SPEAKERS

Bobby

00:00

A lot of people, yourself included.

00:03

Now I have a question for you. Whip stands for women in power

00:07

society.

00:08

Now there's two women here who's in power.

00:12

All of us are all women are in power,

00:15

are you the one holding the whip?

00:19

Here is learning

here in learning

00:23

to one allowing you to whip is the ultimate

00:28

age old question. Everybody, I will not sink. But now WIPs is a pansexual group or GLBT group.

00:42

Now, it's pansexual. We don't discriminate against anyone, everyone, no one is excluded. Everyone's included.

00:50

And now, would I correct that there were some men empowering the women in power party? Well,

00:59

women in power have men as partners, women as partners, maybe both as partners, so you can't discount the male. The people, the men who support us who are with us who love us. There are a lot of men in my life who make whipped society possible. We can't do it without men.

01:20

Well, the thing I wanted to make clear to people, a lot of people think that when you talk about women in power, and when you talk about female dominance, that we're all a bunch of female supremacists and man haters. Do you hate them? No. Okay, Chris,

01:33

we love men. We love men. In fact, if y'all saw the article a couple of weekends ago, in the Houston press, it was talking about how we do something called CBT.

01:47

computer based training. CBT stands for cock and ball torture, for those of you who do not know and if you have not experienced it, oh, just let one of us know. We'll be more than happy

to show you. Yeah,

02:03

we can do it really good. We know how

02:09

I'm holding the whole world in your hands.

02:13

isn't controlled then a bit clearer.

02:20

With this poor guy over here just getting a smile

02:29

yeah, no, this is not a male hater club at all. Web society is definitely about pansexuality and like minded people who are looking for each other and trying to figure out you know, just what it is that we do and why and what's it about? And let's find out more and more or less, just do more and more and more and more.

02:52

Is there a way for them to get a hold of you?

02:55

Absolutely. [www WIP society.net](http://www.WIPsociety.net) and whip societies wi PS OCIETY women in power society

03:06

and for those of you who are at the parade they were on the Mary's float.

03:10

Yeah, we just drove the Mary's they drove it to go

03:19

that's what they call it now driving it's funny. Oh, well, I it's it's it's just so great to see all these great clubs here in town about you know, we have piers Houston, bad girls, and there's whip society. There's got them there's H club Pep. There's the new club, which is just started there. It was erotic Rose Society. There's NLA there's

03:48

copy brother, brotherhood of pain, brotherhood

03:51

of pain, there's

03:54

boys have leather, our favorite boys. Always.

03:58

I never didn't need that. I think somebody heard that me I like to penetrate and they just kind of ran for the hills. But

04:12

it's legal. Now I

04:15

want to demo. But, you know, you know, I was thinking because one of the things that I do is I'd lot of times I'll teach classes on on anal play, and sexual anal play. And we've had problems where, you know, it's been publicized and people are like, oh, gosh, and they freak out. Because they think you're, you know, you're going to commit sodomy in front of a bunch of people. And, and, and now I can, you know, advertise it that and it's not a big deal anymore. You know, because I'm not doing it publicly. It's very private, you know, you still can't do it publicly. You can do it in front of a whole bunch of people at a private party. You know, but But I mean, that's the whole thing is is it In this decision that's been handed down, it's just, it's so empowering. It is just so empowering for everyone. And it's just, it's not just about sodomy, it's not about anal play. It's about the personal liberties that we have enough and our rights have been recognized, regardless of what you can't get, regardless of what your orientation is. What you do behind closed doors, if it's consensual is nobody's business, but people do

05:29

the right to be left alone. Bingo. Amen.

05:34

Amen. That's one of the court one of the judges said, one of her justifications was it is that if it's legal for heterosexuals, it shouldn't be legal for homosexuals. And it's, they can't segregate it. They have to do it for everybody. This was really cool. The way she worded it was like a one page and I can't remember her name, which one it was fair for all senator, Senator Day O'Connor.

05:58

And I'm really bad with you now. Now, what we need to do is just hope and pray that and help what do you resign? Because I really do not want Bush appointing any new justices, you know, and there are still people who are going to try to pass legislation and laws that, you know, just to start to chain over again, of Appeals. And, and unfortunately, those people have too much time on their hands. And, you know, I think their problems would be cured if they would maybe get, you know, get sodomized. There's a few that I will be more than willing to see that happen to? You know, because, because there's always going to be people. I mean, there's people here in this town who seem to live for that passion of what can we do to repress people, the protesters that were there tonight went out a lot of protesters. More than you know, those

Bobby 06:53

people with their two big groups were Frisbees. And there was one

06:59

there was a group, the first the bigger group was about by like Cafe empire. Further down little towards Montrose

07:06

from corner to corner.

07:07

Yes, yeah.

07:09

They were a single line. And they all had signs what what was really neat was across the way, there were these beautiful young people and one of the signs says, Hey, is a sin. Amen. They were they were like, she was like showing her eye she was in their face,

07:31

well, that's good. We need more that your face we really do. We really truly do.

07:37

And it's the way the whole parade turned out was just absolutely wonderful. Everything just went off from from the way I saw it, it went off without a hitch. It was really good.

07:48

Well, one of the things that when I was talking to the guy from NCSF, the new director there is that they're hoping now that this you know, it extends into the to other communities as well. But they're hoping that we can use this as a springboard for more activism in some of these other communities as well. And drawing recognition to the fact that we have in our society ingrained heterosexuality and everything and we're so hetero centric, and all that we do that we tend to forget disenfranchise so much of the population these days, not just the GLBT community. But you know, there's the poly community there's those who are just loving, monogamous and swingers and then there's this leather folk and, and all of us have been disenfranchised for so long because we didn't fit into what moral values, you know, that they will consider to be the right thing and, you know, it's finally okay to say the right thing is your own thing. It's not anybody else's thing in the bedroom, you know, and it's just, I mean, I'm just like, Woohoo, yay. So me, I'm pretty easy to please you know, just, you know, Jimmy here can you just send over his little boyfriend and give me a massage anytime he wants and I'm pleased he's the reason I'm late tonight. Don't come I love it when he's

09:29

not in universities. Okay, try that one more time.

09:34

I said, you know, I'm easy to please just send over your hands and I'm pleased. Yeah, he's the reason I'm late tonight.

09:43

He's very good. You know, I told you

09:46

definitely know what we were skinny dipping in the pool. Word. He's a little

09:54

No, no, no, he's a big horse. But

10:04

but he's he's a great guy. You got a real prince there you really do. She's the sweetheart

10:11

Stanley's my Rock of Gibraltar, my lover of 25 years we celebrate today is our 25th anniversary.

10:20

Wow, this is just a big week. Yeah. And

10:24

I've been with Jim since 1991. Well, I need to

10:31

say you know what now you can be with both of them. And it's

10:35

like, it's it certainly is my Rock of Gibraltar. And Jim is my emotional center.

10:41

I believe it. I believe. He just got great karma. So he could tell I was all tense and stress and he just like you on the massage table. And I'm like, Whoa. But now it's it's just, I just think this is your poly so you can understand how much this affects so much into the other? Yes. And it's absolutely. I keep seeing the little line flashing. I'm hoping and praying. It's my person is supposed to call me.

11:10

Oh, they're supposed to be calling. Yeah. I

11:11

think somebody just random to answer the phone. I hope.

11:15

So. Looks like we hope we'll pray you know, and let's all do a chant. You know, Kumbaya, whatever. But now, when it's in how often does whips meet?

11:27

Never. We don't have meetings, we don't have memberships. We don't have dues. We don't have a board. And so all your

11:35

parties have let's see, I liked that. I liked that. It was really, you know, I don't need a meeting. I wanted a meeting I go to AAA. But you know, to be able to sit there and just get together and have a good time.

11:48

No politics. What do you have to argue about? You're in a party, you're having a good time. You're chained? You're getting whipped. You're experiencing endorphins.

12:00

Now Have y'all moved and set up the new place like you talked about? Are you going to do that or not? We are

12:05

actually moved into the house is not nearly as ready as we would like it to be, but it's livable at this point. And the dungeon out in Stafford is going to remain a dungeon a place of business. It's a great place to to play in. And it's just a little treat house and we don't want to let it go yet. So we're gonna operate the whips dungeon for the next six months as well as maintain the new house. Well,

12:39

no, not Yeah, I guess.

12:41

There's not a promise because he's on Washington DC kinda like Polo. He was gonna try it.

12:49

Well, well, while we're waiting we can also talk about this is membership drive for the station. This is the station that the only station in this city where you're going to hear Mr. Eaton talk about the letter. The only one that you're going to have on air demonstration. Yet some guys hide. At

13:19

all always bodacious Titus.

13:22

Those look really good on the radio

13:31

up to the microphone so they can see

13:35

the number so you can call

13:42

713526573 That's the number to call to pledge your support. Should

13:46

you mind you got to show me yours.

13:56

Honey, I showed you nipple you show me.

14:01

As buddy said when he called in that \$100 on plastic. We'll get you

14:07

my nipple that

14:10

we opened the show with it's Pamela Stanley coming out of hiding and in it. Buddy has engineered the voice of Harvey Milk class doing excerpts from his speeches, stuff from the 1993 march on Washington. All kinds of different things going on. You're going to hear the official word that came out when Harvey was shot and killed by Dianne Feinstein. And she had to make that announcement to the world. If Harvey and Mayor Moscone all kinds of like that's, that's this is our history folks. And he's got in there on that song and he's putting it on CD. For anyone who pledges 100 For dollars on plastic here, that number is 71352657385 to 6k P F T

15:09

one. I think it's important for the listeners out there to realize that this is rare that we can have a show. And we can have radio time to talk about BDSM yes to talk about s&m to talk about polyamory to talk about kinky sex and anal sex and everything. We've been doing it,

15:29

you know, but we don't interrupt you every five minutes with a commercial for pimple cream, you know, takes the edge off when you have to do that. And

15:40

in order to keep having that we we really do need people support Yes, and the number if you can't remember that number, it's 713 Jam. KPFT. And, you know, I promise if anybody calls in you know, I take off an article of clothing, but I mean, I've already done the whole nudist thing wants tonight, but

16:02

she's not wearing that much so

16:05

night gown Aren't you proud? I thought I had a whole fetish off and um, but you know we have to go skinny dipping don't want to put on latex and PVC again. So you know, you go for the easy thing.

16:18

We've done nude radio before.

16:20

Oh, we have? Yes. We have

16:23

to have surprises me.

16:27

Not surprised. Surprised me in any

16:31

bucket. The boy he brought in was Jimmy sign his full name on his member.

16:38

Yes. I was giving autographs that evening.

16:43

We have somebody who is on this line.

16:50

Is that your guy? I know.

16:52

I don't know who he is. But I'll talk to him. Well, hold on. Yeah, no. You know me, strangers.

17:01

Yes. Hello. You're on after hours. Yeah, doing this moment. Yes. Fine. How are you doing?

17:07

On my way to work?

17:10

Well, this, this will wake you up.

17:15

Every morning. Hey,

17:18

what can we do for you, Steve?

17:20

I heard you talking about the dragon and the dungeon or something like that and stuff. And I live in Missouri City. Oh,

17:27

yeah. That would be the whip society. Sanctuary and fetish parlor.

17:32

Yeah, I like to get into stuff like this for my other hand. My wife is involved. She said.

17:42

Well, I know you gotta go slow. Yeah, can you just take them out to a party where there's a bunch of naked people being beat? Yeah. gotta start slow. In general you want to start with

you know, just talking about it. Maybe watching watching the movie. Good, smarty s&m Porn.

17:57

Yeah. Oh, yeah. She hate X ray to take in? Have you tried just,

18:03

you know, some good books, something by Jay Wiseman, or, you know, some one on one or?

18:10

Yeah, I've tried all that going on. We've been married 18 years. And

18:14

well, you know, one of the things that I have found that works better than anything else, and introducing somebody, and you can't expect everybody to have your cake. I mean, you really can't. But one of the things that I have found that really works really well is just to sit there one night and in be masturbating and getting each other off, but to do a night where you just talk about fantasies, and you talk and talk dirty and talk about a really nice fantasy that you may have. And then have her talk about one that she may have, and everybody kind of just starts talking about it. And every time you do it, your fantasies just get a little bit darker and a little bit more. You know, start with the simple stuff, you know, like Oh, being tied down with some silk scarves and some whipped cream. And then you know, next time it may be, you know, tied down with some cuffs and something else, you know, and you just got to start slow and work into it real slow, because it's so that they don't feel threatened because if somebody feels threatened, they're not going to consent to any kind of behavior. Yeah,

19:12

I tried all that work. I took it to a club called Secret. Oh boy, she didn't like that.

19:22

You can't force her out of jetlag.

19:24

No, I just go by myself makes her Oh, there's

19:27

plenty people out there who do like it and you know,

19:31

check your club. Staff at one night one day.

19:35

Whip society.org dotnet dotnet Sorry. Yeah. Check it out. I'd love to have you

19:48

Sure. I have a friend that enjoys smoking male friends that really enjoy it. Oh, yeah, I have quite a few of those.

19:56

I think she for yourself just to become a little bit more informed about what's going on. On is go to other clubs meetings like eras, erotic row society every Saturday afternoon at 12. At Rogers, they do a two hour discussion close class and discussion. And it's a great place to network. And clay does a really good job of running that that meeting.

20:27

Okay, where's this meeting that was held at

20:30

Friday at noon at Red yards? You know? Are you the why?

20:37

Yes. On Wall, are you dz? is what everybody calls? Yeah, it's right there on one. Every Saturday at noon, that's in the Montrose, classes there. But seeing we really thank you for calling. Keep listening, to donate your money and pledge money to support the radio station. You

20:59

done it last Sunday.

21:00

Good. Good for you. Thank you very much. I see.

21:05

Somebody just handed me a note from from somebody who's been a fan of this show for a long time. Been here. Good old mighty mouth. But he passed on it says, you know, thanks for being so upfront. Some of us have to be more private.

21:20

That's right. We understand that. And that's a, that's

21:23

a big thing that's important to understand about this radio station is we can be the voice for those people who can't have have their voice. Yeah. And it's not that they don't want to have it,

21:34

it's theirs. For some reason or another. Yeah,

21:37

it may be the spouse, it may be a work situation, you know, whatever. Those of us in this station gives us a voice and it gives a voice to the people who who for years have not had a voice. What's nice is now the Supreme Court has given some of us a voice, you know, and allowed us to have that voice and validated that voice, which has been such a great thing. And it's, you know, I want to just say to mighty mouth that, you know, we appreciate it, you've been listened to the station, since I can remember you call in almost every month, you know, and it's like, where the station and and all of us can keep perverts are here. Yeah, you know, and we're always going to talk about what we can do and what we can't do. And, and, you know, I really, truly believe that the majority of people who listen to the show aren't the people you see up and down on the street at the time. They're not the people you see at the clubs and in the dungeons and everything else, that people who are in their home because they don't have a voice. This may be their only link to candid, Frank, honest talk about the way it is, you know, because so many people can't talk openly about things and what makes them tick and what makes them how they feel. I mean, I know on the other shows, whether it be the transgendered show or whatnot, we always get these people who will call in. And they're like, you know, I've always felt this way. But there's something wrong with me, you know, and it's like, hey, no, you know,

23:05

what's wrong is repressing yourself, right? And what's wrong

23:08

is not being feeling like there's a comfortable place to talk. And that's one thing you need to know if you're listening out there, as you can always call and you can always talk on the show, because we'll answer your questions. I mean, out here. I mean, we've had some pretty strange callers. We have to camp Clydesdale.

23:28

But, you know, between, like you said, the transgender segment and the leather segment, I have learned so much about my own community. And we have fun while we're educating. And I think that's what a lot of people get, they enjoy because it's like, right on the cutting edge. And we're having fun doing it. And everybody gets to learn something.

23:50

I remember you've ever learned something from this show, you should call and you should make a pledge because we need you

23:57

7135 to 65738 Bobby,

Bobby 24:00

I remember long before I ever met you or knew anything about where the station was and everything I can remember listening to the show, and listening you to open with, you know, being there for those who can't. Yeah, for the, you know, the kids at home who are listening with their headsets on because they don't want their parents to hear that they're listening to a gay show.

24:30

You know, you know, that's the key right there. That's that's the key thing is worth we're there for those who can't, you know, and I don't I think we should never forget that. And I think that even with all the the new freedoms that we see in the more public events, there's still so many people who are still stuck in that closet, and it's a terrible place to be. And you know, I had since we started doing the thing with college station, I have gotten more people contact me from that part of, really, yes, I bet you I, every week now three to four people from College Station contact me from that they've heard the show. It's just like, you know why, you know, I

just go out I didn't know there was, you know, anything out there and for those of you listening, College Station has a really good group group called kinky Aggies. And from what I hear they're pretty kinky up there. And I haven't made it up there yet but from what I hear, you know, that's a good group to Yeah, of course do they hang people upside down on the cross? Because you know, they're Aggie What can I say?

25:36

Oh, big Roy just made big Roy Snyder he's got his first hate call it over two years. Oh, so a woman called up to say oh you fat gets you're gonna burn in hell you know she must have been one of those people standing on the sidelines tonight

25:53

well, you know what there was people who said How was going to freeze over the willingness to pull for the court recognize things so guess what I'm going ice skating

26:04

about that is I hope she keeps a seat warm for Yeah, that's right.

26:08

You know Yeah, hypocrites go there to Lady

26:12

My oh my god that is not a God of hate and so

26:16

no you know what, when when any organization that calls itself a religious group

26:33

there'll be no heterosexual kissing on this show

26:40

the one that got it From

26:43

I forgot what I was saying.

26:51

religious group that calls itself religious spews hate that that's not religion. No, no, not at all. That's a cult.

27:02

It's the brainwashing of the masses. That's right. You know, and I consider myself a very religious person. I consider myself a Christian, if you want to go into religion, but the whole point is, is my version of it isn't the same as the stuff I see spouting down the street, telling me that this is what family values are, that's people who have been brainwashed into complacency. You know, and if you look at that, there, it's these people who've been so repressed. And if you repress and you control a person's sexuality, you've controlled that person. And, and so much of what I see is judgmental, and hypocritical. And to me, those are the people that need the most help.

27:46

The church is in there is in yourself, whatever religion it is, it's in yourself.

27:50

And I want to remind people out there that gay and lesbian, bisexual and transgender people came from homes that had religion in them. I did and well I did. When we grow up, is that whatever church we're in, unless it's, you know, the rare church that accepts us is rejecting us. In this town. There are more religious organizations for gay GLBT people. Isn't it wonderful? Yeah, you name the religion there is a queer counterpart to it. And it's in this town. And there are more of those than there are bars Yes. In this gray look in the roster that parade everything in the parade tonight. That's right. There were more religious organizations in that parade dependent bars. So what does that tell you about our community? I think spirituality is very important and and I'm not just talking about religion, religion, we have the pagan group Yeah. And many of us are pagans, or atheists or agnostics

29:06

or sir universal or whatever, but

29:09

we all we all have a spirituality and we all

29:13

respect each other regardless of whether we agree with them or not.

29:17

Exactly. We we have all the people we should we are so diverse we should know about diversity and differences with people in our own community. Amen discrimination

29:30

Lord no we know about that. Yeah. When God said Go forth and multiply he didn't mean procreate.

29:39

I know by multiplication tables

29:45

Well, you know, my first encounter with with hypocrisy in hatred was probably I was in Washington with act up. Back when we did the names project We did the quilt in the square. Yes. And I was I was there with named project and I was also doing some stuff with act up and, and all this. And I was just amazed at all of these people screaming, you know, that I was going to hell and all this stuff at me and I'm just sitting here going, Yeah, I don't know what Bible you're reading. But you know, because I grew up, you know, really, really conservative and, and it was like, I couldn't I just a first of my life, I was totally confronted with this. And I just really looked at it. And I said, You know what, I had to do some really serious self examination. And I came to the conclusion that, you know, I was very blessed, and that I wasn't raised to think that it was all about hey, it's about love. You're right. And you know, one of the things about BDSM is it's very much a spiritual exchange with people. You're playing with people's energy. You're playing with people's, their core, basal primal sexuality. And it's very much for a lot of people. It's a religious experience. You know, the, the monks it used to flagellate themselves for years and years, they we're onto something. You know, I've always seen it as a very path to enlightenment. And I don't know what you ladies think about that. But yeah, I've always felt that it's a very spiritual connection and experience.

31:27

But it definitely takes you to a different level of intensity. I've been around people that have had just broke down and cried after it was all over with. And it wasn't that they were in extreme pain. It was that that it took them to a different level of freedom.

31:43

Yeah, it's pretty, it's pretty, it's pretty freeing and whatnot. Now, those people that came in Jimmy, other people wanting to get on the mic. I mean, because I couldn't get off.

31:58

We have just received the pledge. From Kevin. Kevin, thank you very much. And the reason for that he pledged in honor of the woman who made that hate call. So, yeah, that, Kevin, thank you very much, Kevin. He doesn't mean in support of her writings because of her.

32:25

Yes. Well, Kevin. It's like those people. What separates the men from the boys got it. You know, yes.

B

Bobby 32:37

That they get to the Fred's God hates. They get that far. And I sit there and go. How is that possible? You're supposed when God's supposed to be about love. I mean, God doesn't hate

32:53

Well, you know what? It takes a hate call to get a pledge bearing in mind

33:03

right, I got my whips in the car.
