBB graduate. One who has left the system is now open in Waco, which I think is a harsher sentence.

1:14:55

Yay for Wilson.

C

Chris Harrison 1:14:57

So I and he's still a good listener and you Glad to hear that he's sticking around. A little note here from Alana once again, beautiful everyone see the artwork while on my sent? Today? I didn't. I'll show you that when we get out there. It's very beautiful piece of artwork, I covered a backup.

♂

1:15:17

He does some very, very good work.

C

Chris Harrison 1:15:18

Yes, yes. Which is very, very coincidental. I mean, I ripped a poster off my wall last night there because it was, I was tired of staring at the thing. So I've got a, I've got a vacant space on my wall. So I just need to find some framing to put that on there and smack that in above the couch. There is another note from a lot of the group there. He says gay marriage is pretty irrelevant to most people, most people's lives. The rights to liberty and happiness belong to each of us. And no one can live your life for you. People can make you feel pretty happy. Sometimes. Sometimes they can make you feel horrible. But your life your real life is the one you make for yourself. It's all up to you, where you come from, and the things you've done in the past are only as important to who and what you are, as you decide to make them taking responsibility for your life and then living with your choices. And that was my Mallanna

B

Bobby 1:16:21

Hey, man, very cool. Rockin? Absolutely.

C

Chris Harrison 1:16:26

So we finished with our MDB great letters are calamity bees. And we've, we've got a I've got some things I'm planning on them talked about wanting to do. And I just got to get on it and talk with you all and see what we can, can work out. But I'm not gonna go into it completely on the air. Now, please want to we want to, to acknowledge the MBBS. And you know, next week, we're going to be doing our fun drive next two weeks here. And, you know, for the people who are in the free world, you know, the MBBS are a big part of what this show does. Is that people who aren't able can we did? Thanks for listening. Yeah.

♂

1:17:09

Thanks for paying attention out there. Robert. Robert Thompson says congratulations

C

Chris Harrison 1:17:12

to Wilson. We did the top, the top of the show and just now. You know, the MBBS are some of

the people who really get a lot out of our show that we talk a lot and are able to help some of these guys out a little bit. And, you know, that's where we need some help with. And so that's coming up next couple of weeks. We're going to be we're going to be hooking on here for the station trying to get some some pledges in

 **Bobby** 1:17:39

Yeah, I have to give Robert a little leeway. He's he was busy slaving away at my apartment today. It may be a little slow on the uptake right now. The funerals knocked out a few brain cells. That's entirely possible.

 **Chris Harrison** 1:17:55

Well, let's see.

 **Bobby** 1:17:58

leaving that alone, no.

 1:18:03

Copper rested well man whoring

 1:18:07

read that again. We're

 1:18:09
