SUMMARY KEYWORDS

connie, heterosexual, lesbian, points, number, people, hatch, test, gay, justin, harder, listening, heterosexuality, great, mom, toasters, add, college, roommate, craved

00:00

You died you were heterosexual

00:08

you gotta quit laughing before you can talk. Are you gonna remark on something you had painted?

00:16

Oh, what I was in class not forgot the answer in the corner.

00:22

Okay. Number three. Is it possible that your heterosexuality is just a phase that you may grow out of? I hate that question. I really do.

00:33

But what is it? I don't. I'm not understanding this questionnaire. Like when you're asking, like what we're supposed to ask heterosexual people or what they ask us. They ask us, but we're turning around. Okay.

00:48

That's another gold star for Justin. He's just full of them today.

00:52

I'm Snerling

... Spermy.

00:58

Okay. Oh, yeah. Just

01:00

made a name or whatever.

01:03

So I usually go by now. But whatever.

01:07

10 points for spread sparkles.

01:09

So you don't have any points? Y'all suck, Brian. Cool. What's that? I have three gold stars now. And was that 20 points?

01:19

Oh, he's writing it down to Oh, yeah.

01:20

Yeah,

01:21

that's another 10 points.

01:23

All right. 30.

01:24

01:24

Okay. Number five. If you have ever slept with a person of the same sex, is it possible that you all you need is a good gay lover?

01:39

You're asking them, don't ask me this.

01:45

How do you feel when like it's reversed? How do I feel when it's reversed? Yes. See, that's confusing. I

01:50

don't have that much brainpower to be.

01:51

Basically what is asking is like, when they ask you, are you just having a relationship with a gay person just because you need you haven't found the right straight person to keep you there. Oh, I

02:06

see. It can work for you too. It's just kind of you haven't found the right man. Not me. Haven't done the right woman. Okay.

02:15

Exactly. That's how it got reverse. Exactly.

02:18

There we go. No follow up.

02:21

I kept on getting it. Getting it. I'll draw a picture for her. It's a picture. Okay. No, no, you didn't.

02:29

Let's see. I remember you losing a Pictionary last time.

02:32

No, I that wasn't picturing that much charades? Okay. Yeah.

02:37

No, were you on my team?

02:40

I don't know. No, you had your own team. I was on the cool team. That was my team. We won. Yeah. That was a game we played at hedge. Actually, I was on the other team and we did lose. I like we lost with Oscar Wilde like tell me that wasn't hard. You're playing charades? Right? And I'm trying to do Oscar Wilde. I'm having my hands and knees trying to do while it was so retarded. Okay. I'm older than you. And I still wouldn't be able to draw that. Yeah, no, it wasn't even drawing. We had to act it out. It was charade. Oh, sure. Right. That's right. I could probably draw it maybe somehow, but I wouldn't draw Oscar like the ground. Oscars like okay, Oscar Wilde. Anyway. Generic. Yeah.

03:20

Okay. Number seven. Do you insist on flooding your heterosexuality. Can you just be who you are and keep it quiet?

03:30

Now with those fans? I wish I could see it was just like TV. Like, you trigger pins.

03:38

I don't want to blow a fuse in your TV.

03:45

Okay, number eight. Why do heterosexual places? Why do heterosexual sexual roles place so much emphasis on sex?

03:56

Then? What's up with that? day it

03:58

was gay people that did that?

04:00

Yeah, remember flip flop? To you? It was contagious? Oh, no.

04:09

Does that mean I get 10 points. That

04:10

means you get 10 points. Right and a half a star?

04:14

I think basically the whole thing is that since most people cannot believe then homosexuality is correct. Therefore they go maybe it's just sexual. Right? There's no love in there. And that's all it is.

04:29

Yeah, it's then he put all the emphasis on it because it's it's not that there's that much of an emphasis on it. It's just that, that that's all that's different. That's all that's different. And so they think oh, that's what they're all about. It's like no they don't realize we're also students and and mothers and fathers and sons and daughters. But it's it's it's just that's what makes us different. So that's what they focus on.

04:48

So hence the name breeders.

04:50

Yeah, exactly.

04:53

Ready got this but puzzled face leader Me, too. Okay.

05:00

can you do with my gerbil?

05:03

And see again, to eat a gerbil.

05:05

Okay. Number nine. Why do heterosexuals feel so compelled to introduce others into their lifestyle? Screen TV toasters, what

05:21

do they do they give toasters?

05:26

Lily number one,

05:27

we need to have one of them. I have three toasters in a washing machine. Yeah.

05:32

Wonder we only have 2%.

05:36

Let's see I'm working my butt off out there, y'all.

05:39

let's promote microwaves.

05:41

You know what I'm doing myself tomorrow.

05:44

You cannot give yourself 10 points. I am the point of a water that's a minus 10 point that's minus 20.

05:49

Oh, just for that. I'm taking you back down here. Here we go. You're all up in negative 10. Now, you get no star.

05:57

That's not fair.

05:58

I'll give you one carat gold star.

06:00

Okay, there you go. Okay, so, before we go on our break, I'm gonna give you all the whole phone number again. Yeah, catch is number is 713942702. 13:43

13:52

13:53

13:55

13:58

So for everyone that's trying to find the number. It's 713-526-5138. Is that right?

14:11

14:12

That's great. My time. And now the hatch numbers. 713942702.

14:16

Yeah. See? That's

14:19

what I wrote down. Okay. 57305738 easier to remember. 713 Jam que PFT for those of us who are more literate and have letters in their telephone. Yeah, have not worn out.

14:34

Your minds like that. It's so good. Okay, anyway,

14:36

so you want to take the lesbian test with us? Sure. Okay. We'll go back to number one. When your mom was pregnant with you, morning sickness was most aggravated by a TV sporting events. Be food or see a need a Brian? Probably be be okay. Number two during the pregnancy Eat your mother most craved a Kentucky Fried Chicken. B pickles. C granola and soy milk.

15:09

None of them actually my mom craved. I probably shouldn't say it on there. We really needed some drugs though. That's what I heard.

15:20

Right from morphine. Okay, but we're not

15:24

with food. Let's go with their What do you think? What do you crave? I crave? Yeah, right now what do you want Kentucky Fried Chicken pickles or granola and soy milk.

15:36

How about just chicken? Chicken? I

15:39

see. All right.

15:41

Okay. Number three. When playing house you were a mommy the homemaker. Be the idiot son Doug. Or see daddy with the girl on the side that lived down the street. Definitely the mother.

15:59

A bossy little.

16:03

Yeah, we love Connie.

16:04

Any of those. I was always the baby. Oh, I was always a mother who's always the baby. Oh, so bad.

16:12

Babies. Not a choice.

16:14

I like to clean.

16:15

D baby. Oh, yeah. D All right.

16:21

Okay, Realty number four. Upon graduation, your principal told you that you have a future filled with a great promise. Be happy marriage. Or see various female quotations roommate. And a cat named Gertrude sosi

16:47

13 Cats named Gertrude.

16:51

Okay, number five, in college, you are active in a stop rape now be divestment from South Africa. Or see queer nation, but only as a civil rights issue.

17:08

I don't think I understand any of those. I wouldn't be able to choose or you

17:12

get 10 points with me. I don't have any clue what we're talking about.

17:15

Well, like in college, there's always all these support groups, whether you have a you know, where it's like you are so trying to stop people from getting raped left and right. You know, and then there's also like, see that? It's like, I'm not gay. I'm just attending this because I have friends that are friends of friends that are gay,

17:36

and therefore, who might be considering being homosexual.

17:40

And therefore I am attending this.

17:42

Well, I think yeah, and see.

17:45

I'm for a right. That just gave Yeah, that you get points for both of those. Okay, and the last question, she's up to 30. All right. Your best friend in college. Were your best friends in college. Were a your roommates be the Phi Gamma guys. Or see the girls and field hockey?

18:11

Fair? Yeah, because mine had soccer.

18:13

How about a guy who worked at KFC? See, I'm going with D again.

18:20

I don't know. I'm not very awake.

18:24

How about the guy came about if

18:25

I was your roommate, then that would be Yeah, that's fine. Yeah. Okay, so now we're gonna go with the scoring. Okay, so in for number one. You chose a you get zero points. Oh, wow, we got another call. Well, what do you know? Can we have both of them at the same time or? No? Hey, Connie. Do you mind if you hold on like five minutes? Yeah,

18:48

sure. Good. Cool. Five minutes for right.

18:51

Here. I'm gonna go through the points and then like you score it at home, Connie. Okay. Okay. A, you get zero, B, you get one and C you get three. Number two, A, you get zero, B, you get one? And C you get three.

19:10

So it's that way all the way down? No.

19:14

Number three, you get a zero.

19:17

At a work. I didn't write down what I chose. But I did

19:22

Don't worry. Just so you get three for every like just pick the highest points. Like no see, I

19:26

really did write down what you said. Okay, well, you just

19:29

added up. I'm not good at math anymore. Okay. Tell me when I when he called me back. Okay.

19:34

All right, three is a zero points. B is two points. And C is three points.

19:42

And D is eight points. That has nothing to do here. These eight y'all.

19:48

Okay, D will always be eight from now on. Yeah. Okay. Number four. You chose a you get one point B you get zero points. And C you get three points. Let's now number five, A is one point, B is two points, and C is three points. And six. A is one, point B is two points, C is three points, and D is eight points. So add everything up.

20:17

All right, put down my pencil.

20:20

Test for five Onyx. Does that mean Connie has scored a seven? Out of what? I think there was a possible 18 Without the X ray, the added what does that mean?

20:35

21 Okay, that means I'm a lesbian.

20:39

Okay, four to eight points was called a closeted lesbian. Mean, nine to 12 points was, you're not afraid of going your own way. And 13 to how many ever Justin? One is a lesbian over achiever. All right. Hey, Justin. Okay, so it's been fun talking to you, Connie. You have fun. Don't stay in the closet too long. Don't

21:11

want him in there too.

21:13

Corny is very straight. We love her. Okay, so next call. No, no, no. next call.

21:21

Okay, wrong number.

21:23

Wrong number. What happened?

21:26

There it's a discussion call. Oh, it's discussion call. That's cool. That's Connie gone.

21:33

Great. She's still here. Okay,

21:36

so we're gonna switch to

21:40

what's going on now, Jimmy? Oh, great. Okay, we're gonna go through heterosexual questionnaires for Connie. Ah, yay. We needed a straight person to tell us this. But Oh, shoot. I forgot to ask everybody else what they got. We still have Lexus here. Yeah, I know. David, what did you get on this point thing? I wasn't able to mark my answers. You add him up, and we'll go through everybody else.

22:03

Well, I'm, I'm a lesbian in the closet.

22:07

Okay, how many points did you get? Five? Five. How about you? Oh, Justin, we already know who anyone is. Lesbian overachiever want to be? Okay, Alexis, how about you, one. You got one point out of 21. Absolutely. That's 10 point. No, that's 50 points for you. Yeah,

22:30

don't worry. You could come to Hench and they'll help you.

22:34

Now, we're not here to recruit people to help them.

22:37

I have my toasters and washing machine. Yeah, I'm all set for the year.

⌚ 22:42

Okay, I'm working on my hair David. Still adding.

⌚ 22:48

Oh, goodness.

⌚ 22:49

So like hatch right now. Wait my toasters. We are a gay supported support group. But we enjoy being heterosexual is there to help us support that

⌚ 22:59

is a truly great experience. I've taken many, many of my my heterosexual friends to hatch. Yes. It's really great when they

⌚ 23:05

I think is wonderful when straight people come and they actually feel at home right there. Yeah,

⌚ 23:10

it's really I think it's a really loving and accepting place. And it's just really cool. It's really cool when they come. So don't be afraid. Yeah, tell me

⌚ 23:19

just a bit almost an adding. And we'll get to his um, so

⌚ 23:23

I will actually still taking the test.

⌚ 23:24

Oh my God. I want a calculator to do.

23:27

Well, when I when I

23:28

took the test, I can only go from one to 21 you can add some numbers together. I'm sure we can do this way.

23:35

Actually, the caller wanted to know if this was a lesbian test. Is there a gay test?

23:41

I was trying to find a gay test all over the place. I was like on the internet every day cricket friggin trying to find the stupid gay test. There's no gay test. I was like, gay test.

23:55

If you're not one, please let us know.

23:58

Yeah, call in with some tests,

24:00

or make your own and I really tried. I did I did.

24:03

Like, who has tickets to the Lilith fair, you know everything

24:09

anybody was assigned assigned Judy Garland anything? Yeah, yeah. Wait,

24:12

24:13

I have to. Yeah. Oh my god. Yes.

24:17

Pretty gay. Oh, my God. Should we segregate Friday and keep everybody else away from Yeah, until you change? Sorry. Get out. It's all good. Okay, what did you get? Like six

24:33

closet

24:37

okay, I'm hoping to be an honorary lesbian.

24:39

Don't worry. We'll get you another caffeinated.

24:42

Okay, now on to the rest of the questionnaire. There was more Yeah, it goes up so when we add already know this is a different questionnaire we're doing now. This is the heterosexual questionnaire Justin. Okay. Okay, Connie. At this portion of it. This what's that word? Auntie read majority of child molesters are heterosexual. Consider it safe to expose children to heterosexual teachers. What I would consider it safe to expose children to heterosexual teachers. Yeah,

25:22

I don't basically. And she probably missed the whole point that we were flip flopping things. Yeah, we're

25:29

These are usually questions commonly asked about about homosexual people, and we're kind of just switching it around. No offense to anybody out there and radio landed. Please don't take us seriously where?

25:40

I do get that though. Yeah, I really hate it when a lot of people like even people that I know say that it isn't safe for homosexual teachers. I mean, I think it's the same thing what a heterosexual teacher teaches a child, it doesn't mean that they're automatically gonna hit on them. So why should a homosexual entirely different situation when they're at home, they can do what they want, but when their teachers totally professional to do I mean, you have different cases, you know, but basically,

26:05

I feel we shouldn't expose children to teachers at all.

26:11

Like, I listen to my math teacher, I'm sure.

26:12

Okay, number 11. Just what do men and women do? Nevermind. Go straight to 12. With all this stuff, what's that word again? societally, societal, societal support marriages receive, the divorce rating is spiraling. Why are these so few stable relationships? Why are there so few stable relationships between heterosexuals?

26:45

Well, one of them one of my, one of my psychologist, but my psychology teacher told me that maybe the government shouldn't make it harder to get married. And that should help people you know, because it's so hard to get divorced. Yay, my sister got divorced this Monday. And, you know, but maybe, if we make it harder to get married, people might, you know, go the extra step instead of trying to, you know, Manhattan? Yeah,

27:12

yeah, I'm not so sure about making it harder to get married. I think they should make it harder to have children. I mean, you have to take a driver's test, you have to take, like medical exams to be a doctor, I don't see why you shouldn't have to take a test to be a parent. I mean, you're rolling over someone's life there. I mean, the whole future of an individual depends on these two people. And I think they should make it harder to just have children just like anybody can have a child. It's, it's just ridiculous. It's ridiculous. So many, so many kids have to grow up and in these harsh environments, and it's just really unnecessary. I think they should make it harder to teach children.

27:48

I think there shouldn't be any sex before marriage. No, no, no, no, I'm serious, though. Because

I think that maybe if you didn't have sex, if you had that kind of a role, then you wouldn't be so infatuated with a certain person, and think that it was love and it's really just less than kind of terrain to marriage, you know, and you think you're in love with someone, but after a while, you just get sick of them.

28:10

Well, that's also hard. That's also hard to say too, because that also comes in with a lot of the homosexuality and heterosexuality when someone isn't sure of what they are, then, then I think they need to experiment to find out what's what's really for them, what's not before they get married. I know someone who, who thought that, that she was straight and lived her entire life thinking, Oh, well, all girls have this feeling or whatever. And she went ahead and got married. And it turned out that it wasn't right for her. And by that time, she'd already had already had three kids and and she didn't know what to do. And it was just it really made her life hard.

28:42

Okay, moving on, because we have five minutes. Oh, wow. Yeah. Okay. Number 13. statistics, statistics show that lesbians have the lowest sexually transmitted disease. Is it really safe for women to maintain hetero heterosexual lifestyle and run the risk of disease and pregnancy?

29:05

Well, I mean, that is correct with the whole statistics. But I mean, I mean, not just because you're lesbian doesn't mean you're not going to get a sexually transmitted disease. But you know, safe sex should be always right.

29:20

Okay, number 14. How can you expect to become a whole person if you limit yourself to compulsive exclusive heterosexuality. Connie, why aren't you experimenting with girls? I've never been attracted to a girl. I'm sorry.

29:40

I know how you feel, sweetie. I'm with you on that one.
