Roy McCarthy, Chris

---

00:01

Ah Oh yeah, that was great. I love that album. This is Hedwig and the Angry Inch original cast recording and it was very first song tear me down for a kind of a rockin set that we had there before that pansy division did two songs pretty boy What's your name and hockey hair? Yes. And started it all out with love toys with sweet sweet thing and thank you Joan Devlin for that. She turned me on to that so And now And now and now

01:19

oh it's time for the news and views with big Roy and Chris.

Roy McCarthy 01:26

Well liked welcome everyone to this week's edition of after hours news and views and I want to give a shout out to all of our listeners everywhere especially to Randy way down there and Beaumont, Tony, way up there and Midway to Greg here in the Montrose John in the Montrose sin everyone else in the far flung reaches got something. Yes, he is still darlin.

01:52

We had Jay from Spring called in because we were talking about what the hell is Rand Dan ra n da n. And he called in said the definition of the word is a boat rode by three people. And that's it adverb like three horses in a single file.

Roy McCarthy 02:12

Two different definitions.

02:14

Okay.

Roy McCarthy 02:15

He got on the webpage.

02:16

That's why That's why since her name is horse, she chose that. Oh, okay.

Roy McCarthy 02:23

There's actually a web page dictionary of difficult words. Really? Yes. And he told me that's how he recalled it. He told me that's how he found it. He started looking it up as soon as you questioned it. Yeah.

02:38

Yeah. Horse couldn't even explain it. I guess. I don't know.

Roy McCarthy 02:45

It goes to show we have listeners who really do take our show. Seriously. Well, a lot more suited and some of us.

02:54

Well, we have fun and we learned something. Hey, where do you now

Chris 03:00

get a computer so that he can find them? Difficult words?

03:05

Oh, they're added again, folks. Oh,

R Roy McCarthy 03:08

well, you know, I'll tell you what the I'd be. I'd be lost without Chris. I love my co host. Anyways,

C Chris 03:16

yeah, I agree. You'd love your co host.

R Roy McCarthy 03:20

My co anchor. Well, honey, this anchor is so big and synced the boat anyways. Chris has got a very interesting story. I assigned it to him earlier in the week when I first heard it was getting ready to come to pass.

C Chris 03:37

Always because it's lesbian news. Of course, honorary lesbian, I knew history will be made here in a couple of weeks as to Houston women will be married. This is a as a result of the court ruling on Christine Littleton, a male to female transgender who husband, legally married husband, she had the surgery of gender reassignment surgery and the court documents drawn. She married a man who later died and she wanted the right to sue for wrongful death. And a state judge said since you were born and mail your mail, the marriage was null and void. You can't sue. So now what is happening is a male to female transgender Jessica wicks. And her partner Robyn wicks. Who is a genetic, female have are going to be going to San Antonio on September the sixth to pick up their marriage license because under state under that judge's ruling, that Jessica is still considered A male and they're wet their marriage will be legally binding in the state of Texas, although Jessica is legally on her driver's license, female,

R Roy McCarthy 05:10

you know, this is when on that Christine Littleton ruling, everybody said that that judge, you know, issued such a stupid ruling. And he's really opened up a can of worms. And there is nothing that can be done about this. Now, we are going to have a gay or in this case, a lesbian wedding, what's going to

C Chris 05:33

happen is this is going to this, as the state Supreme Court has refused to hear the Christine Littleton case. So what this is going to end up happening is something is going to get reversed. And so somewhere along the lines, the legal, the legal heads, and the judges are going to have to decide what they find what they

R Roy McCarthy 05:55

Painted themselves into a corner that they can't get out no matter which way they find we

Painted themselves into a corner that they can't get out, no matter which way they turn, we when they're going

**C** Chris 06:01

to have to decide on whether whether they will allow lawsuits and legal recognition of a transgendered marriage after the fact or before it. Because here it is, if they can't turn around and say, Well, you can't because you're a female, because then little 10 would have a reversible cause. Right. And you'll see then lawsuits opening up from that. So you're gonna see lawyers trying to get it both ways here and they won't be able to do it a little bit of problem. One thing I was glad to see is a couple of television stations were broadcasting this the first day. And then Jessica, with Jessica and Robin, along with their attorney, Phyllis Frye. Were on channel two news on Wednesday, I believe that was being interviewed.

**R** Roy McCarthy 06:51

And what I thought was kind of funny was how, on Wednesday evening, right after the caucus board meeting, right, I go back home, and I'm watching Channel Two, and I hear how it's, you know, coming up with the news, and it's close at 10 o'clock. And so I call Shawn car, right, president of the caucus, and he has his, he asked for all you know, it's 10 o'clock at night and says yes, but you've got to hear this. This is an important thing on the news. And apparently he he was already given the heads up on it. And I think it's, you know, there, there are also female to male transgenders. And this is a lesbian wedding, there'll be a gay wedding. So it's just, it's just going to, and the funny thing is, the Texas Department of Public Safety recognizes transgenders in their new, real sexual reassignment role in most court, and here in Texas, civil and criminal, they are recognized as their sexual reassignment. Yes. And so that that one judge in the in the Christine Littleton case, he did blow it. And now with this, there is there's no way either it no matter which way this thing gets ruled, we win.

**C** Chris 08:20

Yeah, the only downside to this is the fact that the we've actually heard two different stories on this, the Harris County Department of marriage licenses had refused to give the marriage certificate. And so they ended up going out to bear County. And so I've heard that that happened. And then I heard later on that they originally were going to bail, because that's where the Littleton case had started. And so it'll end up going possibly, if this is appealed by some outside organization. This has the opportunity of going back into that courtroom, where this one judge said, Here's your original birth certificate, you were born a male. So he'll have to turn around here several months later, and go and have to, in essence, sanctify this this marriage, because it'll be on appeal. And he's going to have to come down and say, Now that you've caught me, and he'll be the one ruling that

**R** Roy McCarthy 09:25

well, he could I guess he could dismiss himself from the case, excuse himself, let it be required before a different judge. But

C Chris 09:36

But unlike but then that's the last level that you can just say, No, we're not going to hear it after that. It goes to the state Supreme Court level, which can either take it or say we're not even going to listen to arguments and go from there. And now we're going on to the protest funds front. I believe

R Roy McCarthy 09:56

we're I PFLAG has issued a public Even and I'm going to read this public statement exactly as it came from PFLAG, which is the parents, friends and family of lesbians and gays, an organization dedicated to the support of families, deplores the Boy Scouts of America's practice of excluding gay youth, leaders and volunteers from its program and services. We condemn any policy that would not allow gay lesbian, bisexual or transgendered individuals to fully participate at all levels in any activity without within scouting. PFLAG asserts that one sexual orientation and gender identity are separate from one's moral values and actions, the negative stereotypes and attitudes engendered by the Boy Scouts of America as exclusionary practice and such practices are detrimental to all youth and society as a whole, causing further alienation and lowered self esteem among gay lesbian, bisexual, and transgendered youth. The injury caused by this discrimination, and those attitudes violate the tradition of the boys God's values of honesty, friendliness, kindness, and fair play. PFLAG calls upon the Boy Scouts of America, to end its discrimination and to live up to the words of its federal charter. Quote, neither the charter nor the bylaws of the Boy Scouts of America permits the exclusion of any boy. To meet these responsibilities. We have made a commitment that our membership shall be representative of all the population in every community, district and council and quote, We further challenged the Boy Scouts of America and all its members associations at all levels of the organization to adopt non discrimination policies, which include gay, lesbian, bisexual and transgendered youth volunteers and leaders. We condemn the use of public funds by private groups that discriminate and call upon public facilities to cease their support of the Boy Scouts of America until such non discrimination policies are adopted. And this was the resolution adopted by the PFLAG board of directors on July 17. Now, folks update on that many city governments from Chicago to San Francisco to New York to Florida, have told the boy scouts that they may no longer use public schools, libraries and other public facilities including publicly supported campgrounds for Boy Scouts.

C Chris 12:40

There is a case now in San Diego where the Boy Scouts were originally being leased a city park for their events, the lease was \$1 per year. And there's a fight now and drive to get that repeal that they can no longer do that. Interesting a flip side to this, the Girl Scouts of America, were just recently on CNN, where they're talking about that they are in a big crunch. They are in desperate need of leaders. And where traditionally, Girl Scouts and the Girl Scout leaders are either mothers, or grandmothers of current scouts. They are looking at now trying to get more business women, more single moms into being scout leaders. And one part that they did emphasize in there is that they are not a part of the controversy. They are different from the Boy Scouts of America. And they are very open about their non discrimination policy. Right, they do not have the same value as the Boy Scouts of America. And I think it was very

interesting. And it's something that they bring up quite often that they that they're separating themselves. And I'm surprised that we haven't seen a reverse backlash where we're seeing or I've seen any fundamentalist groups going after the Girl Scouts saying you need to stop saying this because it sounds like you're promoting lesbianism. And it's surprising they haven't jumped on that yet.

 Roy McCarthy 14:17

Well, you know, which is kind of crazy and very hypocritical of heterosexual society and why this is I do not know, but heterosexual society has always liked lesbians it seems more than they get like gay men and why that is I have no idea.

 Chris 14:39

That is straight boy fantasy number one. I have to even talk about this my brother the first time we went into Jr's after having several cocktails, he was sitting at the end of the bar and looked over and saw this lesbian couple and he just looked at me and he goes I would give up my car. Just to watch you know Oh, and that is just straight boy fantasy number one seem to lead to women going at it. Like if they're really into it, and that's really what they want, they don't want you in the room.

 Roy McCarthy 15:15

Now getting back to the Boy Scouts and what these different groups are excluding the boy scouts from, you know, including the United Way and other stuff. I have no qualms with the Boy Scouts meeting in a private Hall, if they're going to keep their if they are going to keep their exclusionary and homophobic attitudes fine. But they will have to meet in a private halls such as like the, the Elks Lodge or something of that nature consider as long as it's held in a private in a private building or in a private, private place in a place that's under private ownership and not supported with public dollars.

 Chris 16:05

Well, considering most of the Boy Scouts, troops and in groups and all that are based off of school areas are that but basically your church. But they are based at least the ones that I know about. And if I'm wrong, call me on it. But I know a lot of them are based off of and sponsored by

 Roy McCarthy 16:23

Churches here in Texas. Yes, but But Becky's the

 Chris 16:27

you've got, you've got that. Let's hang on. I like that's okay, I think of it the other way. If you want to open this up, that you're going to give \$1 a year rent to the Boy Scouts to have the park when they want it, then you need to open it up for every group.

 Roy McCarthy 16:46

Well, if it's a private organization doing that, well,

 Chris 16:49

I'm looking at it this way when you when you have if you're going to have a meeting in a school, if they're going to get a room in there, that's fine. But then when you have a gay lesbian, straight, education, network group wanting to start,

 Roy McCarthy 17:04

oh, that's an entirely different story. That if you're trying

 Chris 17:07

if it needs to be all or nothing, if you have a group coming up, that wants to form in a school, as long as they're not promoting. And I'm going to I'm going to choose my words here that they're not promoting a felonious act. Okay, okay. Because very simply, if I said criminal actor would say, well, homosexuality is in so many states and everywhere in Texas, besides around the Houston area, whatever court district ruled and all that. If they're not out there committing murder and rape and promoting that sort of stuff, and let them in the school. They have as much right as students to be in there for an outside group that your Fellowship of Christian Athletes, your young life, your Amnesty International, byo

 Roy McCarthy 17:55

Catholic or organization to see why Oh, goes to public schools out here.

 Chris 18:01

Out there is Fellowship of Christian Athletes and young life. Oh, remember, Catholic is not a good thing, some in some places in the south. Hey, I'm

 Roy McCarthy 18:09

C

Chris 18:11

I'm reformed Catholic myself

R

Roy McCarthy 18:13

home recovering Catholic.

C

Chris 18:16

You just go for the free wine and bread Hey,

R

Roy McCarthy 18:18

no, but

C

Chris 18:21

ultimately, you just need to have I mean, if you're going to allow organizations to come in and do that, that's fine. But when it's when the reverse comes around, and a group comes in and someone may not be interested in then shut up and let him in. I mean, you can't have it both ways.

R

Roy McCarthy 18:38

Okay, the

C

Chris 18:39

next bit of story, which I'm going to be shutting up on,

R

Roy McCarthy 18:40

Well, that was interesting.

c Chris 30:21

Yes. i Who said that is Todd Snyder. Yeah. I heard him on KPFT several months ago on mic in the afternoon. Oh, yeah. And I was listening to it. It's one of those songs that when you hear especially here on KPFT, you hear a song, you don't hear that often. And it's one of those you can grab for a pen. And the difference with this station is within usually 1015 minutes, you'll actually hear what the name of the song is. Unlike other ones where you'll go 50 minutes and you'll you'll never hear what you just

♂ 30:55

heard.

♂ 30:56

But he's kind of cute, too. Yeah, I think he's probably straight up I can change that. He can work with that. Yeah, but it's broken. You know? I don't know. He's, I like what he has to say. Nobody looks like he's a cute long haired boy.

♂ 31:14

I like long hair. Yeah.

c Chris 31:16

Yeah. Now we couldn't we couldn't tell there.

♂ 31:19

You are listening to after hours career radio with attitude on KPFT Houston and ke O 's College Station. I'm Jimmy Carper. Chris is with me.

♂ 31:40

Hello.

c

Chris 31:43

Yes. If you haven't heard Jason is recuperating from his little surgeries.

o

31:48

We made our cards, didn't we? Yes, we? What did we do with them? We gave them to you. Oh, gosh. I wonder where that. I have not mailed them.

c

Chris 31:58

I just want to let us know where he was at. And like he never responded. I guess he was afraid we were going to

o

32:06

actually he said St. Luke's

c

Chris 32:08

you know, if you would have known that. And I mean,

o

32:11

I just saw the email today.

c

Chris 32:14

I mean, finally I had a use for Rainbow them.

o

32:18

Oh no, up to Jason's room. Well, that would have been a matter of hospital.

o

32:26

Yeah. Hmm. We could just see them pushing him out the

 Chris 32:30

door. Yes. Jason was saying he was gonna sit there with his laptop. And it's like, don't take a laptop. Because if you're not here, honey, you need a radio. Cord you love you.

 32:44

But you do have you wanted to chat about something?

 Chris 32:47

Yeah, we were originally going to have in some college students. And then I suddenly realized that we've got a rice versus University of Houston going on down the street. And it was gonna be a little difficult getting it as Labor Day weekend. Yeah. What are you going to get a bunch of college students here so we're going to try to do our back to school special next month.

 33:05

Oh, okay. So that there'll be you and Jason with after hours the next generation?

 Chris 33:12

Yes. Until we come up with a name that was I like that name. Yeah. Yeah. You kind of thought it was cute there when I put it in the abbreviation there. S tn Star Trek The Next Generation goes just s tng and ours is like, ah, N G and said it's not like someone's sneezing. And by the way, isn't our neighbors to the north starting up this weekend?

 33:35

I mentioned that earlier in the show. Sorry.

 Chris 33:39

I was cruising the streets at that time.

 33:42

Well, lucky you.

 Chris 33:44

There was nothing out there to see.

33:46

No, Colin McCluer from Huntsville is starting up after hours north next Saturday night at midnight on KSH eu 90.5. And I did mention that September 6, is after our 13th birthday. Oh, we started here at the station September sixth 1987. So we are going into our 14th year, which is kind of cool. And

c Chris 34:18

as I said before soon, we're going to have our listeners are going to be as old as the show. Yes.

34:23

Oops. So our birthday is the sixth and there's his benign so we can 69 together

c Chris 34:34

and you'll be and if you can't get them on the radio as they do I believe broadcast on the Internet. If you go to their website, which is KSA TR u dot. I'm going to get I don't know go to Sam Houston State University's website which is shsu.edu should be able to get the link in there I found their website for the radio station playing around on the internet ah I found a website that was listed, supposedly all of the community radio stations. Oh, but we weren't on

35:07

it. Oh, oh, well, that's

c Chris 35:10

tacky. But que els is. So we're, we're halfway there. Yeah. And it was it. But the funny thing is they also lumped in there some of the religious broadcasting stations. Roy was put in his.

R Roy McCarthy 35:23

Yeah, you know, I wanted to say that with this 13th anniversary. Jimmy, do you realize how many talk shows have come and gone in 13 years on both public and commercial stations? Yeah, no kidding. I mean, you know, this is really a phenomenal and at the same time slot.

35:42

And radio shows have a shorter time. life span. Yeah. Thank you, Ben. How are you? Love? You

don't mean it.

36:01

mean to you love it?

36:04

No, but that's true. Yes, he's absolutely right. Yeah. And I often think about that, you know, just think of it 13 years times 52 weeks.

Chris 36:16

With the exception of your trips to Hawaii.

36:20
