Jimmy Carper 00:03

You wanted something up. You wanted something? peppy, Bob Hartman from his CD very sexual man.

Peter 00:13

Look at the cover on that.

Jimmy Carper 00:15

And isn't he? Oh, yes, he is. And that's a song called coming out. That's perfect for your hours. Maybe and before that, before that that brand new song from Steven Gelman off of his return to summer Lake CD called just like you good stuff. It is good stuff. And a lot of what I play here is available at Lobo. Absolutely, I know. Let's see I've got the new mark waggles. I'll be playing later and I saw half a dozen of those there. And you know, and if it's not there, as Sally, say, Sally, get this stuff in here. We want it till the end. She'll do it. You bet. Oh, yeah.

Peter 00:58

Well, we have just gotten so much accomplished in this short little tie. We

01:02

know I know it's a reviewable two different

Peter 01:05

Theatre Company The Walking Dead and has been Sodom yatta yatta Yeah, can I ever say that right let's be in Van parlez we did that we did the walking dead we did. We reviewed all that we talked about the approval and was bond how fabulous that was it really was good. Yeah. You talked about the world sound Imperial record having their investors service. Yes or service. This

**J** Jimmy Carper 01:30  
is when the new emperor and empress Yeah.

**P** Peter 01:33  
Take their office. And then the fantasy masquerade ball over it. Which is incredible.

**J** Jimmy Carper 01:39  
That was all of these fundraisers by the way.

**P** Peter 01:43  
They well the the ball is just like a bit the manga thing over there. I think that's just a big ball. Just no, no, it's not a fundraiser. Oh, it isn't. Like it's just a big Okay. Whole bunch of guys get together and put on this absolute incredible party for all the friends. Well, you

**J** Jimmy Carper 01:58  
know, it's always nice to do that every once in a while. Just have some isn't a fundraiser and just really, really do it as a celebration was really fun.

**P** Peter 02:06  
And so all of that. And everything that's been going on lordy. Who in the world could ever What are they doing?

 02:14  
What am I looking at?

**P** Peter 02:15  
What are you looking at, though? Oh, and the moon's out where it's nowhere? outset I don't see.

J Jimmy Carper 02:26  
The moon isn't out yet. We're waiting for it though.

P Peter 02:31  
I don't even see it walking. Oh it's Two Moons Over My one moon cheated a moon in a half Oh, people are driving by the station having these wonderful moments and glorious. Oh my

J Jimmy Carper 02:55  
you know it. That's that's that's, you know, when you do volunteer radio. When you do volunteer radio. There are perks. That's that's one of them. That's my paycheck this week.

P Peter 03:05  
Well, maybe the corner would make a difference. The moon went down over Miami. Yeah, that's

J Jimmy Carper 03:12  
right. I gotta wait till they get in the car and turn the radio on. Then we got to talk about and

P Peter 03:16  
then we'll tell him it was only a moon. Yes. That's right. That's right. What quite a full moon. And while

J Jimmy Carper 03:21  
we're doing that I have something old and that you've probably heard of before, but this is the quote of the year. Cool. Oh, come here. Yes. And this is Monica Lewinsky discussing her miraculous Jenny Craig weight loss where she says I've learned not to put things in my mouth that are bad for me.

P Peter 03:42  
I have that come by. So teachers working with this group of kids. Yeah. Trying to broaden their horizons on sensory perception. Until she brought in his variety of lifesavers and said children, I'd like you to choose to close your eyes and taste these sensory present. Okay, so the kids easily identify the taste of cherries and lemons and men. When the teacher gave them a honey

flavor, lifesaver. They were very stumped. Oh, very stumped. And so she said okay, I'm gonna give you a hand. It's something that your mom and Lee your mommy probably calls your daddy all the time. And then see one of the kids coughs spit it out and said Quack quack spit them out there hassle

 Jimmy Carper 04:42

Okay, now that now that Troy and David are in their car, and they've got the radio on, we need to tell them that that was just the moon and a half

 Peter 04:50

it barely it was not a full Poland since the full two halves of them. That's

 Jimmy Carper 04:56

right now, David was full movement and what a wonderfull moon. That

 Peter 05:01

is That was a nice summary. It

 05:02

is exactly as I remembered. No, we Yeah.

 Peter 05:05

I'm just like to know what happened to the other piece of the pie. So to speak. Yeah, so to speak. Yeah, yeah, we're gonna get a rain check on that.

 Jimmy Carper 05:16

We certainly are. Yeah. Really any way to fun guys. And, you know that's kind of what we do here. Yeah.

 Peter 05:24

You know what? What? I have been speaking a full moons. Yeah. It has been that kind of a week everybody I've talked to so they've just had a week from hell. I haven't. You haven't? Well, lucky for you. Because everybody else I have talked actually, it has not been the most fun

week I've ever had. But it was a full moon a week ago. Yes. A barely a week ago. Yes. Well, I just ran into so many stupid people that it was impossible. This playthrough went well, we did stupid people should have to wear signs that say that say just that I'm stupid. And if they were assigned to be no questions that we wouldn't have to rely on them. You wouldn't have to ask them anything. It wouldn't be like Excuse me. Oops, nevermind. Sorry, I didn't see your sign. Thanks. No problem. Like a couple of months ago, a friend of mine and I were fishing. And we pulled his boat into the dock. And we lifted this big ol stringer of bass. And it in the dock goes Hey, y'all catch them fish? No, I talked him into giving them up. Here's her sign where it in good health. And my friend of mine had a flat tire. Pull the truck into one of those sides of the road gas stations. The attendant walks out looks at the truck looks at me. And I swear he said cargo flat. I couldn't resist said nope. I was driving around on these other three three tires just well right up. I didn't know what here's your sign. I learned to drive an 18 Wheeler my days of adventure. And when you know I misjudge the height of a bridge. And the truck got stuck. And I couldn't get out. And no matter how hard I tried, I radioed for help. But eventually the local cop shows up and takes three port and he went through the basic questions. Okay, yeah, no problem. And I thought sure he was clear of needing a sign until he asked. So your truck got stuck. I couldn't help myself. I looked at him and look back at the rig and back at him. And I said no, I'm delivering the bridge love people more assign like that. We wouldn't have to deal with it. They would just be exactly, you know, there'd be and you wouldn't have to think about it, you know, just boom right there. So I just think, you know, I think we ought to do that and so because I just got more than enough so I made a bunch of signs I'm giving my thoughts to my staff. Well, you

 Jimmy Carper 08:00

know, that may be a full time job just making up those signs Yeah, no kidding. You know, it isn't easy being a dick. Excuse me. It isn't it isn't you know, here's here's you did such a good job. Oh, I've got a head I can't think with Oh, and I can't see out of have to hang around with to nuts all the time. My closest neighbors are real aihole. And every time I get excited I throw up

 Peter 08:38

all fine. Yeah. Speaking of being depressed. Me the lead in with that.

 08:47

I guess I shouldn't have but where do you know?

 Peter 08:51

This guy was feeling really down for so long that he finally decided to go seek the aid of psychiatrist while he went there and he laid on the couch. He spilled out his guts and then he waited for the profound wisdom of the psychiatrist just to make him feel a lot better. Well, psychiatrist asked him a few questions and took some notes. And he sat thinking for a few minutes in silence and a few more minutes with a puzzled look in his face suddenly looked up

an expression of delight and said I think your problem is low self esteem. It's very common among losers Hey, and we could pay big bucks for this Oh, that's too much too much. Love this budget don't think so. And

 Jimmy Carper 09:49

well, I've got the it's this is kind of convoluted, so it may take you.

 Peter 09:55

I'm working with you baby from the Kinsey

 Jimmy Carper 09:57

Kinsey report, and not the second one. Sexual behavior in the human male Yes, 90% of males, including married men admitted to masturbating an average of an average of three times per week. My God, and with the current population of 134 million men, approximately, you know, we're doing approximations here, United States, it three times takes at least 10 minutes on the average for a man to masturbate. That may Oh, and you've got 134 million plus man in United States, times three, which ends up to be 403,000 Whack offs a week. Hey, okay. And then you've got 610 here, per hour time, 24 hours a day time, seven days a week equals 1008 10 minute periods per

 Peter 10:54

week. Okay, and you're getting to

 Jimmy Carper 10:57

what I'm getting at is that at any given moment, 391,851 men in the United States are whacking off. So

 Peter 11:08

be very careful you 335 Yeah. That might be listening to this voice right now.

 Jimmy Carper 11:16

So be very careful. Very, very careful. Who you who you shake hands with.

 11:29

Got him?

P

Peter 11:31

Why I think we should do this love line. Let me talk you through this. Squeeze. Very hard. I'll say Oh, Daddy, Daddy. Touch yourself inappropriately. Squeeze, release. Squeeze really?

J

Jimmy Carper 11:56

And you're listening to this. After hours. Radio with that.

P

Peter 12:00

brought up the 467,000 men are jerking off as we speak. How does God

12:04

God KPFT juice ke o s calm. We

P

Peter 12:08

got a small listening crowd that we have those 470,000 Only that maybe 10 or 12?

12:15

Only 10 or 12 are doing it right now as we speak.

P

Peter 12:17

I see at least one or two for me to hear come down. Right here. Oh my Oh, and I promise I'll be quicker done in 10 minutes. Yeah. There once was a successful rancher? Yes. We're in Texas. Ranchers. And he died and left everything is devoted wife. And she was determined to keep the ranch and make it go. But but she knew very little about ranching. So she decided to place an ad in the newspaper for ranch hands. Two men applied for the job. One was gay, and the other was a drunk. So she thought long and hard about it. I thought maybe I never knew them. And they were gays that weren't drunk. But anyway, so she thought long and hard about it. And when one and when no one else applied, she decided to hire the gay guy figured it'd be safer to have him around the house than a drunk. Okay. He turned out to be fantastic worker worked long, hard hours every day, knew a lot about ranching for two weeks, the two of them worked and that ranch was really doing well. Then one day, the woman said The hired hand she said, you know, you've done a really good job and we both done nothing but work solid for too long weeks. The ranch looks great. I'm taking Saturday night off and going into town to kick up my

heels and paint the town red. And I think you should do the same. Oh, well hired ham agreed. And so Saturday night he's went to town while the woman had dinner and drinks with a couple friends and talked and joked and danced and had a great time. Getting home around midnight. And The hired hand wasn't home yet. Oh, so she decided to wait up for him. One o'clock, no hired hand. Two o'clock, no hired hand and she began to worry. And at 230 He came in in came the hired hand. Well, the ranch his wife was sitting by the fireplace and she called over him over by her and said, Now I'm the boss. And you have to do what I say right there. Oh my Well, yes, he answered. Then I want you to unbutton my blouse and take it off. Oh my so he did. She said not take off my boots. He took off her boots. Not take off my socks. He took off her sock boots. Where are we going? They're not take off my shirt skirt. He took off her skirt. Not take off my bra. Well, by this point, he was getting very nervous and uncomfortable. I'll bet she was the boss. He did the she asked not take off my panties. Oh my again. He didn't want to do this. But he needed a job and so he did what she wanted. And then she looked him straight in the eye and said and I don't ever want you wearing my clothes down again. You guys You sure did Don't ever do that ever goes down again? He little drunk gosh, yes. Oh we do silly things we do silly fun things

15:25

we do. It's yeah and that's the fun we need a little break

Peter 15:29

from all this heavy data as being bisexual transgendered who's on top who's on the bottom what do I wear today stuff?

15:37

Let's see Are you a queen?

Peter 15:42

As it says with a mouthful cookie

 Peter 16:16  
I haven't either but what I'm gonna wear this with pride back here are you a queen? Yes. And you were saying

 16:23  
oh my God

 Peter 16:27  
Dear now what you get?

 Jimmy Carper 16:30  
Yeah, I lost it. The only professional sports you watch on TV or gymnastics diving and figure skating then this thing you are a queen okay. If you ever watched the Miss America Pageant and said Where did she get that thread? This thing you are a queen let's see

 Peter 16:57  
saw that same

 Jimmy Carper 16:58  
one if the name is Jeff Stryker Ryan Idol or Casey Donovan mean anything to you? Oh, this thing you are arguing? Yes. Yes, yes. Yes. Yes. If you can spontaneously quote any lines from Steel Magnolias your Miss Mayer Yes, yes, yes, you can draw you can just pop in here anytime you really

 Peter 17:19  
love evil bang and it's

 Jimmy Carper 17:23  
so key if you have ever quaffed your hair so aggressively that you drew blood? Yeah, you are a

queen? Yes. If you require two syllables to say please that mistake you are a queen. Yes, yes.  
Yes. If your pairs of shoes outnumber the days of the week

 Peter 18:00  
Oh Now unlike Oh go ahead No, no, that's that's a good we have had our research team out we  
certainly have worked at all this well but I mean this was this was the sign I can't mean to not

 Jimmy Carper 18:16  
get over those beads so

 Peter 18:20  
my god

 Jimmy Carper 18:21

 Peter 18:26  
We read large penises and duties hanging yes with he like really? Like not redhead penis.

 18:33  
Kind of ceramic look

 Peter 18:34  
for the Martin for the approval of his ball. I'd have thrown these and everybody I could find who.  
You just want to touch it. Yeah. Don't touch it. Stop it. Anyway. Oh, we have the scientific

you just want to touch it. Yeah. Don't touch it. Stop it. Anyway. Oh, we have the scientific research department. Oh, not just the out there. The scientific one. The real science department has found out these various little pieces of information. Yes, yes. Now, if you yelled for eight years, and seven months, in six days, you'd produce enough energy. Enough sound energy to heat a cup of coffee, coffee. Oh, so yeah, it means you have to yell for eight years, seven months and six days. This is the kind of things we're gonna find. Now, that hardly seems

19:23

worth it. That hardly

Peter 19:23

seems worth it. But if you fart consistently, yeah, constantly, for six years and nine months. That's a lot. enough gas was produced to create the energy of the atomic bomb. Now, it's more likely. Now the human heart creates enough pressure with it pumps out to pump to squirt blood. 30 feet. Did you know that? Whoa, no, not. And one thing I find very interesting is the pigs orgasm lasts for 30

19:51

minutes. Oh, that's why they call men pigs.

Peter 19:55

And I think in my next life, I'd like to be a pig. No kidding. banging your head head against the wall uses 150 calories. Still not over that pig thing. 30 minutes. Oh, you're right. Humans and dolphins are the only species that have sex for pleasure.

20:11

You're kidding me. That's probably what about what about the pigs?

Peter 20:15

Well, no, that's probably why flippers always smiling. And I'd like to know why the pig isn't included. And an ant. Let's see, an ant can live 50 times its own way. Whoa. can pull 30 times its own way. And always falls over and it's right side. Right? Yeah. Don't ask me why. from drinking little bottles of what I don't know. And I want to know, did the government pay for the research on that one? And also, did you know the polar bears are left handed?

20:46

No. I did not know. Oh, know that. Whoa? Yeah, who cares? Yeah. No one ever survived

NO, I did not know. Oh, knew that. Who? Yeah, who cares? Yeah. NO ONE ever survived.

P

Peter 20:56

Did you know the cockroaches live nine days without its head before it starves. While we have these very little little things you need to know and a praying mantis can't copulate while its head is still attached his body so the female initiate sex by ripping the male's head off. Well, that'll say me I'm home. What? What a way to home without. And some lions mate 50 times a day. But in my next life, I still want to be a pig. Because we're talking Yeah, the over quantity here. Certainly. Yes, indeed. And remember, when someone annoys you, it takes 42 muscles in your face to frown? Yes. But it only takes four muscles? Yes, to extend your middle finger.

21:50

I like that.

P

Peter 21:51

But I like we have looked up these little gems just so people on there can have new Bartok. You do not have to spend your evenings at JR standing around talking about what sign you are now you can say hey, did you know that a pig is 30 minutes? And you know about praying man? Yeah. You know, banging your head against the wall. I mean, I mean, these things are you know, I mean,

22:16

you can't get that information anywhere, that information

P

Peter 22:19

anywhere else. But here, baby that's right here, here here. You know, there's other things that we could talk about, hey, you know, what can I say? I

22:32

don't know. What can you say?

P

Peter 22:36

Well, you know, we are a big techno freaks here. I mean, because we love catching all these fun things on the internet. And people send us all this stuff from whatever. But it's wise to remember how easy this wonderful technology can be misused. Yes, sometimes unintentionally, with serious consequences. Now consider the case of this guy in Illinois, who

left the snow filled streets in Chicago for a vacation in Florida. And his wife was on a business trip and was planning to meet him there in the next day or so. And when he reached this hotel, he decided to send his wife a quick email, and unable to find a scrap of paper which he'd written her email address on. He did his best to type it from memory. Unfortunately, he missed a letter. And his note was directed instead to the elderly Preacher's Wife, whose husband passed away only the day before. Oh, no. Oh, yeah. Oh my god here for technology. So when the grieving widow checked her email, she looked one and then at the monitor, and let out this piercing scream and fell to the floor and a dead fade. What happened? Well, at the sound her family rushed into the room and saw this note on the screen. dearest wife just got checked in. Everything's prepared for your arrival tomorrow. Sure, it's hot down here laws of technology as we say in the fields should happen. Oh, yes. Did you know? And you know, emailers are kind of a unique crowd. I mean, the other day I turned on my thing and I got like, like 15 email, I'm gonna what is the deal? And a ton of it is owes. You know, please pass this on to your next bill. Seven best friends in the whole world. Have you done? How's it gonna fly out your button an hour? And if you do \$30,000 is gonna drop in your pocket in a week. And yeah, send it back to the person that sent it to you because they need to know their love. I mean, I don't know how many of those than a bunch of these other clubs really delete delete, if you know what you're deleting, but every now and you think well, maybe this you know. So you know, but we have an emailers anonymous. Oh, really? Yeah. and some people really need to belong to that, ya know? And you really probably ought to join emails anonymously, which well, not maybe you but people out here in red video land. Well know ya know about this because we have AAA and NA and CA and and

 Jimmy Carper 25:17

i know i mean that you know what? In the world I get over 100 messages a day? Well no.

 Peter 25:23

Email are synonymous, it's time for me. Yeah. And you'll know, there's 10 sort of things. This is our top 10 sort of list for tonight, okay? That if you wake up at three and go to the bathroom and check your email on the way back to bed, you need to go to an email meeting, you need to go on it. And if your firstborn is named.com You need to go to email or

 25:49

something that's not gonna happen.

 Peter 25:50

And you turn off your modem and are suddenly filled with a feeling of emptiness like you just pulled the plug in a loved one. Need to go and you spend half your time the time in a plane trip with your laptop in your lap and your child and the overhead compartment. To me, yes, I'm from yet and he decided to stay in college for an additional year to just for free internet access. Time you joined the E and you find yourself typing calm after ever period.com. Yes. To go, you refer to go into the bathroom as downloading time you move into a new home and decide to

Netscape before you landscape. The meeting and you start tilting your head sideways to smile. Colin with Treasury crazy. Yeah. And the number one sign Yes. That you know it's time to join emailers anonymous. Immediately after hearing this list, you email someone. Time to join

 Jimmy Carper 27:05

Oh, yeah, well, that's three o'clock in the morning. You know, I'm on a Oh, well.

 Peter 27:11

Your address because every time I'd be on there, you'd be my little buddy.

 Jimmy Carper 27:15

So, you know, when you're on AOL, you think, yeah, you can have like different addresses. I mean, different names. And, and so more than one account? Yes. Yeah. So that you can, you know, have certain kinds of, of email come to you. And so you know, that there's other kinds of names that you might have, you know, where you go into those chat rooms? Or you may may be on those lifts or listservs that send you pictures all the time. Yeah, that was kind Yeah. That's the kind that I find myself at three in the morning. It's like, oh, let's check this out. When you

 Peter 27:54

when your little phone message says a drought watering the plant? Really not? I'm

 27:59

really I'm watering something to play a screen of your computer.

 Peter 28:02

I think you're a perfect candidate for

 28:05

email. And I think I am Yes. And Judy,

 Peter 28:09

might be God. Oh, Lord, I thought we were older than that.

**J** Jimmy Carper 28:16

No, you know, I think that a majority of Americans, no matter what, you know, if even if you're on AOL, and they have all these different things, Microsoft, this and that, and, you know, my documents and my briefcase and all this kind of stuff. I think the majority of Americans know two things. Yeah, email, and how to get on the web. And that's it. That's it. That's all they need. That's all you know, I've been on for almost a year now. And that's, that's as far as I got. I don't know how to do anything else. I don't know, I don't have my checking account. Or I don't have my, my CDs. You know, none of this. None of that I just get on and look at I can't even you know, make pretty labels or anything. Fancy. You know, it's just, I don't even know how

**P** Peter 29:07

long she can find those big booties. That's right. For free. That's right. That's all account.

**J** Jimmy Carper 29:12

Well, it is if you have adult check or something.

**P** Peter 29:17

Don't pay for this. Oh, my Did you see? Yes. Speaking of email, that, you know, we're you and I are getting a little older these days just to touch just touch. And it sometimes it takes 50 years to learn things. Some things. That's not the cutest little weenie on this was anyway, but it takes a lot of time to learn these things. One of the things that takes time to learn Did you know that right? That the badness of a movie is directly proportional to the number of helicopters that are in it. Did you know that

**J** Jimmy Carper 29:57

I never thought about that. No, I never Have I never had? Yeah,

**P** Peter 30:01

yeah. And you should never say anything to a woman, not even your sister. That even remotely suggests you think she's pregnant? Unless you can actually see the baby's head emerging at that minute.

**J** Jimmy Carper 30:20

Yeah, don't ever say, Oh gee, are you pregnant or not?

 Peter 30:24  
Oh, well, not even to get to begin to get big and our

 30:27  
new, new new,

 Peter 30:29  
and there comes a time when you should stop expecting other people to make a big deal about your birthday. And you know, when that time is,

 Jimmy Carper 30:38  
well, you know, it, it kind of it's a reversal. You know, when you're growing up, and you're young, it's a big deal. Oh, yeah. I'm now 70. No, yeah, no, I'm 21. And then it turns around the other way says, a bitch is 44 years old. Can you believe it?

 Peter 30:55  
Well, according to statistics, yes. The time that you should stop expecting people to make a big deal about your birthday is one year 11. That that's

 Jimmy Carper 31:06  
a birthday party tonight as a matter if you really Yes. And it's matter of fact, it's kind of odd. Let me just jump in here with this because the man was born on February the 29th. And he only has a birthday every four years. Yeah. So he's only 11. Now it's

 Peter 31:22  
not about worry.

 Jimmy Carper 31:24  
But what's really fun, it's in a friend's house in the heights and, and what I really liked about it is like, I'm not a spring chicken, you know? And you're just, I know, I just walked in and everybody was like my age or older. Who's really nice. What a tree. Yeah, no kidding.

 Peter 31:44

who's grown up? Yeah.

**J** Jimmy Carper 31:46  
Pretty house though. In the Heights. So happy birthday bill.

**P** Peter 31:50  
Happy birthday, Billy.

**J** Jimmy Carper 31:51

We always got to do at least one blonde joke. There's one walks into a pharmacy and she asks, you know, this system for some bottoms up the owner who, while the pharmacist says a little bemused and explains to the woman that they don't sell bottom deodorant and never have oh, well unfazed. The blonde assures the pharmacist that she had been buying the stuff from that store on a regular basis and would like some more, he said I'm sorry. So the firm says we don't have any. But I always get it here. So it's a blonde. Yeah, the container comes in. Yes, the blonde says I will go get it so she returns to the container and hands it to the pharmacist looks at it and says to her this is just a normal stick underarm deodorant and annoy the blonde scratch snatches the container back and reads out loud from the container to apply push up bottom Hey, it's slow out there. Sorry I did the best I can do super sharp the bottle Did you see the thing that you got? It didn't have that

Jimmy Carper 39:32

Okay, it's time for the after hours, news and views with big Roy and Chris.

Roy McCarthy 39:39

Well, I'd like to welcome everyone to this week's edition of after hours news and views on big ROI with me as Chris. I want to give a shout out to Randy down there in Beaumont, Toni way up there and Midway to Allison. Down here in the Montrose along with Mark and Jerry down here in the Montrose and all of our other listeners were out there in the far flung land reaches a radio land. And our top story this week is Steve Holt's, he's in hot water with the state of Texas. Steve Hodes he is with his was a conservative Christian activist, was fined 5000 on a record \$5,000 by the Texas Ethics Commission for violating campaign finance laws. The fine the largest ever imposed by the Commission against the conservative Republicans of Harris County was one of three leveled against a host he Houthi controlled organization. You may remember back in the mid 80s. Steve holds he had his first city council he had what they called a straight slate. And that straight slate got really defeated every one of their candidates were defeated for a city council and tactics, the Texas ethics commission was acting on complaint filed by other local Republican activists. The Commission assessed \$1,400 penalty against the citizens for American restoration and \$500 against the Houston Republican forum. The Texas ethics Commission's stated that the \$5,000 fine is clearly the largest find the commission has imposed. And that was said by Karen linguist whose general counsel for the Ethics Commission. And the complaint said that the mailing that Steve Holsey and his group did, conducted failed to include proper identification of the citizens for the American restoration and its Treasurer, and that the organization failed. Failed to tell the favorite candidates that it was spending money on their behalf. Citizens for the American restoration was fined by the Ethics Commission for that violation. For example, citizens for the American restoration has sent out mailings that appeared to be party sanctioned listings of all candidates in an election, but only includes the candidates backed by hosi. So folks, this is big news from the Texas Ethics

Commission shows you how you have to keep all your T's crossed and your eyes dotted and for any political organization or 5501 C three type organization. They have to there are strict guidelines that have to be followed

Chris 42:42

and that you're seeing some of this similar along those lines with the pat robertson's Christian coalition with some of the phone calls he's been making, on behalf of George W. Out in South Carolina and what is possibly going to be happening out in Virginia
