SPEAKERS

Harvey Milk, Buddy Johnston, Jimmy Carper

Harvey Milk 00:00

After I got elected, I got the phone call, I knew I'd venture to get quite a few of them. One was from a 17 year old child in a small town in Minnesota. And the boy is handicapped. And the boy's parents found out he's gay, and they want to put him in an insane asylum. That boy needs help. In the gay mood is about the letter I got from Southwest Africa when he read about a gay person getting elected here. And that person has hope. And that 17 year old kid in Minnesota has hope. And we have gay leaders not understanding that and are more worried about their own personal power they're not Elite is offensive.

00:49

Well, I had listened to the after hours at work two weeks ago when I want to record on the radio show and one of the drivers and to walk in and he heard the radio show and y'all were playing the I don't know what you call it that you know glory glory I'm a lesbian that one and within a site of a week I had gotten noticed you see my boss and I was terminated for promoting homosexuality on my job. And it dawned on the in the last three weeks that these people that think that they have rights I mean, if you can't even listen to a radio station, you are screwed. This whole thing is is messed up people think that we have rights and we're out here because we enjoy making scenes in the street. But if you do not stand up for what you believe in in this country they will walk on you and kill you.

02:06

Going back I think that's Robin Pilar on the stage the chat for lover for life we're not going back to Washington DC.

02:54

Doubt the official count of the lsb and gay rights

03:09

you may come out

Buddy Johnston 03:37

why we parents want to persuade society that our gay children are not acting out of defiance, self indulgent, they're being true to their own nature. Our children are fine men and women. And we say to society that the parents and friends of lesbians and gay men will support their children.

04:44

Already have a few words for camping.

04:46

Come on out. Join us.

04:49

Bring your friends. What do you think about the turnout?

04:51

Well, never, never. Never. If you're you may all come out.

Harvey Milk 04:57

We must destroy the myth Suisun wrong, shatter them, we must continue to speak out. And most importantly, most importantly, every gay person must come out you must tell your immediate family, you must tell your relatives, you must tell your friends if indeed they are your friends, you must tell your neighbors you must tell the people you work with. You must tell the people in the story you shopping once they realize that we are indeed their children, and we are indeed everywhere, every myth, every lie, every innuendo will be destroyed once you do you will feel so much better.

06:34

Right, you may come out, and I ask people all over this country to do one thing. Come out. Come out of America come out. You betcha.

J

Jimmy Carper 06:50

Because you know why why we got to go down to city council and raise Holy hell, maybe we always have to one. No, no. We have to go down to city council and raise Holy hell, okay. Because the city council did not back the chief with her appointments to the command staff. I saw that what's the deal, and as an openly gay person employed by the Houston Police Department, I'm very offended that they let politics get in the way. And if they're going to allow the black community and the Hispanic community to screen for equal representation on the staff, than we need to have gay and lesbian people represented. You betcha. And I'm going to go to city council and ask Miss McGowan on Tuesday, where the representation is for the gay and lesbian community, good for you, and how come? He has forgotten that 20 years ago that people maybe 30 years ago, were drinking out of separate water fountains and using separate toilets, and eating at a separate restaurants. And you know what I mean, I think he's forgotten all that. And as an openly gay person employed by the Houston Police Department, I can tell you, things are happening down there that are happening for the good of the city. And I think it's a shame that the city council didn't get behind the chief. I mean, they appointed to the job, but they don't want to do the job. So anyway, politics can tell we're gonna bitch about that. Plus, did you know you could call in and win tonight and get an album and possibly lose your job? That's what I hear. Yeah, we got someone that did that. He called in and won an album when he told us what the pink triangle meant. And he lost his job. How wonderful. Yeah, I want to hear more about that. So Colin, and when you could be the next person fired? Pretty scary. And so it is this this 1990 or 1950? I don't know. I'm really upset that about this chief of police thing. Plus, I was at the Academy all day Friday. And they were talking about insurance, city insurance. And they said that if your lifestyle endangered your health, you should pay more for your insurance. What's that supposed to mean? I don't know if they were meaning aids are their meaning people that smoke cigarettes are people that, you know, drive without their seatbelts, or he didn't nearly clarify it. And I was too scared to ask them. You don't stand up in that environment and say, girl, what are you talking? You know what I mean? Anyway, this is after hours radio celebrating live from the heart of Montrose . 90.1 FM KPFT. We're here and we're queer. We Certainly are.

B

Buddy Johnston 09:25

And my name is Buddy.

J

Jimmy Carper 09:27

And I'm Jim. Yeah, well, how about Jimmy, we know that. Yeah, I'm Jimmy. And we got a lot for you to happen today. Are we sure to stay with us? I've got some words from Harvey Milk that you've never heard. Why? Yeah, listen to this. Oh, boy, that is one of my all time favorites. And that certainly has a good message for everyone. It does. It's my life. Yeah, it is. So keep your laws off of my body. Thank you very much. This is just this crap that's going on. You got people like Clayton Williams, they want to keep the sodomy law going, Oh, I've got I've got a song later I want to dedicate to him. Really? In which one? I will play that. Yeah. I just I don't understand it because I worked for the police department and I could sure pick out a few cops that I wanted to frisk me, Bibi. Oh, girl. Anyway, what about this guy? This This guy was fired from his job.

Can you believe that? Yeah. Can you believe how racist the city council was this week? It what's happening? That's all it is. Jimmy it was racism. They were screaming race, race race. And they didn't stop to look at what we're trying. What we're what the chief is trying to do down there. And how many changes have taken place under her administration, and how wonderful things are getting in got to be terribly frustrated, they have tunnel vision, they can't see. It's too sad. It's always frustrating when you cannot do your job because other people control how you do it. Well, I was gonna go down there Tuesday and ask them to please support her because as an as an openly gay person in the department. I think it's wonderful the things that are happening. And it really scares me to see what they're doing because now they're saying you can't do your job. So what the hell's she going to do I know, if I was her, I'd take my marbles and go home. Well, I would get real mad if that's the thing that she didn't get mad. She was out at the Academy. And she said that things are going to be good and things. It's not a loss, we didn't really lose. We're just going to pick up our pieces and go back to the drawing board and drink or something else. But she's not going to withdraw those people that she nominated and start all over. Because there's people that are nominated or qualified and those of you that shouldn't be in those jobs and but it's just real sad that there are a few people who want to run our lives for the rest of us. And it's just that way and it's I'm really disappointed in Vince Ryan. I haven't talked to Vince Ryan. So I don't know why he voted like he did. I'm very disappointed in the things that artists McGowan said because rather earnest wasn't praying that he said that he was he knew that the whole community had to be served. And that's a bunch of BS because he doesn't give a damn about the gay and lesbian community in the city. And we make up a large portion of the city. We pay a lot of taxes that keep his butt on that council. So I want to go down there and ask him where our representation is. So Brother McGowan, if you're listening you can call us and listen to this because we'll find out who's banned on election day people for a minute City Council was shooting at us or something I know it was CD player went to hell. Well, you know, they'll saying freedom and justice for all. Offer boy if you have a well, it's crazy. Oh, well, and we're gonna talk about how you can call in and win an album and lose your job. Stay with us. By the way, oh, Clayton Williams wants to keep that sodomy law Oh Clady.

B

Buddy Johnston 12:55

And now civil service presents gubernatorial candidate Pete Williams. And his dog spot.

♂

13:05

Oh, dear friends if you're making Williams again. You know, I've been catching a lot of hell lately from female types. On account of some comment I made to a bunch of reporters moonlighting his ranch hands regarding the subject to rain. Frankly, I don't see what all the fuss is about. All I said was this weather we've been having is like getting rain in the rain a damn thing you can do about it. So you might as well lie back and enjoy it. Well, it's the truth. Dammit. Who are you gonna call? Ghostbusters? Hell no. And if you're trying to fight the guy, he's just gonna kill you. And that's a fact. I was visiting one of our prisons a few years back and I got briefed by a bunch of burly boys. As I recall, there's about 10 of them suckers. And I had a real good time. Tell them boys was just lonesome and that's when I can sympathize with. However, I'm sure that Oh, land Richards in her drug induced female Frenzy is gonna try to use this issue gets me in the election. So I thought I'd better do something about this. Therefore, I'd like to announce my plan to open a chain of rape crisis centers throughout the great state of Texas. That's right. If anyone out there gets by late it's actually you can call on the horn the old

lady and tell me all about it. I'll listen to you. I'll help you calm yourself down. And I'll even give you the name of a good electroconvulsive therapy doctor who can help you to forget that it ever happened. Just call 5557273. That's five by five rate and me and one of my highly qualified staff. We'll get you on the road to recovery. Some people say that Texans don't care about the victims of sexual abuse. Well, I'd say that they don't know Layton Williams.

15:08

We were really

15:13

tempted aside so we can turn that around is that f is in Frank

15:38

This is Vicki new president of the Texas gay Rodeo Association Houston chapter. Here to tell you the Texas rodeo is coming. So stay tuned after hours and KPFT

15:49

not for a while.

15:52

Back up a little bit.

J Jimmy Carper 15:55

You're not the first to tell me this crazy clean, huh? You're not the first to tell me tell you why. Backup before I do that.

16:02

Okay. That's right, man. You had it easy. You lost your husband and I'm nice. Clean the hospital.

16:07

You know what? I lost mine. I lost my street. That's right. They killed him on the street. 27 years old dad dead on the street. Killed by a bunch of kids with baseball bats. That's right mom killed by children. Children dropped by people like you because everybody knows that quiz don't

matter. Quiz though. Love those that day God.

16:29

Well, I had listened to the after hours at work the weeks ago when I want to record on the radio show. And one of the drivers having to walk in and he heard the radio show when y'all were playing the I don't know what you call it that you know, glory glory. I'm a lesbian, that one. And within a sign of a week, I had gotten noticed. You see my boss and I was terminated for promoting homosexuality on my job. And it dawned on me in the last three weeks that these people that think that they have rights. I mean, if you can't even listen to a radio station, you are screwed. This whole thing is is messed up. People think that we have rights. And we're out here because we enjoy making scenes in the street. But if you do not stand up for what you believe in, in this country, they will walk on you and kill you.

J Jimmy Carper 17:19

What are you laughing? That was cute. What was cute? Oh, that little deal. You're packing up and stuff. So what's going on? Wait a minute, what are you talking? Remember? Right before we did all of this, you're talking about backup. But before you do that, oh, that's because when you scream like that into these 100,000 Watt mics because headsets fall out? Well, I want to make sure they can hear us in Austin tonight. You're all they can hear you. 100,000 Watts a full stereo going in there. And yeah, the screaming thing. You know how I sound like you're a Roman orgy or anything. Anyway, we were trying to I don't want to talk about we don't want to get down in the dumps. But we were talking to someone who's got some real serious business going on right now. Absolutely. Right? That's correct. And you could call in, or we were using a fake name or a real name, real name a real name. Okay, that's cool. Yeah, because there's certain things we can't say and can't say this is just like, boys and girls. Remember when Mark timbers was here, Mark timbers was a police officer for the Houston Police Department that was gay. And when they found out he was gay, they harassed the hell out of him until he finally quit the department. He went to court for some trumped up charges about selling some tickets or some garbage but later was cleared from all that. And all those charges were dismissed. But since mark left the department on his own, he couldn't fight and he hasn't fought yet to get his job back. I say yet. But when Mark was on talking about that a lot of things were in court, and there were certain things they couldn't say. And the same thing here, we just have to be real careful what we say. Boy will do want to say is that one night, four weeks ago, five weeks ago, four weeks ago, you sure? Four weeks? How do you know?

19:11

I had it marked in my book from the day that the man I work with went on vacation for extra credit on hours. So you were at work. I was at work at from basically 10 o'clock Saturday evening until seven o'clock Sunday, on your own time, on my own time

J Jimmy Carper 19:29

doing things that had to be done before Monday morning. That's correct. I was I was on

deadlines like were there anybody else in the office?

deadline. Like, was there anybody else in the office?

19:38

The only person that was on the property was a security guard that's at two years old. And there is a section in back of the company where some of the people that work there that says that their limit of going into the company is there and I had KPFT on like I do every Saturday evening, Sunday morning. Listen to the show, listening to the show And they had done your little thing here that you do.

20:06

What is a lot of things

J Jimmy Carper 20:08

here on it? What is it thing we do girl? Are you talking about? We just played that song and we were getting ready to play. We hadn't played that yet. From what I understand. I know you're going to play it for me. We were asking you, we were asking, oh, yeah, it was all all in to win an album and tell us what the pink triangle represents. Yeah. And for those of you that don't know, the pink triangle is what the gay men were forced to wear during the Nazi internment in prison camps during World War Two, when 600,000 of us were gassed, murdered and butchered right along with the Jews and works in death, the blacks and every other person that was treated like dirt by Hitler. But anyway, you called in to tell us what the pink triangle represented, right? That's correct. And you want an album?

20:53

I won the app. Did

J Jimmy Carper 20:54

you get the album?

20:55

Yeah. So week after I got terminated. Did you like the album? Yeah, it's pretty good.

J Jimmy Carper 21:02

No, I'm not trying to make light of this. Now. This is real serious stuff. So you called in and you want an album. And we were all excited, like we always are when somebody wins. Yeah, that's correct. And we played this song, by Lee as a car. Song right here, glory, glory, glory, which

we're going to play in just a second. And someone that works there came in and heard that

21:24

two of the employees had came in. And of course, I had the radio turned up doing my work and not paying attention. And I realized how you noticed someone from the corner of your eye turned around, and there were these two individuals standing. And you were playing this song. And they looked at me kind of funny and walked out. Did you jump up and turn the radio off? No, I felt no need to turn the radio off. It's a free country.

J Jimmy Carper 21:49

And radios free. I mean, anybody can hear us anywhere in the world if they turn the radio to 90.1. Yeah. You hear all kinds of things only. So you didn't think anything else about it? No,

22:00

I thought nothing else about I was there to get my job done. And I really didn't care what anyone else had thought. And like I said, I thought I was alone. So Monday morning, everything was fine. Everything was fine until about the middle of that week, Wednesday to be exact. And what happened, I was called in to my boss's office while arrow everybody in the office was at lunch. And there was some other things he had asked me about. But his last parting comment to me was he understands that I had been listening to a deviant radio station

J Jimmy Carper 22:33

that says girl, deviant radio station goodness, and,

22:37

and he said that that lifestyle is not to be brought into this office, and he terminated me for promoting homosexual activity on the workplace. And that was that.

J Jimmy Carper 22:50

Did you get that in writing?

22:52

No, but I had a witness. Ah, I had a witness. A very good friend of mine. Was there to help us those were the words he used. Those were the words he used. Those were the exact words who use

J

Jimmy Carper 23:05

that calendar girl, what are you what year is this? Really, like I said, is this 1950 or 1990? So what did you say

♂

23:14

to him? When he said what he said?

J

Jimmy Carper 23:17

I mean, in 1972, I was fired for being gay on a job in Van Buren, Arkansas, which I might understand. Because there are several 1000 people there and there are not a lot of gay people running around screaming, I'm here and I'm queer. Like on the radio, yes. But this is some 20 years later, almost. In Houston, Texas, the fourth largest city in the nation, which is supposed to be the big leader, baby of the world. That's what the city councilor who's running my police department now says. And so it's illegal, according to your boss to listen to the radio.

♂

23:57

It's not illegal. He is. He feels that it is. What is the word that we want to use deviant. He said it was deviant people of this persuasion are deviant and all the other myths that go along with being a homosexual. I had never admitted that I was a homosexual. I asked you if you were gay? No, he in the course of this conversation that he asked if you were gay, no, not in the course of that conversation. However, through the period of time that I had worked there, he had indicated by many things that he had said, to give you an example of his mentality. I'm also a registered nurse, a bachelor degree nurse. And I do volunteer work with PW A's and things. And we have a very good friend that is in the hospital right now. And he has been there since this happened. And he, frankly asked me, he said, What is he in for? And I said, Do you want the truth? Or do you want me to tell you what I think you want to hear? And he says, I want the truth that said the man has HIV. And he says, I want you to wear rubber gloves because I do not want you to bring that disease into this office. Are you Are you serious? If I'm lying, I will die right before as I walk out of this building.

J

Jimmy Carper 25:05

Oh, brother, so he knew that you are gay, right? He assumed I was gay. But we all know word assuming you never ask. He never really asked though, right? No, he never could have in theory been straight.

♂

25:20

Of course, I could have been straight listening to the radio stuff. And

J

Jimmy Carper 25:23

there are a lot of straight people who listen to this show. As we found out last week, when we had the Colin segment, and most of the callers were straight. This just doesn't make any sense. And I have seen a lot of stray people caring for people with AIDS. So we can't talk about the time but you've worked for that company more than a week, right? Oh, yeah. Right. And I just

♂

25:52

You must understand that, that this is in Baba Ville, and the mentality of Baba Ville. It's not in the big city. No, I commuted 30 miles a day, one way to work.

J

Jimmy Carper 26:03

Get your maps out and 30 mile radius. There you go. It's incredible, though, because in this day and time, how, how can there be anybody left in the United States? Who does not know how AIDS is contracted? But even how their baby How can you be fired for listening to a radio station and promoting homosexuality in the workplace? And that's what the guy said, right?

♂

26:32

That's exactly what I have several good lawyers, you know, I

J

Jimmy Carper 26:36

can think of worse things, you know, a speech by Clayton Williams. Now that's obscene. I don't understand this. It's very frightening. And it I was I was angry last week, you were very angry. And you called I was very angry, very angry, yelling and screaming obscenities at everybody I could think of, because the first thing I said was, Oh, my God, my radio program has gotten this man fired. And then I thought, no, no. Ignorance has gotten this man fired. Exactly. And as Harvey Milk said, We must continue to speak out. And we must destroy the myths. And that's what it's all about. You're not stuck. Are you? I asked you that last week financially?

♂

27:25

No, not not financially stuck. Things could be better. It always is. When you when you work. Sure. I'm lucky enough to have a very understanding life mate, very concerned. And he does not want me to rush out and take any job that comes along. Because why take that job and then be unhappy or go through the same circumstances? So no, I'm doing rather well.

J

Jimmy Carper 27:46

What were your first thoughts when this guy said you're fired for something so, so obscene? I

didn't mean what did you want to? What? What did you think

27:56

my my thoughts showed on my face, I was so angry, I was crying. I'm the kind of person if you get me to the point of crying when I'm angry, I wanted to kill him. I wanted to pound some sense into his head and say, if this is what the Constitution is for us, if this is if it provides nothing, why do we pay taxes to our government, so people like you can say that this is wrong. This is a sand this is indecent, and deviant.

J Jimmy Carper 28:27

Because so many people are not living their lives according to the Constitution as they should here in America. I think they're living their lives, according to some sort of religious scripture. They have to understand though this the Constitution was built on the foundation that it would separate church and state Yes. And forgotten that, yes. And these religious people keep trying to shove this down our throats, that somehow this nation was formed one nation under God, and that's a bunch of bull. This nation was formed on the constitution which begins with the words we the people. That's right. This sounds like the type of guy who may have done something similar. Had you been listening to like the atheist program, or

29:09

anything that long that anything that he didn't agree with? Absolutely, if it was not his radio station, for example, or if you were of a different faith than you were on a different level as a human being. So God knows where I stood as a homosexual. And if he would have known that I was homosexual for a fact, I'm sure he would have came in the office and shot me. And speaking about homosexual issues in the workplace, even though I had never admitted or I had never, I never felt the need to flaunt what I was, if they would have asked me I would not have been afraid to have told them. But there had been several occasions where on your notepad on your desk, people had wrote obscene messages and several times there was Xerox copies of passages out of the Bible about what a sin it is and that you're going to hell. And so this showed up on your job. Oh, yes. And I still have them. See, I've been

J Jimmy Carper 29:59

waiting for three yours for this kind of crap to show up at the police department. nobody even talks to me. I mean, they're scared of me, I guess I don't know. I know I'm the only faggot in the police department. Oh, right. I'm sure there's no others working there, of course. Girl get up off the floor. If they do that, if there are they're not men, because they don't have the code does know, I shouldn't say there's no community to support them if they know. That's it. That's it, because it's really wild. I, I'm one coming out at the police department, there's like, all the gay priests standing up and saying, Hey, I'm gay, you know, let's just see, not gonna be we're getting ready to celebrate our third anniversary. And I was, I was here the first night, September the sixth 1987 Trying to cue records and my hands are shaking so much. Not that I was afraid of the radio because I had worked in radio for almost 20 years. But I just knew that

somebody from the police department was gonna bust in here and kill us and drag us out. And it didn't happen. Because the majority of people fortunately for us, are not like this guy that was your employer. They're very open minded and very, you know, they listen to us, and they care about us. And they don't treat us like this. And they get angry themselves when things like this happen to us. I've got a lot of letters from people who listen to the show. And one letter in particular, a couple of weeks ago, a young man said, I would love to tell my family that I'm gay, but I hear how you talk about your father, my father. And my father died in April and how we didn't have a relationship. And he said, I just can't think of losing my father. So I'm just never going to tell him. And now he's hearing, I came out and won this album on the job, and I've lost my job. What message would you say to someone who's in the closet? Or hiding or afraid somebody's gonna find out? What would you say to that young man? Or young woman? Yes,

32:05

they will always be themselves. In order to maintain respect for themselves, they will have to come out, they will have to get realize that the public will support them. And if they don't, they don't need their approval. They shouldn't stay in the closet, they will do nothing but kill themselves that way.

J Jimmy Carper 32:23

Not only that, but if you stay in the class at your you don't have a relationship with your father because he doesn't know who you are. That's right. You're, you're something that you're really not for him. You're living a lie. How is that together? Girl? We're good. So what's your greatest fear right now?

32:46

Losing my lover. That is my greatest fear in life.

J Jimmy Carper 32:49

But that happens to all of us eventually. Eventually, but eventually people die. Oh, well, yeah. and lesbian people as gay men, we find out that people die a lot quicker.

33:01

I think that's happening. My second greatest fear would be that we all had to go back in the closet, and live our lives the way the other people want us to live. And I won't ever go back. Never. We've gone too far. So what Stonewall what keeps you going? My faith in people in my faith in myself and my faith, people of my own kind?

J Jimmy Carper 33:24

Is it faith? Or is some of that pride?

33:27

I have both. I know exactly who I am and what I want in life, and I know what I'm proud of,

Jimmy Carper 33:33

because that's what that song was all about that we were playing that night they walked into your office.

33:40

Absolutely. That is my favorite song that you play on the station. And that is more truth in that song than anything I've ever heard or read in the Bible.

Jimmy Carper 33:48

So what would you say right now to people again, who are listening and afraid and other than fight back and don't take it anymore. And don't worry if you lose your job because there are other jobs out there. And don't worry if you lose your family because there's 30 million gay and lesbian people waiting to love you what what would you say? What do you have any what would you what do you have to say right now anything?

34:13

Nothing that I that I haven't already said. You have to keep your faith and you have to be to believe in what you believe and practice.

Jimmy Carper 34:25

That's alright because every morning you have to get up and look in that mirror. So will you come back and tell us what happens as this goes on? Sure.

34:34

This will be a draw long drawn out thing I have. I can say this I have gotten a call from the president of the company.
