SUMMARY KEYWORDS

houston, community, meeting, melanie, firecracker, talking, good, transgender, dealing, transgendered, pflag, saturday, jackie, big, transgenders, gay, suzanne, work, people, park

SPEAKERS

Chris, Roy McCarthy, Vanessa Edwards

Vanessa Edwards 00:01

To that I've been there. And I'm very, very fortunate though, I do want to say I've had a relatively easy time, especially living here in Houston, it could have been so much worse. In fact, I've got a lot of my friends here with me from the group who live down and Alvin or any the other, more rural settings. It's just, it's almost

00:24

I do not know how they do it.

00:27

It's really difficult.

00:28

I've told my wife, I guess, if I were born a gay man, I'd probably be dead by now. Because I've never been willing for people to treat me like I just will not tolerate. So now you have them treat your children like that. And that's even worse.

Vanessa Edwards 00:50

I also want to ask whether or not the panel made that big of an impression on you personally? Or was it something that you were already there in the panel just kind of, more or less reaffirmed of what you already knew.

01:10

It added a great deal to the educational, this just the knowledge and the the factors about the possibilities out there. They're just enormous. And I had a chance to use that. On a medical doctor who in our Methodist meeting, here in Houston, the annual meeting with 1500 representatives. We were having this brought up by people who who don't think the church should accept and welcome lesbians and gays and Transgender, Bisexual and Transgender. And let you always give me a chance to make a speech against that kind of attitude. And this one was presented by a doctor. And his last statement was God did not make us. Adam and Steve made us Adam and Eve. I hit the microphone, angry at that man, I knew he was a medical doctor. And I wanted to just nail his foot to the floor. And I have some time I'm not a gentleman at all, I just really lose it. But I said, some people are born with both present on the same body. And somebody in that building. Said a loud, amen. Ah, I don't know. I never did find out who that was. But I I was so intense focused on this doctor. He's sitting on about the 15th Pew back. And I was standing on the floor in front of the Pew so I was pretty close to him. And I said I would think that a medical doctor would know that God has made some people bold Adam How dare he decide what God has made? And but I don't know who that where that Amen come from? I wish I did because he really liked it a man had a big bass voice and he let fly with that thing and the intersex person

03:24

or new one or had an intersex person in their family or? Yeah.

03:31

What it started me

Vanessa Edwards 03:37

is one of the things I guess that oh, we more or less are very cognizant of within the transgender community. And a lot of us are kind of left wondering whether or not there is some kind of a genetic disposition out of this. I know that's a bit of a controversial subject anyway, but nonetheless, it is something that even I kind of wonder about myself and why I had these kind of leanings from such an early age. And no matter how, how much I tried to repress or how much I tried to overcompensate or go in a different direction and never did go away. It was something that was always there even if it wasn't the back of the mind. I know that's kind of more of a rhetorical

04:26

I have learned a lot because that's not my experience. And you naturally if you see the majority this way, and you feel one way about sexual attractions and all the and you don't have any kind of gender identity problem, which I never did. You're shocked when you that there are people in your world who are not that not that clearly. Sure about got their own sexual identity and gender identity is struggling. But when it when you learn that it's there, like the medical doctor ought to have known that ever so often as a person born this way he should know that. Now,

what's always irritated me is for religious people to get up and say things like that when they no good. Well, that's not true. I just, I just want to throw up when I hear that back to the hot but back to the hot buttons. And I just don't know why this kind of thing continues. But I do know that the United Methodist Church met soul force in Cleveland, and they will never be the same.

 **Vanessa Edwards 05:50**

Well, good. Now actually, there was a tradesman that was up there, helping them out. He's very involved with whole force as well. They've really done a lot of good work. He was with them when they met with Jerry Falwell, as well. So yeah, I'm glad

 **06:03**

that transgender thing has been added. Because now it's one group of people who are just not like the majority. And the majority is going to have to say they're part of my world. They're just as fine as I am. It's all about realizing I quit, quit putting them down and quit making these abusive jokes and doing these abusive things. And

 **Vanessa Edwards 06:28**

exactly, just dealing with other humans. Just a very quickly to kind of finish up here. I did want to mention again that indeed transgenders are very included in PFLAG. Expand on that. This is

 **06:46**

very included and be pay. I think the attitude of locally PFLAG is that people, I was very proud in Houston, that this has come to this point, and that they've gotten this thing onto the bridge. And it's wonderful. It's okay. It's wonderful. And I, I know the man who was asked to write the negative position, I was positive and negative, why they should be included on the ship. And he's extremely fine man. I don't know whether he's has that attitude or not. I think he was asked to write why should not be concluded maybe in a debate type of way. But I don't think he will have any problem at all with this.

 **Vanessa Edwards 07:36**

Actually, if it's the one I'm thinking of, I believe he had, at the last presentation even mentioned little something. When I was speaking, he was the last one to ask a question at our last panel presentation. And he actually brought up a study from Northwestern University and went into great detail.

 **08:02**

Yes, I'm not surprised.

V

Vanessa Edwards 08:04

I was. I was little bit surprised at it. But it was very, very touching. And I guess kind of impressed upon me how, you know, comprehensive. I don't want to say the change has been but how comprehensive the acceptance is now within PFLAG. And I just want to ensure to everyone within the community that yes, do participate in PFLAG. They are very open, very willing to have you. And, and of course, Don Sinclair was one of the people that to our very first panel and was ensconced in the conversation for about 30 minutes was the pie.

Ω

08:44

We keep saying don don don shouldn't be Reverend, but Oh, I'm sorry, her doctor. I'm sorry. Yes.

Ω

08:52

We never did talk about who I was. But,

Ω

08:57

gosh, everybody knows who you are.

Ω

09:00

He's the grand marshal the pied piper.

Ω

09:01

Yes. Grand Marshal. That's, that's a great thing. And it's an interesting conversation piece up in the country.

Ω

09:11

I'll bet Don, thank you. So thank you so, so much for including You bet. You're still listening to after hours career radio with attitude right here on KPFT Houston and ke O 's College Station. I've got a song by horse coming up. And right after that. We're gonna be talking to Jackie and Jackie for just a couple of minutes, because there's a big fundraiser going on next week. Okay. Yes, I didn't I didn't tell Vanessa Bell

Ω

10:02

Isn't that pretty music by horse? Is that nice? Jackie and Jackie are here just really quickly,

because you've got a fundraiser going on next week?

10:14

Yes, sir. We're playing around for mental health next Saturday. Oh my Yeah. We're gonna get together and spend half a morning at McGregor Park talking about increasing your awareness of mental fitness through physical fitness. And how both work in conjunction with each other. Sure do. Yes. And the other half of the morning, we're going to play disc golf. We have the Houston flying disc society that are going to come in

10:45

right a minute. Disco golf.

10:47

There you go. Lots of good music and sequence. Everybody's got Travolta we discovered is you take a Frisbee, basically, and they've got these little baskets set up around the park. And you just go out and fling your disc and enjoy the trees. Oh, really cool thing to not strenuous people of all abilities can play it, which is what we're really excited about. It's something new and especially for women who haven't been participating a lot of sports, especially, you know, as we're getting older, and we kind of keep away from some things and we're busy working. So it's like, you know, this is something that is not intimidating for some folks. Okay, Jackie, your group is keys of Hope Life Institute. And

11:37

what you do is

11:38

and we work with women with mood disorders, which is dealing with bipolar and depression, anxiety, panic attacks, that kind of thing. And we educate the Houston community about mental health.

11:51

Good, good. So this is next week, next Saturday,

11:55

next Saturday. 930 at MacGregor park where 5225 Calhoun, it's right down the street from the University of Houston. Okay, and people can call us up at 713-738-2123

12:10

Okay. Yeah, you gotta do that a lot slower. Oh,

12:14

713-738-2123.

12:20

And how what what do I have to do to get the other Jackie to talk? Well, Cherokee?

12:28

We look alike, you know,

12:29

yeah, right.

12:32

Is doing a fine job.

12:34

You both do a fine job. And, and this, I think this is something that that the community really does need. Because if you're, if you're not healthy mentally, then it doesn't matter. The rest of your life is screwed up.

12:49

That's what we say about prosperity. If you don't have your mental health, then there's no way you can have the prosperity of life. That's right. And that's what we want each and every one of us to have.

13:02

So this sounds like fun. So talking in the morning and then a little kind of what this

13:10

throwing frisbees a treat

13:11

this golf

13:17

don't bring your dog don't bring your dog because we don't want them return to us.

13:26

And I also like to say thanks for all the calls that we had from the last time you were on. I'm glad you did some great response and want the people to keep calling us keep making contact with us because anything we can do to help the community and it doesn't matter who we are or where we come from. Mental illness does not have a respect to person and so we have to really look at that and that's what we want to get we want people to have a prosperous and a happy life and taking care of your mental health we believe is a way to start doing that

14:01

wonderful. Thank you very much for stopping by Thanks.

14:05

Take care Hi.

14:08

I ran into Jackie and Jackie at a fundraiser. Oh Miss firecracker contests tonight and as a matter of fact there is a new Miss firecracker it's parsed Alana B de is the new Ms. firecracker. She did she worked it. Oh, and that talent. Wasn't that fabulous. This girl came out and I mean, she's a big girl. And she had all of these. She did a what was that? That was Kate Smith doing a medley of American tunes. Right. And for each one, she had a costume change right there. Right there. Yes, right there on the spot. You know, and she was great. She didn't get arrested. It was perfect.

14:54

~~That was interesting. It was~~

THAT WAS INTERESTING. IT WAS

14:55

wonderful. Very wonderful. Yes. So That was a great contest and you're gonna be hearing about Miss firecracker because she's going to be doing stuff, you know, promoting shows and stuff this next year you go girl. Okay,

15:10

three snips in his Yes.

15:12

Thank you. Thanks Jackie and Jackie. Okay, Vanessa, I took your time. So what are we doing now?

V Vanessa Edwards 15:18

Hi, actually right about now we're supposed to have dandy denodo on and I net a stance not in the studio. Yeah, actually,

15:24

we're gonna have we're gonna have Chris go into the room and get on a microphone because she's going to tell us about a garage sale.

V Vanessa Edwards 15:34

Ah, yes, definitely. We have a community center. garsdale coming up here for the transgender community center. And here with us is our unity committee today.

15:46

Because there is a transgendered community center. Yes.

15:50

Yes. Is that reality? Oh, yes, it is.

15:52

CC:CT

Okay, so as my turn to talk, yes. You're comfortable. Okay.

♂

15:58

Yeah, she's, she's leaning back in the chair. Just having a good old time.

♂

16:05

Yeah. The garage sale is on the 15th and it's what day is that? That Saturday, the 15th starts at seven o'clock in the morning. Don't sound those weirdos like to get up really early in the morning and like, get all the good stuff. Yeah. What? Okay, Melanie's motioning at me eight o'clock so yes, please seven Yeah, I was supposed to be there at six o'clock in the morning. Anyway, it's to raise funds for the transgender community center and where is it to 39 and a half that's Westheimer behind Suzanne Anderson properties right in the back

♂

16:57

okay guys out there all you guys who like garage sales you know where diners News is? Right. Okay. It's kind of across the street look for Susanne Anderson and it's in the back behind the fence

♂

17:12

Yeah, I mean you think about it I mean you know you've got like all these backup diners now people you know bringing all their clothes out there and stuff like that I mean you're lots of

♂

17:22

clothes yeah okay

♂

17:29

maybe bank a bank and yeah, lots of sequence

♂

17:38

all kinds of stuff I take That's right. That's right. Good that's why the garage sale supposed to be Yeah.

V

Vanessa Edwards 17:43

Sequence TV sets

17:46

to 39 and a half Westheimer net Saturday right a dish

17:51

yeah seven eight I'm gonna be there at six so

17:54

when you say a dish to me that's like oh noon that's

18:00

Melanie just covered Melanie just gave me this note. There's a lot next door to Suzanne Anderson properties. A lot of concrete Cara that's where you have to park for the garage sale. There's more gonna have people out there directing cars to park in the lot next door. Otherwise, yeah, otherwise, you know, you park in front of Susan Anderson's and her customers can't get in.

Vanessa Edwards 18:36

Actually the parking is directly across from bistro 224 I think it is yeah, it's like directly across the street from the beach. There in fact, they kind of share the same parking lot just going up there and grabbing a piece of concrete

18:55

that was exactly what I was gonna say that it's directly cross I believe they changed the name to at the Bistro. Oh, really? They the sign looked a little different last time I went by there but yeah, they that's also Suzanne Anderson's overflow. Parking is the lot directly across from that. Okay, cool. Because there's only like about three spots or so out in front of Yes. Anderson's and, you know, those have to be available for well for her for instance to park there and then I have customers in there which I'm sure she will

19:26

on the Saturday Yes.

v Vanessa Edwards 19:29

Hey, needs to buy real estate

o 19:38

or rent just one way. Actually, Suzanne can Nicole

o 19:43

and Craig Anderson can be complimented because before the community center, she was the unofficial one because there were quite a few greedy AKs who met their HCH a COA. I mean, I know that Q patrol had their equipment there and the different groups met there. She has always been very, very generous about letting folks use the building after hours. And

v Vanessa Edwards 20:09

in fact, you know, leivity aside, she has been extremely supportive of trans standard.

o 20:13

Oh, she was the first one Anders. Absolutely. Just yeah,

v Vanessa Edwards 20:17

she's an absolute Saint for her. She's one of our patron saints.

o 20:28

That's right. And if you come out next Saturday, you can see it. Gave me a

o 20:33

chunk of concrete. Okay, so what's going on with cats? Oh, god, you're gonna make me talk. Yeah. Anybody else who wants to talk? Yeah, Melanie's here Robins here.

o 20:47

We had our meeting last Friday. And let's see there. There's not like a whole whole lot going on with cats. We have a garage sale. That's the Unity thing. That's for the transgender community center. But we just had our meeting Friday. And we're growing. There's new members contacting us by email all the time.

21:17

But what is that email address?

21:19

It's t g help@yahoo.com. That's easy. all lowercase and doesn't make a difference. I don't know. type

v Vanessa Edwards 21:31

it all in uppercase and see who gets

21:33

no sometimes it does. I mean it's I found out that some some side of if I don't capitalize the first letter of my name or something it doesn't

21:43

they make it Yeah, Tasmanian gorillas can read her care but

21:55

what about the punctuation?

21:57

Yeah, we just came out with her newsletter. Let's say I think last month we came down to the Montrose and handed out all kinds of flyers pamphlets and things like that went to the different businesses and said hi and watching Melanie play with their mic

22:27

keeps wanting to go up to the ceiling

22:28

Yes, I noticed the spring you have the erectile

22:35

the slightest touch and this thing's just

22:39

you might want to swing that fourth one over. See it see if that works. That's much better

22:47

is knocking the monitor on

v Vanessa Edwards 22:50

well, don't knock it off too far. Okay, so um, anyway. You were you're saying Oh, we didn't finish Okay.

23:00

Other than that we were talking about later this month or the beginning of next month going down to I think it was the Bay Area and doing some community outreach San Francisco is nice this time yeah, just so closeted out there Yeah, yeah they need help mess up Bay Area and stuff oh my god that's only 115 45

23:33

minutes back in the old days we did

23:41

yeah that's right.

23:45

Oh geez My mind went blank keep talking just blabbering

23:51

usually stop us just want to call them

23:57

cats and what you stand for

24:02

community awareness for transgender support.

24:06

And and the thing about cats is that you are excused

24:13

like a typical meeting one of the best shows ever.

24:22

Your organization is outside of the Houston area in in kind of rural areas. That's to

24:35

make you feel at home. Welcome down.

24:42

There redneck transgender

24:49

Joe joke going about URL. You know, we had talked about putting, you know, like a community announcement in the Elven times or something And you know, we weren't sure what kind of person we would attract where our meetings so we we just had this middle picture of this guy named Earl showing up going excuse me, is this where that trains testicles going to do that voice? Very good yeah, you watch it a couple of times she does that hurt

25:23

when you do that I reckon

25:38

look at it skip across the line

25:44

is just like a typical cats meeting you have a good time. Yeah.

25:50

We joke and we laugh and we talk and then we have a kind of a formal meeting where everybody gets to talk about what's going on. Talk about some of the more serious issues we face.

26:08

What are some of those issues?

26:09

Well, one of the issues that comes up and has been coming up a lot for some of the different members is how you go about dealing with transitioning. And and, for instance, if What if you're married? We have a member that's going that's working through some of those issues right now. I've worked through a lot of those issues, and God knows my spouse has worked through a lot of those issues and continues to we have a member that just came out at work. And it's not like you know I guess a they're not a bank or they're it's a

26:57

very, sort of redneck redneck they're coming out wasn't really planned. It was like in the the work area that she's at someone basically just shouted across the room. So what's this about you having a sex change? That sort of force the issue for her?

27:16

Was that the guy with one two?

27:27

And then afterwards, we just talk until the meetings over Jesus, sometimes the meetings run toward

♂ 27:35
a

v Vanessa Edwards 27:37
big gold slumber party and you just kind of pile on top of each other, like a bunch of sticks.

♂ 27:43
A joke in there somewhere? Or do

♂ 27:46
you find that you have a lot of people who come to the meetings and it's like, they can be themselves for just a few hours?

♂ 27:55
Yeah, yeah. And I think a lot of it is whenever you're dealing with friends, with family and things like that. They, they want to understand they want to be supportive. And a lot of times it tries they might they just can't you know, and whenever you get around a roomful of people, and you know, every there's just an unspoken affirmation. Everyone knows where everyone else came from.

♂ 28:37
Town let's begin. There's a transgendered show. There's a lot of

♂ 28:50
secrets. There's one of our unwritten bylaws. Wish the female two males have a big problem with that. But they do

♂ 29:00
know we're where are you? I don't know talking about how somebody can be themselves for and issues have

♂ 29:13
been be authentic?

29:15

Yeah, having your family tried to understand what's going on. It's it. Sarah always says that, you know, when you come out as gay, you're you're still you. But when you come out as transgendered, it's like killing a child.

29:33

Yeah. You know, one of the things y'all were talking earlier about some issues that y'all were trying to you were talking about transgenderism. transsexualism trying to understand it and it's kind of like it's a real nebulous kind of thing. Yeah, it's really hard to kind of pinpoint and

29:59

it's a big spectrum, that's behaviors.

30:03

And, and it all deals with gender. And this, our society is like founded on gender. I mean, I mean, everything is geared towards either male or female. And I mean, so there, whenever you're dealing with going from one gender to another, there's just all these 1000s and 1000s and 1000s of little things that you have to overcome from me and Melanie, we're talking on our way down here from the way that you talk to just everything and the bathrooms.

30:45

Yeah, well,

30:47

the big, the lady, little ease.

v Vanessa Edwards 30:51

This one has a porcelain toilet and this one has a porcelain toilet is too different. I can't handle it.

30:59

I mean, so whenever someone comes in, who's new? And I'll just speak from my experience whenever I went to tats for the first time and was sitting on the couch and Danielle came up

WHENEVER I WENT TO TALS FOR THE FIRST TIME, AND WAS SITTING ON THE COUCH, AND DANIELLE CAME UP TO ME AND SHE WAS LIKE, SO. SO LIKE, SO WHAT? WHAT'S LIKE YOUR STORY?

31:28

That's Danielle. I miss her.

31:32

She misses us too.

31:34

So, you know, I just kind of got to, for the first time in my life, sit around with like people listening and talk about what my experience was. And it wasn't. No one said. So what you're talking about is whenever you did this, you felt this. Everyone was just, you know, they nodded because they understood. And I think for people, at least for me, whenever I was in Galveston when I was in Bay Cliff or Dickinson or Alvin, I moved around a lot, but whenever I was down there I was, you know, I just felt so isolated from everyone else. I felt like all the transsexuals all the cross dressers, everyone, all the gays let you know everyone was up here in Houston that actually we're finding out more and more. It's just amazing. How many gays lesbians bisexuals and transgenders there are in the town of Alvin. I can't believe it. I mean, there's a church on every single corner. And we're not talking about little bitty church. We're talking about huge churches. And it's always been classically redneck. AND, and OR it's at least it's had the stigma of being redneck. And we just joke and laugh about it and stuff. But I mean, we just found out where we live, that

33:16

there's an attempt to go back home if you could just,

33:20

well, we just found out that a lesbian couple that lives close to us. And, you know, yeah, I mean, I think per capita were like, way off the charts for transgenders. And Alvin is just amazing. I think there's about six or seven transgenders that we know of, and then a little town of Alvin, it was to be like, what one per every 200,000 or something. Oh,

33:58

as a matter of fact, I found out a friend of mine I haven't seen in a long time had also moved to Alvin. And, you know, he was dealing with he hasn't seen me in quite a while. So my transition was a new thing for him. And I found he's moved to Alba and I said, Well, you may be surprised there are a lot of transgendered people. And Anthony says, it wouldn't surprise me a bit.

There's two of them live in my trailer park. Whoa. And I was like, which trailer park Do you live in? Because I was wondering. And it's a different one. So I gave him some fliers to pass on to them, but we haven't heard from them so far. So either they didn't get the flyers or they just chose not to contact us yet. But yeah, it's very amazing. The the high percentage of transgendered people per capita down there. That is pretty

34:54

place. It's classically written there. Yeah.

35:00

If that's the stereotype, it's just because it's rural and not in the, you know, outside the loop.

35:09

Well, another place that I've found it's better. Today we had the chance meeting over near Beaumont grants Texas groves taxes. And what was funny is that, you know, there was some talk about possibly starting up a chapter out there if they located enough people to make it viable. But I used to attend the H CDA meetings quite a bit about a year ago or so I've kind of tapered off now as I've gotten involved with some of the other grips. But there was a lot of people from that I met in that group who used to live over in the Beaumont area, which is awesome. Yeah, so it's like they all kind of moved into Houston.

35:54

Chemical ends water?

35:57

I think so

35:58

there must be all the chemical plants out there. It's just something's seeping into the water. Maybe there's a large like, artificial estrogen factory. And it's just getting into the water somehow.

V Vanessa Edwards 36:14

explained to Chris. Yes. She's got enough physical capabilities to supply two or three people.

36:27

That's a lovely shade of red. Yeah.

36:30

Anyway, we need to close this segment out because it's time for the news after hours, news and views. And thanks, Chris and Melanie. And Robin is over there somewhere.

36:43

Wonderful for radio. Yes.

36:44

Anyway, before we go really quickly, I want to I'll be talking about this next week to a benefit then at the last concert cafe. Happening Saturday, July 29 1403. Nance This is the watermelon festival happens every year. Yes. Happens every year. It's like 10 bucks to get in. And they've got eight bands, eight counter mate bands, the groovies Mozes guests the high Taylor's Carolyn Wonderland and the Imperial monkeys. I love Carol the Merlin she's awesome. Oh, yes. juggle like Nick toggle lightning global village. Mowing the lawn and pot roast.

37:30

Hey, what's juggling and

37:33

juggle lightning? Yeah, okay. I think so. But wow, I would go just see Carolyn Wonderland. Yeah. That to me, that is the 14th region dance. Yes, that's right. Okay, watermelon festival. It happens every year, folks. And it's just about time for the news and views boys wherever they are.

38:02

I'm Carol Burnett. Hey, we're

Vanessa Edwards 38:04

a news guy. They're not here so we get to stretch. Oh, can we do improv? Let's make obscene sounds. Come on, Roy.

38:15

That what you see I usually do with piece of music first. Say so they're a little confused. Because they haven't they're not hearing music so they don't they don't know that they're up yet. Well it's almost music. So it's time it's time. It's time it's time it's time.

39:05

Oh, I talked with Kurt Keefer. Wait a minute. Remember Kirk? Yes. How's he doing? He's doing fine when I turned you know, I started this music because he would always make up some little song and sing it right. You know, I knew some views. I

Chris 39:22

had to remembering him because of the gesture he was making towards the microphone where I was

39:27

Wow. Right makes gestures like to have against anything that's phallic anyway. Yes, that third one is is totally erectile tonight. So you're gonna have to use the fourth one. A fourth word. Oops.

Chris 39:44

I wouldn't mind getting my my chin banged into here in the neighborhood but not by not buy this kind of.

39:49

Right right. Here. You want Mike down the street. Okay. news interviews with big Roy and Chris. You're on folks.

Roy McCarthy 39:57

Okay. Welcome, everyone. This week's edition of news and views Chris on the groin and just a real brief thing on the Dr. Laura crusade five minutes a real briefing on

40:14

Dr. On the Dr. Laura five minutes or less.

R

Roy McCarthy 40:17

Yes. Real brief thing on the Dr. Laura Schlessinger daily. We've been talking about it for weeks if you'd like to attend the rally which is going to be held this coming Friday at the KSC V studios over there on 11 767 Katy Freeway this rally is being sponsored by the equality rally incorporated and the Houston gay and lesbian Political Caucus and activists from the coalition calling on who oppose hate to not only attend the July 14 picket at KSC V. But also to telephone the station to protest Dan Patrick. register their protest but Dan Patrick was a general manager Okay. SCV at area code 281-588-4800. Now we do have a bus reserved and it's planning to pick people up excuse me at JR is on the 14th floor. This coming Friday at 11am and returning to Jr is by 130 and you can use the Jr's parking lot. Please come by the organizational meeting which is going to be held this coming Monday July 10 at 7pm at the Santa Fe bar which is right next to Jr's and if you'd like more information called dandy DiNardo at 713-862-3312 or you can fax him at 713-862-5577 and that's for more information on the equality rally. Stop Dr. Laura. Okay. And as promised, as promised y'all last week Chris does have
