And I'm Christie I guess I'm the ask Director go executive as director. What I love the title change. Slightly give us the title change. Oh, yeah, we'd love to produce more. But if I can direct some ask around here. Yeah.

Jimmy Carper 02:40

Really. Quickly the music that you heard at the beginning of that, that was a nice little piece that JD brought that very that little ID thing from Tom Robinson. When he was in New York for the out Music Awards. Tom Robinson, of course living in London, and followed whips, whips work, just the

Chris Harrison 03:01

music that was doing that.

J Jimmy Carper 03:03

Okay. Who knew? Who knew you had something else on there? That was Tom Robinson doing boy girl from the recently recent album called whereas it by the people. That's it by the people, a compilation of bisexual artists and friends. Okay, I want to say hello to all my MDBs out there. They're everywhere. Some of them right smiley and, and hi may wrote, yes, I'm a wrote this week. Yeah, I remember Jaime's artwork. Quite a nice collection of it. It's beautiful stuff.

C Chris Harrison 03:50

And once again, smiley center, something very thick and long and complicated that we'll endeavor to go through.

J Jimmy Carper 03:59

And whatever it was it fit into an envelope. And of course, Wilson wrote us, he's now in

C Chris Harrison 04:07

Waco, Waco. My condolences. Yeah,

J Jimmy Carper 04:11

no, he doesn't like it there either. After hours is one of two and a half shows that are directed to the GLBT community. We're on every Saturday night at midnight to 4am. The other show is queer voices, which is on every Monday from eight to 10pm. And the last few weeks we've been having CPR doing all kinds of stuff about homosexuals. So yeah,

C Chris Harrison 04:44

critical progressive radio. I think that's what it is. If I remember cricket, that's what the acronym stands for.

J Jimmy Carper 04:52

The colors don't seem to like us very much. But then at first, they don't know us either. I have all kinds of biblical reasons for not doing so. But you might want to check that out and

C Chris Harrison 05:06

I forgot a quote on a work of fiction, you know, pick Dr. Seuss or something, at least rhymes for

J Jimmy Carper 05:10

us. Right? That's right. A couple of little things of interest. This is the anniversary of in 1975. On this date, Austin, Texas becomes the first Texas City to ban discrimination against gays in employment. And 1975 Hello 1985, an editorial in the Arlington, Texas daily news about an upcoming Ku Klux Klan, anti gay rally states, given a choice between sharing the park with homosexuals, or a bunch of white cheater racist, hate peddling losers, we think we would prefer the homosexuals. Kind of I certainly Is that a compliment? I couldn't tell.

C Chris Harrison 05:54

All depends on what type of sheet where they got their sheet. Oh, okay. If there's a 300 count Egyptian, then, you know, maybe they've got some redeeming values.

J Jimmy Carper 06:05

And Chris is going to read off something that's going on tomorrow that we're all be Oh,

C Chris Harrison 06:10

of course, you will be the boy of Montrose contest. 2004 Yes, he's gonna be held over at the rip cord. And that's on Sunday, Sunday, Sunday, Sunday, July 11. At 7pm

J Jimmy Carper 06:25

People in the talk studio were wincing because I think I blew out there.

C Chris Harrison 06:28

I think I think the headphones are a little high though.

J Jimmy Carper 06:33

Well, they have their own control center, the roof

C Chris Harrison 06:34

cords at 715, Fairview and the boy of Montrose contest hosted by Brad Olson boys, Montrose 2003 and Don Gill productions. Audience participation is important. So come and celebrate the as the Houston Community honored Brad for a well for a year well done. And the rincord

J Jimmy Carper 06:55
boy that boy can saying

C Chris Harrison 06:59
pipes on it and yeah, and

J Jimmy Carper 07:00
he can sing good to

C Chris Harrison 07:02
do you have another little chord event or another special event that's coming up. Actually,

J Jimmy Carper 07:06
I have a couple events here for the court report. But to do that, I want to bring on two special guests for tonight before we get to Sarah dipalma. And okay, I can't even read that.

C Chris Harrison 07:24
Would you do that first? Yeah. Miss Alabama presents the BJ summers Memorial Christmas in July show Oh, benefiting PWA holiday charities, which will be Sunday, Sunday, Sunday, Sunday, July 18 at 8pm. And that's going to be at the BRB, the Brazos River bottom over at 2400 Brazza.

J Jimmy Carper 07:43
We need to save that napkin for next week. Okay, thank you. Sorry,

C Chris Harrison 07:47
they didn't have any cards over there for me to copy onto that. Well,

J Jimmy Carper 07:50
I have the pleasure of introducing Emperor Apollo. Keith Vivio of the Imperial Court of Houston space city empire. Welcome Keith to after hours. Good evening. You've been here before.

08:05

It's been almost a year now. Almost a year

Jimmy Carper 08:08

now. Yes. And you have someone with you. Yes. Who was waving? They have. They have to look really close into the radio to see that. We

08:19

have our public relations chair for Ryan to have icoi Hi, Steven. Hello, Jimmy.

08:24

Good.

Chris Harrison 08:25

You're gonna wave it champion. You need to wave something different than a hand to get his attention.

Jimmy Carper 08:32

This is a kind of an ongoing thing. We're Stephen comes down. He likes to win.

08:37

Yes, he had to he had to go change and was killed.

08:41

And that stock just

Jimmy Carper 08:43

just make me get all kinds of nervous. I have this fetish about kilts and what's underneath. Anyway, the underneath part. Yes. For the court report, I've got a couple of things. I'm sure you know all about him to keep thinking fill in a HUBZone. On Friday. The 16th of July Mark Cohen

hosts camp review at EJ said 830 for AIDS Foundation just in camp hope because you can't
Pope thing is happening like the week after right?

① 09:17

Actually, they leave the next day. Oh my god

J Jimmy Carper 09:21

after doing a fundraising show and then you leave the next morning. Mm hmm. Wow. Show and send off. And I also want to mention on the 18th of that's a Sunday we have the Miss Mint Julep contest that 1415 Bar and Grill for the Montrose clinic. That's that's not really a court function. However, the Empress of CRH is going to represent us there as running for Miss July and what that means is who raises the most money and she raised like 700 and some dollars last night actually And

① 10:00

last night came to about \$950 Oh,

J Jimmy Carper 10:03

wow. Oh, wow. That's a damn good show.

① 10:09

So fun night last night.

J Jimmy Carper 10:10

Yeah, sure was it sure was and I know you want to talk about some other things coming up.

① 10:14

Oh yeah, there's a lot going on right now good. As of last night we introduced our new candidates for Emperor and Empress Apollo Emperor candidates are Jerem Jerel, McNeal and Lloyd Powell. Two very good choices. Gemini Empress candidate is Arthur quake. Yeah, three people that are really well known in the community. Yes, she's

J Jimmy Carper 10:37

a big girl. Yeah. Yeah, so it's gonna you know, that Emperor is gonna have to have his hands

full with her.

10:47

I think both of them are up to the challenge.

Jimmy Carper 10:51

And when is all this happening and tell tell us all about and how did they become emperor and empress. Okay,

10:56

well, now that we've got our candidates and thank God, I guess we are 98 days till enthronement noun. I've got 98 days to get through

Jimmy Carper 11:06

that, and that will be the end of your reign, and then you'll be a wuzzy Oh, yeah.

11:12

So next up, actually, starting off with Emperor's Jubilee weekend, which coincides with the Emperor's birthday. Ah, who actually, my birthday is in four days, but I couldn't fit it in and next weekend. Okay, so, with Emperor's Jubilee weekend, we start off with Friday, July 23. That is the we have liftoff show. First show hosted by all three candidates for Emperor and Empress. The next night, Saturday, July 24. You get to see a few of us that don't usually get into drag them first turn. Turn about. I understand. Stephen is looking at doing something.

11:58

Me and address. Wow.

Jimmy Carper 12:00

That's a strategy look so hot in a kilt. That will be an E Jays at eight o'clock. proceeds for ring two.

12:11

Sorry, I'm looking at my poster of me and drag from a couple years ago.

J Jimmy Carper 12:15

Oh my god.

12:20

Whoa, then the following Sunday, July 25. Closing out Jubilee weekend. We have our regular bartending at Mary's four o'clock. Yes. Again, all the proceeds are going to rain to benefiting mantras, clinics, HIV and hepatitis C counseling and testing programs, right.

J Jimmy Carper 12:39

Very good programs over there. And of course, that's it that marries at four and there'll be a barbecue, place

12:47

barbecue place sale. \$5 A play cool. So come and please do come out. Have some fun. Fill up, fill your stomach

J Jimmy Carper 12:56

and quench your thirst.

13:01

Closing out. Closing out July July 31. Our Apollo Emperor one chairman of the board, Shawn Carter.

J Jimmy Carper 13:15

Yes, it's one of its names is hosting

13:17

his birthday show. That's a DJs at 830 and that is benefiting AIDS Foundation. Houston. Campo Okay. Before we

J Jimmy Carper 13:25

go into August, would you explain just what it is? I mean, we have these candidates now for Emperor and Empress and who votes and when and what goes on and it may be confusing for people who are not familiar with the court system.

13:46

All right. This is the spiel I gave last year when I was a candidate. And I told everybody to bite me. Yes.

J Jimmy Carper 13:54

Sure enough, they did.

13:57

IC o h is of course a 501 C three organization. We're raising money for other primarily 501 C three organizations that they raise money for. terminal illness aids, breast cancer, prostate cancer, other diseases. We pretty much base what we do on Mardi Gras cruise or there's an international court system. We prefer to keep our focus based here in Houston. There's so many so many people that need help right here. You bet.

J Jimmy Carper 14:36

You bet. And so the candidates have been announced and the candidates have been announced. And

14:50

there was an open election for everyone in the Houston area. Houston and surrounding counties with some form of ID can come Vote. One of the few organizations that lets you elect its leaders. We are having our elections in August, August 12. From 4pm to 7pm. At EJ, okay, just like I said, bring in some form of ID. That's early voting. That's early voting. Then Saturday, August 14 10am, to 6pm. At 1415, California, the location of the pride committee offices, right.

J Jimmy Carper 15:30

So anybody in Houston or surrounding counties can vote this is this is a community vote yes. Because it's just, you're just not being elected by members of the court. You're, you're being elected by the whole community, you're representing the whole community because you represent the whole community. Right. So it's very important to get out there and vote, and they'll be voting for Emperor and Empress and

15:57

16:01

and the berry Patri. community activist

J

Jimmy Carper 16:01

award

o

16:02

spirit Service Award. Okay.

J

Jimmy Carper 16:04

Barry Petrie being a consummate GLBT activist who is no longer with us. This is an honor that that's one of the biggest honors, I think that that I see Rach gives out. And that's also by community vote.

o

16:20

And last night, nominees were presented to the community along with the candidates for Emperor and Empress and I believe you were one of the nominees.

J

Jimmy Carper 16:31

As a matter of fact, I was I wasn't going to bring that up. But I don't want to use this forum as a vote for me thing because there are six other very deserving people on that list. And I don't have that list. Last night was just a blur. I know Sona, Alton and Scott. And Scott Canyon, Gera McNeil, Jeff

o

16:55

Wallace.

J

Jimmy Carper 16:55

Wallace. Rose Smith. No. God, see, that's why I didn't want to go there. There. Well, we will have those people for next week's show. Have that list? And sometime between now and then.

o

17:17

Yeah, they did a great job last night.

J

Jimmy Carper 17:19

They certainly did. They certainly did. Van. I think they ran out to put up posters and other bars

o

17:29

took off. Yes,

J

Jimmy Carper 17:30

he did that he did. Yes.

o

17:32

Yeah. He went out right away to start campaigning.

J

Jimmy Carper 17:36

And that's the only way they can campaign yet. Right?

o

17:39

Yes, we have. They can't really host any shows. We specifically set up to shows that all three of them together host okay. First one being in a couple of weeks. The second one being right before the Saturday election. Okay,

J

Jimmy Carper 17:56

that's good. That's good. And so how do they campaign in between? Oh,

o

18:02

however they can I have to get out and best it I say

J

Jimmy Carper 18:05

go to the bars put up posters,

o

18:08

free things giveaways. Oh,

18:11

I wouldn't have been given away this year.

18:13

Stickers, buttons, all kinds of fun. You know, you know, some of the stores terrible things in the past they've given away. They don't have any limo rides, fiber optic flashlights?

18:23

Oh, like I did last year? No, I

18:25

think they, they always got bought out last year. Man, fly, Daniel, they may play with liquor or you know.

18:36

Go ahead and say yes. I'll tell you what, where they are now with that session. Boy, sometimes I think I had more fun with that session than with the crown.

J Jimmy Carper 18:47

Really? Yeah. Once you get the crown, that's a real possibility. Oh, yeah. You're there. The whole idea is raising money. And it's up to you and your members to do that.

19:01

And you're you're on call. 24/7.

J Jimmy Carper 19:04

That's right. That's right. And your weekends are tied up for a year. Whether you're here or out of town at other functions for the court system, not the ICC, which is a member of but certainly friendly with. So you represent a whole bunch of folks. Chris,

c

Chris Harrison 19:22

you were asking some information about the Colt 45 Age trouble fund? Yes. Information. That's on August the eighth. Yeah, yes. And it's the BRB, someone called him with the information that we're supposedly we're missing some information.

J

Jimmy Carper 19:37

No bare bones benefit. We haven't really gotten to that yet. Yeah. Got

o

19:41

two officers with the Colts here.

c

Chris Harrison 19:42

I don't know. I just take the message.

J

Jimmy Carper 19:45

No, I stopped that July. I wanted to talk about the cord that must be hit anything in August.

c

Chris Harrison 19:52

Okay. She was shocked. She wouldn't go on the air. We don't like shy people. Okay.

J

Jimmy Carper 19:56

Thank you rose. Yeah. I know that that Who else could it be but rose? Now she she gave me a nice you know, this is this kind of thing is great for me just even with my old eyes I can read it and questionable light anyway you want to talk about that now the bare bones president

o

20:28

I know it was an idea of of Rose who's our committee chairman for the trouble fun to raise money in her bare bones theme is she's getting entertainers. And maybe people who don't necessarily understand just want to come out and do a skit or something. They're limited in their to one prop. Your beer is a crutch, not a prop. So you can keep them Oh, okay, good. One prop and

o

20:54

your drag, you can pick a wig, or whatever makeup or drawn thing. But one

20:58

thing to showing that there are a lot of people living out there on fixed or limited incomes as well as a lot of different things are their tongue tied now. It's to show that they're under limitations. So they're going to perform under limitations as well. Whereas you might see people in glamorous outfits, they have one thing, you said it was a wig or, or something like that just to go out and maybe show some people that some symbolism and she's had a lot of success with it

J Jimmy Carper 21:34

good. And also, because she mentioned that funds are very low. And the GO 40 fives right now, right? You know, and there's really a huge need with all the funding cuts that's been going on.

21:50

I know that you can talk to every different agency, and they'll tell you that their funds have been cut. But people are tired of hearing it. But we'll say it one more time. The Colt 40 fives are completely funded by gifts from outside of the organization, we have zero overhead cost that's funded by people's dues and what we go out to raise our little monies on the side, we have no overhead cost, we don't charge any maintenance fees. We don't charge them for, you know, our offices or our phones or anything like that. So every dollar that's given to the trouble fund goes in some way to help those people. That's,

J Jimmy Carper 22:26

that's amazing. Not very many organizations can claim that write it because all of this people are asking for money for rent for food for this for that, and members of the CO 45 Get these requests and sort through them and act on it. And it's all done for free. Right. Every

22:45

Tuesday we meet every single Tuesday. Wow. And if there's yeah, there's an opportunity for you for people who want to help with that they can get in touch with us and we have a citizens board but almost a snotty 9000s 400 some odd dollars over the last six years. Just done that's coming from the outside. That's just ATF. That's nice. That was nice. That shows you that you know we're under our fixed income as well.

J Jimmy Carper 23:08

Yeah. So they're gonna have a light buffet, raffles, live auction, and fun and a show all at the

Brazos River bottom on Sunday, Sunday, Sunday, August 8 at 6pm 6pm. Six

23:25

in the middle of the night. Yeah.

Jimmy Carper 23:30

6pm That's great. Okay, and anything else?

23:37

Well, for ICU ah, vote

Jimmy Carper 23:38

and vote often? Oh, yes, no. One time. You've got two opportunities. We'll be talking about that every week and letting you know where to vote when to vote. And it's up to you as to who you vote for. Are they going to work for 10 votes count even the ones in Florida. That's right. We don't have to worry about Chad's here. And let's chat is the one counting votes

24:12

Hello, he's speechless.

24:13

Certainly. It's deep in thought here and looking seeing looks like someone was calling me. Okay. Now like, like Steven said, please do come out and vote. Like I said earlier, this is one of the few organizations that lets the whole community vote for its leaders. And of course, for early advance notice. October 16 is our big ball.

24:42

That's a Saturday.

Jimmy Carper 24:46

I get off that night.

24:48

I hope so. How often?

Jimmy Carper 24:55

That night, because I will be calling in from the ball to report to broadcast

25:00

from the Punchbowl There you go.

25:02

There you go. That night, myself and Regina will finally be stepping down. Yes,

Jimmy Carper 25:08

we'll be talking about that more to because it's of course for a fee, it's open to the entire community to get one of these on, you know, without the hole,

25:21

and everything that night will be for Montrose clinic. Yeah,

Jimmy Carper 25:25

that's great. Okay, well, thank you for being here. And we look forward to having the candidates in and closer to voting and closer to the ball. We want to get you back in and talked about that and of course, and push for that. Okay. Thanks. Thank you. We'll be right back with Sarah dipalma. simplicity that is a local group of two women, Nicola, Lorraine and Chantel now, these women were supposed to be on this show a few weeks back and didn't show up.

Sarah DePalma 26:26

And you're sure they knew they were supposed to be? I

Jimmy Carper 26:27

guess I'm sure because I invited them my own self and all that and

S

Sarah DePalma 26:34

they, how not to get ahead. Well,

J

Jimmy Carper 26:37

I'm not bitter because I keep playing them because it's good music. You know, it's not just because they're local women. It's because they do really good music and, and these days, in the GLBT community, there are so many people making music that you can afford to choose and just only play the best stuff.

S

Sarah DePalma 26:58

It's a different market than it used to be.

J

Jimmy Carper 27:00

It certainly is. Not when we played every song I'm rolling up romanovski and waiting for the next two years for them to put out another album. You know, you got to hear everything on these these days. You can probably get to hear one song per album because there are so many artists out there. Look behind me. You know these two bags are filled this plastic. No crate is filled. I mean, it's just incredible. Don't

S

Sarah DePalma 27:28

let them KJ chimi is just a music junkie. Yeah. Welcome back. So I guess I should start out with my opening right? Yes. Hello, Houston. I hell are I miss doing this theory? Yeah, I've missed doing that. Well, for those of you who don't know who I am, and I have been away for a couple of years, so I guess I should tell them who I am. rabble rousing SOS sob and I know well, that's only partially true. My name is Sarah deployments you already know. And I at one time I was the national director for its time America have headed I guess three or four different state organizations working on behalf of transgender rights. Yes. And over the years I have testified in courts I have generally raised bloody hell as a transgender activist and the HRC I'm sure he's not happy to hear me back on the air but we'll we'll save that for another show. Hello, Houston. Hello Houston. And welcome. Glad to be back.

J

Jimmy Carper 28:26

I've got my own words for HRC I can't say them on the air.

S

Sarah DePalma 28:31

No, I was very careful. I thought you know it's a different world since Howard Stern so be nice and don't say anything about the okay first of all, I was handed this coming in and I guess we should talk about this Oh, trench gender job fair. Yeah. Being This is sponsored by the

Should talk about this on, when gender job fair. Yeah. Being this is sponsored by the community awareness for transgender support. That's cats. Oh, right. Cat A transgender jobs. Fair job fair. That's it. Houston. GLBT community center. 3400 Montrose inside the Sky Bar building second floor. And that's Tuesday. 13th at 130 to 430 No,

J Jimmy Carper 29:04

what's that date again?

S Sarah DePalma 29:05

It is July the 13th. We that's 130 to 430 at the inside of the Sky Bar building on the second floor. Wow. So for more information, they have a phone number you can call contact a page. I love this name, page mahogany. Does that sound like a stage name to you? For now you know and for your enjoyment page mahogany at 281-624-7056 So if you're transgendered and driving for job like I am and have been out of work since December, this is not good idea and Penny.

J Jimmy Carper 29:41

Community Center isn't big enough to hold all the transgenders in this town who don't have a job.

S Sarah DePalma 29:46

This is true. Well and I thought I would start off

J Jimmy Carper 29:49

I had no idea about this. But the group cats is just absolutely amazing. And

S Sarah DePalma 29:55

you know, I remember when they started and they struggled and they struggled really struggled and they struggle and Blanca They're still here. So

J Jimmy Carper 30:01

they have big dreams and they act on them and they, you know, they have the fortitude to follow through. Well,

S Sarah DePalma 30:07

I wanted to start the show with an interesting guy with it with an interesting story here. Okay. You remember a few years ago Jerry Falwell had a problem with these these little cartoon creatures. Tinky Winky, you remember that? Tell us hobbies? Yes. And they had these little antennas on the top of their head when he decided that those were little pink triangles and that the Teletubbies were just basically shills for the gay and lesbian community. Right. Right. Well, then, now we have Lou Sheldon. Oh, Lou Sheldon, who runs an organization called the traditional values coalition. Okay, that should tell you something right there. If anything called traditional values, you know, that means the hater makes Jerry Falwell look liberal. Well, yeah, he does. Well, now his coalition is alerting parents to yet another danger. Lurking in children's entertainment. Friends, the offender is supposedly Are you ready? The transgender bartender in Shrek two transgender bartender that's what he says the bartender has stubble, yet wears a beard and has quote female breasts. The traditional value coalition warns into further confused matter the bartender's voice is that added up Tada Larry King I saw this story and almost fell off my couch.

J Jimmy Carper 31:31

Kenya's trend transgender was I don't know what they're saying. That is incredible. They really I mean they

S Sarah DePalma 31:36

these people have watched the movie and here are the details for the offending scenes they

J Jimmy Carper 31:41

have they they just have too much time on their during

S Sarah DePalma 31:44

a dance scene at the end of the movie. This transgendered man expresses sexual desire bring jumps on him, and both tumbled to the floor. In another scene in the movie, Shrek and Donkey knee are chained against the wall. Personally, I wish I was in that scene. But the rescue is conducted by Pinocchio, who is asked to lie say his nose will grow low and aw will grow long enough to reach one of the smaller cartoon characters who will use it as a bridge to save Shrek and Donkey. Donkey encourages him to lie about something and suggests he lies about wearing women's underwear. When he denies wearing women's underwear his nose begins to grow. Now, first of all, what kind of person takes offense to somebody a jackass said not just any kid. Yes, a cartoon Jaquez. Well,

J Jimmy Carper 32:45

who plays the jackass? Eddie

S Sarah DePalma 32:48

Murphy, who knows something about picking up transgender hookers?

J Jimmy Carper 32:52

He likes Woody's in in women's underwear.

S Sarah DePalma 32:57

I'm sorry. I think Lou Sheldon says you know really needs to grow.

J Jimmy Carper 33:02

You know, you can't you can't raise money any other way.

S Sarah DePalma 33:05

I remember a few years go didn't did a cartoon and I forget what the cartoon was. And somebody had said that the the cover for the movie was pornographic because he had towers in it. It looked like penises. Oh my god. And I'm thinking you know, you people have way too much time. I mean, just way too. So anyway, so for all of you who have seen Shrek two, I gotta admit, I watched this movie. I don't remember that scene at all. And I certainly didn't pick up on any transgendered people. I think I might have noticed. I think you might think I was in anyway, so I thought I would start by talking about that. Funny. That's really weird. Okay, let me tell you, like see what we I actually came to talk about tonight? I don't know. And has Vanessa been talking about this murder case in California was a transgendered person California. name is Quinn. Okay, well as the audience, let me fill the audience a little bit about boys. When it was a transgendered person, I believe she was a sex worker, actually. But Gwen was brutally attacked. And by three men beaten to death hit with skillets and cans of food, among other things, beaten to death and her body was taken 150 miles and buried in a shallow grave for years. Well, I've picked up some interesting information about this. But that's the point of what I want to talk to you about tonight, and we're going to go into some depth is the issue of deception. When is it deception? And what does deception mean? And of course, it never is going to justify murder. No, but from a transgendered point of view, what does that all mean? So I thought I would tell a little bit about this this case, first of all, the prosecution contended that the three defendants be in strangled her after discovering that she was biologically male. Now the issue hear is that Gwen went by the name Gwen. consider herself a female told people that she was female, acted and dressed as a female. So in her mind, she is female.

J Jimmy Carper 35:13

That's right. And her mother was right there with her now.

S

Sarah DePalma 35:17

That's exactly that's exactly right. The defense counters that the prosecution's offer argument by offering the gay panic alibi. Now if you don't know what the geek panic alibi is, essentially, this is somebody who says, you know, I was attacked by a homosexual and I went into a murderous rage to protect myself and so I killed them, right? Well, they were there did here's they basically took the homosexual panic defense and said, Oh, let's make it the transgendered panic attack. It's essentially the same thing. They rather than claiming their client's innocence, the defense blamed her for the crime, had she not conceal her physical gender, the defendants would not have been thrown into a rage and therefore she would not have been killed is the argument. Now, you know, that is so convoluted, you know, follow the bouncing ball here. Okay, should the if she had not hidden her gender, they would not have gone into a rage and not killed her. As well as if,

J

Jimmy Carper 36:19

once it knowing that she was biologically male, they had no other recourse but to kill her.

S

Sarah DePalma 36:28

Well, that seems to be the this is called blaming the victim and what this is, okay. And the defendants would not even turn to rage that ultimately cost her life. But the jury didn't buy that. In fact, the jury was ended up as a hung jury. So they're going to have a retrial. But it's a hung jury, not over whether the three kids these three young men were guilty or not. They couldn't decide between murder one, or murder two. That's why it was a hung jury. Oh, so we're gonna have to go through this entire thing all over again, they'll have to be another trial. What really caught my attention, though, was it was an article out of the San Francisco Chronicle. Now, the San Francisco Chronicle, you would think normally is a fairly left leaning newspaper. I mean, we're no one's gonna confuse the San Francisco Chronicle with Washington Times, or places like that. But I just wanted to briefly read you something that I ran across from the San Francisco Chronicle. They tell a little bit about the murder. And they talk a little bit about how her body was taken 150 miles away. And then they said, I'm gonna see if I can find what I was looking for here. Yeah, she says transgender advocates make a big mistake when they argue that the teenager was not guilty of deception, or that Arroyo had no obligation to tell sex partners about her gender. What these advocates, in effect are telling transgender teens is, it's okay to play with fire. Long. Let's let's let's back up and talk about this a little bit. Because this issue of trains of hiding, and I know of deception has come up before and it comes up in a lot of ways in the transgender. So I want to talk about that from the start. Let's take, let's say for a moment that you are a fairly new person. And you are just starting the transition process and you're seeing a therapist, and the therapist says to you Well, what we want you to do, is we want you to live in your new gender. So that way, you can see that you're going to be successful in your new life. Exactly. And we want you to tell your family, and we want you to to get your job processes straightened out. And we don't want you to tell anyone what it is that you're doing. Okay, hold it right there. At what point does that become deception? Well, in my book, there's no deception there. And this is something that's being a CISSP. This is required as part of your transition process. There's no attempt to deceive. But from the outside, I can see how it looks that way. For

J Jimmy Carper 39:10

I think for the transgender that deception is the wrong body. Yeah,

S Sarah DePalma 39:15

and you know, Jamie, this was person in the San Francisco product Chronicle. And in her article, it's clear that she doesn't get it. Somebody asks her why this person who is biologically male is being referred to as she and the reporter doesn't really seem to have an answer for that. You're kidding. No. Now, and I think that's a very common issue. I

J Jimmy Carper 39:39

think it's very telling about, you know, her background on the issue that that she's in, she shouldn't be talking about it. She doesn't have any

S Sarah DePalma 39:49

Well, it was a key issue in the trial to this issue of deception was it was a key issue in the trial. The argument was that she didn't tell her sex partners that she was really she was by Alana. sickly male, and it wasn't until one of them actually grabbed her crotch to find out what it was what she was. And when they found out then they beat her to death row. Okay. So this in their argument is because she deceived them they were within their rights to Yes, the killer basically. Yeah. Well, that's a pretty scary concept. Certainly, you know, I

J Jimmy Carper 40:23

mean that everyone on Halloween who dresses in the gender opposite from them should be killed

S Sarah DePalma 40:29

apparently all drag queens should look out for Open Season.

J Jimmy Carper 40:32

What about women who

S Sarah DePalma 40:33

Yeah, your masculine looking women? Yes, yeah, yeah, exactly right. So this argument of this, this whole thing of deception starts early in the process. From the outside people say people will say, all you you're really trying to just deceive us, you're really a guy and you don't want us

will say, all you you're really trying to just deceive us, you're really a guy and you don't want us to know it. Well, who would do that? They're doing the what they do, because it's part of their medical process, and it's required, but to the outside world out of ignorance and lack of education. They don't get that. Well,

J Jimmy Carper 41:02

they don't understand that the brain is female, then that's

S Sarah DePalma 41:08

exactly right. And

J Jimmy Carper 41:10

as a matter of fact, there was a study recently, or maybe not recently, that looked at brain functions of transgenders. And because the brain patterns, brain functions in males and females are very different. Yes, they are. Yeah. And it clearly showed that in transgenders, that male to female transgenders that the brain operated and in a female way, that's

S Sarah DePalma 41:37

exactly right. Well, the thing the problem with with this issue of deception, let's take a look at another example. Let's say you're and you're one of the people that are out in one of the clubs tonight. Okay, you're out in I don't know pick. Yeah. And pick pick any pick any club that you want. And somebody comes up to you. Yeah, somebody comes up to you in and they start making conversation. And the next thing you know what, you're involved with this person? Yes. That you probably hadn't planned it. But this is happening. Now. Your two are going home together? Should you have told your partner what's going on before they get home in bed? And if you don't, is that a deception? And does this person now have the right to basically just kick your ass? Well, nobody has the right to kick your ass. No, but that's the argument being that's the that's the was the essence of this trial? Yes. And it's it's a dangerous question. Because I think it's happens a lot.

J Jimmy Carper 42:33

I think. I think so too.

S Sarah DePalma 42:35

I think this happens a lot. If you're a Jew, and we have very, very good friend, who are owed two dates on a very limited basis. And she doesn't tell people, she doesn't tell the people she's dating, that she's transgender. She has no intention of having sex with them. Oh, she has no intention of she's just dating. That's all. She's just out there having fun. My question to her has

been, at some point, though, aren't you afraid you're gonna get somebody who's gonna get kind of aggressive with you and discover? And then you're going to have a problem? Yeah. And she says, well, but I'm not doing anything to them. We're not having sex. A I'm a woman after all. And she's exactly right.

J Jimmy Carper 43:11

She is. And and I think her argument would be I want the person to fall in love with me.

S Sarah DePalma 43:18

But then that's the question is okay, at what point do you tell the person that you're transgendered? I would say if it gets to the point where you know, it's becoming a serious, yes, a serious relationship, then you have an obligation to say something. Well, apparently, well, you're being deceived. Or you're being deceptive. Yeah. Well, apparently, when the relationship that Gwen was having was not serious. But then again, it was not unserious, if there is such a word to either. It was they had known her for a while she had been more or less teasing with them. So they felt freer with with her, and obviously feel free enough to be able to grab her genitals. Ooh. But at that point, then they said, Okay, well now then supposedly, they fly into this rage. And they can they can fly into this rage, because after all, we have the homosexual rage defense. Well, we used to Well, well, apparently, in California, they still do go, which is kind of surprising for California to do. So that's an interesting issue and this issue of deception. It's the the key issue in this Rahho trial. And it's something that I think any transgender that's out there has got to really think about, yes, there have been a number of sex workers in the last few years who have been killed over this exact same issue. Remember, we talked about one in Austin a couple of years ago, and they found her body dumped in a garbage container? Well, that turns out same same basic issue. They said they they pay gave her money. They brought her home. They didn't realize that that quote she was he when they found out they killed him. Well, in Texas, and this in that particular case, those people were convicted and they were sent to prison. But here in California, they're going to have to have a retrial. So they're going to have to go through the entire process again. And again, there's always the chance that maybe they won't be able to decide again between December between murder one or murder two, and maybe they'll get off again. So now there's a reasonable chance these three boys, three, three guys are going to get away with it. Yeah. I mean, that that's a reasonable, that's a reasonable assumption. And it's a big issue. I think any transgender out there has to really think about, and that is, if you're dating, if you're in the dating process, where are you in your relationship? Are you do you plan to tell if you're a sex worker? Obviously, that's a much bigger issue. I honestly can't imagine though. Jimmy, how you could be how you could pick up a sex worker and not know they're transsexual or say not know, that transgendered. That's beyond my comprehension. I

J Jimmy Carper 45:50

know, well, many sex workers have

S Sarah DePalma 45:54

had the boob job. Well, yeah, but still, but

J Jimmy Carper 45:58

normally a sec, that transgender sex worker works in an area that's known for transgender sex workers. And that's why that's why you're there. That's what that's why that's where the men come to want. A transgender sex worker. Yeah.

S Sarah DePalma 46:14

So the argument to me to say, Well, I didn't know I was picking up a transsexual hooker, is just eluded, Oh, absolutely. I mean, I that that's the dumbest thing in the world. But obviously, it's a defense that people can use. And it's i It's a concern to me, because I know this isn't the subject that doesn't come up a lot in the transgender community. And it really should, that really should Well,

J Jimmy Carper 46:34

I think, for the most part, don't you think that the transgender community is trying to downplay transgender sex workers as made maybe, you know, they give us a bad name type of thing.

S Sarah DePalma 46:47

Now, x actually actually are really down as their Gwen Smith is a person who runs a lot of a transgendered news agency, essentially. And has started she started the project to refer remembering our dead. Yes. And she has done a lot of work on behalf of FOSS street workers, and has really done a lot for publicizing them. I know you've had Vanessa on the show, Vanessa, and I've heard her talk about street workers before. I don't think there's any real attempt to hide it. I don't think there's any attempt to put them out front though, either. Let's face it when you go to Washington or to go to Capitol Hill, you're not you're not really going up there. I don't think you're really going up there on behalf of the transgender sex workers. Well, yeah, you know, so in that respect me you might be right. Maybe there is some attempt to sort of put them to the back of the room

J Jimmy Carper 47:33

when gays marched on March to Washington, they're not going there in you know, in defense of the the neck on

S Sarah DePalma 47:41

for other other boys know that go for this little leather,

J Jimmy Carper 47:45

chaps, but it's certainly not the hustlers over here. Pacific Street.

S Sarah DePalma 47:50

Yeah, well, and it just seemed, it just seemed to me that it was an interest that it was an interesting case to make. They talk and if anybody that's interested, if you want to go to the internet, just put in gwynn's name. When you when you spell that? Yeah, I'm looking for the spill naturally. Now that I need it. I can't find there it is. Her last name is spelled A R. Au Jo. The evidence presented during the trial indicated she was brutally beaten and strangled or a period of several hours before her body was deposited 150 miles from the scene of the murder and then dropped into a shallow grave. Oh, my God, I didn't know that. Yeah, the jury deliberated over parts of 10 days, and indicated they were in trouble that they had written and asked for several parts of the case to be read back to them. And essentially, it turned out that the problem was that they couldn't decide between first and second degree murder. So there was no question whether the person was guilty. What bothered me was this person was this person's article from the San Francisco Chronicle. Let's see here the defense counter the front and the the problem is that they they they're talking about deception. And the reporter from the Chronicles is basically is agreeing with the with the defense and saying, Well, they did. They did attempt to deceive. And that's why the murders took place. I want to I want to warn anybody that's out there in the transgender community is thinking about dating or is dating. If you're thinking of even thinking about being deceptive think again. Really think again, because this is exactly the kind of thing that can happen. It should never happen. But it's going to happen again and again. And again. And I'm sorry to say we're going to be back on the show, talking about this in the future in another state but it's but over the same issue of deception because it keeps coming up and coming up and coming up. So you got a piece of music you're getting ready to play here.

J Jimmy Carper 49:47

Yeah, as a matter of fact, I think that we take a break and I have to put something in your ear and also let you know that Francis Because Sanchez has called in he's had major car problems and he won't be able to make it tonight. So we'll go over a little bit. Okay, well, I can understand Francisco since I took the beginning of your show. away from you

S Sarah DePalma 50:11

S

Sarah DePalma 50:31

J

Jimmy Carper 50:42

The second song is by Veronica Klaus. I love Veronica Klaus. I wish she would make another album because the one that she has the only one that she has out called All I want is just so good. So good. While

s

Sarah DePalma 55:40

You went to the internet.

c

Chris Harrison 55:41

I went to the internet. Her website doesn't work anymore. But I did a search of her. Back in May. She did a fundraiser for inequality group. Wow. She's considered a cabaret singer in San Francisco. Now she is so

s

Sarah DePalma 55:54

so she should do another another CD anytime now.

j

Jimmy Carper 55:57

I hope so. We hope. Are you kidding? She'll probably go on tour next week. Yeah. So you want to stay with this or you want to turn it over to me or what? Well,

c

Chris Harrison 56:07

S

Sarah DePalma 56:16

Oh, I love live radio. I love live radio.

J

Jimmy Carper 56:25

Thank you, Chris. Yeah, this

S

Sarah DePalma 56:26

is the longest time you've gone in a while, isn't it? Yes. Yeah. How are you feeling? I'm feeling very good. Yeah, yeah, you were out there a second on a bag and you feel better? Yeah. We went out and smoked a cigarette and probably saying

J

Jimmy Carper 56:39

yes, yeah, no, we don't know. I know that I quit for 10 years. And now I'm smoking again. And when my mind is ready, I will quit again. But I know me and I know this addictions of all kinds that you have to have a mindset of wanting to give that up. Or else it's not gonna happen. I

S

Sarah DePalma 57:08

gave I gave up smoking you. I'll tell how long ago it was to me. I gave up smoking when it went to \$1 a pack. Wow. And what happened was you know how coffee gets spilled in the ashtray. It just looks so bad. And it stinks. Yeah. And I thought my lungs look like that. Scared me to quit. I know. Not quit. Hey, I'm not yelling at you. You can do what you want. Well, Stanley doesn't know. He does now.

J

Jimmy Carper 57:35

Stanley doesn't listen to this show. He's in bed. Even in Seattle. He's in bed. I'm sure that before the show goes on, I'm sure.

S

Sarah DePalma 57:45

Well, I read it. I do want to say

J

Jimmy Carper 57:47

something. The problem with me was that even though my mindset was there, and I was able to quit for 10 years, every day of that 10 years, I wanted a cigarette off

S

Sarah DePalma 57:57

to Lori to this day. It still smells good. Yes. And there are so times where I am so tempted, and I think now, not now if I do Laurie will have me shot so I can't do that. Okay,

J

Jimmy Carper 58:07

that's good. Yeah, yeah, that's Look who just walked in?

S

Sarah DePalma 58:12

Oh, it's good to see.

J

Jimmy Carper 58:14

Hi, Mel. How you doing? How's it hanging?

S

Sarah DePalma 58:19

Now not a question to ask. That's more of a transgendered question to be asking.

J

Jimmy Carper 58:27

I know. I know. But it's male. And she always talks about my faggy voice. So well, you do have a big Peggy. I do have a big faggy voice. I know it.

S

Sarah DePalma 58:35

And he admits it. And what's more, he thinks it's attractive. Well, I don't know about that.

J

Jimmy Carper 58:41

But it's the only voice I add sometimes on especially on esoteric adventures or get down to this radio.

S

Sarah DePalma 58:48

I've gone on to interviews in the last couple of weeks where they've said to me that I have a unique voice and that would be easy to remember and have gone home thinking does that mean that I'm not passing with my voice anymore?

J Jimmy Carper 58:59

No, no worries. She

S Sarah DePalma 59:00

said it's a really a unique one.

J Jimmy Carper 59:02

I think it may be kind of in between? Well,

S Sarah DePalma 59:05

that's what I thought and then my response is always you know, well, you know, allergies. We'll do that. Here's how you live in Texas. Everyone's got allergies, you

J Jimmy Carper 59:12

know, talking talking about passing you were talking about something about facial hair earlier. Facial hair. Yes.

⌚ 59:23

You have quite a bit Jamie. Well, I

J Jimmy Carper 59:25

do but transgenders maybe with facial. I don't know what the reference was to fish.

S Sarah DePalma 59:31

You got me on that one. Okay.

J Jimmy Carper 59:32

Got me that and I was thinking Have you have you seen old Hungarian women

S Sarah DePalma 59:44

that I'm afraid to ask where this is going.

59:46

Smith.

Sarah DePalma 59:48

She has a very faint but their little muster many

Jimmy Carper 59:51

will met with many women have facial hair. A

Sarah DePalma 59:54

friend a friend of mine her. She's here. She talks on the internet Internet Relay Channel. I found it I guess I can say this on the ear. Her her nickname on this is Harry nipples. My ex girlfriend doing it every time I see that it's like, first of all, even if I had those were saying to God, I don't I don't think I tell anyone.

Jimmy Carper 1:00:17

I'd be running to the electrolysis.

1:00:20

Well, my last few acts is genic females and hairier nipples on it. And so Wow. Well,

Sarah DePalma 1:00:27

we were teasing the audience beforehand. We should tell them about this about this story. Okay, I ran across the story, and I'm not going to read the whole thing. I'm just going to read part of it. And then I'm going to describe what it took to find out who's really behind this story. Oh, okay. This is a story about the mayor of San Francisco. Okay. And the days before San Francisco. Days before San Francisco began issuing marriage licenses to same sex couples, top aides to the mayor routinely consulted with Are you ready, homosexual activist, and what one pro family group says a monster conspiracy to break California law. Oh, now it's a shock to me that the mayor of San Francisco would be speaking to gay activists who would have thunk it. But okay, fine. Details obtained by Judicial Watch. A public interest law firm revealed that three homosexual advocacy groups in San Francisco shared information in the mayor's office, ranging from talking points on same sex marriages to legal advice. Okay, fine. So this article goes on and on and on. And they keep dropping the name of this organization. And that

organization never wants to tell you who are they really? Who are they really, they're, they're making these accusations about the mayor of San Francisco. Who are they? Yeah, okay. And it's this guy goes on and on and on. And he quotes I think the hit was obvious to me when he says, speaking to members of Exodus, the ex gay organization, exodus

J Jimmy Carper 1:02:03

of all places, I

S Sarah DePalma 1:02:05

went Ding, ding, ding, ding, I'm beginning to understand who the heck this group is. And what, because you're clear, because he says, I was stalked ensure and astonish, that the mayor of San Francisco would be speaking to the Human Rights Campaign. Well, I'm stunned. It was doing anything. It was usable, little. So now I want to know who are these guys really? Okay. So I started doing some research. The name of this website is C NSN. C NSN. Yeah. And I thought, what does that mean, Christian? So I look and I look, and I look, and I'm like you I'm guessing Christian something's. Well, it stands for cyber caste News Service. Fine. That still doesn't tell me who the hell are these people? That's right. Yes. Who's funding them? The websites being funded by somewhere? will finally I find out? It's owned by the Media Research Center? Oh, fine. What the heck is that? I've heard of them. And I'm thinking, oh, you know, this is this is the beginning. This is something I need to call in monk. Let's call him monk, who are these people? Well, then I get down to the bottom of this the very last page at the bottom. I mean, literally at the bottom. This guy's this guy talks about how are they want to be able to expand this organization, and how they want a future things to go better and is the media of the media, the mission of the Media Research Center, is to bring balance and responsibility to the news media. Sounds reasonable balancers? Yeah, but that's what Fox says here. Leaders of America's conservative movement have long believed that within the national news media, there is a liberal bias that exists that influenced the public's understanding of critical issues. Finally, it took me 40 minutes of tracing through about nine web pages and lens digging my way through this crap to find out that they are the Media Research Group and where are they located? Next door to Jerry Falwell's church in Virginia.

J Jimmy Carper 1:04:12

What do you know about bow bow?

S Sarah DePalma 1:04:15

That's amazing. Took me to find out

J Jimmy Carper 1:04:17

when said,

S

Sarah DePalma 1:04:20

I'm thinking okay, now these people are talking about truth in the media and the fair and balanced reporting. Why are you lying once you

J

Jimmy Carper 1:04:28

know, I don't get it. Especially when they're talking about Exodus. I mean, that just sits in my craw.

S

Sarah DePalma 1:04:34

Like there is such thing as ex gay. Yeah, I've met him.

Ω

1:04:39

There. I think I met him over at the club tonight. And his boyfriend.

J

Jimmy Carper 1:04:44

This is a group that thinks that they can cure homosexuality through prayer, and many other things, including shock. They're here years ago, and it's so ridiculous. And just a few years ago, the Two of the I guess they were on the board of directors of exodus of Exodus, fell in love

S

Sarah DePalma 1:05:11

and left the organization with each other. And I think I heard about that. They

J

Jimmy Carper 1:05:16

went around the country talking about what a farce Exodus is.

S

Sarah DePalma 1:05:21

Years ago when I was in queer nation, there was a church in the heights that was advertising homosexual healings. Now, you know, I can't pass up an opportunity, like

Ω

1:05:30

they had a gay doctor.

S

Sarah DePalma 1:05:31

This is just too good. So So three or four of us from from queer nation decided to go up there and we're gonna get ourselves healed of being homosexual. And they put they laid hands upon our shoulders, and they anointed us with oil. That sounds like gay sex right there. I'm telling you, it was great. And they cast out demons. And then we all stood there and kissed each other right there in the middle of the church, good for you. And they were just mortified that they had cast out the demons it obviously they didn't know effect as the demons were still the church kissing one another. It was the most fun I've ever had to

J

Jimmy Carper 1:06:03

churches so ridiculous, especially in this day and age. Oh,

o

1:06:06

no, I say they're, I think they're going about it the wrong way. You know, with all this, they browbeat everywhere, and body and all that. See, I'm actually trying to become ex gay, but using a different thing. I'm trying to have so much lesbian sex that I just got sick of it.

J

Jimmy Carper 1:06:23

Well, let me tell you, I'll tell you why, you know, gay sex in my life, and I never got sick of it. If

S

Sarah DePalma 1:06:30

I ever get sick, you better just hit me shot because I'm ready to go. Well, I ran across the Eiger ran across another story about transgenders, which I find this very interesting. Okay, apparently, the Olympic Committee has opened its doors to certain transsexuals who are going to be allowed to compete in the Olympics. Okay, how are they going to do this? Well, they put the chairs No, no, this is a story last month the International Olympic Committee enacted a policy on transsexuals, before any elite athlete could force the question, the committee said transgender athletes could compete in the Olympics if they met certain requirements, such as completing genital recovery surgery and at least two years of hormonal therapy. The IOC also requires that legal recognition of their assigned sex has been confirmed by the appropriate official authorities such as the nation's courts. You

J

Jimmy Carper 1:07:23

have the operation, therefore, you can be in the Olympics.

S

Sarah DePalma 1:07:27

Well think about it. You may remember Dr. Richards the tennis player. Yes. Renee Richards had to have had the surgery before they wouldn't before they would give credit. And it turned out it didn't matter. Rene Richard still wasn't negative tennis player, male or female. But she said she's able to attract a lot of a lot of publicity. This is Which reminds me if you haven't if you don't follow Wimbledon, the young lady that just won Wimbledon, you don't even stop Rova last name. Yes, honey. This girl is 18 I would kill to have vinyl like when I was 18. It's funny because the news reporters on the way they're covering this every time she had been down to get ready for serve. The cameras would focus right on the base of her boobs. So you knew that you guys wanted these cameras? No. Absolutely. Anyway, to get back to the Olympic thing. Yeah. First of all, you have to have had the surgery. But the more importantly, your status has to have been approved by a court. Well, not you can. Europe that would be that didn't that's not a problem. Yeah, but but in the United States, it means there won't be any chain transactions competing anytime soon. Yeah. But I thought that was very, very interesting that they left the court. Yeah, that's

J Jimmy Carper 1:08:34

because just a few years ago, they were doing the that's the DNA but the X Y factor as to who's male and who's female. Well,

S Sarah DePalma 1:08:48

it turned out that was a problem. You remember the East German athletes that used to win the Olympics year after year after year? Yeah, well, it turned out that there are some of them were x x x, y x x, x, y, y y. And it sort of looked like there had been some manipulations in there. And and they decided that maybe that was not an accurate way of going about it.

J Jimmy Carper 1:09:07

So they're not doing the genotype thing anymore.

S Sarah DePalma 1:09:09

No, no, they're saying the fact that committees medical director says the policy was designed to protect the athlete who has not been sex reassigned than it is designed to help the to help the regular athlete so what they're trying to do here is they're trying to make sure that transsexuals don't have an unfair advantage by perhaps having greater sakes strength or greater speed than or nor I a genetic woman would how okay

J Jimmy Carper 1:09:34

that's that's for the two years of hormone that's that's

S Sarah DePalma 1:09:37

Sarah DePalma 1:09:37

that's the purpose of the two and

Jimmy Carper 1:09:40

then we're dealing me that you know, when you had been on hormones for a while you notice the lack of string

Sarah DePalma 1:09:45

honey my muscle strength disappeared. Yeah, I used to be able to pick up you know, 50 pounds sack and throw it like it was nothing. Now it throws me Yeah,

1:09:54

I can attest to that. I used to be like freaky superhero strong and not anymore.

Sarah DePalma 1:09:58

Oh, no. No, and I'll tell you the I guess I can tell the story on the year. The other thing that happens is that your breasts become super sensitive because of the hormones. Oh, yeah. And I'll tell you one day I was at Kroger's, and I picked up a bag of groceries and held them close to my breasts a little too hard. Now, I screamed in the middle of the Kroger's parking lot, and dropped the bag of groceries on the ground. And I've got oranges and eggs and things broken over. And I'm standing there holding on to my breasts go oh, it hurts.

Jimmy Carper 1:10:30

Worse. Oh, yeah. Hurting says Oh, Jimmy.

1:10:33

Jimmy, what's worse is like after when you first start on hormones. You're not used to having them. And you do things like you know, Wacom on the like, edge of the

Sarah DePalma 1:10:44

car door Yes, like that. They stick out in places where you never stuck out before. You

1:10:48

hit them on the car door on the you know, the frame of the door and all these other things.

doesn't feel good.

 Sarah DePalma 1:10:53

You know, the hard part for me was picking things up and because you would hold up to your chest and your chest would let you know that was not the smartest thing in the world to do. The other thing is it plays hell on your emotions. Laurie would tell you I would cry it dog food commercials. I was so weepy.

 Jimmy Carper 1:11:08

She's over here shaking, nodding your head. Yes.

 Sarah DePalma 1:11:12

I mean, the emotional aspects that was I would just get weepy and cry at the dumbest things and learn but like, what's the hell is wrong with?

 1:11:25

I did that before Hormats? Did you realize I cried to cartoons?

 Sarah DePalma 1:11:31

They I can't say that I did that I was quite that bad. But I can remember some commercials. And when commercials start to affect you, you know, you've taken too many hormones for too long.

 Jimmy Carper 1:11:41

So so so I guess. Now actually, there's quite an issue. You kind of light on the nipple play then?

 Sarah DePalma 1:11:47

Yeah. Well, you know, but now we were running up in an interesting issue. Jimmy, there are a lot of doctors now who are refusing to prescribe hormones. What? Well, well, because they have a very strong link to breast cancer now. And it's a it's a very strong established no more argument about a kind of link. Yeah. And there are some doctors who saying, Look, this is good, this may very well be dangerous for you. Now, for somebody like me, this is going to be an interesting dilemma. Because it appears now i'll probably not going to be able to have the surgery. I'm having to live on the money that I was going to use for surgery is a lot of work. Yeah. So surgery is probably not going to happen. But they can't keep you in high dosage of hormones forever. So when my dosage of hormones runs out, which it will within

about the next 60 days, I'll be very interested to see whether they're willing to put me on hormones again. Or if they're going to say no, that's it, we have to come up with do something else.

J Jimmy Carper 1:12:43

Okay. Something I guess I don't understand that. Are you saying that after the surgery, you take a lower dose of hormones? Yeah,

S Sarah DePalma 1:12:52

it's basically the equivalent of birth control pills. It's the low dosage maintenance. And you have to take a higher one as long as you have here because your your genitals are continuing to create testosterone. So you need to be able to keep that down and keep your female characteristics. Oh, I mean, some things would always stay like your breasts would stay. But some parts of you would, would not remain female. Okay. I'm trying to think I realize it's one o'clock in the morning, but I'm being careful what I say here. I don't want to have the big kickoff here actually

J Jimmy Carper 1:13:21

is 132. And we are awaiting a call from Dean Becker. Oh, yeah. For the for 20. Drug, drug drug.

S Sarah DePalma 1:13:32

War news, what you said. But but it's gonna be a very interesting thing to see what happens now. Because if they can't prescribe the hormones for you anymore, and a lot of doctors won't having a lot. They really the hormones were mostly designed for helping women get through menopause. Yes, well, that's fine. But they're not prescribing the hormones for that purpose anymore. Because this is such a strong link. Yes. transsexuals only tangentially but but because we also are users of the hormones are going to fall into that same category of finding that they're not going to be able to get them and what their replacement is going to be or how they're going to do it will be fascinating to see. Oh, well. I

J Jimmy Carper 1:14:11

just said that Dean would be calling and I'm looking up at the computer and it shows that Dean has been on hold for almost two minutes. Okay.

⌚ 1:14:20

Two minutes right now.

J

Jimmy Carper 1:14:22

We Yes, Matt knows exactly which button to push. There we go. Hello, Dean Becker. Hello, Jimmy. How you do?

o

1:14:30

I'm good. I'm good. I don't know. I want to give you a quote. Yes. All right, quote, today's pot is up to 2500 times more potent than the stuff aging boomers might have experimented with in college. Right? Yeah, that's from the Calgary sun. Author was Linda Williams and you know that that means that the stuff we use would have been about point oh 4% or something
