The following program contains language or images of the brain or a sensitive nature, which may be considered objectionable by some listener discretion is advised. Oh yes, you've tuned into after hours a continuing tradition on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news, interviews and music geared for gay, lesbian, bisexual and transgendered people. Hear it after hours, we may be diverse, but we have one thing in common. We are all out of the closet and urge everyone to come out of their closets. That means standing up for yourself, taking responsibility for your own life and being proud of who you are. Realistically, we know not everyone can do that because of a job or frame of mind. That's okay. We're here for you too. So sit back, relax, and enjoy this week's edition of after hours.

### [J] Jimmy Carper 02:04

Hi lovely guest Hello. Oh, she is lovely. You girls out there.

C Connie 14:53

Oh, I don't think she's there tight. Why? Well, let's find out who she is.

P Peter 14:58

Let's do love. We

C Connie 14:59

get As to i

W 15:00

Hi, I'm Sonia Gonzalez from the Women's activity coalition.

C Connie 15:04

Everybody say hi. So yeah, everyone. Well, welcome to the studio. Thank you. And we kind of mentioned it earlier. Tell us what's coming up?

W 15:15

Well, on October 24, which is a Thursday, we're gonna have our third annual conference, the women's HIV Coalition, which is a special project body positive Houston. And our conference this year, we're going to have a few little notice little notable people this year, we're going to honors unit Garrison Zina Garrison Jackson, and give her an honorary membership as well as having a nationally known speaker, Lisa Tiger. She's going to come and speak and talk about what it's like to be a Native American woman and have HIV. How cool oh, it's gonna be great. Yeah,

 C Connie 15:46

that's not I don't think a population people address very often when they're talking about HIV.

 15:51

No, it's not. Fortunately, Lisa has been able to go around the country and talk about what it's like to be in that position.

 C Connie 15:57

Now, tell us what's special about this conference and the woman's HIV coalition as opposed to other HIV conferences?

 16:04

Well, this conference is put on just by women and the all of the speakers will be women only. The Women's HIV coalition is a coalition is made up of special women who are very interested in helping only women, dedicated social workers, LMS W's Of course, and people, women who are in the community who've been in the community, we've got women from the AIDS Foundation, Houston, some of the hospitals around town, University of Texas, and so forth.

 C Connie 16:36

Great. Where do you think that need came from to have a coalition just for women? In the HIV community particularly well,

 16:44

let me tell you the net speaking as a woman who is also infected with HIV, I, when I first found out six years ago, there were no organizations in the city of Houston that actually helped women who were infected. And after six years, I really understand how important it is to have a coalition that supplies a you know, that provides a support group supply provides an outreach network, we provide a hotline that if any woman out there finds out she's positive, she knows that she is not alone. And this conference that we put together, we help women and dealing with issues that light such as planning for the future insurance needs. We've got a woman

coming from the Social Security Administration, who is going to talk about Social Security, the processing of herself, security and the disability. We are also looking at alternative approaches to the women who are HIV infected. And we're gonna talk about one of my favorite subjects, women's sexuality and HIV. Hey, just because we have HIV doesn't mean we're not having sex. Okay.

P Peter 17:50

Oh, but we are doing it safely. Right? Yes, very safely.

17:55

As often as possible. Oh,

C Connie 17:57

didn't say.

P Peter 18:00

Often. In fact, that's our favorite word.

C Connie 18:02

So I'm looking at some of the speakers you're going to have and I see this Donna Rashaan. A previous guest on the the after our show is going to be speaking now you guys might have

P Peter 18:13

heard her Connie, Lingus show was not she there. I think

C Connie 18:16

it was before Peter it was it was big daddy little daddy,

P Peter 18:20

was it? It was Oh, okay. Yeah. Oh, yes, Donna, Shawn, I remember

C Connie 18:26

in person, hey, as well, lovely, lovely gifts on you will be there in person.

P Peter 18:32

You could go just to look at son

C Connie 18:36

work and they call it they needed to get more information about

18:38

this to get more information you call the coalition at 935 at 530. And our registration fee is \$20 which is really not expensive. We're going to have the conference at the temple Emanuelle the congregation Emanuel at 1500 Sunset Boulevard, the registration starts at 815. If you'd like to call ahead and get a pre registration form, the program is going to last from 9am until 4pm allowing a lunch break in there. We are taking the we are offering any woman who is infected with HIV free registration. I want to point out also that we're offering CEU credits that anyone who attends they actually you know, they get the continuing education credit.

C Connie 19:19

Oh, that's important. I know we were talking earlier before we went on about another population, even within the women's community is that's not necessarily been addressed is the lesbian community and what does HIV have to do with that population?

19:35

Well, in my job, well, I actually worked for the Harris County Sheriff's Department, I do education inside the county jail and I educate the females, the incarcerated females you would be I'm still shocked and how many women who admit they're lesbian are still surprised that they can contract HIV from woman to woman.

C Connie 19:56

Wow. So just for the listeners out there who think because you're sleeping with women only, and you're a lesbian that you can't get HIV, that's just not true.

20:05

It's not true.

P Peter 20:09

Listen to that, really, ami knows her stuff when she talks the world listens. Thank

C Connie 20:14

you. So well, Sonya, we really glad you stopped by, give us that phone number one more time.

W 20:22

It's 935 at 530 Call and register for the work before the conference. It's

C Connie 20:29

next it's on Thursday, October 24. So it's really important for people to get to this

W 20:35

conference. Very important.

P Peter 20:37

Yes. And you know, they're doing a lot more in the community with women and HIV, there's a lot of things going

W 20:43

on. Well, women, especially women of color, are the fastest growing community who are infected with HIV. Absolutely. And it is really important to emphasize that women have to be educated on how to keep taking care of themselves. They used to say that the right was like two years, once a woman has a case has been considered a case of AIDS, and she had two years to live. And I think that's getting a lot quicker, you know, that's actually expanding a lot longer.

P Peter 21:09

Oh, it's expanding. For men too. That's I mean, protease inhibitors, they do wonderful things, things are just really going wild. Do you know that there's a there's their facilities for women around town to live if they need help, there's Cassius bronze and in Los Ninos that can help with their children. There's LEDs, a food bank, and people that will deliver to their homes, there's, there's lots of things that women need to get tied into. And they are the proper case management and who really know where women go to get what they need to get, especially for

them and their children or whatever. And in fact, one of the residents in town Stevens house just became co gender or whatever want to call it gender diversified. And they're now taking both men and women who've gotten a larger facility, and they're doing both men and women. In fact, this week, I think, if I remember correctly, their first woman will come in. And so it's now they can't handle children, obviously, but this woman doesn't have children. So it's, it's great. So there's a place for an intermediate care for holistic living, to, you know, put them back on the track, getting ready to move back into community. And live again, it's about living with these times not about dying with it, you know,

22:24

right, one of the unfortunate things is that women who do find out that there are positive, they do not reach out for the help, and they're afraid to speak out and say, Listen, I'm infected, and I need to get some help. And what they have known, what they have found is that people who live in isolation with this disease, really do not stay as healthy as long as people who speak out about it and who reach out for help the support groups, the women's HIV coalition offers support groups every week. And it's really important that women just keep reaching, where are these HIV support groups that they're offering? Well, we keep the location anonymous, rather than mean, you know, call the line of, you know, 9358530, then you can be referred over to a support group and be a part of a women's group in which women of all ages and color deal with living with HIV. Wow, that's great, what a great.

Peter 23:18

I need to know that number to pass it on to my friends over testing. Because we will not have our woman and maybe she'd like to be in a group. I just like to go to this conference. All right, great. So onboard ship decades, it will be tempo, and then you Well, we're a great supporters of the AIDS community. They've done wonderful stuff. That group is doing wonderful things.

23:40

They have started a conference earlier this year, and just were absolutely wonderful. And so we were so pleased, we decided to have it there. And it is a great location as well.

P Peter 23:50

It is a great location, and they're really good people they've done. In fact, Rabbi Matthew will be coming to do the grand opening housewarming blessing of Stephens house, he's going to be part of that. And they also were more than generous and helping on moving expenses for Steven Taubes. They're doing their very, very incredible group of people that are helping a bunch. It's great to have you.

24:13

Thank you. I appreciate you. giving us an opportunity to get this out in the community.

P Peter 24:18

You're entirely too beautiful. Thank you. She's led a lot to the love boats and I know

J Jimmy Carper 24:25

her Okay, so why don't we go to a piece of music and we'll come back with Pierre and

P Peter 24:30

Connie, what you know what we didn't need to do before we do music, talk about 5265738 We need to talk about 5265738 KPFT we need to let everybody know that this type of informative and creative and unknown, unbiased and just out there everywhere kind of stuff cannot come to you, you know, cheaply. It takes money to do this kind of stuff. Oh, yeah. And you know, why don't you just go ahead ad and free speech radio is not cheap, free speech radio is not cheap, it takes money to do anything these days. We all know that. And I know you got to check on to laying around. It's time to you know, pledge your membership

C Connie 25:10

right while you're sitting on the couch listening to the show, you know, dig around, there's such there's some change there a few dollar bills, every bit counts.

P Peter 25:17

And if you do some stuff on your credit card, oh, show up for another month. You can get a free CD, you can get some things to go and alar it's not about the gifts. No, I mean, hey, we can all do without a free pen. But the bottom line is it's about we can't do we absolutely cannot do without free public radio. Yes. And we cannot do without the kind of programming this station offers. We just cannot do without it. I mean, we have unabridged news. We have you know, unabridged all different kinds of programming,

J Jimmy Carper 25:52

monitor News and BBC News.

P Peter 25:54

We really and I mean, you we need this in the community. And I know if you're listening right now you listen to the station more than just now. Yeah. And I mean, I mean, I know I click it on every now and then and I'm just absolutely totally amazed at what I find. I mean, it's I mean, you can set your little buttons to go wherever you want to go and you're here the same country

western union has the same stuff you can do the same thing you get here you know with all these kind of commercials anytime you click over to this a there are no commercials. Love be it's whatever is on it's just like I don't believe I'm hearing what I'm hearing. That's right. Like it's just there. I mean, you can hear anything like we said from Squeezebox Polka to you know, let's get down with him black and blue s&m Tip clamp and squeezing lesbians. I mean, it doesn't take much to get that girl excited. You heard that scream when we started. Oh, girl. So listen, why you're sitting here. Listen to this next piece of music please, please, please call 5265738 and give you a donation. 35 bucks minimum we'll do it. And anything over and above and beyond that is too fabulous for words. Anything just may get you a finger. lickin chicken dinner with Mr. Brian. Oh, lordy. Oh, and if you're Hispanic and give an extra five bucks you can have a hot date with Peter. Oh my and if you're my and if you're? What? That's what I was gonna ask you Connie.
