SPEAKERS

Chris Harrison, Bobby, Jimmy Carper

00:00

I'll and I've recently ventured out into letting someone else pierce me and I I went for the gusto and I had had three added in the nether regions all in one night and Tim doesn't bat an eyelash and it

00:17

was an absolute honor to appear Stasi after being pierced by one person for so long. It was meant quite a bit to me. And

00:26

so then I went back the next week and added another one above the nether regions. So now I

Chris Harrison 00:31

would say I would say this this newest one you have there is is more visible but you've dropped your pants are many times in here. Yeah. isn't much that isn't visible. Well,

00:40

that's exactly why I get them here. So it's like, you know, I've got it. I might as well show it off.

Chris Harrison 00:44

I mean, you'd have to you'd have to pierce his livers about the

00:48

few other spots. Somebody

Bobby 00:48

tried to do that to him it was

00:52

they aim for the liver they got my thought

00:57

you know what we were talking about earlier, you think that'd be worth bringing up? About the navel piercing and bringing up the feminine? Go? Yeah, because I'm not sure how much there is to this and I don't want to say that it represents all pagans but I was reading this book called Urban pig and a little while back, a raven caldera and some other author a Tannen something rather. And they were talking about navel piercings and they actually made me I never used to think I want my neck wanted my navel pierced and for those who don't know me I'm by just came out and then transgendered going in a female direction. And they were saying that if you for a woman to gets a navel piercing it brings out her feminine side. And even for a man it's like implanting like an astral womb. I don't know if that's like too weird for people who are not. And I brought this up to Tim outside and he was like, well, maybe that explains why so many young women are getting their nails pierced now.

01:58

Yeah, it's that's it's been a revolution. That's That's what pays my bills is the navel piercings that I do.

02:06

This the bourbon Sugar Land. Yeah. Mother Daughter teams coming in to get their belly bends. Yeah. Together. Yeah. Love it. It's hot.

C Chris Harrison 02:15

I remember my brother's girlfriend having her navel pierced. And she hung on to that as well. She could I think she lasted until like, the sixth month of pregnancy. Yeah. Then it kind of became a pull tab. So they had to remove that permanently.

02:30

I've had women that have taken it to the end. And then women that didn't take it out at the very beginning. Everyone's so different. I

c Chris Harrison 02:38

mean, I I'll have to admit, you know, I'm part of these over here cringing, you know, I'm not into the tattoos and the piercings and seeing Stacy over there with basically something it looks like out of one of the cartoons you see where Bugs Bunny is fighting the bull. out of his nose. Yeah, teach its own there, but a guy is gonna start playing with it now.

03:03

Oh, he's gonna talk to Stacy. Well,

03:05

you know, I used to think I was just, I was just going to like, stick to your piercings. But you know, reading this thing in the book and going in the direction of going at it made me think twice. You know, maybe that's a path I'd want to consider down the road. And this

c Chris Harrison 03:17

is one of those things that you know, everyone has their own. Well,

03:20

I tell you what to that people ask sometimes why the nether regions and below the neck. And all I have to say is X marks the spot. If I have a place and I want you to touch me there it's mark. There's no there is no guesswork. And there's even a little there's even something to make it a game for you. You have a barbell you have a ring you can pull tab it you can twist it to see who's playing with

c Chris Harrison 03:49

me, David Exactly part of us because one of my first experiences a guy I didn't realize before we started had the the barbell through. Is there any?

04:00

Any AMPA driver ever?

C

Chris Harrison 04:01

And you know, that was just kind of like, okay, What good's this going to do? And it's it just didn't work for me. And you know, I've I mean I'm, I guess I'm to choose lack of a better term to straight laced and I haven't thought of tattoos or piercings and all that. Oh, my one brother. He has a one tattoo and he had his ears pierced when he's in college. And you know, he got he got his piercing. He got his tattoo done and he had to, he wore socks that year. That's summertime. Because my dad said you're not getting a tattoo and he got one in a drunken stupor on his ankle. So he wore socks for the throughout the summer wouldn't go out barefoot, so my dad wouldn't see it.

B

Bobby 04:42

It was it was really funny when I got to get when I went to get my first tattoo for my birthday, after my birthday. The you know, the kind of you're talking to the guy who's going to do your thing or the girl or whatever, you know, in my case it was the guy and it was like, and there was some mention of there might be a little pain you know, this might hurt a little when it's done. Then I showed him my back. That was before I took off my shirt and then I showed him my back and I was like, you know, compared to these, this is going to be a walk in the park compared to compared to my map of Montrose and Westheimer this is going to be a walk in the park.

C

Chris Harrison 05:24

I bet you haven't seen the canvas for you to paint on like this before.

♂

05:30

I'm not sure I'm ready for a tattoo yet. But I used to think Oh, gross, it's all masculine, you know, like the anchor on the Navy guy. But then you see women other women with to like farm bracelets and anklets. And then you see people like Alana with veiled Panthers and flowers in their arms. You can do it and see what goes on.

♀

05:53

We've also got Butte Buddha here in

C

Chris Harrison 05:56

the city. Yeah, I was waiting for him to come back. Yeah, we've had this kind of old home week, you know? Yeah, too. And you know, yeah, we we had there a long time ago, we were getting these fabulous. Sweet Treats coming in. Oh

J

Jimmy Carper 06:10

my god. Yes. And lovely notes. And yes.

C

Chris Harrison 06:17

As the Buddha is the one who was doing that over the Buddhist coffee shop, and supposedly he's getting back in the game. Yeah, I'm

♂

06:27

opening up a coffee shop sometime in August.

♂

06:29

Yay.

♂

06:35

Round 11th in Yale, it's like, right off 11th in Yale, okay. On the menu. Oh, whatever I want.

B

Bobby 06:44

damn well, Buddha, the

C

Chris Harrison 06:46

restaurants here is sweet for having said oh

♂

06:49

my god, yes. Can I teach other people how to do it? Buddha's

B

Bobby 06:54

coffee shop was come for the coffee stay for the abuse.

♂

07:01

No Starbucks, you can actually smoke inside. And good. Coffee students? Well, you're gonna be

called Coffee and Cigarettes. Well, yeah.

07:09

Well, you have an internet bar. No,

Bobby 07:12

no, nothing actually wants people to communicate with each other. In person.

07:17

Yeah, coffee house is where you go, you'd have coffee, you sit, you talk about whatever you want to talk about. And the Internet has a tendency to make people more stupid than they already are. And if I have another, and I think if I have another person introduced me by an online I think I'm gonna rip their lungs. When I talk to you, no, you haven't asked me on this.

C Chris Harrison 07:40

I'm part of a group that you know.

07:42

He's wondering my online name is tattooed love boy.

07:50

There's nothing against it. But it's like, okay, my name is Buddha. Unfortunately, no, it's not an online name. Everyone thinks it is. And I don't have a problem

B Bobby 07:58

with that. But everybody that's his real name.

08:00

But if no one is introducing introducing themselves to me, I want them to say you know, Hello, my name is Bob John Pete, whatever not My name is, you know, but boy slaps bank or whatever the name is going to be

08:14

Hey, my name is a little bit more down to earth. So listen now

c Chris Harrison 08:19

I'm part of a group that we joke about that the fact that so many people when you start you spend so much time talking to people around the country around the world, you know, when we go to these events that we finally get together you want to put down screen names because the only way you know some of these people is that this is this is their name. I know I've I chat was one guy in Minnesota. And you know, he has to make sure that he puts Dwayne on there because I know him his beard. And so my screen names is like you can look at my screen name and it tells you who I am what size I am and where I live. Big big Chris H O ut x and if you can't figure out pass that then you shouldn't have turned on your computer or you know have your eight year old nephew turn off the computer for you because he turned it on for you

09:09

lost the art of conversation just sitting and actually just Yeah, talking about different things. Yeah, you know, you forget that people actually have an IQ and before you know everyone thought you know the TV was gonna end you know, humanity as a whole. No, it's gonna be the computer. You know, no one knows how to write a letter because everyone says well, I'll email you Well, yeah, it's quicker speed. No one knows how to write anymore.

J Jimmy Carper 09:29

True and you don't have the you don't have the face to face facial gesture facials, and gestures and and in tone, the way you in tone words and because when you just write it out flat, you don't always know how to take our

09:47

chat comes in. Trust me spells can check

09:53

everybody.

c Chris Harrison 09:56

You know if you contact is very, very important

09:59

time Do I know but it's all new sexuality because it's like I asked guys in certain chat rooms are you gay you buy are you cyber? You know, because it's like cyber sexual, there's no contact so don't have to be gay straight bi or whatever they can just be sexual and be there.

10:17

That normal.

10:21

That's That's my face to face life as well as my online.

Chris Harrison 10:25

I remember Buddha's notes when he gave me their beautiful penmanship, you know, sealed with a waxy Oh, yeah,

Bobby 10:31

absolutely every time. One of the great things that wait about his shop, one of the great things about his shop is you could sit there with hours of conversation with everything from Rice students to leather men, you know, to, to, you know, I mean, it was just a fabulous place where if you just didn't have like preconceived anything about people, you could get along fine. And just and just have all kinds of crazy conversation, you

11:02

would be dragged into conversation if you sat there for any length of time. Because usually, it'd be just like this people sitting around, you know, the little coffee table, whatever. And if you were sitting over there, and you see people laughing at what we're talking about, and everything, you get dragged over there, and there's no Oh, no, no, no, oh, no, no,

Bobby 11:19

you can relax, because there's no computers, which means Hey, guess what, you don't have to work when you're off.

Chris Harrison 11:27

Let's get in here, she's been trying to jump in. Yeah,

11:29

I just want to add my own two cents worth. For those who feel that computers have been stifling the art of conversation, there is always for me, I don't know if it works for everyone, there's one exception. There is a coffee house within a mile or two of the this radio studio that I go to, and not to let out my secret. But you know, I will buy a cup of coffee in order to excuse my spending my allotted 15 minutes plus or pushing the envelope on their computer. And as a result of my going in and buying coffee and getting on the computer, I have met some interesting people live in the flesh in this coffee house that I would not have met if I hadn't gone and bought coffee and gotten on their computers. Yeah, there.

c Chris Harrison 12:12

It there are ways you can use the internet as a gateway, you know, either going out in the public and being in a public setting to see it or, you know, meeting somebody. But you know, if you're basing everything off of what you have on an Internet, what you can see on a little webcam, which you can hear in the chat, you know, that's not giving you the whole picture of a person, you know,

12:32

I didn't say it was a spawn of Satan. It was a spawn of Satan.

c Chris Harrison 12:35

I mean, if you go if you go off of this, okay, I've got a 25 year old fiance sitting in for me over in Russia, any good does that do hear any tool

12:44

has its limits? Okay.

B Bobby 12:46

One of the one of the other things is that a lot of the online groups, there's like two or three different online groups, who, once a week, actually get together, look at each other in person have coffee, hang out. And that's the other good thing is that there are some groups who see each other. Yeah, besides online, they actually interact in person, gender,

13:09

Euston cover girls being an excellent example. I'm a member of this group, or

c

Chris Harrison 13:13

like when the event and I was part of hosting here back in March, where, you know, we brought in 150 Big guys here to Houston. And these are guys who, you know, chat a lot online, awesome, and can talk and all that, you know, there's three or three with the one group one with a separate group events around the country each year, that gives you a chance to meet some of these people in person. And you know, sometimes the only way you get to meet some of these, and that's the benefit of where you were, you can use the computer and the Internet as a, as a tool as that gateway as an enabler. But you know, at some point in time, you got to stand on your own. And that's the important thing of what there you just can't sit there and rely on the internet because Oh, come on, I'll tell you, no

o

14:02

fails, we all fail.

c

Chris Harrison 14:06

You know, three, three ways are wonderful, but you want it with it with a Yahoo not with Yahoo. That's the thing, you know, you've got to you have to be able to have the interpersonal because if you're just going to be willing to sit there and have a relationship over the internet and with bits and bytes and with a webcam and you know, you know, yeah, it's great. You can actually talk to the person. But you know, like I said with the guy over in Russia that I talk with, you know, he wanted to talk on cam on through Yahoo and we turn on the microphones, and half the conversation was what

o

14:43

I love the internet I can I can live on the internet 24/7 But I have to admit something. It's awfully hard to French kiss somebody over on one. Yeah,

c

Chris Harrison 14:52

you gotta get the right adapters for that. You need you need USB plus, yeah, do that with broadband. Is

o

15:01

there is that weird I think it was a German company that had the cyber stimulation things. That was like if you had the same program, you hooked into your computer and like you put it on different erogenous zones and wherever the person you're chatting with clicked it stimulated your post USB vibe.

o

15:19

Personally, I would have rather have different people on my erogenous zone as opposed to different implement, hey

15:25

you can meet those different people

c 15:34

awesome. You got to meet

15:38

him on a bar. So to me, like, you know, like hanging out in bars? I don't do you know, for the most part, it's a whole nother it's a whole nother separate social aspect outside of coffee shop. I

15:51

think it's great because it gives it gives people a lot of people who want for one reason or another. They don't really do well out in certain social things and they just want to meet a lot of people or you know, they're not they're not people would go up and say hi to somebody at a coffee shop. Or say hi to somebody on the street or say hi to my husband club but online you know, you have that safety net between you and that person you know, but you know, that person's a serial killer

16:17

like they're gonna say, I wouldn't say I'm not a person who would sit in a coffee shop online either. I'm that's my home thing. Coffee shops are my talk talk stuff about politics and take everybody all the Republican white folks and around me just to get them off and make their children and throw them into the SUV and drive their

16:40

cars. You come to my place have non decaffeinate you know, non decaf coffee. No, there's no decaf ever.

c 16:47

There's no such thing. Okay, now do you serve anything besides any beverage besides Coffee? Coffee beer wine

⌚ 16:53
scotch?

⌚ Chris Harrison 16:54
Okay.

⌚ Bobby 16:57
I don't know I'm trying to get a visual like what you see

⌚ Chris Harrison 17:00
the only the only coffee I can handle is when she's performing over at JR so

⌚ 17:03
I'll do specialty for you because I like tea as well. I

⌚ Chris Harrison 17:07
for some reason. I love coffee ice cream, but I just can't. The only way I can drink coffee you

⌚ 17:13
like ice cream?

⌚ Chris Harrison 17:17
flavored ice cream, but

⌚ Bobby 17:20
Desi playing Scrabble

⌚ 17:25
favorite game Scoble games.

17:33

In the back of my car

17:34

playing hard scrabble game,

17:36

very hard scrabble game.

17:38

I love Scrabble.

17:38

I even have the hard Dilek scrabble

17:40

game scribbled date right it totally scrambled date with a header row.

17:46

It's got a really high

Chris Harrison 17:50

remember it's crowded it goes to space again the point

17:56

CUNY turns red though, does it?

17:58

I'm gonna do it. I'm gonna turn red

C

Chris Harrison 18:04

Okay, let's step out for a moment regroup. You know we've been promising to play this. The CD Jimmy started up earlier today and I haven't played it yet. But this was request just my only request this one. I think one of our MBBS requested a little bit of Josh here come here play out here. You've got your CD. You're the one who brought the music and I'm turning off your mics in there so quit talking. No, no, I love the power. So you know, who's ever playing who Josh Groban, Josh Groban and we're playing my confession and we'll be back with the rest of the roundtable Okay, we are back was just a little taste of temptress and oz qua that was crack the whip. Sir, what was that? You've got a temptress on air. Yeah, so you can say why?

♂

19:09

You know, there's a tempters temptress song I downloaded off the internet. It was actually an illegal download, at least at the time called via girl. It's really cool. Punk rock song.

C

Chris Harrison 19:17

G should have been listening. There'll be a girl who didn't play that when we play dress up. Yeah, yeah.

♂

19:22

I want to talk more about Tim's beat at COC.

♂

19:28

But I liked it the girls. Yeah,

B

Bobby 19:30

you got it done, but you're too shy to show it off.

J

Jimmy Carper 19:33

Can you? Can you tell us the background of beading? Well,

♂

19:38

it's for the female pleasure, but it's not pleasure.

19:42

Well, it originated Japanese originally in Japan, prisoners would take pearls and plant them underneath the skin on the shaft. And that's basically where originated and then does it increase the sensitivity? Oh, depends on your partner. Okay? And it depends on the person who they're planning on. Yeah, not in planning. That's a bad word placed on. Everyone has a different sensation. Everyone's very different. Some people like Milan, some people's partners love them

20:19

about your partner.

20:24

I never heard of them ever did not know what to expect the first time ever. But

20:33

yeah. Now she's,

20:36

I didn't really like him. I thought it was unnecessary. I thought it was ridiculous. And I'd never heard of such thing. And you know, your body as a female I mean, sure. Or anyone that's going to encounter beaded penis would say gay male. It's very different. It's very different. It's not something that I can say that I liked. I can't say that I did. It doesn't make it feel better. Or she married.

Chris Harrison 21:08

me he's willing to

Bobby 21:10

look at him. Oh my god, the

21:12

thing I had to get used to my body had to I mean, my body is now shaped and formed to fit his penis, honestly. And it wasn't before and it hurt.

 Bobby 21:29

The fact that she's just all out there with this. Well,

 21:33

just run so shy.

 Jimmy Carper 21:36

Shy, this beating is something that just is kind of the next big thing. Come

 21:41

in, and I'll do some for you. Okay.

 Chris Harrison 21:45

He wants to see the floor model first. We need an example of the work. Okay, let me just put it to you this way. There's more of us than there are view. I think your wife is willing to help pull your hands.

 22:00

Here's a wild idea out of left field. It's more JIRA. ever had anybody request putting magnets under their skin? I've

 22:07

seen that. Don't feel comfortable with it. Because I'm not exactly. Always paid on once in case. I don't feel comfortable with it at all.

 22:19

Here's where I got the idea. First of all, look, when science fiction writer wrote a book political novel called The Dispossessed about two planets. And there was this one planet very much like Earth, where the women especially I think the rich woman, if I'm not mistaken, would plant these magnets in a place under their neck or in their neck, white, this little hollow place, I think, and they were joules attached to them in this no

22:47

doubt. Yeah. I've seen I've seen pictures of people with magnets underneath their fingertips. But it just there's people do crazy stuff all the time. That doesn't necessarily mean it's right. Or say what if it would

23:00

mess up your body's energy field, though.

Bobby 23:02

So let's try to remember that the human body is going is going to act that is going to tell you it's going to tell anything that's put in it. That is not of it, that it is a foreign object, and it's trying and it's going to try and get rid of Absolutely. So absolutely. There are some things that should never go under the skin. Yeah, you

23:23

can. Yeah, your body with piercings. You're trying to trick your body. That it's, it's okay. It's okay. Not it's not a foreign object. And but yeah, so yeah, something should never go under

C Chris Harrison 23:34

anything that we should be playing. I got you under my skin. Okay,

Bobby 23:39

I do have one foreign object inside my body. Actually, three. I see that. I have a I have a two. But that's been in my head since I was a baby. And staples in both ankles. So you know, I see I know a little something. That objects hey, if I get there.

C Chris Harrison 23:57

I'll have a foreign object in me. But we want to swing the mic over there. We were talking before last week about the PWA holiday charities Christmas in July. And we want to go a little bit of an update there. Today. There was when was it? That was last Sunday, less than what we talked about last Saturday. So you said went off surprisingly well or extra? Well? fabulously. Yes. You Scott.

24:20

Yes, it was great. I just wanted I just want to thank everybody that showed up to the VRB on last Sunday and gave our support. We raised over \$4.000. And that money goes to the BI

Somers Memorial Fund, which is what that is, is the list that is maintained by the Colt 45. And with that money and money, other monies they've raised over \$7,000 in that money is used for there's a list of 70 people that have AIDS and that are below a certain income level and we all write them a check for \$100. So that's \$7,000 They can use it for whatever because of high electric bills against for the bills, they can use it for medicine, whatever. So that What that is if you need any more information if you if you want to donate I mean they're they're more than welcome to take anybody's money the number is 713-526-6077 Once again I want to thank everybody that showed up it was great it was the worst drag you probably ever seen but it was hilarious really Harrison Sister Mary pitiful was pitiful

25:20

and if you don't know the BRB is the Brazos River bottom over by specs you said

25:24

right it's by specs on Brazzers straight right by specs liquor I'm sure a lot of people know specs 2400

c Chris Harrison 25:28

gig in that country bar gig country western bar that confused me the first time I was chatting with somebody online and they said BRB I go You're not from Houston where are we talking about some bar there's a real is a be right back.

B Bobby 25:42

Everyone has to go through this. And the way the way that lots of services are getting you know chopped, chopped and taken apart at the seams every little bit counts when every

25:54

every little bit to know we wish to save more money you know, have a survive

B Bobby 25:57

on that stuff.

25:58

Right? Is that what that green pass was for? No, there you pass was for the damn party. Actually, that's tomorrow. It's a customer appreciation party that we're throwing. It's from five to midnight we have free draft beer would have hot dogs for you on the patios please come bv?

As great. It'd be a lot of men from all over the country there. So that's tonight. But starting by pm, yeah. At the

 Chris Harrison 26:22
beer Brazzers river Bob 13 hours.

 26:26
from five to midnight. A little bit

 Chris Harrison 26:28
Newsflash, we've been talking quite often there are quite a bit about gay marriage and all that. The first ever Canadian lesbian couple divorce is coming up. It's going through the courts. A little problem we're having up in Canada is their divorce laws are still gender specific. And it says man and woman so they've got to get that straightened out first before they can get divorced. And very simply, always remember the leading cause of divorce is marriage. But you know, we're getting close here to the end of the show. And I've been wanting to play this. It's not my favorite of I'm not a big fan of hip hop. And you know, I've I've gotten some things lately they've intrigued me with that. But this is one that's one of the plagues is intriguing little theme here. It's called no DOMA in my home. In Oklahoma, no, Connecticut was written by Rob Furman. And no home and my DOMA and very interesting career I interesting play there. It's got this from the

 27:43
organization. It's hey, if they have good country western. Well,

 Chris Harrison 27:48
yeah, we've we've done a lot with gay hip hop. It's the organization called people for faith for gay civil rights. How about gay rock out of kin out of Connecticut. So I want to play a little bit of that. Before we wrap up, we'll wrap up toward the end of the show. Because we are fast approaching. So we're gonna hit that. To thank everyone for coming in. And next week, it's the fifth Saturday, so we'll be playing JD JD we'll be here with a bunch of music and the other bits of insanity that we usually have. That comes through on our show. If you want to send us news information, storylines, ideas, love mail, hate mail. dirty pictures. Can't hit the full set of like Jimmy does. Jamie.

 28:43
Sunday Sunday, there's

C

Chris Harrison 28:44

two ways you can get a hold of us by the traditional snail mail. It's after hours care of KPFT for 19 Love it a Houston Texas seven, seven double oh six, or you can send us an email at after hours at KPFT dot o RG. We'll be back again next week. And hopefully as long as the SEC doesn't hear about this show. back next week coming up on top of the hour is Ross stem on vibrations. And this is Rob Furman. I mean my sure hit all the right buttons. Rob Furman with no DOMA in my home ah
