SPEAKERS

Chris

00:02

Whew, yeah, pansy division hockey hair. That's off of their latest. I like pansy division. What about you, Chris?

Chris 00:11

Oh, yeah, they're special when they came in here that was that was yes. Even for us that was an unusual batting

00:16

that was that was a great even when pansy division was here live in the studio. Just as they took over, took over at na totally took over the I was I had no control that night at all. I don't know what you have control here usually. Well, no, not really. Yeah, well, anyway, we're going to maybe get a little bit more mellow. I've got new music from stage three. I played this I believe last week or the week before it's a series of albums that take music and kind of classics are the first two were kind of Broadway stuff. And did the did it in with same sex.

Chris 01:06

I think I remember I've read about them. I've never heard the CDs. I think usually they're advertised I think like usually next why I keep saying they're there to tell

01:13

you the truth. I mean, unless you're a Broadway show freak. Number one was okay. Number two, I didn't like it all. And number three is is really kind of good. I'm really happy with number three. And this is this is my favorite off of it. They've got a lot of other things like family from

Dream Girls. Yeah, you don't remember that. Okay, nevermind. Okay,

 Chris 01:44

I'm having trouble hearing because I can actually hear the lobby. Oh,

 01:47

okay. So this is the boy or the Girl from Ipanema and you're listening to it on after hours. We are the queer sound of Texas. Oh, yeah. Marcia Stevens Stephens with it from her album, no matter what way the title cut. And Marsha Stevens is a lesbian Christian,

 Chris 02:17

who's not a nun? Who is not

 02:19

it? No, she's not enough. And sometimes I think we don't pay enough attention to this to the more religious side of our queer community. Because religion is very, very important to a vast majority of queers as it is to straights.

 Chris 02:40

Yeah, I mean, it's the especially, it's getting a lot of attention now, with all the weather predictions coming out of the east coast. I mean, it's, it's, some people need that to believe in, they need something to hold on to. And it's very important, it's very important and a lot of people who are like that I have some some of my beliefs that kept from from Catholicism that I hold strong to a lot of them I don't hold strong to other ones. But

 03:12

well, not only that, it's good music. Oh, yeah, I like it. I like Marsha Stevens don't play that again. Before that we had the Kinsey six, and that's si si que es from their dragon pellet album, doing I wish I knew how it would feel to be free and add of a CD with 19 cuts on it. That is the only one that is serious. Or what do you think CD? This is the group that does the take off on the rows? Yes, that's and of course, we started that out with the boy or the Girl from Ipanema. Where do you get your music anyway? Ever anywhere? I can. I mean, I got to Lobo. I go to crossroads. I go to sound waves. I look through mail order. I when I visit other cities, I go to bookstores looking for their local music. I want to play queer music on this show. So I get it from it. I got I got one CD that I played two cuts already. I got through the through the computer through email and through. Well, I looked up queer music and saw this guy have an email and said hey, I have a radio show and I'd love to play your music and so he sent me a CD

04:28

is it come over on your computer computer with the music? I know he sent it through the mail. I have done you know I told you earlier not only I have a web TV yes and now I can there's sometimes I will get music on my

Chris 04:44

wow you can actually hear lazy division songs or heard the internet um, ratio or something like that. Yeah, if the Panzer Division site remember last time we were saying it was wasn't sure if it was still gonna be back up. But I remember being able to download and listen And to some of their songs on there.

05:03

Okay, let's kind of get wild here toward the end of the show. And the show is after hours queer radio with attitude. We are the queer sound of Texas because coming up at the top of the hour at three o'clock is Big Daddy J bringing you the Red Eye especial the beginning of our fabulous blues Sunday. That continues through until six o'clock with Joe's Roadhouse from 3am 3pm to 6pm on Sunday there we go from 3am to 6pm have nothing to lose it's fabulous. But I need to shut up and I can play some music but before that I want to say hi to Terry who's out there listening and hadn't heard from you in a while sent you a card and we'd like to hear from you but for right now D and McBride is gonna bring us up a little bit and I may get some velvet mafia and certainly some add diamond in before the top of the hour dn McBride with a song you've heard before right here on after hours and it's really one that I really like my heart belongs to daddy

06:31

oh yeah I like that one and that that was just for Rainbow the clown that was at Diamond with but PLO

06:47

Thank you. Yeah, well don't don't sneeze when you're wearing one. Here's my advice for you. And coming up at the top of the hour. It's the big daddy j is here. But I want to cram in a couple of more. This is speaking about plugs. And this is velvet mafia with love sucks. Oh, just a little ditty. They're called Love sucks. From velvet mafia. I just think that's a good group. And it's a very clever, clever song go Yeah. Rainbow de Cloud has been reminding me that every time. I like a song. That's what I say. Oh, yeah, I'd like that one. And I do. I really do like that when and Chris was asking when does esoteric adventures move? And I'm saying it already did. It is now on Saturday morning at 1am to 4am. So that's late Friday night, early Saturday morning, right after the dead show esoteric adventures. And I guess we're gonna close out right now and we're gonna get a little bit more serious here because we're we've been debating Do we ever do? Well, we do we talk about sex in a fun way. And but which it is, but yes, it is. But there's

there's a more serious side and a more romantic side. This is a song by Michael Callen that buddy played long ago and it's been a favorite and highly requested song ever since I'm proud to play it. So you've been listening to after hours queer radio with attitude on KPFT Houston and ke O 's College Station. I'm Jimmy Carper. Let's see who's here tonight. Chris is here. Merlin's here, Matt has been here. Who hasn't been? Rainbow. JJ? Michelle, big Roy everyone. But

Chris 08:50

Michael Alinsky showed up.

08:52

And I'm glad she didn't.

Chris 08:54

Wait waiting for Well,

08:56

I know. I don't want to compensate when I go after Monica Lewinsky for withholding evidence. She swallowed it. I can. Oops. Let's not go there. Okay. Right now, Michael Callen with a really really beautiful song. From his first album, Love, don't need a reason. We'll see you next week.
