Miss Lee, thank you very much for coming up here with us and and spending your late evenings with us telling us about your first effort up in Washington. It was fun. I greatly we

c

Chris Harrison 00:39

love hearing about people losing their their activist virginity.

o

00:43

Another chair before Okay. Do we have Mr. cultural baggage? I

o

00:50

don't know. They haven't typed in?

J

Jimmy Carper 00:56

Oh, yeah. Well, Ethan went away.

00:58

Yes, very quickly and rudely. Well,

J Jimmy Carper 01:01

let's try line two and see what's going on. Okay. Hello.

01:04

Hello. Can you hear me? Mecca?

J Jimmy Carper 01:06

Good evening on this new phone system. And we did get you the first try. Well,

01:11

that's wonderful. You know, I'm gonna have to figure it out here in a couple of days myself. Yeah. Sounds complicated.

C Chris Harrison 01:19

Probably not for someone that comes in during the daylight hours.

01:25

Good, I'm good. I went back before the City Council this week for part of projects yesterday. And I've invited a lady from the Santa Cruz, city council, active member of their city council, who's going to come down here in the first week of August to speak to our city council about the need for change. And, again, I want to thank everybody that helped with all the musical events raising the money that makes that possible. Here's part of what I read to the city council, drug war Ark of the Covenant is empty. Brady, nine and a half years we've escalated the mechanisms the bloodshed, the death, disease and misery of our nation through our policy of drug prohibition, based on racial screeds and hysterical posturing that drug war has taken on a life of its own. There is no justice, no logic, no basis whatsoever to this drug war. Not one person of stature within the legislature, not one cop, or drugs are not one doctor or journalist dares to defend this drug war policy and open public debate it cannot be done. The prohibition of drugs is a sham, the largest fraud ever perpetrated on the peoples of this earth. You guys might disagree with you. And I might even tend to join forces that this fraud against gay people is right there with it. And, you know, I close this out, I told him fear runs the drug war, through ignorance and superstition are rarely a part of the equation. In this day and age, fear of job loss

of societal demonization, fear of losing votes in an election, all stand in the way of truth, progress and freedom. And I asked him at the end, I said, Can we stop putting our people behind bars for little baggies in their pockets? It's your decision. And there was dead silence once again, it was the silence of the land. They cannot defend this policy. They cannot rally for more drug war either. So all they can do is be silent. As this drug war machine rolls on. Every 20 seconds in America, somebody is arrested for drugs. Whoa, every 20 seconds. And yeah, they just allow it to happen. I met with I think I told you last week was our district attorney Chuck Rosenthal. And I told them about the scenario that Chuck Rosenthal said, if if we wanted to legalize marijuana, it's fine with him. And you know, I tried to open the door to make it possible to speak and I'm going to be back there next week. I think I'll go you get one minute if you hit him too often. I'm just gonna go back and ask them when? When can we talk about this because they they just fail to see the misery they create or recognize it. There's a story came out of Tulsa, Oklahoma much the same thing. The danger of illegal drugs lies in their prohibition, which oddly artificially inflates their value and gives criminals and terrorists alike a means of raising substantial and taxable and untraceable funds, it corrupts our beliefs, clogs our courts and clouds, the minds of politicians as they try not to appear soft on drugs. And I guess my point is, I'm hoping that maybe this will encourage folks to come down there next Tuesday. You'll have three minutes if it's your first time, you know, it's necessary to bring this forward because once we throw Throw the I don't the shaman out of our council out of our legislatures and force them to realize we aren't going to, you know, put up with their Shirat any longer, we can move to other things because the same exposure of lies will work towards ending racial bias towards ending gender bias, etc. Because we will have people in office who understand the truth rather than corporate funding, you know, eternal reelection and screw the people. And we've got we've just got to work together to get rid of these people, or at least to educate the ones in office that we're just not going to take it anymore. Oh, yeah. And I don't know, I, I wish you guys a great success with the pride thing. I'm gonna see if I can't get out to one or two of them myself. Oh, I think it's important that we we understand that we can work together to end these terrible harms being inflicted

J

Jimmy Carper 06:08

on us. The Pride Parade is just the Pride Parade is just a whole lot of fun for the whole family. It's what my last year yeah. And it's it's the GLBT people celebrating their life. But something I wanted to add. I was just I had to TV on earlier this afternoon. And I had it on channel eight. And of course, they're doing their fundraising. But they had I don't know if you know, of Rick Steves who does a traveling show. I have. He had the show on today about Amsterdam. And he was talking about the coffee shops. How he said there's like 300 in the country. And that it was just like a menu, you go in and select the type of marijuana you're interested in. And you buy it there and you smoke it there. But what what was really great about this, I mean, he even interviewed people who were there in the coffee shop, and one who was running a coffee shop. He did it without any prejudice, without any malice, just as it just as this is what you can do in Amsterdam, right? And I thought, you know, this is the way things are going to change to get it into the general population shows like him is where they just take it for granted that marijuana is something that, that you go to the coffee shop, like you go to a bar and get a bottle of beer. I mean, the same type of situation.

Ω

07:50

Sure. My my trip to Well, I guess it's been two years ago went to the normal conference. And

the same gentleman actually gave a talk at the normal conference. Really? Yes. He, you know, and again, it was not any kind of Cheech and Chong thing, no, no, no. Like that, and very much just learned kind of business like talking about the country and, and what's available, and it's exhilarating, to see people able to talk without, you know, somehow stirring the pot.

J Jimmy Carper 08:28

Exactly, you know, as if it's just like, you know, you can, here's this museum, you can go to, here's this attraction, you can see and hear these coffee shops, you can go to, you know, with just like a normal, everyday event. And I'll tell you that I felt that way when I heard it. And it's the same type of feeling that I've had when I've seen a television show with gay, lesbian, bisexual, transgender people. And it's just a matter of fact that they're in that they're, they're sure that there's no sensationalism going on. And I just felt really good after watching that program. I felt really good about Rick Steves,

C Chris Harrison 09:13

you got your kind of contact buzz from PBS? Yeah,

J Jimmy Carper 09:16

no kidding.

09:18

And I want to commend PBS for playing that. And really, that's what that's wonderful. They even invited me to do a debate with somebody from the other side for one of their programs. I won't mention it, the producers may be still working on it, okay. But they can't find anybody who will debate me. And it's not they have debated other people, you know, DEA versus some other folks, but they will not debate me that's well,

J Jimmy Carper 09:47

because they know, you've got all the facts behind you.

09:50

I mean, I've been preparing for this for about the last five years if, if 1000s of hours leads to a doctorate I'm a triple doctor, I promise you I mean, I put roughly 5000 hours a year into this damn drug. It's it's your career. Yeah. And, you know, that's one thing is it just knowing that well, they can debate me the the Wait till you hear the the interview this coming Tuesday it's going to be the whole half hour with the district attorney. That's great. And I didn't go there to debate him. You can almost hear the questions. I didn't answer that. And, you know, secondary questions I didn't ask. But I wanted to get through the whole list. And we did and and

I got to commend him he he stood up and tried to answer all of them, at least on the first go. And there'll be plenty of time if you know any of the other council members. I hope the new police chief will talk with me. But they have no ammunition left. They they, they must lean on ignorance. They can't use superstition. And but they lean on feigned ignorance. And we have to expose the fact that we know that they know that we know that they know, you know. And anyway, I that's about it for tonight. I, again, appreciate the

 Jimmy Carper 11:12

chance to speak with you and you're listening to me and thanks for staying up to do it. Well,

 11:16

it's a privilege. Thank you. Okay. All right. Good night.

 Jimmy Carper 11:19

Good night. Of course, cultural baggage can be heard right here on KPFT. Every Tuesday night 630 to seven.

 Chris Harrison 11:26

And also at 420. In the afternoon, the 420 reports Monday through Saturday at 4:20pm. Yes,

 Jimmy Carper 11:33

similar to what you just heard part of the drug truth network. That's right. That's right. Something I want to jump in here with before you I know you're going to music, I'm Jimmy Carper. I'm the co executive producer, and you are.

 Chris Harrison 11:47

I said my name earlier? Chris Harrison. The other one? Yeah, that's how I usually do it. Yes.

 Jimmy Carper 11:54

Yes, Chris is really taking the helm here. And I'm really, really happy to see it.

 Chris Harrison 12:02

Until you start calling me number one. Just don't call me number two. Okay.

J

Jimmy Carper 12:07

Last week, we were talking about the Holocaust Museum. And we got an email from a man talking about something that I had said, and someone else agreed with that. I said that going through the Holocaust Museum. Not only is it a sobering experience, but will would change a hawk to a dove. And he did not agree with that. Because he thought that going through there and seeing the atrocities would make you want to really fortify your country and keep up a good army and all of that kind of stuff. And I see that point. But for me personally, it's I don't want to see another war. I don't want to see atrocities like that. It's as we're learning from from this Iraq War. Yeah, that the same type of thing is happening. Incredible atrocities happening to prisoners on on both sides. And I just don't think that's the way civilized people should live. There should be some discussion. And and and I don't know,

C

Chris Harrison 13:30

well, plus, also, you have to look at it this way. You know, the United States knew what was going on inside Nazi Germany. Before we liberated

J

Jimmy Carper 13:40

I think they knew but I don't think they had any idea. Idea. The extent Yeah.

C

Chris Harrison 13:45

But I mean, because I know one of the exhibits in the, in the Houston Holocaust Museum is a newspaper article from like, 37 or 38. I mean, Hitler came to power in 1936. He invaded Poland on September 1 1939. And then war was finally declared against Germany, September third by Britain and France. So, because they told us that you don't go there, you don't cross this. You don't cross this line. In the Rhine. You don't go through this area. The fact is, you know, he was doing this before, but as long as he was doing it to his own people in his own country, or to countries that basically he said, I'm coming in and they go, come on in, are the doors open for you? No one stood up and said, Wait a minute, yes. But once he finally said, went into countries that, you know, he wasn't invited into that's when they had to start to step in. We knew about that before, and

J

Jimmy Carper 14:47

we knew about it, but our economy sucked and we weren't ready to gear up for a war machine. And the fact

C

Chris Harrison 14:54

that if you know and I always say you can find one nice thing to say Not everybody. Hitler was a great economist. He turned the economy around. And I mean, the fact of the Volkswagen, the

Autobahn is that the he turned the economy around, turn your turn your plow short shears into shears into swords. So he in an economic stance, he did that. And so I think a lot of the countries were going, you know, we're still at the tail end of this depression. He's doing a good job, let's see what we can learn. And they they let go a lot of stuff to do this learning curve. And unfortunately, it took 9 million people. Yeah, to be killed. And, you know, that's, that's the, you always hear 6 million, but it's really 9 million that were killed. Yeah.

J Jimmy Carper 15:43

Between most of them being Germans and Russians, and the polls then in Warsaw, and all of that. I went to the preview of the opening of the homosexuals. Under the Nazi regime at the Holocaust Museum, Houston, is the official Yeah. It's quite extensive. Soon, it's an incredible thing people need to go to I know, this is Pride Month, and it's tough to try to squeeze it in. So I will let you know that it's going to be here through September 19. So you have all of July and August and half of September, to see it. If if you're all tied up. And well, we will be talking about it again in July, the stir up more interest,

C Chris Harrison 16:41

because it is something important. Very important. This is our past, you know, the fact that say

J Jimmy Carper 16:45

nothing of the core museum there.

C Chris Harrison 16:48

I mean, it's yes, it's one of those things those who don't learn from their past are doomed to repeat its failures. And you know, just the simple things of you know,

J Jimmy Carper 16:56

I think the way I feel about war, you know, we we have seen war. We see what it does. We're watching what it does right now. We know we don't like it. There's got to be a better way to live among different peoples. I just wish the whole world had a Montrose way of looking at life. It's I don't care what you do in your backyard. Just don't bother me.

C Chris Harrison 17:19

Yeah, yeah. Fortunately, it's it's not that way in nowadays.

J Jimmy Carper 17:23

Let's go to a piece of music and come back and perhaps we've got Francisco Sanchez with the Hispanic hour.

 Chris Harrison 17:34

I picked a little something from someone a little classic for something I haven't heard in a little while. Okay, brought back some barns. Some boy with a secret Oh

 Jimmy Carper 17:43

my god. Yes. I love that album and we'll be

 Chris Harrison 17:46

What you know the music you are listening to hear in the back here before we've had a boy with a secret by Barnes followed up by Christie Claxton best loved girl the remix and that was Thalia

20:16

Thalia Thalia print yeah spellpower Yeah,

c Chris Harrison 20:20

I told you this tongue of mine I cannot

20:26

alright for the bit for the right boy you can learn how to roll your r's though.

c Chris Harrison 20:30

Well, when I did when I had to do it in Spanish class I basically just kind of gurgled.

20:36

That's gonna mean German class in high school. Three years of that I can't remember how to say anything. I

c Chris Harrison 20:42

think I do better. I think I do better now after I've left this Spanish class. I couldn't remember anything. But now it's kind of like oh, you know, I can remember that Christmas carols still. We had to learn. Vinnie, pls told us what was only faithful. Oh, okay. We had learned that in Spanish. Now. I can still do that now. And yeah, my,

21:04

some of the works in my gym is trying to learn Spanish. And so every once in a while, I have to spend about 10 or 15 minutes before, before, after or during my workout giving a Spanish tutorial. But

c Chris Harrison 21:13

worst case scenario, I've got a gay man's Spanish dictionary. That can be interesting. And I, I've used I had to use it one time when I was chatting with somebody online. And he kept speaking to me in Spanish. And I kept saying, I don't know Spanish. I don't know it No, entiendo Espanol. And I'm sitting there typing into him in Spanish, and he's still going on and on. And it's like, I was getting bits and pieces of it to go, Okay, I remember these words, and I can get the idea. It's like, he said, typing this one line, and I couldn't figure it out. And then I just happened to

turn to it in the dictionary. And it's like, I want to move in with you. But it's like, Whoa, no, no, you can visit I was like, Okay, how do I say visit? See visit though? No, yeah. But it's a handy little I've never had to actually use it in real life. But it's, it's one of those. I think it's like a hot, hot Spanish for guys. And guys. It's interesting. I just like that. So it goes through and it tells you you know, like if you're in the act, you know, this is the passive This is the aggressive side I want to blank and I want you to blank me and gives you the blanks to fill in. It's like said

22:31

if you can see can set up by by your bedpost, you can set up a little like prompt or something. Yeah, just with the with the key phrases and there you go. Including

Chris Harrison 22:39

I can remove the handcuffs. It's like okay, and with handle handcuffs. It's a small enough book. So if you're in handcuffs, you can flip through it to get to it.

22:50

So you get the the thumb handcuffs. Yeah. So you can work with the other fingers?

Chris Harrison 22:55

Well, I do I occasionally when I'm in one of the chat rooms, and you know, a lot of Spanish speaking I'm gonna

23:00

go somewhere else. Every once in a while I while we're on this topic of handcuffs. Know,

Chris Harrison 23:04

when they somebody started when a lot of people start speaking in Spanish, you know, the first thing I do is, I'll type in my standard cutesy beginning phrase of Yo tengo la PS Mi La pieces. I'm or doodle, which is the first line. I have a pencil, my pencil is yellow. Then I'll get there's one of the lines in the book that tells you I'm going to kick you in, like a harness. So I type in there Cartman says. So it's my Spanish language is not?

23:34

Well, he's gonna get plenty of practice, though. If you really want to go out there and practice there's plenty of places to go practice and go to Yeah, a couple of times many chat rooms. I

guess you could do that. Yeah, I

 Chris Harrison 23:44

used to go to Mexico once a year just down to wherever Laredo and do some shopping. And it's like, still trying to figure out some of the stuff on there. Fortunately, my brothers are a little more proficient in it.

 23:57

Than I Well next time you're online and you have to translate a conversation got a free translations.com You can translate from Spanish to English and English to Spanish and a couple of other different languages, but it's always very helpful. Because then you

 Chris Harrison 24:08

always get those weird translations. Yeah,

 24:11

I'd rather have that though, than like, if I was talking Yeah, if I was talking someone in German, I kinda would probably dress a little bit more than because because obviously if you're like negotiating some future behavior, I wouldn't want to I tried to sit interpret something or

 Chris Harrison 24:27

I tried once or twice where you take it, you type in what they say. And you translate it to English. And then you translate it back and it's like, you know, totally different word right and so lost in the translation. It's not just a saying it's an actual event.

 24:41

You've got to work out Yeah, yeah, you gotta be careful with that. But we are and Latinos segment and we're waiting on a guest who will be talking she is a big fag hag. Her father actually is gay they from Mexico City and they live If I don't quite understand if he lives, she lives here but she travels back and forth. I don't know if he lives here full time or if he lives between here and he just did in Mexico City, but they spend a lot of time together and she's the one that drags him out and tries to find him a boyfriend. Interesting relationship, but it's an awesome and she's really awesome to hopefully shouldn't be one

 Chris Harrison 25:18

of those father daughter moments when you're both going out hunting for man. Right. And that

guy that got Jamie's attention as he walked in,

25:26

so hopefully she'll be arriving shortly. But no, she's fun to be around and she's gonna be an absolute blast. So Roy's gonna miss a an excellent conversation. Yeah, so I don't know if he's working or if he's just resting he's got to

25:40

pull the double out. Okay, so so to speak. Leave it to Roy leave it right. Because right

25:48

now where he's working the double shift, I'm not sure.

J Jimmy Carper 25:53

working a double shift and rice village.

25:56

Oh, that Oh, okay. He's having fun right now. It's about 212. He's watching all the drunk boys stumble on the Ginger Man. Two rows, and I'm sure he's helping them along with the car and all sorts of stuff that

C Chris Harrison 26:09

he tries to do. Yeah. But

26:11

that's our ROI. So in the meantime, while we wait on, on her on Cody, I've been wanting I wanted to go to this. I didn't know if the 11th was today or tomorrow. And I ran out of time. But anyway, but it was yesterday, Friday. Okay, well, then I'm completely lost. But on the weekends, from 12 to five, and then Monday through Friday, from nine to five. The and I'm not sure if y'all talked about this yet. But the Holocaust Museum has a exhibition on Nazi persecution of homosexuals, and

J Jimmy Carper 26:44

gkm Gulf Coast archives and museum GLBT history provided the volunteers to help set that

exhibit up. Oh, wow. Yeah, traveling exhibit. This is the third stop of view of many. And so far the longest we're going to be here through it's going to be here through September the 19th. So

 Chris Harrison 27:08

and we were lucky enough to get it during Pride. Yes. double double bonus. Yes, that is awesome.

 Jimmy Carper 27:13

Now I know a lot of people are doing a lot of things for pride. They may not be able to find the time. So it's going to be here July August didn't have a September. Because you can fit it in, it's fine. Of course, it's free. There as any museum, they're happy to take donations, and they've got a gift shop books and videos and all that kinds of stuff, T shirts, whatever. And even posters of this exhibit that you can you can get

27:43

out that should be awesome. Please do please do be careful. Go visit that and give back a report next week. I'm sure you may have someone between now and then come talk about it. But it's a it looks like it'd be an awesome exhibit

 Jimmy Carper 27:53

to have all kinds of different viewpoints on that.

 Chris Harrison 27:57

Yeah, cuz everyone's gonna have their different take on the different aspects. Sometimes something is going to hit each person a different way than another person, you know, just basically I mean, you know, Jimmy and I going through there, you know, him being of Czech descent, me being a Polish descent something may hit us differently. Yes, or have different ages and different persuasions or his comes from something is going to trigger a different emotion in you for the different theme.

 Jimmy Carper 28:23

Yeah. Another event that's happening. I don't know if you mentioned all of the events on those. We didn't

 Chris Harrison 28:30

do a calendar. We didn't do calendar. Now we're we're trying to do hand to hand combat with the telephone. That's what I figured.

J Jimmy Carper 28:37

Speaking of G cam, there's a fundraiser for G cam. Today. Sunday, Sunday, Sunday. All side theater, suburbia. It's a house on 43rd That's right, right next to the Kroger 43rd and oak forest. It's, it's convenient. It's a fun place and it's for only \$10 You can help out. Gee, can we get all of the money? The theater is providing the space all of the actors are donating their time so that we can do this fundraiser it and the name of the show is

C Chris Harrison 29:11

cabin fever. Yes, it's a Texas comedy complete with Hill Country high jinks. All is not well when pitch arrives in Michaels car alone, and yet someone is moaning from the trunk. While we're living Tales of Old Mr. Johnny cakes, Mama. And of course the sad story of young Billy Cree. The Bekele share laughter and tears. The show may contain adult language. Yes, there

J Jimmy Carper 29:34

is adult language in this. But but it's fun. We had the cast on last week, wasn't it? Another two weeks, two weeks ago, two weeks ago. It hadn't opened yet. Yeah. And I'm looking forward to going through it's going to be a lot of fun, but I know there's so many other things going on. Now. What

⌚ 29:55

time is the theater suburbia?

J Jimmy Carper 29:56

Oh, I'm sorry. Three o'clock, three o'clock, three o clock. locked in the afternoon, which is kind of nice. No, it's awesome. For the events going on in the evening, yeah,

C Chris Harrison 30:06

the lobby opens at two, the house opens at 230. And then the show begins at three. And you can go to G cam dot o RG and you get a ticket by Pay Pal. Or when you get to the door with without reservations, it's cash your check on like, yes. So leave home without it.

J Jimmy Carper 30:26

Yeah, that's very good.

30:27

I tried to take a couple of friends. I've got 1,000,001 30. But that's, that's a good excuse to try to sneak out earlier. Yeah,

J Jimmy Carper 30:32

I was looking for an excuse to get out of a meeting early.

30:37

And that's an interesting little neighborhood. Have you ever been overbooked for yes, yeah. Tons of gay and lesbian couples over there? Absolutely. Looking at the census from and I think I've mentioned this before, but was looking at the census from last year. And that has the second highest concentration of gay and lesbian couples and 77018. Wow. Which is where theater, suburbia is right there in Oak Forest and garden oaks. Wow. And I

J Jimmy Carper 30:56

know Judy Reese, who was the curator of the Gulf Coast archive and museum recently bought a house out that way. She says she's like, three minutes from the theater. Yeah,

31:07

it's awesome. Yeah, a little neighborhood right there like a 43rd. In LA. It's just like a major intersection there. You've got like, three banks to pharmacies. You got Kroger's, you've got, yeah, it's amazing place like six or seven fast food restaurants, which, yeah, which is dangerous, or the Freeway between the freeway in my house, right? So go

J Jimmy Carper 31:27

right down the street and get Popeyes chicken. Which I love. I do. Yeah, that's good stuff. It just gets deaf ears. They

31:35

closed early today. So I had to go to Kentucky Fried cow.

J Jimmy Carper 31:40

That's good. So what else do we have and the current events

That's good. So what else do we have and the current events,

 Chris Harrison 31:44

Oh really? And

C

Chris Harrison 33:46

their annual awards are drunk. I guess this is one drunk bitch and slot of the year Oh my as well as member pledge and the Giovanni Lemond Memorial Entertainer of the Year award.

J

Jimmy Carper 34:00

That's a very important one. Giovanni Lemond was a member of the Royal Sovereign Imperial single

34:06

when she was performing DJs

J

Jimmy Carper 34:07

I yeah, I think he did dark hair. Dark hair. He looks like a Italian looking like Yes. Okay. He

looked like a Tom of Finland. Okay, yes. Wow.

 Chris Harrison 34:21

If you're still going to be up after the show here. Don't forget the grand casita cut shot a trip that's going to be for Pegasus productions. We'll be leaving from the mall, great Walgreens and Montrose at 9am. Sharp and they asked for \$15 for the cost of the trip and Pegasus production hold several contests and fundraisers for the year to make the difference in people's lives by raising funds for the disabled seriously ill and those in need.

 Jimmy Carper 34:47

Yeah, that's been put on by Lloyd Powell.

 Chris Harrison 34:51

Who Mr. Leather bride 2000 years ago, and

 Jimmy Carper 34:54

it's it's a lot of fun. It's a four hour trip there and they have all kinds of games and activities and, and they will serve breakfast. And you'll be at the casino for a couple of hours and then the trip home about four hours lose your shirt. Okay, and then another four hours to come home. And

 35:19

this is tomorrow at nine.

 Jimmy Carper 35:20

Yeah 9am

 Chris Harrison 35:21

As in, you know, the bus leaves in six and a half hours.

 35:24

Yes, that's something I'm doing my friends.

35:26

Yeah,

Chris Harrison 35:28

you know, 15 bucks for a day out. I mean, that's incredible. I did a couple of those things where you know, you spend that there and you limit yourself to

35:36

see, I spend four hours at the roulette wheel. I don't, I don't, you know, the slot machines and they don't really appeal to me, I'll do a couple of them just for fun. And I don't know how to play anything else. But the roulette wheel, I will sit there and I will take 50 bucks. And I can play for hours straight or whatever, either winning or losing here because I just do my little small \$5 bets on something simple stuff either red, either red or black or hot or even. And I sit there have a good time with my \$50 and I come back with a little bit more a little bit less or I sit there have a good time. That's the free watered down drinks keep coming in and I've been my little \$5 on red or black or odd or even and every once in a while I'll get crazy and put it in I'll like put it on for numbers that I'll lose I go back to routine. Black and red or simple Yeah, route and I have a good time don't lose anything. And

J Jimmy Carper 36:31

of course let's not forget and power is still going on tomorrow. George our brand Convention Center

C Chris Harrison 36:36

at 12 to six it's exhibit hall A which is when you're looking at the building, it's the left hand side ground floor round floor plenty I mean, plenty of booths to go through there plenty places having prizes to go they're giving away stuff a lot of the tables and all that and it's just you know, it's nice to see all these companies that are a part of our community and getting together and the different service organizations to tonight

J Jimmy Carper 37:04

for their big event and I saw a little bit of it. While I was there I saw this huge stage coach that had been brought in I assume that was Wells Fargo Wells

C Chris Harrison 37:15

Fargo set up a huge there are a large number I forget which car dealership that I mean there's there's actually two car dealerships that have model car have cars. I mean model is in full size

cars, but yeah, their cars, I could see them in the back and the trucks and all that plus the entire back if you if you don't have to get someone in there who's not interested in the queer stuff. Okay. The classic chassis of Houston Car Club. Classic Car Club has probably a dozen cars in the back there.

37:55

The ones that were last year and last year were awesome. I don't have I didn't go yes. 36

c Chris Harrison 37:59

Packard in there. Yeah. I mean, it's just awesome cars just beautiful. If you're if you like cars with fans, you know, you're gonna get

J Jimmy Carper 38:09

behind them or local artists that are selling their work.

c Chris Harrison 38:12

I saw a lot of beautiful work down there and of some of the artists I mean, they've just been looking very nice. I mean, I if I was in a different situation I'm in right now I would be wanting to get at least one or two of those. Really nice work. Some handicraft work. If you're looking for something rainbow design. There's a couple different places there that have rain. I mean, there was a rainbow colored afghan. Ooh, that was over on the one side. That was very I was loved when? And yeah, it's I mean, a lot of stuff. There. You can just just have groups are selling their stuff other ones are trying to help you out with. I mean, American Express's their Continental Airlines has a booth there. Countrywide Mortgage. I mean, a lot organizations out there, and, you know, take along the kids, there's a clown around, there's doing balloon animals see. So and

J Jimmy Carper 39:07

these your when you see these, these folks are there that you use their services? Yeah, they're there for us.

39:15

Yeah. So I mean, if you aren't always gonna get involved in the community, and don't know what to do, there's always plenty of organizations for you to shop around.

J Jimmy Carper 39:20

— You're doing absolutely getting better at what you're doing. So, so packed with things and you know, I'd love to be able to do every one of them. But you know, you just can't. And

 Chris Harrison 39:32

the and the one benefit. One of the thing is, as you go there, you get a listing of all these companies that are in the community are proud to be a part of the community. I mean, if you're looking for a cell phone, there was two different companies there that were doing cell phones. So if even if you don't have that, there's the phone books, there's couple different phonebook companies like the rainbow Yellow Page, is helping us with our pride event that's doing that you can sit there and find out what's going on in other cities if you're going to be visiting out there. As they've got other books, their voice is set up and they're they've given away some copies of the with the Atlanta and the New Orleans, really New York ones they've had they had some samples there. They even have some other old covers. Oh, that they've got there. And it was interesting one that they had picked out was from 8486. And so like, part of it was talking about the one of the heads was rail transit to cut right through Montrose.

 Jimmy Carper 40:30

Mm hmm. That didn't happen. And

 Chris Harrison 40:34

there was another article about the president at the time. Who remains nameless.

 Jimmy Carper 40:39

Oh, yes, that one. Yeah. And so they just said President Yeah, okay. And so

 Chris Harrison 40:44

they, you know, he thought was kind of appropriate here. They're talking about rail and this guy back in 8084 86. And so they made sure they had faster that one up on the wall, and the different names and incarnations of the Houston voice.

 Jimmy Carper 41:00

Let's Can we go to PC music? Sure. While

 Chris Harrison 41:03

we're there next one is we got to also tell you till the song number two because

41:09

that's all we know. It's my notes are gone. There you go. And we'll be back in a second in the back of your car

c Chris Harrison 41:29

that was tire and fortunately, I guess it's I guess it's number two because she kept saying to in there. I guess she was trying to make it easier on us.

41:43

You know, I'm getting a call but that is not her. Waiting on our guest who is lost in traffic I'm sure. Well, this is Houston. I keep getting stood up by people. I'm beginning to think this show is a reflection of my personal dating situation. But at least your people pretend to say yes. A tease is good every once in a while.

c Chris Harrison 42:05

Yes, but he wants someone to stay or stay around regularly. You just want these one night. CO hosts do. Yeah,

42:10

no, no. But there's always faithful Roy. I did hear from Sandy. Oh, he's doing well. Very

c Chris Harrison 42:22

if he's still on Tuesday has no excuse for not showing up. Well, you know, it's the end.

42:29

Oh, what we're doing calendar events. For those that are familiar with Globo? It's a game like gay and lesbians organization. By all Go USA Hispanic gay lesbian organization. They also have a pride event coming up a fundraiser. It is on June 25. From 8pm to 1am. The 25th is on what day? Is that Saturday? 25th.

c Chris Harrison 42:51

Yeah, Sunday, Sunday.

42:56

Who wants to be out on a Sunday night anyway, Sunday night, June 25. From 8pm to 1am. They are going to be at the Guest House Inn and Suites of Airtex and 45. North. You can buy tickets presale for \$20 or at the door for 30.

c Chris Harrison 43:12

And I'm sorry, it's not Sunday. It's it's Friday. Okay, because Friday event is 26. That's 26. Yeah, on Saturday. So it's 25th will be Friday. Sorry, oh, it's fine.

43:23

Just take your word for it. I get a little dyslexic. So I was trying

c Chris Harrison 43:27

to do my math in the head. I was like, wait a minute, pride is 26. And I promise, I promise King global that we were going to promote this.

43:36

And we're doing that. So go to the global event. It's June 25, from 8pm to 1am. It's on a Friday. So go out there and enjoy it. presale tickets are \$20. And so it goes towards a good cause you can or you can buy \$30 at the door or buy table reservations a table for eight is \$200. You can call the Global Information Line at 713-710-0268. And you can get to more information about the event or call. You can go there and I don't see a website bittergourd. It's an organization to advocate activities that empower all through the organized educational programs, outreach opportunities, social activities, as well as other community events. They've got monthly socials, monthly mixers, educational forms throughout the year. In various events, I've been meaning to head out there. It's one of the larger GLBT Latino organizations here in the Houston area. If you want to check them out for attending, you can go to Globo houston.org, that's T L O Bo houston.org. Or you can call the information line at 7137100 to six, eight. And if you missed any of that, you can give us a call back and we'll get you the number here but oh the general meetings are on the first Tuesday of every month at resurrection and TC church, and that's right there on 11th and TC Jester. It's pretty easy to spot at 7pm on the first Tuesday of every month, so go check it out. And I tend to have a lot of stuff on Tuesday night. So I haven't been able to go remember I tried a couple of times earlier in the year and then I just sort of gave up. But now that that's popped up again, I may try to swing by. And they had a table that prior they would admit

c Chris Harrison 45:25

or they have a table and empower. Is there a charge for power this year? Is it still free? I believe it's \$5 \$1. Yeah, it's \$5. Their parking is either six or seven. I don't know if they raised it

for the there was this big to do going over at Minute Maid Park. So I'm not sure if they had special event parking fees going in there yet.

♂ 45:46

It was at the president Stein jumped from the airplane today.

c Chris Harrison 45:50

Not tomorrow. Okay. Now this was, it's called 4180. Okay,

♂ 45:54

does he need someone to help push them off the plane? Or is this just sort of

c Chris Harrison 46:01

thing what they're gonna do is we'll have another bush scandal behind him and make him want to jump split now that was, I didn't realize what was going on. It's like, you know, I pulled up to the George RR brown today to go to empower and there's like 3000 police cars there. It's like, My car's out of inspection and out of registration. And here,

♂ 46:24

I am pleased to be here. I'm

c Chris Harrison 46:26

driving down going what in the world is going on? And when I left it, it's like I drive by and I saw the signs for that. And one of the stations I guess, was filming and they broadcasting it. That when we came on the air at midnight, so recognize the little logo of that 41 at 80. Oh, wow, sort of thing. And

♂ 46:44

we talked about that inspection thing. Let me tell you about the click it or ticket campaign for seat belts. These people are serious, I can tell you firsthand. These people are at every corner. They are hiding in bushes, they are waiting for you to turn under the underpass. And they are watching let me tell you as a casualty of that. program. One

c Chris Harrison 47:07

One more advice I'll give you if you come into the Montrose on the weekend. Okay, do not exit I 10 and take st amant. Right not take that exit Shepherd and come certainly

47:19

not go home down that route. I haven't seen them they're that late. But if they, it just seems that's that's a very busy. I mean, I've done that a couple of times I come in on it when I've stopped doing it not that I have anything. I just I just prefer to stay away from situations that you know whether it's, you know, if they're if they're doing a little, what do you call it when they pick an area, and they use a speed trap.

Chris Harrison 47:45

I mean, there's two cops, they sit there, they pull in one vehicle and they're not even in their car, they just shoot the radar down the feeder road. And you know, they'll stand out in traffic and say, Look, just just pull over. And you know, it's one of those things that the last time I accidentally screwed him on. I had forgotten about it and saw him down there. And fortunately, if you get off and you can see far enough ahead and see them, you can just kind of touch and go on the feeder and get back on the freeway before they hit you and go up to I think it's Taylor.

48:17

Yeah. But otherwise, there's no once you pass that there's definitely no way you have to go through it because there's no other way you can't can't veer into any side road. You can veer to the bookstore. Yeah. And wait them out.

Chris Harrison 48:28

Usually, I think usually when it starts getting dark, because the fact that there it's not like they pull you over in their car, they're standing out in the middle of traffic, and they're not going to stand out in the middle of traffic with no, but

48:39

I've been in the dark and they've been there. Yeah, they've been there like his latest 10 shoes.

Chris Harrison 48:43

Because they weren't there when I came in this evening. But usually if I if the sun is still out, you know, I drink double shirt today. I took Washington. Yeah,

48:53

but sometimes you're either late and then I've never seen them there after hours. But if you go home towards the heights, or had to hop on I 10 I would just be careful about that. You know, you shouldn't be driving after hours if you shouldn't be driving, because if you've had too much to drink or anything, but I just you know, just be careful. Yeah, better safe than sorry. Yeah. So let me just find alternate routes. But anyway. Without public service announcement on click it or ticket well, how to get out of speed traps or where they're at. So,

49:23

I mean,

49:24

we're talking and the one on 5959 and BeechNut or bissonnet or Bill error or something two times I've like circled that little, little place and that's the date time. So you Jeff, I'm gonna have it over there in the evening, but

Chris Harrison 49:37

Well, I live out in the sticks there. And so I mean, to come into town here I passed by the DPS office. Oh my their new building. And 290-902-9029 Well, no, they've moved it now further and further out. They built a whole new building to themselves. And it's out at 290 and you West road out there

50:02

it used to be right there Mangum so I could I need to go get a new driver's license picture can you

Chris Harrison 50:06

still do that part but what they did is they all they moved there the Reason three headquarters where all the cops are on the hell up had and all that is out there and this brand new huge blue building they built just for them. He'd been

50:20

out there. Have you been in the building is lunch so relatively short for your driver's license for the last

Chris Harrison 50:25

time I went in January, I went to the Gessner one it was fairly quickly just for a renewal. Yeah, it was a crazy place. But

50:33

yeah, so that's our consumer report. When you get you off to get your new driver's license that went on tonight I usually was fairly slow I remember going out there once because when I would used to go to in town was always very busy.

Chris Harrison 50:43

Well, yeah, like with me, like I said, I'm live out in the sticks. So you know with used to be that we go out to Jones and going on. I'm sorry, Grant Road near Jones, because we're where I was living close to. I only went to the one at South Gessner and West airport because I up until this past week, I was working in Stafford so it was right up the street. Okay, so that was a convenient one. And even though there was a lot of people in there, I still move through really quickly. Well, that's

51:14

good. We're talking about well, we're talking about cops. I don't have the prior 2004 book with me. But it is just amazing in a city like this. I mean, you know, I know we've got gay cops and some of them are very out and you see that on, you know, a couple of them work at the clubs. And but there's, you know, some some are out there that you know, and they are they do and they are in the Pride Parade usually. Yeah. And so it just sort of made me and I think one of them is profiled in the 2004 Pride book. I can't remember his last name rusty I met him just once. Yeah, event or something. But

Chris Harrison 51:44

I think fine, I think with my Empower stuff that I've

51:48

collected the one from 2001 2002 or three and now in four. So there's they're collecting on my coffee table and they're awesome little books that pick it up. But while we were on the floor or talk on the topic of DPS, he just kind of nice to know that even in a place like Houston, we're you know, we're slow on some things, but we do have some cops that are out and gay and doing very well in the police force.

Chris Harrison 52:08

Yeah, and there are profiles in there of a lot of different people in the community. And you know, it's not just the famous people it's a lot of people who are just do just couples and

families that are out there and how they show their pride, a lot of information about some of the other private events here in Texas.

52:25

And I don't know where they get one of those books I can't write pick mine up but they're, but they're awesome books. I think there should be available out there and like bookstores and go to

c Chris Harrison 52:33

empower. We'll plug it in our the pride committee, he's got a booth over there and they've got a fun drawing. The they if you've ever seen what their Volunteer of the Year gifts are, they've got one of those that they're giving away for as a raffle. But it's not a raffle, it's a drawing they're giving away. It's basically a small laundry basket filled with various sizes and containers of lubricant that's provided by ID. So I'm looking at this laundry basket. It is probably an oval, it's 24 inches.

53:12

You need lube for 24. It

c Chris Harrison 53:14

was it's about I mean the basket like 24 inches by 12 inches. And there's like there had to be at least a dozen bottles and each one of them was a different size and one of them was like a gallon huge container. It's like my god I don't think

53:36

you'll mind me saying this story because he he's very out. I'll just use his first name Nick used to very involved in in pride but he used to do some promotional work for either ID or wet and I remember walking into the apartment was I was helping him move into the entire closet full the top shelf of like these gallon sizes of blue. And you open that and he's had his face just turned red because I mean, you know, you would just you know, I'd be a little embarrassed I would open my closet and see that many gallons of lube literally you must have like 10 or 15 of these like gallon size things of lube and he's like I'm really not that busy.

c Chris Harrison 54:14

So I told him I said my god, I mean, like

54:18

time supply I mean this this works with those little medium size like you know, little half bottles and that would probably last me for the rest of my life the password

c Chris Harrison 54:31

I pick up the little packet ones that they've got at the community center, and I'll go squeezing into the big bottle you might want you know, just kind of whatever is cheap

54:44

you know, I thought about like, I've been in a relationship before I was like okay, maybe we should buy like the gallon sized thing and you know, this will last you know, I'm the most I've done in relationships five years. I know that the last five years if I ever get another relationship. I don't know if I just have the ball was to go up and like buy a gallon thing of loop

c Chris Harrison 55:02

with that least you get the pump. Yeah,

55:06

yeah but they're just something like looks a little trashy. He leaned over to like the corner of the bed and just you know, squeezing that pump and so

c Chris Harrison 55:15

and then you get mixed with the hand lotion, it's just

55:18

gonna get off the she. Anyway,

c Chris Harrison 55:23

well let me just get some of the nonstick spray and just use that as is there is a little bitty craw a little Baker seek that was supposedly was a spray on Khan and they were trying for some time I don't know if it was basically just it was latex and cam that you would spray on and I don't think that works well because you know you spray it on and you know you have to wait for it to dry Yeah,

55:51

and who's gonna get it off how'd you get the cotton I think

c Chris Harrison 55:58

you just peel it off like you would if you were using latex on your skin

56:03

but then how would if the rub i don't know I'm just having an issue I don't know having I'm having a logistical problem and yeah,

c Chris Harrison 56:10

I think it's probably why you don't see it on the market

56:13

got that when you go to the store to get that little for novelty use only sign disclaimers on it. Yeah, now pride date Astra was moved to fall. Is that right? Yeah. Okay, because I had a couple of friends asked me for that. And Nick Brian two had told me he was I don't know if he's the chair of the President or Vice President President was telling me that so for those of you that are wondering, it hasn't been canceled. I actually hopped into some chat rooms this week and that the three times I happen in chat rooms like I someone there was a discussion about Friday that gate eight AstroWorld and that had been cancelled or has been cancelled and it is in fall I don't know the exact date. But you can check out PC o h.org. Think it's pride Houston houston.org Check that out and I'm sure the date is on there somewhere but probably date astral has not been yet

c Chris Harrison 56:59

I know we talked cooler weather. Yeah, we talked about it last week. We had a couple of guys from the pride committee in here and you know we enjoy receiving eye candy like that here at the at the show. Made our made our day at two o'clock in the morning. I

57:17

and I went to toys finally for the first time in about a year and a half and talk about eye candy cute little Hispanic boys running around.

J Jimmy Carper 57:29

I have always heard that about Toys hi I'm I'm

57:33

just not talking about cute little Hispanic boys and eye candy and Jimmy Depp's pops right back yet Hello. That woke him up. But no, there were some hotkeys there. So I'm just gonna have to try to make that somewhat of a regular habit and see how see how I get to work it. Friday on time we're is towards choices at glenmont and Chimney Rock. actually be executing nine on glenmont head towards Chimney Rock had glenmont that's heading away from the Galleria. Take a left on Lynn Monica block down the left. So then energy is right there on the corner of glenmont. Yeah. And Chimney Rock, but it was fun and it was packed and it's probably about 80%, Hispanic 20% non Hispanic. It's uh, yeah, so it's a good little mix. And it's actually a fun interesting mix of lesbians to say, hey,

J Jimmy Carper 58:23

that's what I like to see.

C Chris Harrison 58:24

The last time I was there, I was remember was kind of a mix reversers. And that's always that was a long time ago. Back Back when I think we were still trying to claim the restraint. Hmm, why? Yeah, there

J Jimmy Carper 58:38

was poppies. You know, they just they Yeah, yeah, they're claiming

C Chris Harrison 58:41

to be straight, but they had Miss Miss Lewis doing setup for them. So that gives you kind of a clue on where that was going.

J Jimmy Carper 58:50

Yes, yes. Scott Muscat. Who was who was now. Right writing for twit. The twit the new twit has sent out yet. I haven't seen it. It's not out yet. But they they plan on I think bringing out the first one for Pride Week.

59:10

Sounds awesome.

J

Jimmy Carper 59:12

In that, yeah. They hope to continue it so good. And I really miss it. Brian keeper used to be out there. Yeah. But it's a whole new management and instead of TW t they are going twi T to differentiate between the the old one

C

Chris Harrison 59:32

and he's gonna be kind of an entertainment reporter. Yeah, on that

♂

59:36

that in itself is entertaining itself.

J

Jimmy Carper 59:40

Can he tell stories and surprises

♂

59:43

radio station to get shut down? It was He was I was thinking that. I don't remember that was my first experience listening to these like everyone's

J

Jimmy Carper 59:50

doing the husband hunt. And see.

♂

59:53

He hooked me up on one date. Once I have to tell you back back. I don't remember that. I was on the show twice. Me and my fraternity brother Hunter. I don't know if he ever came back on the show. I think he did for a while with me. Honorary Hispanic, where he grew up in, in Kingsville. So speaks almost better Spanish than I do. But we would we would be bored. You know, it was our college days we would call in or whatever it was a Scott was entertaining. Yeah, we would listen. And once we called it, and when he doing that, of course, he starts asking all these like bizarre questions like,

♂

1:00:30

sighs I'm caught or Yeah. Did

C

Chris Harrison 1:00:33

you at the time when you were born? Did your parents believe in circumcision? Yes. What is your shoe size? And if you were to go into the army, would you take a top bunk or a bottom bunk?

J

Jimmy Carper 1:00:43

Oh, yeah, I remember.

♂

1:00:46

Yeah. And once it's over, like, so yeah, that scared us off the first. But we like a couple of weeks later, we were out and about and we had a few drinks we're feeling brave when he called again and next thing you know, we bought him food and

C

Chris Harrison 1:01:02

had a sitting so this idea that to once I got tired of hearing this Lewis sit and moan for an hour and a half of telling Roy go out there and cook up for fajitas. And I drove in from Copperfield. And bought two pounds of a heat as it plays at the street and dropped him off at the station just to hear just him to shut up. Awesome.

J

Jimmy Carper 1:01:24

He can't go an hour and a half without eating

♂

1:01:28

back just for good times. Perfectly into Latino segment. He may not be but he

J

Jimmy Carper 1:01:33

certainly knows the boys. Yes,

C

Chris Harrison 1:01:35

he's Hispanic by injection, right? Well, we're actually going to be hopefully we're going to be getting in touch with Miss Lewis and getting some of her expertise at least on CD here. So awesome. Yes. But the twist kind of you're turning Special Edition for gay pride. And then there'll be a weekly event, a weekly publication about two months later. And Miss Lewis is gonna be a regular columnist doing celebrity beat and the first interviews are going to be ones already the bed and that's with Ruth Hall, who, who just completed is releasing a new single on

Tuesday. And also, he's gonna be doing one with Tammy Faye Baker. Santa Fe Baker Messinger, yes, that's going to be in the first edition that is going to be for Miss Lewis and I don't see anything where we're gonna be able to find that. But no, Miss Lewis is up in Dallas, in Dallas. doing design work? Yes. So I

J Jimmy Carper 1:02:41

imagine that when he started here, started his segment while he was the guest first and then got a segment. He was a waiter.

1:02:51

Leave it to Scott to give them an internal take a mile. That's

C Chris Harrison 1:02:54

right. That was the whole idea of the husband hunt.

1:03:01

But now we've been doing well. Yeah,

C Chris Harrison 1:03:03

we heard about we heard from from Miss Lewis here a couple of Wow. Well, last week or two weeks ago when I unfortunately got to the wrong email address and I just finally found it.

1:03:13

Oh, an update what we're talking about people who just sort of stand out in in our minds. Kara Yan, who? Several weeks ago was in a car accident. No. You missed that. She was in a terrible car accident. She was laid up for actually more than a few weeks. It was a while back. She was laid up for almost two months.

J Jimmy Carper 1:03:31

Oh my gosh. What happened to her

1:03:34

she she was banged up pretty badly. She was in the hospital for several days. She was at home this weekend. was her first weekend back out. Yeah, he's doing well looking great as ever. She

was out with her twin sister yesterday and I think they're supposed to be out again tonight. Okay. She's looking well it was for the for the severity of the crash. She was very lucky to get away without any permanent like, you know, Kara is just beautiful. Yeah, absolutely. cherishes her looks and luckily not only she well that just and a lot better and it could have been a lot worse but none of that was affected she had as she slept on limited problems with their with her either left or right hand in an accident but she was tore up pretty badly and a lot of internal injuries and wow. But she had pulled over to get in. She'd had a wreck and then someone hit her from behind. So it was just just a horrible situation. But she is up and around now. She has been progressively getting better and but she is she was well enough to actually be out and about last night and looking as great as ever and being her witty. tastic self that's only part of her charm. I would use another word. It can be sometimes it begins with a B but yeah, Karen we love her. And she only means that in a very loving way. But she is phenomenal. The first time I saw her performance at heaven when her twin brother and I they just blew me away. But she's up and around again. So,

J

Jimmy Carper 1:05:03

for the audience out there, we're talking about Cara and her twin sister, Tara. Tara, and we're talking about drag queens here. Yes, we are. Yes. Or I don't know she considers herself transgendered.

o

1:05:20

I don't think she cares. She was She is a church. She uses that term drag queen very freely.

J

Jimmy Carper 1:05:25

We're seeing Kara when she wasn't Kara.

o

1:05:29

Okay. I've had the opportunity to see both and she puts a lot of care into being care not so much as being Yeah.

J

Jimmy Carper 1:05:38

The male of whatever. Yeah. Yeah.

o

1:05:41

So but she's back up at about good.

J Jimmy Carper 1:05:44

I'm really great. Yeah, I'm

♀ 1:05:45

trying to get her to swing by and I've

J Jimmy Carper 1:05:47

been lucky enough to see her perform. And she's she's very, not only she very good, but she's very professional.

♀ 1:05:54

She is She she she is she puts a lot of a lot of effort into her performances and gives a stunning performance. I mean, just free physical onstage as an awesome physical presence. She just, you know, you will see her do dance moves, it just she has no problem getting on the floor and hitting or picking out that hurts. But she is great, who I haven't seen in a long time is Lady Shamu. I had to give her a call and see how she's doing Oh, please was always promised to be here. But what we learned these days, I'm going to find out what

C Chris Harrison 1:06:26

she don't we still have I got a birthday

♀ 1:06:27

card for her. And I'm going to go knock on her door. And we're going to do the live show from live from the cell phone when I'm reading down, that's fine.

J Jimmy Carper 1:06:35

We can do that. We have the technology we do, we can do that.

♀ 1:06:39

You will have to use the bleep button much fun he is. He had some personal stuff cut but her life so she's no longer attending get rich is that she left there several months ago to take care of some family things and some things slow down for her for a while, but I'll check in with her and see how she's doing. Please do and the poppy party again is coming up. I think this coming

Friday, I'll have to check. Check the witches website or cue Texas or whatever it is it has the the upcoming events and for those of you know, which has been a little slow lately, but this event always always rocks and it's always fun. And we had last time I've noticed

J

Jimmy Carper 1:07:13

that Rich's itself can be slow. But if it's a special event, especially the puppy, yeah,

♂

1:07:18

that place was packed and packed, packed. Last time that we had here the I want to say it's J but I'm not sure that the gentleman coordinates those called in. And we spoke to him a little bit about that. So they gave us some background, but they're having phenomenal success with that. So great. So that's good. We're gonna take a live music break and then wrap up again. I'm sorry, the guest again, didn't show up. I'm beginning to have issues with this. As I was telling, talking about earlier, I'm beginning to take things personally, beginning of Orion may remind me of my dating, dating life and I don't get stood up. I wish I had been. I've been on a couple of those recently. So but you don't have to get to swing back by again, as David who's stopped by here every once awhile. My ex Yes. He's working on a new little CD saying as soon as that is out.

J

Jimmy Carper 1:08:04

Oh, I would love to hear it. Yeah, of course. Yeah. He's

♂

1:08:07

phenomenal voice and he does,

J

Jimmy Carper 1:08:09

he does. So just love his voice. He

♂

1:08:12

is coming out with that. And I'll get him to come back by and come say hello to everyone. He is taking a little time off. He hasn't been doing that as much. He's back in school and doing some stuff. But he's got that. Before we wrap up. I just want to remind and go to music breaks and remind you again, about the event ID globe. The global was having. It's a Latino organization, gay lesbian organization here in town. June 25, which is the Friday we figured out. Yeah, he can buy presale tickets for 20 or 30 at the door. You can call Globo for information at 713-710-0268 And so where does this event it is like a dance or

1:08:49

kind of thing.

1:08:50

Yes, it is. Byli at that answer now 2004 Or go y'all translate in international dance 2004 Or do you use like happiness?

Jimmy Carper 1:08:59

Yeah, that is like the dress up ball. It is of the pride events. So I have been very, very nice. And people actually wear Texas's Yeah. Yes.

Chris Harrison 1:09:11

And you can go meet King and Queen. Clove. Every bottle of wine. No Globo and empower. Oh really? Yes. Yeah. King Globo I came walking down the aisle and he started handing me the card and he didn't even know. I say well, yeah, we'll make sure we promote this on the air tonight. He goes why don't I go? Yeah, he's like, great. So awesome. Love it. And we love hitting the community X groups up there and letting them know what speaking

Jimmy Carper 1:09:42

is promoting something. I was at George Brown earlier tonight. And there's an event at rugosa Italian Bar and Grill at 920 studio Mont it's a brunch going on. So, special brunch with DJ yogi and DJ ALCS. And these, these two are here at KPFT. They have their own show that tomorrow generation radio, okay is 330 to 530 in the afternoon generation radio, which is Asian dance music.

Chris Harrison 1:10:23

Yeah, I remember catching it when stuff. I remember when it first came out and was on at 10am and I would catch the first part of it. And, you know, very interesting program that's, that's in that new strip shopping center, just south of Westheimer. Yeah, and I'm in Washington.

Jimmy Carper 1:10:38

So it's Sunday brunch, disco 11am to 4pm at ragazza 920 St. amant. Cool, so

1:10:48

check it out. Yeah. It's not the one where the shopping center where it used to be the other

Italian restaurant began with an R. I'm not sure

 Chris Harrison 1:10:57

where there used to be there. Is that one that was between the Walgreens and then you what used to be the rice. The rice field inside

 Jimmy Carper 1:11:05

Montreux stood amount between Allen Parkway and Washington. Okay,

 1:11:09

it's right there right before you get to the Walgreens on Washington. That's it. Check it out. That's it. That should be fun. So good. So in a good show. Thank you all for listening to Latinos segment. We're going to have a song by Talia here. And thank you for joining us. And

 Chris Harrison 1:11:26

we just wanna let you know that you're listening to after hours queer radio with attitude. Here on Pacifica radio for the Gulf Coast. KPFT 90.1 FM Houston 89.5 Galveston. Hey guys, check out the worldwide web at KPFT dot O R G

 Jimmy Carper 1:11:42

BFT. Is radio that listens to you. Yes,

 Chris Harrison 1:11:45

I already killed your mic so you didn't get the first half. Okay.

 Jimmy Carper 1:11:49

Remember that KPFT is the is the radio that listens to you.

 Chris Harrison 1:11:53

And we'll see how we can scrounge up and get a little bit of roundtable roundtable

 Jimmy Carper 1:11:58

Yeah,

1:11:59

he's already sound like a married couple he's already looking at he's already cutting you off.
Yeah.

c Chris Harrison 1:12:04

You don't know how many times when? Because the first show has to hit the button has the button set up for the turntables that those mics in there don't work so you know, we're sitting in there talking thinking we're on air it's like oops, the right button there. So we'll be right back. Boy, tennis doesn't come will come again yes, we are back. Allow for the grand reveal. It is time for the after hours roundtable discussion.

1:12:46

We handle these phones. We

c Chris Harrison 1:12:49

have got a more than a full house than usual. We have a packed house. All right people. If you hear my Okay, starting over here on the left hand side, let's go around the horn and see who's here.

1:13:01

Introduce yourself. Yeah, I'm I'm Ryan. I used to be here long time ago.

b Bobby 1:13:09

Um, Debbie has been sorely missed.

1:13:11

On Zane, welcome back. I'm Debbie. I'm Vincent. Merlin. David Raven. Lan.

c Chris Harrison 1:13:23

So your name

1:13:30

not very sure that

1:13:36

Jennifer, you don't have to be shy. You kind of have to forgive her. She's been chasing a duckbill platypus.

Chris Harrison 1:13:45

Okay, and of course, this is Chris. Jimmy will probably pop back in here once or twice when he hears what we're talking about. But you know, that's the way things work. Melanie may pop into or she's still asleep. We want to thank our MBBS we got some letters from them. I didn't get a chance to read them hopefully. Others have. So we'll I haven't Jaeger.

1:14:09

We love the angel but you shouldn't be bragging about the other part. Oh, we

1:14:14

got passed around.

1:14:17

Wondering if we were supposed to like make a plaster cast to that thing. You know, we'll model or something like that. I

Chris Harrison 1:14:25

don't know. Are you forgiving?

1:14:26

I mean, Tigger took the the time and attention to him so to trace out on his human male anatomy

1:14:36

according supposedly according to the letter a certain someone we won't mention names has

that

1:14:42

to do like Dirty Picture. Sure. Yes.

Chris Harrison 1:14:44

Okay. Sure people. Let's see the mail. Yes, we will. Mail the mail mail. We got the letter Got on the table okay, we all didn't bring him in even

1:15:03

know. Now there's also a very beautiful picture of a male Angel, which

Chris Harrison 1:15:07

Jimmy of course loves yes and that he probably kidnapped it for himself.

1:15:13

And then he apologizes for not letting I'm writing a longer letter, but all the time was put into drawing the picture took a little longer than he thought. Well,

Chris Harrison 1:15:22

considering the fact how much we write back, you know,

Bobby 1:15:25

I want I want to see some pictures. I want to see some depictions of male fairies. You never see male fairies. That's true except of course at the bars and that doesn't count. They don't have the wings and stuff that's not up to you.

1:15:45

I just slugger just opened.

Chris Harrison 1:15:50

I just saw a picture of tiger's tail and

 **Bobby** 1:15:56

that wasn't as good.

 **Chris Harrison** 1:16:00

Nice and long winded. I feel kind of like you're using that nail on the tach the tail

 1:16:09

brings a whole new meaning to the words being nailed.

 **Chris Harrison** 1:16:14

Something like that. We will need that gift package you can get there from the

 1:16:19

ticker. There is such a bounced around and the cartoon Exactly.

 **Bobby** 1:16:23

Yeah,

 **Chris Harrison** 1:16:24

I think you'd use that as a pogo stick.

 **Bobby** 1:16:28

Tigger always use this tail as a pogo stick in the cartoons.

 **Chris Harrison** 1:16:32

Now what happened that that was that was a headbutt to the microphone. Go boy. Watch what you don't want over there. We've we've knocked out one of our people here. And I am hopeful that

1:16:54

properly she knocked herself out. Somebody say knock yourself out. She took them literally.

c Chris Harrison 1:17:00

So okay, we've got some we want to thank our MBBS who always write in and they're, well Wilson will send you our former MBB who and Waco and David and

B Bobby 1:17:18

David Rohde Wilson's One

c Chris Harrison 1:17:20

thing I've got to say there, we've talked about doing some tours of going and meeting excuse me going down and visiting some of our MBBS and talking to him in person. Unfortunately, that's on hold right now. I've had a little career change, so to speak. That was totally unexpected, and I'm not gonna be able to make the trip I have the time to make the trips I just don't have the finances to make the trips. So we will get that back on track as soon as we can. Because we do want to meet the meet up some of the MBBS and talk to them and find out what you know what this show does for them and we will get there and like I said, unfortunately it's not going to be as soon as I was hoping it was going to be so we'll get some stuff from the letters there.

B Bobby 1:18:08

Wilson says that he's had there's some mention here and I don't know exactly what he means here but apparently he's had some health issues of some kind. Wilson

1:18:21

has had some health issues for quite a long period of time. But since he's been relocated to Waco unable to find the

B Bobby 1:18:29

year according to this letter, he says he's not getting any medications or stuff yeah find

c Chris Harrison 1:18:36

out how to get once you get closer to a microphone don't

B Bobby 1:18:40

they have like if I get any closer to this mic

C Chris Harrison 1:18:44

I'm yelling at Robert I'm yelling at Robert on that

∅ 1:18:49

since having some difficulty finding any place where he can get any health care in Waco.

B Bobby 1:18:54

They have hospitals in Waco yeah one Baptist

C Chris Harrison 1:18:58

yeah one Baptist and one Methodist

∅ 1:19:01

I need a little bit of excitement handed over here.

C Chris Harrison 1:19:04

And you know, I wasn't if you

B Bobby 1:19:06

need excitement, honey, we can provide that there's plenty of us to go around over here it has been three years to make up for lost time. Anyhow.

C Chris Harrison 1:19:27

Okay, and our other letters. Yes, we

∅ 1:19:29

do. We have one here from me. That's how it was signed. Love your friend me. So whoever me

do. we have one here from me. that's how it was signed. love your friend me. so whoever me is. asks that is Robert still around? That's David. Okay. Okay. And

1:19:47

someday, David, I fell off the face of the earth a long time ago. The person who's been corresponding with you has been a figment of your imagination.

1:19:57

This you have not been corresponding he misses your letters. I'm also in here

1:20:04

and keep saying the same thing over and over and over again. And that one letter, which means he's trying to use the repetitions guilt thing. Ah, no. Coming from where you are from you obviously are aware of how the Jewish mother acts, oh jazz, the

1:20:20

jazz the guilt thing, David's

Bobby 1:20:22

doing something very Jewish mother's Italian mothers and Irish mothers.

1:20:29

All dinners all family dinners are always served with warm side of guilt.

1:20:34

And then so also speaks about something he had mentioned to you, Chris, about doing live interviews.

Chris Harrison 1:20:41

That was one I was talking about. We were yeah, like I said, unfortunately, they didn't give

1:20:46

us a phone number says that he asked to talk to the senior Warden, which I don't know if that's, you could do that. Oh, yeah,

 Chris Harrison 1:20:52

we're like the one thing we were hoping to do was go and meet some of the MBBS and talk to them. And like I said, as of last Thursday, I have a sudden career change. And I

 1:21:02

think he's talking about doing a phone interview.

 Chris Harrison 1:21:04

I'm not sure we can do it. I mean, the only way we can talk to them, as they have to call is doing that starts up on time. So we were actually gonna try and go out and visit them. Okay. In prison. Okay. And like I said, right now, and I know Smiley was also very interested in that. And unfortunately, like I said, that's on hold, smiley

 1:21:24

still in. Okay, how much longer?

 1:21:29

They're talking to possible dates. One is in November of this year, the other one would be February of next year, did

 1:21:36

he get his privileges back? I mean, he wasn't he missed? Yeah, he was missing his radio. He

 Chris Harrison 1:21:40

got it back, though.

 1:21:42

Also talks here about that he loves the 30 minute segment about gay rights, gay history about the he'd like to know a little bit more about get some more history on the pink triangle. He didn't know about the Netsy issues, which was a big thing back then. Not too many people

know about that part? Well,

 Chris Harrison 1:22:06

what was the you know, Nazi Germany was a very organized society. And so what was, we've always seen the Star of David, the Mogan, dava, the yellow star, that some of them actually said, you, Jordan, J, u, d, e, which is German for Jew in there, but also there was other people that were persecuted under the Nazi regime. And they wore triangles of different colors. Pink was for the homosexuals. You know, if you were Catholic, think Catholic was green. Purple was gypsy. They're all different color witnesses were also and it was different color codings. And if you were a say you were Jewish, and gay, what was done was one of the star or the one of the triangles was yellow, and the other triangles superimposed of it to look like the Star of David. But it was made up of these two color triangles. And you know, a gay Jew was the lowest rung on there. And that was part of the history. And it wasn't really something that was known until the 1980s. And the AIDS crisis came, and one organization act up, took that pink triangle and brought it back. And what they did is rather than traditionally, the, the Nazi triangles were pointing downward. And they took the pink triangle and inverted it. So it was pointing upward, to show that we're reclaiming it as a symbol of power for them. And that became the symbol of the beginning stages of the AIDS crisis was the pink triangle before the Red Ribbon came into fashion. They

 Bobby 1:23:57

used to have and very often that would be seen with the phrase under it, silence equals death.

 Chris Harrison 1:24:05

And that was that was part of the early activism that came in in the 80s was, that was one of the two large organizations that did this sort of thing. And it was simplistic. A logo, there was a act up was this was this pink triangle, queer nation was a was a large queue. So it was something you can easily recognize. And you can understand the meaning behind it. But it was one of those events of where, you know, taking something from a horrible time, you know, someone who's just suspected of being homosexual, you didn't you didn't have to prove it. And you were sent off and experimented on. If you were lucky, you were killed quickly. And the fact that they took this symbol of oppression and turned it into something powerful, and you know, that's a symbol you see around here in the community all Time, you know what

1:25:01

I have to say one of the things that I like about this is that they're questioning that it's important to question to know who came before you why you're able to be and say and do who you are. There have been hundreds of people that have have gone through hell and back, just so that you can question and answer it, you need to know your history, you need to know, it's important that you know who enabled it for

c

Chris Harrison 1:25:29

you to be shoulders, your standard shoulders. I've, I've always made the claim that, you know, there's different ways of coming out. And when I came out here, I was the geeky kind. So I was a book Queen when I came out. So I went and bought the books. And one of them and I just, I just finally found my copy of it is the gay almanac. And, you know, it's just just some of the history he goes through. It gives you like biographies of some of the famous people. And this book is 10 years old. But I mean, it goes through and gives you the information of the history, the different symbols, and I'll have to bring it in here when he's when he's done with the roundtable to talk about, because some of the strange things that

o

1:26:11

would be great, I think that would be a great thing to do. I think that's one of the things he says in here that he would like to hear more of,

c

Chris Harrison 1:26:17

I mean, the rhinoceros is considered a symbol of the queer community it's it's, I forget exactly where it comes from. But it was a strange it's something's obscure things, you know, having the left sleeve cut off your your shirt,

o

1:26:34

certain symbolism is there meaning there's something

c

Chris Harrison 1:26:37

of that where the labor is comes from, which is the lesbian symbol, the double headed battleaxe that they use. Similar for those that this comes to think more from the Amazonian? Yeah,

b

Bobby 1:26:55

let me ask permission for us was a hammer,

o

1:26:57

the group patch, okay, do that. Like, I mean, these are young, I'm

c

Chris Harrison 1:27:03

not sure what they do in their actual stem into

B

Bobby 1:27:06

history I have. And I've railed on this on many an occasion that they don't, that an awful lot of kids who are coming up now have absolutely no clue whatsoever. All they know is we have a pride parade. They know it's about being out and proud. But they have absolutely no clue that it started with a you know, of a fight between cops and drag queens, rebellion, rebellion, you know, a lot it started there. And they have heard ideas yet.

♂

1:27:44

The sad part is that a lot of them don't want to know. And a lot of them, they didn't hear anything about it.

B

Bobby 1:27:49

I mean, they don't know a time when they weren't allowed to sit at the coffee shops that we have now. And, and be out and be you know, and and be in your face, queer, you know, an arrest without being arrested, harassed, or shot at work, or beat up, or beat up or whatever.

C

Chris Harrison 1:28:10

And, you know, I mean, that's part of, you know, here probably the next couple of weeks, we'll be doing some of our stonewalls stuff. That's what he mentioned anywhere. Yeah, wherever you're we do have a couple of different Stonewall pieces we play. Roy is a big Roy is a stonewall survivor, who was at the riots the time and always is a he goes and he's done some lectures with different groups of you know, this is the history of

♂

1:28:38

being gay is not just about, oh, I'm attracted to a male or I'm attracted to a female, there's a whole history, there's a whole thing behind it. You know, it's I think it's really important. The,

I am lucky enough to have gotten from Jimmy some of the tapes, some copies of some of the tapes from old shows, from old pride parades, for mold. And with some of those speeches, that, you know, a lot of these kids weren't even born when some of these people made these speeches at Pride marches and various events, you know, the where will you be when they come? Stuff, the, the, you know, all of that. And it's, and I wish that you could just shake all these people and get them to understand where how far we really have come? Yeah, it may seem like where we're like, where,

1:29:35

where we are now, talking on the radio. You know, I mean,

1:29:40

there was a time when all of this stuff would never, ever have gone out

and we would be in a mental institution because we were considered to have a mental illness

electric, electroshock therapy, a C reversal therapy, all sorts of stuff like that I've either the DSM three Yeah. I remember reading things about the ex gay movement. Oh, that that disturbed me.

Bobby 1:30:05

My favorite story about that is the two ex gays who went on to a convention to go canoes and yeah, ex gays and ended up falling in love with each other and, and dropping out of the queue aft did something similar to that where it was like, they, they they took one of their characters from random through that like in their first season. Yeah, no, yeah, something like that.

1:30:29

And, and I've heard all sorts of horror stories about all that stuff. I mean, I think my mom out of loving kindness, she gave me a book on the movement, not to try and convert me, she wanted me to know what was out there. And I couldn't get past the first page. It was too disturbing. It was just too disturbing to even read something like that. And then now being able to sit here and knowing that ex gay movement, who cares? Yeah,

1:31:03

I can't even imagine coming out as young as a teen what it must be like I was an adult already. I already had children. You know, when I came out to be a teenager to be a young person and and my daughter has a I mean, even said to me about how it's used as a derogative in the school calling each other gay lesbian. So you know what, I'm tired of that already.

1:31:28

I can't tell you how many times I was called in a derogatory fashion. You have fag or queer or ~~that's so gay~~

We're going to talk about an event that's coming up here, and we're going to take a little music break, and then we'll be back and we're going to continue our discussion. So I'm gonna pull Yarl's mics down. So talk amongst yourselves. I'll give you a topic. Right? Right. And like, like they need any information to go off of. Okay, David, keep hold the door shut because they're talking more than I thought they would hear so. welcome and introduce yourself.

H 1:32:54

Yes, generation radio. And they were actually Djing Atlas trata in 2000, from 2000 to 2002. And so they're really in sync with, you know, the gay community, what they what kind of music they like, and, and they're going to be really kind of courting, courting the gay community for this event. And so that's going to be 80s Retro music and some top 40 some really fun music and it's going to be at 920 Sumant. Is that regard that Italian barn grill. And it's right next to that it's in that shopping center by the Walgreens before between Washington Allen Parkway. And the specials are \$10 a pitcher for Belize and mimosa. Cool. It's a great deal.
