MCC R is doing a holy union. Like seminar thingy. And so if you're interested in doing this holy union, whatever, on March 9, from Oh, my Jesus, I can't read my writing. But anyway, there's the \$5 registration fee, but it's on March 9, okay. And I want to say it's like, I don't know, seven maybe or something. But like, it's like, I don't know why I have one to five on here. But

00:29

maybe it's a Saturday, right?

00:31

Well, maybe it is. Maybe it's March 9 is a Saturday one to five. I might be right. Who knows? My writing might be right. Yeah. Anyway, but call him CCR. 8619149. And it's sort of like a seminar for people that are interested in committing to a holy union. And it would kind of give you some ideas about that and how to do it and what's going on and what,

00:51

you know, holy unions at MCC are are really serious stuff. This is not the holy men's ought to be serious about people who've met last week and because you just can't go walk in and traipse in and say, hey, I want to hold a union. Yeah, you have to be

01:08

they wouldn't do that with heterosexual. Why should they do with homosexual? That's exactly

01:10

right. That's exactly right. You have to be together for a certain length of time.

01:17

And well, the people were with tonight they said it was on the anniversary of their of their third anniversary. Yeah. Yeah. And I know people that have waited a lot longer than that. Oh, yes. But the bottom line is, I mean, this is something that if you want to, you know, a seminar about it, this would be something you could look into.

01:36

I've been to several, several holy unions at MCC er. And they're always not only wonderful, but each one is unique.

01:44

Because it's couplers, you make it out to be a couple is unique.

01:47

And they they usually write their own, have their you know, their own music and write their own shit things and stuff. And that's

01:55

what heterosexual couples do. Why should it be needed? It's

01:57

just beautiful. It's just, you know, I, I'm always the one with, you know, give me a hanky because I'm, you know, I know, it's incredible. She loves it. And I know, I know, you know, when it was

02:13

a neat little thing, and I bet that would be kind of a fun thing to do. And the other thing I was gonna mention was

02:18

again, after you do that, yes, go to that seminar about estate planning, because you need it.

02:24

Oh, yeah, no kidding. Really? Yeah. Except the estate planning comes up prior to the other one. That's okay. It's just

02:32

that I am so tired of hearing about couples that have been together for 2030 years, one dies, and then the family of the one who dies, cleans the place out.

02:43

Well, that has a lot to do with legal documents, wills and all this and that. This has to do with estate planning, like how trust and this because there's a lot of there's a lot of gay men who have children who have now you know, they have grown children, and they want to plan for them as well as their partner. And you know, yes or no, maybe and this previous wife, person or whatever. And in order to make these trusts and do this, and that because they have kids that aren't of age, that all that kind of stuff. And you know, asset protection I have over and above wills and testaments, our library of legal doc, there's lots of loads of legal documents, but this is about your estate planning and getting things together and doing whatever, I'm sure a legal thing. You know, there's real obviously what documents again, so everything up this seems to be a little different.

03:42

Okay. Well, if you're looking for that they can go see more and hunt. Let's lawyers. Oh, Connie, more. Oh, Morton

03:50

hold and Judy rents and oh, yeah, there's so many. And oh, I can give you a better.

03:56

There are financial documents that you can name beneficiaries. Oh, yeah. And all insurance. Right. That's right. I know, my lover has done that. And so that that kind of cinches it. I mean, no. Deal. You know, once there's a beneficiary well, and

04:11

if some people want that are making good livings and want to do something about they're expanding that and setting aside and having things for this one that one in both trusts are joint joint like that. Yeah, this will help you figure all that out. And taxes because sometimes those

things can be terribly unique being the fact that you can't file jointly. Hello. So that'd be a fun little thing. Tom's on line one. Tom's on line one. And let's talk to him. Let's talk to line one, Tom. You ready?

04:46

Hello. Hi. Hello, Tom.

04:48

Yeah, on this. I was interested in talking about this whole union with NCCR. Yeah, yeah. Give a you know,

04:57

I know how you feel. Yeah, you

04:58

know how my hang up is even within CCR, I do not believe that if a heterosexual couple would go then CCR that NCCR would put all these regulations on. Hey, have you been going together for three years? I mean, have you lived together for three years?

05:14

I think they would.

05:19

Any church in the city would put regulations on Him, trust me, any denomination that comes in and wants to come up to the door and get married, whether they're heterosexual or whatever, are going to say, many would say, Are you members of our faith community? Many would say, Are you actively participating? Many would say, Are you have the same religion?

05:41

The marriage? Oh, yeah.

05:42

Oh, yeah. But what does it mean? Are you a member of the place community? What the hell does that mean?

05:49

It means you come here to worship? Yeah. And if it's so if it's such a big deal, to come here before the Lord, and to make a contract and a covenant?

06:00

Isn't that the whole line of getting married in any way to purchase?

06:05

No, no, Tom, it's not know. Quite frankly, it's not no, it's nor to pay the flower bill, you're talking,

06:13

you're talking about people who go to these little chapels along golf freeway, oh, that's different. That's different stuff. That's where you can just walk

06:22

your dog and about recognized denominational unions, whether whatever couples, heterosexual, homosexual, you're talking about people that are talking about contract and covenant contract is about the state, you get the fridge, I get stove contracts about we need this legal document, whatever covenant is about, covenant goes back and his religious issue and a lot of people want some religious issue in their life. And that has to do with that has to do with the original covenant, I'm your God, and you're my people, and I'm gonna love you no matter what, and I'm your guide, and my people, I'm gonna love you, no matter what translates into, I am going to love you no matter what. And they want to do this a religious context, because they realize that a higher power has some major focus in their life. And they want to make it public. And they also want to realize that this higher power has a lot to do with how their life runs. And it's not about paying the damn preacher. And it's not about flower building, it's not about the reception, it's about, we want this blast, we want this scene in God's eyes as a real commitment to one another. It's not about a bunch of stuff, and I don't care what denomination you go to, you're going to be ran through the ropes. If you go to the Catholic Christian community, you're going to a need to be part of that worshiping community. And they want to see you if you're going to come here and just be married. And because you liked the way the aisle looks, and you like the way the church looks, whatever, no, baby, it's more it's more than that. This is not just a lovely setting to have your photographer come and take pretty pictures. And this is about if this means something to you, then you need to be here worshiping with us and focusing with us. Because if you want to come in have God bless you, then you need to come here and be part of this faith community as well. Now what it's all about,

08:02

yeah, that sounds good. Yeah. But it just doesn't it but NCCR doesn't, doesn't add up to that, for instance, you got to pass a nine point test before you can become a member of NCCR.

08:20

I don't know anything about the United Way. And as I read about that,

08:23

well, how I read it in the voice, you know, it was put in there by by, by manufacturer I got I still got the copy of it somewhere. But to say, Are you a member of a safe community? I'm not sure I know what the hell that means. Because my you

08:44

come here in worship with your brothers and sisters who believe the same things you did. That's what

08:48

we did together. My faith in the infinite wisdom is probably much stronger than most of those people at NCCI.

09:00

Well, that might be just fine. But the bottom line is a lot of people enjoy coming together with people who believe some of the same doctrine that they do, and worshipping and praying and singing and being a part of a faith community and having some sort of public forum to their worship. And whether it's Catholic or Lutheran or bearing or MCC ER or whatever church and those people come together, who have liked beliefs and who choose to worship in the same ritualized motions.

09:30

If you don't want to do that, then it's what NCCR saying, Are you a member of this church? Do you get donations to this church? Therefore? No. You're absolutely right. It's probably not a really the matter is probably not paying the preacher but you don't have to pay for it anyway. But the point is, can the Turks profit in the long run by you getting married here? That that is the whole line. Are you a member of the church? Can we make a profit For me,

10:00

I don't think it's about making profits. I think it's about I don't think it's anything to do with making profits. I think it's to do, I think it's to do with Are you a member of this community who does a lot of wonderful things for the community. It has nothing to do with money. Mostly communities, I know, go out and do outreach. And NCCR does wonderful, wonderful outreach. And they do a lot of wonderful things. And I'm sure that if they had a load, load, load, load load of money, that they would do a lot of renovation a lot of wonderful things. And most churches I know, aren't, aren't totally supported by their do not by their donations from their local flocks, unless you're out in the woods, where people got loads and loads and loads of money. Yeah, most of the parishes and churches and difficult for me to see, well, maybe difficult for you to see. But that doesn't mean it's not true.

10:54

That MTCR is doing anything when they hold secret meetings. From friends, you have to be a preacher or or somebody associated with the Ministry somewhere in in order to attend this meeting, and you're not invited. Well,

11:16

Tom, every church, every denomination, every church, every parish, every congregation has meetings of pastors and elders and finance committees, and parish councils, and I don't care what denomination you are and what you call them. They all have meetings, most of them are all open. It's not a problem. I'm sure that if somebody wanted to go and say, you know, whatever, whatever, that would all happen.

11:38

And even the switchboard has, as executive meetings.

11:41

Yeah, every every organization I know whether it has anything to do with with the nominations or not has executive meetings and private meetings and board meetings that aren't always open.

11:52

You hit the nail right on top your head when you sit every denomination. You're absolutely right. And this is what I've been saying for a long time. There is no difference between NCR NCCR and the Southern Baptist Church, the Methodist church or any other, they are the same. There is no difference. And if I don't associate with the Southern Baptist Church, I sure am not going to associate with NCCR

12:17

Well, good, okay, you're free to do whatever it is you want to do. Okay, thank you, Tom. Thank you very much.

12:26

That's Tom, our activist

12:28

bedtime our activist guy, that's whatever you want to do. Just whatever you want to do.

12:34

Well, no, Thomas is really active. I mean, he's he's spiked the ACT UP of the 90s.

12:41

Well, good.

12:44

He's got real opinions about religion.

12:47

Well, that's fine. There's just loads of people out there with real opinions by religion. I got my got your, you got it. And that's just dandy. As long as you act out, I'm gonna do something about it.

12:59

You're listening to after hours on KPFT Houston and ke O 's College Station. This is queer radio with attitude

13:07

with more attitudes and you might ever want to know all kinds of attitudes. Okay, we accept them all. Oh, we do because we just accept everybody. Just imagine

13:17

we have had requests for music. Oh, let's do some All right, let's do we've had a request for my favorite punk group.

13:26

Oh my god, pansy. Division and fee to be joy. Yeah, I've been

13:31

playing these boys for years. Pansy hands a division. Isn't that just pressure? These are really openly queer boys. They celebrate gay sexuality. As you

13:46

come here tonight and celebrate, as you're

13:49

gonna see in this song, which is a cover of one by

13:59

reason I'm running out buying every one of their albums. And you know how i That sounds. It's just not my most favorite thing. Let's face it. Okay. Oh, I know. But let me tell you, you've just made me a new punk person. I feel so enlivened. That's that jacket, like I can live with that if there's anybody out there that wants to do that. Just call in. That's that's up there. Pile up album, Heil up album. Yes. And this is like

14:25

covers and a lot of the 40 fives that they made they put together on the CD,

14:30

honey, it's wonderful. Oh, yeah, I think I mean, not only would I love somebody to come in, well, that'd be fine. But I would be glad that big bottom woman just for me. Oh, you're a big pig or turd? Well,

14:45

I would think that listener for calling in and oh, do I want

14:49

to thank that listener honey. Your mind come to me my melancholy behave.

14:55

I want to tell you something really nice. That happened to me this week. Well, I'd love to hear it. Well, I was looking for a particular kind of, of writing paper. Yes. And it's very, very rare. Oh, and I went to the store and I went to that store and you know, it's like, no, no, no, we don't handle it. No, no, no, we don't handle it. So I somebody said, have you tried if it's paper, and I had never heard at the store, it's in that shopping center at Sheppard and Westheimer, where the Randalls is, in fact, it's right in the corner there. Okay. So I went in there, and I asked for it and this guy came up to me, his name is Randy, who works there. He said, Randy, and he said, No, no, that's really difficult. That's very rare. And I don't know why

15:47

you say you would want rare paper.

15:49

I know. What do you want to read people? For what because I, I bought some a while back and I wanted to continue something not a project that was doing and all that kind of paper.

15:59

Okay. And Randy said it's rare. So he got

16:03

on the phone. He spent 20 minutes he called six different places in Houston. No kidding. Different people he knew. Looking for this paper for me we'd absolutely he didn't make a sale. He didn't make a penny on it. How nice but, you know, he could have just said, Oh, well here try this. Try this and try this and let me run all over town. But he knew the people there he called he talked to specific people he asked about that, you know, and I didn't get it because it's not available.

16:38

Nowhere You can't find anywhere Needless to say I did thev

nowhere. You can't find anywhere. Needless to say I did the

16:42

were but oh, he spent 20 minutes. He didn't get a sale out of it. But

16:48

what's the name of this place again gets called

16:50

if it's paper if it's paper and they sell all kinds of right in

16:54

the old Randall shopping center. Westheimer in Sheppard. Yeah, no one there's something that we like to talk about because those names anyway he can find a clerk absolutely a treat you human but be go the nine yard haha. Oh, honey. Yeah. Isn't that cute?

17:11

It was just a really nice experience. So if you're looking for stationery or any kind of that, stuff like that, I'm gonna recommend if it's paper, because Randy was so nice. Oh, nice. Couldn't ask for rain and ask for random. Tell him that after hours sent you back from KPFT. The guy that was looking for the forenza paper.

17:33

Oh, now we'll find somebody out there that wants to know, we're friends. The paper is only at 91.

17:38

Well, it's from Florence, Italy. What else?

17:43

Do we have taster? Why?

17:45

11 17:45  
Well, you know,

17:46  
do you think it's time to do our top 10? Oh, yes. It's really it's rare time for top 10. What was the other request for stuff we had?

I was over at rascals and they were doing that song about sang and in the rain. And then it goes into this whole new thing about RAM some song about random water. And I mean, it was just really bouncing. Everybody's just like going wild. I'm a great time. It was just really really fun time. I haven't suddenly

18:32  
like it's raining man. Yes.

18:35  
Thank you, Jesus. Oh, I asked Jimmy. He knows that. It's raining man child. Oh, you're so good. But it's it's a whole thing that kind of swings into and I'm who knows? It's really really fun song.

18:50  
I bet it could have been a Dj Mix.

18:52  
It probably could have been Yeah, good ol Brian. Oh, they're doing this could be tears. It was hot. People were screaming child.

19:00

Well, they do that over there anyway.

19:02

Oh, they do? Oh, that's you know what? They started on Wednesdays. What? The Dating Game?

19:08

19:09

Big fun Wednesday nights. That sounds like oh, it is it's a stitch to fun. Big fun. Big fun. Wow. Yeah, yeah.

25:19

Okay, what's that? Oh?

25:21

Speak up mark. My phone. I'm sorry. Oh, it's your phone.

25:25

Okay, I'll put push up as far as I can. Okay. All right. How about there? That's it.

25:31

Okay. What's going on Mark? Oh, no,

25:34

that was just listening to y'all and y'all just going on and everything and we're just going on going on. Like a bunch of bags. That's right, Mark. And we are a bunch of bags. And what are you doing listening to him?

25:51

It's at the end of March. It's the end of March. That's the mark my god he's gone. He disappeared into radio. Somewhere into the airwaves. What a wonder what Mark one who knows? Oh, no, it's God. This thing these little controls? All these buttons some out things just go every which were don't have a clue how this happened. They grow. I

26:11

called in.

26:12

No. Yes. And well, he's

26:14

at home tonight because he's got some some friends coming in from out of town. Oh, and they're going to be there and just about a half hour or so. He's waiting for them to come in.

26:26

Oh, well. That's good. We're glad he checked. I guess

26:28

listening.

26:30

Roy? Yes. Hi.

26:33

And I've got a he requested some music. I'll be playing that way.

26:36

Did he? Okay, well, we'll do that later after his guests arrive. Well, I mean, then he can say he requested it. Especially for them. I mean, after all, you know we attend to accommodate.

26:47

Well, considering whether you requested Oh, I

26:51

hope he didn't request take me off again. No. Okay. God knows that's a jazz

26:57

number called. Who do you do? Who do you do?

27:05

27:05

I do. Anybody would do me do

27:10

a couple of months ago? Yes. Kirk and I did some reviews on zines. Gay zines. Themes. Yeah. This is the thing.

27:21

That's the thing. Yeah. Hold it up to the mic. Hold it up microphone for all you out there and radio, land, rant and rave Z.

27:27

Yeah. These are personal outputs by people.

27:34

Personal outputs. Sure. It should be a little more specific for those of us out here in radioland that can't. What you're holding up to the microphone

27:42

brands and people's views on the world and editorials, editorials and all kinds of fun stuff. And they usually kind of Xerox it. And it's inexpensively made. They run a couple of dollars each and you send off for them and well, and they're very interesting. And I sent off for a whole bunch of queer ones.

28:08

Wow. Wow. I know.

28:10

When I had a lot of favorites in one of my favorites was called rant and rave out of San Francisco rant. By to HIV positive queens, Miss rant,

28:23

and Miss Ray. How do I know?

28:27

And they did this wonderful rant. This is by Miss rant, drags on the rags is what it's called. Listen to this and see if you don't agree. I mean, okay, she I think she's got it just right on the button here. Okay, here we go. And I'm gonna just read this whole thing. All right already. Miss rant has had enough. Enough already. This advertising war between MCI and ATT has worked my last nerve. Who cares? Friends and family is a phrase that makes my stomach turn. And your true voice doesn't make any sense at all. Whose true voice what does that mean? Does that mean that MCI gives you a false voice? And the fact that whiny Houston sings that true song voice? True voice song is enough to make me give me a great big rash. Someone out a gag that bitch and put her out of her misery. It's just another example of how we are constantly subjected to the most obnoxious things in American society. You know that this ATT MCI thing isn't really about drumming up customers. Because if it was, then they stopped bothering us day and night with these horrendous commercials. No, this is about some damn DSP ad exec somewhere who thinks that some kind of sports game or something who could make the Morse more ridiculous commercials and annoy the public? I love that. That's exactly the way I feel about those idiotic commercials.

29:59

What How do we feel better now that we got back out of

30:04
