SUMMARY KEYWORDS

dental dam, condom, safer sex, sex, lesbians, houston, stds, interview, jim, lesbian, french kissing, talking, women, safe, information, latex, hiv, tiffany, nla, transmit

SPEAKERS

Jimmy Carper, John Benoveve, Stacey, Speaker 5

J Jimmy Carper 00:03

The incomparable Jimmy Somerville dare to love. Yeah, you're listening to after hours quarter radio with attitude on KPFT Houston and KBO College Station. We are back with Stacey and John. Yeah. And

S Stacey 00:18

I'm John. And I'm

J John Benoveve 00:19

staying. Well, no, I'm not. No I'm not. I'm Oh, can I be? I don't know. Pick. Okay, I'm

S Stacey 00:26

gonna be Stacey.

J John Benoveve 00:28

Well, I don't want to be John. Okay, John too long.

S Stacey 00:31

So pick somebody else to be. Wow. Think about it. Think about it. I am really glad you're back. Jim. I did not know she would make it back by the end of that song. I was really nervous. I know my time. Oh, good. Because I was gonna go in there and just start pushing buttons. Okay.

J John Benoveve 00:49

Speaking of technical difficulties,

S Stacey 00:51

Oh, yes.

J John Benoveve 00:54

Stacy seemed to have those. Yeah, us and any cut type of equipment together. And so does it work? Sometimes it works. Sometimes it doesn't. This is kind of scary, considering that we play with all different kinds of toys. Yeah, but

S Stacey 01:08

and you specially play with electricity.

J John Benoveve 01:10

I know. But not when it's not when you're having to confine it to a little bit of tape recorder. Oh, well. Okay.

S Stacey 01:17

He's Oh, folks. He is great when he can put the electricity on your body. But to get your voice on a recorder, forget it. We will get back to why you were talking about that. We had a

J John Benoveve 01:29

little we scheduled an interview with the new owner of the venture in Jim Roberts. Yeah. And we spent about 30 minutes going through the first interview, and then realized that it was not taping properly. So and then we went through it again. And it was a great interview. But we still didn't take that proper.

J Jimmy Carper 01:55

It's on a very, very, very, very fast speed. And so when you play it on the regular machine low

J John Benoveve 02:10

J

JOHN BENOVEVE 02.10

you did that real? Well, I think he went back and listen to that tape again. Just perfect.

S

Stacey 02:18

Now, Jim, we really want to apologize for those. We are absolutely. Yeah,

J

John Benoveve 02:26

you could see me right now you would see that I was read. Yeah, he is. He's right. I'm so embarrassed. What? I have no idea where that no idea where that came from. But again, I do want to say I'm sorry, Jim, we will make it up to you and I will get you on the air, which is what we want. Yeah. If you haven't gotten a chance to meet Jim, the new owner of the Venturi, and he's an unbelievable man who has been very active in all the communities in the cities that he's lived in. We found this out in the interview. Oh, yeah, of course, we will get him on the air so he can tell this himself. Please accept my apology again, Joe. It was Stacy's fault.

S

Stacey 03:13

Thanks. I love you, too. No, really, we're sorry, Jim. And we'll try and reschedule for about a week when you're back in town and try and do this correctly. Well tell we're

J

John Benoveve 03:24

gonna have to be alive kind of thing. So that way, the people who know how to work the tape recorders can

S

Stacey 03:29

know what we'll do is we'll just bring Don so he can tell you that it's recording right or not.

J

John Benoveve 03:35

Okay, that'll work. That'll work.

S

Stacey 03:37

I have an apology myself. I know they're listening. Some friends of mine. Tiffany, I am sorry. We are down to the last 30 minutes of this evening. And you know, as well as I do that how long our interview went. This is an interview with Tiffany. She is a newly elected fist member. She's very active in the community. I don't know she's gotten in touch with you yet. Jim for the switch. Oh, yes. Okay. During the weekend. Yeah. So she's involved in the switchboard. She's involved with the Montrose clinic. She does. She does one of the safe sex for women and

lesbians. And we got together last week and probably did about an hour interview. And hon, I'm sorry, I cannot play the whole thing. What I'd like to do is play about 15 minutes tonight. And just you and I and John make this an ongoing type thing.

J John Benoveve 04:37

Or if number one let's talk let's first say what the interview is about because this is something that can be an ongoing Yeah,

S Stacey 04:43

it is. Lesbian and women safe sex. Most people talk about safe sex. They think of gay men. They don't think about heterosexual women, heterosexual men or lesbians.

J John Benoveve 04:57

I think you've also got to realize that when you're talking about safe sex you We're talking about the SM community, you're not just dealing with safety on a level of viruses, you're stealing on safety on a level of someone's physical being writing and say being safe. And that's where we're going to take this with, with the lesbian community that there is safe sex when you're dealing with s&m that pertains to what? Yeah, that that is that is aside from hepatitis or any of the,

S Stacey 05:33

the first part of it is to get the information out there about safe sex in general, which is what we did. I mean, I even taught she even taught me right there in the interview, to get a little bitty pair scissors, unwrapped one of those gold coin condoms, and cut it to make a dental dam. And then showed me how like, if you put it on the pulse points on the crook of your elbow, you can still feel your body heat and you can still feel your pulse through these things. So she gave me some information on that and I figured we would just take it from there and make it an ongoing interview. Since she is knowledgeable on women and lesbian safe sex. Okay. Are we getting ready to run that? Okay, let's run it. Here with a friend of mine, we're going to talk about lesbian women's safe sex. John is not on the tape with me, but you'll be hearing him live after the tape. As I said, I'm here with personal friend of mine, Mrs. Tiffany. She says Hi. Um, what we're going to talk about tonight is women and lesbian safe sex. I'm making the distinction just for the people not necessarily for Tiffany and I, because we're both very comfortable in our own sexuality. So let's start with Tiffany, who are you? Because I know you are new to Houston.

06:55

Yes, I moved here about six or seven months ago, and I'm from Waco, and I was trained as a sacred text worship instructor sponsored by the Gay and Lesbian Alliance of Central Texas funded in part by the names project up there and the funds were apportioned for safer sex

workshop instruction and education in the Central Texas area. I've done a couple of safer sex workshops down here and that's about it.

 S Stacey 07:24

Okay, well earlier you said you were only one of two people doing it for women and lesbians
Yes.

 07:30

That's that's what I've heard now okay. From from every time that I that I say that I'm a safer sex workshop instructor one particular person name comes up and I don't have it with me right now but I do know that they do a program at at the ranch. Okay. And she's and I'm not real sure if she has anything to do with them AIDS Foundation Houston, but but I do know that that's where I heard of her from

 S Stacey 07:56

okay. Now how do you get in touch with people? How do you get your name out your information now?

 08:03

My information basically is is going out. And most of the time people come to me because I'm I'm I'm Miss safer sex. Everybody knows that I'm that I'm really into it. And so if people usually I'm the one that's approached, because I'm so vocal about it. And but I do want to try and get involved with some sort of a program or even just a personal push to try and do some house parties and some other things. Okay, I

 S Stacey 08:30

was gonna say, what is a house party? You mentioned that earlier? Yeah,

 08:33

house party is kind of like a Tupperware party. It's a it's a hands on experience. I found that the safer sex packs really don't do a whole lot of good if you don't open them up. So that's what I'm trying to do and try and open them up and get people to feel the condoms to taste the condoms too. Especially with women who who may or may not have nails. You want to make sure that that they understand how much it takes for a dental dam or a glove to break. And so that's what I try and do is I try and make it a comfortable everyday experience so that when they're actually in the situation, they know what they're doing. They're not afraid to open up the condom. Okay,

S

Stacey 09:13

great. Great. All right. So let's start with the basics. What is safe sex for women and lesbians?

♀

09:20

Safe sex for women is real general. I'll start with safe sex for lesbians. Safe sex for lesbians is the same as safe sex for anybody. There are four fluids of transmission, semen, which of course it's not going to apply to women to women, but it may apply to some women if they choose to have sex with men. The blood of course, which everybody has it, breast milk and

S

Stacey 09:47

saliva.

♀

09:48

No, it's not saliva. Thank you for bringing that up. though. It's not saliva. It's not it's not tears, blood semen, vaginal secretions and breast milk. If you would think I would remember veterans. Though, that's it, those are the four body fluids. That's the only way that you can get

S

Stacey 10:08

it. So women cannot get STDs by French kissing.

♀

10:14

In, in the practice of sex, things that would not be normally characterized as sexually transmitted diseases become sexually transmitted diseases, for example. E. coli bacteria, it's not a sexually transmitted disease, but if you put your tongue to someone's anus, chances are, you know, there's a lot of stuff down there that you don't want to get if you don't have a barrier appropriate to the situation. You know, you get that bacteria that becomes a sexually transmitted disease, right? So you could get other things from French kissing, but you're not going to transmit HIV unless you have a mouth full of blood and there's an open sore on somebody right now.

S

Stacey 10:57

Right? Okay. So, okay, you said that things that aren't usually STDs become STDs. What? It let's just start with saliva, because there is been a myth out there that people believe you can get STDs. Now, when I say STDs, I'm talking about hepatitis B. I'm talking about AIDS, and I think HIV, HIV and there's one other one I believe for sexually transmitted. Yeah. I believe I may be wrong. There's a whole lot more. Righty anyway,

11:32

you have a gonorrhea herpes. In Gu which is non gonococcal or nonspecific. You use rhinitis. Okay, I have I've never heard of that syphilis and vaginal itis. Right now there is a rise in syphilis recently. I can't document that with anything. Sure, right now, but I do know that that there is a rise in concern over syphilis and chlamydia.

S Stacey 11:59

Okay, so these are the lists. This is the list. TDs Yeah. Okay, we'll go over that. Again. I'll ask you again. What STDs are so everybody's clear about it. Let's just do it one more time. A little slower for me.

12:15

Okay. AIDS, which I don't like to say that you're going to catch AIDS from somebody I like to say that you're going to contract the HIV but okay, which may or may not cause AIDS, Chlamydia, genital warts, gonorrhea, which is also known as clap genital warts, known as venereal warts, herpes in Gu which is non gonococcal or nonspecific urethritis. Okay, syphilis and that united,

S Stacey 12:42

okay, so which those are infection. Okay, so those are the things that are STDs generally, generally. Okay, now you said things that are not STDs then become STDs are can be, what are we talking about? Let's just say on a French kissing level,

13:00

on a French kissing level. So gingivitis would be I could come up with you're going to catch a whole lot from France kids. Okay, common cold.

S Stacey 13:17

So the myth out there that you can catch STDs through saliva is exactly it. I'm gonna have to go ahead and

13:24

refute that one. Okay, somebody could pick him up and convince me otherwise, but the information that I have, no,

S

Stacey 13:30

okay, now you're not. We're not gonna sit here and say you are the absolute? No, not at all. So if you have any questions, check with your local check

o

13:42

with with Montrose clinic is a great go. And, of course, AIDS Foundation, Houston. If you want it if you don't want to go set with something local, you know, you can always call and fair they're both good about having a clearinghouse of information. Planned Parenthood is wonderful. Having all kinds of things for women's issues in general. And

S

Stacey 14:05

that's great. All right, well, that gives us an idea. Now um, one of the things that most people think about when they think about safe sex is the yield favorite condom.

o

14:15

Yes. Favorite for a man? Yeah. Favorite for guys it? Yeah. Then it is very effective for men. Yes. A very effective tool for men. If I could get every guy to use a condom, I could probably reduce his risk of transmitting by 99%. So why

S

Stacey 14:35

let me ask you this. Then I'm sitting here we're looking at a safe sex pack cat for women and lesbians. And I'm looking at what three condoms. Yeah, condoms.

o

14:47

When I'm putting a six pack together I tried to put in. I tried to put in more unlubricated condoms than anything else. Condoms for lesbians or Are women there's a whole lot of stuff out there when I'm putting the separate text pack together. I don't know what people are doing in their bedroom. So I want to try and give them a pack that's going to that's going to I mean, if they're going to have sex with a man, I want to give them a condom that's going to be efficient with sex with a man Okay? Basically, what I try and do is, is have a condom that they use on toys, Sinclair's boys, dildos, vibrators, you know what I mean? You need to have a condom on anything that you're going to put inside of somebody. And especially if you're going to share it if you're going to share sex toys, you need to put on a dip a new condom for every success with each person. Okay,

S

Stacey 15:38

now what about women who are alone, and they use toys? Women

15:43

who are alone who use toys, if you will use your toys exclusively on you, then then it's it's free game, chances are you're not going to transmit anything back and forth to yourself except for a yeast infection, which in my opinion, you be safe all the time, even when you're playing with yourself. I mean, I use a condom on on my sick boys when I'm when I'm just masturbating. So you do that to prevent just infections more than you know, HIV or anything. It's any type of infection. If you're protecting yourself against HIV, chances are you're not going to get anything else and that's and that's the umbrella I like to put it ever.

S Stacey 16:19

Great. What about now I always I always heard that you need to clean your toys, even though even if you're using them yourself or with partner

16:29

always always because there's so much bacteria. I mean, just soap and water or no ma'am. You need to use I believe that it's outlined in this brochure that I usually try and put in most of my safe sex packs. It's put out by Gay Men's Health Crisis and it has fabulous instructions on how to clean you need to use a bleach solution now that's not pure bleach. Yeah, you need to liberally wipe down the vibrator. Well make sure it's unplugged if it's if it's if it's plugged in kind of liberally Wipe Wipe it down with a washcloth and bleach solution which is one part bleach to 10 parts soapy water.

S Stacey 17:09

Okay, so you can still use soap but added added bleach just to make sure Okay, right. And you can this is storebought bleach you can use right? Okay? Right?

17:20

It makes sure you you you know, you rinse it off real well because you don't want to put bleach in your body.

S Stacey 17:28

Okay. That would not be wise. That would not be wise. Okay. Now back to the condoms. Most people are most women are lesbians. I guess most lesbians would be offended by seeing condoms. In a kit.

17:42

17.43

Condoms make a fabulous dental dam. And if I can kind of explain to you what I'm going to do as long as you can make a dental dam out of a condom, and that's why I put them in. Okay, let's, let's explain what a dental dam is. Okay, a dental dam is dental dam in the in the technical sense, is a square piece of latex and it's usually used by dentists. That's the name dental dam when they're working on your teeth, but it also has a fabulous use as a barrier appropriate to the situation especially with with oral sex, okay. So if you take your condom out of out of its package before you unroll it, if it has a tip on it, and this is another thing when I do lay lesbian at reservoir, okay, that would hold semen. You can also buy condoms without the reservoir tip, which is what I usually do, at least put one of those in with the lesbian with a lesbian pack for the vibrators and those because they're not catching semen, right. I do like if you're going to make dental dams to have the reservoir tip because it makes it easier to take a hold of the condom. You take a hold of the tip with your thumb and your forefinger. I carry around my little pocket knife

S

Stacey 18:58

that has a pair of scissors on it or your little basket literally a Swiss army knife with little bitty scissors and it's always on my key so

W

19:05

it's close to yours. Yeah. And you cut off the tip. Just cut it completely off.

S

Stacey 19:12

And she's cutting away. Okay, what happens after you cut it

W

19:16

after you cut it after you cut the tip off. Then you're gonna cut. Cut up the side, just cut straight through of one of the sides. Okay. And then you're going to unroll that so it looks like a square. Once you're done. It's going to be a square once you unroll it. Okay, now what about the myth that you can't feel anything through these things? You haven't used latex for some people that may be true. I love the feel of latex. I guess that's why I do what I do and practice reach so much. I know that for lesbians. Some I've heard both arguments. Some lesbians don't want to use a dental dam because there is no tag because they don't have the taste. All right, honestly, I know quite a few more lesbians who are more willing to perform oral sex because they don't like I mean, because there's, there's a hinderance for the taste. And I mean, like I said that it. Yeah, it comes from both sides. It depends on what you like. It depends on what you want. And okay, but

S

Stacey 20:19

you can still feel buddy through that thing. Yeah, cuz I just, we just unwrapped a condom in this lesbian safe six she gave me we made it into a dental dam. We just unwrapped it is very thin

lesbian said she she gave me we made it into a dental dam. we just unwrapped it is very thin latex that you can see through

20:33

which is much better than a denture Yeah, which is very thick. And what I did

S Stacey 20:37

was, I put it against my elbows on the inside of my elbows where you kill a lot of body heat, and you can still feel body heat through

20:45

there. Another thing that you do is that that's where your lubes and your medical gels come in. You want to make sure that it's always water soluble, so that it won't break down the latex because that, you know, you're gonna break down the latex with the lube that you're going to use. You're taking out the whole point of safer sex.

S Stacey 21:01

Okay, so when we go to when people go into the store to buy lube your local grocery or pharmaceutical, we need

21:08

to read the content, read the contents. Most of them will say water based personal lubricant, I use a good one. Ky is a good one. Astroglide is a good one.

S Stacey 21:20

Okay. What about and this is, I guess, because I'm a little bit older than you. I grew up with baby oil. No.

Speaker 5 21:31

No, any oil based product breaks down latex.

S Stacey 21:34

Okay. So don't use baby oil with your latex. Right, right. Now, what about gloves? I know of a lot of people that find them very offensive.

S

Speaker 5 21:45

I love gloves. Well,

♀

21:47

why did they find them within?

S

Stacey 21:49

Again, it's they can't feel anything.

♀

21:52

They may not be wearing the right size of gloves.

S

Stacey 21:56

Oh, they're not new. There were sizes.

♀

21:57

Yes, gloves come in different sizes. They're always the one size fits all. But I've always looked for the small, medium or large. And I have very small hands. So I need a small glove. A glove is supposed to be tight. If you've ever seen surgeons on any kind of shows or whatever. I mean, you can see it's just like you can see through this condom when it's rolled out. Right, you should be able to see your hand through that glove. Okay. And you know, this one that I have right now. I mean, I'm gonna put it on and you're gonna know it's already to my hands. Because you know, yeah, it needs

S

Stacey 22:34

Tiffany. Am I on yet? Yeah, yeah. Okay, Tiffany, Han. I'm sorry. We ran out. Feeling. Okay. I've ran out of time. We will redo some of that. And you and I and John will make this an ongoing series. Yeah,

J

John Benoveve 22:50

that's really good. Yeah, lesbians. Yeah. And I

S

Stacey 22:53

really appreciate your patience on Thank you very much.

J

Jimmy Carper 22:57

Well, that gives everyone you know, reason to back in.

S

Stacey 23:02

Yeah. Part two. You had a comment earlier about lesbians and lubes.

J

John Benoveve 23:12

That's an interesting concept. Yes, it is. We won't go into that right now.

S

Stacey 23:22

Oh, I know. We got nine minutes.

J

John Benoveve 23:26

Actually, what I think what we what I'd like to do is reach over here. Excuse me for a minute.

S

Stacey 23:32

Oh, sorry. Oh, tidbits. Yeah,

J

John Benoveve 23:35

let's talk. Let's look into the voice here.

S

Stacey 23:38

Oh, honey, please. I've already done it for you. Oh, you're so good. I have Thank you.

J

John Benoveve 23:43

My secretary says he has everything together here. Yes.

S Stacey 23:47

I still have I even still have the safe sex kit. With me.

J John Benoveve 23:51

I have one of these. I have one of these in my car.

S Stacey 23:54

Yeah. This is the lesbian safe sex kit. Okay, I don't have dental dam. I wonder love. Okay. It still has the condoms. But ours just has the gloves?

J John Benoveve 24:06

Well, actually, no, no, no man's comes with dental dams too, because there are places that you have to use them on, man. That's right. I don't want

S Stacey 24:13

to hear this. I don't want to hear this place. I don't want to go right now.

J John Benoveve 24:18

Okay, well, we're gonna we're gonna go to tidbits. Yeah. Oh, and there Stacy's tidbit.

S Stacey 24:25

Yeah, I've here. Oh, look these little.

J John Benoveve 24:31

Here we go. PFLAG gathers in DC to lobby for Edna. Yes. Nearly 200 Parents and Friends of gays and lesbians gathered in the US Capitol March 19. From all over their community from all over the country to lobby for a bill to prevent discrimination in hiring, firing and promotion based on sexual orientation. On behalf of the employment non discrimination act, Edna

S Stacey 24:58

right that's and you can get more information on that in the voice I've seen in in outsmart I've seen it in twit. Just keep looking around to you find it because it is unbelievable group of

people. Oh yeah. Flag is a great group. Okay. The other thing I have got is let me well, I want to read this one. This is one of my favorites. I am I guess I guess you could say I'm a lesbian from way back. I am a huge Martina fan. Huge Martina fan. Is this what you're looking for? Okay. Virginia Slims is coming back to Houston. Yay. The tennis tournament. It's called Virginia Slims legends. It's going to feature Martina Navratilova. Billie Jean King. Zina garrison and Pam I don't remember her last name. It is at the West Side tennis club may 18 through the 19th at 1pm. And tickets can go ahead

J John Benoveve 26:02

the number for tickets you can get them to 713-953-1111

S Stacey 26:08

Now this is benefiting the national AIDS Fund and defer Yeah, so get out there ladies and get your tickets for that. It sounds like fun.

J John Benoveve 26:19

Yes. I've also been asked to repeat the NLA Houston Pio box. That is P O Box 66553 Houston, Texas 772666553. That's in LA Houston.

J Jimmy Carper 26:40

You know you were talking about habit people exchanging power. And I was at the switchboard the other day somebody asked about that group and I looked in, I couldn't find a listing for for pet

J John Benoveve 26:51

for pet. A right now. The only way I could tell you to get a hold of path would be through NLA because they work so close together. Okay.

J Jimmy Carper 27:02

Folks at the switchboard know that

J John Benoveve 27:04

and most of their networking is done within their own little group. Well, I think you're Yeah, yeah. Okay. We're gonna go on Pride Week and parade information Pride Week. We'll be on June 14 through the 23rd this year. The annual pride parade will be June 23rd. From five until

seven followed by pride fest 96 At seven o'clock, the route will be down Westheimer eastbound, from Woodhead to Whitney. Okay, just hands me little pieces of paper and says read the highlighted area.

 S Stacey 27:39

Okay, um, I want to make a plug for beyond vanilla ate in Dallas, which Yeah, it's great. Which two years ago I went to and that's how I got involved in the NFL. It got involved in the SMC. So if anybody has a chance, whether it's through your local club affiliation or on your own, go up there and help them within LA, help people help in LA Dallas. Beyond our do be on vanilla, because it is excellent. You can learn a lot. The people are great. It is fantastic. So we don't have dates on a yet. As soon as I know him, I'll get them out to you. I'm sure if you have any questions, you can turn tech in LA Houston here, and I'm in touch with in LA Dallas. Yep. The other thing and I believe, well, it's one of our local papers and I don't want to misquote the paper. It is over we get ready to go. Okay, one quick thing in an article called plain speaking, the gentleman that wrote the article said nearly every gay Republican I have had the misfortune to meet what I don't appreciate is not every gay and lesbian out there is Democrat some of us are Republicans. Right? And we are nice people so you just haven't met the right people on

 J John Benoveve 29:05

my right. You just haven't met the right Republicans. My lover is a Republican so am I see that was mine. So that's an interesting household. talk politics money.

 S Stacey 29:16

No. kinda let it go. Yeah,

 J John Benoveve 29:19

I guess we're gonna say good evening. Okay. Is that Is it time?

 J Jimmy Carper 29:23

Oh, I do want to mention, the Gay Men's Chorus of Houston is putting on a special show next Saturday night at eight o'clock at the First Unitarian Universalist Church. I know Greg Jew from outsmart will be there because he loves gay men course music good and it's free. But they're asking that you bring \$10 worth of items or cash for stone soup. Isn't that cool?

 S Stacey 29:49

That is wonderful. That is cool. Of course, more. I'm sorry. Two more bits of tidbit real quick. If you got the pride newsletter, you got your share card. Add for Kroger, get out there and use it.

J Jimmy Carper 30:03

Don't forget you have to give it to them. Yes for they start ringing it

S Stacey 30:07

not necessarily. Oh really? They go through the first three items. I'm like, oh wait, can you use it? They're like Oh sure. And they just scan it so cool, but try not to get halfway through your garage. The other thing is I want to congratulate the Texas Renegades on their 11th anniversary party. That was tonight, march 23. It says March 23. I believe that's tonight state. I want to go wrong. Congratulations. Anyways, yeah, either early or late. Congratulations, Texas renegades

J John Benoveve 30:36

and a special a special congratulations. I want to go out to Mr. Don Gale. Oh, fabulous, fabulous, fabulous event that he just put together called a night black leather. It's the second one. And I've had the pleasure of being able to help him on both of those. Right. Don Gill was an unbelievable promoter. He just he starts months beforehand. And we thank God for that he has right now a total of about \$5,500. That is going to lady victoria last PWA. That's

J Jimmy Carper 31:09

this is a guy. I've never seen him in a bad mood. He is always

J John Benoveve 31:12

up. Yes, he is. Oh, yeah. It's incredible. I wonder if it's, I wonder if it's Andrew?

J Jimmy Carper 31:18

I don't know. I don't know. I mean, and I have I have seen him at fundraisers where it's been incredibly lightly attended. And he is still in a good move. Yeah, it's always in there.

S Stacey 31:33

So do I do we need to say goodbye into a station bright announcement? Yeah. Okay. This is Stacy and this is John. And we're going to say goodnight. And goodbye until next month. Well not goodbye. So long. Farewell. See you soon. Till next month. You are listening to KPFT 90.1 Houston. Ke O 's 89.1 College Station, queer radio with an attitude.

J

Jimmy Carper 32:02

Stay tuned coming up in 45 seconds. We'll be monitor news for about four minutes and then the square root of Jim squared will be here. Gilbert Good. Good night, everybody. Good night.
