00:00

Yeah, that's from the Calgary sun. Author was Linda Williams and you know that, that means that the stuff we use would have been about point oh 4% or something and the new stuffs 100% I don't know how that could happen, either. That's the kind of propaganda that they use. They don't they don't base it in fact, or scientific knowledge. They just throw up some stuff and hope it'll scare some people.

00:22

Hey, no extraction. That's where she got it from.

00:25

That's it. I don't know, I'm gonna do kind of a different show this week on cultural baggage. Not necessarily have one guest I intend to have four. Wow. And yeah, they're talking, you know, different subjects and so forth. But one of them is this lady out of Arkansas. She runs now it's it's called alliance for reform of drug policy in Arkansas. And they're looking to get people to, you know, collect signatures so that they can have a marijuana, medical marijuana proposition put on the ballot. And, you know, kind of reaching out into the US and Canadian communities for people that might want to come down there and join them. They need to get 30,000 signatures in the next month. And then I'm also dealing with a gentleman out of racket Ville, now excuse me, Duncanville. And he runs an outfit called hog automotive services. And what he does is he gets prisoners being released, gives them a job, working on cars, you know, engines transmissions, air conditioning, wiring, whatever. Gotcha and trying to give them that second chance that's supposedly promised once you get out of prison.

01:37

Yeah, that that's a big, big problem for ex cons when they get out is just getting work again.

01:46

Exactly. Yeah, exactly. And then the chance Yeah, a chance. That's it. Then we're also going to hear from Karen height, and I can't get her name, right. Hi, Ocala. Okay. She's a public relations director for Texans for medical marijuana. And there's a chance that we may have some success with that this year. With really well, many of the congressmen are beginning to realize that it's in their interest. That is no longer that, you know, third rail than they actually talked about

S Sarah DePalma 02:17

to watch tres Strom Thurmond do a doobie.

02:25

That would be something

S Sarah DePalma 02:26

considering you did it was interesting for ya just. Wow. Well,

02:32

one other note that while we're talking politicians, I heard this week they did a vote on the hanky Rohrabacher bill, which basically would have stopped funding the DEA and going after medical marijuana patients. We lost again, of course. But there's still approximately 150 us congressmen voting to end this, which is a good thing. It just shows that, you know, somebody

02:56

out there is paying attention. Right. And

02:59

one of the I don't know, changes that took place was Congressman Chris Bell actually voted, you know, on our favor. For

S Sarah DePalma 03:10

two he said he's seeking a fourth. He's leaving office at the end of this term.

03:14

Exactly. Just like a Clinton. The last week in office said I don't think anyone should be arrested for marijuana. Yeah, so he had just led the jihad that had arrested over 3 million people during his term in office for marijuana. And then I'm going to have one other guest. His name is goodwill Pierre. He's with People for the American way. And what he does is try to get people in particular former prisoners signed up to vote again, which is something I'm hoping to all our listeners are doing, because you got till October 2 to get it done die if you haven't signed up. This is about the most important election ever.

03:49

It's the most important thing you can do. Indeed it

03:53

is. And I'm recommending that everyone voted absentee. That way it's on paper, and by God, they can count it again, if they have There you go.

04:03

I don't know, looking more and more toward that myself. Right. I

04:06

think it's the smart thing to do. One last thing I'm also going to be reporting on over the next couple of weeks is the drug war on trial. Not too many people have heard about this. major media has left it alone, but is a case over the 3/32 Court. Judge Halbach seems to have a good court but there's a this case is looking at chambers County and the machinations that they did back in the late 90s That included racial profiling, you know, every dirty aspect of the drug war and you know, it's it's a shame that you know, they put these cop shows on and reruns of Miami Vice and drugstores after drugstores when it's bad. But when we're showing the corruption the greed graft and hypocrisy of These cops of these district attorneys and you know, county agents and the DEA tied into these task forces and and how they arrested 150 black people, the man who was the most responsible for it, or at least who's taken the blame God sentence for it. But that 150 people that were sent to prison based on his word and his staffs actions under his control are still there. You know? Yes. Like the tool, your group, they finally were, you know, released. These 150 People in chambers county are in prison. And it's kind of a backburner issue. To, you know, the major media, because we've had all these scandals here tool, you know, the sheet rock scandal, Houston, Crime Lab, and many, many more, and they just don't want another one. So they're not focusing on at ABC capital city, Disney. You know, they don't focus on this when it's going to show what a sham it is. Yeah. And anyway, I'll be covering that. And I and I hope to bring you further reports in that regard.

06:03

Thank you. Thank you that and cultural baggage is on of course, every Tuesday evening. 630 to seven. And there's 420. Drug War news every four to 20. Afternoon except for one prohibited on Sunday. Oh, never on Sunday. Hmm. Oh.

06:25

Yes, indeed. All right. And and I thank you all very much for the chance to speak with your listeners.

06:29

You bet. Thank you for calling in. Dean Becker, Colton, from cultural baggage. And he calls in on this show every Saturday night at 130 to let us know what's going on.

06:44

It does seem silly to me. The way the drug so called drug war is being fought. And it strikes me that if you really want to win the drug war, the way to do that is to legalize it. Of course.

07:00

I mean, that's the obvious thing to me is just legalize it. They've done it in places in Europe. And you know what, it works pretty good. Very well. Yeah. Netherlands, you know, we're not going to be that logical this country. But you know, you legalize it, then the government gets to tax it like they do cigarettes. And that brings in a lot of revenue.

S Sarah DePalma 07:19

I've made the same argument about prostitution for years. Oh, yeah. I'll tell you real funny story to me. Years ago, I was doing a radio show in Connecticut. And I had three really high class call girls on the show. And so they were talking about how much money they earned and stuff. And this one woman calls in system view, women are disgusting, you're revolting, and she's going on and on and on. And finally, one of the hookers sister, ma'am. I make \$1,000 a night, what do you make? And there's a real long silence. And she says Tucker says, Well, when you make that kind of money, you call me back. And I didn't know what to do. I looked at her and I thought my show was over at this point. There's just nothing left to say like, well, thank you. And good night at the end of this program. It does seem sort of silly. If you're going to spend that kind of money, wouldn't you be better spent? And, you know, drug rehabilitation and medical facilities? I mean, it's even the people who are fighting the drug war think it's a lost cause. And the jails

08:20

08:20

are full. You want absolutely full. I can't tell you how many jails have had to be built just to hold people arrested for marijuana.

08:30

Wouldn't it make more sense to just decrease the number of people who were you know, if you lower the demand? Yeah, it's hard to sell it. You know, I mean, I'm just thinking, trying to think logically, it just seems silly to me. Yeah, you're throwing people in jail. And for what? You know, I'm you know, I'm not suggesting somebody go out and break the law on me on cocaine and tonight, but, but it does seem like there are better ways to handle if we would just rethink you know,

08:56

you you know what did this country learn from alcohol?

S Sarah DePalma 09:02

Yeah, prohibition was a big success. Al Capone he was doing well with it exact Kennedy family did well. Oh, did they ever? Yeah. I mean, it's it was successful for some people. Yeah, but

09:15

hardly for anybody else and during Prohibition, but they kind of don't, you know, focus on is that so much of the homemade stuff, killed people.

S Sarah DePalma 09:27

It was called White Lightning because it went right, right. Right to the nervous behind your eyes. And you went white? Yes. You didn't. You couldn't see literally, it was white lightning. And it was like 98% impure stuff. Yeah, yeah. tubs. So

09:41

you know, you legalize it. You have government control, you tax it, you you make some money off of it. And it's treated just like alcohol. If you smoke, you don't drive period. Yeah. And stuff like that. Yeah.

09:56

And I know when I was in Europe that they were, I mean, they have played Just put aside for people who were going to be smoking marijuana or in the government was able to get some

control over it. Yeah. And they were able to maintain medical facilities with it. It made a whole lot more sense to me just and I've made that same argument for prostitution for years and years and years. Mirror Arbonne back two years ago, your or Bombeck years ago said that if motherhood was the first was the first job for women, being a prostitute was the next one.

 S Sarah DePalma 10:30

That's not just think there's a lot of truth in that. Hello, are you there? Yeah. Hi, Bill. Okay, just Yeah, I just,

 10:38

I was gonna jump in a minute ago. And I was like, well, the mic was dead.

 10:41

Oh, sorry.

 S Sarah DePalma 10:43

I'm sorry. I'm sorry. Yes. And I can't see you from where I'm sitting now. So I'm over there.

 10:47

Wait, yeah. And Jimmy's just really paying you know, wonders attention to you. Almost doing calisthenics trying to get his attention thankfully, somebody cares.

 S Sarah DePalma 10:57

Well, the old Mayor he what he used to be

 11:03

but yeah, that's one of the things I said Yeah, that's probably one of the easiest way to get rid of is legalize it. The one of the things somebody pointed out to me one time we're in we're having a discussion about that is it like now you know, you've got alcohol and you know, that goes through a big you know, distilling process and all that and it's like you can easily make like you know, really messed up alcohol and go blind or kill yourself tobacco takes like you know, a lot of effort to get it dried out and all this other stuff so you can you can make a good cigarette with it. But the thing about marijuana is pretty easy to grow and you know, from what I understand it's not that hard to harvest and get it to where you can smoke it

s

Sarah DePalma 11:44

I used to grow I used to grow Waterbury, Connecticut windowbox marijuana Yeah. seeds out in the summertime and by Autumn you had all the with all the marijuana you needed for the winter Yeah. And

o

11:54

see says so I pointed out and so the thing about that is if if they legalize the pot, it would you know, the people that would probably do that instead of you know, alcohol or regular cigarettes, it's like they would need to go out and buy this stuff. They could just grow go you know, they can go to you know, the garden shop and buy some pot seeds and, you know, have their pot garden in the backyard and they would never have to go out there. It's like that was one of the arguments that I put up, is it you know, it would impact those other industries?

s

Sarah DePalma 12:24

The alcohol companies wanting marijuana made illegal because it hurts their business, of course. Yeah.

o

12:29

That and just you know, other.

o

12:31

I'm sure that alcohol lobby is very strong to keep these drug laws intact.

s

Sarah DePalma 12:38

Hey, Melody. Yeah, I need a little different subject. Have you heard anything from the Kerry campaign about where they stand on transgender issues? Because I sure haven't heard a peep. Oh,

o

12:46

I am so out of the loop right now. It's not even funny. I just finally got the internet after like being out out of it for like a couple of years with my work schedule and everything. I haven't heard a peep from.

s

Sarah DePalma 13:01

Talk about gays and lesbians. I haven't heard them use the T word a single time was front

13:06

page on the voice this this week about carry and how good he is for gays and lesbians. But they didn't mention anything about Yeah.

13:15

Well. I mean, in the past has any presidential candidate ever said anything about transgenderism? Yeah.

S Sarah DePalma 13:22

Oh, Hillary, Hillary Clinton. Yeah. Oh, Hillary was the only one that I've ever heard of. I never heard Bill mentioned it. Okay. I was just curious whether whether we've made it that far whether that, you know, I

13:33

I'm a lot more out of the loop than I was last time you saved me. So, I'm working more as a friend of the community now.

S Sarah DePalma 13:42

I understand. I understand. Well, Jimmy, if you want to put some music in here, you can go ahead and I think Lori and I are probably gonna need to hit home to she has

13:50

to work tomorrow. Getting kind of bleary eyed over there. Well, the poor poor girl. She has to get up at seven o'clock in the morning and I don't I don't I don't want to keep you too late because I want you to come back. Well,

S Sarah DePalma 14:00

the boss is sitting over here to my right, so she's chuckling but

14:06

that's okay. Okay, well, I've got that Veronica clap song.

S

Sarah DePalma 14:11

queued up. Well, and before I go, we oh, he's on the show the same way? Absolutely. When decorum becomes repression, the only dignity free people have is to speak out. Goodnight, folks.

K. We're gonna do an extended roundtable tonight. It's not often that we we get a chance to do things like play a lot of music and then extend other segments like we extended Sara's. But when we have that gap, we can do it and it's sort of like doing a queer music zone. Again, I haven't done those in years. Oh, yeah. I used to take at least a half hour of the show just to play music. And I am going to play a mini concert next by Mark waggle. This is a man. No,

that's not him. This is the man where is he here? This is a man who's got several CDs out and he does a variety of styles. It's he's just an amazing and amazing talent. You

Chris 1:04:18

had to find the one song that you could say was dedicated to yourself Well, I just have no idea he wouldn't mind if he was to call Yeah, I

1:04:29

mean, I did to parody songs in a row. They're from him, but he writes his own music very excellently. That first one was love your body as it is, which I really like. And the other one is from his first album, and it was a duet with Blackberry, which I really like. But I played that very often, so I didn't include it. I was doing some of the stuff that I don't play some

Chris 1:04:53

o

1:11:21

question though is can we talk about anything?

B

Bobby 1:11:26

This is what you get for starting this segment early.

C

Chris 1:11:30

Scotty, if if you hear if you can hear me and you're going to be stopping by afterwards, bring something from the BRB for me. And a Scotty you can't Dean call back. I need some medicine.

o

1:11:43

Anyways, these Aryan Cubans boys will show you that I get with these dog holes every day. But of course, you did not read that along without not reading the second draft. Chris, what the hell is CPR Sunday eight to 10 They kent stating that homosexuality is a choice

 Chris 1:12:04

CPR is another one of the wonderful fine programming you hear on KPFT. And we wish certainly would not want to bash one of our fellow programs. I did hear it that night. Yeah, one of the things is there's always been a debate, especially with, with the talking about gay rights, and that, of equating it to the civil rights movement of African Americans and some of the programming and some some programs, some people who are very much active in the African American community and the rights and reparations portions are take offense to the equation of gay rights and African American rights. And that's a most I haven't did not personally heard this the particular segment. But I think that's probably where the line was crossed, where you're getting people who are ideal, who don't like that line, who do not like that line being blurred of, you know, the simple fact of the day, consider that homosexuality is a choice. Well,

 1:13:11

that's not all that was said on the show. I mean, I heard it, and I was actually terrified by it. I listened to that show. And I find it very informative, and a lot of really good things. But I really do have something I want to say about it. No, no. I mean, seriously. Okay. And the reason why is the whole thing that they keep saying is that there's no no similarities whatsoever between the black liberation movement and the gay liberation movement. And I, that night, I realized there is one main difference. And I'm old enough to remember when people who were being oppressive, would quote the Bible, quote, religion, and talk in these very, very crazy things in very reasonable voices. And they were, it was the same tone of voice and the same quality that I remember hearing. white racist, and oppression, oppression is talking about why it was okay to oppress black people, same tone of voice, same rational way of approaching it, and the same crazy stuff, because it's not a right to oppress anybody.

 Chris 1:14:19

Yeah. And I mean, that's

 1:14:22

my piece. Sorry, I

 Chris 1:14:23

had to say it. Well, yeah. Like say, this is one of the things you know, we talked before about there were some other individuals that were talking about the fact of gay programming is de masculine in society. And, you know, this is unfortunately is where some people look at these and come from their personal point of view, and it's a matter of trying to make change in people's opinions. And you know, there's some people whose opinions are not never gonna change, you know, we're never gonna get Jesse Helms on our side. And there's other people who,

1:15:02

and you never going to successfully rationalize oppression.

c Chris 1:15:07

Dr. Martin Luther King, Jr. made the comments of a peace in the quality of everyone. And did you bring me something from the bar, Scotty? Because I need it.

R Roy 1:15:20

Scott is the so Chris. The

c Chris 1:15:22

fact is that we've got I mean, you know, his, his widow Coretta Scott King, made the comment that if Dr. Martin Luther King was still alive today, he would be working for gay civil rights. And unfortunately, we, you know, a lot of the messages get lost of, of the leaders from that time and where they come in from nowadays. So that, unfortunately, is where that comes from.

R Roy 1:15:50

And so Chris, what you're saying that, that people here at the radio station are not all lockstep in one. But we do have a real diversity. It was

1:16:03

mostly the callers that were saying all the really crazy.

c Chris 1:16:05

Yeah, well, the thing is, there is a diversity of opinions, you know, there's a diversity of opinions on this show, and a lot of diversity in a lot of different thought ways. You know, we've got, we've got a room full of people in here, and you know, there's going to be something we can find that has a wide spectrum of opinions and beliefs on and you're going to get that cross section and one of the, one of the fortunate things that you have with a station like KPFT is the fact you can have that broad range of opinions and actually get it aired and, you know, the fact that something is said you get to hear it, you get to get to experience you know, absolutely. And that's part where that comes from and you know, we spend our time and we try and show a different view of that and a different opinion and hopefully people get the message out and understand it. So it

R Roy 1:16:58

just goes the shoulders those are thing as a gay agenda, we can agree on anything.

B Bobby 1:17:05

Next while we're while we're on the subject of differing opinions, the went to go see Fahrenheit 911 this

♂ 1:17:16

week. Really, how was it you know,

B Bobby 1:17:19

if I wasn't mad when I went in, which I was I was really, really mad when I left at our current regime and they're right regime change does need to begin at home starting Oh, I don't know November

C Chris 1:17:43

Well, it starts a little earlier than that because you've got the conventions that come up first well let's let's take a step out real quick and play a little music I haven't played these guys in a while. Push the magic buttons here and figure out what I'm going to do well the Super Eight come shot everyone loves a muscle boy and we'll be back in one moment.

1:19:56

But everybody, everybody Absolutely everybody, everybody, everybody, everybody everybody everybody

1:20:14

who can't get there's nothing

Chris 1:20:35

seems kind of strange to play that song after we played Mark why goals? Song they're about you know, doesn't matter what your body you're in and that we play a song called everyone loves the muscle boy but you know, we haven't played it a little Super Eight come shot in a while so I figured we say that I just did

Bobby 1:20:55

big fan of muscle boys.

Chris 1:20:57

True.

Bobby 1:20:58

I'm not into it I just not I like normal looking people

Chris 1:21:02

because they can beat the hell out of you.

Bobby 1:21:05

If they can get close to me, if they can get within seven feet of me with that staff, they can try. Okay,

Chris 1:21:12

so smiley had some articles in this Bobby's

1:21:15

big staff.

 Chris 1:21:21

Okay, so let's go through some of the articles that smiley had

 Roy 1:21:24

one of them here who's got something

 1:21:27

we want to touch on just briefly. And white

 1:21:33

or boxer?

 1:21:36

Nothing briefs.

 Chris 1:21:40

So, find more music cue up here.

 1:21:44

One thing that we did want to hit on just quickly because it's about to go to Congress here in a couple of days is the gay marriage bill. Smiley sent in an article about that and actually had some cute comments written up at the top it

 1:22:02

says already went

 Roy 1:22:03

to the Senate. The Senate goes this week. The same goes

 1:22:06

on the 12th. Monday,

c

Chris 1:22:09

the Senate has started debating the issue, and then they're going to vote on it.

o

1:22:13

They're voting on it this coming week. So Smiley's comment says, Boy, they're reaching, aren't they? I was just saying to God yesterday, God, we're on a first name basis. God, what do you think about gay marriage? You know what he said? Nothing. Not a damn thing. couldn't have cared less. He was more interested in Iraq's new government. So just everybody. Contact your your senators and congressmen and congresswomen and just let them know where you fall on that issue. Because it is going to be coming before the floor pretty soon. Yeah,

c

Chris 1:22:53

the part with us was talking about the 1913 law that Massachusetts has that they were using the view, if it's illegal in some other state for people to marry, you can't cross the state line and they'll marry it. So they, they're invoking that law of saying, well, if someone's got DOMA out there, that it isn't gonna work. I actually listened was had nothing to do apparently. And I watched our Texas Arizona, Senator Cornyn, do talking on this on the FMA. Case there and you know, just going through all the stuff of talking about you know, how the Massachusetts law was supposedly this attack on marriage, and hearing him go go on about, you know, how bad marriage has been going? Well, guess what, we haven't had one gay marriage yet. And the divorce rate is at 50%. So what the hell are we going to do it any worse to screw it up?

R

Roy 1:23:52

Anyways, straight people can't get it. Right. So going on that same thing. There's a GOP film on gay marriage, which is gonna be shown at the community center this coming week. It's gonna be on a 15 to 6pm It's I keep the name of the movies, I can't marry you. And it's being shown up the gay lesbian community center. Three 400 Montrose Boulevard, suite 207. At 6pm. They want you there at six and the showing is at 10pm. So it's being sponsored. It is a they want you there at six to show is being shown at 7pm. At six

c

Chris 1:24:39

o'clock is a cocktail reception where you get to meet the producer of the show. Or you can show up at seven o'clock and for \$10 at seven o'clock you get to watch the film at six o'clock. I forget what the cost is for that. There's a cocktail reception you get to meet the the author there's also depending on your donation for the event you want To get a copy of the film, either on DVD or VHS and that's being that's being sponsored by the Houston gay, lesbian, bisexual, transgendered community center and equality not

R Roy 1:25:14

know, the Lesbian Gay rights lobby of Texas

C Chris 1:25:17

has been gay rights. Okay, I thought was the people I spoke to was with those both committees. I picked the wrong one. But it's the fitting the community center and LG RL. You know,

B Bobby 1:25:26

it's interesting that when they talk when they're talking about this on the news programs, the gay marriage issue, they're already they're already adding the statement that it's not likely to pass as an amendment because the because of the way the current the government is currently set, you know, the Senate and the House are currently Well, along the party lines, there's no way they could get the votes to because

C Chris 1:25:55

it requires two thirds of the Senate to pass. Plus, they're also talking about the fact that if the Senate does pass it, they're not going to put a sunset provision on it, which means it's not, you know, you have to you get you have to pass it in a certain amount of time, or it goes away. The last constitutional amendment took 203 years to pass.

R Roy 1:26:19

The last constitutional amendment last did not have a sunset. Well, yeah, but not all constitutional amendments. Yeah. But

C Chris 1:26:25

no, no, it was the last one on the books as well. The 27th amendment took 203 years. And basically it was Congress can't give itself a pay raise. And it took it took 200 or three years for enough state legislatures to to pass it. And then, you know, Congress said, Well, wait, it just took so long. And they actually turned around. They they saw the outcry of because Congress was saying, you know, we're not going to recognize it. And then they decide, well, let's let's pass it again and give it the extra credit.

R Roy 1:26:54

Well, you know, I remember this past gay pride. Chris, you, you interviewed Congresswoman Sheila Jackson Lee, and she gave one of the strongest speeches that I've ever heard yet. Regarding that, I mean, that was such a killer.

C

Chris 1:27:13

And you know, it's going to be in this is a topic that, you know, it's hitting now it's going to hit during the elections. We're going to hear a lot about this. And, you know, actually,

R

Roy 1:27:23

I kind of I can't help but think that this is a creation by the GOP to take people's minds off the economy and the war in Iraq. Now. i That's exactly how I think because they moved on, well, it's not going to go anywhere.

C

Chris 1:27:37

Well, I remember, I remember that. I remember the the one thing I read that Howard Dean was originally saying during the beginning of his campaign that it was up to the GOP, this is this election is going to be about God guns and gays. And, you know, that's, that's what they want to make the issues of in the fact of, you know, people are going to be so enthralled with trying to make sure that gays don't get to marry, you know, they're not going to notice that we're paying the gas prices are going back up to two bucks a gallon for gas. They're not going to notice how many people were being killed in Iraq and Afghanistan. Oh,

♂

1:28:13

by the way, the US body count hit 1000 this weekend. Yep. was about

♂

1:28:17

to mention that.

♂

1:28:19

You know, while the reinstating the draft next year, next year, sure. And cannot. Both parties are supporting the reinstatement of draft in May of 2005. And

R

Roy 1:28:30

what are they gonna do about the Don't Ask, Don't Tell?

♂

1:28:34

That's a good question. Well, the foul I'm not

1:28:36

worried because they don't have to ask me on

B

Bobby 1:28:38

that count. The fact is this if they do that, if they do that, it's the draft. It's and they have the whole Don't Ask Don't Tell him. The the easiest way for people to get out of, of going to service is going to be openly announcing that they're queer, but

R

Roy 1:28:55

then it kind of died during the 60s to get to get out of serving in Vietnam.

C

Chris 1:29:00

It didn't work when it comes to peace time, okay, gays aren't fit to fill their ranks. But when it comes time for war and conflict, we're

♀

1:29:08

first poor bastards on the beach, we're perfectly qualified

C

Chris 1:29:11

to fill their body bags.

R

Roy 1:29:12

We they make here we go to the frontlines in uniform.

C

Chris 1:29:16

B Bobby 1:29:55

You know I can't help but The, like I said, I went to go see a certain movie this week. And, and there was there's one part of the movie where a mother gets, you know, the news that her son has died in the line of duty in Iraq. And my whole thing is with what I mean, we've got the whole gays in the military thing and the whole Don't Ask, Don't Tell. And the one thing that really struck me was that at least she got the right to have somebody tell them to you know, announce it, send her a letter, call her. There's not a single one of us who if our lover was a military personnel who died, would have somebody coming to our door. Give us the respect of saying, you know, Hey, your your lover died in the line of, you know, defending this country. And that was something that really really upset me while I was watching that. It was just I realized that movie has caused a lot of controversy and a lot of drama, and whatever. But that one, but But out of that whole thing. And I and there was a lot of, you know, venom to spout at different parts of the thing. That it was that one thing that struck me you know, we can't we can't even you know, we don't even have the respect of our country to have somebody you know, tell us when our husbands our wives have died.

C Chris 1:31:53

We have some happier news we can go to

♂ 1:31:57

I'm sure. a music lover look for it. Is there

B Bobby 1:31:59

any good news this week? I want to quote Anne Marie sure could use a little good news today. Oh,

♂ 1:32:06

Canadians at us

R Roy 1:32:08

they're gonna have a story about the guy's gone while

B Bobby 1:32:14

he was showing me the the there's a parent you everybody well, most people seen those god awful advertisements for Girls Gone Wild girls gone you know, which basically is a bunch of drunk you know sorority people on spring break. My

c

Chris 1:32:31

mom and dad paid for me to go to college, so I can go to Mexico and be a whore. Yeah,

b

Bobby 1:32:36

exactly. And but they're still doing apparently the Guys Gone Wild version. Oh, so I guess I guess we get to see some booty and various other things of the male persuasion. Now it's what I'm not averse to at all. It's just the fact that they're all drunk off their butts that I just said they're gonna they're gonna

c

Chris 1:33:00

be like, kind of like play girl pictures. You

r

Roy 1:33:03

b

Bobby 1:33:21

there'll be no, there's there'll be some there'll be a movie with three x's on the cover that that will be based off of that in weeks. I can just see it now then. You know? I mean, they they always do that with movies. There's always like some

r

Roy 1:33:36

1:35:00

If we can't be shallow

C

Chris 1:35:03

Hey, this gene pool is not going to get dipped into so it can be as shallow as we want it to be. Shallow is not an issue. It's just a way. Okay. And we also got a letter from Jaime who want to say hi, it's been a while since we've heard from him and got it right here. And Jimmy, you asked if you remember the Jimmy said first thing he saw it he goes, Hey, I remember the artwork. So

♀

1:35:28

Jaime is a very talented artist. Hello,

R

Roy 1:35:30

Jaime. Thanks for writing. Yeah, hi

C

Chris 1:35:33

me. Thanks for writing. So we got letters from smiley and Jaime

 **Bobby** 1:35:39

every last one of these guys who does artwork should be like having their stuff in art galleries when they get out

 **Chris** 1:35:45

man. Definitely then some. So some very interesting stuff on that. We had some articles we got from

 1:35:51

well yet well, as usual, smiley sent us just about an entire new standard worth of articles.

 **Chris** 1:35:57

Like I said, he's He sent us something thick and long and sometimes then and yes, it does fit it there's

 1:36:04

no way he would ever remove that and mail it

 **Chris** 1:36:08

in like Jimmy said it fits in an envelope but remember the envelope is 99 and eight inches long by four and a quarter wide.

 1:36:19

Here we go with

 1:36:21

he's given me I think people given smiley way too much credit. About an inch and a half in either direction.

 **Chris** 1:36:36

We got to put the extra stamp on it to get it through the mail. What the hell? Come on.

1:36:43

All right. Well, some of the other news that we got was on some of the new films that hit con Film Festival. What was it? Pedro Almodovar has a new film out called *Bad education* with gala Garcia Bernal, the real hottie from *e tu mama tambien*. And let's see. There's another one. The heart is deceitful above all things. Which is about oh, it's autobiographical short stories about one time male prostitute JT Leroy.

C Chris 1:37:19

One time.

1:37:21

Once upon a time, one time. Time, I mean, it was one time every hour.

1·37·28

the heart, the heart is deceitful above all things is probably one of the most you know, amazing books you'd ever want to read in terms of just the the real bottom line story of that kind of early, crazy religious and physically abusive childhood and what it takes to survive and what he did and, and turned out to be this amazing, amazing writer and now they've made it into a movie but it's I mean, it's a great book.

c Chris 1:37:56

Okay, cool. Because somebody around here knows how to read a book, write.

B Bobby 1:38:05

Books are most of them are science fiction. So most of them are trek novels or stuff about Wicca and the

Chris 1:38:14

reasons are usually every color is a man

1:38:18

Yeah, but Crayola doesn't sell that color. And he doesn't stay between the lines. Yeah, but he always aims for the gutter. Yeah.

R Roy 1:38:30

To aim for the gutter, my friend. I just purely am their

♂ 1:38:36

residents. Are you kidding? At his age, he's lucky he can still see the lines on the pictures.

♂ 1:38:43

But leave his cataracts out

R Roy 1:38:44

of it. Pretty soon to be 54. I'm entitled as part of the fun of Beagle

♂ 1:38:50

got to forget the Oscar Wilde grow quote, though. Being in the gutter, but looking at the stars.

♂ 1:38:58

I always figured it was better to cheat when?

R Roy 1:39:01

Yeah, well, that's all I get to do is look at the stars. You know, look, but don't talk. Yeah.

C Chris 1:39:06

Yeah, right. We all know, we all know that. You're in the gutter. I mean, who else who else seen his apartment?

♂ 1:39:15

Okay, Stacy, you

1:39:15

have not seen any I don't have to go inside. I see it from the outside. Well, speaking of where people ask the St. Mary It's not that hard to figure out. Where people

1:39:28

live there's another article in here called there goes the gayborhood it's about urban renewal of Asbury Park New Jersey written renews the debate can gay men and lesbians single handedly transformed bad neighborhoods. smileys comment on this is Does this mean we're being moved to Third Ward?

1:39:49

gotta sell basalt. Oh, no, no, yes,

Chris 1:39:52

we'll be making, making wonderful crocheted cozies for bongs and crack pipes.

1:40:00

The rainbow color. There'll be so in rainbow colored straight shooters.

Roy 1:40:07

Well, actually, it's half gay out there anyways as it is, you know, but everybody's under download. Well,

Chris 1:40:12

the third I mean, a lot of third word has been kind of redeveloped and they put up the corrugated tin townhomes in the area. So there's a lot of that gentrification going over to there. And then, you know, in the Montrose area, there's a lot of gentrification of bringing in the straight yuppies, who actually

1:40:29

there's a cute little underlined piece from the article about that says But critics charged that this type of urban renewal benefits only the wealthy pushes out the working class makes affordable housing scarce and increases property taxes. In some cases, middle class gay men

and lesbians have been priced out of the market by other wealthier gay men and lesbians, which is exactly what's happened.

♂ 1:40:52

They can have their latte safely. All right, without

♂ 1:40:56

somebody kissing on the lawn during the Westheimer Street Festival.

c Chris 1:41:00

It's it's we've they've talked we've talked a lot about that here with what's happening here in the Montrose is the fact of the stuff changing got

B Bobby 1:41:11

another one of those signs that says like notice of variance request, outside an establishment that's been around for like, decades. And and and all that means is they want to tear it down and build a condo for selling condos. And

♂ 1:41:32

what's really frightening as most people moving into those condos are upperclass breeders streaming

B Bobby 1:41:38

and they want to put and they're about to do something to that to the Nyan place down the street from where I live straight

♂ 1:41:46

segment and this side of the room just got a little of like wide eyed at that point.

♂ 1:41:52

Well, we have to complain about gentler side

1:41:55

breeders that live in the Montrose Yeah, unfortunately that what we what's not the rich ones that drive to Eskimos

1:42:01

to the cool ones have been here for a while with their little

Bobby 1:42:04

blonde children and their little and you know, I'm sorry, if you're able to step through V has the letters B M W on it. There's something wrong.

Chris 1:42:15

It's people who think The Stepford Wives is a documentary Oh, for at least a very good idea that they

1:42:22

think were the freaks the funny the you know, your neighborhoods changing when you see signs for near town Little League Association at the Montrose Kroger. Because it's like, Mommy, why does that lady have a beard and

1:42:36

if you have enough money to build up the condo, why don't you just build a walking, you know, ambulatory underneath it in a basement so you don't have to take the stroller outside. I just hate

1:42:48

that they Ficus down all those beautiful trees that were in those beautiful big open lots and it was so wonderful to drive through town and all of a sudden you drive through the section and they're these huge lots with these giant beautiful oak trees. And nope, sorry, we got to squeezes. Hey, guys put up a parking again, make as much money and squeeze as many people as we can per square foot.

1:43:08

Oh, it's great Franciscan, those

B Bobby 1:43:11

tall blonde wives in their Capri pants with their little blonde children who who take one look at the street. And they want to do this with their kids like who did the kids think you're fascinating. The kids love me. The parents are like what the hell.

♂ 1:43:30

And then Ryan comes out and we all run and then

R Roy 1:43:34

I remember back I remember back in the early 80s in 8283. How Laurel West time here was the place it was the happening place. I mean, we had gay bars all up and down even then

♂ 1:43:47

they all burn darlings, the hustlers

R Roy 1:43:53

unfortunately, now the hospitals are gone. And the drug and the drug traffickers are taken I've taken even

C Chris 1:44:00

in the past eight years, you know, with the stuff I've done with cube patrol, I've noticed there were certain areas you see someone walking along the one street you know, they're hustling. You go down to Avondale. If there's a guy in a dress, he's selling himself. He's the guy walking down the street, he's selling in men's clothing. He's selling drugs, you know, everything's gotten very mixed and sporadic. Even the guys were working the street corners are the you know, the style changed. And

R Roy 1:44:26

we used to have blue and red. We used to have a couple of brick apartment buildings right here close to Westheimer in Stanford. And we had a gate club on the south side of Westheimer. In Stanford, there used

B Bobby 1:44:39

to be a gay club that, you know, diagonal from this building. Yeah, it's now town, which is now a townhouse with windows that wasn't a club the drives with the people in there watching

LOWHOUSE WITH WINDOWS AND WAS IT A CLUB, THE DRUGS WITH THE PEOPLE IN THERE WATCHING
mothers,

1:44:53

this is a problem.

1:44:54

I worked at mothers. It

1:44:56

was mothers and it was fabulous.

Chris 1:45:00

cocaine central step by step closer to the mic, Scotty into

1:45:03

the microphone. You can say cocaine on the air

1:45:06

no longer say that.

1:45:11

It was bookstores on Alabama street. So

1:45:15

I mean, you're talking about development. No people come in here, you know, Manny, and we're talking about hustlers and horrors, and how they're driving them out. So is that good? Or bad? I mean, how can we as a community sit together and say, Oh, great. We're a great community, but we have hordes and hustlers well know

Chris 1:45:31

what's happened with? I don't know, I go back and forth on it. Yeah. Well, what's happened with

this society with what happens in the community is very simple. You know, several years ago, all these beautiful old homes, you know, were low, didn't cost a lot to buy, the market was kind of depressed. So all these yuppies moved in and bought the homes. And then you know, when they started, they weren't talking about wanting to move. You know, they couldn't get as much money for it. They were like, oh, it's the damn queers. And so you actually,

1:45:58

actually, the real estate values had been started to trend moving in the right. was climbing way before the

1:46:07

difference is the lack of the attitude. We're going in there? Maybe

Chris 1:46:11

Yeah. But the fact is, what's happening is into this Montrose area, we're getting a lot of this influx of people who are moving in who, you know, saw the saw the value of moving into the area, and then go, Oh, my God, look at the neighbors. And, you know, I was, I was at a town hall meeting where this guy who lives on on one of the corners here in the Montrose area, who was all upset about the fact you know, there's hustlers and the streets are in bad repair and all this and wanted to black male, is the only term to use blackmail, the bars to pay to fix the lights in his neighborhood. Because, you know, he doesn't think it's right that his his neighborhood association, who should be taking care of that they're not doing it. So he wants to extort money from the clubs to fix up his neighborhood. And then, you know, there's a certain flair and a certain event to it, you know,

1:47:04

damn, take care and don't look at real estate numbers if you want to move somewhere,

1:47:08

but there's also developing a neighborhood with a live and let live attitude and then there's moving in and all of a sudden coming on with not in my neighborhood added to

1:47:19

the idea of gentrification coming in, under the guise of of renewal. You can, you can renew a neighborhood without changing what made the neighborhood great. And what's happening, I think, is, it's been such a tolerated thing. I mean, you have gay men, you're gonna have prostitutes, you have men, you're gonna have prostitutes, they don't go be gay. And so there's a reason it's the oldest profession in the book. And the thing that is changing now as you're

ripping down the walls of some of the quote unquote ghettos, that in border, our neighborhood, the lines are diffused, there is no low income housing for anyone, there is nowhere for anyone to go, the crimes are not leaving Montrose. They're getting more vibing worse, where you didn't have to go in guns, you didn't have people pulling knives, you had people picking pockets here, and there, you had people ripping off tricks here. And there you had, you know, whenever

 Chris 1:48:13

there has been there has been some violence in this neighborhood for years. So we talk frequently. getting increasingly worried, but the thing is this, okay, you know, we talked last week about Paul Broussard. But you know, during the same week of Paul Broussard, someone was shot out in front of where the 611 was, you know, we've had that gunplay in that, because in the past, you know, a lot of these guys like, you know, I want easy money. And basically, they can come down to the Montrose and they figure, you know, again, gay man is gonna come down in the Montrose, he's not gonna use his credit card, because, you know, there's a record that he was out of the gay clubs, so he's gonna have a lot of cash in his pocket. And if I go and beat the hell out of him, or shoot at him, or that, you know, he's not going to say one word about it to the police, because he's not gonna want to be known these that he's gay, because we were were you shot while I was over in the Montreux sir, well, what are you doing in that neighborhood? And the fact that the society has moved forward enough that, you know, they realize we're not going to take that crap anymore, and we are gonna go talk to the police, and we don't give a damn what it says on our credit card statement. And that, and the fact that, you know, they're the easy mark that they think it is, well, we've had that violence, the violence

 1:49:26

has been there. But I find it really interesting now that like, I've grown up in this neighborhood, I've lived in this neighborhood since I was 17. I live a block away now from the first apartment that I ever that I ever moved into. And there was an element of course, and it was there was a danger element. But I tell you, I never felt unsafe. And I walked the streets at 115 pounds in combat boots with pink hair and eyeliner out to my ear lobes. And like, Scotty knows what, back then I mean, he was rolling around and so And

 Bobby 1:50:00

today you're still recovering from stab wounds. And it's like but but

 1:50:03

I would say 50 to 60% of my friends straight or gay in the Montrose area have been have been robbed at gunpoint. And then the other side of that is how many straight men I know that have been gay bashed. Yeah, you know, and I like just because they're in the neighborhood. It's like, you know, crazy

 Rov 1:50:25

...y... 2000s

to say this, he has we had prostitutes back in the early 80s. But they were prostitutes trying to make kind of make a buck, using their body for sex, which you have out there on the streets. Now, they are not prostitute. They're still strengths crack horse we are getting, and they will slit your throat. And therein

B

Bobby 1:50:42

lies the difference when I first moved to this neighborhood, you know, any number because I walk everywhere I go, I got to know a lot of the street kids. I mean, they'd smile, they'd wave, they'd come up to me and talk to me. And not once did I feel in danger of my life. Today, there are people out there, when I'm out walking, where I don't where I'm not quite so sure as I used to be. And that's the part

C

Chris 1:51:12

well, what I'm from what I've seen in the past years is the fact you know, five years ago, there was a lot of these, you know, high school, college aged kids that were out there working for money, trying to work for their make their way through college or making their way through school. Nowadays, you go out there, it looks like these people are putting their grandkids through school. It's an older, tougher generation that is out there. And whether or not it's police stinks, or they're just not finding the young people, the 21 Jump Street kind of guys to go out there and play young. The fact is that, you know, I mean, this, this neighborhood has changed tremendously over the years. And it's changed for the worse. And there's a lot of parts that you know, has changed. For the worse. I mean, you know, you come to this neighborhood, and you if you go through this neighborhood during the day, and you go through it at night, it's a totally different neighborhood. It's, it's, it's scary, the change. And

B

Bobby 1:52:12

it just was it last night. I guess it was, I was being a friend of mine was driving me home. And first we were making sure that if another friend of ours made it home safe, and they were walking home, they will and we made it sure sure that they got to their apartment, and in between what I saw was, and you're used to seeing during the, you know, the weekends, you're used to seeing those guys standing on the trigger, but an awful lot of them are no longer kids. They're not, you know, teenagers out there looking for, you know, there's some older folks out there and you sort of go What the You know, yeah, I mean, of course, you're also looking at going they're gonna pay for what exactly

o

1:53:06

he could make his teeth have taken an extra

R

Roy 1:53:13

dose that close we have been so close to that point.

1:53:19

You'll be happy.

Chris 1:53:20

Roy, you have to have teeth in your mouth first to remove them.

Roy 1:53:23

That's what I'm talking about.

1:53:27

Still got some

1:53:33

with a big gap in the middle.

Chris 1:53:37

Even David Letterman would call that a gap.

Bobby 1:53:40

That's okay. With all those gaps in his memory, you know, so

Roy 1:53:45

what memory? Exactly? Oh,

1:53:47

that would explain why he's spreading his teeth.

Chris 1:53:52

Speaking of gaps that Abercrombie and Fitch has come out with a they got rid of the catalog. And they're now going to what they're calling a magazine. And it's a smaller, cheaper and less homoerotic.

♂ 1:54:07

Oh, it's not glossy anymore. I thought they would get for that.

Chris 1:54:11

Because they got so much flak from their Hummer orotic scenes and the last one started.

Roy 1:54:20

Back in the 70s go home or erotic magazine was GQ. Yeah, back in the 70s it was a GQ, but then it's true. I'm having the guy's got all scales homophobic and everything.

Bobby 1:54:34

But I'm still gonna and then in the 80s we got international mail. Right?

♂ 1:54:39

I'm still gonna miss off Corey Fitch though. Yeah, but

Chris 1:54:46

the funny thing is, you know the been the traditional values people who, who pressed for the cancellation of the catalog. They said, Well, you know, it's a good first step, but you know, it's still poor showing that sex is using sex for me
