SUMMARY KEYWORDS

gay, people, call, church, father, place, women, written, kayak, homosexuality, put, listening, give, feel, told, part, smiley, jeffrey, radio, great

SPEAKERS

Chris Harrison, Bobby, Jimmy Carper

00:00

discussion? Yeah, like excommunicate, like twice?

00:04

Well, that's, that's a long stretch, I'm gonna get into that, I don't know,

00:07

I'm just, you know, in, in, in the screener, it's like,

00:10

it's been a very, very big struggle in my life, this, the whole religion thing has actually been the biggest issue with my whole coming out, accepting that I'm, uh, you know, my homosexuality has been a lot of people it has been the biggest issue, you know, for a long time it took me a long time to, you know, reconcile the fact that I could be a Christian and be gay at the same time. Because when you know, when you're when this is drilled in your head, and you're you're taught this, it's it takes a lot to overcome it. And it took a lot for me to, you know, actually accept the fact that I was gay, and that I you know, I had to, you know, find for myself that God still loves me, you know, because all like, all I was taught was God does not, you know, he does not condone homosexuality, and he looks down upon it. And, you know, I just had to find for myself that God is not like that God is a loving God. And, you know, that has what has really helped me overcome colleagues, you tuition.

01:14

Do you feel that way that? I'm sorry, there was something you said in there that it's okay to be

that you felt like it was okay to be God and to be gay and also be Christian? Yes, you can be okay, and be crippling? Do you feel that way? Based upon your experiences? And maybe your feelings about organized religion? Just from a personal standpoint, is it okay to be gay and Christian? Do those two? Do those? Can they connect?

01:45

I definitely think so. In fact,

01:48

it's really eerie to get Tom right there. Tom's a great

01:55

admirer of Tom for his decision to want to dedicate his life to the church, which

02:00

you want to definitely talk about that, that you're you plan on.

02:05

We know, when I was younger, I never went to church and stuff like that. So you know, when I came out, it wasn't as bad but like, you know, there's like, no, like Jeffrey and Woodrow,

02:15

how do you feel about it? Do you think I just seek them out an organized religion will like

02:20

if it was just an accepting one, I would, but I just feel like church now. You know, if your game, you know, you're young, you go to church, and you realize you're gay. It's like, this big struggle. And religion is supposed to be like that. It's supposed to be like this choice thing.

02:37

I think it is changing because the people in our, in our age range, they, our age range is becoming more accepting. And I think, ultimately, if you just give it time, the churches will start to change and they already have it's, it's working really, really slow. But it is happening. And

you know, there's a lot of people aren't in our age range, they go to church, and they don't, they don't have the view that homosexuality is this big sin. If I

03:03

was around when it was like that, I wouldn't have such a big problem with the church, you know? Because it's like that. That's what the danger

03:09

is, is that organized religion is making the organism the group is making gay Christians or gay youth or gay people feel like they're not welcome in something that's supposed to be very loving? Yes, spirit.

03:25

No, that's the biggest struggle and for me, and for Jeffrey also, I mean, really, reconciling your faith and your relationship with God. Why is it that we have to go through this hurdle which man has set up when God has constantly since the very creation of the world, I believe that men, you know, deviated from, from God's plan by disobeying Him. And, you know, we see through the ages to prophets, on and on and on, God is calling His people back to him come back to me, all I want, is to have a relationship with you to be your God for you to be my people. And, you know, finally, he came to us in this very profound way, by belief, becoming a man and, you know, suffering for us in our stead. And that is so difficult for me to, I mean, I don't blame people who don't trust organized religion, period. Because, you know, God has really come after us and his, you know, seek to sell it and done everything he possibly could. And man is coming and saying, No, exactly. That is exactly what's happening. And that is what is absolutely sickening from within. And, you know, it's just I don't know,

04:43

you know, my whole basis for my Christian faith is that you know, John 3:16, For God so loved the world that he that he gave his only begotten Son that whosoever believes in Him shall not die but have everlasting life. And that is the basis for my whole life. Christian faith. And in that verse, it didn't say, you know, only if you're a male or you know, if you're not gay, it said, anyone, no matter if you're gay, doesn't matter what race you are, doesn't matter what your gender is, none of that matters. And people have just like Tom said, it's man that has made this an issue. And that's where the problem is,

05:24

and lead to when we have trust issues with the church. We cannot look it at, you know, man's perception of God, but we can only look at God, through His Word, we can see the compassion and love of Jesus Christ. And we can look at that and say, That is God we can look at, you know, compassion and love, which we can never feel as humans. You know, we can look at

compassion and love that, you know, Christ had for all and we should apply that to our lives. And that's the same way that he set up his church, which is has clearly strayed from what he would have the church doing. But

C

Chris Harrison 06:00

so you also have another problem. One of the things fortunately with this, I we've got Internet, and I was looking up. God Hates Fags, because I figured that would give me the best. The best one, I've never seen it. Biblical readings. Yeah, he's talking about. And one of the things you mentioned in here is First Corinthians, chapter six, verse nine through 11. And so I did a search on that to find those readings. And one version, which has the, the King James Version. It says on a chapter nine, Know ye not that our unrighteous shall not inherit the kingdom of God, Be not deceived, neither fornicators, nor adulterers, nor nor adulterers, nor effeminate, nor abusers of themselves with mankind. Now, that's the standard, the King James Version, well, but if you go to the New American Standard Bible, do you know that the unrighteous will not inherit the kingdom of God, do not be deceived, neither fornicators, nor adulterers, nor adulterers, nor effeminate, nor homosexuals. The issue

o

07:12

with that is, you need to you need to go to the original Greek, because the New Testament was originally written in Greek, and you need to go back and you need to see what it specifically said. Because when you have all these translations, English into all these other languages, things get misinterpreted. And that's what's going on with this. And

o

07:35

one thing, which is very disturbing the Lutheran Church Missouri Synod in their magazine called The Lutheran witness, they were talking about, you know, homosexuality, they said, Well, you know, even if Scripture doesn't condemn it, even if God says, or, you know, not if God says, okay, but even if, you know, you can't find scriptural proof, it goes against man's or no, no God's plan for marriage and relationships, and so on and so forth. My father, even take logic and apply that to, you know, how how the Bible should be interpreted? Well, if

C

Chris Harrison 08:11

that's the case, then you know, very strange that my grandmother who is 80, something years old, was just married, remarried, in the United Methodist Church, because I'm pretty sure 80 years old, there's no chance of procreation. Yeah.

o

08:32

Yeah, it's very much double standard, that that

C

Chris Harrison 08:35

sort of thing. And you know,

♂

08:37

the protein, there's people that can't have kids, you know, yeah, a woman's and, you know, and it's just one of the Madison fertile. So should they not be married either, because they can't have kids. You

♂

08:47

know, with all of that. I'm not as familiar with that. Because in the nondenominational churches, the fundamentalist churches, they don't stress all that. It's just, you got to be in a straight relationship. And that's the big deal and make sure you don't have sex until you're married. Oh, really? Well, that's, you know, that's the whole thing. So my

♂

09:04

dad was like, Well, you can't procreate and you can't have kids. So there's no point well, that's not

♂

09:10

why you wanted to you can procreate. It's just you don't have the feelings for women, and I'm not

♂

09:16

having real sex because I can't have there's not a possibility of having kids.

♂

09:22

What is the point of a relationship, you know, the point of relationship is to uphold to nurture you know, you come home at the end of a horrible day. And you know, there is some you're your wife, there is your husband, there to greet you, you know, and and that's, that's wonderful. You know, you can have pets that do that, but it's not the same thing. And you know, to say that, I know when I actually kissed my first guy, it came very naturally. That was what my instincts were for. Yeah, like,

♂

09:55

I guess.

09:57

Exactly. My instinct for It's guys. And that is the only way that I can get that, you know, at the end of the day Oh, hey, how you doing, you know, and be uplifted by that that is the point of a relationship. It's not to come home and be like, Oh my gosh, here's my wife, you know? Kids, you know, I mean, that's just, it's just a matter of instinct

10:22

now, but I will say that too, because I kissed a girl first before I kissed a boy and I think kissing a girl it was yeah, not Yeah. Is whore first. Like anything to start right. And then the first time I kissed guys like wow, you know,

10:35

that's that's an interesting thing. You know, as Brandon said, This is so right. But at the same time, I felt this is so right. This is what I need to do. This is this is it. But at the same time I felt what the hell am I doing? That's where I'm going. I'm going to hell. down the slippery slope straight to hell. And you know, I just I'm serious. I thought that in fact, I thought that my first boyfriend was the devil.

11:01

I assure you.

11:04

He's okay. I guess you would

Chris Harrison 11:06

call him the devil.

11:10

comes afterwards afterward. Yeah, well, no, no. Even came to hatch. I was very clear. I was afraid. I was like, Well, you know, what, what am I doing here? You know, they're just, you know, and I it's, it's amazing. What's what happens. You know,

11:25

I just realized something. I want to point this out for our listeners. The two big PFLAG hatch scholarship winners are right here in this room. Both got \$10,000 Each scholarships. Congrats. That's insane demand. Calling you weird on the radio, I'm in college. \$10,000 Each scholarships from college,

11:46

I cried. That's why she got

11:49

to know I didn't know that I will be applying next year. Maybe also I wanted to point

11:53

out thank Jesus when he won.

11:57

I wanted to point out that there was another person and the P flags. He got a scholarship and his father was actually a Baptist minister. That's right. And talking about that. And he lived in Waco. He lived in Waco. And he was I actually had the opportunity to talk for him for a little bit and about his situation. It was, you know, it was extremely interesting. You know, I just can't imagine you know, being gay and your father being a Baptist minister of all things God,

12:25

hey, what was that guy's name that came out his father and his father, like there's protests against gay people all the time philippson? Yeah, that's the one I was sorry. That was That's great. I wish I was focused on Sunday. You

12:37

know, what didn't do a touched me a lot at that PFLAG catch scholarship meeting or awards banquet, was how many of those youth that got awards in big dollar amount towards their families or their parents didn't go to share that moment? Because it was a gay scholarship, or it was given to gay youth. I that really that? That really affected me, you know,

13:02

the church? You don't wait, right? No, but he would have it you know? Yeah. Because he went to the film there. He was like, you borrow money good. Basically, his dad come on

 Chris Harrison 13:14

for \$10,000 I think my father would show up. Yeah, no student loans great.

 13:20

But he did not show up because it was a gay.

 13:22

Yeah. Her dad's been to hatch before and all he shows up. You know,

 13:27

there were many people that

 13:31

is he listening?

 13:34

I know Tom. Tom situation was like the, well my

 13:38

mom didn't come in when I you know, I don't want to sound like a martyr or whatever. Because she would have come and I think she can't maybe kind of

 13:44

Why did your mom say goes to the same church? She got excommunicated for Yeah, well, that's

 13:48

a big deal. Now. I'm really pissed off about this. But all of a sudden it maybe if there's time, but um I forgot what I was going to say. We're talking about your mom not sure. My mother. Yeah. I mean, I don't want to sound like a martyr because I know she'd being reasonable. I would have come or whatever. But on. You know, she Yes, she is listening. But she, I don't know. I know

that when I first came out. I was very afraid to talk with her about my friends from hatch, you know, and I said doesn't make you any trouble. And finally, when did you just like yeah, it makes me very uncomfortable. It's a scary experience.

14:24

My favorite one was going to Tom's house after prom and being introduced as his girlfriend.

14:32

No, I like her. We came in from kayaking today. And she you're like, Yeah, pinned up there. Again. I don't understand why.

14:37

No, no. I actually asked some of my friends to listen. One of whom is Ben. Hi, Ben. And this. Jeffrey Andro with Siamese Yeah. But yes, I'm gay.

14:57

Is a great story behind me goes time My name is Jeffrey. We literally went

15:02

afraid to tell Ben I was gay because he's about as conservative as they come, which is disgusting.

15:09

Cheney stickers

15:13

he doesn't know that though, because I wasn't well Tom told me that yes, I I was recently watching them in Macau, so no

15:20

but his his friend must be like totally oblivious because Tom has a gay flag in his room like the rainbow flag. Yeah, well, you

15:26

know, people hate to assume the worst and the Seabrook Clearlake areas.

15:33

Getting there's a whole getting back to the whole thing with dealing with parents. I remember when I first accepted, I was gay. My original plan was not to tell my father until I graduated from college, to that didn't work out, he he found out it's actually a long story. And it was, you know, before before he found out, I had these visions that my dad would find out that I was gay, and he would drag me to the church and have all the preachers and everybody in the church lay their hands on the and cast the devil out of me and rebuke me. I was, seriously. I mean, this is the type of stuff they do in my church. And I just, I was certain that that that would be what would happen to me. Now, that hasn't happened. And I think a lot of the a lot of the reason for that is because my dad is very embarrassed about the whole gay issue himself. But I know for a lot of people, that is a very real situation, so that they have

16:35

like, places where you can go to like, be saved. They

16:38

don't they encourage family members not to talk to gay youth. I, I had heard that there's some religious organizations that do that. Well,

16:48

I know for the Roman Catholic Church, it's not like that. They're, of course not supportive of the whole gay thing. But they do. They do teach that parents should be they should love their children. Oh, that's good. My church, they teach that too. But it is not demonstrated. It goes back to the whole you know, exactly where Yeah, exactly. which

17:11

no one can love you and hate everything you're about.

17:15

My dad thinks like, it's his responsibility to try to change me. That's how my dad because there's something in the Bible that says, As long as your children are under under your house, you like responsible for them, so you're responsible to try to raise them. That's exactly how my

dad is. So my dad's like, that he's like, Well, as long as you're under here, I'm gonna do my best to try to change your mind. Because I don't want you to live a life of sin,

17:38

you know, but that's the biggest thing. You know, homosexuality, your sexuality period is not just, you know, a small thing. It's not like, you know, I like pizza. It's not true. It is it's so much more. I know, my brother

17:57

my brother was very, you know, well, gee, you know, and by them telling you, you know, the church telling you well, because you're homosexual. We can't be a member. It's so much more than just, you know, because you're left handed. I can't have you but my brother was very, you know, oh, my gosh, you're gay. You know, you wear those tight pants, which I'm wearing right now. Books, you read those books? I can't Yeah. And I said, you know, James, how much does your sexuality affect everything you do? In fact, I found a hustle on the floor of his bedroom today. I thought we just

18:26

goes away so nasty. And Tom, he wears his pants up to his belly button.

18:32

Yes, they're comfortable there. So, but the thing is, it's so much more than just, you know, like, it's you. It is your very essence, who you are. You know, when

Chris Harrison 18:44

I came out to my youngest brother, his first question was, if I was going to be in the Pride Parade.

18:50

My brother's weird. He watches like, true live, I'm gay. And I can't get married with me and stuff like that. I just always felt really uncomfortable. Because there's like, because we were watching this one show about this guy that's gay, but like, he lives his double life. You know, on Friday, he's straight. And then on Saturday, he goes out with his girlfriends, you know? And my brother sits there and watches those movies with me. And I'm just kind of like, with my father, my sister. She doesn't just she doesn't get it because like, we're watching too on food yesterday. She's like, why did this guys dress up like girls?

c

Chris Harrison 19:22

Because they're glamorous.

o

19:25

I told her I go, those are the best people to hang out.

o

19:29

With my father. He believes that somehow down the line, I was changed into being gay. And I have tried to explain. I have tried very hard to explain to him that I had to come to terms with it myself. It wasn't people It wasn't books. That changed me. I had to ultimately accept this for myself. And he doesn't understand that if

o

19:57

it was all about environment. Everything around us is is written it's geared toward is represented as a straight world. Yeah and everyday. And so

o

20:07

if you want to talk about environment and my situation, my parents divorced when I was three years old, and my father actually got custody of me and my younger sister, back in 1989, when I was five years old. And based on the stereotypes that, you know, the absence of a father makes the son to be gay or the absence of a mother and makes the daughter to be gay. If you really want to follow that stereotype, my younger sister should be the one that's gay, and she's actually straight. And I'm the one that turned out gay, even though my father had custody of me and my sister, I hate

o

20:41

those days. I

c

Chris Harrison 20:42

think it just shows that the conservative is what causes homosexuality, and there's

o

20:49

Dr. James Dobson

20:50

there's this. There's this stereotype that like, if your mother's too close to her son, then you know, he'll be gay. You know, my mom used to think that for a long time, it's crap. And but like, you know,

21:01

she wasn't my father. I

21:03

know. I was worried but like I said, parents lived to blame themselves for everything, kids to you know, like,

21:09

he's caught my father is constantly trying to figure out what what he did was a lie embarrassing to blame themselves for everything. And, you know, there's no amount of explaining to him that there was absolutely nothing he did.

21:26

Or he could have done that he

21:27

could have done exactly like today we were having a discussion before I went to Tom cells, we we had all gotten together for kayaking. My father My father had sat me down for one of our hour long conversations about the gay lifestyle and he

21:45

often does he do that with you? Well, he did it yesterday to me right?

21:50

Well, it's becoming more frequent because for the past few years, we've kind of had a Don't Ask Don't Tell and that's too long and those don't work. But it's starting to get to where we can't do that anymore. And I'm starting to become a little more open about it. And every time that I'm a little more open about it like today I said I was gonna go kayaking with my friend Tom and then we get into is like what kind of

22:18

you know, because you know people who are gay kayak naked they only can do with yours not

c Chris Harrison 22:26

even their boyfriends are you gonna be coming? Are you rowing in the front of the kayak or the back of the car? Exactly.

22:30

Well see that actually. We didn't have enough so it's interesting to me and Jeffrey we're on a kayak and he was sitting in the front so that's cool. I

22:40

you know, I was on the kayak with Ben to jump in the straight guy. I don't know that any of us were gay. He was oblivious.

22:46

Well he kind of thought you're a cage

22:52

he didn't think being super clear like

22:57

I thought I was acting pretty those bionic but

23:00

you find the boys

23:02

on the kayak with him okay, like

c

Chris Harrison 23:04

him? I didn't realize that this gang here was gay he's more as if he's oblivious enough to be president the United States

o

23:12

Oh, no, cuz Tom was like go could be yourself. But then I was like, Tom isn't gonna wonder why you're hanging around a bunch of gay people. You know. One

o

23:19

thing I actually told Jeffrey was you could pretend you're European and that can make

o

23:26

you guys yeah, they said whole thing is he cares he British.

o

23:29

You know, I can be one of those gay people that Tom's trying to turn straight.

o

23:33

You can be a metrosexual. You know, one time was said to be someone who's considering the ministry are very religious. And I think one one horrible thing is sort of returning back to the subject is, you know, I used religion to hide behind. And that's something I think a lot of homestays, do.

o

23:51

The national news. Yeah. I've

o

23:53

been on the national news talking against homosexuality. That was a year ago. Oh, my gosh. Wow.

o

23:59

And now you've gotten \$10,000 for being gay.

24:04

It's okay. We all make mistakes. I remember when kids

c Chris Harrison 24:08

doesn't pay. It was against the law. You speak out against homosexuality, then you come out of the claws, you get

24:16

\$10,000. But yeah, it just goes to show how it's drilled into your head. It's just lets us show us journey.

24:24

I remember times when I was going to high school when kids would ask me if I was gay, and I'd say Well, no. And then I would crack off the Bible and say, Well, this is why because the Bible says that and I'm like, gosh, you know,

24:38

because I was like, I'm not gay, and I threw up against the wall and we got a big fight. You know, I

24:44

almost started right. By elementary school because of the fact that I was called that super glue. I hate that word. My sister.

24:55

I really don't like your I don't mind the word faggot because it is something They have used against us. And I don't mind taking that word and taking it and using it for something better. You know, they have used it to mean something horrible. And that's what

c Chris Harrison 25:09

they do with the down what you don't want to do at your church your father drags you to? Do they ever have a little potluck dinners? Yes. There is a dish. It's I forget exactly how it's made. If you check the internet, you'll find it. There is a meal that you can call this create its actual

name is faggot, faggot.

25:32

Did you have a little bit of the faggot today?

c Chris Harrison 25:37

Taking care of dinner, the potluck thing out there, and you bring it in and someone asked what it is. So I brought faggots for a

25:47

walk in the whole deal with my churches. Ultimately, one day, I will be open and honest with them and tell them that I am gay. But right now it's not the time while I'm still a direct employee leave so but one day, I will tell them how I feel about all the false teaching that they indoctrinated me with. So you know, because I don't appreciate it. You know,

26:07

the number one thing is if you're living at home, or if you're in a situation where you can't be open, you can't be out. Because you rely on your parents for tuition or food or shelter. You know that that's that situation? Obviously, you need you need to take care of yourself, exactly. The character needs to do that. And then when you get to where you're on your own and independent then then that rule changes. But the first and foremost thing is to be safe. Yeah. And to get what you get which we need.

c Chris Harrison 26:39

Yeah, if you're out there, and you do need that help and support one great organization to be a part of is find out about that. Right?

26:45

Yes. And you can find out about hacks about it, you find out about hacking on our website, www dot hack us.org. Or you can call us at 713-529-3590. And give us a call and we'll call you back. We won't say like this is hack. You know, it'll probably be someone that says, you know, Hi, my name is Brian, and I'm calling for Person X, you know, and you can always make up a story like, you know, I'm in your math class or something like that, you know, if you want us to use that story, as a cover story for you. So just give us a call. We don't want

27:19

to out you and go to your parents.

27:21

Right. Yeah. So you're trying to create a safe place.

27:23

And believe me, you know, I thought hatch was perhaps the devil. Devil, you know, and Deb is a wonderful, she's the facilitator, wonderful woman, program director, program director program.

27:39

We know you came to convert us,

27:41

I just actually yeah, you guys to join, I

27:43

encourage everybody, if you

27:45

had your case, so much. It was great. I wouldn't. That's where I met all my gay friends.

27:52

Which was actually one of the one of the strongest things when I first started coming out. It was It helped me tremendously. And I would recommend anybody out there that is listening, if you're going through, you know, all these issues that we were talking about, you know, come to hatch. Just to hear stories from other people, it'll, it'll be really great for you.

28:18

My very first contact point, when I came out, like I had not talked to anyone, and I literally just showed up at hatch. And I talked to people and came out a week later because people kept asking me, what's his youth group you're going to because I'd been really vague. And so I

28:33

was like, excuse

28:34

if you want to stay positive.

28:36

I always say it's a good Christian youth group.

28:40

We'll see. When I first came out, my parents didn't want me going anywhere gay. So I'd say my second coin to a youth group. And then later on, I was like, Dad to gay one. Because they're like, what do you learn there?

Chris Harrison 28:53

Okay, well, we're getting here towards the end of our time. Together, it's been a great discussion. You know, I mean, we could do hours and hours on when it comes to religion and working out with our community, but it's especially good to hear it from the youth perspective, who I mean, is, who has been, you know, we've had to live with this and are, in some instances are having to be a part of the religion that's, that's not supporting them and to hear the stories of what's going on out there in real life. And, you know, this wasn't meant to be a slam Fest on the whole organized religion, you know, there. There are organized religions out there that are affirming she was there are affinity groups, dignity for the Catholics.

29:38

Integrity for the Episcopalians? Yeah, there.

Chris Harrison 29:41

There's, most of the major religions have an affinity group that's, you know, has the teachings of the original teachings of what the church is but not the, the homophobia in it. So go into your shout outs there to whoever may be listening

30:00

Oh, hello, Leyla, thank you for not answering the phone.

30:03

As always, both lines are busy. Hey, I'm gonna hop in. Oh, no. Oh, yeah,

30:12

I'm sorry if we gave you the wrong impression, chump.

30:15

Oh yeah, no, no. No, because I

30:19

hustlers and my mother.

30:23

Sure, bro. They're gonna get in trouble for the hustler.

30:25

I hope so. God willing,

30:27

I'm pretty sure. Like well at least he straight so there you go

30:33

great for me we'll put that in Tom I thought it was important it was. Well it was a bunch of lesbians.

30:40

I think it was empowering. They're always waiting for a man to come. Yeah. Well,

30:44

why the shout out I have a shout out to my family and friends and and Jeff, who's in Beaumont, but shot isn't here. Where he should be. And Jeffrey, Jeffrey, Jeffrey, Jeffrey. Yes. Really gay one. Yes. Okay. And also to Drew who's up in Marion, Montana. And well, and of course my mom who brings me here all the time. And

31:06

mom's cool and convinces

31:07

teenagers to vote. I've got a shout out to my friend Jay from South Carolina. is used you know, I

31:16

met Jay Rodriguez. Really? Yeah, he shaved his head. He said look like Oprah. So he shaved it off. Do you get a picture with him? Yeah, and I got his autograph. But I lost it. He's not hot in person. It's all here. Yeah. Did you sell them together from the straight guy, right? The

Chris Harrison 31:34

culture of ultra from wherever there

31:36

is now. I should be on the show.

Chris Harrison 31:40

If you think it looks small on television, he looks smaller in person. He's just like some little to me. He really looks small.

31:47

And it makes you wonder

Chris Harrison 31:50

the platform she was crossed. Of course I want to thank you all for being a part of it here Debbie

31:55

Debbie that had shoot that comment that or that or

31:58

else want to briefly thank everyone for listening and I want to let you know I'm praying for you, you know, in whatever position you're in whatever the church's tone, you know, I'm just, there's people there praying for you that you will you'll get through if it's a difficult time or whatever. But that's it. God bless you.

Chris Harrison 32:14

Well, I tried finding some music that had a little bit of spiritual message in it and little idea and went back to the flirtations. And you know, no matter what you believe in with your organized religion, your faith and all that it's always something internal. So something inside so strong, and we'll be right back yes, the flirtation something inside so strong. You're listening to after hours queer radio with attitude here on listener sponsored commercial free Pacifica radio for the Gulf Coast. KPFT 90.1 FM Houston, 89.5 Galveston, and always check out the World Wide Web KPFT dot O R G on the line. We've got Dean Becker. Are you there? Dean?

33:03

Good evening.

Chris Harrison 33:04

Good evening, Dean. How are you?

33:05

I'm well, I'm Well, I appreciate you bringing me on even at this other

Chris Harrison 33:10

hour. Yeah, we appreciate you holding on that we had a we had a couple of great segments here on earlier we had kind of time shift everything here. But we're glad you could join us. No,

33:20

no. And I just kind of wanted to, if you will draw a little correlation easily understood by everybody. That the same demonization casted gays is also cast that those who use drugs. And that same quote. morality is misused in my opinion as well. in that regard? I think it's a it's an

that same quote, morality is measured in my opinion as well, in that regard. I think it's a... abomination the way some of these Christians act? Yeah, I wanted to say that. We're going to have, I think, a really interesting week on the 420s. I'm going to continue a little bit, had had a discussion, John Walters, our drugs are actually did a radio interview up in Canada. He won't talk to me or much of anybody here in the States. But we'll be taking some quotes from that radio show up there in Canada, the bill, good show, and letting you hear his opinion on this more potent pot. He's been talking about came out on Reuters news services week. He now considers it to be more dangerous, and heroin or cocaine a bigger threat to our society, if you will. And he's, you know, wanting to alert people to the fact that it's two times it's 10 times it's 30 times stronger than ever before. And of course, you know, they don't have any data to support their contentions because most studies show that as a general rule, yes, it has gone up to some degree or another but the old samples they have worn stored properly and they don't know what it really was in the first place. But I know I said 30 years ago, I could find hashish, marijuana from Hawaii or Thailand that compares quite favorably with anything going around today. And anyhow, we will have those interviews with John Walters. And on the cultural baggage show we'll have Dr. Mitch early wine who's written written a book, Understanding marijuana, a new look at the scientific evidence, and he'll be one of my guests, we'll also have Bruce Merkin from the Marijuana Policy Project. And since we can't get John Walters to come on the show, I might have them do a little debate against John Walter statements to show where he's just flat wrong and full of BS.

C

Chris Harrison 35:39

Well, it's always good to ditch the politicians if they're not willing to come on and you know, use their own words against them a day, they're willing to, they feel brave enough to speak.

♂

35:48

Well, I actually just yesterday, I wrote a very kind invitation to John Walters, our drugs are, at least through his secretary with an invitation to come on my show, I gave him five or six different ways we could format it live debate, live one on one, me and him recorded debate and recorded one on one, or I'll send him a list of questions one way or another, we intend to get some answers from the man. And as always, it's my hope that the listeners will take that 10 minutes, write a short little letter to clarify their understanding of this drug war and what they think might be done differently. And send it off, it's really easy. Google out of, you know, the representatives names, and write them, send them that email, send a copy to the local paper. It's starting to make a difference. These guys hide from debate, they can no longer square up one on one and talk about it as we were mentioning earlier. And these people just need to hear more from you. Because John Walters is starting to stand pretty much alone. And, and running from every scrape. Any case, but this this week, I told you who we're having, I also will be doing a couple of 420s with doctors, Joel Hartman and Stratton Hill about pain, about opioids, about the fact that some people need these medications, and yet the DEA, arrest of the doctors destroys their lives takes their assets. And some of them have actually killed themselves in order not to testify against or associate doctors. So that's a terrible situation when you live in constant pain and your government makes that situation happen.

♂

37:43

Well, we live in constant pain about a lot of things, don't we, though? Yeah. No, and the

Well, we live in constant pain about a lot of things, don't we, though? Yeah. No, and the government is, will always remain a source of that pain. For the most part, Would you not agree to that?

37:57

Well, they certainly will want to be but it's up to us to stand up to these people to stand up to these are really just corporate coagulation, if you will, ways of protecting profits for certain companies. That's what it's about. And and it's up to us to break that monopoly. We have allowed these corporations to become entities to become capable of suing us, but us not really being able to sue the people who own these corporations, the people who profit the most the people who truthfully steal from us on a daily basis?

38:36

Well, I think first, we would have to take the emphasis off of property rights and put them on personal rights. Well,

38:46

that would be a good start. Yeah, yeah.

38:49

But it is going to take everyone to do it, you know, you gotta kind of get sick and tired of being sick and tired.

38:55

Well, and I have I reached that point long ago. I'm sure you all are aware. But insofar as the drug war, the drug war is the hub of this broken wheel,

39:05

but it's a war that really, they don't want to win.

39:09

Well, they can't win. It has to go on forever. So they can keep shredding up our Constitution and our Bill of Rights. They use it as justification. And they took those same mechanisms and moved them over to this war of terror. And then Shalabi was a snitch. He told us there was

chemical weapons. And of course, there wasn't just like many times, people have their door kicked in. When a snitch says there's drugs there and of course there isn't and people get shot and killed over the greed of these informed

39:42

everything. That's fun. Drugs, it's the morality thing, you know? Yeah. I had a situation the other day. Hi, I'm Mr. SMax. Rules, by the way, for Hello. Hi, I've got my My slave surely here and we were in a mall the other day and because surely had a bag literally just you know, walking with a purse kind of thing. He was asked into the office to answer questions and pretty much, you know was oh my god, there's this man with a bag, it must have something in it farm or something here now because his wallet was just larger than what the usual man carries. So it's a war on everything. That's fun, everything that allows us to be individual, anything where we attempt to do individual thinking, we're

40:46

sure we have to be perfect cogs to make this perfect machine, quote, run. It's

40:53

the perfect part that just had to put those quotes around

40:58

extemporaneous, tough to do it all. And I guess my real concern is, I really want people to understand we are going to change this it is happening. And it's going to be either slow motion, molasses, or it's going to happen, you know, in a few months, or a year or two at max. There is no one on the other side that can defend it. And I urge folks to meet Emily Riley, I'm bringing her here on August 2, and third. She's a member of the Santa Cruz city council, a plaintiff if you will, in a lawsuit that's going to the US Supreme Court about medical marijuana. She's coming here to talk to our city council to be on the cultural baggage show that week. And to hopefully teach a little class on activism, and how we can all make this happen a little sooner because they're fighting it tooth and nail out there. And we can learn from them. And as I mentioned last week, the gay community was so instrumental in making those changes in California. And I'd like to invite the listeners to you know, visit my new website, drug truth.net got a much easier name to remember drug truth dotnet and get in touch, I can find stuff for you to do. There's always projects used today I'm talking to our city council. Sooner or later, they are going to.

42:46

I really liked the spy. Good.

Chris Harrison 42:47

CHRIS HARRISON 42:47

Okay. Thank you. Dean Becker is the host of cultural baggage heard here on KPFT, Tuesday nights at 6:30pm and also hosts the drug truth networks for 20 report at 420. In the afternoon, Monday through Saturday on KPFT and about a dozen other stations around the world. He's up in Canada now. One of our syndicated programs and gets the news out on the Drug Report. It's time now for the leather line. And

43:23

yeah, just push my button. Yes.

Chris Harrison 43:26

Hold on his mics on even though Yeah, I hadn't reached over get there to play with the buttons. That was that was the completely hang up on Dean. Okay. All right. You want to open the phone lines?

43:40

Absolutely. Absolutely. The last couple of times. I haven't really gotten a chance to talk with anyone. Yeah, you know, like to do that. I need you guys to help me stay up this time of morning. Well, actually this morning, so

Chris Harrison 43:52

if you have some questions and the meat BDSM leather line or the bodacious Tatas that are sitting across the window from me this is what you know, I'm sure it was the headphone strap. Okay,

44:10

okay. No, no, no straps.

Chris Harrison 44:13

I didn't think there was it was shuffle vinyl.

44:18

And for an old gal, they still sit quiet and attention. I'm really proud of them. And of course I have the twisted toy of the month. Oh, yes.

c

Chris Harrison 44:28

I thought I thought you just brought something for your cocktail. You

o

44:32

can't give away where I got it from but I like taking regular things. I started to say normal, but normal is basically a setting on a dryer and and kind of use them for different things. And I had asked the audience last month that I wanted to hear from them about their favorite perverted toy. I mean something different. I mean, not the flogger, the king You know, something? Yeah. The humbler. Something more along the lines of SpongeBob. You know what I mean? You miss SpongeBob. That was great. I, you know, like creative. I think last time the example I use is like you stole your grandmother's false teeth and you were using them while maybe you were using your own someplace else, you know, something different averted. So yes, I do have these cocktail stirs that have these little heads on the end, and it's really fun to place. It looks like it's some words I can't say on here. You guys need to give me a list because I will muck it up. Okay, well, why don't you just kind of put it on where

c

Chris Harrison 45:43

you're where you're placing it. You can say nipple? That's what that is. You just can't show it on television. Oh, yeah. But I can't

o

45:51

hear and yeah, yeah, you just kind of twisted and out the model after all. But I mean, you know, I can't do it hard enough for the sound effects. Well,

c

Chris Harrison 46:02

basically so so the listeners know what it is, is a bout a six inch stir on the top. It's it looks kind of like a plastic golf tee. That's six inches tall.

o

46:12

Actually, it looks more like the cleats so whatever you call them on the shoe on a golf shoe.

o

46:19

You know what I reminds me of? Every painter in our audience can relate to this. It's those paint stirrer devices they put on drills to mix paint with. Oh, okay. I'm

o

46:22

46:32

not sure. You mean I can get one of these like electrical wagon, seriously motorized. That nipple right off. It's

46:41

made out of fit the drive for a drill.

46:45

Oh, you shouldn't have told me that she's gonna be really look a lot. That can be really, really dangerous.

Chris Harrison 46:53

Someone's going to the Home Depot. If you want to call in having with your comment and questions and all that the phone number 7135265738713 Jam Kpf T.

47:08

Actually, if you want to call him to discuss anything, I'd be in a mood for that. Yeah,

Chris Harrison 47:14

let me grab the drop. The finger tells me where I can drop things quickly move it closer to him. Okay, okay.

47:24

One of my favorite things. Or some of the people I'd like to talk to this morning a cross dressers. I went to a party last night and I cross dressed. And I found it really, really interesting. Now this is a BDSM party. I mean, people are like being flogged and, and there are guys walking around in lovely sloth attire. I must say some of them were in, you know, really looking good for me. But I was dressed in a suit. And very nice. Yes, very nice gray pinstripe suit with this very thin lavender stripes down with the lavender shirt. And a great silk tie. I mean, I went all the way out. I even wore mustache and a beard. Had my hair slicked back and my glasses. Oh, I was really looking good.

Chris Harrison 48:19

Dressed to the Nines. Yes, I

48:21

was definitely and and some of the people were kind of freaking out. To say the least. I mean, I was in Butch mode. It was great. I had a wonderful time. My feet were in low shoes. So for one of the first times I did not feel as though my feet were in bondage at a party. So it was really, really good. So call me and tell me about some of your cross dressing experience. Come on my precious perverts. I know you're out there and up this time of morning. You're just getting home. So sit hours

c Chris Harrison 49:00

the bars have closed. Yeah, you know, give a call. Now's the time to regale us with that. Say

49:09

Hi, Matt. Hello, Matt in the house. Oh, like always? Yes, yes. And I've got surely here say hello, Shirley. Hello. Surely it's like, oh my god, you just got me here just putting me in the thick of everything.

c Chris Harrison 49:24

Ain't no doubt. Well, that's how the show works. Sometimes it's, you know, trial by fire you you show up and you're on the air, you know, and just sometimes you just got to, or the way it's set up or just you just imagine you're just in a living room discussing these things. And, you know, don't worry about the microphones until I tell you move it closer because we can't hear you. But it's just you know, it's one way just looking at it. You're just you're just having a conversation and don't worry about the people who were maybe listening.

49:55

I wasn't thinking about until just now.

c Chris Harrison 49:58

And don't worry For the most part, it's straight drunk Republicans who have insomnia. That's our that's our listener base. You know, we share something with the President. That's our that's our support base.

50:13

I really rather, there are a few things that I would like to share with him. I start to say, I don't want to share anything with the President, but I have several things.

50:21

We'll start with the house. Yeah, yeah.

50:23

Yeah. Yeah. That would really be the end of my career, though, because I am so sure. I would just totally forget about what a safe word was. You know, he'd really be in trouble.

50:37

How about his wife though?

50:41

Yes, she should be

Chris Harrison 50:43

in tears, hand her a violet wind and she'll forget everything else.

50:46

Really? She might want to join me. Yeah, yeah, teaching him a lesson there. Maybe she's too much on the weak side to join in. Oh, she's

Chris Harrison 50:57

a librarian. So you know, he has an old school more than library was asked to be

51:02

a strong woman to deal with baby blush. I would think so. I agree

Chris Harrison 51:09

with that. Yeah. Yeah. She's got she's got the thigh high letter. leather boots with the high heels to hide in the closet there.

51:17

That was Hillary.

51:26

Okay, man, a little bit everything. Yeah, yeah. Yeah. You know, what, at my office, shall we say, I have a picture of Hillary Clinton and dressed up as a dominatrix. It's a great photo. Great photo. So but this cross dressing thing? Let's talk about it. Surely, I know, it was a kind of a difficult decision to decide to share that with someone else. And I know there are a lot of people out there who participate in this type of activity. And yeah, very, very much in the back and the closet with the with the old shows. And I know there are lots of reasons why people feel that they want to stay there because there are lots of different ideas, people get it in their heads when you start talking about the male crossdresser. Right. Share some of those things with us. You know, cuz it's good to, for people to hear that they're not alone.

52:39

Okay. As far as like, what aspects like

52:43

when you first started, you were very nervous about it. You know, you kind of felt like you were the only person in the world who liked to do something like this, right?

52:57

Oh, it was definitely hard coming out of the closet for sure.

52:59

Yeah, you've frickin called me like three or four times before you got the nerve to come and see me. Yeah. What are some of the things that that bothered you the most that you friends or family? Yeah. Okay,

53:14

friends and family and the cat would be out of the bag. And try to keep a wall up around that. To make sure that there's no possible chance anybody can find out and the only way to do that is to almost not do it at all. Now,

Chris Harrison 53:29

do you live live by yourself? Or do you have a partner?

53:34

Right now? I just had me and my son. David divorced for about 10 years. How

c Chris Harrison 53:42

old's your son?

53:43

He's 11.

c Chris Harrison 53:45

So I mean, there's there's the kind of issue of you know, what happens when if he finds out peaks in your closet one day and sees all these frilly things and goes, Wait a minute, I remember anybody coming over?

53:57

Yeah, and you know, you almost want to put it behind a locked door in a safe with a lock and put a wall around that. You know, you don't you almost never feel comfortable with ever how you hide your stuff. And the more you get into it, the more stuff you get. So the more nervous you become, because the more stuff you have, and more chance that you're going to get found out.

c Chris Harrison 54:19

Now as something having your son with you live with your full time, or is it something Yeah, full time, full time. So it's not like John, so it's not like one of those things, you know, he's gone for a week or so. You know, it's,

54:31

I gotta straighten up and clean up before he gets out of the weekend.

c Chris Harrison 54:34

He's here on Glen, he's gone. I'm Glenda sort of thing, right. Which I mean, that would make it a little more difficult and 11 years old, you just can't leave the house by himself. So daddy's going off and he has to get all guests eat up the hair before he leaves.

54:49

And a lot of times you almost feel like giving it up versus trying to keep it under wraps it just it gets so strenuous trying to keep it hidden. that you just tend to almost just want to give it up versus trying to hide it.

c Chris Harrison 55:04

A part of you it's the turn on of wearing the female clothing, or is it or is it the fact you just feel more comfortable in it, um,

55:12

it's kind of a half and half thing. I feel like I'm split right into, I've got a male, and I've got a female side, and the female side wants to live just like the male side. Of course, being a male all the time, she don't get the opportunity as much so she tends to try to fight it out a little bit more to come out and to be out in the world. She doesn't want to be in the closet, she wants to be right out there in the thick of things. How

55:40

do you think that it has benefited you as a person to have that time with Shirley to to to dress and to not feel alone? Do you think that has definitely enhanced your your human beingness as opposed to your human doing?

56:05

Most definitely. I mean, you can't keep that buried I mean if you got to be in touch with your female female side. So that helps me be in touch with the feminists especially being a single parent because I have to play even a mom side role as well as a father side so coming out of closets helped with that it's helped me kiss the boobooos as well as teach them how to throw a ball

56:31

excellent excellent. Sweating here and now go into the to the heart here with these questions. Yes.

c Chris Harrison 56:40

The dilemma say I was picking us I picked a song versus we take a break here but I was going for a for a BS BDSM song but now you know I think I need to go for a cross dressing song cross

dressing so yeah, I'm gonna have to change it here He's showing off Oh, wow. All right, we have new pairs our human pin cushion as of right yes,

57:11

yes, yes, it is. I'm not sure that it's a good thing that we don't have visual right now. That's really very

57:20

thinking I'm using my genitals as a George Bush voodoo doll so oh my god then you won't be able to you won't be able to see anything if I have my way. He will not be reelected but I'll be heavy metal Oh,

57:38

yes. Yeah. So now what were you saying about that music

Chris Harrison 57:43

later note? Yeah. You know what, I think I'm just going to do this. Let's let's Should we take Should we take a while we're still waiting for someone to call in. Somebody's

57:52

got to call in. So I was looking to hear from Sally Sally jumped in there when we were having the fun fundraiser and shrink my booties. Yes, that's right. This smack the booty. And so Sally, you out there give me a call. I'm sure Nora is sitting by the thing I forgot to bring in my Planet of the Apes soundtrack. Do you guys have that? What Planet of the Apes the song

Chris Harrison 58:22

ape soundtrack?

58:23

Yeah. We'll have to get so primitive I love it. We'll have to get our Yeah. Just makes you want to hit

Chris Harrison 58:32

someone with Okay, well I think we're just Yes While we're waiting for someone to call it 713-

526-5738 Let's go to a little bit of music. It is the Odd Squad and the CD is called temptress and like I was originally going to play crack the whip but you know I think we need to go with dress up considering the theme and yes this is new music for us and you know only place you're gonna hear music like this is it you're on KPFT and on after hours and so let's go push that button

59:24

I'd like to show you what it means to be done with

59:44

a mind

59:49

the pool to dress like you. Were you show me with me bye Raleigh

1:00:07

I want to go

1:00:09

down I'd love to see the places that you have I know you know y'all Wait

1:00:21

am I the man who was

1:00:34

baby like you used to me

1:00:50

and I don't know how I don't know why and maybe now we'll

1:01:24

wav you're dressed I won't compete with you

...you're dressed. Won't compare with you

1:01:30

let's try it once and take it

1:01:44

back in me my love

1:01:54

to dress like you go with me

1:02:16

guys

Chris Harrison 1:02:27

yes that was Odd Squad. The CD is temptress that was dress up, as is that someone calling?
Yeah, but they haven't told us who it is yet

1:02:44

first Yes.

Chris Harrison 1:02:47

But now this is maybe we'll play crack the whip a little later.

1:02:52

Yeah, we always have to crack the whip. But,

Chris Harrison 1:02:55

you know, that's, like say it's new music to ask. We play one of the other songs and I'm gonna clean it up next time we play it. Never saw Jimmy changed that many shades of white.
bleached and bland and everything else.

1:03:15

It was a cute little tip.

c Chris Harrison 1:03:16

There was a cute little one. What we're talking about tonight is kind of like tranny punk. They're like you can see the okay.

1:03:23

Yeah, so very interesting. Yeah.

c Chris Harrison 1:03:27

Kind of a flapper girl who went from the 1920s who was born in the 1920s still trying to pull off that 1920s look. Okay. And the source from a place that no this is this is a performer this is that you can go to temp temp trust rocks.com So I guess it means oz quad is the album and temptress is the the RT think of this stuff straight.

1:03:54

While you're not supposed to do that now are you?

1:03:56

Right show?

1:04:01

Definitely not straight.

c Chris Harrison 1:04:02

This is after hours quit radio with attitude. Mistress Max rules is here. And yeah, taking your phone calls. If anyone wants to call in, let us know. Have any fetish questions? We've talked about your cross dressing experience? Yes, we discovered new toys for Yeah, one of the times that we were not when you were asking for your phone calls and we're not going to ask you for money. Can you beat that deal?

- - - - -

1:04:26

For you gotta come out tonight somehow. Okay,

1:04:29

maybe they're just worn out from being attractive. That's sort of how I feel tonight. Because I certainly had a good time last night. Yes, you looked really really hot. Surely. I felt hot. Yeah, you did. Even even when you were ready to pour the blood out of those boots you were wearing.

Chris Harrison 1:04:51

Okay, we actually have a live victim here. Yes, we do. All right. Katrina, you're on the Katrina. You're on the air. Yeah,

1:05:00

hello, hello.

1:05:01

Hello Katrina.

1:05:03

No one was calling. So I thought I'd call this thing here at my desk listening. Well,

1:05:08

terrific. Write

Chris Harrison 1:05:10

a comment for Mr. C.

1:05:13

Mr. Max. For that, Mike.

Chris Harrison 1:05:18

It's a long night for me.

1:05:21

So you're sitting at your desk? Are you at work?

1:05:23

No, I just have an office in my home. Okay. And I've been out of town for a while. So I've just been trying to catch up. And I just had this little radio on and listening to this. What is the gentleman's name? Surely, surely, surely. I've never really discussed anything like this with anyone before and then I realized that, that maybe even I had some characteristics of somewhat, but not that I would call myself a crossdresser. But I have had a male have a male you know, member on myself at a time. So I haven't done like you said, What is your name? The female Max rules as if you went to a party? Dress? That sounded fun. It

1:06:14

was absolutely wonderful.

1:06:18

But you didn't have the male member attached down there? Yes,

1:06:21

I did.

1:06:25

Think about it until right now. Oh,

1:06:27

the whole nine yards. In engine.

1:06:33

That's what you meant.

1:06:35

Yes, I had a wonderful, wonderful strap on that I bought in in Amsterdam, the harness, oh, I've never had one that just wanted what fits me perfectly. You know, for a lot of times, they have them and they have the the member like it's coming out of your navel or something. Right? This just fits wonderful. Down there. And it was, you know, in my pants, and you could see it. And yeah, the women were coming up to me and just rubbing my leg. And it was very, very good. And I was I was ever so much the gentleman now.

1:07:16

One of the parts of play.

1:07:18

As a matter of fact, I have been invited out to dinner by one of the women. And she goes, you have to dress like that. I'm like, Sure.

1:07:28

No problem. What's wrong with that? Okay, not?

1:07:30

Yes, I went into the store, you know, on the way there and got the looks. Have you done this before? Yes, I have. But in New York, along how long ago? Oh, gosh, it was about at least five years ago. Yes. It's curious. But I was I was very inspired by Shirley who was dressed and looking very lovely. And I just felt like surely needed that proper escort port to ya know, how passable

Chris Harrison 1:08:00

did you did? Did people feel you were doing people look at you give it a second thought and thinking you were? Well,

1:08:06

I started out by trying I had these, like six inch ace bandages. And I really tried to wrap myself to do the binding on the right to do that. And that got old before anything got out of. Okay, it's like, I can't go here. So I just kind of let myself What are you? I am a 42. See?

1:08:30

So you've got lots to hide. Yes.

1:08:32

So that did not work. But I tried to do it. So it just look like I was above you know, right over your shoulder. It's not that bad yet. But it was it was a very exciting experience.

1:08:48

And what prompted you to do it was there a certain party that was there was

1:08:51

a party and they were having a contest. It was a club FEM party. It's a group of women that get together and and their male submissives that go and they have different themes, or they're really nice little party.

1:09:07

What did you say there's

1:09:09

male want to go submissives submitted these dominant women and male submissives attend. And this particular night, the theme was a cross dressing or slut fashion show where it was held at someone's home. Okay. And so why should the guys have all

1:09:35

the fun? No, so funny because I hadn't really realized that I was, I don't want to say guilty of it because I had in some way or form or fashion, you know, not that I was judging but who am I to look at someone that they're different. I'm different. I'm the same. We're all just not everybody's the same. No, everybody has done even you know, but but it's just it's such a it is a term it was a time I can't imagine I'd like to try to do that sometime. But it would if you had a good setup a good environment to do it into.

1:10:07

Yes, but I mean, I left home dressed, I was okay with it. I wouldn't

1:10:13

go anywhere it out of the blue. You didn't just one night do it and just leave your house and go somewhere. First time I did it. Yes. Oh, you did all on your own? Yes. No one was with you know,

c

Chris Harrison 1:10:23

also, you know, the fact of a woman cross dressing as a man, even going into your local Mega Mart. You know, you're gonna get a couple of stairs, you're gonna get a couple looks, but you know, it's not gonna be that bad. Right. But you know, when when, when a guy walks in

o

1:10:46

to disagree. Oh, no, I agree. to disagree. Are you agreeing with me?

o

1:10:52

I agree that early. Yeah.

o

1:10:54

I agree that if a man's dressed up, it's a little bit more stairs involved.

o

1:10:58

Right? That's you guys are saying that because when you do it, you get the stairs

o

1:11:07

out and I've never even done it. So

o

1:11:08

when I did it, I got the stair. That's true. I mean, it's all relative, but

o

1:11:16

neither one like that. But I still think that men, it looks it's looked down upon more for men to dress up as women as women just going out and playing around with looking at Black men because it's to me, it would be more just fooling around just for fun. It's not as, as looked at us that looked down upon us. But I don't think that the general

1:11:34

some women's fashions too are kind of male oriented to more so than men's fashions. to women.

1:11:41

That's such an extreme shoulder pads. Not taking this serious. I don't know

Chris Harrison 1:11:45

if it wasn't for if it wasn't for putting on the moustache and beard. I think also with the mustache and the beard. People would see it as over the top that you were possibly you know, you're on your way to a party or thing.

1:11:58

Well, you know, I guess I kind of thinking back, I guess I would have to agree. Because my upbringing was a whole different the only father I really ever knew was a woman. Okay. And and, and, and my aunt dot dressed very manly, you know? So it was just taken for granted that that's just the way it was. You just ended up with whoever you found a loved you. Yeah, it was it was about love and not necessarily the sex of a person. You know. So I guess my attitude is just a little different from that. And true in this patriarchal society we have. It is probably worse. A male dressing because somehow or another every man can envision two women together, right? But the average man seeing two men together somehow that doesn't

Chris Harrison 1:12:57

work. Even even pat robertson when he talks about how the percentage of homosexuals, he says gay men make up 1% and lesbians make up 2%. So even he's got that straight boy fantasy of getting.

1:13:14

Could they help it? Yeah, yeah. So under when I've got a female friend, actually, my ex husbands that she claims that there was nothing I don't know. Do some people just don't find that attract? Or? I mean, how could they not find two women attractive? because their bodies are usually just a beautiful thing. Yeah. I wonder if she's really telling the truth, though, that I just can't imagine two women together think you know, that's a good thing for me.

Chris Harrison 1:13:40

You know, I'm a gay male. And I go I mean, I'll watch I'll watch the Skinemax type movies there. Yeah. I sit there. I'm sittin there. I'm havin a look at this Gucci's an Archer and I'm sinale

Adolf Hitler mustache above it. And I'm going okay, let's see, what can we see on the guy?

1:14:06

I thought was so interesting what you said at the very early on about when you first found out or when you first realized when you kissed your first time or something.

c Chris Harrison 1:14:16

It was from our reference segment with a teenage group that was in it wasn't hearing it was that there are teenage group that was in here. Yeah, it was oh, that was talking about you know, the first time when he gets the girl you know, did nothing for him when he kissed a boy. It's like, he saw the fireworks feldspars

1:14:32

you know, and that's how nothing else influenced him that he knew know what to do.

c Chris Harrison 1:14:37

I dabbled in heterosexuality when I was younger. I dabbled in heterosexuality. You know, when I was a young boy, you know? Penthouse worked for me because it's supposed to work for me. I was told, you know, I'm supposed to look at this naked woman and go, Ooh, this is what I want. And you know, after a while, I just didn't realize you know, the The pictures weren't doing it. And so I had to go on. I read this the articles. And you know, that worked for a while. And then I discovered Hustler, which occasionally, which quite often shows a male female scene in it. So I kind of progressed through there going, Oh, well, you know, it's that penis that's in there. It's got me interested. Yeah. You know, my, after I came out, my brother was trying to figure out what now I understand, whenever we watch the porn, why you always flipped while you always fast forward through the lesbian scene, because it's double the punani. And you're fast forwarding through it and go, well, there was nothing there to interest me. You know, let me fast forward to this part. So, you know, it's one of those things, it's a progression of what you're looking for. And yeah, you know, what

1:15:47

really does? Let's see, so many people think that Oh, something happened to these people when they were young. And that made them gay. You know, that? That's, in fact, what they do? Yes. And I think, you know, in my mind is probably it comes into my mind once Well, something probably did. But then I know that it's just the way you know, people are is, is one way or the other, I couldn't change the way I am. Neither could you know, someone was gay.

c Chris Harrison 1:16:13

Let me let me shout or let me shatter the one one of the myths they say about you know, what causes gay kids and it's broken families. My parents come October are going to be married 36 or 37 years, you know, high school sweethearts. My father looked across a crowded choir room and saw this set of knockers and go, I want that girl. And that was my mom. It was her eyes.

1:16:39

Right? Yeah.

c Chris Harrison 1:16:44

Yeah, her big beautiful eyes. The sweater eyes. You know, and that was, you know, I come from a family. That's, you know, my parents were married for 3637 years.

1:16:57

And it was the Wankel that Disney thing, or is it you know, that's just exactly what this myth, you know, is so strongly believed. I know,

c Chris Harrison 1:17:05

I'm a former Catholic, Roman Catholic altar boy. And I'm suing because I was not touched. Yeah, I feel I was left out of the experience. I mean, I do

1:17:17

think that Catholic school turns out the best perverts though, yeah, I

1:17:21

went to Catholic girls school.

1:17:22

I went to Catholic school as well. All right. I don't know what it is. Yeah. Did they put you out? Switch over to public school. Okay. I want to ask you a question. You say that you think about wearing this strap on at times? I

1:17:41

do. You do wear it? No, I don't have one. Well, I have this kind of a something like it, but it's not a strap on. Okav. It's like a panty that has a part that you could put somethin in.

1:17:52

Okay, so do you have the part that you can put something Yeah, but

1:17:55

it's little it's just this thing doesn't do anything. It's not where it's not the right thing at all. Okay. Looks good. It feels good. I guess.

1:18:03

Okay, so um, but do you want when you when you put this on? I was wondering what type of person do you fantasize about using it on

1:18:15

women? Absolutely. Okay. Yeah, I had to I had to make sure before I answer that, but yeah, it's the but then I you know, I fantasize still about my ex husband because we were together 13 years but I don't forget a size about doing any act to him. Okay. I don't think maybe I have you know, yes, you might

1:18:37

like to put something in his bottom but it's

1:18:42

the bigger model and it's not dominant in my thoughts. And I wouldn't mind saying if it was because you know, but it's not at all it's just the what is kind of a power thing is you've got this big thing. Look at that look at mean yeah, probably feel Yeah, look how big I am.

1:19:01

Because that is definitely how I felt last night. Sure I had the biggest one and how you're sure it's positive

1:19:12

because I haven't stated much but when this guy thought he was I mean he was so big I'm like what they are they just like to say it well

c

Chris Harrison 1:19:21

let's let's put this way to make it easier for you. If you go down to the local convenience store and pick yourself up. Amen Baby Ruth candy bar, not the king size just a regular baby candy bar that's average know according to reports, that's that's what the actual

o

1:19:46

report doesn't get around.

o

1:19:50

Around at all too busy eating candy bars. No, that's not even close. I

c

Chris Harrison 1:19:57

mean, that's, you know, there's There's different sides of the spectrum. So yeah, you're gonna go out you're gonna find yourself

o

1:20:03

will be big compared to that. That vows like, what is he talking about?

o

1:20:08

Well, lots of people are legends in their own mind.

o

1:20:12

Oh, I guess I should go along with it forth.

c

Chris Harrison 1:20:13

But there's also the concept of AOL inches. You know, AOL AOL interest. You know, when you're online, you're talking to somebody, you know?

o

1:20:21

Yeah, that's that. That's yeah, something different. But it's just, it's like, I don't sit and talk about how big my breasts are, because they're not to make me feel better, or how you know,

something else about I guess it's just a male thing.

1:20:38

Yeah, that is a male thing. Men

Chris Harrison 1:20:40

are men are defined, you know, very simple. You come out of the womb, the doctor picks the kid up by the ankles and looks in the first thing he does. Before he counts the number of toes and the number of fingers. He looks in the middle and goes, congratulations. It's a boy, congratulations. It's a girl. And you know, that's the first thing and that's how you identify. And the simple fact is, you know, here's this powerful. This is the only powerful part and the guy's body. This is this one that creates life, and can write your name in the snow. That's what that's what guides some guys. That's all it's about.

1:21:16

But sex sort of rules, period. Everything. Everything just ties into sex. And it's amazing how we promote everything sexually, from beer to cars to house everything. And then we give you grief. If you decide to use that thing you've got you know, it's a bad thing to do something with it. Guess you're just supposed to look at it. I guess if certain people had their way we'd be back in the Dark Ages. Wouldn't even wipe it after you went to the bathroom. Are you going to get a bigger one?

1:22:02

Yeah, I would like

Chris Harrison 1:22:04

the bigger ones. I think she's talking about you really

1:22:07

use surely or whoever else is there. You've heard me speak about how smart No, I don't have to go to Amsterdam. No,

1:22:15

no, no. Amsterdam was was the harness you know, which is the their leather straps with rings in it that I can actually put the this the What the heck can I call this thing here?

c

Chris Harrison 1:22:31

You can say dildo? Oh, yeah. The only problem we have is in the state of Texas. It's illegal to sell a realistically realistic looking dildo.

o

1:22:42

Is that why everybody freaked out? I bought it in Vegas and

o

1:22:47

I think they look pretty real to go online.

c

Chris Harrison 1:22:49

Well see there's there's two there's two actual dildo laws that we have here in the state of Texas. One of them is you cannot sell a realistic looking dildo and the other one is you cannot own more than six that is because very simple.

o

1:23:10

You can have one for Sunday

c

Chris Harrison 1:23:15

that's probably where you have over more if you have more than six oh, it's basically intent to distribute possession with intent to distribute well that could be true

o

1:23:28

main idea that's the thing is

c

Chris Harrison 1:23:30

the fact that more than six people that's the way the laws are I mean there was that woman

o

1:23:36

that why it can't look real

c

Chris Harrison 1:23:39

I don't understand jealousy that's that's the way the law is innocent Texas you know there was a woman in north part of Texas who was having what's called a passion party where basically bring in a bunch of women and it's sex toy Tupperware and she was prosecuted on She was charged under the Texas obscenity law for hat for doing this type of open party really charges were dismissed. The judge threw out the charges

o

1:24:08

she went to bring it to court or challenged her well that

c

Chris Harrison 1:24:14

was I don't know who the what they did is they sent in a couple of vice officers

o

1:24:18

to her part and I wonder who did that neighbor or something

c

Chris Harrison 1:24:21

well that I mean that's the part of the thing is that's the way the laws are here in Texas so if you're looking for something realistic you're gonna have to get it from another state and you also you may not be able to mail order it mean Arkansas or Tennessee Yes. I'm not sure about those backwards

o

1:24:41

I have one pretty realistic I think I just got it from one of these little places on Westheimer well,

c

Chris Harrison 1:24:46

they kind of shot that yeah, they can it's it's kind of a gray area you know, there's there's so many other things for them to be looking for. Yeah,

o

1:24:55

when you're when what they classify like one but

c

Chris Harrison 1:24:58

CHRIS HARRISON 1:25:00

yeah, I call it but I mean, that's just the way the penal code is written here. And

1:25:06

they have to have a code, they have to have a rule in law. So that's fine. Well, let's

Chris Harrison 1:25:09

I mean, you know, there's another little rule is this. Yeah, technically, using the strap on on another person, is against the law in the state of Texas never do that. No, no. The law in the state of Texas to look, you can use you if you can use a toy on yourself. But it is against the law to use a toy on another person.

1:25:38

Sure that Yeah.

Chris Harrison 1:25:42

That's some of the way the rules are in the state. So it's, you know, it's very strange on how it is. You can mail order these you can get them through the internet, you just have to be careful some places because Texas has those laws. They may not ship it to Texas. Because of the fact you know, they do that. They may think it's a trap. Well,

1:26:00

when you got your data, set your name again, the max rolls, it may X,

1:26:06

yes. Are you I Z as in Zebra.

1:26:09

Oh. When you got yours did it come together? There's all the strap part and oh, no, they didn't you got them to you? Did you get them both

1:26:19

there? No, I just had the other things. Yes. Yes. And then the actual harness? Yeah,

1:26:26

I see it. I see it curious.

c Chris Harrison 1:26:29

So there are companies out there you can just if you were to do a search on the internet, I mean, you could type in dildo. Sweet. Good Vibrations is a well known company out of San Francisco damask

1:26:41

has ma es que they have a absolutely fantastic line of leather. G is in Delta. Oh.

1:26:57

Like David Yes. And like Mary E

1:27:00

as an enterprising Oh, and then Mary. Okay. I can't say that word that a word. Can't say the S word either. Okay, thank you know, Sam and kindergarten. kilos. You know, you wouldn't want to say that.

c Chris Harrison 1:27:26

You can. You can find those sorts of items. Even if you come into the check some of the leather stores Eros at 1207 1207. Down in Pasadena area. You know, there's several places where you can

1:27:43

hear I believe Leathernecks

1:27:48

Conan i There's only one ever been. Yeah, you can you

c Chris Harrison 1:27:53

can go or you can go into bizarre bizarre and they'll probably be able to point you in the right

direction.

1:27:57

What was the other one here besides

c Chris Harrison 1:27:59

bizarre? What is it bizarre as in weird this

1:28:05

conversation.

1:28:08

Bizarre was bizarre

c Chris Harrison 1:28:11

as in this radio station place? Like it's like a strange marketplace? Bizarre. Bizarre. Bizarre. Yeah, there's, there's a chain. And they curious. They're curious stuff like that. So I mean, there's there's lots of ways just for the heck of

1:28:27

it. Are those devices? The total opposite? Are they against the law here, you know, those things that look like a real vagina on blow up. Now, technically,

c Chris Harrison 1:28:40

it should be because any realistic. The way it's, I believe the way it's written is any realistic portrayal of genitalia. So, technically, even if you were to go in and just have it, if you're gonna have an anatomy class, and you show up with that, or, you know, knowing them, they'll bust if you have a puppet.

1:29:00

That is just so strange. You

1:29:04

gotta remember they say it looks like this. So it's not defined. Yeah, it'd be a watermelon, you know, or something.

c Chris Harrison 1:29:12

You're, you're talking about a penal code that still has it written in there. That is a capital offense. Right?

1:29:22

Okay. Oral sex is, you know, most states want

c Chris Harrison 1:29:27

to oral sex is now oral sex. Heterosexual oral sex has been legal in the state of Texas since 1974. Well, that even intelligent and it wasn't till one year one month ago, that homosexual oral sex was against the law. When Texas came down, then that made homosexual oral sex illegal and annul the fact is that before last year I mean before 13 months ago. You know if the police officers would have kicked in the door and found two guys going at it. A man and a woman going at it and two women going at it I remember in in full animal sex or orals you know, the male female couple would not have to worry about being arrested. The two women going you know, the cops will probably sit around and watch but you know, the to take some pictures. The tape man would be in the movie in the paddy wagon. Phegley Yeah. So that's, I mean, that's the way the laws you know, we're talking about Texas law. We're a frontier state with our own country and we still have that mentality of what we are. I gotta step in here. Let everyone know you're listening to after hours queer radio with attitude. Here on Pacifica radio for the Gulf Coast. KPFT 90.1 FM, Houston, 89.5 Galveston, and the worldwide web at KPFT dot O R G. We thank you for calling in Welcome.

1:30:59

Nice talk.

1:31:00

enjoy talking with you. All

1:31:02

right. Take care. Well, listen, tell us more. All right.

1:31:06

All right. And this is Mr. smacks rules about to say good night myself. I am leaning to the left here this chair.

c Chris Harrison 1:31:14

Well, that's very good, because you can't lean to the right in the station.

1:31:19

Very good. Well, I'll say good morning. And thanks, Matt. Thanks, Shirley. Thank you and the B boy over there. Yeah, he he's very quiet, but we'll make

c Chris Harrison 1:31:33

sure I get here. Someone needs to rattle his chain. Hey, well,

1:31:36

I do that but still, he's still gonna stay quiet. So I will speak with everyone next month. The fourth Saturday of every month they let me come in here and talk about quirky things. And I enjoyed doing it so in the interim, everyone be safe and well, and stay tuned to KPFT we're radio with attitude All

c Chris Harrison 1:32:02

right, we're gonna step out with a I'm not sure which one of these Jimmy's put on but a little boy music and we back with round table okay, that's song comes to a crashing end. Who in the world Was I playing? Virgo, and that was parasite. We've got to learn how to play you suck. We've got to learn how to get the songs on here that we can play. Alrighty. Against my better wishes and ideas, I am turning up the mics in the other room. And yeah, there's mics thrown in there. So it's time for the round table. And the cast of characters continues to grow or to grow. Yeah, microphone plus, the handbag does not work. Starting in the left hand corner here, go around the horn and say who you are, and why in the world. You're here. Just say hi. Say your name.

1:33:12

I'm Scott. Lana.

1:33:14

Tim

.....

1:33:15

I'm Stacy.

1:33:16

I'm Alyssa.

Bobby 1:33:16

Marlon Buda Zane.

Chris Harrison 1:33:21

Oh, that's it. That's just me now. Okay. And I'm Chris. jammies here. Yeah, floating around down. So. Okay, two quick letters. We got our MBBS. We always have to thank and we we love hearing from our MBB.

Jimmy Carper 1:33:37

We sure do there. And we know we've got a lot of MBBS out there who who don't write or speak for one reason or another. And not that.

Chris Harrison 1:33:46

Hey, we can't criticize. We don't write Pat. I

Jimmy Carper 1:33:48

know. I know. But so listening. That's the important part. They're listening.

Chris Harrison 1:33:53

An update to a story we had last year was last week or the week before which was last week was smiler. Yeah, with Smiley. Apparently the

Jimmy Carper 1:34:05

let's get the background on the chart. Okay.

 Chris Harrison 1:34:07

Apparently a couple of weeks ago there Smiley was in the showers. And a female correctional officer looked at him and thought he was getting himself around. Wait a minute,

 Jimmy Carper 1:34:19

as I understand it. As I understand it, she he was showering in the first period and she showered in the second period when he was not even

 Chris Harrison 1:34:36

there. Yes, she was she was guarding over another section. Yes. And supposedly he turned around in full arousal and made some lewd comment to her. She told him to put it away. And so she wrote him up on a charge of exposing himself and disobeying an

 Jimmy Carper 1:34:56

order. This is a guy who was 100% Gay.

 Chris Harrison 1:34:59

He's 100 sent gays a female officer who does not know that who was working third shift when he was showering on first shift. All sorts of you know, things are aren't running off. And once again, you know, we're just going off of what we've heard from smiling. But

 Bobby 1:35:15

somebody explained to me how you don't expose yourself when you're in a shower.

 Chris Harrison 1:35:21

Yeah. Well, I suppose it wasn't just the exposure, it was the fact that his flag was at full staff.

 1:35:28

And it's quite a full staff I might add.

 1:35:31

The thing that I don't get is she was she wrote him up on third shift, but the alleged exposure occurred on first shift someone explained that to me, that's that's

 Chris Harrison 1:35:40

part of it is the fact that he works first shift he was he was in the showers. His his section that he was in, was on the first was in shower shift, one. And she wasn't even on duty until shower shift three. So whether there was a mix mistake or whatever, and she just didn't correct it.

 1:35:59

She tried to harass him or something, I don't

 Chris Harrison 1:36:01

know, he was found guilty of sexually exposing himself, and disobeying a direct order. They've dropped a level and a Kaline. Class, they've taken away 30 days for his good time giving him 15 days of sell restriction, and 30 days commentary, and I don't know if that means he's gonna have to work that or he just doesn't get he doesn't

 1:36:18

get compensated khalasar.

 Chris Harrison 1:36:22

You know, he's not going to accept the case. And you know, we're not either we're going to, he's going to appeal. We're going to contact his mother who has asked us to, and you know, if someone out there is has a chance to talk to smiling, we're going to pass it on. I think he needs to appeal this case working through the system. And we're going to pass along all this information to Jessica Farrar.

 Jimmy Carper 1:36:44

Well, Ray hill here tonight, and we've talked with him extensively about it. Yeah, we spoken to Ray Hill. And so we need we need copies of all his transcripts, from the trial and all of that, then we're going to pass them on. Ray's working on this and going to work with Jessa for for Jessica Farrar. It's bullshit.

 Chris Harrison 1:37:06

Yeah, and we're hoisting up a pair of smiley face boxer shorts on the flagpole. We're rallying around the smiley flag on that one. eagerly

around the smiley, they on that side, saying,

1:37:14

awaiting the release. So

c Chris Harrison 1:37:20

what are we talking about a new window. And we also have a letter from Tigger. Hey,

1:37:26

Tiger hasn't.

c Chris Harrison 1:37:28

Well, Tigger is ready to graduate college. Hey, he's working on a journalism degree. Good for hand. He's about ready to get a BA in journalism with a minor in TV radio. So we know where you can ply your trade. Once you get out the doors. Come see us. Jimmy, you want that for you would you would be asking that if he even didn't have the journalist

J Jimmy Carper 1:37:58

I was the smiley too. He knows everybody. He knows everybody here except me.

c Chris Harrison 1:38:05

Smiling. That's because you just you always went down and tips the boys at EJ's and he worked at Jr. Oh, that's what your problem.

1:38:16

You and my favorite smiley story is him standing out with a megaphone during one of the weekends and they had the men's national volleyball championship across the street and he and some other boys are standing on the side of the outside cuties when it was on the west timer, screaming well like your nipple for \$1 My nephew's first introduction to homosexual affection my licking my nipple for \$1 Hi Smiley.

c Chris Harrison 1:38:54

The memory I remember walking by with my father West our street festival before it came out and you know, the guy they always had kind of a drag shoe out in front of cuties. Then he ~~always kept wanting to go into Mary's he thought it was a big joke. Let's let's go into Mary's~~

always kept warning to go into Mary's the thought it was a big joke. Let's tell you into Mary's after I came out he stopped making that joke.

J Jimmy Carper 1:39:12

Anyway, anybody out there listening behind the bars if you can get the word to smiley because I don't think he's able to listen to us tonight. Let him know that we're working on it. And

C Chris Harrison 1:39:23

unfortunately Tigres is supposedly he's not able to either he's on restriction. He's trying to get new radio so he can get in the show. Okay, unfortunately, I mean smile as I was saying that coordinate was friends. The Houston stations aren't coming in that clearly. And you know, hopefully here I

J Jimmy Carper 1:39:40

can you know why that is because because the person show because of after hours, person show every Friday night at nine o'clock right on this station. And the authorities don't like the idea that the prisoners can find out things that they can do, and realize that so Some of the things being done to them or not legal. And

C Chris Harrison 1:40:03

hopefully here we're I know there's been talk about you know, we got that repeater down in Galveston, we're talking about getting a repeater up in Huntsville area. Yes, that's right. So that, you know, our MBBS up there and for and beyond will be able to hear us and, you know, not feel like there's such a out in the out in the boonies, like Dr. Phil closer

J Jimmy Carper 1:40:22

to make sure I say hi to to David. Also, who writes to us a lot and to

C Chris Harrison 1:40:31

the different color devils. Yes. To Hi Misty night blue.

J Jimmy Carper 1:40:34

Especially Hi me, the green eyed Devil is has been transferred, and is out of our listening range. And of course, Wilson who now is out after many

c

Chris Harrison 1:40:47

matches, but he's serving a serving a worst sentence. Yeah, he's

J

Jimmy Carper 1:40:50

in Waco. Yeah. So he can't hear us either. But I still get letters from him. Yes.

c

Chris Harrison 1:40:54

Yes. I think what goes, may you know, I've never been to prison, but I've been to Waco and I've done my time. Little Okay, as I said a little notch on the Bible Belt. Yeah, men

o

1:41:07

are hotter in prison. Yeah.

c

Chris Harrison 1:41:11

Baptist boys, they're from Baylor, they were just willing to come out and dance.

o

1:41:15

Somebody should hold them down longer. That's all.

J

Jimmy Carper 1:41:19

So we've got a couple of folks from Sacred Heart as

c

Chris Harrison 1:41:22

the people who are responsible for all the metal works that are currently a part of Stacey.

B

Bobby 1:41:27

And the tone of the metal work. And Sacred Heart is also responsible for the tattoo on my back.

o

1:41:38

piercings. My name is Tim I work at Sacred

1:41:40

Heart. For those of you listening out in radio, and you should see Tim's ears they his boo. You

1:41:47

should see Tim

Jimmy Carper 1:41:53

he is rather snack ish, isn't he?

1:42:01

Isn't diameter with with this? inch

1:42:05

and three quarters to be exact but closer to inches or niche?

1:42:08

Like this hole? That's close if you're serious. Thank you. Yeah,

Chris Harrison 1:42:14

we won't tell you what Jimmy wants to do with those holes on the spot.

Bobby 1:42:19

Something to do with heels.

1:42:20

I should say Lana is his wife. Yeah, reps. I just pulled them in. They were walking across the street and I drag them over here. And it was like you've got to come to the radio. Thank you. Yes.

Bobby 1:42:23

They followed me it didn't run in fear. So

 Chris Harrison 1:42:37

Gary, Jimmy on a stronger leash this week. He got the good medicine. So he's behaving himself.

 Jimmy Carper 1:42:47

No, Stanley got in town tonight. Oh, so as to be good for two weeks.

 Chris Harrison 1:42:53

Oh, that's the reason. Like Stanley is gonna know. Yeah, he's sleeping. And thank God for the Nine O'Clock News. We wouldn't want to get to watch TV news.

 Jimmy Carper 1:43:03

Anyway, Stacy has been talking about Sacred Heart for quite a while and raving about them. So I'm really glad to have folks in from the place and I'd like like them to talk about the place and why it's so special. Other than the fabulous color on the outside of the building.

 1:43:19

The color wasn't my idea, but it's it's wonderful. I've actually apprentice there by the owner, and worked there for five years and then decided to move to Austin. Check that out and was drawn back. That's wonderful place quality jewelry, cleaner

 1:43:40

shop and Euston. Amen.

 Jimmy Carper 1:43:42

That's very important for people who were going to get tattoos or piercings. You said that that the place is clean. I mean that that's

 1:43:52

you walk down a comment. Yes, that's heard across the building is how clean it is there.

1:43:59

Tim was telling me out back a little while ago. It's one of two shops in Houston that belongs to this national organization certified or something.

1:44:06

It's the Association of Professional piercers. There's only two shops in Austin have piercers that are members. It's a sacred heart and then Torian but yeah, use Tinder, Austin, Houston, Houston. There are quite a few shops in Austin. We just came back. I just came back so Austin stole my mind, but I love Houston.

1:44:27

Thank you.

1:44:29

Somebody as a as a client. It's an incredibly it's an incredibly gay friendly studio. And some of them are not always so gay friendly or don't feel that way. Even in Montrose, so,

1:44:43

I'm just sitting here looking at Atlanta and I think of tattoos being kind of masculine but she's got on. It looks like flowers or roses and what is that ribbon or something a tattoo. It's

1:44:54

a panther with a veil was like I asked for Panther and they said we do something more feminine They put the veil over her so her face is actually on the other ones

1:45:05

too so you've got like this tattoo but it's all family it's hard

1:45:08

and it's it could be on a man you know but it's done it's done so well

Chris Harrison 1:45:13

tattoo store on a Furman but made for a woman

1:45:18

kinda like her husband

1:45:24

I'm turning very red so high

1:45:28

and Jamie was dancing and the other part of it is land is getting off on one

Bobby 1:45:38

she's loving she's like oh, my husband clean I can't

1:45:42

even see the Panther make my tongue hard Oh my god.

c Chris Harrison 1:45:51

Jimmy, breaking up to Viagra yeah

1:45:56

no Jimmy What are you gonna go get pierced this week?

1:46:01

I can't Stanley's in town.

1:46:06

I'm not even get my navel pierced. Do

1:46:08

1:46:00

you have to realize Stanley's the iron the Iron Fist conservative before.

B Bobby 1:46:16

But there's an awful lot of things. Jimmy has done that. The fact that Stanley's around does it doesn't stop him. Yeah, if Jimmy

C Chris Harrison 1:46:24

had had the money in the group there you know, we could blackmail him to Stanley but we just have to steal Stanley's money that

1:46:34

will tell Stanley well, you won't get any money that way.

1:46:36

Wait a minute. Isn't Stanley the one who pays the bills? Yeah, exactly.

C Chris Harrison 1:46:42

So every time we talk about Stacy's piercings, and he seems to come up with either new piercing or new tattoo,

1:46:49

because they're so good. They are good.

C Chris Harrison 1:46:53

They'll be covering over his wounds. Find somebody to decorate them in there. I

1:46:57

know. You know well. But the thing that's really impressive is I've had one piercer for a while. And I've recently ventured out into letting someone else pierced me and I I went for the gusto and I
