00:00

Isn't it if they've heard of the George Bush Voodoo Doll went rather well on the last pledge drive. Yeah, and you can get one of them. I think it's for a \$60 pledge. He's dressed in his, you know, flight suit when he landed on the carrier. It's real cute. It comes with a starter kit of three pins and some instructions. Food and priests Marie Laveau and, you know, it's it's kind of nice have to give on a for birthday or a little gag gift or party or who knows. But a lot of folks like, and, you know, help the show? Yeah, because Indian flags

00:43

we needed. It's not phone numbers. Set one three, jam KPFT

00:48

Oh, are for those who can't spell 713526573801 Last

00:55

thing, if I may? Not really, I'm not sure if I'm going to have any kind of guests this coming week, I may do some best of or who knows? I might try some comedy. I've been thinking about that. Okay, but but I'm thinking that what we do need to do is start organizing our community. If any of you have been to Oakland, San Francisco, you know how things work out there. They work because people are real. People stand up work together and and accomplish things. They force their government to listen. And we need to do that same thing here. And you know, that's that's, I don't know that we have to do something in this coming year to Fort the bush cartel. I am really definitely afraid for our nation. Because the mechanisms of that man, yeah,

01:43

definitely all need to get out and vote, even if it's if it's not for a candidate that's gay friendly. As long as it's somebody else besides bush. We just need to all get out there and vote and if you're not registered yet register to vote and go out and vote. And let's get bush out of office before he really messes us all up, especially us as a as a community because I saw the other day that he's trying to pass a what was it save heterosexual marriage or? Oh, yeah, national marriage

02:17

or something? You're touched on that and it is 1.5 billion. Yeah, man once for that. Yeah. Yeah.

02:24

He's wanting more money to save marriage from us. Find like, okay,

02:29

that ain't gonna happen.

02:31

forced marriages, you know, boy, are we going back in time what I don't know.

02:37

forced marriage. shotgun wedding comes to mind. I don't know. I

02:43

mean, like the villagers are going to introduce people and say you to get married. Yeah, it's like the old days, but it for sure. But I want to listen into your discussion. I, I hope to have a couple of prisoners come on my show here in the coming weeks after the pledge drive. I'm going to bring on this one gentleman. I'm sorry, I don't have his name in front of me. But he holds the record for the longest time in prison for a nonviolent drug offense. Oh, man, 2021 years and counting. And the reason being when he was sentenced, it was for life with no possibility of parole, because he had several 100 pounds of marijuana out and you know, that doesn't is like

03:29

retroactive Hill, they need to update laws on that stuff, you know, or

03:33

find these people that are in the system with that scenario. It's just so outrageous an

03:39

individual when I was in County got boot camp, and what was he got off on probation, deferred you to vacation, he had an entire car full of weed, and cocaine well, and

03:51

then again, we have my friend who's who's been reporting on this for 20, drug war news every third Thursday. As it turns out, he was caught with an eight ball of cocaine back a year ago, went to trial probation, got caught with a millionth of a gram of THC in his system. And he had smoked a joint and, you know, a few weeks before the test. He's had it for three years now. He's had it for three years, they it's a done deal. He's on his way. And yet, you know, we're running low on money. But for that same amount of money, we could send the man to UT. And we could, we could house his family who's fixing to starve to death.

04:34

And if you really, if you look at it, not only the fact that it's cutting out in these people's lives and the things that they could be doing to help society, you also have to look at how much it costs to house and feed and all of that stuff that one prisoner for a year could you know, take somebody off the streets and get them a better life or there's a million other things that we could be using that money for but instead, we're paying somebody to lay around all day and do nothing.

05:04

And someone. Yeah, someone's in the garden and they'll watch a TV set. And yeah. And as you integrate them whatever

05:13

possible, I sat around watched cable.

05:16

Yeah, yeah, people in prison probably have a better TV reception than I do. Yeah. And I'm free and walking around in society, it almost makes me want to go commit a crime just right away, I don't have to work. I don't have to pay rent, I don't have to worry about my three meals a day.

You have to work when you're in there. But but it's still if you don't work, you don't have to worry about losing your apartment. And you get cable,

♂ 05:39

or you can somebody can lace you up, and then what's called giving you the information and you can get on some kind of restriction to where you don't have to work.

♂ 05:47

So it's just It amazes me that this country spends that much money in a year to house somebody for doing drugs.

♂ 05:58

I think the outset drug war faction determined that something like 1.3 million people that basically benefit directly from the drug war, and that includes, you know, guards DBAs. The police, the, you know, the, it just goes on down the line, the judges that you know, that wouldn't be necessary, were it not for this drug war, because it represents 50% of criminal justice in America. So, at a minimum, because of that other 50% Many people are there because of drugs as well and plead out to lesser charges on other things. Yep. But it all hinges on the drug war. That all hinges on the fact that we have criminalized all these people who can no longer get a job. Because of the

♂ 06:42

well, yeah, if you when you get out of prison, how are you going to get a job when you have ex con on your record? Yes, it's

♂ 06:48

very hard to do that. And

♂ 06:49

then you can't you can't get the credit rating. You know, you're, you're staring me in any direction you want to go. And yet, you're supposedly I paid your dues. Those dues are forever,

♂ 07:01

as it's gonna be on your record for the rest of your life that you know, you went to prison for smoking pot. Yeah, I mean, it is. It's ridiculous.

07:10

That's when though Mr. K was busted for cocaine. He went to prison for having smoked to join a few weeks before the test. You know, and anyway, I don't want to impinge on the show. I, I'm really enjoying your all's conversation, and I appreciate the chance to be a part of it.

07:29

Hey, Dean. Well, we're going to take a break for a moment, put some music in your ear. And then we'll be back with Jimmy and Devin and their discussion. And you're listening to after hours on KPFT career radio without a dude in Houston 90.1, something like that. I should still be engineering training instead of assistant engineer. Here's some Music Aid y'all enjoy and we'll be back in a few November your diary?

Jimmy Carper 08:13

Oh, yeah. Now, I'd love to tell you the name of that song. But let's see, because Devin just handed it to me. It's a full 65 Euro pop. And there's no song title on there. But he liked it because it was talking about being different. And since he is on the phone, talking with someone who's very interested in what he had to say earlier. And before that, we had Aaron Carl from his CD on the closeted, called the coming out story. It's very nice CD, actually. gay man doing kind of r&b and rap and stuff like that, Devin. Yes, that's I just played your song. Oh, thank you. And that was? Eiffel. Eiffel. 65 Yes. You know the name of the song. It's called Bubbles, bubbles. And it's talking about being different. Yes. It's

09:11

living in a world. That's fake. Yeah. And you come back to reality. Reality you are and let everybody know, it's

Jimmy Carper 09:19

I hate reality. Reality Bites, you know, but the reality of it is, we need for some more people to call in. Yes. For this membership drives that 713-526-5738 We've had two very, very nice pledges from El Campo and Dallas and Galveston. It's like Where the hell is Houston? What's going on here in Columbus, where are you? And I've also had a request to do some more of the the bluegrass music and I'm gonna be doing that next. Okay, because that's a dedication to JD Doyle. Oh, yes, he he's gonna probably listen to it on tape or he'll, he'll go to the to the website kpft.org. Go to the archives and pull the show up and listen to it as anybody can. And he's gonna get a big surprise.

10:16

Yes. I was gonna say I had a question that I was wanting to answer. There's individuals I was

gonna say about in prison, there's individuals in there that do sexual things. And a lot of times from what I was laced up with before I even left county is it is more jail lingo laced up with Yes, it's more or less somebody told you something that kept you out of getting in what they call a wreck. wreck. Yes, getting in trouble. Okay. And it was one thing is that a lot of people in there, they won't, okay, nowadays, they don't just grab you and say you're gonna give us booty.

Okay. They try to talk you into it. Like, they'll tell you oh, just let me get off on looking at your butt. And the next thing you know they're in it. Yes. And a lot of times, like, another thing is a lot of the guys do like to receive, you know, oral, oral sex. And sometimes you'll go into one of the sales with an individual that you've agreed to do sexual interaction with and they'll bend over and wants you to perform for them. Oh, and that happens a lot. You know, they're in the closet as far as that and they they're like, Look, I'll drop some comments that are just don't say nothing. Oh, you know, it's a code you don't Yeah, it's if you tell on somebody else is called snitching.

 Jimmy Carper 11:41

Nobody likes to snitch no in or out of jail. Especially

 11:45

not in if you're found as a snitch. You're directly blackballed. And everybody will treat you like crud and more or less, you'll get beat up quite a bit. Because they'll think you're gonna snitch on what they're doing. And but yes, they do. Like a lot of people like that actually. Is basically oral sex, because it's the quickest, easiest way without getting in trouble by somebody going, Oh, well, I'm gonna get this dude in trouble. So I'm gonna let him do me and then go run get a break.

 Jimmy Carper 12:16

Kit. Oh, I say avoid

 12:19

that. A lot of them just read, you know, they refer prefer to receive oral sex. And I prefer to give it

 Jimmy Carper 12:28

no, no, no, I'm not going. No. No. Oh, okay. I know. I did not know that. Yes. Yeah, a lot of the guys who write to us seldom talk about sexual goings on. Yeah. And I think probably for the reason that they never know. Who's going to be reading that letter. Because it's censored. Yeah. The mail was censored. Yes.

 12:53

They they scan it before it leaves. Yeah. Any code words, anything that sure is a code or whatever. I got questioned, I was learning how to read hieroglyphs. And I was sending messages in hieroglyphs, you know, just things doodles. Yeah. And I got called on it. And they called me to the office and said, What is this say? And I showed him the book I had and everything else. And I was like, this is exactly what it says. It just says Osiris or ISIS or whatever. And I was just, I'm just putting on there. Like don't ever put it on another letter again. And they trashed that letter. Wow, I had to redo it. Because there was no way to prove that it was actually that it was said that because they didn't want to take the time to actually read it. And try to decipher it.

 Jimmy Carper 13:40

I know the frustration there because I'm used to sending greeting cards. The guys.

 13:45

Yes. You can't see any that make noise. None that have batteries, none that have double plied. None of that

 Jimmy Carper 13:51

like that. Well, in County, the county does not accept greeting cards at all. Oh, yeah. But TDC does. I've found that out the hard way. And a

 14:00

lot of them make money off that too. I've seen guys take those green cards and put them out into like, showpiece things and sell them for people to send back to other people in the world. And this was called the free world. Hey,

 Jimmy Carper 14:13

that's fine. That's, you know, if a guy can make some bucks off of a greeting card, I send more power to him. Yes, because I have a wonderful collection of artwork. Oh, yeah, these guys got

 14:28

some interesting ones I was gonna send to a couple of friends I know. So that way they can make some money off so

 Jimmy Carper 14:33

drake I know a lot of the artwork looks similar. So are there any who who do a lot of artwork

uuue. I know a lot of the artwork looks similar. So are there guys who who do a lot of artwork and sell it to other guys. So I may be getting artwork that some guy had to pay for? Oh, yeah.

14:49

Oh, yeah. Yeah, they usually do that if they don't know how to do it themselves. Pay for it to get done. Yeah,

J Jimmy Carper 14:53

that's beautiful stuff. In fact, at the Gulf Coast archives and museum of gay Lesbian, Bisexual and Transgender history Inc. Right now we have an exhibit on different types of art in the community over the years and we've got a special section on prison art. Yeah, it's, we've got envelopes, we've got letters, we've got pictures, paper with the whole picture on it. We've got hankies, a hanky with artwork,

15:24

that they'll lose those if they're caught with them. Those are illegal for them. Really? Yeah, they're not supposed to be drawn on those. Those are hankies not to be drawn on. We're not contraband, contraband,

J Jimmy Carper 15:36

trouble for it, man. Cuz I've got a whole collection at home you keep on those are those that I know, they're all of this artwork that I have will eventually be going to the museum, because I feel that it is very real artwork, and it should be there. It's all handmade because Yeah, cuz it's, it's a certain type when you, when you see this artwork, you know where it came from? For some reason, it's a certain style.

16:02

There's a lot of very creative individuals. Yeah, they'll create something, they'll put it out on the run. And somebody will buy it in a run is basically the commentary in front of all the sales and such. They call it a run and are wrong. It depends on Yeah, who says it. And they'll also put them up in the windows and such, they'll sell them to other pods. Gotcha. And basically, they see him now they're like, hey, I want that deal. They'll send word over to the SSI or who won the crossover doors, that they want that artwork and they'll sell it for some stamps is the biggest thing. That is the that is the stamps. Yes, it's the most easiest to move. cash value there is, is stamps. And that's why they won't let you send them into prison

J Jimmy Carper 16:48

to guys get a stamp of allotment? Or do they have to buy all their stamps themselves?

16:53

Well, they say that you can only buy them but you can only buy a certain amount I think is two books at a time.

J Jimmy Carper 17:02

Because they figure if you're buying more than that you're either selling them, or you're playing

17:07

Yeah, yeah. And usually what we do is we trade them off. That's how I got rid of what I had to trade me stamps. And I'd use stamps, go buy other things. Sure. And you got to understand critical border system. Yeah. And whenever you're buying something from somebody, you're going over what you're getting. So you can get something for 50 cents, and you're gonna pay them two stamps, which is going to equal more than 50. Sure, it's like 60 something. Yeah. You're gonna pay more 72. Actually, yeah. And you have to add another stamp if they say it's 75. Because you're they're going to get their full money out of the LS because they are the ones that held on to the contraband

J Jimmy Carper 17:46

and sue the ones that took the risk

17:49

yes, you're gonna pay over because they took the risk of getting it for you. And a lot of stuff gets done.

J Jimmy Carper 17:56

Oh, I bet we get some letters next week. No, but this is this is this is really interesting and and out of all the years that I've read the letters I don't have this information. Yes,

18:11

I'm glad I can be the reporter on assignment. Yeah. And when in return but yes, earlier there were talking about that it's not right that they send people to prison for like, short times, and it's wasting money. Most of the time I was there I either slept or I played riffs which is a riffs it's a role playing game that's all I did slept played risk was slept work played. When

J

Jimmy Carper 18:40

did you ever get into trouble or have some guys trying to lean on you or anything when I

♂

18:44

first got there? Everybody ran game, trying to find out if I would give a booty to somebody. Oh, okay. And then you found out you didn't? Yeah, I found out I didn't know I was laced up by somebody in there to get a clipper shaped pass and how to get it. Wait a minute. You were laced up? Yeah, it means I was told what to do. Oh, that's right. You told me that told what to do to get a clipper shape pass and what that basically does grows hair on my face and they don't like that. The other guys like individuals with

J

Jimmy Carper 19:13

smooth faces. Oh, so hair on your face and they avoid you? Yes. Yeah, yeah.

♂

19:20

And I'm not clean shaven. So they don't like that.

J

Jimmy Carper 19:23

Okay, interesting. Oh, hey, we have a nother pledge of support on for after hours queer radio with additude on KPFT Houston, 90.1 FM and 89.5 in Galveston. This is from a man who never fails every membership drive to to give us a donation every single membership drive, and he has no idea how much I appreciate that.

♂

19:57

Thank you very much. Yes.

♂

19:58

Thank you. Thank you.

♂

20:00

Thank you very much appreciate Thank you, Paul.

♂

20:10

40.10

I'm back. Oh, yeah. Oh, yeah. Yes. At least we know we're doing something right now that is yeah, we're the folks that are here and she I know Yeah, I know. Galveston. El Campo Yeah. Place further on down south. Yeah.

J

Jimmy Carper 20:30

Where's Houston? It no really gaps in El Campo and let's see another place close to Galveston.

♂

20:38

Hopefully. Yeah, drunk already in Salvan.

♂

20:40

Yeah, where are these folks? But I'm trying to

♂

20:44

my neck of the woods is that riches,

J

Jimmy Carper 20:46

riches, and we're waiting for Michael Nicole in a Michael Come on. Oh, I think he probably got mobbed.

♂

20:54

Everybody fighting for the phone.

J

Jimmy Carper 20:56

That means you got to sell so that's that stripper got a hold of him. Yeah, that may be helping him. Is it packed over there? Full.

♂

21:05

Riches is jammed. I'm going over to South Beach because they've got an after. And then grasshopper with small boys at 330. Wow. Wow. Sounds like wow.

J Jimmy Carper 21:18

Now grasshopper. That's a bar in downtown. Oh, okay. Prairie in Maine. Okay. Because they've got they've got some special after hours. party going? Yes. If you can get there. Yeah. 330. Some of the people retired. Amateurs? Yeah. Yeah. dressed up for tomorrow.

21:40

Well, the game don't start around three, maybe six o'clock.

J Jimmy Carper 21:45

So, yeah, I didn't know.

21:46

I didn't even know.

21:48

The bar party started about six 630. Special fiends put on a special fee. Okay. Yeah. The old feedback. Yeah. Yeah. Well, I can I can tell there's

J Jimmy Carper 22:06

been the kid is close to our goal, I think. Oh, yeah.

22:10

We make it?

J Jimmy Carper 22:11

Yeah, let's go over. That's right. And that number to call Houston. 713-526-5738. That's right. We've got operators sitting by. They are bored. Yeah, yes. Oh, they're never bored.

22:28

Bored. Bored stiff.

J Jimmy Carper 22:32

Because at three o'clock, we've got the roundtable coming up. That should be interesting. But I wanted to talk more to dev and that we've got the time to do it. So, you know, I feel like yeah, let's get into this. But let's go to some music first. All right. I want to play that dedication to JD JD Doyle. Oh, yes. It's by the Bluegrass folks that sent me this CD called tooth and nail the name of the group is camp town shakers. This CD is in the library. So when you listen to that bluegrass show on Sunday, you can ask them to play a cut or two off here. But this is for JD and he probably is the only one who's going to understand this. And that makes it all the more fun. The name of the tune is if you only got a mustache, and you're listening to it on after hours queer radio with additude KPFT Houston Oh, yes. Camptown shakers. Little gay bluegrass there with if you only got a mustache and Michael is on the air. Where the hell have you been boy, man I've been given what? He's gone. You've been cut off. That's what's Oh, boy. Oh, man. Yeah, he better. Okay. Okay, yes. All back. Yes. Well, he's you can hear us. That was my fault. What did you do? You killed him? Oh, my God. I'm number one chocolate. Cake number one.

24:23

Well, we can't pick and choose which ones we have. Number one. We're supposed to do something. Now he's gone. He's gone. We call him back.

24:31

He'll have to call back. Well, what did you do? I switched the phones back to do the pledges and I forgot that he was on the air.

J Jimmy Carper 24:37

Okay, well, please switch up phone back. Okay, okay.

24:42

So he needs to call back in and we'll screen him through.

J Jimmy Carper 24:45

Okay. We'll just leave it open. There. We get one. I guess he asked. Well, hey, this is community radio folks. You just never know. We are not professionals. We come in here once a week and do this. So it's Sometimes our engineering skills get rusty. Sometimes they don't. Sometimes they're non existent. That's what you get for a bunch of amateurs. Yeah, no,

25:12

we don't have MIT in here.

J

Jimmy Carper 25:14

For what we pay these guys, you can't expect much more. Anything. That's right. We don't pay these guys anything. I mean, I

♂

25:22

will pay you double what we normally pay you if

J

Jimmy Carper 25:27

everyone in the building right now is a volunteer. Yes. And this station has 12 paid staff and over 200 volunteer. That's what brings you the radio give our times we can't give our meds right. If if we couldn't afford to pay everybody, you know, we're it's \$140 an hour now. Can you imagine what it would be if we paid 200 more people? Our time to the radio station? Is our money. Yeah. You know what I'm saying?

♂

25:59

We come in to try it. That's right. Programming.

J

Jimmy Carper 26:02

Yeah, we do we do we really do. So while remain waiting for Michael. What I was saying. Oh, I don't know what's on my mind. I know what's on your mind. Did you have more to add about your experiences?

♂

26:22

Well, one thing I was gonna say is when I was out here in the free world, it was called out here like I was saying I thought that if you basically were from prison, you're a very horrible person. And that they put you there for a reason. Yeah, no. And usually your views change whenever their stuff happens to you.

J

Jimmy Carper 26:44

And it did. Michael just called back. Oh, good.

♂

26:47

I went in. Oh, fish real quick.

J

Jimmy Carper 26:49

I went okay, we're gonna we're gonna continue this because I like this thread.

∅

26:55

Err. And,

J

Jimmy Carper 26:56

and Michael was there my go? Hey, what's up, Michael? I'm so sorry. That was a glitch on this end.

M

Michael Williams 27:04

On the broadcast, like I was, I went on for 20 down.

J

Jimmy Carper 27:10

Then all of a sudden, nobody was talking.

M

Michael Williams 27:14

I got the call. How'd you come to Richard?

∅

27:18

This is really an outstanding night tonight. Traffic wasn't bad. So I love it. And

M

Michael Williams 27:26

regular Is there anything different than I did watch? That would have been last Friday night?  
Music Music

∅

27:34

Okay, I had nothing to do with that. I wasn't here. What's going on? I don't know. But I'm going to go beat the person who did it might call back

J Jimmy Carper 27:48

a second time in a row. Well, okay, so you're talking about the guys in there that really you know, I've been reading letters over the years from these guys and you know, I get to know them as people and yeah, I feel the same way you do. I thought

∅ 28:08

they were horrible people and then whenever I went in there and I actually got to meet some of the people that really really good people it's just bad things happen.

J Jimmy Carper 28:17

And now there are gotten a lot of guys in there they've done really bad thing. Yes, sir.

∅ 28:21

We don't really really bad yeah. And there's then there's those that were not exactly set up but got pulled into a situation that they really just did not want to, you know, mess up their standing or whatever, and they just ignored it and thought they would leave them alone. You know, ignore it. It has nothing to do with me. It does. You know, you see something happen and has something to do with you. I would say man, I would do whatever I could to stay out

J Jimmy Carper 28:54

and it's no picnic.

∅ 28:56

No it's not good at all. It's a very bad experience and you do that line

J Jimmy Carper 29:01

one again. Here we go again.

∅ 29:05

A Michael is that you

∅ 29:08

know, cuz that thing on Michael? Yes.

J

Jimmy Carper 29:13

Michael I don't know what's going on tonight.

M

Michael Williams 29:15

I think you're ignoring me that

o

29:18

we're not ignore No, no.

M

Michael Williams 29:22

I had to use somebody else's guy that I'm interviewing his name's Cole. I've done this interview three times. Okay, how many times do you come to racism? Is that come out maybe once a month? And is there anything different than I then what you would have been if he came like Friday night of last week? Yeah, music really good. I've never been interviewed here before. That's something different. But other than that, I mean, the experience is very good. Nice. Traffic wasn't too bad and I'm having outstanding time. Let me tell you all the riches this pack there was a line getting in the door out there. And I look over the balcony out there and I see that their bodies hot body

J

M

Michael Williams 33:29

I don't want to take any of the credit because I have about five regular guys and girls that helped me throughout the week to set this up. So it's not just me. There's a lot of behind the scenes that goes on here. But it's the clumps about the venue's they want us to come out. So a big thanks to them also. And thank you KPFT. Let's raise a lot of money. Let's meet our goal. That's

M Michael Williams 33:55  
Bye bye.

J Jimmy Carper 33:57  
He is having too much fun over there at Rich's 2401 San Jacinto, and you guys that go to club bass should know where that is. Club bass is just one block away. 2400 fan and 300 fan and I think it is something like that. In the neighborhood. That's right. That's right. And the

♂ 34:18  
shameless Verizon plug was when he said can you hear me now?

J Jimmy Carper 34:26  
That's terrible. But he's getting a pledge. Yeah, that's good. That's That's very cool. Yes, we'll both have that start out next week's membership drive with so that'll be nice. Yeah, yes. Very nice.

♂ 34:41  
And speaking of that, all of y'all out there and listening to us and want to keep us on the air you need to kill land and give us our pledges. keep us busy here at 713-526-5738 or 713. JM Kpf teams

J Jimmy Carper 34:54

♂ 35:04  
I'm in and out of there.

J Jimmy Carper 35:05

 Jimmy Carper 35:00

That's right. So we can take more than one call at a time. I'd love to be able to have all seven phones ring at Whoa, yes, that would be so incredibly cool.

 35:16

If you just call in and say you like the radio station? Yes.

 35:21

And we do accept any pledge, no matter how small or large you just call us and give us your pledge? That's right. You're a first time caller.

 35:30

If you find a quarter of the couch, just send it

 Jimmy Carper 35:33

if you find \$500 under the couch, send it all. Or we'll tell. Well, okay, we were on the thread. thread of what before Michael called in with Devin?

 35:53

Oh, yes. I'm trying to find my place in my mind here. It's a wonderful place.

 Jimmy Carper 36:00

Oh, and it was really good, too. And

 36:04

oh, yes. Well, yes. Well, I was

 Jimmy Carper 36:07

I believed it. Oh, about the guys who were in there were

 36:11

just really horrible. If you actually get to know them, they're really good. Do you you do have

some of them that like I was saying do run game and try to play around which you can just get money out of it. But some of them are really, really good people. Like the group I hung around with, which was a little group of individuals was really nice. I had a bunch of nice people and what I was talking about before as far as a sexual thing I was trying to finish Yeah, and something else. Yes, my, I was gonna say I got CMB 56. And all of a sudden I gotta move slip, which is means you're going to a different section. And I got moved to another cell with an individual that has been sending you know, foods, soups, all kinds of stuff over there to me. Oh, me moved into a sell by by paying for it. He was in sell sugar daddy. Oh, and soon as I showed up, the first thing he asked was, how much do I like to have? You know, my privates? You know, so really? Yeah. handled.

 Jimmy Carper 37:23

You can say, you can say that. Oh, how well do you want your dick suck? Okay, okay.

 37:28

I say that. Okay. But yes, he basically asked me how much I wanted to have. My dick sucked. And I was like, well, as often as much as you want.

 Jimmy Carper 37:40

Oh, I see. You're on this too.

 37:43

And the towel went up and the interesting things begin to happen. Yes, I did have intercourse. Okay. Not exactly. Full intercourse. But oral Annie, who's a pretty good individual.

 Jimmy Carper 37:59

He was good at his craft.

 38:00

Yes. And

 Jimmy Carper 38:03

maybe no need to write him and get lessons.

38:09

But yes, he was pretty good at what he did. And

38:13

yeah, but I'm still better. I

38:16

want to continue and

J Jimmy Carper 38:20

this is before you okay.

38:23

It was in between. Okay. In between.

38:26

leaving and coming back? Yeah. See you. But, yes. When you're trapped in there, you know,

J Jimmy Carper 38:31

Jason was a decent guy. Oh, yeah.

38:34

Hey, I showed up from work. Oh, he's here for some.

J Jimmy Carper 38:37

There we go. Good room.

38:40

Well, yeah, so I'm coming from work. And he was very understanding I worked nights, actually breakfast, which was 12 o'clock at night until like, four in the morning? No, I'm sorry. It's like 12 to like, eight somewhere around there. But I would go I would come from work and he would

have like, food ready? And I'm like, Oh, cool. Wow. And if you're doing sexual relations with somebody in there, they everybody knows that. Well, in population. No, you're basically going in there to study the Bible with quotation marks. So okay, yeah, you're in there to study the Bible or to study something else. And or to get a tattoo done or to talk business. But you know, it kind of tells you got a towel up over the vents saying you know, that looks out during the day room, you're doing something in there. And it's not tattoos. But a lot of times they would we would be doing things like that they had a lot of different things going on. Inside of a inside of a regular pod, which is the area with all the things I my unit had three runs. It was a 1500 unit, which means three

 J Jimmy Carper 39:52

unit three legs, three legs stories, yeah,

 39:55

three levels at a shower and each level. You know only the Queens use the first level shower that opened up into the day room. And, you know, if you were taking a shower and looking at the end of the day room somebody coming get on you because they thought you maybe you're trying to get off on looking at him. Oh, you know, a lot of homophobic individuals, but they do homosexual activities all the time. Sure. But yeah, well it was it was a very strange from from this world out here it's very different. Like I was saying all the different points. Yeah. But yeah, I moved into a cell with them and I had all kinds of stuff. I had free things and everything else and all he wanted was oral sex. They wanted to give me oral sex. That's what he loved. And how long

 J Jimmy Carper 40:43

did this situation last?

 40:44

For the last five months I was there. He he saw me about two months after I got there. But he didn't know where I was or anything else. So he couldn't get a hold of me. He's he was tricky. See, that's what that's what he told me. He was trying to get a hold of me try to get me over there. And if you're doing stuff with somebody and hanging with them a lot. Yeah. You're considered what was called married. You're married to

 J Jimmy Carper 41:11

them. Okay, so this mean that people don't mess with you? Yeah.

 41:15

If you talk to somebody that's married, that's a punk you talk to a punk that's married to a guy. Then the that guy is gonna come after you. Oh, I say ask you why the hell are you talking to? A woman? Yeah, my, my home? Yeah, is what they call me. Okay. And they call them different things, hold opponents. But he'll ask you why you're talking to him. And like, like, I had a misunderstanding. It was an individual that just arrived there. And I was being nice to him, you know, helping them out. So because I was like, ma'am, you know, I felt messed up. This is first time the guy was down. And I was helping him out. And this other guy was fishing for him. So and the other guy basically caught me in the shower. When I asked in the shower, I was heading towards the shower. And he said, say man, either you stopped talking to him you grab your guns wouldn't go out to the Brickyard. Oh, and what that means is get my fist and go out there. Yeah. And I was like, Hey, man, I'm trying to get up on your Kool Aid, you know? And that's, that's Gotcha. That's what it mean. Yeah, I'm trying to get up on your Kool Aid and trying to get up on what's yours. And he was like, Oh, well, you better not, you know, I'll take you out to the do rec yard and talking about your mess, you know? And I told him, I said, Look, man, I'm just trying to be friends with the dude, I'm not trying to get up on your Kool Aid. I tried to do nothing, you know. And it went on for a while. And then finally, he did come to terms after, you know, they did get together and get married. Yeah, that I was just a friend. And all I wanted to do was talk, you know, could

J Jimmy Carper 42:46

you talk to the guy after they were married? Yes.

♀ 42:49

That's because I talked to him before it. Okay. That's the only reason Oh, and he and I talked to him to real, like, political, you had to play it just right. Are you going to be in some trouble? Yeah. And there was a lot of different things happening. And I don't know if they can hear me out there. But Hi, US unit and give them a little wave? You bet.

J Jimmy Carper 43:12

You bet. Any of these guys. And I bet they're getting a kick out of what they're hearing tonight. Yeah, because we're educating the world. What really goes on to do and how good and how bad and by all means, do everything in your power to not go in?

♀ 43:32

Yes, I'm trying to help people out. You know, it's, it's bad in there. But it's really not as bad as you're trying to persuade, you know, persuade you as well, you know, that's just a big cover to make you scared going in. But you know, I can say that vaguely because I know a lot of the people in population say oh, you say keeping you know, and yeah, I was but you know, I was still in in a round population. Even though I save keeping and yeah,

J Jimmy Carper 44:00

yeah, that's that's probably very different to

44:03

Yeah, I know. It's a different kind of population because they're more you know, if you're in safekeeping, you're automatically gay, you automatically are bottom punk is what they all think. All the people in population, you know, there's tops that go in there for different reasons. There's other people going there for different reasons. You know, it's not all gay inside that inside safekeeping. And I found that out when I chased that individual. I thought it was pretty sexy. Oh, you came at me? I'm straight. Oh, really? More straight to myself. And I found out then, you know, after him trying to threaten me that it didn't work that way that not everybody knew I was gay just because I said I was. And another thing is if you say you're gay, they think your automatic bottom Yeah, and your opponent, but

J Jimmy Carper 44:53

because the top can insert in any hole he wants and he's still straight. Yeah, and There is that's the way it's running. Well, you know, it's that way in a lot of other countries, too. That's very prevalent in South America. It was prevalent here in the early 20th century. Things have changed for us. It just hasn't changed for other people.

45:18

Yes. Yeah. It's but prison is a different world. It's not is what they try to say, in Africa and all this other places, you know, it's not the same.

J Jimmy Carper 45:30

But I guess in general population, you do have the gang problem? Yes. From what

45:34

I understand. From what I've seen of it, I only spent like a week in it before they figured out that I was, I was a commissioned security officer. Somebody alerted it to him. One of the other inmates, you're like, hey, somebody knows this dude from the free world, you know, and they pulled me immediately went tag segue. Because, you know, I might have been in danger. Oh, and then the word got out and they shipped me off the unit and continued my processing. And but yeah, they they pulled me out because of that. And then whenever they asked you homosexual, I said, Yeah, and they kept me out because of that, too. Because if you're prominent and you say that you are then they're going to give you safekeeping. Basically, if you ask for it, you know, I'm lacing everybody else up if you're going in and you want to go to safekeeping. They have a lot of bottoms there because they're all looking for the top

J Jimmy Carper 46:26

oh my god sounds just like the free world. Yes.

46:30

And just tell them I'm homosexual and but it's still not a place you want to go. No, you don't even say keepings not not that that way and they know because you have less privileges. Yes, you're actually kept away from other people. Your your REC is a lot different. I used to complain because I never got to complexion and there are requisite nighttime, which was after dark. We never were let out during the daytime to go to wreck because people were passing by oh and everything else and they can see who's all in safekeeping. Even though we had a armband on it said where we were. Oh well, a red armband, which actually looked almost like the orange ones that they hand out to the bearer to the barracks outside the the living area where they all have bunks just right next to each other. Yeah.

47:21

Trustee camp?

47:22

Yes, the trustee camps. They are the ones that lived outside the perimeter. We had the same almost the same exact color bands they did. And I was on medium custody. Or minimum I'm sorry, I was minimum in custody. And biggest thing was be scared to be sent to minimum. Because minimum is you spent most of your time and in the sale. You only went out to work and to do rec for like an hour. And then the rest of the time you are in your cell.

J Jimmy Carper 47:50

Yeah, correct me if I'm wrong, it is my understanding that you originally went to prison because you violated the parole?

47:58

Yeah, while I was on probation, I got deferred gratification. Because what happened was I had a roommate that decided to go in those details. But anyways, there was stuff in my house that wasn't supposed to be there and I got job before it. Okay. And when when you got probation, deferred gratification and boot camp and all that other stuff where it

J Jimmy Carper 48:21

when you're on probation, there's you have to stay within a certain area.

48:26

Yes, I I saw it, you know, I was under the full understanding that as long as you're going to work, it's okay to leave the area. You know, and then you found out differently. Yeah, I did leave the area and I went to work the Texas Renaissance, which I work every year. And they basically came down on me somebody told them and they found me there. And I got in trouble for it and got sent to prison.

48:55

Probation revoked everything you know, guys sent. And I spent a year there and now I'm back.

J Jimmy Carper 49:02

So you guys out there who are on parole or probation. Be very, very careful of what you do where you go and make sure did your parole officer know that you were working to the Renaissance? besom Yes.

49:19

One Oh, no, I'm sorry. I didn't let her know that. I let her know that. I was thinking about going out there to work but I never gave a full thing that I was going okay

J Jimmy Carper 49:29

so you did not have permission or whatever. So I actually it's a technicality but it got you put back for years my fault to go

49:37

in, you know, and then I was led out. I was denied my parole, but I did get my mandatory supervision. And a lot of people in there screaming Oh, mandatory supervision that's full, mandatory. Discretionary and all this other stuff is only discretionary if you get in trouble. While you're in there, they can take it from you. Yes.

J Jimmy Carper 50:00

So are you completely out now or you're on parole or I'm being? Okay. It's none of my business then. Okay. Okay.

50:11

But it's okay to be out and about at night because they know I come here. Okay. I do do things

besides just sit around all day.

J

Jimmy Carper 50:22

But yeah, it's probably like get a job or something.

Ω

50:26

Yeah, I'm out right now. I made my parole. I want to see what it is I was denied my parole, but I was given my mandatory supervision is the time that they have to let you out. Okay, because you've served like most of your sentence, and I only got two years. You know, and that's nothing they're wasting money on people like me and they got two years when Why send them to their anyway? That's right. Why give them a small sentence like that when they're just gonna be out in one year? Or like

J

Jimmy Carper 50:52

Dean was saying, you know, for possession of marijuana, why are you even going to jail for that? Yeah, you know, that's, that's pretty ridiculous. I've

Ω

51:00

seen people with a lot worse charges walking around on deferred gratification see? And it's not right. No doing it. No, it isn't. It was wasting our money. I have to the entire time I was in there. I was like, Y'all are wasting my money. In your mind, you're at work. And I'm like, Yeah, but I was working before I came here. Yep. You're wasting on people like me. That could be sitting in County for a couple of months and released back on parole, violation their probation and be paying for what I'm doing. Yeah. Yeah. No. Why? Why you send them to prison whenever you can put them back out. Until look, this is a slap on the hand, you better start acting right.

J

Jimmy Carper 51:38

And it doesn't make sense for for something like that. To go to prison. When I think of prison, I think of you know, you've really done something bad. Yeah. And you know, that's why you should be going there. But, like Dean was saying, you know, possession of a very small quantity of marijuana can get you put away? Oh, yeah. And it depends on your color. Yes, that's enough. And we go there. If you are a black man, and you have a half an ounce of marijuana, you're gonna get probably, statistically, a much longer sentence than if you were a white man with a half and half an ounce of marijuana.

Ω

52:18

I wish I still had the paper I used. I was trying to bring it back. And I lost it. I had a paper with a lot of sisters from TDC. From their paper, they issue in behind bars to the inmates, they give

them out. Oh, and they have a Dear Abby section and yes, other stuff. Is that the echo? Yes. The Echo. And I wish I had it, it has statistics on it. They said most of the population in prison is of a an African descent, you know, and the next is Hispanic. And then there's then there's white, and then there's oriental after that.

J Jimmy Carper 52:58

It's all about how much money you can spend on the lawyer.

∅ 53:03

How much money you got. Yeah, because I had this I had a state at State. He's you know, appointed and look where I got on a BS charge that

J Jimmy Carper 53:14

yeah, I somebody else so would have never even seen a jail for at any time.

∅ 53:21

Yes. Yeah. For just having stuff in my apartment. I get sent. If I would have had a judge. I mean, a good lawyer I wouldn't ever want.

J Jimmy Carper 53:30

That sucks the big one. But I had no money, or I couldn't get into Yes. Oh, anyway, let's get back to some music. This is the fifth sadder day. And it is a music night normally, but this has been fascinating. On and off. We've been talking for about an hour. Oh, yes. Right. Yeah, I've been interrupted. And yeah, I mean, I don't get an opportunity to interview anybody who's now on the outside. Because most of the guys just don't even want to talk about it. They want to put it behind them and get on with their lives.

∅ 54:01

But I feel if you talk about it, it gets rid of a lot of things. Yes, yeah.

J Jimmy Carper 54:04

Yes, it does. And I'm glad you took that route with me. Thank you. But before we go to some music, minor Monday, please call and pledge. That way your tired ass up out there. 713526573 Yeah, this is our membership drive, and we're looking for your pledge of support. Gives me for after hours. We've had several pledges, none of which are from Houston are all from outside

cities where you're at he's in the Houston area but not inside the Houston city limits. And yeah, I know everybody's got Super Bowl fever, but a lot a lot of people don't and they're out there listening to us. They're probably just a have just they're probably overwhelmed by this last interview that they just heard. Devon talking about his experience in. Where was it?

55:11

Yeah, huge unit and his unit gatesville. Texas gatesville.

J Jimmy Carper 55:15

Where is gatesville? It's right

55:16

up there between Dallas and Austin. Oh, it's like mid range. We got our news and everything from Dallas. Okay, it's

J Jimmy Carper 55:25

that's maybe why Plano, Texas, it's hard to get us. And if they've got the cable going, yeah, they probably don't get us at all.

55:35

To stand up there. There's hand one up there in the air.

J Jimmy Carper 55:37

That's right. That's right. That's right.

55:40

And I hope some of them are reaching, you know, maybe I should receive a letter from one of them.

J Jimmy Carper 55:45

That would be great. That would be great. They can anybody can write to us. And after hours, at Kpf T, the address is 419. Love it Boulevard, L O V E T T, love T T. Boulevard, his den 7706. And not just a zip code a lifestyle.

56:13

We might want to say to the beginning a little bit later for some of those that didn't have a pen ready or whatever. That's right.

J Jimmy Carper 56:17

That's right. That's right. Where were we we were talking about money and how much we need it. And we want it from you, we want you to be part listener, member of KPFT, not just a listener, I want you to be one of those one add of 17 people who actually become listener supported as supporters of this station. And it's very important to let management know that this show is appreciated. And people out there are willing to put their money where their ear is. And remember, KPFT is the radio that listens to you. And when you become a listener member, you also get to be a listener voter. And that means that you can take part in the democratic process that is starting here. Right now. In the Pacifica stations, all five of them New York, Washington, DC arch lyrically, and, and LA. So

57:23

for 35 bucks, we'll

J Jimmy Carper 57:25

get you started. That's right. Yeah, that's right, basic members. And that means that next year, when they have the elections, again, for the people on the local station, Local Station Board, that really kind of oversees the station, and tries to set the trend for where the station is going, there's going to be, let's see, see it see eight and 1826 of these people 18 will be elected by listener supporters, and eight will be elected by the programmers here. And the people that are those eight will be other programmers, there will be the programming representatives so that they can kind of give their views I mean, they've sat behind the microphone, they've done their programming. They know what what's important and what goes over and what doesn't. And so the programmers are electing eight of those. And but the listeners are electing 18 The majority so you'll be able to do that next year. Oh, good. So become a listener sponsor today. Yes. 7135 To 65738 Don't wait, donate today. There you go. It's, we're partying. We're partying for your pledges. The guys from acid jazz show had that go and because you know, they have all that nice dance music going, partying for your pledge. And that's what we want to hear. Now. So for some music because we normally do a lot of music on the fifth Saturday. I've got music from Jay spears from his incredible boy howdy album. And I've got music from Jeff crasner from his maybe album both of these I've played many times before their favorites. You call any any request them so here they are now

59:44

okay, it seems that we're having technical difficulties with that song. So we are going to attempt and play a different one. And so if y'all will just hang on I'll find something else to play We are

on that one. Number four on that one. Sounds like a plan to me. By the way, you're listening to KPFT after hours queer radio with attitude on 90.1 KPFT FM, in Houston and 89.5 in Galveston. And I was waiting as always on the web@www.kp FT dot O R, G, and what number number four number four. And here we go

1:00:45

all right, and we're back now that I managed to get the CD players to cooperate with me. And you what you've been hearing is Jay spears. I'm gonna end in love. I'm gonna I can't read your handwriting Jimmy. To fall in love. I'm gonna fall in love. Yeah, it was like in dummies.

J Jimmy Carper 1:01:06

And then Jeff Krasner 110 in the CHE. And then

1:01:10

we had Bill bud trying here. Super come shot eight with everybody loves a muscle boy, one of my personal favorite. And this one went out to Chris Jeff. Jeff Stryker, pop you in the Uber? Yes. And

J Jimmy Carper 1:01:22

that is Jeff Stryker, the the adult film star. He's coming out with an entire album in the next few months.

1:01:31

I know that should be interesting. Yeah. Especially if it follows the one that he's got now. And yes, ladies and gentlemen, it's that wonderful time. It's the round table. And our our guests for tonight are in our studios waiting patiently. And they would be who? Lan?

1:01:51

Debt. Debbie. Oh, I'm sorry.

1:01:55

them we're not hollering. This is Debbie.

B Bobby 1:02:00

And this is papa Merlin,

1:02:02

as always. And it's so good to see you, Merlin.

1:02:06

Thank you before we begin the

Bobby 1:02:07

recess, because he can't actually see me from this angle is the truth.

1:02:14

Before I start the round table, I just want to let everybody know about a pledge we got finally from Houston. Oh, right. Yes. Diane from Houston. She wants to be a listener, a subscriber. And she donated \$50 in installments. \$50. Yeah.

Bobby 1:02:37

You and I want to just point, folks keeping us alive. Yes, it is.

1:02:42

I just but she said something really interesting. And the reason why we're doing this fun drive. To continue with what we're doing is she said that she really liked the prison show, even though she does not agree with everything she really enjoyed. And that's exactly what this is all about. is enabling people to speak what they feel not being judged for it that they can speak out and just speak what's on their mind. They don't have to always agree and that's what KPFT stands for. One of the things is, it's your station. This is your radio. This is your program. Let's keep it going. Send in your pledges call in we have some great people on the phones they are waiting a lot of sexy voices. Yes. Male and female these

Bobby 1:03:28

you know, we do have faces made for radio. There we go.

1:03:34

Merlin definitely does a watch.

1:03:37

Love Merlin Hey

1:03:38

Chris is out sick this week. So you know I have to take I have to fill his shoes he make fun of everyone.

**B** 1:03:45

You know despite what the FCC says there are a few words I can still say

1:03:52

hey, you know getting me in trouble.

**B** 1:03:56

Why would you do it so well all on your own?

1:03:59

Exactly. I don't need any help. Between the equipment in here and me losing track of what I was doing. I have enough issues. I don't need any more

**B** 1:04:11

about his equipment.

1:04:12

Now you want to hear? Could it be what sitting next to you or who's sitting next to you that might be distracting you?

1:04:18

Oh yeah. I am still a firm believer of making radio. So when he was taking it off

1:04:33

not till we get home.

1:04:34

Now maybe if enough people called in

**Bobby** 1:04:37

all of a sudden

1:04:39

if someone calls in and does that \$500 pledge WE WILL DO NAKED radio.

1:04:43

Absolutely.

**Bobby** 1:04:44

Not that anybody would see us but still

1:04:47

about a 200 hour and you know we have a big window in the studio so you know if you're driving by you can see it but other than that play by play.

**Bobby** 1:04:58

Super Bowl. You No out of towners need to see us without clubs.

1:05:04

And you were saying you wanted them all go home, that'd be a fast way to get them there. All right. Now on to the round table. What do we have? I guess we're going to start or we're going to lead off with the MBBS. Okay, and

-----

 **Bobby** 1:05:23

smiley? Well, I've got a letter from David. And he's just, it's, he's saying an awful lot of stuff about how much we mean to him. And I mean, he covered all of us at the top. This is to Bobby, Chris Roy, Steve was Yachty, all of us would just assume we're all in this letter. He means all of us. And it brings him great joy, to hear us and to, and to know that. And he's talks about how new he is to the whole coming out process. And thank you for the mention here about the, the story that Chris and I did a few weeks ago, the abuse thing, and I mean, he even he didn't ever have enough room. So he's, he's, you know, any place he could find to put stuff he wrote. So yeah, he also wants to he, he still wants to hear from Roy about the Stonewall thing. Somebody still wants to hear from Roy about so

 1:06:41

that's actually history. That's part of our history. Yes. But if lately, if you've been

 1:06:45

at the radio station, for any length of time, you've probably heard his Stonewall story at least five six times. As I start twitching, lovey Roy, if you're listening, but

 **Bobby** 1:07:00

he says I am very much into history, our history. I love that. That's great. You know, keep writing into us. And you know, we're here for you guys to and absolutely be here for you guys for a long time to come.

 1:07:16

As we're celebrating, you're doing okay, celebrating our 16th Your ear on the air. And hopefully we'll do 16 More a 16 and 16 more after that. So as long as people keep calling in those pledges, and we keep getting the money that we need, we will be on the air more money. As I'm starting to sound like a woman Oh

 1:07:39

wish you could in your dreams, my money.

 **Bobby** 1:07:45

And just for Jimmy one page of LIS letter is pink. Pink, your favorite color?

 1:07:56

Pink, hot pink gusta. Ronnie, you

 **Bobby** 1:07:59

couldn't get hot any hotter than right, you could see that from the space show. And there's some rather graphic deep details about hearings and nipples and things in here. I'll let you read those. What about nipple rings?

 1:08:18

We got that last week

 **Bobby** 1:08:19

going there. He also brought us some articles and stuff about late, you know the same sex marriage measure in Ohio. They that they're trying to you know, they're trying to deny us that they're Massachusetts, same. Same idea. Thank you for these clippings from the newspapers. I just I events having to do with our community now when

 1:08:51

it just really that's a subject that is close to my heart. Because, you know, I just don't understand the reasoning behind it. You know, they can't come up with a good reason. If they were to tell me that there's a, you know, a very good reason not to do it. You know, I just don't understand we believe in marriage. Absolutely.

 **Jimmy Carper** 1:09:13

Okay, we have in the studio right now. Various ages and genders. And so I'd like everybody's opinion on same sex marriage.

 1:09:23

Now I think I say go for it. I think pretty much everybody knows my stand. I don't think it should be it. Yeah, and don't get me wrong. I think we should have all the rights that everybody else has. But if we go to the point of forcing them to legalize our marriages, I don't think it would be a good idea. Why not as I just I foresee a lot more problems coming out of it. You might call me a pessimist but it sounds I foresee a lot more problems coming out of it being legalized than there is now how so? Yes. I can just imagine the moment they legalize it, there's going to be hundreds upon hundreds of fags that are going to storm the current county clerk's office for those marriage certificates for people they've known for five minutes. Yeah,

1:10:14

absolutely I do. I, I agree with what you're saying it happened in Canada, they had the judges and the courts open 24 hours to marry these people. But as anything, think about how it is, to be able to do it, and I do, I see your point. And I could see how people can abuse it. But that's the same enhance in any heterosexual, even in the heterosexual community, if you were to deny them the right to do anything, once they give them that, right, they're gonna go for it and stampede and do the same. You know, the same thing. What we're looking for is, though, you know, it's a shame that that would happen, but serious people that have been committed for years, that have children who want to do this, because you know what, let me put it this way. If society would allow us to have the same rights in medical, in the say, of our children, maybe we wouldn't need to do this marriage thing, but to be able for my wife to be able to say, have a say, in what might you know, in my medical treatment, if God forbid, something should happen to me, we have to be married. And that's the sad thing, if she wouldn't didn't have health coverage, I couldn't give it to her because we were not married. And that's where that's coming. Because society puts such a stipulation on that you have to be married. That's why most people want to get married, they get married now, you know, in their own way to form that bond to be with their families, but to legally get married, it's for the health benefits, it's to be able to take care of their families and have, you know what, what they need,

Bobby 1:11:50

when I was, here's a thing, I have seen more people, more loving couples, where one man ends up in the hospital. And because it is not legal for them to be married, they have to go through what is assumed in a straight relationship that the wife or husband will take care of all of the stuff that needs to be dealt with when somebody is terminal. In the hospital, I have watched lovers who have been together for 20 years be denied, the one who's healthy be denied access to the room of the person they have just been 20 years of their life with because the family, which does not have anything to do with them decided, Oh, gee, he's sick time to take care of him. Regardless of the fact that they weren't there for the 20 years of the relationship.

1:12:57

And see, I understand all of that. That's what

Bobby 1:13:00

and I have watched way too many of them die, and have the lovers shut out of the process. In a time when the person who has spent they have spent their life with should be there.

1:13:15

And that's why we want to legalize the marriages, because we want to be able to care for our families like any other person can. And yes, you're going to have like anything. Let's say they go and legalize marijuana. Think about what's going to happen there. Everybody and his brother is going to be smoking. There's going to be

B

Bobby 1:13:34

just such as the 60s Oh, yeah.

♂

1:13:38

Do you know what as illegal is time,

♂

1:13:41

as everything as time goes on, that that newness starts to wear off? Yeah, starts to wear off little by little, little by little. And that's, you know, that's coming. If they would just allow us to live, that's all I want. I want my my wife to be able to have a say I want to be able to provide and make sure that she's taken care of if God forbid, something should happen to me, we have to go through lawyers pay hundreds and hundreds of dollars, just to make sure that she has now if we were married, we wouldn't have that it would have been assumed right away

B

Bobby 1:14:15

at home I have a briefcase full of paperwork that I had to get written up for certain people to take care of that I want so and so and so and so taking care of me and that I do not want my bio, the family I grew up with taking care of me

♂

1:14:33

and you have to make sure you dot those eyes and costumes every last month

B

Bobby 1:14:37

and that is the part that I that I want when it comes to gay marriage. I don't want to have to go through all of that. Because I want it assumed that that man should there be one is my husband and legally responsible for do for taking care of me and

♂

1:14:58

think about adoption. They won't let us adopt. They're not going to let first of all, because I'm a single parent considered a single parent, plus, I have no partner, a male partner to them. It's it's, we're not a stable family. Look what the President said in his State of the Union address that he wants. He thinks that a husband and a wife is what, you know, it constitutes as a marriage, and that children need to have that to be able to grow stable.

♂

1:15:20

1.15.25

I didn't even watch the State of the Union. Oh, yes, idiot opens his mouth and my ears quit working.

B

Bobby 1:15:37

He starts talking and I stopped listening

o

1:15:40

the nerve to say that no child will be left behind. Well, guess what he just left my daughter behind, and my other our other daughter left behind? Because he's telling me now that I have to tell her that you know what, the President doesn't think that in the eyes of God that we are a family

B

Bobby 1:15:56

and as an adopted person, you know, who is someone who grew up in a dot and an adoptive family. I rather have a peeve about the idea that people that just because I happen to be queer as a \$3 bill, I keycard for nine grand.

o

1:16:13

I don't know. And you're and you're entitled to your opinion. And you know, Oh, absolutely. I give you a lot of credit to speak out. Because, you know, people assume that because you're gay. You're going to be pro marriage. And that's another thing.

o

1:16:26

surprised a lot of people because I, every time somebody brings it up, I'm like, No, don't go there with me. Because you don't want to hear the discussion that's going to come after? Absolutely. But this is a thing we're

o

1:16:37

No, no.

B

Bobby 1:16:40

And that's another thing we can bring up in this is just because we all happen to be gay by try whatever is right. We all you know, trisexual try anything twice, just to make sure you like it.

1:16:55

Not a couple of straight boys like that.

Bobby 1:16:58

That we know, we don't all have the same opinions. We don't. We don't all fit that cookie cutter note that says okay, if you're a Democrat, you must believe this, this and this. No, I am not. That's right. I consider myself a Democrat and you're a diamond. However, you know, they they lump certain ideas in with that one of them is, you know, you're you're you're always if you're a Democrat, you are always you know, fiscally, you know, you want to spend more money than you know what to do if you want to you're you're pro abortion out, you're this isn't this, I have a P on the subject of abortion. I mean, my biological mother could have aborted me and saved her own life. She died giving birth to me. So, you know, 35 years later, I still have a Peeve on abortion. what somebody else does with you know, but then I'm not gonna be having any children. You know, I'm not going to be given birth.

1:17:59

But you know what, we all are individuals. We're under that rainbow flag doesn't mean that we're all the same.

1:18:06

Exactly. All have. Absolutely. And I'm sure there's other people out there there have the have the same views about it? Did I do I just I don't want to see. Absolutely. Because, you know, the second thing like legalize it, they're gonna it's going to be under microscope. Yes. And every person who goes out there and they get married and a week, a month, six months down the road, they get a divorce, or they end up in divorce court. That's that it's going to be all over the news. They're not going to talk about the hundreds of lesbians and gays and bisexuals who have gotten married. Okay, they are staying together. And it just I don't want to see that happen because

Bobby 1:18:47

of one thing on that. But did you happen to notice that there was one rather famous straight person who got married and by the end of the weekend? She was divorced?

1:18:58

Okay, do not. Do not hold Britney Spears for the straight people. Okay, they have other worse people representing them, then Christina, they don't need any help. No. Look at our president. We talking about somebody whose initials are BS.

 B Bobby 1:19:18

Exactly. Funds intentional. There's a reason her you're right. There is a reason her initials are BS. But I

1:19:26

do agree with what you're saying. But it's like in anything. When you take when you keep somebody from doing something or you restrict something. As soon as you let them go. They're going to go wild. Absolutely. And I agree that probably what's gonna happen, but as time goes on, you'll see that that newness will start dying down. Yes, it's going to give us a bad bad rap. I mean, people are going to point fingers at those who are just married. on AOL. They have a room and I won't go into it because it bothers me where you can get married online. mean, cyber wedding? Yeah, it's cyber wedding, but they have a clause in it, you're not allowed to get married. I think it's like you have, you have to wait six months before you're able to get married again, in there. And I was like, that's what's going on. And I was telling them, I want to meet families, I want to meet couples that have been together forever. I want you know, it's, it's really important. And those are the ones we're talking out reaching out to come out, support this. You know, these are the people that are that, that really want this to happen, just to take care of their families. Some see it as a game and a joke just because they can. But the majority, the majority of these people, they really want it, they want to take care of their families. That movie that I mentioned last week, if you could watch it, watch it. If these walls could talk to that, I've seen it that first story of those two women hit home for me like I can't tell you right? When I mentioned it all the time, because what could happen, let us

1:21:03

look at what our friends are going through, you know, they've been together for what 17 years, one of them dies, his partner can't do anything with the insurance company earning nothing

1:21:17

at all, because he's not the executor. And they've been together for 17 years building a life together. And he's trying

1:21:25

to get a death certificate to do he can't get insurance certificate,

B Bobby 1:21:31

no sign that you know, and here they are.

1:21:34

The death certificates are a matter of public record, and anybody can get one this county

1:21:39

that he lived in. They're really really

1:21:42

it's a very tiny community in a very tiny and just the fact why do you want it the questions of white because it asked you what what is this for? So here's a male requesting another males? Are you related to him? Are you like, in what form you know?

1:21:58

Because I tried to get the district for him because he's in a position that he can't get it? And they tell me Well, if you're not related to him, you can't get a copy and

1:22:10

she's female for 25 years.

1:22:13

Okay. As far as I knew, he tried addressing the county clerk and saying I'm the executor of the estate,

1:22:22

well, isn't exhibited as

1:22:24

an executor. But he says look, problem this, his partner is not the executor of the will, okay, his partner is in a position that he can't be the executor.

Bobby 1:22:36

Yeah, I take it the executor isn't in any big rush to help

1:22:40

1:22:40

No. And the executive now the executor is looking out for himself wanting to take everything from the partner. And we're, I took care of his partner before, you know, until he died, and he was that in that day, he was getting ready, he was changing it over. And he died that you know,

Bobby 1:22:57

there's there's something stuck in my head and, and along the lines of all the the agreements and disagreements that we have within our own commitment, and our and our right to do so. I can't help but remember, the one of the most famous things ever said by somebody on the subject of agreeing and disagreeing, and your right to do so. Which is, which is I do not agree with what you say. But I will defend to the death your right to say

1:23:35

and that's what this radio station stands for and why that is very

Bobby 1:23:39

much what we're about.

1:23:41

Speaking of which, another shameless plug. If you'd like to call in and make a donation to us and make sure that we continue to be on the air to give you our opinions and the opinions of our community. Give us a call it 713-526-5738 or 713 Jam KPFT and we've got people standing by the phones waiting to get your information and your pledge and we're going to take a little break and put some music in your ear and then we'll be back with the roundtable discussion.
