SUMMARY KEYWORDS

bisexual, people, bisexuality, lesbian, gay, condoms, hear, person, play, myth, hiv, work, men, gay community, song, straight, sex, year, talking, aids

00:06

Bob Robertson and you're hearing him on KPFT Houston ke O 's College Station. It's after hours correct queer radio with attitude very well, I'm, yeah. Tell me about this song and tell me why shouldn't just go out and slit my wrists after listening to?

00:27

Well, actually what it is, it's the song that I wrote after I found out that I had the HIV virus. And it just seemed to tell the story. And it came out of my head, just like anything else does. And that was out of the right head. Of course, we can say that, can we?

00:45

Yes, we can. Okay,

00:47

well, you know that that's a funny time, isn't it? When you first find out, you're HIV positive. It's a lot of things. First of all, you think you're going to die next, you know, the next couple of weeks, you think your life is over? So is that the type of thing that was going through your head

01:03

at the times, and that people that had promised if anything ever happened to me that they'd be there for me. And then when you needed them, there were the h where they at right now, right? And you know, you try to you try to bend out your frustrations and tell the world because that's the important thing about a song is that it has something to say, and people can understand and they can relate to it. And that was my most important feeling at the time is, you know, it's a flip of the coin. You win, you lose. Yeah. And sometimes it is hard to get out of bed. I've had a lot of my family who have come to the game and wheelchairs. Last year, my dearest friend, Rusty Henry, he passed on. And every every time he came, he wore his cap that

I signed in 1981. That's cool. That's cool. And you know, it's kind of a deep loss because his cap won't be there anymore. Right. And so, but there are other caps, and I want to see him, I want to see family out there. I support the family. This was my last year was my first year that I officially came out. And in my second year i How's that working out? I met the love of my life one Davi law, and he's here in the studio with me, and I love him. And if everything goes all right, yeah, I have have a note here. We'd like to invite everybody to our wedding next year, February 15. At MCC er if Carolyn will do it. And I'm looking forward to it because one is very special and best thing I've ever had this man I've ever had you

02:46

do seem to be a bit more centered here lately.

02:49

Yes, I'm more focused. Yes, he's a very positive influence. Because, you know, you can't really honestly ever forget the past, but we mustn't live the past.

03:00

Yes, that's true. That's true. We've, we've all lost people. I myself have AIDS.

03:07

And what can you do you go on if you go on. And if you get a positive frame and you get somebody who really loves you with a positive attitude, like one has you really, you feel like you can fight it? Sure. And you might or we may not ever be able to totally be healthy again. But we certainly can. We can hope for chronic.

03:31

You're sitting here looking at me and talking about not being healthy and you are a strapping male. I mean, you look like you work out your nicely tanned. I mean, you have a beautiful body.

03:44

Well, the thing is, five years ago when I first actually found out six years ago, and the first year I thought Well,

03:52

that's it. Yeah.

03:55

And then finally, I got a hold of a real good doctor. Dr. Garner, are you out there? Hey, Colin, Jim Garner, Jimmy boy,

04:01

he was on the show last week. Well, how about that? Well, hello, Jim. And his lover is this lover didn't come with him Amaro. Ah,

04:12

I forgot his first name. Sorry, Jim. Anyway, call me in and ask me out.

04:18

But But anyway, he's the one who really restored my faith and you know that you can beat it if you stay healthy. And so for five years, I've been pumping iron. And

04:37

yeah, yeah, yes. Yes. Well, back to that song. I mean, you were very you're upset. You were angry when you wrote it? Do you still feel that way?

04:48

Well, yeah, anger never goes away. You can never forget the anger and the person who I can ask I can actually turn Ace who gave it to me? Does that? Does that really matter? Well, they already died. I couldn't cuss him out.

05:06

I know, I know, we go through this and you in the early stages, I think when you first find out, you're HIV positive, you kind of want to know, how did I get it? Who gave it to me? And then after a while, you get to thinking, you know, it's been so long ago or exactly, you don't, it's hard to pin it down. And then then you'll have to start thinking, How many people did you give it to? unknowingly?

05:27

Well, thank God, I hadn't say God, I hadn't. Yeah, it's one thing I'm very thankful for. And when I've had people who have wanted to be for one came into my life, that would come up to me

and say, Well, I'm, you know, I would, I would be honest, I'm not into that denial don't even know I'm a liar, right? And way, I would tell them, I'd say, Look, I'm full blown AIDS. And

05:50

when did that start? The next following year? Well, I

05:53

actually went all the way into full blown. And I would tell people, and if they were HIV negative, I wouldn't have anything to do with them. Because I didn't want to be the accident. I didn't want to have to say Look, I'm sorry. You know, I didn't want to have to you know, love is never having to say you're sorry, brother. And so anyway, this, like I say, there's about seven good songs on here. We could probably get a few from some other.

06:22

Well, if you're talking to me about you want a keyboardist you want this, but what I heard was excellent guitar work. And a really good voice. And it sure sounded okay to me.

06:36

Well, then, then we have to do is find out who will be willing to set the next stage, which is of course get it on CD, CD production and could use a good board man. Always could I mean, there's always things you can add. That would enhance it to the straight world. Wow. Because family will come out. I know that. Yeah. And I have a lot of faith and family. No,

07:04

it's It's amazing. These days. I know just just in 1990 I would wait months for the the next gay album by a gay artists to come out. Exactly. And now it's every week, there's the gay artists putting stuff out and it's handled, not only at just just low bow or Inklings or crossroads, but and in mainstream record stores. You're finding it probably in the local section, or in the folk section. Lots of gay artists

07:37

will look it out and yeah, get around for it. Yeah, yeah.

07:40

Elton Melissa, you know, the biggies what, plus local people and and smaller people that only families get to know.

07:48

And the thing that I really want to appreciate is Wayne hope because He's a family man. Yeah. And I mean, family the other way, are we straight? Yes, he is straight. But he is very compassionate. He's played at a bunch of funerals for people who have passed on into the next life. And now he's the guy who did the guitar work that well, he and I both, I played the 12 string, and he would do the lead works. That first intro that you heard was done by me. And then he added flavor. And see that's what I'm looking for a little more spice a little more flavor. That's that's very important to me. Because to me,

08:24

that was pretty that was pretty that was a lot more than just the three little cords Exactly. Going into that there was some pretty work.

08:31

And the thing is he did it on the second take. Wow. Yeah, that's what I said. Wow.

08:38

My hands go out too. Yeah, that sounds like a professional to me. He is He is

08:43

and when he plays at different people's,

08:47

you know, you have a nice voice. Well,

08:48

thank you. Do you do? I didn't think so. But what you can do in a stereo studio is pretty,

08:56

I'd like to hear I'd like to hear something Pepe.

08:59

Pepe. Well, we have Pepe never stopped drinking. Which one is that? That's the very first song. Okay. And what that day is a song about is it's actually kind of introspective myself. Because you always hear people calling you a foolish Dreamer or the black sheep or you know, oh, yeah, my my key goal here is to let kids know no matter what people tell you, you never ever stopped dreaming great. And that's uplift that's

09:28

that's that's, that's the message we give people hear. That's right. Don't give up your dreams. And we've said it in so many different ways. And so many different people have been on here saying don't give up your dreams. You know, a lot of people who listen to the show are underage. They're sitting at home, listening to us on headphones, so parents can't hear. So

09:50

well. Let me just tell you, I hope to see you all out at the baseball games and yeah, you let me know that he Bob. Yeah heard us on after hours with Jim Carper. and friends

10:01

now if somebody wants somebody out there as a keyboardist and wants to help you with this project, how can they get a hold of you? Well, I

10:09

will give them my home phone number for that purpose. Okay. And

10:12

I should say like Colin

10:14

here or Well, if they would it be better for him to call here any way you want to do it? Because it is a unlisted number. Okay. I had trouble with some rather unusual fans. 12345 in the morning, okay, we don't need that. So yeah, if they could call in a KPFT here in Houston, this would be the greatest thing I could do

10:35

either. Now talk to Roy and I could talk to you right now exact or leave a message and I'll get the message to you during our howling. Yeah, so the inner loop alternatives every Sunday night

the message to you during our bowling. Yeah, so the inner loop alternatives every Sunday night at seven o'clock, you

10:49

got it. I thought Palace lanes are home of the Queen.

10:53

It's fun. It's really fun. You know, I've never been an athletic type person. And just I know that was about four years ago, I started bowling and I'm not a good bowler on like, 120 130 average, but it's it's just the fun of it. You know, getting out there and, and having a good tattoo. Right? Whether whether I bought 150 or whether I Bolin ADA like I did last week.

11:21

I love we just had a family member. What was his name? Brian.

11:25

Yeah, belly. Brian Le he wound Yeah. Did a 300 game. Whoa.

11:32

I'm telling you. That was unbelievable. I went over there and hugged them and got a triple right afterwards. Turkey as we say exams, right turkey. Triple is baseball. Turkey is bowling.

11:42

There you go. I want to play that. That Pepe one never stopped. Right. Yeah. And we'll we'll close it out on this. So if there's anybody out there musically inclined that want to help you with this project? Give us a call here at the station. 5265738. And

12:05

as we already talked about the wedding, ah. Oh, he added another note. This one? Hold on where it's kind of like playing with

12:17

this one. Yes. We talked about this. Yes, honey. He did. But you did. Oh. Honey. Again, I want to announce that Wanda Vela and Bob Robertson will be getting married on February 15 1997.

That's next year, God willing. So our friends if you are listening, please was just both your happiness with your presence at our wedding on February 15. Saturday at MCC er that's the place 1919 Decatur That's correct. Yes, I know exactly where it is. It's fabulous. One of the most beautiful churches I've ever been in.

12:57

Let me put it to you this way. I've been there and tears of joy have just found Absolutely. Absolutely. I want to say a special hello to Michael Romney. Because if it hadn't been for him, I probably wouldn't have been returning back to MCR. So thank you, Michael.

13:14

Yeah, good. And now what's the name of the song

13:18

we're gonna cover? Never stopped dreaming

13:26

and you're hearing it on KPFT Houston and ke O 's College Station. While I'm gonna give you the surprise of your life on that one kids, that was Jimmy Somerville, in a song called so long bade from the movie postcards from America, this story of David Wood generis. I know he also does. He does the high background vocals, but he also does the lead on that. I've never heard him use that low of a voice. Never. Never, never amazing. That's off the new postcards from America soundtrack. And it's that it's a weird thing because it's got stuff from the New York Dolls. And Connie Francis. That Jimmy Somerville. Yeah, no, it's got some weird stuff on it. Just weird stuff. You're listening to after hours queer radio with attitude on KPFT Houston and ke O 's College Station and it's time for the bisexuals. Right? Hey, hey, finally. Finally, finally. And Gigi is here. Hey, fellas, you are and you're wearing a dress tonight? Oh, yes. Now tell me about this dress. It's there's a print on it. Is it?

14:47

Oh, it's just something someone gave to me. Okay, and I did mostly word at home or for pagan symbols. I mean, pagan ceremonies. Yeah. Okay, tonight I thought I'd wear it out

15:04

with combat boots. Oh, yes. Yeah,

15:06

15:00

always combat but yeah, I noticed that, you know, I'm always kind of little fam little bit yellow. little bows bisexual. I'm so confused.

15:18

No, you're not. You're not confused about honey, you know exactly

15:22

what you are. I know what I am and what I like. And it's the best of both worlds.

15:30

And that brings us to myths about bisexual. Yeah.

15:33

I mean, we haven't done a show on this in quite a while.

15:37

Yeah, no. And I was kind of, I've been disturbed lately. And I'll tell you why. Because I've been reading articles where it didn't come out and say it, but eluded very strongly that the spread of AIDS here and the 90s was due mainly to bisexual people. And it really made me mad. Yeah, it really made me upset.

16:02

That's one of the myths that I was going to address tonight. Time because, you know, you know, well, the myth is that bisexual spread aids to the lesbian and heterosexual communities into the gay community. So yeah. And the reality is, is that having unsafe sex? That's That's what does it spreads aids,

16:25

no matter who it is? Yeah.

16:27

Every I mean, it's an every culture. You know, it's everywhere now. Sure, it is. And it's not one group spreading it. I mean, at one time, the guys were accused of spreading aids. Right?

16:41

You know, right. And it was, at one time was accused of just being a gay disease. Yeah. And now, of course, one of the hardest hit is women.

16:51

And I think, you know, when are we going to learn that? If you don't use a condom, that's right. If you don't practice safety, right, if you get drunk, or get high and get to move, yes, yes. It's just, it's you're gonna spread it. It's and or get shocking

17:15

to me that so many, so many people in their teens and young 20s are coming down HIV positive in mind

17:24

that I think two is denial. Yeah. And this, you know, I know that. Well. I know when I was a teenager, and when you probably went through the same thing, you feel like you're invincible. Oh, absolutely. I just happens to other people. It doesn't happen to me. Sure. That baby Watch out.

17:44

Let me tell you, it can and it's there's no cure. Yeah. You know, so it's, it's not who you are. It's what you're doing. Yeah. You know, if you're doing it unsafe.

17:55

It's sharing blood sharing needles sharing semen.

17:59

Did you see the movie kids? Know? I mean, the big premise of that movie was that here's like, an 18 year old male, who's heterosexual. And it turned out, he had the virus. And he was passing it around.

18:15

Oh, wow. Yeah. And that's happening. Yes. You know, I'm a social worker. And you know, the

statistics are alarming. College campuses.

18:26

Yeah. And this white rabbit. Yeah, the heart of the movie was this, like, 1617 year old girl, finding out she was HIV positive.

18:36

And in high schools, it's running rampant. You know? It's, it's something that

18:42

so it's not what you are second chance, right? It's not what you are. It's, it's what you're doing.

18:47

But I think the main message is you don't get a second chance. No, get it. You got it. That's it. And you can't get rid of No. And the way to prevent it is safe sex. That's it. Bottom line. It's not who you with. That's, that's the right way. That's right. And there's a lot of things you can do safely. That's fun. I mean, oh, Amy, I've been doing it for years now. That can spread them baby. But I spread them with sight. Well,

19:17

that's right. That's right. And people kind of shun or tell me about how awful the baths are. Isn't that a place where you know, HIV is transmitted a lot? And my answer to them is no, actually, because if you go to a bad site in the 90s it everywhere you go, there is are posters about safe sex and condoms are available, and all kinds of screenings and stuff. But last time

19:47

I was in San Francisco clabby Rose. Yeah, you know about that. Oh, yeah. Well, I mean, you know, not only did they have condoms and lubricants in every, I mean, they have it everywhere, by every little bit. inch play area by every couch. I mean, there's condoms everywhere. Wonderful. And the rule was if you're caught without using one, you're kicked out good. Good. So, you know, it's really playing it's Well,

20:15

that's the whole idea. And, you know, it's, I'd rather see sex going on in a place like the tubs than even in a bookstore because you don't have that. Right. And a lot of men who, who go to both places that are Memorial part. Yes, that's right. That's right. I mean, you don't have that

option there.

20:40

And, but I want to kind of move on to some of the other Sure. Because I know there's a lot of them. Yeah. I mean, you know, I've been kind of, I've been out as bisexual. Ever since I've been sexual, just about at some level or another. And, and, you know, it's kind of like, a lot of people come up to me with a lot of this stuff from me. And I've gotten it from the gay community from the strike community, you know, well, I don't believe in bisexuality, it doesn't really exist. You know? It's like, Hey, wait, I exist on that. Yeah, exactly. I mean,

21:20

how can anyone make that statement? I don't believe it exists. And,

21:25

you know, it's, it's as much a sexual orientation as any other oriented. Sure. You know. And it's not something that, you know, I didn't grow up, you know, as a kid thinking, oh, I want to be bisexual when I get older.

21:43

Just like nobody ever wanted to be gay. Yeah. That just, it's just something that happened. Yeah. And for for a bisexual, maybe even more confusing. Because, well, if you're a girl, if you're if you're gay growing up, you may realize that you're gay. But if you have desires for both sexes, then that can be very confusing, because while I'm not exactly straight, and I'm not really gay, because I didn't feel like I fit in that either world. Exactly. And I thought worse the world for me. And how did you find it?

22:18

I think as well. And in part, I've made it

22:23

no kidding. You sure. Did. You know, you kind of helped put together by NAT Yeah.

22:29

And also, but even before I put together by Nat, you know, I made my own world. And I think you know, even a personal level we can make the world we live in Sure. You know, it's it's partly changing attitude. I think oneself

22:49

we all deal with it on some level. Yeah, it may be you know, we we may be living in suburbia, and and but on some level, we make our own world.

23:01

Oh, yes. I mean, believe me. Gigi just got a new house. That's right. in suburbia as a matter of fact, it isn't suburbia. Yeah, with a half acre and we're gonna put up a big fan so we got to a good idea pagan ceremonies and I cried right, and we can do Oh, and I'm getting more and more into s&m baby. I'm gonna set up a playroom in our second garage. So that we can do things these things. Yes. But anyway, moving on to the next myth. The you know, it's kind of a same that all bisexuals will jump in with anything that made us know that

23:44

yes, in fact, there's there's a wonderful publication called anything that bisexuals

23:50

Yes. It's like, Baby I have a little more discrimination then. Well, that's

23:55

right. You know, in the gay community. There's a out well in the straight community, straight men. For the most part, many straight men believe that they have to keep up their guard every minute because no matter what they look like they think that if they let your guard down, that 10 gay guys are going to jump their crotch

24:22

you know? Well, the other thing I'm that is, which is kind of an irony. Yes. I've known some married men that fool around more than I've ever dreamed of. Really intake anything that may

24:38

I see these are the people who don't identify as bisexual. So that was no no, I'm talking

24:42

about in the Straight. straight. Oh. they'll chase down any little thing that's not boobs and

about in the straight, straight on, they it chase down any little thing that's got boobies and wearing a skirt wearing a skirt and, you know, just knock knock themselves out, you know? Um,

25:00

I've seen that too. Yes, I've been in the corporate world.

25:04

It's like, it doesn't matter. They don't even get their name half the time. Like, hey, excuse me, ma'am. Wow, I'm to the next. So I mean, you know, people are promiscuous.

25:20

Yeah. So then any group has nothing to do with your orientation, though.

25:24

No, I mean, some are more, some are less. Now, one thing I do get into, and it's, you know, I've got a girlfriend. But we have a very polyamorous commitment, okay, with each other. It's not based on sex. It's based on our love for each other. Right. And we're both openly each other having other lovers. And, you know, that's, that's my, what I can share with another person. I can bring that experience. Sure, you know, and learn new things, new techniques and, and find out new territories to explore, you know, you two are really good together, too. Oh, yeah. It's like a great couple. And people have kind of come to us and said, you know, well, how can you love somebody? And then do another thing do other things? Or don't you get jealous? And they say, No, why would I get jealous? You know,

26:29

for some reason, there's this. I like to think that gay men could understand this.

26:36

Well, there's a sense of, you know, in a lot of relationships, and that's it. There's just this sense that, you know, you own the other person. Now, when we play s&m She does, but maybe. Good. But, you know, I'm here to let sex like I say. Other than that, I mean, you know, we play it, there's things that we don't possess one another. Well, you know, we only

27:04

think of it as you can't, you can't own one another anyway.

27:08

Yeah. And so I mean, you know, just in that, you know, that's like, I've always masturbated like, crazy. I do at least once a day, sometimes three or four to five. You know, I've just always had this high sex drive, yes, one person can never fulfill that for me. That's right. You know, it's like, in this. And the other thing is that my tastes are so varied and interesting. You know, that's right. It's like, you know, sometimes I'm in the mood for one thing, and sometimes something else. And I get into some real kinky stuff. And then sometimes some very romantic stuff, and some, just all different kinds of things. And I haven't met a single human being that could fulfill it all. I could fulfill the whole spectrum.

28:01

I think that's where we all are, but we just don't like to admit it.

28:04

Yeah. And but with me, I thought, why am I repressing this? Now? I think the other thing that kind of hit me was I always had this problem with timing.

28:15

Where do you mean, I may

28:19

as cute little guy. The first my can get hot thing going on. Then a few months, you know, a few weeks few months later, I meet someone else. And we get a different kind of hot thing going. Am I supposed to dump one? Because?

28:39

Oh, I see. Yeah, there. Yeah. Why can't you have

28:43

white? Yeah. And that's where I have a problem with timing. It's like, well, this month, I'm kind of into. Well, yeah. And next month, I might be into cuddling. And another month, I just get into all different kinds of things. And why should I give up anything? If you don't have to, if you don't have to? And that's, that's the beauty. I see. And the other thing about polyamory is that, you know, of all the people I've known, a lot of people come back to the relationship out of sense of

duty. We don't have that we come back because we truly love each other. That's right. It's like she doesn't ever have to come back to me. You know, that she chooses to. And I choose to come back to her. And that's kind of a neat feeling.

29:40

That's a stronger relationship. I would, I would think, yeah. One other myths we have.

29:46

Well, the next one is that bisexuality is just a phase and believe me, well, okay, this phase started when I turned of age, and it has gone strong ever since then. I meant a long time ago.

30:02

Would you say it may be a phase for some people?

30:06

I think some people experience bisexuality as a phase. But, you know, it's hard to tell because, you know, with any sexual survey, in our sexually repressed society, oppress society. How can you get any kind of really legitimate answers from people? Well, yeah, I think, and I think there's so many polls and pushes, you know, you got straight World pushing you one direct. Sure. And the Gay, gay, we're all pushing you in. Or if you're female, you get the lesbians. Yeah, politics coming in. And, you know, it's like, you know, I don't know, whose idea it was to make sex and politics, but it just doesn't work. Do you know what I mean? Yeah, I

31:01

mean, you have to be able to look in the mirror and say, you know, I am attracted to some man, and I am attracted to some women. Yeah. And when you can look in the mirror and honestly say, say that, then maybe you you understand yourself a little bit better.

31:17

And I think the other thing too, is that, you know, sexuality can be a very fluid. You know, it can change at different stages. You know, I'm not the same person that was 10 years ago. Sure. And I'm not gonna be the same person I am today. 10 years from now. You know, but there's some things that remain somewhat constant with me, but very little.

31:48

You out there. You're probably not saying that this is. This is the way all bisexuals are because I

imagine that there are a lot of bisexuals who have very strong loving relationships with one person.

32:02

Oh, yeah, that's the next myth. I mean, bisexuals can't be monogamous ah, and lay me baby. I'm not a lot of bisexuals in my time, not actually men, some that were either in a very committed relationship with a man or a woman and plan to stay that way. Right, sir? A lot, right? And people say, well, then they're not bisexual anymore. Well,

32:29

that has nothing to do with desire.

32:32

You know, the definition of bisexuality isn't where you stick it, baby. It's what attracts you, right? It's what you what you fantasize about.

32:45

If you never if I never had sex again, with anybody with any any men, I would still be gay.

32:52

It's not who who you're sticking it into or who you're not, or who's sticking it into you. It's, it's it's an orientation. It's it's a

33:05

it's a goes down to desire.

33:07

It? Well, I think it's even deeper than that. I think that's a spiritual thing. Yeah. I think there's a part of us that's central in nature. And that, I mean, it's like walking down the street. What is what is that quality that makes us turn our head and take another look, that's true. You know, some soft chemists something spiritual out spirituality or something. I mean, we call it chemistry, but like, two blocks away. I'm sorry, chem, chemical stuff go that far. There's something else there that science can't explain. Yeah. And that I classify under the spiritual Yeah. Okay. There's certain things I'll give you that. The, you know, what is it that attracts us to anybody? You know, we don't even know sometimes we just night just happened. It's there. It's not, you know? And, yeah. You see so many people with with ads in the newspapers looking for

a specific type. Yeah. Well, if that's what turns them on, then any sports any body that fit that criteria would work, but it doesn't it? It's, it's much more complex, much more. Yeah. And I think, to try to bring it down to a level of defining it kind of oversimplifies, you know, in some ways, which kind of brings me on to the myth that, you know, bisexuality? Well, I mean, it kind of touches back that, you know, bisexuality is just a phase. You know, it's very much as a spiritual you know, for me, it's always been a it's an It's a it's an orientation orientation. Yes. You know, I've been attracted to guys and men and women all my life. You know, even as a kid I remember. I used to like play with little boys and girls and I played lots of doctor. You must have played nurse not got my temperature. Whoa. All kinds of things. And I'm not talking about my male. Well, sometimes, whatever. But I also want to break up a myth that bisexuals are not part of the lesbian gay community. Oh, sure. Charged with that. Yeah. Yeah. It's like, I wouldn't be here doing this program. Is that

35:51

true? That's because even if you are walking down the street with an opposite sex person, yeah, you're still part of the the lesbian and gay community because you have the desire. And it could be next week or walking down the street with the same sex person.

36:08

But you know, it's funny, when me and Jay went to see a movie a while back. It was the big shoe on top of the bus. And the first time we went to the I just dress kind of in jeans. Second time at cross dress. Like second time, she said, You know, I feel much more comfortable going out to this with you, girl. Nobody can miss like, you're definitely by. Like, there's no second guessing here. You know, it's funny. That's the only time she gets you know, people think she's a lesbian is when she's with me sometimes when you're cross dressed even not crossed. Oh, you're kidding. Oh, you would not believe how many people like today as ever doing that bitch thing over Home Depot. Yeah. And you know, getting stuff for the house and power tools and all that kind of gardening stuff. And and I was looking at the lumber section and yes, and I had this big pitchfork in my hand that I was about to get in this guy there cuz Oh, that lady over there is carrying just the thing I need. The guy with him said it's two guys by the lumber pile. The other guy turned and said that's not a woman that's it munchie well, you

37:38

are kind of androgynous. Oh, yeah. Oh, by

37:41

the way I see. bisexuals Okay, the bisexuality is one of the few outlets where you get to lose your virginity twice.

37:50

You got that? Oh, more than twice. I keep losing men all the time. Every chance I get? Yeah.

you got that? Oh, more than twice. I keep losing man all the time. Every chance I get? Yeah, never have that. But I think you know, when you look at the politics of bisexuality and how we fit into the community

38:16

it's a two way street. You know, um, part of being a part of the gay community is being accepted in the gay community.

38:25

That's the tough part. That's the tough part because there is a faction that does not will not accept bisexuality just like there's a faction that will not accept transgendered and

38:37

believe me baby I'm not trying to get in your pants. I'm not trustee or you know, it's just that I'm not gonna dump somebody for another

38:47

bisexual you have the same problems that gays and lesbian sapping as part of your nature is gay and lesbian.

38:53

Yeah. It's like, you know, when I go out, I get as much prejudices Sure, but maybe more because I'm so

39:03

you're very Yeah. And you are androgynous and yes, and like tonight, you're wearing a dress and combat boots or motorcycle jacket. Okay. It's a bit confusing to the casual observer. Yeah. Oh, yeah. Oh, we had and you have very long hair.

39:18

Oh, yes. Yes. Oh, we had the young boys here earlier. Yes. Oh, they were just running right by me. We're not even I saw that. Sounds like let me get straight back to the back. Don't want to see this thing the rapper.

39:27

11 39:32

Rapper guy. Not not too sure. Yeah, yeah. But that's why they come to the Montrose they want to see different lifestyles.

39:44

Oh, yes. Yeah. But I think that's part of why why I like to do the miss this because Oh, yeah, there's so many people out there that, you know, they they're, they're really exploring and haven't really found who they are where they fit. Uh huh no, I went through that for a long time. Where do I fit in all this? I just haven't found my niche yet

40:07

and it seems to me and hearing people's histories. A lot of bisexual people have vacillated, maybe started out straight and then when they had realized they had urgings for the same sex, then maybe they might have come out as gay or lesbian. And then realized, well, no, I still still have feelings for the opposite sex. So there may be jumping into different camps here. Yeah. And I find the real you

40:42

Yeah. And you know what's amazing I went once went to counseling as having some problem I was married at the time.
