07:53

Which is kind of rude in itself. I'm sorry. But then it's you know. it's Burroughs. What do you

J

Jimmy Carper 08:01

think? And you're listening to it on after hours square radio with attitude on KPFT Houston and ke O 's College Station. And Jimmy Carper and John Bennett at CES here rainbow D cloud. Peter had to leave you, John, you were talking about some Supreme Court thing went on? And I didn't hear it. You know, I was watching the news. Monday. Yeah. And the Supreme Court had jet they've just made the decision are guests that people suffering with HIV. Okay. been tested HIV positive, HIV or people with AIDS. Anyone who has been tested HIV? Wow. Yeah, is now protected under the Disability Act.

O

08:54

Wow. Wow. I'm trying to think of what all that is gonna mean.

J

Jimmy Carper 08:59

Basically, what, you know, what I got on the news. It protects anyone who has been tested HIV positive, whether they show symptoms or not, is they cannot be discriminated against living conditions where they want to live, work. dentists, doctors, any kind of health and so on. In other words, if you're HIV positive, whether you are symptomatic or not, if you go to a doctor whether it be like a doctor for carpal tunnel syndrome, yeah. Or a dentist. They cannot tell you. They, they can't treat you

O

09:46

ah, they cannot rely on their own prejudiced. Oh, they cannot rely on their own opinion about AIDS. They have to follow their prescriptions for advice for soldiers that that are accepted overall, in medicine,

J

Jimmy Carper 10:05

basically, what the what the court said was is we have come up with precautions for about 10 years, there are precautions that should take Yes. So that you cannot be infected. Just because you don't want to have to deal with it doesn't mean you can say no, you know, 10 years ago, or more, I had to have a hernia operation. And I knew I was HIV positive. And I talked to my doctor, and he had recommended this particular surgeon and you know, it was all set up and I said, Well, you know, I'm HIV positive, isn't that going to make a difference? He said, Of course not. We all have universal precautions these days, it doesn't matter if you're HIV positive or not. Do you know what the biggest reason that the AGO do? You know, the biggest reason a lot of doctors or surgeons will use is what they will tell you is, I cannot do this without your doctor's, your general doctors. Say so that you are okay with it. And in most cases, your doctor I mean. There's no reason why you can't go and have your teeth worked. All right. Even if you've got three T cells.

11:35

Well, you know, you know, there are other diseases that people have, they're a hell of a lot easier to catch. Yeah. Then aids

11:45

to hepatitis hepatitis is the big one is the big

Jimmy Carper 11:49

one. I mean, you can you can go into a restaurant that's not cleaning their dishes, right. And again, you got it.

11:56

You know, you

11:57

can't get blood for years I ever, ever i years ago, and now like, you know, what, I used to get gallons of blood. Now when you get that it's up, we don't want it.

12:08

And and I've never heard of a doctor saying, Oh, I can't treat you because you've had hepatitis. So what's the deal with AIDS? I mean, I'm not going to screw my doctor in the butt. Okay.

12:22

Let's see. Yes. Very nice. So, it, you know, if I'm not going to have sex with him, and what's the big deal? You know, when I was watching the news, and they were talking about

12:34

the pinprick thing, but that's what the precautions are all about.

Jimmy Carper 12:37

When I was watching the news, and they were explaining all this, they, they had a dentist that showed you know what they went through as far as precaution goes. with the gloves. winina

Showed you know what they went through as far as protection goes, with the gloves, wiping down their entire work area. The mask, they did that before? There are doctors that don't do it.

12:56

Well, I wouldn't go to one of those.

Jimmy Carper 13:00

I mean, if their safety, what do they care about mine?

13:04

Yeah. And you know, he's gonna stick his fingers in my mouth, and what am I gonna get from?

Jimmy Carper 13:08

Exactly, I'm HIV positive. What are you gonna give me?

13:11

Exactly? That's the thing. If you're HIV positive, you're more likely to get something from your doctor, then you're then you're gonna give Yes, yes, because we are we who are HIV positive, are much more susceptible to things like that.

Jimmy Carper 13:28

We catch things even if they

13:30

got it, you got it. Now, you know, with protease inhibitors, we're doing well, I was just talking to John that I've been on protease inhibitors for two years and two months, the same protease inhibitor, and still I'm undetectable, and T cells are in the four hundreds, which makes me and because yeah, before I got on out there, my T cells were in the 60s, makes me a guy who used to have AIDS, and now I'm just HIV, HIV positive again, which is kind of a nice way to feel. But you know, this is not the cure all.

Jimmy Carper 14:04

You know, actually, I had a group of people. When I was out of town, I asked me if there was one thing that I could wish for. As far as dealing with AIDS, yeah. What would it be? As far as do I want to cure as it actually, you know, I would be happy if they came up with a way that no one

I want to cure as it actually, you know, I would be happy if they came up with a way that no one else would get it you. You bet you bet. Like the vaccine, right? Yes,

14:38

I study on the vaccine. I've

Jimmy Carper 14:39

heard it but yeah, I would. I would jump up and down. Even if I died tomorrow, I would jump up and down. If I knew no one else would get this.

14:50

I heard a report yesterday that worldwide 21 million people are infected worldwide. 21 million. In people, million, and it's growing alarmingly in Third World World countries.

15:10

deaths will be much quicker than they are. Yeah. Because they don't have the money. The money is not they have the medicines. The money is just not there to treat the people in the third world country. Yeah, I know.

Jimmy Carper 15:30

What else is going on?

15:30

Let's get back to the prime. Yes, I

15:32

think so. Yeah. Well, we started out talking about the Supreme Court ruling about disabilities. And I really don't know what that's going to mean, in the future. To tell you the truth.

Jimmy Carper 15:45

He actually lady came on after they talked about the ruling and said, This doesn't mean that HIV people should get special treatment. It just means they should get equal treatment. Yeah, yeah. And and what does it mean to be disabled? I've known I was HIV positive since 1987. Okay. And here lately, you know, the, it's taken its toll. My energy is a lot less than it used to

be. And I, you know, I don't think I could work an eight hour day, five days a week anymore. From what I got from the, the interview that they did, and what they talked about was, is that in most, let's say, if you go in and you're your disability as you are a little death, you can't hear everything. Okay? They're, what they're trying to say is that you should not be judged on what people think about you can't do because there are people that are HIV positive, who aren't showing symptoms, who can work an eight hour day, you bet.

16:57

You're one of them.

J Jimmy Carper 17:01

By try, but there are people that who are not symptomatic who can do a job, and they should not be judged. Because of their because of what they

17:13

have. Oh, where is JJ with his group April courier? You know, I that's the other thing that I find remarkable is I know, JJ has this group going called a book where which is mostly on the internet, but it's to get disabled people out into the public and into society. And I have noticed in the past few months, a whole lot more folks in wheelchairs going down the streets of

17:39

Montrose Warning, warning warning, and I think it's a wonderful warning.

17:43

WARNING WARNING

17:44

WARNING. What Yes, I saw JJ on Tuesday. Yes, I said to jj, jj, we were talking about you last week. He says I know. I know. Everybody called me. And they woke me up and by their 15th call. I was totally awake. around and he is just I think it was me that you

J Jimmy Carper 18:07

just tell him to wake up. Tell him not to go to sleep.

18:10

That's right. That's right. People need to talk with him is because it is wonderful. Okay, what have we got here?

18:21

I miss something. Oh, my goodness. How could I do this? Well, next Saturday is July 4. Yes, there's going to be a candlelight vigil commemorating two Patrol members who have passed away during the year. This is the seventh anniversary also of Paul Broussard's murder, yes. brutal murder. And then in the Montrose and actually

18:51

because of that brutal murder Q patrol was born.

Jimmy Carper 18:54

Yes. Yeah. I remember when they did the chalk outline. Yeah. Was it was a Q patrol that did the chalk out

19:00

no discrimination. And Q patrol became a branch of it came out and of course grant coordination folded but Q patrol is still around.

19:13

Oh no. Actually coordination is still there. There is a telephone number and if you call that number, you actually get somebody who answers wow and his name is Mike

19:23

hey Mike.

Jimmy Carper 19:24

And you know the number I was talking to

19:28

he's been here on the radio that my that my Oh yeah. hear on the radio. Okay.

19:33

Yeah. So yes, I remember that. I didn't know that.

19:37

Yeah. So he was he was with the we we incarnation of coordination okay. And so he still has that number and it still rings in his house. Okay, and every once in a while people will call him good,

Jimmy Carper 19:50

good. Oh, they should call him more often.

19:52

But anyway, this visual where's it going to be and well,

19:54

it's going to start at precise coin Okay, which is on the corner of Montrose and restroom

20:02

it's in the in the parking lot of that one storey building that's right there on the mattress.

20:07

And so that's where we're going to start. And we're going to have a look at 11pm next July 4. Oh, on July 4. Yes, that's the anniversary. Wow. So we're gonna have a candlelight vigil vigil. Yeah. I'm having problems. That affects my mouth. That's called foot. See, and then we're gonna

Jimmy Carper 20:30

walk out, take him out.

20:33

Then we're gonna walk down Montrose Boulevard. Cut over on Hyde Park. Go down grant and

to Pacific street. Oh, yes.

20:44

So it's got to the bars and into the streets. Yes,

20:48

that's what I seen in commemoration,

20:50

is it? Yeah, cuz it's a commemoration

20:53

of all victims of hate crime. And

20:56

many Paul Broussard, and everyone else should never be forgotten. Yes.

21:01

To let you know what the numbers are. In the last year and a half there have been 29 people who were killed in Texas because of sexual orientation. I mean, this is this hasn't gone away. No. And it's not going away. We got to work on it. You know,

J Jimmy Carper 21:23

what a lot of people have to realize is it doesn't matter what your sexual orientation is. Hate crimes can happen to anyone. Sure. Just like the guy who was dragged Jasper Jasper, yes. You know, if you if you're nipped in the bud regardless of you know, what the hate crime is about, because it's a hate crime. If you if you take care of it from the, you know, from the beginning, and deal with it, whether it's because you're gay, whether it's because you're black, whether it's because you're Hispanic, regardless of what it's about.

22:00

I never understood hating our whole group of people, just because they were different. Because I always thought, wow, here's a whole group of different people. This is neat. Let me find out how they live. And maybe I can take something from their lifestyle and apply it to mine.

J

Jimmy Carper 22:17

I've always said, you know, this is a group of weird people. Well,

o

22:21

I should just be there forever. Yeah.

J

Jimmy Carper 22:24

Because, hey, if they're really weird, I'll be kind of normal.

o

22:29

I think it'd be interesting to find out what's going to be on the front page of the Chronicle tomorrow. Will it be what happened in Jasper or will it be what happened in Montrose? In Jasper? Yeah, there was one there kk k there, kk k and the Panthers,

J

Jimmy Carper 22:45

the new Panthers, that will be that

o

22:49

who's going to make the front cover?

J

Jimmy Carper 22:52

Split? they'll both be there.

o

22:56

And how much press coverage? One got and what I mean, we didn't have hate in our parade. We did not have hate. No, not at all. I want to see who gets the coverage. Remember? 1990? Wasn't 85 When they came down Montrose? Yes. And Mary's play time in during that show Gay Pride Month?

J

Jimmy Carper 23:22

Yes, we do. You do. You do realize that hate is not what you put into it. It's what people get

... we do. You do. You do realize that hate is not what you put into it. It's what people get from it. So even if I mean, with our parade, which, from what I've heard, and what I know about gay, Houstonians, our parade was great. But oh, yeah. The hate that will come from it is the people who don't

23:50

understand and they have the rights to march and everything just like we do. But I won't say

J Jimmy Carper 23:56

that I don't understand why they have their right to hate.

23:59

I No, I don't

24:00

either. I really don't understand that. But

J Jimmy Carper 24:03

because there are lots of things I don't agree with. But that gives me no, right. No one number one I was brought up believing that hate number one is a very, very strong feeling. And for anyone to cause you to have that feeling. They're taking control of how you feel they're making you feel a certain way. And and I've been dancing him and I don't want to give that type of control away.

24:40

And I agree with you on it, because it's just like I don't know. I'm lost for words right now. You know how you get you get so uptight. Yeah. Watch this stuff on TV. right in your face. You know.

24:57

One thing we have to remember is we probably We cannot stop hate, but we can stop hate the actions that come out of hate. And that are not permitted in this society. And we have to remember that it's not. It's not, it's not permissible to hurt anyone to force violence on anyone. And as long as we have violence, and think it's okay for violence on a small group, almost, it's so easy to add one more person to that group, and then one more person to that. And one more until we're all it's permissible to do hate to hate crimes to all of us. Well, it's so we have

to stop it and have to get to a it's so easy. It's so hard to go from no violence to violence. But it's very easy to say, Okay, if violence is okay, than adding one more person, adding one more little group is okay. And that's what we've got to stop that, saying that it is possible that there are people out there who deserve it. No one deserves violence. No one deserves that kind of treat.

26:14

No. And on the other side of the coin, there's another coin we asked for the other side of the coin is love. And I want to say that last year and this year, well, last year, because I was the grand marshal, I wanted to go to man, I wanted to go to as many gay pride events as possible. And one I went to I was a little leery of, but I was extremely pleasantly surprised. It was a gospel chorus at Community Gospel Church. And it is it was like, this year, I'll tell you about this year, the five different churches got together to put together a program of gospel music, church music. Now, I'm not a religious person. I'm a spiritual person, but not a religious person. But the music was so joyful. It was just a great experience. And me these people love each other. They love their God and I will go every

J Jimmy Carper 27:21

year. Is that good? If you're when you listen to the music, they love you. Yes,

27:26

yes. And so I want to play something by Marsha Stevens who is a lesbian Christian singer. And she has an album called no matter what way and I want to play the title cut and this is for community Gospel Church and MCC and, and everybody else that was involved in that. Thank you for doing it and do it more. You're hearing it on after hours queer radio with attitude on KPFT Houston and ke O 's College Station Marcia Stevens with no matter what way a Christian lesbian singer, and I like

J Jimmy Carper 28:12

to play You go girl, I like that song.

28:17

I like that picture of her with her lover and her dog.

J Jimmy Carper 28:21

Let me see.

28:26

Oh, I got that from our music director. And I'd never heard of her. But it's it's great music and I'll be playing more of

J Jimmy Carper 28:37

it. You know, tomorrow night PS is doing a promo. Yes. For a DJ, I believe is out of New York. He did a pride CD. And they're giving away cassettes and CDs at PS tomorrow.

28:55

Can you save one for me?

J Jimmy Carper 28:56

I'll try. Okay. The music is great. Because

28:59

you know how I am. Isaac

J Jimmy Carper 29:01

is great. Yeah. But soundwaves is doing it in conjunction with Bs. No,

29:08

no kidding.

29:09

They were in the parade. Sound waves Yeah, for them.

29:12

I love that place. Yeah, I get a lot of music there.

29:16

I tell them to give me a tropical sound wav

from them to give me a tropical sound way.

J Jimmy Carper 29:20

Why is because they carry queer artists. Then these are artists that very few people have heard or heard from. And usually when I'm looking for these artists, I find it it soundwaves more than anyone else anywhere else. So it's where I take my business and that is not a commercial at all. Not at all. No, no, no. But I find a lot of music there. So it's not and you have to of course you have to search you have to know what you're looking for because there's not no section that says queer artists here. You know there should be I know

⌚ 29:59

how So now,

⌚ 30:01

I like to see queer with really good picture. So yes, I'd like to see queer artists make Gay Pride cards like for next year. Yeah be nice. Yeah. sent me a gay pride card. I said it's like Christmas. That's what I'm trying to start that I think we should do it right good. Friday cards, Friday cards where and I sent one to New Orleans to my friends in New Orleans. A bar over there. And it's it's a

J Jimmy Carper 30:29

you have to tell your story. Yeah, please. Guy work with his mother's best friend. They have a cat. Okay. The cats. 23 years old. Wow. 23. Cats not doing well.

⌚ 30:47

What do you expect?

J Jimmy Carper 30:50

Cats not doing well. Cats not doing well. has diarrhea. Can't really walk around that?

⌚ 30:58

Walker? It? It took

J Jimmy Carper 31:01

the mother about a month to talk her son into putting the cat down. Yeah. it's time to put the

the mother about a month to talk her son into putting the cat down. Yeah, it's time to put the cat to sleep.

31:09

23 years. That's

J Jimmy Carper 31:10

a long time.

31:12

Yeah, but I thought you know, 1314 years is

J Jimmy Carper 31:16

canceled live about 2627. Yeah. Anyway, they convinced the son that he should go take his car and have it put to sleep. He takes to the vet. The vet tells him your cat's healthy. Your cat has an infection. No. We can give your cat a shot. Your cat will be fine. Yeah, you decide if you want to have it, you know put to sleep after you know, couple hours or so he decides with his mother that they should save the cat put it to sleep. Well, they when they took the cat to the vet, they the son put made a box. Very very nicely decorated because they thought they were bringing the cat Oh

32:08

to be very

J Jimmy Carper 32:11

when they give this cat the shot of the antibiotic or whatever they gave it. It knocked the cat out. It put the cat to sleep. It didn't kill it just put it to sleep while they put it in this box and they took it home. Yeah. And then, you know they left it there and decided to go get something to eat or shop

32:35

well so there's a slow casket with the cat in it sleeping.

J Jimmy Carper 32:39

And the guy's father comes home, sees the box with the cat mount moving in it takes it out to the backyard and digs a hole to bury it. Luckily, they got home before he before he finished before he really buried it. And totally no cat's alive.

33:04

This is a true story is yes. That's pretty amazing.

33:10

That's pretty cool to see this on Discovery Channel.

33:13

You know, I've still got a couple of more passes for that movie The Opposite of Sex. And it's playing right now at Landmark Greenway theater five Greenway Plaza. The past is valid for any Show Monday through Thursday. you and a guest are invited. So this each pass is for two and I'm gonna throw away the for the first three callers. I'm gonna give them away all three all three. That's it at 526573852 6k PFT and the phones are ringing Nani don't call you won't land. Well, you see big right doesn't know I'm doing this. So somebody needs to really tell him.

J Jimmy Carper 34:01
