SPEAKERS

Jimmy Carper, Vanessa Edwards

 **Vanessa Edwards 00:00**

It was a little harder on mine well then you're invited by

 **Jimmy Carper 00:08**

got the outfit.

 **Vanessa Edwards 00:12**

We do want to announce to the transgendered community that we want to invite everyone back not just a transgendered community, this is open to the community. Sure, everyone, we want everyone to attend and this is going to be April 10, which is a Saturday night, and it's going to begin at seven o'clock. The location is the Bellaire Westview karate studio or karate school, I'm not sure disco karate school, and the address is 6605 South rice, which is in Bel Air, okay. It's right there in the Bel Air triangle, gotcha. South rice, Bissonette and Bellaire Boulevard, okay. And it's really neat to place in the original downtown area of Miller avenue, once upon a time. So we plan on having the 60s event here in April, we also have another little fundraiser, a house party coming up for a nice Parker that we're doing, we're trying to get the that reelection campaign kind of find it quickly, really quickly. So we've got a lot of things that are kind of on tap. And we plan on taking this to other events as well. In fact, one of the things that I kind of mentioned to HDL PC was a day out in the park, a kind of a Unity Day out in the park. And that's still in the planning stages. So I can't really I guess give you you know, formal details on this. But we tentatively got it scheduled for about the second of May, which is a Sunday. And what we're going to try and do is get everyone from the gay, lesbian, bisexual and transgendered community all out to Memorial Park for a big picnic and also kind of dovetail this with a political rally. And we're going to have a nice Parker out there. And hopefully a couple of the other announced candidates, I believe Andreas Pobeda, has announced his candidacy for one of the council slots, we plan on trying to approach him and have him out there, as well as some of the other candidates who are friendly to the community, maybe even some of our state representatives, if at all possible. And if we can manage to swing getting a band out there

as well. We may just do that. But we want to make this day out in the park for everyone. And it will bring a lot of attention to HD LPC to hopefully encourage a lot of people to join and get active in the community good. community wide In fact,

J Jimmy Carper 02:48

let's mix up our communities. Yeah, yes, exactly.

V Vanessa Edwards 02:53

Well, there's nothing wrong with maximun mainland. Yeah, and that's another, I guess, aspect to TPAC. Even though this is a transgendered Political Action Coalition, oh, we're not going to focus just strictly on transgendered issues. This is something that we want to work together with the gay lesbian community to try and encourage the passage of legislation that benefits all of us. And the primary focus of this is just equality for all individuals, regardless of who you are, which is what this is all about. And in fact, the two of the board members are sitting here in the audience with us. And I Deseret again, go figure, these same names keep popping up over an hour. Well, we've got our hands and robins not here anymore, so I think we're safe.

J Jimmy Carper 03:53

But I missed that joke. But

V Vanessa Edwards 03:56

well, what are the inside jokes? Okay. Hands inside. Nevermind. But, in fact, it does. Right. Do you want to, I guess, interject any thoughts? Any comments on the Political Action Coalition? I'll put you on the spot here. Now.

J Jimmy Carper 04:23

Well, you know, maybe it's maybe maybe too early to talk about your aims and all of that if you're just getting together. Well, Brett, you want vote? You want folks

V Vanessa Edwards 04:32

to yes, we want folks number one to know that we are here. And we do want to encourage people to participate in all the TPAC sponsored events. Obviously, this is something we've never had on a statewide level before. And it's something that I guess has been sorely lacking.

04:50

In Vanessa's defense, though, this is something we all need to get more active in. Sure. One of

the things that's happened with our communities we're the last to really get organized. We We've been basically sitting back and not aggressively pursuing lobbying and activist activism with the government. We've it is it is and that's one of the reasons we're so misunderstood is

 Jimmy Carper 05:14

we are you have to be out there, they have to say yes, they

 05:16

have to see your face one on one to really make things happen. Yeah.

 05:21

Recently, we had the lobby days up in Austin, where we actually went and talked to the representatives and the senators. And we had about 60 people show up. Right. And it was because in the past, they've had, you know, maybe 10 people. Yeah. And so we're starting to see some people wanting to step up and say, Hey, we're here.

 05:44

And we were very well accepted. I was really impressed by the behavior of our government officials, they were very positive for the most part,

 Vanessa Edwards 05:53

because, except for our Tolton

 Jimmy Carper 05:57

because, like that sign says, We're cheering, transgendered, and we're exactly the voting thing that gets their attention. Well, that's it and knowing that not only you know, you, they're looking at your point of view, but they know that you and all of your friends are voting,

 06:19

and we're all tax.

 Jimmy Carper 06:21

And yeah,

06:22

we tell them and look, there's only 60 here this time. 10 last time, but you know what, next time it's gonna be 160 and after growing

v Vanessa Edwards 06:37

important Deseret News can lead to live that one. Another. Gotcha. Jimmy, Jimmy. What does this mean?

J Jimmy Carper 06:52

I think Devin is in the boat with me. You know, not knowing what's going on. Up over here.

v Vanessa Edwards 07:02

It's hard to keep up with you kind of have to walk fast. And

07:05

but yeah, but NASA

v Vanessa Edwards 07:09

keeps the weight off. Only sneakers, sneakers, flats, whatever. If I can move around fast. I was moving around fast in heels tonight. You just have to get the practice there.

07:24

I didn't know kids made here.

07:43

Beatles get back to

v Vanessa Edwards 07:54

oh, oh, God. We choked him up. Shocking. Oh, yeah. stick around long enough. We will probably find probably. We could always cover the seven deadly word.

J

Jimmy Carper 08:11

No. See? I want to keep the show on the air.

o

08:18

All tea all the time. Wow.

v

Vanessa Edwards 08:25

Oh, anyway, though. I do want to mention that that we also have a national Lobby Day coming up for the transgender community. Again, this is going to be in Washington DC.

J

Jimmy Carper 08:36

This is a Ricky Waltons thing.

v

Vanessa Edwards 08:40

It's agenda pack sponsored. I don't know how heavily Ricky's involved in this. I take it she probably is. But that will be coming up may 23. Through may 25. For those of you interested in that as well. And of course, before less, I guess, let this one slide by. I do want to encourage everyone to go to the equality begins at home. Oh, yeah. Definitely. The March and the lobbying. The lobbying will be of course, Monday, which is March 21, if I'm not mistaken, isn't on. And March 28, of course, is the the rally at the Capitol. And of course, the the parade before that. Or well, I should say the march not the parade. I'm Congress Avenue. We will march up Congress Avenue in mass. In fact, they're expecting I believe, like 5000 people to come to this event. That would be really, really looking for a big turnout and we want to see a big turnout from the transgender community. So we need to let these people know that yes, we are serious. And we weren't going up there in January just for one time shot. Don't complain unless you participate. Exactly. And that's exactly what we plan on doing. I'd love to make another invisible toilet and again, even Hello, I'm

o

10:02

happy to see you, I'm sure. Now,

o

10:05

I want to see this ad again.

J

Jimmy Carper 10:08

Jimmy Carper 10:00

You know, I've got I've had some emails while I'm on hand net. Does anybody know what hand that is?

10:15

I'm sure. Yeah. Okay.

Jimmy Carper 10:16

I'm on the membership committee. Okay, good. So, so we can get transgendered news

Vanessa Edwards 10:21

on hand now? Yes, absolutely. There's quite a bit of training, you

Jimmy Carper 10:25

know, os become like, this computer heart, and I'm just, I just put everything and bring it in, you know,

Vanessa Edwards 10:33

computer horrors. Wow. Yeah, no, no, you can do that spread for

10:37

that 25 cents.

Jimmy Carper 10:42

But anyway, you know, if we have all of this out there, then then we can, we can,

Vanessa Edwards 10:47

in fact, actually have in hand net is kind of instrumental in getting this marketing organized. That kind of came out of a discourse between myself and one of the other members on hand. And I kind of that's right, I beg to differ with my thinking, I guess. Yeah. We went back and forth about two or three times. Yeah. Okay. Well, let me go ahead and take this offline.

J Jimmy Carper 11:12

No, it's interesting. It's interesting. Just if you don't even participate just to get the all the memos Exactly. Hey, and net H A N Houston activist network, dash Han dash net and at apt one lists.com. You can subscribe to that.

V Vanessa Edwards 11:33

Absolutely. And I encourage everyone to say, Oh,

J Jimmy Carper 11:36

you really keep up on that. Brandon Wolf who runs it just I mean, he's always throwing stuff on there from all over it's incredible the stuff that he is

V Vanessa Edwards 11:46

just absolutely incredible with he is what this is just it's unimaginable that we would have anything like this above this kind of scope here in Houston. And especially this past. Yeah, I've only been on for what about a year or hasn't even been I don't think it's been a year. And yet it's just really taken off in an excellent way for everyone in the community to know immediately what everyone else is doing. Exactly. Yes. All the events, all the the organization type things. Any news, even point of views. I love the point of view. Oh, well. I do like taking the task for I guess maybe you're stirring things. No. stir the pot, you just shake it a little I don't really stir. She owns a ladle.

J Jimmy Carper 12:38

Don't ever let up? No. It's good.

V Vanessa Edwards 12:40

basting brush too. Nice. It's more than 230 in the morning with

J Jimmy Carper 12:53

a double entendre. And I didn't say it. Wow,

∅ 12:59

double life thing again.

 V Vanessa Edwards 13:02

Like that we always lived up alive.

 J Jimmy Carper 13:05

But no, don't ever give up at your lead up even because everybody's opinion is important. And it gives everyone else different sides and different viewpoints.

 V Vanessa Edwards 13:16

And you've given me some very nice comments on there. And I want to thank you

 13:22

very much. Yes, but

 V Vanessa Edwards 13:24

I do think that everyone needs to be encouraged to participate in the net, I'm still trying to work on with the caucus and see if I can get Terrance on there as well. But it's a great way of having everyone on board in being able to notify each other immediately, which is something that I guess can't be the value can't really be measured until you see it in action. Before I guess we would have to get on individual listservs or individual email addresses and trying to get in touch with people individually. This way you can post something and everyone in the community, all of the communities know simultaneously Yeah,

 14:04

it's better than advertising newspaper the old days. I mean, come on. We're faster now than we ever were.

 V Vanessa Edwards 14:10

Exactly. And this is an excellent example of what the cyber community is capable of

 J Jimmy Carper 14:15

how many transgendered clubs or groups have webpages or

 V Vanessa Edwards 14:26

~~that I don't know how ITC does not yet. Yeah, we're~~

that I don't know how JCRC does that yet. Yeah, we're

14:31

still working on but I know the social club does. Even HCDA does

14:39

goes through Brendan's domain same as

Vanessa Edwards 14:42

in tats does but taxes is very outdated and unfortunately the person who created that website last the password to get into we're kind of frozen 1997 Unfortunately, what

Jimmy Carper 15:01

about Austin? Is there anything? I mean, specific to Austin? Any any groups is on the web?

15:09

Of course we are at CTG. Yeah. And Alpha Tau has a website. And I can't remember their address. It's right off. Its I won't even try. Okay, but they are there. And you can you have a link to their site if the national okay Trius. website. Okay. And

Jimmy Carper 15:33

is there like, just the website? Or do you have like a chat room? Or

15:38

it's it's just a webpage? They have links to other sites? Oh, of course, we cross link back and forth with them. And it's more of just an information page. Sure. Well,

Jimmy Carper 15:50

that's, that's important. Yeah. People got to know Yeah. Fine. Yeah. Yeah.

Vanessa Edwards 16:00

Well, you'll have done a very, very good job. Just, from what I've heard from the Austin

community. Yeah, you've gotten people organized, to the point where they're actually going out and seeking out people in other communities and trying to reach out and forge communication ties, which is very important. A lot of our communities tend to isolate ourselves or just think very low, very, very bad. And just the fact that you took this opportunity in the initiative to go out and seek out other groups and try and make these ties is very impressive. Indeed, I have to hand it to you.

16:40

Well, never underestimate the park, the power of a party will come for the party.

16:52

Wasn't Unity Party, you know,

16:55

unity in the community?

V Vanessa Edwards 16:57

Hey, we're gonna again.

J Jimmy Carper 17:00

Are there any other kind of cross pollination, things here happening? All

17:03

kinds of cross things going on? I mean,

J Jimmy Carper 17:07

we have the you that the banquet, but there were any other times that all the groups come together? Oh,

17:15

there's there's a conference is well, there's conference.

17:18

national basis. Yeah. Well, but that's one of the things that the Unity committee is designed to, because there are things like we get involved in the Pride Parade. Yeah, you know, we march and we want people to know that we're there, the AIDS Walk, we also participate in that. And so we want people to know, as a group that we're doing this not just a bunch of individual, thank

J Jimmy Carper 17:39

you for the AIDS Walk.

17:40

You're quite welcome. Last year, we had about a dozen people there, we had special T shirts we designed so that people would know in fact, a nice, Parker wore one of our shirts during the walk

17:53

that's designed by Deseret. Let's give credit words to

17:59

well, but anyway, the whole concept is to bring these groups together for these type of things. And the more we get together, and during the break, Devin and I were talking about the way we kind of look at it as an analogy, as if you could get high enough up in the air and look at a freeway that went from New York to California, we have, you know, a lot of cars that go on there different speeds, different makes different models, and they get on different X, you know entrances and get off at different exits. But the thing that we have in common is we all use the freeway. And so if we look at it like that unity is just a natural thing. And that's where we have to come from, we all use the same highway, we may not be going in the same place to go to the same exit at the same speed, but we'd still use the same highway.

V Vanessa Edwards 18:49

Good analogy,

J Jimmy Carper 18:50

really is from some some of the groups that I've been involved with. Cuba troll game has been switchboard, the more social things you have, I think it kind of draws other people in, and then you have more workers.

19:05

Yeah, that's it. That's a big part of it, getting the people out for a party, as we Devin mentioned earlier, yeah, that's the beginning. I mean, they say, Well, this is pretty fun. These are neat people, then maybe I'll do more. Sure.

V Vanessa Edwards 19:17

And that's kind of what we're trying to do with the the caucus thing in the park, coming up in May, is to have something for the entire community. Once again, and this goes beyond just the transgender community. This is the entire community right in Houston, and to get them out and to get them organized and to spark some interest in the caucus, or in even in some of the other organizations.

J Jimmy Carper 19:39

You know, this is why I think again, that is so incredibly great, because a lot of groups have been isolated, and there wasn't really it was very difficult to get them together. This way. I can get information about transgendered events and take them back to the Gay Lesbian switchboard. Organon those people can know about them. And, you know, that's, that's how you get the word out, I think.

V Vanessa Edwards 20:05

Exactly. And I think it works much better on the net because of the fact that the speed involved Yeah, instead of having to rely on things like switchboard, which we once upon a time had.

20:17

Yeah, that was it. That was a number with an answering machine. I mean, come on. Yeah, go way back. Oh, oh, God.

V Vanessa Edwards 20:26

So you some of those,

J Jimmy Carper 20:27

the my first realization of this was the Matthew Shepard thing, because the day he died, it went out over the internet. And hey, we're gonna do this, this this vigil at the corner of Westheimer in Montrose. And, you know, we had like, 50 people there. And it was just in a matter of hours, which is incredible. And that I really realized the power of the neck at that point,

20:57

we can impact people's opinions in minute. Yes, absolutely.

V Vanessa Edwards 21:00

And that's really something that I guess we do need for this community. When you think about it, a lot of the more conservative or religious organizations have utilized this as well to get themselves organized, yes, and to seek out information. And they've kind of gotten the jump on us on a lot of issues. And it's up to us to, at least, for our part, try and offset this. Yeah. By keeping ourselves informed and to do so as comprehensively and as quickly as possible.

J Jimmy Carper 21:33

We're finding this out at the gay and lesbian switchboard, that we can't keep up with the information anymore. We're not computerized there yet. And that people are not calling us for information anymore. They're calling us for canceling calls. Because you know, you can go into a chat room, but you know, it's not like having that ear. And that that voice talking back to you one on one. So you know, that's what we're focusing on rather than information these days. Because people just can get much better on the net.

V Vanessa Edwards 22:06

Exactly. And maybe that's the best part about the hand net is this can kind of at least alleviate some of the responsibilities of your switchboard to where it can focus specifically on what it can do the most effectively, which is Council. Yeah. And

J Jimmy Carper 22:24

another switch ports through I'm sure, you know, because it's not just gay and lesbian switch work. But there are other switchboard.

V Vanessa Edwards 22:30

Exactly. And I think that in the future, we'll probably see, maybe even better utilization of the resources. Yeah, as this because this frees up a lot of the time that used to be taken up on having to deal with two or three different things at once. And now they can focus on what they're best at. Yeah,

J Jimmy Carper 22:49

you got it. Something

22:50

Vanessa said was very important to talking about the the entity committee. And getting back to the fact that you mentioned about the religious right, what some of the things they're doing. One of the reasons for the unity committee is to basically to protect ourselves, because they're moving so quickly with so many agendas against us that we've got to either organize,

J Jimmy Carper 23:11

or that's right, because I've got the Internet to

23:16

finding out there's power in numbers. Exactly. They

23:19

can sway public opinion every bit as fast as we can. Yeah,

v Vanessa Edwards 23:23

I think maybe even a little bit more. So because they've got this I guess, this moralizing position. They can say, well, these people have questionable lifestyles, etc. They've got the route, we've got church and backup. And so they utilize this quite, I guess wisely on their part, but I really to be truthful with you. I think they misuse it. They do a lot of misrepresentation.

23:51

basically use the wrath of God as a threat.

23:53

Exactly. Sure.

J Jimmy Carper 23:54

And will spread hate

23:57

based on their own interpretation.

23:59

Sure. You can make the Bible saying anything you want to say. And they're

J Jimmy Carper 24:03

doing that exactly. ventriloquism make it talk

24:10

I'll be talking about

J Jimmy Carper 24:14

oh, and that brings to mind at Galveston. Oh, yeah,

V Vanessa Edwards 24:20

I was waiting for that one. This guy is Oh, God. We don't

J Jimmy Carper 24:26

really you know, we don't have to do anything. We can sit back because the strike community realizes that this guy is an idiot. Well, some

24:33

struct Yeah, hey, yeah, Fred's gone. Fred is totally useless anymore to anybody. Right.

J Jimmy Carper 24:41

Right. And that's, that's maybe where we have made strides because idiots like this are not being listened to because more people know us. And they know that

24:52

this is b that was was so key about the Lobby Day in Austin for me personally was when I actually got to sit down one on one with people. Representatives and their aides and so forth. They looked at me as like, this is a real person. This is a flesh and blood individual. It's not some creature on Springer. And so I mean, I can walk, talk and chew gum at the same time. Pretty remarkable.

J

Jimmy Carper 25:19

look damn good doing it.

V

Vanessa Edwards 25:22

Oh, yeah, some of the senators really enjoyed that part.

o

25:27

But it was you'd be surprised at how many did not now and had never been in front are confronted by a transsexual, autocross. They're like, except what they'd seen on television. Right, exactly. Well,

J

Jimmy Carper 25:39

that, you know, if that's all you see, that's all you know, right? That's it.

o

25:42

And half of them didn't know that till you walked into their office and had a one on one, right? When they saw you sitting in the lobby, and they're going, can I help you mass? And you're like, Well, I just need five minutes of your time. And you go in, and they're like, Well, why why are you interested in this subject? Was somebody in your family transgender?

o

26:03

I'm going yeah, very close to me.

o

26:06

And it was really kind of it was fun on one half, because you know that, you know, they had never met anyone. And that dot felt very comfortable. But at the same time, you know, they did not have a clue. And it was able to get their ear enough to listen to the issue.

o

26:23

Until we mentioned tea gain, a lot of them didn't have a clue. Exactly.

V

Vanessa Edwards 26:28

But again, there is no substitute for first hand experience. That's right. They can read all the textbooks that they want, but until they see us in person, and until they actually realize that, yes, we've actually got talents, we can contribute. We can participate in the Grand American scheme. Let's secure our own little portion of the American dream.

♀

26:50

I want to house in a white picket fence.

V

Vanessa Edwards 26:54

But I wouldn't mind just

J

Jimmy Carper 26:58

at home, thank you wouldn't allow it.

♀

27:05

But it was fun, because we'd go in sometimes ask for five minutes. You'd walk out 20 minutes later. Absolutely. And I heard

J

Jimmy Carper 27:12

that over and over again from Sarah.

♀

27:14

Yes, bring me bring me and then they'd ask the eights bring me information on this because I want to know about it. Yeah. But it's very remarkable, because most of the things they had seen were just spring or shows or things like that, because

J

Jimmy Carper 27:26

they know if there are 60, transgenders actually going to Austin, how many more

V

Vanessa Edwards 27:34

rides and we drove home the point that yes, there are many more that did not make it and would not make it to something like because of the fact that they are not going to publicly out the sides. There's very, very serious ramifications

the sides. There's very, very serious ramifications,

J Jimmy Carper 27:50

and especially if there's marriage and children involved. Definitely, exactly.

V Vanessa Edwards 27:54

You're bringing a lot of other people into this besides just the individual.

J Jimmy Carper 27:58

Devin was gonna say something a lot of

♂ 28:00

those people who weren't there, weren't there. Because of the very issues that you were there to bring up. Yeah, that's right. Oh, yeah. It's like, there, you have to take a step. And you break the ice on one issue and then and bring more people in to help break the ice on the on the next day. Secondly,

♂ 28:21

and misconception on issues like family and children and things like that. And as

♂ 28:27

I hear you all relate to your stories of being there with the with the representatives. And as Deseret said they had no clue what they had never seen a transgendered or crossdresser person other than the shows on TV, and whose fault is that, but

♂ 28:52

it's ours. That's our fault. It gets back to her saying about tape, anything

♂ 28:55

that Deseret. And Jessica did and Vanessa and everyone that went to the lobby day,

J Jimmy Carper 29:02

it's Joffe to be the first person to stand up and say, This is what I am.

 **Vanessa Edwards 29:07**

Well, it's difficult to challenge yourself to

 29:09

first step to, to put a transgendered person in front of all of our state. But we're seeing some firsthand first hitting

 29:18

try. And I'll tell you the hardest thing was the very first person I talked to that. After that, it was really easy, actually. Because they were they would sit and they would listen. And so my perception was, I'm going to go in there, they're going to not listen, they're not going to pay attention. They're going to probably laugh in my face. That's the worst case scenario, right? And that's what we all think first. So what happened was just the opposite. They started listening and saying, Gosh, I never knew that. I had no idea. And they'd start asking questions, and they'd ask some great questions like, What about family? What about kids? What about this? And I mean, I have to Kids and my kids are great. They're probably my biggest support, as well. And they're, you know, they're wonderful. They're small, and they ask lots of questions. And they're very involved in the community also. In fact, if we have an event in my house, and they're not invited, they get mad.

 **Vanessa Edwards 30:16**

I would have loved to have seen you bring the kids up to Austin to me, I would love to have them see firsthand the interaction between you and

 **Jimmy Carper 30:23**

we have, right? That's right. Now, that

 **Vanessa Edwards 30:27**

makes a statement there and not say that this, this is something devoid of family values or of any moral basis, we have a lot of the same concerns, basically, a lot of the same lifestyle that they do, with the one exception being, I guess, the outward appearance, so they only did for birth gender,

 30:49

the only difference is that, and I have children also, and it's a very serious issue. For me some of the things we were talking about up there, I could lose ever being able to see my children.

30:59

Yes, yes. And it's typical, simply because you have this perception that as one of the first questions, I think everybody asked me when I came out, oh, my gosh, what about your children? How do they feel about this? And actually, my kids and my ex are real supportive of me. They understand what it's about. But again, it's education, and communication, letting them know that this is what it's about. It's not about you. It's not about them. Talk to my kids had bigger problem with my ex not getting divorced than they ever did with me being transgender. Wow. That was their big thing. How come you don't live in our house anymore? And really was for their safety? More than anything else?

v Vanessa Edwards 31:42

The kids actually handled it a lot better than the adults

31:45

definitely, definitely. My parents are still having big issues with that. I mean, they're not accepting it. Even though they know the Post story.

J Jimmy Carper 31:54

Well, Sarah has said this, and it's a double coming out. And because if you're gay, lesbian, thereby, and you come out to your parents, that's one thing. But if you're transgendered, then the It's okay. My parent is losing a son, or a daughter, depending,

32:17

in my case, my mother's first mouth for that very same thing. My mom said, why can you just be gay? Well, gee, Mom, I don't remember standing in line thing. Pick Me. up degrees.

J Jimmy Carper 32:32

That's right. That's right. Because they're reading for a loss.

32:35

Yeah. And what I try to explain is you did not have a relationship with me as a male, because it wasn't me. It was an act that I put on,

J

Jimmy Carper 32:44

please, that takes a very long time for that to sink in. Yeah, you have to allow them that time,

♂

32:51

right. That's the patience. It took us a lot of years to get comfortable with ourself, we can expect that from them overnight. And so it's still disheartening, and no matter what, but you have to be able to say yes, it is disheartening. And maybe someday, that would get it. But in the meantime, I'm just going to give them more information and let them know,

J

Jimmy Carper 33:08

the lobbying is very, very important to curb or change any laws that are going to take your children away from you.

♂

33:18

I mean, surviving without my kids would not be an option for

♂

33:21

me, either. And I've got a teenage son. Yes. And that's a whole nother issue. I was young.

♂

33:34

She was three.

♂

33:38

But my son is just beginning to have issues with this. And guess where the issues came from? Not from his friend, not from anyone, but their parents of his friends. I don't want you associating with that person. Because their quote unquote, father is that way.

J

Jimmy Carper 34:01

Like this has anything to do with a kid.

34:04

There's a technical term that they use, it's called we got the cooties.

V Vanessa Edwards 34:09

sounds exactly like the Alex McClendon story in Georgia. The kids had no problem with it. But the parents do have

J Jimmy Carper 34:15

no sense at all. I mean, that's, that's thinking that you expect from people 100 years ago.

34:22

That's it. And that's why out of my neighborhood, because my mom as a protection device for my children, so that people aren't gonna go, oh, my gosh, that's the kids that our Father was once a guy and now it's a girl. Unfortunately, they're cruel people. It's not so much the kids to kids, but the parents that teach the children that, don't play with that, because you know, that was once Rena

34:48

was taking everybody's children up until two three years ago to Six Flags and the whole neighborhood had their problem with that. Suddenly, when the gender issue raised its ugly head, all of a sudden you're you're not I've got Cody fryer,

35:01

and if you're the the sensitive male, that's okay. And then all of a sudden they realize why that sensitivity is there. Exactly. Your

35:09

hair gets longer and oh, well, we know where that goes. I should get dressed like a girl.

J Jimmy Carper 35:16

We've also talked about that in relationship to the divorce. Yes, you know, the wife marry the woman married you because you're

35:27

a sensitive male. And yeah,

J

Jimmy Carper 35:30

you haven't changed in any other way. I mean, and she liked that. And so, I don't know, that's a

♀

35:35

key point. I think it's really important to say gender is between the ears. Sex is between the lines. There you go.

V

Vanessa Edwards 35:45

But actually, not all marriages split up like that, though. Do stay to gas. That was a very good point in the lobbying. I brought up with a very pointed laser. Yes, there is same sex marriage I already told you love that was in the eyes flutter in the back.

♀

36:09

Roll back and started spinning.

♀

36:15

A lot of disguise reasons. I mean, things like you do it? Because that's what's socially acceptable. You get married, you have kids. And also we use it as a cure. Yeah. It's a huge care.

♀

36:27

This one will cure me. Yeah,

♀

36:30

if I get married, then I can be a guy. Right? You know, kids, then I can be a guy.

J

Jimmy Carper 36:35

I have heard of countless transgendered folks who have been moraines. Yes. Trying to convince

♀

36:48

you see pictures where people have beards and pull, you know, everything they could to prove that male ego part. It just, it's not their brain? Yeah.

36:59

If I can be a good enough guy, then it'll make up for these feminine girls. Girl part by being a really good guy. Yeah, first of

37:12

all, it took days. Yeah. And you don't want people to know that, you know? Oh, my God. I'm different than they are. Okay. How

Jimmy Carper 37:20

many times have people here done purging with? Are you talking about the sea. And by purging I mean, either getting rid of all of the female,

37:39

very thrown away, thrown it out and gone out the next morning and dug it back out of the clothes too much for the laundromat. Now,

Jimmy Carper 37:51

what did it take to look in the mirror and say, This is what I really am.

37:57

It took about 40 years.

Jimmy Carper 38:02

Any issue though that divorce that said, Okay, I'm over it. This is I'm gonna be who I want to

38:09

be. Yeah, my father passed away. It was a real, it was real or shattering issue for me, finally, brought home the fact Hey, we're all mortal. And we're all here on borrowed time, because my father was an icon to me. I mean, this person was as strong as a rock, nothing can hurt him. And all of a sudden, he was gone.

38:29

And it's remarkable. And now with myself, it was a situation of I thought, you know, not being acceptable or not doing any of that. And what I created was this my own wall. And it just got to a point so big that I was didn't have a relationship anyway, with anybody. And I started looking at it, what did I want my children to know? And instead of running away from things, I wanted to teach them to stand up for what you believe that? Absolutely. And one of the reasons I get involved in as much as I do is, I always believe that they're going to learn by example, if I can stand up and make a difference than I want them to do the same thing. You're right. Amen.

39:09

During the break there disarray, and now we're talking to about the about what you mentioned, of how many times if you are when did you look in the mirror and say, Okay, this is me. Yeah, you, all of us have done that from the beginning. It's looking in the mirror and recognizing yourself is not the issue. It's hearing the words out loud. Hearing the words, the spoken words that apply to us that are the traumatic event. And one of the things that we were discussing was counseling and therapy. And you can take therapy and counseling till you die. And you will never progress until you associate and socialize with other people like yourself. You've got these groups are

39:56

so very important. You've got to live

V Vanessa Edwards 39:59

the life exactly the healthiest the healthiest thing that anyone can do is to be true to their own self. You admit it to yourself first and once you've gotten there, the next steps come naturally.

40:13

The truth shall set you free. No matter which exit you take or entrance you take on on desert raise highway

40:21

onward, a small matter

40:25

and to you

40:29

Well, you've got to get on the road in order to get

J Jimmy Carper 40:34
