 **Peter** 00:02  
Okay,

 00:03  
one thing I wanted to say real quick, a friend of mine, Bill O'Rourke, who was a member of the Royal and Royal Sovereign and imperial court of the single star Houston, Texas is in a play in Wilkinson. Ah, he has the lead in Macbeth.

 **Peter** 00:24  
Oh, my I know.

 00:25  
I mean, this has got to be something because I've only seen Bill do comedy. And he does it very, very well.

 **Peter** 00:33  
Wow, this could bring a new dimension.

 00:36  
I know it. This is just incredible. It opens next weekend, on the seventh, and runs Friday and Saturdays at eight o'clock. Sundays at 230 through the end of the month. Cool. And it's playing at the harbor play house That's highway three in Dickinson And I do have a number If you

at the harbor play house. That's highway three in Dickinson. And I do have a number. If you want more information or you know get tickets. Yeah, reservations. Yeah. 281. Of course. 3377469. Good. Yeah, well

P

Peter 01:16

give that number again, probably. So we want you to get your little pencils and papers ready because we gonna have a little guest on here shortly that to do some attaboys. And we need you to get your little papers and pencils out and be ready to take down some of these numbers and contact our Southwestern Bell. People to tell them they're doing a really good job with this whole.

U

01:42

Oh, incredible. Yeah.

P

Peter 01:45

So oh, I've got this little thing people can do as long as we're gonna do that real shortly. Okay. We've got we've got long as you got yellow pencils and papers out. We have this wonderful little, little, little quiz. Do you have a little pens on paper? Jim?

U

02:00

I do. Do you think you have lied? Actually, behind me?

P

Peter 02:05

You lie. It's by Jim. All right, because I want you to do this and see if it really works. I think it really does. This is a very interesting, this

U

02:13

is not this is not I have to take my pants down to do the pencil on the butt to see how old I know if

P

Peter 02:21

I want you to take your pants. I'd say take your pants on you do it anyway. You don't need a pencil to do that. It's gonna say GYMPIK Okay, now he's getting a pencil out. Okay, here we go. Here we go. Here we go. All right. Now this is really

02:34

scary. This is a low quiz. What is it gonna do? Well, you're gonna

Peter 02:38

it's gonna it's going to show you something that you'll never be able to see again in this millennium. Oh my god, it's scary, but it really works. Okay. Okay, now. First of all, pick the number of days a week that you would like to go out the number of days the week that you'd like to go out, okay. Okay. Okay, now, multiply that number by two. Add five. Multiply that by 50. Wait a minute here. So, okay. Okay. Now, if you've already had your birthday this year, I have, then add 1748. And if you haven't had your birthday, add 1747 For about there. Okay, and now subtract the four digits of the year that you were born. Oh, that's

03:36

mean. Well,

Peter 03:38

you don't have to tell everybody you just have to subtract. That should give you a three digit number. Yes. The first digit was the original number of how many times you wanted to go out. That's right. And the second two digits are your age.

03:54

Oh my god. Sure is. And isn't that clever telling you what that number is?

Peter 04:04

Isn't that just too incredible? Yes. Nice. laid awake. Nice that they do that? Isn't that just too cute? Who thought this up? I don't know. But it works and it's not going to happen again. This is the only year that it will ever work. This is the only years this will ever work

04:24

but 1748 or 1747 See we

Peter 04:27

just bring you these little pieces of trivial BS that you could ever want to have in your lifetime don't wait credible stuff not just fun. Yeah, little little mind games here. We just a little something for everybody. You know, we want to make sure. Oh, indeed.

04:46

However, it would seem for my age. I want to go out to many nights a week.

Peter 04:51

You had a large number for that person. It could only be seven honey If I noticed you just refilled your coffee cup.

05:06

Yes, I did. Well,

Peter 05:07

do you know the top and that was funny. You should do that because my top 10 Tonight is how you know you're drinking too much coffee.

05:18

Oh boy. Oh boy. Here we go. We got to top 10 We want to get in on this. Okay.

Peter 05:25

All right hang here we go top 10 reasons you know you're drinking too much coffee number 10 Yeah, you help your dog chases tail. Number nine. You can outlast the energizer bunny. Oh, yeah. Juan Valdez named his donkey after you know, number seven. You have to watch videos and fast forward. Oh, yes, I do that. Number six, especially those

05:51

porno ones.

Peter 05:52

Your eyes stay open when you sneeze. No. Number five. You chew on other people's fingernails. Gonna be worth 460 words a minute with your feet. There we go with three. You can jumpstart your own car without cables. Number two, cocaine is a downer. The number one reason yeah, there you know you're drinking too much coffee. You don't need a hammer to pound nails very. Oh, my I'm not going there. Okay. Okay. In our studio in our studio this night. We had Laurie.

L

Lori Clark 06:32

Laurie. Hi, how are you guys? How are you doing? I'm doing pretty good. I, I just saw Jimmy earlier today. So that's why I'm here tonight. I was having brunch with one and just went to look for trouble and in another place. And it worked.

P

Peter 06:52

What do you got for us,

L

Lori Clark 06:53

I have requests from the community, I work for Southwestern Bell. And this year, it's very exciting. I just came back from bargaining caucus in Dallas. And for the first time ever, domestic partnership benefits will be a critical item, which means that the union is gonna come to the table and talk about domestic partnership benefits. It is a critical item. Wow, the company is already there. As far as and because of San Francisco, California and Nevada management already have domestic partnership benefits, but they didn't give it to anyone else. Because they said oh, that's a bargain for item you have to wait to bargaining which happens every three years. So it's time for our benefits our bargaining to begin. And they're starting March 8. And so what I want is for people to do what I kind of call attaboys, which is like, I have some a lot of addresses. So as before I start to all talk but you still have to keep your pencil and paper because I'm gonna give you a lot of addresses. I'm gonna give you a website, and a physical address, and a fax number. And what I would like for people to do is for Southwestern Bell, you could be an employee, you could be a stockholder, you could be a potential customer or an actual customer. And I want you to write such a statement, say G ED, which is the head of our CEO, Ed Whitacre, G ED, we think it's great that you're going to be cutting edge on technology, you're cutting in on technology, and you're cutting edge on human resources. We want to support a company that has domestic partnership benefits for their employees. So I think I think, you know, I am a I am a southern woman, although I don't sound like it. I do help seven when I need to. And I'm all for that we all have. And I want to do that. Yeah, I want to do the honey with the flies instead of the honey with the vinegar. That's

P

Peter 08:41

right. And then if they're not in compact with 1000 Other people are already doing this. Yes. Right.

L

Lori Clark 08:46

Right. And then if, if we're not having good luck, then we'll come back. And I'll come back and talk about the things that we can do that are a little bit more militant. But let's start out with some nice like, GE, I think that would be great. And then if you belong to a union, any union, that's AFL CIO related Communication Workers of America is my union. I'll give you the

addresses for that. And if you're a union worker, then you can call and do attaboys for them and say, gee, we think it's great that unions are really standing on the forefront of, you know, taking, making sure that everyone gets equal pay for equal work type stuff.

 Jimmy Carper 09:20

Yeah, yeah, exactly. And when you when you when you're talking about the phone company, right, I'm talking about a lot of employees. Yeah, a lot of Yes. And so that we can tend to set the standard for the rest of the country.

 Lori Clark 09:37

Well, yes, we're seven states, what we're seven states large, we have huge, we have picked up a cellular company, and we've picked up a long distance company in the New England states. We are in England and we were in France. So we're not just a phone company. You know, we're huge we're much bigger than that. You know, that it's even people kind of early even imagine or know so I think it's time that, that they acknowledge us, not only they acknowledge us because we do exist, and we do have a gay and lesbian organization and transgendered, but that they give us equal pay for equal work bottom line, it's that I want equal pay for equal work. You know, I don't want less than my co worker. That's

 10:18

it. That's the Yeah. And that's is where it's fighting discrimination again,

 Lori Clark 10:23

exactly. And being well,

 Peter 10:25

we already did. Oh, I

 10:27

know, I know it. I know it. And

 Lori Clark 10:29

we're the last group that it's okay to discriminate against. Yes,

 Jimmy Carper 10:32

yes. And when somebody like Belle comes in, and does it, then it's gonna get to a point in this country, where more than 50% of, of the companies are paying or offering domestic partnership, and when it hits that, then it'll be the avalanche. And it'll be right. countrywide.

 Lori Clark 10:53

And it's unacceptable to discriminate. Yes. Right. So let me go ahead and start giving these addresses because I have a full page and I'm gonna leave some here at the station. Jimmy didn't know this. I left it made some bunch of copies. And if anyone wants these addresses, they will be here so that you can come and pick them up the websites read [www.spc.com](http://www.spc.com). So obviously, that Southwestern bells website, guess whose website this one is? [www dot CWA dash union dot o RG](http://www.dotCWA-dash-union-dot-0-RG) that's obviously the union's website. And here's Morton bar, who is the CWA president, just like the salt and then be a HR president of CWA. His address is 501 Third Street, Northwest Washington, DC 201 and the fax is 202-434-1139. Now Edie Whitaker is the CEO of Southwestern Bell for him. His last name was WHITACR II. And the address for corporate is 13750, North US Highway 281, San Antonio, Texas 78232, and that fax number is to 10351 2184. So there's three ways you can website him, you could write him, you could fax them, if you want to give any comments to spectrum I'm gonna give you spectrums website, which this is really long spectrums, website HTTP semi colon, backslash backslash, w w w dot web com.com backslash bene backslash spectrum, backslash spectrum dot HTML, and couldn't write them at PO Box 2711, San Ramon, California 94583, or the local number for spectrum is 713-235-7929. And if you're a member of local 6222, you would know your address. Let me go ahead and kind of tell you that our next meeting will be March 17. At 6500, West Loop south and I really, really reached out again, at 6500, West Loop South that's a Bel Air and loop Okay, at 6pm, which is a Tuesday. And our guest speaker is going to be held Schultz who started Chase Congress based gay and lesbian group is head of Houston H walk whoa, I'm very excited. Am Harold has been my mentor before I even started this. I got ahold of him and said, How do I do this? And he helped me with all my baby steps. Well, good. I know. Now I can cry. You are

 13:53

amazing. I mean, you've started this, this organization. A year ago.

 Lori Clark 14:00

A year ago, it started last January, it was my New Year's resolution. So I did a little bit before and

 14:05

for the first couple of months, it was just in the planning stages of how, how we're going to put it together. Right, who are we? What do we want to

 Lori Clark 14:15

 Lori Clark 14:15

do? Actually, I already knew who we were, we knew we were clear.

 14:19

But in a space of just months, you've come a really long way with this group.

 Lori Clark 14:25

Well, and we all have, I mean, it's just it's it's something that we you know, I tell you if 10% of the population is gay, I swear 40% of SPC is we're there and we're still in people. I'm constantly getting calls and people are going I know they just heard of us for the first time ever. So it's amazing. Yeah. And there's you know, there's some there's some you know, people are still fearful and stuff but there's no reason to be fearful. You should be out and proud. Wherever you are.

 Peter 14:55

proud of yourself. You can leave all those numbers and data works and all those wonderful things out with big ROI and the phone answers and whatever in case somebody couldn't get those little numbers quite that fast. Yeah, we can get

 Michelle Meyers 15:10

the news book. Peter. And so anybody calls up KPFT big boy has him and we'll give them out to anyone who wants him

 Peter 15:21

great. And to leave a few copies here. He dropped by the station, pick them up, and I bet you anything. If we get a few letters out, that would be just really good.

 15:30

And I need to remind everyone that they're listening to after hours queer radio with attitude right here on KPFT Houston and ke O 's College Station. are here, and Lorie, you've just Just what you've just done your thing. Oh, yeah. Yeah. Oh, sure. Time. Yeah. Okay, I

 Lori Clark 15:55

got I got a new blonde joke. Oh, girl, okay. Okay. This blonde comes in to get her hair cut. And she's got headphones on. And so the guy said to Terry, so let's take them off. And we'll cut inches. Oh, you can't take them off. I'll die. And he says, oh, no, no, just be for a few minutes.

And you'll be a great haircut. She was no no, no, no, I will die. And so this is okay. So she falls asleep in the chair. So being the professional that he is he slipped him off very quietly the headphones and cut her hair and then he cleaned her up and put the headphones back on. And he kept sort of wake her up. Nothing so detached, a little bit harder and nothing to lean for. And she's dead. Oh my god. Oh my God. He calls 911. He calls the police. He's like they come he's like, regarded him into Keller and he tells them the whole story. So the policeman says, Well, I wonder what's on my headphones. So he slips them on his air and he hears Breathe in. Breathe out.

P

Peter 16:53

Oh, wow. I love it. I'll see your blonde joke. I'll see your blonde joke and raise your one. Okay, what did the blonde say when she saw the sign in front of the YMCA? Look, they spell Macy's wrong. Why do blondes like lightning? Can see they think someone's taking their picture?

L

Lori Clark 17:19

Why do Why do blondes wear underwear? Why do you keep their ears warm? Oh, maybe it's a lesbian thing?

P

Peter 17:30

Maybe it must be did you hear about the blonde woman that complete? Sorry, did you hear about a blonde woman that competed with a brunette and a redhead? In the breaststroke? Swimming the English Channel. Well, the brunette came in first and the redhead came in second. And the blonde woman finally reached the shore completely exhausted. And after being revived with blankets and coffee, she remarked I don't want to complain. But I think those other two girls use their arms

L

Lori Clark 18:06

Okay, what do you call a prostitute? That's a brunette and for blonde prostitutes after her regular price four bucks four bucks for it can't What do you call Ken Ken blondes in a row? What? Wind Tunnel

18:35

we're gonna get calls on that. No, we are and that number is five to 6573

L

Lori Clark 18:41

so we liked lawns really? We have nothing against

18:47

I used to be one yeah

18:56

to death when I was a child, oh, oh, well see

Peter 19:07

you aren't too bad. You are just

19:09

one of those old towheaded boys that just kind of Oh turned out to be dishwater blonde after dirty blonde or whatever that is.

Peter 19:17

Now we're just ground gray da you're not

Lori Clark 19:26

highlighting. Oh, thank

19:27

you. Listen to this. Oh, she does PR

Peter 19:33

not answering your information.

Lori Clark 19:36

Don't you recognize my voice call when you call 411 That's me.

Peter 19:39

Lori Clark 19:53

Peter 19:57

The last time I heard I give good It wasn't sir. Because

20:01

20:27

like. Let's go take a quick musical break here. All right. What are we going to do this John in Northwest Harris. Northwest Harris County

Peter 20:36

20:43

John. Oh, no, no, this is Oh, yeah, I see what you mean. Tony and John and John. No, this was different. Oh, okay. He wants to dedicate this to Hearn

Peter 20:55

those fine.

 22:19  
Too good.

 Jimmy Carper 22:21  
I really liked Joe's Roadhouse. I mean, I like all of the blues, but it's kind of weird. It starts out because right after the show is now a blue show. Yeah, you know, yeah. With Big Daddy J three, starts three starts at three. Yeah, and he plays really, you know, like, the, the roots of blues. Oh, he goes to the old timey stuff. And then we kind of update a little bit from six to nine. And then from nine to 12, it's more and I mean, just keep going until Joe's Roadhouse. It's kind of a kind of new blues and rock, kind of a rockin blues, and stuff like that. I really liked that. Just could do this. I know it all day long. It's just

 Peter 23:11  
never quit. Get your tongue back in your mouth quit looking at it. No,

 23:17  
I am looking at art samples from the web

 Peter 23:21  
art samples from the web. They are art

 Jimmy Carper 23:23  
to me. I have got to I mean, I am a computer virgin. And I look at these things. And I say why?  
Goodness, I am missing out on

 Peter 23:37  
you're missing out. Yes,

 23:39  
I am.

 Peter 23:40  
You just need to get on that webinar. You'd find all sorts of things you would not believe. Yes,  
sir.

 23:47  
Okay, so where are we here?

 Peter 23:50  
We are just watching you look at the things in general. That's overdoing. Thank you. Yes, it  
forward. Well, we've done blonde jokes. We say we have we have talked about everything  
under the sun from our local politics to our local gay politics through Southwestern Bell thru

Yeah, whatever's we've done too much coffee. Top 10 lists we've done the clever little thing where if you add all those things together, you end up with just the right sort of things. That's incredible. And the only other thing I was going to share with you tonight just some interesting little one liners. Oh, oh. Oh. Is that oh about that last?

24:40

I listened to you really excited about that. You wanted to do one liners right? See I was listening.

Peter 24:48

It's You're dripping

24:50

at both then.

Peter 24:53

You do the one liners let me look at the artwork.

24:57

Wow, this is pretty nice. Ha, these boys are just well, just a couple of them.

Peter 25:10

See what you're missing by not being a computer nerd. I know it. Well, this gives you a new insight

25:18

into buying a computer. I can see that now once he

Peter 25:21

do back that guy. What once he did that he just left today. I know. Yeah, once you do back, oh,

25:30

wait from Tuesday? I think it changes you know, you never know.

P

Peter 25:34

Well, I'll tell you. It's your chance to get your prices in order and get everything already. So when he comes in?

25:42

Oh, yeah, he's gonna jump in. You could be all set

P

Peter 25:44

up by next Thursday. And they have an internet. Putting large minds is on your mind. This is beautiful in those little web things and chatting on the light. You'd never get off. Well, I know I would. But I mean, you wouldn't quit watching your little monitor scary out double entendre yeah

26:22

gosh, so where are we now? We're gonna Well,

P

Peter 26:24

we're doing clever little one liner. Since we were did this massive research department newspapers and magazines and all these things. I thought this was kind of interesting. Since light travels faster than sound. Yes. Isn't that why some people appear bright until you speak to how come? Abbreviated? Yeah, it's such a long way. I know it. And why do you have odd and why do you press harder? On a remote control when the batteries are dead?

27:04

It's just you know, this little thing. Maybe maybe it'll work. Maybe it'll work.

P

Peter 27:07

Why are they called apartments when they're stuck so close together?

27:13

Apartments. It's a good idea. Yeah, yeah. Then there are Yeah,

 **Peter** 27:17  
and why does sour cream have an expiration date? It's like sour cheese. How

 27:23  
do you know when it's when it's gone?

 **Peter** 27:26  
I mean, it's already sir. And why are there five syllables in the word monosyllabic?

 27:34  
monosyllabic. Yeah, you're right. See

 **Peter** 27:36  
there? I mean, there's just these little you know, and why did they call it the Department of the Interior when they're in charge of everything outdoors? That is weird. Isn't I've been contemplating these things. All see this? Rather they call

 27:49  
it a near miss. Yeah, they are hit yes. You

 **Peter** 27:53  
got that? Right. And you tell a man that there are 4 billion stars and he'll believe you. And tell him the bench has wet paint on it. And he's got to touch it. Yeah, that's how come Superman could stop bullets with this chest. But he always duct with somebody threw a gun at him. Little things I lay awake at night. Why is lemon juice mostly artificial ingredients? But dishwashing liquid contains real lemons? I

 28:24  
don't know. It's it's like it's like

 **Peter** 28:30

just I lay awake nights. Yes. Worrying about this. Well, it beats worried about the city council. Oh, God doesn't glue. Why doesn't glue stick the inside of a bottle? Yeah,

28:42

that's kind of weird, isn't it?

Peter 28:43

I don't understand this thing. I went to a bookstore and a sales woman asked. I asked the sales woman where's the Self Help section? Half Price Books over there. And she told me that it would defeat the purpose. I just see. So I wandered around for a few hours. And if all the sudden nashman Tell me if all those psychics know the winning lottery numbers why they still work

29:10

exactly.

Peter 29:11

Why aren't they why are they still I don't understand. And you know that sooner or later? Everyone does stop smoking. Oh, they

29:21

sure do. Sooner or later. I did it sooner.

Peter 29:28

Everyone's Yep. And the classic line that you could lay awake all nights thinking about here we go. Bore doesn't determine who's right, just who's left. Aren't those clever little inside very, very clever little things that instead of thinking about where your next piece of butts coming from, you could be thinking about these things

29:53

coming up at the bottom of the hour. It's at the bottom of the I guess coming up on your Bottom Oh anyway the news is going up at 130 ish

Peter 30:09

and I am now looking at the art No wonder Jimmy wasn't see Where did we get Can you buy these and large eight by 10 glossy photos and oh,

30:20

these are little tiny ones we're looking at little teeny little view x there can you imagine something little like teeny you got it really big

P

Peter 30:29

if this thing was blown up to natural size Oh my Lord.

30:33

You know what that thing is not natural size.

P

Peter 30:36

No, no, that's exorbitant yes it is. And I will tell you though, that anything that I'm looking at here can easily be seen this weekend while Louis is on oh and I was going to also mention to you yeah that men now with the of the new Nighthawks or whether they were venture first annual Mr. Nighthawks contest the Sunday night Oh, like tomorrow like tomorrow right? The all this Louise if that wasn't enough and Richmond riches and then the thing and then the big show then you can walk right down the street nearly just about oh except over on Main. Yeah. And do the night hot mister first and if you're still standing

31:17

if you're

P

Peter 31:19

able to. Yeah, that's exactly Oh,

31:22

anyway, the news is coming up in five minutes or so. So have a pen and paper ready because those folks Oh, they've got stuff they give you lots of numbers and addresses the only thing I could do sites and all that kind of happy. The Oh horse stuff.

P

Peter 31:37

Yes. Oh, dear Jesus. Oh,

31:40

including the after hours website in which I don't have with me.

Peter 31:44

The only thing I could do at that minute the only thing I have left to do tonight. religious sensitivity you were the one who got the first email I did. I got the first email I'm

31:55

afraid to ask.

Peter 31:56

It is I'm just so thrilled and excited that I can hardly stand it. And they've given me just wonderful material that we'll probably be using here. Oh my Oh God, Jesus, it's 40 some odd pages long I can't What we're talking about there's a lot

32:11

here man. And is that from Lou the lesbian? This

Peter 32:16

is you know, I have a hard time reading those thingies. Where I mean the your your have no idea where well your your your bought your little thing that yours? Oh, hell my

32:30

thing. I have

Peter 32:32

a little jdd for three. I mean, it's your eight year. Your emails. Oh, oh, okay. The time it goes through 10,000 little pieces of wire to get to me I just

32:43

 32:33  
say JD

 Peter 32:44  
I did. JBB is a person so I know him handle thing.

 Jimmy Carper 32:50  
I know him. I know him. He's the music man. Oh, well, you and I share an interesting game music and we kind of keep each other informed. Well,

 Peter 33:00  
we've got some interesting things in the in in found useful for the Peter unchain show. And they they're like, if you might be gay if Oh, number one is if you regularly use the phrase window treatment, then, I mean, you might be gay. So there's just a myriad of these In fact, there's like, oh, dear Jesus, there's just there isn't there's like 100. And somebody, there's a we'll just be using there are numerous of these over the right few whatever. Right. Great. All right thing I was going to do now was see if I could sufficiently offend. The only thing we haven't touched is the sacred so we might just as well go there. Hey, okay. We were talking problem we were talking about Bill Clinton is this is this leftover

 33:42  
from leftover?

 Peter 33:46  
Well, it was weird from my Helen Evans show. As a matter of fact, we told every Jewish joke, joke and we just couldn't. We couldn't get along. It was

 33:55  
the crew of Olympus, Mardi Gras ball. It wasn't that great.

 Peter 33:59  
Oh, it was too fun. Baby with that, too. It's better every year. And then we did that show, you know, we just kept Yeah, had all those jokes we just couldn't stop with about God just it's just Well, we were talking about Bill Clinton and all this and that and all these affairs and all this and that. And I have found in my research department, I mean to tell you, I have dug back through crusty old scrolls from the Dead Sea.

34:26

I'm sure you have. Well,

Peter 34:28

I mean, we're talking way back now. And I have found some articles written on the original parchment. Back when they didn't even hardly have paper on a little lead. Way back buried in the in the tomb of top 10 on common or whatever his name is. And I've found this wonder Okay, I'm ready. Okay. And this is a quote now. Yes, turmoil rocked heaven this morning as allegations arose that God had had an affair Are with a former worshipper oops. The scandal was was began when the 21 year old woman known as Mary claimed that she had given birth to God's only Son last week in a barn in a hamlet in Bethlehem. Sources close to Mary claim that she had loved God for a long time, said she was constantly talking about her relationship with God and that she was thrilled to have his child. In a press conference this morning, God issued a vehement denial saying that no such relationship existed. And in fact, the facts of this story will come out in time verily, verily, verily, thoroughly, I say barely I say to the independent counsel, Kenneth Zaza, Bob immediately filed a brief with the Justice Department to expand his investigation to cover the questions of whether any commandments may have been broken and whether God had illegally funneled laundered money to this illegitimate child through a foreign operatives only known as the Wiseman. 1000 Bob had issued subpoenas to several of the angels who are rumored to have acted as go betweens in this haha, but they did. critics have pointed out that these allegations have little to do with the charges that Zanzibar was originally appointed to investigate. So just like our present counsel was running all over Hell's half acre doing whatever. Well. So anyway, critics have pointed out that these allegations have little to do with the charges 1000 But originally appointed to investigate and that God had created a large scale flooding in order to cover up the evidence of a failed land deal. In recent months, but 1000 Bob's investigation has already been expanded to cover questions surrounding a large number of locusts. I saw that play Gods political opponents in the last election as well as claims that the destruction of the cities of Sodom and Gomorrah was to divert the attention away from a scandal involving whether the giveaway of a parcel of public land in a promise country to a Jewish special interest group was quid pro quo. If these allegations proved true, then this could be a huge blow to God's career, much of which has been spent crusading for stricter moral standards and harsher punishment for wrongdoers. Indeed, God recently outlined a tough on crime plan consisting of a series of 10 commandments, which had been introduced to Congress in a bill by Representative Moses. Critics of the bill have pointed out that it lacks any kind of provisions for the rehabilitation of criminals. And the lawyers in the ACLU are planning a fight in the name of vain constitutions as being an unconstitutional restriction free speech. I dug that out of a crusty old piece of parchment.

37:57

Now it's time for the new with Michelle at big roll.

Michelle Meyers 40:10

like to welcome everybody tonight to our new segment and we've got lots to tell you is Michelle has got some important information for y'all. Oh, yeah, we have a busy news night tonight, a lot of heavy stuff, but I thought I'd start off with the most important thing. And the most important bit to remind everybody is that early voting for both the Republican and the

Democratic primary elections is continuing until Friday, March 6, this coming Friday, so there are polls open. One of the polls located closest to the KPFK Studios is the Metropolitan multisurface Service Center, located at 1475 West grey, and there's also one downtown at 1319, Texas at Austin. And there are 24 other sites all over Harris County. Now during early voting, any voter registered in Harris County may vote at any early voting location in Harris County. That's important to remember on Election Day, which is March 10. Voters may vote at the polling place for their precinct. And a voter may vote in either primary that's either the Republican primary or the Democratic primary, but may not vote in both. So just wanted you to know that.

41:36

Okay, so that's it. Get out there and vote
