SUMMARY KEYWORDS

houston, people, year, work, good, cbt, hatch, leather, whip, talking, organization, hours, lesbian, absolutely, nominees, events, group, club, wonderful, sound

SPEAKERS

Chris Harrison, Jimmy Carper

00:00

And you realize you have two minutes of film that you need.

00:06

And must be a hard process,

00:07

it's an extremely hard process, because you don't want to get rid of anything. Because you work so hard to build up everything. And by the end, you have these awesome pieces of emotion. And it's a very emotional process, very worn down by the end, crying tears, you also do performance pieces with it. So some of us, like myself for a long time, I couldn't, I couldn't do a lot of the performance pieces. It was really hard for me and

00:37

I know this, if I remember correctly, this year, you had a little bit more performance in your

00:41

I had a pretty good amount of performance. And actually, you don't see what goes behind the scenes. And, you know, the entire day of arguing that it took me to get to that point and crying and, and it was it was really scary for me to be in front of so many people. I like my position to be behind the camera. And in the books and in the writing and putting myself out there is is pretty, it's pretty scary. And I had a pretty big breakdown this year of not wanting to get in front of everyone with the piece that I had. And we kind of took what they wanted me to do and

took it down on a smaller scale because I just I couldn't, I couldn't but I've come a long way from from where I was. And what we're doing now is just widening the base of what's what we've been doing. And also making it a national project and our first city this summer is confirmed to be Seattle. Oh, wow. And I am so excited to be on this project. And you know, I haven't been with it the entire time. It's been around but I'm I'm excited to be with it the last few years and to watch it grow so much.

01:45

This kind of helped make a career decision or career path for you.

01:50

Absolutely, absolutely. That's that would be why I'm going to tea. So do we have a caller? Yes.

J Jimmy Carper 01:58

We have a caller don't know they haven't told us yet. So all right,

02:02

we'll keep talking then. So that's why I hope to attend UT and I think a lot of people are misinformed when I tell them I want to do film. I think they think oh you want to be the next Spielberg Oh, that's so hard and so many people don't make it and I think what they don't realize is I don't want to be I feel barque I'd be the

02:23

next Michael Moore the guy who just won the Academy Award for Bowling for Columbine. The

02:28

right exactly, I'd like to see a little more documentary. That's what he's famous for, on a lot more smaller scale, I wouldn't even mind finishing up with my teaching certificate and being an art director and doing the same thing along the lines of as Barbara Jima and, and I'd like to travel in and just, I enjoy taking things that I've seen in my head, and sharing that with people and making them understand how I feel about something. And that's an amazing thing to watch people understand without sitting down and having a conversation with them. And this year, my perform my piece was it, it was out there for me. I didn't expect it to be as good as it turned out being and I really enjoyed it. And I had about you know, 36 gallons of water dumped

03:21

down, you know, I was gonna mention that.

03:24

It her peace was very good.

03:26

It was it was it was it was it was like it was like taking a little microscope and maybe really shifting into looking into one little aspect but really, really concentrating it was very intense.

03:41

It was It was intense to make for me. We went I didn't make up for it. And it wasn't like hours of makeup or anything but you know, you're filming over more than one day span. So you have to the makeup the same both times. The outfit was interesting. We argued about that for a while

04:02

it was a stark white shirt if I remember it

04:04

was the first the first shot I'm in a corset basically a skirt. And it was interesting for me and I was really nervous about it and body conscious and, and but it ended up being a really good thing for me to do and I really enjoyed it. And in the end, like I said, that's like 36 I'd have to say 36 or more gallons of water dumped off. And it was supposed to basically look like I was drowning. And at some point, I really was when they climbed up on the ladder, they climbed up on a ladder with a large storage bin of water and it was a one shot kind of thing. Either we get it with a shot or doesn't happen. And we were doing this enclosed spaces in art walls. There was art walls all around us in stark white, and those are there their display walls and heads would have been rolling if those walls were destroyed. Not to mention that we had cameras plugged in to be shooting everything,

05:12

hoping you're not electrocuted. We had,

05:14

you know, we had light down because I had different light angles in it. And so it took several steps of trying to figure out how we were going to get people onto a ladder, dump an entire crate of water on me not electrocute ourselves, not get them in the shadows, not mess up my

lighting, and not actually drown myself. And once once they got up there and did it, the water is coming down. And I'm thinking, Okay, why just coming down in the first few seconds, you see, we kind of laugh, then it's like, oh, God, how much water is coming down. I didn't really realize how much water it was gonna be like I saw them carry it up. And I saw them fill it. But you don't realize how much water that's going to be when it's being poured on top of you. From above. And it was at some point, I look up and I'm putting my hands up because I actually wanted the water to stop. I couldn't kind of figure out what it was going to end and I was having troubles with it. But it ended up working really well for the purpose of of it being shot. So I got a lot of good footage and a lot of great sound from it. But it was a lot of hard work. It really, really, really was. And if people think that that making film is, you know, really easy. It's quite the opposite. It's a lot of tedious, tedious, tedious things. And it just happens to be something I enjoy. I enjoy tedious thing some all the little details have to be just right. Otherwise, you've got you know, 10 people in your audience going Oh, that wasn't the same as that lash. Other arm. It's just been an amazing process for me, though. My first Yeah, my first year, my first film, I did a scene of me doing my makeup and the camera in doing doing my hair and people watch it. And every time I have someone new, watch it, they turn and go. How did you do that? Did you figure out where you were going to be in the camera? And it was like, oh, yeah, you know, about three or four shots into it, you kind of figure things out. And you just got to play with the camera. And I think what we did was twist the LCD screen around on the camera, which is a little viewer that you can watch your you know, while you're making your little home movie. And I'd watched myself in it and do my makeup and film it all at the same time. And it was just I think that was one of my the funner things that I did with it.

J

Jimmy Carper 07:57

So okay, I got to interrupt y'all for a moment. We'll have to do our standard election stuff. And then hopefully when we come back, we will have Dean Becker on the line. So here if you're listening to queer after hours, queer radio with attitude, and here is the election stuff.

o

08:23

KPFT elections are underway, candidates speak their piece every half

o

08:27

hour. Hi, my name is Al Delaney and I'm a candidate for the KPFT board as a listener member. I really don't have a set agenda other than wanting to help the station realize the Pacific commission. That said let me share my thoughts on a couple of issues. KPFT is a wonderful resource, but I believe it's being underutilized. We have gotten very good at broadcasting to Pacific comms preaching to the choir so to speak. And we do need to do this. But we also need to better engage and educate non Pacific ins. I would like to see more programming having that goal in mind. We all know Houston is extremely multicultural city. But currently the station only serves a fraction of that diversity. I think we should be doing more effective outreach. Again, my name is Al Delaney and I'm a board member candidate. Thank you

o

09:17

to find out more about KPFT elections visit the KPFT website@kpft.org.

09:28

KPFT elections are underway. The deadline for last ballot claims has been extended to Friday, January 23. If you have not received a ballot and you know you're a member of KPFT, you should act immediately to secure your right to vote in the local board election. Please go to the KPFT Houston webpage at triple Dub kpft.org and click on late ballot procedure for complete instructions on how to make your last ballot claim. Remember last valid claims must be received by 5pm no later than this Friday. So if you have not received your ballot and you believe you're eligible to vote in the local board election, you must act now. If you have any problems with the procedure or the net is not available, please call KPFT during business hours at 713-526-4000 and we will make every effort to assist you.

10:29

On January 31 2004, comp proclaim victory riches Houston, downtown entertainment and official media partner KPFT 90.1 FM in Houston. For the party tonight are we celebrating the return of Saturday nights at enriches? Yes, it's true. KPFT is after hours and will be on hand. But the nonstop face for radio doors open at 9pm this special DJ Joe goes. For information call 717599606 Check out WWE oil parties.com www kpft.org. The deadly deadly deadly riches.com After our boys and girls why play the Superbowl anywhere else? And Rich.

Jimmy Carper 11:25

And we're back and we have Dean Becker on the on line one. Dean, are you there? Hello. Good evening. Hello. Damn. Hello, Dean.

11:34

Yes, yeah. So I was wanting to just kind of point out a couple of things. The news coming out of Mexico and even South Texas now they've got a bigger gang war brewing. People being shot in the city streets. You know, sounds a whole lot like Chicago back in the 20s done it. You know, we can stop this war in about 10 minutes. If we just legalize these drugs, regulate them, give them to adults, you know, but I don't know US government insists that, you know, somebody's got to make this money. And they're gonna see to it. I'm not gonna say how or why they do it, but they do see to it. The other thing is I was wanting to ask you all if you had heard the fact that there was a reported death

Chris Harrison 12:22

from marijuana? Yes. I actually heard that it was over in Britain last night. Yes,

12:26

it was. And I think it just really, you know, a weird situation when you have January 29, which I guess is what about Friday or so? Yes. It's going to become legal, basically, in Great Britain, that if you have minor amounts, you will no longer be arrested, and all of the UK. And yet these doctors, for the first time in history 1000s upon 1000s of years, millions and billions of usages. The first time anyone ever died was the week before it's going to be regulated in Great Britain happen to happen happen to die in Great Britain, you know. But again, that's propaganda. Plain and simple. I wouldn't be surprised if John Walters didn't have something to do with it.

c Chris Harrison 13:14

Now the I mean, I forget the exact details on how much he supposedly was. I mean, the consumption there. Do you remember the details on that?

13:23

Well, I do know they said he was a daily smoker. He averaged about six joints a day. I think that was the the telling point, you know, but but the thing is they when they first found him, he was dead drunk passed out on the floor. So for them to then come back and say, Well, what really killed him was marijuana,

c Chris Harrison 13:44

marijuana toxicity? What they how they worded it?

13:48

No, it wasn't marijuana probability. That's what that's the best the coroner could come up with. I actually saw a copy of the coroner's report. And it was marijuana, or probably marijuana or marijuana probability was the phrase used

J Jimmy Carper 14:04

actually overdosed from the

c Chris Harrison 14:06

overdose. It's this the he was, he had so much in his system over the years of using the marijuana, that's what they're saying. Cause the I'm trying I'm trying to get to the article here on our

14:19

Well, I think the point being that we have a coroner who probably doesn't know is asked from a hole in the ground. And, and and is also probably being leveraged by local politicians or somebody to enter the fray to shoot off a flare if you will, about the situation. And again, marijuana it is you know, such a lesser danger than alcohol or tobacco even and, and yes, you know, the hysteria comes in because of the monies lost by alcohol and pharmaceutical and and you know, the the energy companies And the media goes along. Because while these guys are paying the bills, the politicians go along because these guys are paying the bills. And you know, it's going to continue until we stop it. You know, the funny thing is, marijuana is biggest problem is it stinks. You know, you smoke a joint in a house, you smoke it in a car. Well, that's gonna hang around a while. Yeah. And if you get pulled over, you know, in a car now, I'm not saying anybody should be smoking and driving this rather pathetic thing to do, but

 Chris Harrison 15:29

I feel like our Garfunkel didn't do it in the back of a limo.

 15:33

Yeah. But

 Chris Harrison 15:37

I was raised on that kind of music. So I can, I'll tease him on that. Right. Right.

 15:41

But but you know, I mean, pot does have its drawbacks. It's bulky, you know, you can get a weak supply of heroin and put it in a bag you can hide in, you know, I guess that little watch pocket in your jeans. But if you're gonna, you know, supply yourself with marijuana, well, it's gonna be bulky, it's going to, you know, have that odor, even if it's not being smoked. And the sad thing is, you can take like a one ounce bag, turn it into some nice of medical marijuana butter, put it in with some cookie dough and make up, you know, several pounds of cookies. What you just did, you took a misdemeanor and turned it into a felony by making it into cookies, a lot like making crack cocaine, if you will, you know, from you know, the cocaine and the baking soda makes a larger volume, turns it into a bigger sales, merchandising effort, I suppose. But the whole point of it is, is that everything about the drug war is designed to scare to intimidate and to the lie at its at its heart. And I I think it's important that we realize that there are people of stature, people in reform that our voices we should listen to. And this past week, I was lucky enough to have the read Reverend Edwin C Sanders on my show. And he's the head of the inter denominational church in Nashville, Tennessee, that deals with child abuse, sexual abuse, but also deals with drug reform, ministering to AIDS patients, providing, you know, housing and just helping their community. But understanding all the while that the drug war is a large part of the problem and working towards ending that. And, you know, through his effort, the Reverend Sanders has actually gotten on a presidential commission about you know, the ending this drug war. And he's the kind of guy who will probably make sure that it gets done best he can, incrementally working at it a step at a time. But if folks

would like to hear that it's on my website, cultural dash baggage.com Check it out tomorrow afternoon when you're, there's no Super Bowl or and you had a football game on, give it listen. And this coming Tuesday, my guest is going to be Steve Blum, the chief editor of High Times magazine. They're splitting off into two different magazines. Now one's a growth magazine. The other is kind of an entrepreneurial book. And we'll talk about that situation and just free speech here in America. And I appreciate you guys giving me the time to talk.

 Chris Harrison 18:30

Well, we thank you Dean Becker. Dean Becker is the host of cultural baggage and the 420 drug news report here on KPFT. cultural baggage is on Tuesdays at 6:30pm. And 420s is Monday through Saturday at 420. And Dean Becker has the distinction of being the only regular scheduled heterosexual on after hours. Thank you, Dean. Thank you. Good night. Hi. Okay, what we're gonna do is we're gonna go to the music now that hatchlings and then we'll, we'll, we're back with the wrap up with the first part of the hatch group.

 Jimmy Carper 19:05

Okay, here we go. And we're back on Cape K. This is after hours, queer radio with attitude and I just PF. Okay. Yes. I, yeah. radios for the Gulf Coast. And we're here with

 19:30

the hatchlings. It's Houston area teen coalition of homosexuals.

 Jimmy Carper 19:35

Oh, not them. And

 19:41

yeah, what were we talking about before we left

 19:44

me, the most wonderful subject of all.

 19:49

Anyway, J has had his annual board retreat. And so we've been planning the wonderful things we're going to do for this wonderful year. Yes, So

20:01

what do you think stood out? What are you most excited about in the upcoming year? Brian?
Well,

20:06

um, let's see. Well, I'm not sure there's there's a lot of interesting things we're going to do. I think I mean, don't make me take the show back. I think I think that's continuing with the with the the

20:27

planet intern

20:28

with the Yes.

20:30

Thank you. Yes. Yes. The

20:31

interning group with the interesting thing that you started. Definitely. Good evening, Tara take over.

20:37

Yeah, definitely. The satellite hatch. I think that's

20:43

Wait, whoa, satellite hatch. What are we talking about?

20:46

There will cheat. I don't know if the cats out of the bag. Now. One of the one of the things that we may be developing is going to some of the outlining areas, you know, like the woodlands, right, right, exactly like the woodlands or just hypothetically or some of those other areas and

actually have hatch organization. So it's more geographically find.

21:13

Yeah, I used to have a group that was PFLAG. But they operated in areas like wetlands right on row. Sure.

21:22

And you know, it would give you because a lot of kids aren't able to drive or come into Houston. So it would give them more local access to the hatch, what Hatch has to offer. And also it would give kids a chance to grow a community where they're at. So if they're if they live 50 miles away, it's going to be hard for them to build those ties with kids who live so far.

21:50

And but you'd be surprised how hard I've seen people work to get themselves to a hatch meeting. Absolutely. People bike. I've seen people ride the bus for over two hours. That's right. I've had people bum rides like, it just doesn't. And I've seen people just do just about anything to get to a meeting. And they're really dedicated and they have they have the means to do it. But it's for those kids that live out and Clear Lake who don't have a car who aren't out who don't have gay friends who don't have bus transportation, and are absolutely stuck in the middle of Streetsville with, you know, oh God, Who am i

22:34

right? So in for every kid who really has a hard time getting here, but makes it here. Regardless of the obstacles, imagine how many of those kids out there who aren't able to come? Right. So that's part of the idea is if hatch can't if the kids can't come to hatch, the new take hatch to the kids.

22:52

Exactly. I mean, that's a good idea. I mean, I live in The Woodlands too. And now I'm 24. And I wasn't able to get to hatch. I didn't have a car and I wasn't out to my mom. And so it's really good idea that hatch was coming out to the woodlands area and other places. Yeah.

23:09

So that's, that's one of the things we're hoping that that becomes a reality in this coming year. And also the conference, their their plans, possibly for hatch to sponsor a conference or a workshop regarding gay and lesbian youth issues with other organizations in the state. Awesome. So that was I thought that was exciting. Exciting Boyd retreat. Yeah, it was.

23:36

I love it. I love hatch Porter traits there. It's a really, it's a really fun, fun time of year.

23:44

It really it's a free flow of ideas. And really, from those ideas are our entire year agenda set

23:51

and tell us how, how our agenda looked last year and how many of those item pieces we complete. Oh

23:59

my gosh. And you know, we accomplished all of the goals that we had wanted to accomplish this year, which, which is really a powerful thing, especially for those people in the audience who've been a part of other boards just very rarely happens. Some of the things that come to mind girl club, we started gold club backup. Awesome. Yeah. So did you get a chance to go to any of those gold club meetings Tara in the past or recently just recently and this last year?

24:26

Now I just too much on my plate and right i i stepped down and I want to say August? Yeah, August when I returned from Florida. That was kind of my end all vacation and came back and quit everything. So I don't think I've been active with them. Yeah. Since August.

24:50

So that's back up and working in that's that's been very successful. And then we added a night a programming Wednesday night programming. And Brian, I know that you've been involved with some of the For those activities,

25:01

right, we had a program on money. How to you know, spend it and keep it in?

25:08

Awesome, right? Yeah. It's I could use that now. Right? Yeah.

25:13

It's really, you know, and now the Wednesday night program is on the zine, it's, you know,

25:18

and that was another goal. So it produces right. So when is that scheduled to come out? Brian? Well, we're

25:25

doing we're in layout right now. And I'm not on the I'm not working on the zine. But it's in layout. I know it's in layout right now. And so it should be coming out very soon. And that's, you know, it's looking good. As far as I know. The also, they're supposed to be, we've, not only did we accomplish all of our year one goals accomplished all of our year, two goals,

25:49

right? That's true. So then, the student, the, I'm sorry, the youth leadership development, where we go out to the other community organizations and interface or hatch youth interfacing with those boards that was on the agenda for last year, which we

26:03

definitely took off with Big Bang. And I think a lot of it has to do with the freedom we've had, since the merger,

26:12

you know, and that, if you remember, one of my concerns was that we would lose that freedom and he somehow would lose its identity. And I can honestly say, that has not happened at all, it's been

26:24

the reverse of it. Like we've, you guys have just gained this sense of freedom. And now we're being able to not only survive, but take off and do bigger and better things we could have done we could have ever done on our own. And, you know,

26:38

I think the reason for that is that when hats was a standalone organization, they had to raise all the operating money for the staff, people for running the facilities for everything had to come

from fundraising, to pay for the mechanics of hatch. And we still have still does the fundraising, but it's purely for the programming of hatch, so that the operating costs are now absorbed through the Marshalls Counseling Center. And because of that, the Counseling Center is actually able to qualify for grants they normally wouldn't qualify for. So it's been very beneficial for both sides. And part of that not worrying about the money has enabled the programming committee to then focus on programming and increasing what Hatch's doing.

27:29

Satellite idea just sounds like it's really gonna

27:32

write it. And that's something we may not have been able to do before. I mean, it's been a tough year for nonprofits. Oh, yeah. Oh, definitely. And And this actually, the merger, I think Hatch has come out stronger because of it.

27:46

Um, it was it couldn't have been a better move at a better time. Yeah, it was right. It really, it really just all kind of flowed together for everyone involved. And it started off a little rocky and we were unsure about some things. And it just seemed right after the merger, that one thing after another was kind of not meshing, and it just kind of seemed to just shutting itself out. Yeah, got back up on its feet. And we're good. Yeah,

28:11

it's been a good marriage, it really has. I know, my big concern going into it, like I said earlier was that we would somehow lose our identity, that hatch would somehow become a counseling program, which is not what we want it. And it's the hatches for hatches a social meeting, a safe social meeting for youth, to meet other youth and be able to discuss things and kind of learn who they are. Oh, when you say that was?

28:40

Yeah, definitely. It's not only that, but then you learn a sense of community without the without the drugs and the drinking and partying. And you learn a sense of community. Overall, you learn, you learn that, and then also you learn a lot of things in the programming. I don't think I'd ever know as much as I do about safe sex, drugs, drinking, money, community involvement, volunteering, a lot of the organizations that are out there what the organization's do and gives me that sense of pride in my community.

29:23

Absolutely. I mean, I wish the audience could understand or perhaps they do, hats really does offer an enormous amount of resources and training and skills available to the gay and lesbian, bisexual and transgendered youth community.

29:41

It really does. I started out when I was in high school, I was a junior, and basically I had nothing on my plate but high school, and I got into hat and I got into their youth, their youth committee and then onto their board and then on to their radio show and then into diverse works, and then in to my internship. And, you know, I can't say what would have happened without hatch being there for me. I'm not saying I was like a suicide case, and I wouldn't have made it, I would have made it but I wouldn't be here with you. With all these great things out in front of me and all of this, this endless opportunity, it really provided me with this giant gateway to the community. And it's because they put the effort into it. And now I can put the effort back into it. So, but I think we are getting the rapid upside. So we're gonna go round and anyone can give their shout outs and their goodbyes. And we'll start over there in the corner. You say goodbye. Goodbye. And your name, Sarah. Very good.

30:51

I'm Brendan, one of the facilitators at hatch. And Tara has been so nice to have you back.

30:56

Thank you. And I thank Brian for inviting me back today.

30:59

Thank you. I'm Brian and I'm gonna give a shout out to my parents and Jeff who couldn't be here tonight. And or just didn't show up.

31:11

And I guess I'll finish off saying goodbye. And I'd like to thank you guys for having me back again tonight. And it was a lovely evening and I'll give you your show back next month.

Jimmy Carper 31:23

All right, you've been listening to after hours quitter radio with attitude on 90.1 KPFT Houston, and down in Galveston on 89.5. As always, we're on the web@www.kp FT dot o RG. We're gonna put some music in your ear and then we'll be back with leather life.

31:55

31:55

KPFT elections are underway, candidates speak their piece every half hour.

J Jimmy Carper 32:00

My name is Bev Fitzgerald, and I'm pleased to present my qualifications as a candidate for the local KPFT board of directors. I have lived in Houston for 32 years have been a business owner for the past 12 and a half years and a Rotarian for almost 12 years. I am currently the president of the Galleria area Rotary Club, I responded to KPFT requests for board member candidates. Because I believe that free speech radio is essential to a free society. KPFT and Pacifica meet that need in the greater Houston area, and its future deserves to be protected by those in the diverse communities it serves. I am committed to ensuring fiscal responsibility, diverse programming and long range planning for the well being of KPFT. During my term on the board, I respectfully request your support and vote.

32:49

To find out more about KPFT elections visit the KPFT website@kpft.org.

32:57

All right, and we're back

J Jimmy Carper 32:59

Oh listening to after hours on Jimmy Carper, your co producer for the evening and the assistant engineer to my left is AB and who do we have in the talk studio? Hello. Hello. Hello. It's Indigo. I am definitely here to have a good time tonight. I am excited. The rain is not gonna stop me. I didn't know that were my weatherproof outfit today. Yes Is that vinyl or rubber or this is PVC, PVC. And it's like a jumpsuit. It's a cat suit. That with the zippered crotch for easy access. Alrighty then you can reach me on the radio and other ways as well. But yes, it's great for this one. This is my raincoat. Basically. It works and it works well. It open there you know you might have gotten wet. A little cleavage never hurt anyone. Okay, Andrew,

33:56

do you have with your mistress in bigger have Jeffrey?

J Jimmy Carper 33:59

As always, and that's right, Matt. Matt is here to tell us all about how he doesn't do these things. And then I'm going to try to convince him otherwise. Yeah, I'm here to corrupt as many people as possible. He started getting weird earlier. You know? Well, I tried to use my single tail

on him when I was practicing on the hallway. And he told me no, but I saw the lust in his eyes. And I'm gonna

34:22

close yes nose, isn't it? Yes.

34:25

is better than nothing.

34:28

I saw in the crotch there.

Jimmy Carper 34:30

Something in your eyes. Was there something it was a little bit of you that wanted to say yes. Well, I asked him to come back here. He didn't hesitate. So we've been doing something right. Yay. Oh my goodness. I've got so much information to share today. I wanted to talk about the different organizations in Houston that were available to everyone events that are coming up here and in the general area. I got some emails about what Do people go online to find this information that I've been talking about on the air the last few months. And so I made a list. Of course, it's not all inclusive. This, there's always more out there. But this is a pretty good list of how to get started. The first place that I would recommend is the National Weather Association, Houston and LA. I'm sure a lot of people have heard of it. Oh, yes. And the website URL is www.NLahouston.org. Very easy to get to. And there's tons of information on that site. It's a fantastic organization. And I would say, that's a great place to get started. Also, Travis, who is running the new club in Houston, which is a BDSM organization has a website called Houston.BDSM.bdsms.com. And that's a great place. It's got lots of links to other other sites and lots of information on what's going on in Houston. Are they just like a bisexual group, or poly or whatever the Houston bdsm.com is, poly has a lot of poly information. And I think everyone knows that in LA. I mean, they're pretty welcoming of everyone, but it's mostly a lesbian, gay friendly, you know, I mean, so there you go. So it's pretty much for everybody. Absolutely. There's no organization out there that I know of that. Looks at Movie Club film. isn't going to give you information and at least point you in the right direction. Yeah, so I mean, Clifton will do. I'm just kidding about that. But I mean, that's not a problem. And I'll talk a little bit about club femme later. But even a club femme, who is mostly, which is definitely female, dominant, male, submissive organization, once recently had a young lesbian woman come and say, you know, I'm into kink, you know, what do I do, and she had found them online, and they put her in the right direction as well. I mean, we're all here to help each other. And these organizations have really done a lot for the community. If you are just starting out, and you're concerned about where to go. Third, Friday is a really great place to meet other people. They meet every third Friday. I know that's bizarre. And, and they have dinner is very relaxed. No one's wearing, you know, a vinyl cat suit like I am. Everyone's dressed very vanilla. And it's just a time to meet other people in a non threatening environment. And just get to know about what's going on in

Houston. It's a wonderful place. I've been there quite a few times. And I have to say that the ladies that run it are absolutely gorgeous. Eye Candy extraordinaire. So if you don't like the food, at least you'll be able to see something extra scrumptious. Then their website is www third Friday. Slash you know, u n o dir.org. Okay, easy to get to if you have any problems, Houston bdsm.com has a link to their side as well. There's also Okay, so you're young 18 to 35. And you're like, you know, I understand a lot of old fogies, and I want to be with the young people. There's also an organization for you. The new generation has come to Houston is a national organization. And they have a chapter here now. And it's from the ages of 18 to 35, their educational, social and a support group. And their website is www T and G houston.com. Not hard to get to at all. And the people that are there are phenomenal. I mean, they're a little Energizer bunnies, and they're very, very active. I

38:37

always wanted to beat the Energizer Bunny.

J Jimmy Carper 38:40

Well, I like you and the rest of America. Or at least the person that came up with the commercial, they have, they just have a lot of energy and a lot of wealth of information to share. I mean, and the age 18 to 35 I mean 35 I mean you've got lots of experience maybe and hopefully if you don't call me so it's a really great place to start and not feel overwhelmed. Small groups are sometimes a great way to go. Because the largest group that that's pansexual in Houston it is h PAP and they're they're a fantastic organization. It's so large that it can be overwhelming but they also have a newcomers meeting they have and they meet so many nice to have. It used to have a transgendered CIG I believe they still have it but I couldn't find the information about it in time for the show. They have sub Haven dominion, they have a poly SIG SIG as a special interest group. Okay, so it's really small groups of people who get together and have discussions, share information and learn new things. And there's not a week that goes by that each prep isn't having something going on. And so that they they're a phenomenal place to get it formation and learn things because they're always willing to share. They have even have an erotic literature group called hell. Twice a month that is absolutely fantastic. If you're into bondage, they have a bondage sick. They have a toymaker sick. For those of you that fill your handy, I'm not the one, I can handle the toys with making them as a different story. But they've done some amazing things. They even made vacuum beds one time. So it's a a bed that's it's made out of like a polyvinyl material or rubber type of material. And it's on a frame and you lay someone inside, and you suction the air out with a vacuum. And they're in bondage. They're tightly encased in this material because they're inside the frame of the bed. It's amazing. So you're like vacuum sealing Exactly. You're vacuum sealing a human being a giant sandwich bag in a giant. That's a great way of putting it it was a frame with a frame around it to keep you in place. And then you can play with. No, there's a mouthpiece that so that you can breathe, if you don't cover it up if you don't cover it up. But I'm nice, I wouldn't do that. If I did, it would be totally accidental. And I promised that I'd stop before that, you know, let me stop

41:22

getting turned down.

J

Jimmy Carper 41:25

I am starting to get a little warm. And then there was a there's a DSA and I didn't mention sub Haven and dominion are sub Haven is only for submissives. So it's a it's a place where you can go and talk about your problems being a submissive, your ordeals, your tribulations, your triumphs, you know, anything that you want to with other submissives and feel safe and secure. Knowing that you know, you're just talking to your peers. And the same is true for dominion, and they're on the same day so that a DS couple of domination and submission couple can go to both meetings, and then meet up afterwards. So that's I think that's a really great idea. sort of get a bunch of sub submissives meeting together and a bunch of dominance. Maybe they're all at different places. And sometimes it's potluck, from what I understand. And then they get back together later on and do whatever. And I would like that by I don't know, it just seems like I'd be embarrassed about a bunch of submissives or something. Isn't that strange? That is strange, because I don't know why. You tell me Jeffrey. Because I mean, you're submissive?

Ω

42:42

I don't know. It's like, wouldn't you rather be by myself and the only submissive

J

Jimmy Carper 42:49

but you'd rather be in a room full of dominance than a room full of submissives? What is it do you feel it makes you less important to be around others or show your proclivities? I don't know. Think about that. Want to get back? Okay, because I, you know, I wanted the whole time. Inquiring minds want to know, I enjoy going to all all DOM events. I mean, because I learned so much. And some people out there are just horrible, nasty mean people. And those are usually my best friends. I learned all kinds of things this morning. That says morning. It was morning for me at noon on Saturdays. Arrows has their weekly meeting. And they are really great about welcoming newcomers. It's a very casual meeting at a local establishment and you can find out more about them at www.HoustonDashArrows.org. It's the Erotic Rose Society that we're talking about now. It arrows as you are clicking your pen it was getting on us. That that sound just really really grates on my nerves. You're looking at me. Come hither. Look, it wasn't David's chain.

Ω

44:21

As long as you don't come to that door with those whips will be all right.

J

Jimmy Carper 44:26

David, I wouldn't hurt you. It would just feel like love tap a promise.

44:32

He's the one that wields the whip. Wants to wield a whip, don't you?

J Jimmy Carper 44:37

I'd love to. I brought an interesting little Russian toy that I'll be sharing with everyone later. Russian Russian. Oh, yes. It's cute. It's absolutely cute and just paint utterly diabolic pain goes deep. Club fam, which I've mentioned earlier is Fe M for females enslaving men. It's a female dominant male, submissive only group. And there were site is www.clubfemme.com CLU B Fe am easy to get to. And they are fantastic women who decided, you know, we want to do something that just for us, because sometimes the male submissives tend to feel a little out of place at some of the pansexual events because they can be centered around male dominant female submissive activities. And so it gives them a place where they can go and express themselves. In fact, last night I hosted a club and party at my dungeon, which was wow a blast. You have a dungeon? Yes, I have a dungeon here in town. Oh, okay. On the north side Absolutely. All dorms have a dungeon I you know, when I think of Dungeon, I think of the dungeon underneath the rack and meeting meaning then you'll have to come see it. Oh, no.

46:00

field trip.

J Jimmy Carper 46:01

We should do a field trip to my dungeon. Mate, I might be able to convince Jimmy into to go in. But I listen to you. It's really neat. I mean, there's lots of equipment and all kinds of and all the stuff that I drag into here come from my dungeon. You know, crackers. Wow. The so definitely, definitely. She got a longer one. Yes. Are you going to be here a little later. Later on, I'd like for you to crack the single tail in here. Okay,

46:33

the sound deadening material doesn't give us that echo. But it's so it's tough to get a good snap.

J Jimmy Carper 46:40

And we've been working with a single tail in here trying to get it to crack but it's a little bit difficult in the surrounding. So we have a webmaster here that's going to crack the whip for us a little bit later when we get to talking about that. I have a fantastic whip here that is of a tele whip and I just love it so Metalla that's the guy that made it. Oh,

47:02

47.02

I thought it was the type of material.

J

Jimmy Carper 47:03

No, no, no. Isn't it leather? What they're made out of? Yeah, but there's you know, all different types of board whether Sharon skin, elephant, elephant hide. You name it

o

47:15

they the Russian board is the worst. Oh my god. It's like, that's like stuffing the tire material. Yes, car tires.

J

Jimmy Carper 47:23

There's all different types of leather. It's amazing. Bison is one of my favorites at this point. You can I mean, you can make love with a flogger. Or you can tear someone apart with a single towel. It's just all about the leather. And you can hurt someone I mean that hurt them badly. But you can you can cause some damage with a flogger. But you can definitely make it feel good to it's all about what you're trying to get across. My toys are an extension of me. And I think that's true for most tops or dominance. Anyway she's gone on that tangent again. I love DS is my life. When I moved to Houston it was so that I could just express myself and be me and share every all aspects of my life with people so that anyone that wanted to be a part of it, I mean not not of my life. DS could and so I get up on my soapbox a little too often. Houston events I heard on radio that you guys were talking earlier about Louis. So I guess everybody knows about let us entertain you February 26. To the 29th here in Houston. Yes. I think we have been singing over here for oh really you want to is there more information that you want to share about that? That'll be great. It's the let us entertain you weekend 2004 the afternoon after Mardi Gras party February the 26th 27th 28th and 29th 2004 years we're gonna February in Houston, Texas. Registration for fees out of town guests are free limited to the first 1000 People \$15 donation in town participants by mail donation and application to Houston Council of clubs. PO Box 667486 Houston, Texas 77266 Dash 7486 And it's presented by the Houston Council Clubs. For more information and further updates visit our website at WWE dot lui. weekend.com. That's Liu EY weekend.com. And it's going to include Friday night snacks. Ron pin cocktail party Saturday morning breakfast, Bar Hop Saturday dinner, Sunday brunch and another Houston Council of clubs show show. I didn't hear anything about pain in there are wired Silesian mail donation is it Emily now? Oh, man. I was getting excited. I was hoping that someone's gonna bring me a mail. But no, I don't I don't want you to get in. Sometimes you do occasionally. And if anybody wants to donate, donate a male I'm hanging, I'm single myself by the patient, drop it off, we'll take care have it as for 19 Love it. And it's tax deductible. So don't worry, bring your mail. Make sure that you get full monetary value for it. So that's Louie. And that's the last weekend of February. Ah, purpose having their essence s&m Ball 10, march 26, and 27th. And they didn't have a last year. But they have been rolling these out. And I've heard wonderful things about the balls. I moved here. Right. Ah, pep it up. And they say this was going to be phenomenal. In fact, their little slogan for this was a sloth their little flatland running around around about what's going on with you tonight? Jeffrey, you getting your

nonsense? I'm sorry. You're getting a little carried away. And you keep doing all this? What's going on with you? Have you been taking some like burden? I mean, you've been taking some Viagra or something.

51:24

That'd be interesting.

J Jimmy Carper 51:25

Because I mean, you've

51:26

grown your appetite. Was that the purpose of it?

J Jimmy Carper 51:31

Yeah. No, I mean, now you're on the hormones and your sex drive isn't what it used to be. But tonight, you just seem to be kind of, is it the weather? Is the moon full? I don't think so. No, it was a couple of days ago that it was full. Well, I should mention that you are listening to KPFT. And if you want to call in please don't hesitate. 7135265738713526 KPFT. And you're listening to the leather line with Indigo and Jeffrey, and Matt. And Matt. And engineer David engineer David. Yes. Who's going to be a sex toy soon. When did I get volunteered for that? And I don't remember that being in my contract when they dropped off the male or she's going to Oh, yeah. You forgot already. You're not

52:22

going to be the sex slave.

J Jimmy Carper 52:25

What was I thinking? I was just envisioning you in all kinds of positions. And I'm sorry. Anyway, back if you can hear my voice help me. No, no, no. Okay. We'll work at the burn the candle. Oh, that's right. Leather and exile. I was there today. And I just had a blast looking at their furniture. They have some beautiful BDSM furniture there now. Yeah, yes, I was. Wow. Is that like the slings and then the glosses? Thank you.

52:58

Handled stuff is nice. I mean, I've been in professional dungeons and the stuff they have for sale. They're at incredibly reasonable retail prices is better than the stuff I've seen in so called

professional dungeons. And I'm like, wow,

J

Jimmy Carper 53:10

I was impressed with the furniture. I really was. I was like, What are we gonna take off when people find out about it? Yes. It's upstairs now. And it's separate. And they just have really nice stuff. And they're still working on it. It's supposed to be even better later on. But I was there today just wandering around. And this really nice guy named Kenny was helping me out. He was he was a cutie too. Anyway, they, they really have some nice stuff. I was impressed. They have some. They have a bra. They're a leather bra harness, and they can't find a woman to find it to fit. So so so all you live in leather bra harness gone. Bye. Bye, Kenny, we'll help you about the ball. Their slogan is you. That's where we stopped off when you said it was gonna be slapped. You ain't seen nothing yet. So their hope is that. That is the slogan on the cars that they're passing. You ain't seen nothing yet. And they haven't seen anything yet because it hasn't happened. But what I hear it's gonna be fantastic. And they're very enthusiastic about this event. And their website is www.s-m-ball.com. [s-m-ball.com](http://www.s-m-ball.com). Very easy. And it's going to be at the 610 arena. Does that sound right? Yeah. No, don't look at me. I don't know. Are you from this area? David? I'm not really. I've only lived in Houston for about three years now. So okay, so you and I came about the same time. It was, you know, I came during the flood. I came right after the flood. We cause the flood of strangers actually where I came from

o

54:56

was talk of coming and flood

J

Jimmy Carper 54:59

where I came from Um, they actually had a flood. And then I moved down here right after they had a flood here and it was like, Okay, I just can't get away from water. Oh my goodness, I came in right before the flood. I thought that was an interesting time to move. I think it was because I came because I was going to shake, rattle and roll. There's no doubt about it. Dallas has some phenomenal events as well not that I want everyone to leave Houston. But Dallas has some wonderful resources and I enjoy going up there for events. They're, they're leather community is just wow. I've always been impressed with them. And they have a website resource, leather network.com where you can find out about a lot of things going up in that area, including some of the national international or national leather events, which I always enjoyed going to look at the yummy meat. South Plains leather fest is coming up in Dallas February 27 to the 29th and it is one of my favorite events. It was life changing for me last year. I have decided that is something I have to go to every year and that's that website is www.SouthPlainsLeatherFast.com Lauria Antony, you was there. Midori was there last year as well doing ropes. There was so many people a slave Marcia master gym, oh my goodness, I actually cried during their workshop. It's, it's more, it's not sm 101 is for the more advanced players, but it is just a lot it was. It was a life changing experience for me. I was getting choked up talking about it. So I'm gonna go back and read rejuvenate and re Energize. It's talking about rejuvenating voice training camp. Six is going to be in Dallas April 30 through May 2. And you can learn about that at leathered network.com as well. And that's a fantastic event for the boys out there that want to you know, learn more rejuvenate, recharge, and be better boys for

their for their daddies or their masters. Or then there you go, you know, I and it's become very pansexual you know, femme DOM send their boys, you know, and that's totally fine. In fact, I think I could send one that I know Jeffrey Tanka she didn't say nothing about me. Because there's there's nothing like being around regardless of how you feel about what if you had a room full of masters like being around other people that share your passion and your love and your drive and and just immersing yourself in that kind of energy. Do we sing Kumbaya now? No. Please don't mass real it's a more real threat than you realize. Masters retreat seven is coming up. Number six was at the end of July. And they haven't come up with the date yet.

58:04

See that? Mrs. Work the boys train while the Masters retreat you see that?

J Jimmy Carper 58:11

Well, no comment. The Masters just have to take a break for a while they gotta relax somebody else to train their boys. You gotta realize there's a lot of work involved because the boys aren't there. And so we have to fend for ourselves. Do you have any idea how hard that is? To get up and get your own boots and clean them? No,

58:38

there's no you can't just pull a tongue out of the fridge.

J Jimmy Carper 58:41

Oh, no, you can't black it was very easily. Yeah, exactly. So you can't take the tongue and leave and send the boy so you know. Yeah. Good actually, if he was really devoted as much as I would like to remove your tongue upon occasion. Oh, really somebody's really going to voice training camp real. Let me make a note when that date is on this side. But masters retreat, they haven't picked a date yet but it will be coming up and you can find out more about that at the double edged sword. Leather network.com Okay, and it's not a retreat. There's a lot going on during that time. I believe Travis went last year and came out with lots of information. And he was just pumped. And so anyway, that's that's a great event. misrule leather 2004 August 6 to the eighth in Dallas. You know everyone go to Dallas and come right back.

59:47

You don't have to tell them to

J Jimmy Carper 59:51

come right back. Don't stay don't stay. But Miss World leather. I want to go see that. Another A thing that I want to talk about talk about is Ambrose's BDSM site. He's based based out of San

Antonio, but he has a great site that talks a lot about the events in Texas. And it's www.io.com/tildy, which is a little wavy more Ambrosio Ambro S I O. And that is a fantastic site full of information and even how to make toys and you name it from one gamut to another. It's just, it's just a great site. You may not have this. Okay, well, I have to break in here right now in this wonderful discussion and put some election material in your ear, as well as what we're doing next week for the Super Bowl and some music and then we'll be back with leather line.

1:00:49

KPFT elections are underway, candidates speak their piece every half hour.

C

Chris Harrison 1:00:54

The public need for independent broadcasting has never been more urgent than in this Orwellian age of perpetual unprovoked war. Hi, I'm Ken Freeland. Many of you know me from my organizational work in Houston's peace movement. When the Pacifica Foundation was hijacked, I helped lead the struggle to bring democracy to Pacifica and fully restore its vital peace mission. Now I'm asking you for your vote of support so that I can continue this effort as one of your Local Station Board Representatives. I've signed the KPFT peace priorities pledge among other important concerns. It addresses our need to broadcast Democracy Now earlier during morning drivetime when more of us can listen to it on our way to work and repeat it later for the benefit of listeners who work evening shifts. To learn more about this pledge. Go to Kpf T's website and follow the link in my candidate statement. Pacific amines piece. Please remember me Ken Freeland, when you vote Thank you

Ω

1:01:43

to find out more about KPFT elections, visit the KPFT website@kpft.org.

Ω

1:01:57

And we're

Ω

1:01:57

back. Yes, we are.

J

Jimmy Carper 1:02:00

You're listening to after hours queer radio with attitude on EFT That's right. Pacifica station KPFT Houston, 90.1 FM and 89.5 in Galveston, and I was just handed something for March 14 2004. It's the AIDS Walk 2004 at the Sam Houston Park. If you'd like to join the KP FTS team, please contact Jessica Mays at membership@kpft.org or extension 314. I guessing that

1:02:34

would that would be five to six 4000?

J Jimmy Carper 1:02:37

Yeah, five to six 4000. Extension 314. Or Michael.williams@michael.williams.in. You owe@statefarm.com or sign the signup sheet? Well, yeah, I'm right down to the station and sign up for the KPFT team for the 2004 AIDS Walk. And that is for 19. Love it. That's it. And come join us as we're going to walk for a yes, we're raising money for AIDS awareness. Right? Of course. Very good, cause I've done it many times. Now. We're back with the leather line. Miss Indigo and and Jennifer Jeffrey and Matt and Jim and Jim. Jim. We dragged him in here. Yes. Jim's in the corner. Yes. And you can't come out bad boy. No, I bought a whip and he was out there and and they were saying that he was good with it. And so I said, Sure. Show me. And he was making me make some of the most lovely noises. Now whips aren't for everyone. BDSM does not have to be about pain. I know that everyone thinks that. You know, I've always wanted to submit but I just don't like pain. It's not about pain. The pain can be fun. It I'm not a sadist. So it's not about paying for me. But you know, there's all different types of toys to play with. And I thought it might be nice to hear what a single tell sounds like when it when it pops. It makes beautiful noise. While we're doing all of this, you're more than welcome to call in 7135265738713526 KPFT. It doesn't have to be on topic. If you have any questions at all or anything that you want to talk about. Don't hesitate to call. We're here for you. Now, Jim, this is a single tail. And we wanted to know if you could crack it for us. How did you learn about whips?

1:04:42

Well, it was hanging around the the erotic Rose Society in Paris. Yeah. And really, and all that. Yeah.

J Jimmy Carper 1:04:52

Is that what you first got involved with? Yes. Really?

1:04:55

And yeah, that's all you know, so Travis, with them and then You know, the rest is history

J Jimmy Carper 1:05:02

now that the guys are looking mount macho with their

1:05:05

whips? No, I just like to make noise. Just like the whole. Yeah, usually makes people jump and then they turn around and see it's me. And they go Oh, yeah.

J Jimmy Carper 1:05:17

How did how did you find arrows?

C Chris Harrison 1:05:20

Through the the show? Oh, after our show, really? Yeah. And they were all on hold, gosh, five, six years ago. They were on in, you know, so I like went there the next Saturday and you know,

J Jimmy Carper 1:05:37

was just talking to the founders of arrows today about coming and doing a segment on this show and they were excited. I said they really enjoyed it in the past and they can't wait to be back on. So I'm looking forward because they are they are definitely a hoot. Okay, so how long have you been practicing with lips then?

1:05:52

Oh, oh. About? I don't know. For four years, five

J Jimmy Carper 1:05:57

years? Four or five hours. Anyway, you already use it on someone else?

1:06:04

Yeah, really? Yeah. About constantly but you know,

J Jimmy Carper 1:06:09

well, why don't you let us hear what how beautiful they sound as he cracked that word. Do you need me to move out of the way?

C Chris Harrison 1:06:17

No, no, I think you're okay. Okay. Usually with a microphone and not the mic. Yeah, get can't get it to get too good echo like we had out in the hallway.

J Jimmy Carper 1:06:28

It's a sound dampening. sound dampening. Well, we had the same problem. Yeah.

∅ 1:06:34

It sounds nice, though.

J Jimmy Carper 1:06:36

Can you hear that sound? Well wouldn't mind. Let's let's keep the mic. Oh. I mean, it sounds Yeah. Yeah, you can hear that.

∅ 1:06:48

Just snap it in the air. It sounds sounds better when you just snap in the air.

J Jimmy Carper 1:06:52

And the mics will pretty much pick up and yeah, there we go. Yeah.

∅ 1:06:58

Yeah, that sounds good. That sounds great.

C Chris Harrison 1:06:59

The burlap. Definitely absorbs the sound.

J Jimmy Carper 1:07:02

Isn't that amazing? That sounds good.

∅ 1:07:07

That was a snap. Yes. That was a snap.

J Jimmy Carper 1:07:10

If it has a sensuous is essential sound. Whistling does make this whistling sound that's really neat. And if we Yes, one looks deadly, it is deadly. That's our little Russian. Russian toy for the evening as he grins maniacal. The single tail when it pops, it makes us this this high pitch sound. That is just amazing to hear. And what what, what, what masters tend to do is they make that pumping sound when they don't want to hit someone that hard, right by a submissives ear. Oh, it's a wonderful way of playing with someone's mind and getting them to tense up and release and, and you can play with the whip in one of one where Travis is amazing with the web here in Houston. There's all different types of webmasters and you can learn so much from them. It's just amazing. I go in there and I just suck it up. I make them show me you know, like, I hijack them. Whatever it takes. Do you suck. Oh, very funny. Very funny. There's also bullets in the park, where they actually get together on on a Saturday. And they all practice it's a vanilla event is for people that like whips, but of course as kinky people go out there milpark On Saturday, yes, yes. Oh, do you know what time I don't think it's like

1:08:44

1010 in the morning, and you just

J Jimmy Carper 1:08:47

take your whip whatever size and there's vanilla. People want to show you how to use it. It doesn't get any better than that. Okay, I see the long one in there. Are you going to try and pop that one

1:08:59

room in here to do this one? No, there's not enough room. There's so many breakable things.

J Jimmy Carper 1:09:06

That is a bullwhip. This, you know, you can get a little single tail and you know, three, four feet. And they're just fun to play with. It's an indoor type of whip. And but a bullwhip you want to definitely be outside that leashes that reaches the length of the room. Absolutely. But it's they're wonderful and fun to play with. You have to be very careful when you start you don't start playing with it with someone get a pillow get a tree. Go outside and flick leaves off of a tree. That's a wonderful way to do it. You don't want to start with a human POOR TREE not not not your pet dog or pet pig. No, no no.

1:09:46

A neighbor's dog.

J Jimmy Carper 1:09:50

The neighbor sounds a good one. Especially because if you use a bullet you can reach out into the neighbor's yard without ever crossing. They have like a gated fence You know, like that wrought iron fence so you can get it right through the bars. And have you thought about the little? The below the condom? blowguns? Yeah. I thought you were kidding. That's actually used and ds. And there's a wonderful couple here in Houston that uses the blow dart. And he blows the darts. And he makes wonderful, wonderful marks on or that way. Not blow jobs. Not they're not used at all. No. I first heard that word, three or four times today, at lunch. At the arrows meeting, there was some mention that some of the male Dom's enjoyed having Yes, I don't like to use the word.

1:10:49

Oral oral setups satisfied.

1:10:53

That is the case.

J Jimmy Carper 1:10:55

Yes. Do not make fun of my English. This, there was some talk about enjoying, you know, haven't been orally satisfied. But no, we, it doesn't matter. It's not something I'm into. It's not my thing. Women are much more lovely. I think. No, one's a grant that women are what much more lovely. Oh, yes, absolutely. Oh, you agree. Thank goodness. Someone agrees with me. Goodness gracious, too much testosterone in this room. Except for you, Jeffrey. Oh, you don't count. You don't count at all.

1:11:35

The actual the cracking sound of the whip is the very end of the whip is actually breaking the sound barrier. Yes.

J Jimmy Carper 1:11:44

Yeah. That the popper is exactly what it is. You're absolutely right. And it's more than just a thread at the end. It depends on on. Sometimes there'll be threads and there'll be a little piece of leather, it just depends. This type of paper that we have on this one you can actually cut off. And it's not in segments so that as you cut it off, you'll still have the threading at the end. So it can last for quite a while. And then once you get to the end, you have to go to someone a webmaster and have them re wave it. We braid it and put another popper on. But yes, it's a beautiful piece of work. And it's very snake like if you get a good one. And the way that it's made. It's beautiful. It's very stimulus and it moves and it's a sexy, it's very sexy. See, the other day, I got drugged into a condom shop. And I'm not going to see which one but I got

dragged into it with a friend of mine. And I actually saw a cat of nine tails. Yes. And I thought of you. Thank you, darling. It was funny as they had a little keychain one, which was like, okay, that's my speed. And then the full size one and I thought Miss Indigo.

1:12:58

So you'd rather have the keychain when used on your cotton balls, then they'll have a big one used on your back because what you're saying

J Jimmy Carper 1:13:05

now, and it's more your speed. That's what the keychain

1:13:07

size is for, isn't it?

J Jimmy Carper 1:13:10

Wow, it was a keychain. Really the keychain size things are great for CBT it was a great segue

1:13:17

computer based training.

J Jimmy Carper 1:13:20

Yes, you will do the training. No cock and ball torture is CBT now, I hate the word torture attached to it because it's not about torture. CBT can be a fantastic warm central experience. Who doesn't like having their balls massaged and rolled and played with who doesn't like that? But then you hook 10 pound weights in the way that's later. Emotionally. Okay, we went from something that could be enjoyable to 10 pound weights tied here bought that dragging your suitcase over satisfy the standards. Okay. All right. Okay, that has happened on your balls. Yes, I didn't. Man it was only 24 pounds. Only 24 Okay. Yeah, but when he for detached we can talk about the more extreme things let's not scare that this ascared he's he's listeners getting scared. They're getting turned on. Who doesn't like their balls to be manipulated? Maybe pull stroke a little bit placed in you know, in the mouth, you know, it does not feel wonderful. Okay, you got me on that one. Yeah, that's wonderful. Teasing, it can be really sexy. Having that type of manipulation over and over and over again, stroking the penis and bring you to arousal and not letting you have an orgasm. Who doesn't enjoy that?

1:14:54

Awesome hands go.

1:14:56

I say yes.

Jimmy Carper 1:14:59

Everyone agrees that That's the volunteer all of that what's behind that fanny pack? Are you happy to see me darling? That that is all part of CBT or it can be in depending on what you want absolutely positively having your your penis plates inside of a nice warm mouth and being your mouth hasn't been within like a yard of my genitals and it never will be done. But that has nothing to do with what I that's that's us you know we don't do CT that way, but doesn't mean that they're not gonna get the nice laser you know, but yeah, I just want to say I thought shocking him with the the glove thingy with that would be considered CBT, wouldn't it? Yes, that would be considered CBT but all the things I'm talking about are also I considered mutilation tantalizing those are way better T words and torture and orgasm denial is CBT. Okay, you're you're torturing is that kind of a torture? Isn't it? Teasing. Same thing. All of that doesn't like to work towards it is is teasing. It's it can be very sensual. It can go on for hours. And then there's nothing here that you're feeling helpless. While you're getting pleasure. just showered upon you in waves. While you're having to stay stay there and take it. That's the Yes. Okay. That is that is the essence of what I love. That this is so wonderful. Now what about a little? A little, just a little teeth on the hair? Okay, now you lost me. Just a little scraping, you know, just causing some sensitivity? Pulling a little bit. Pull out the Dremel already, not that you're

1:16:59

completely left.

Jimmy Carper 1:17:00

I'm trying to suck people in Jeffrey Sachs. You know, and you're ruining the mood here. Watch what you're doing. I'm ruining mood. Yes, you know, I have ultimate control. I could just turn his mic off. Thank you. Yeah, the whole tongue in the freezer thing is starting to live. But all of those things are evolved to now pulling can feel really good. Some people like the little elastic bands because they cause some constriction, all of that is CBT. You know, putting them on on the penis and all that is part of CBT and you can go further and further with the stimulation. Weights feel good. It's stretching, it's it doesn't have to be 25 pounds, it could be half a pound, you know, just just enough to pull the stretch can feel good. You know, just like you stretch strings are for exactly you know how you stretch other parts of your body when you're going to go run or you do yoga or whatever. It's the same thing. It feels good. That's the I'll take your word for it. Okay, you know, I'm not having weights attached part of my judgment. Now, with the genitalia, some people like to go further, there's no doubt about it. There's there's things that you can actually insert into the head of the penis into the urethra, and they're called urethral sounds are dilators that come in graduated sizes that get pretty darn low

C

Chris Harrison 1:18:28

like a cigar to man like it's been.

J

Jimmy Carper 1:18:31

That's one thing that can be done weights we just talked about electricity can be shot through the genitalia. And those things can be really interesting. Running pinwheels like a Wartenberg wheel across that area can be really nice. Looks like it's a sharp round wheel. That's got like serrated edges. It's like a pizza cutter with little needles all the way around stick pointing out. Except the teeny it's like a miniature pizza cutter. It's actually a bunch of little tacks is actually a medical device used for checking for nerve damage, you know,

♂

1:19:04

already Yeah,

J

Jimmy Carper 1:19:05

gotta love the medical wasn't for the mere miracle of modern medicine. We wouldn't be as kinky as we are today. We take those things and we put it to our own twisted use. So I'm just wondering if I could hit that door before y'all can catch but all of those things are considered CBT as well I mean there's there's the full gamut you know, just like making love can be you know, very soft and sensual or it can be animalistic you know, Basic Instinct type of thing. And whatever. The film that's so sexy the rabbit isn't that fatal attraction? Oh. metaphors. Okay, anyway, does it seem like the rabbit in the hat or something? I've never seen either one. Another movie so the second one is chasing after this guy and one of the things he does is kill his rabbit his childhood rabbit with an Patan coils that or something I don't know it's really twisted. Basically I'm sick but it's pretty good eating though. That wasn't what she did was she wasn't making us do a waste? Absolutely especially some sort of fluffy pet that's all considered CBT as well if you're

♂

1:20:31

not putting the rabbit

J

Jimmy Carper 1:20:38

you tried to transition but you transition to raw here if your coffee balls are stuck in the wild The bunny is in the pot, then that would be considered CVT. Yes, ladies and gentlemen, this quality programming is brought to you by Kay pap. And this is the leather life after laughter live.

1:21:05

I'm crying, which is 7135265738526 KPFT.

J Jimmy Carper 1:21:10

Yes. We've gotten so many colors tonight. We just don't know where to start. Right. Okay, so that's all consistency, mutate, putting clothespins on the penis, on the miedo, which is the the meaty head area in that area. On the scrotum, all of that can be rather interesting. It's all sensation play. People like the massages different ways. You know, some people like it's sort of like a horse, everyone is so so fierce that I mean, you almost break your misuses, hands. It's all about sensation. And sensations are different for different people. And we are all wired differently. And they affect us differently. I have a masochist that that I play with a lot who I mean, he's the one that pulls me around by his balls only on a little mechanics crawler. And he's the one that pulls suitcases upstairs for me with the scrotum. And then he and I do ball kicking and things like that. But those things are not things that you do right off the bat. There's a lot of damage you could do. So you have to be very careful. And I would recommend going to a group like we had named earlier and getting more information before you start pulling, you know, cars or people around by your scroll. But all of those things are possible. And we have a caller oh yay, hooray. Wonderful. So if you can figure out how to operate the apparatus. Yes, I got it. Hello. Hey, caller, you're on the air.

1:22:48

I got talking about Venus's stuff. Yes. But I had a question like from earlier. Yeah, we're talking about the online. Guys that you go to for the BDSM and all that. Yes. I was looking, I actually wanted to find one for couples. My girlfriend and I was gonna get the five years and we're looking for some type of, you know, groove to join or something to go to, you know, that we can do together. And I was wondering if you knew any type of group that caters to that?

J Jimmy Carper 1:23:21

Yes, absolutely. I don't have the website information with me. But there are a couple of groups. And I could get you that information. Houston bdsm.com. I believe there's a link to some groups that are available for a lesbian couples. But you're also welcome to In the Penn Central Community. H pap is great. And if you want more information on just that type of group, feel free to email me and I can give you that information. Do you have a pen handy? Yeah, it's mistress at Miss indigo.com M ISSINDIG. Oh, okay. If you email me, I'd be more than happy to get that information to you. And I can definitely bring it to the station the next time I come since I had a request for that. But yes, there's all types of groups in Houston. Houston is fantastic. If there's something that you enjoy, there's someone out there that you enjoy with no doubt. So what was your first name? Kimberly. Kimberly with a T. o tymberlee. temperately. Thank you for calling in any other questions that I could help you

1:24:33

out? I think that I'm wondering, could you repeat your email address?

J

Jimmy Carper 1:24:36

Mistress at Miss indigo.com. Don't hesitate to write me and ask any questions that you have. And if I can find a resource for you. I will if I can't, I will ask you. We'll get you hooked up. What are your interests? Well, well, you

o

1:24:55

know, we're just looking around right now. We haven't really we're just throwing things up in the air because we're Like I said, we've been together five years and so we're looking for something new and things that are, you know, a little bit more exciting. So we're looking to branch out. Yeah, absolutely

J

Jimmy Carper 1:25:08

wonderful. And this is a great way to do it. You know what? It is kind of excitement ran to the bedroom that's consensual and despises you up? I mean, what more could you ask for? Well, thank you for calling in tymberlee. Thank you very much. She's cute. Let me stop. I don't know. Probably happy together. No, I'm back to cotton ball torture. Yeah, yay. Yes, my favorite subject. So you could cause damage if you are, you know, pounding away at an erect penis. You don't want to do that either. But there are ways that you can go about those no point. No. There's certain ways you do it. You don't want to cause erectile dysfunction, and death. See, I've had a friend of mine who was was wearing a conquering at a club and somebody grabbed it. And they grabbed it so hard that it bust busted all of the blood vessels in his side of his penis. And yeah, so it's not, you have to be careful when you're doing that. Because there is a lot of blood in the penis was this person on steroids or I don't know the exact all I did was take him to the hospital because I wasn't right there with him when it happened. He said he was walking to the club and this guy just grabbed him and he grabbed it so hard. He must have yanked or something and it just it busted the blood vessels along either side of his urethra and it swelled up to care. Oh my goodness, he has that you can cause damage, you have to be careful, start off slow get information, feel free to email me and I can provide you with more I asked to do a workshop on CBT. And so I've got tons of information on file for anyone that wants to find out more information about this. But once again, playing with one's cocking balls can be lots and lots of fun. You heard that straight from Miss Indigo. Thank you for listening. This was another line and you're listening to queer rafter hours quick radio with an attitude on 90.1 KPFT Houston, and 89.5 in Galveston and as always on the worldwide web at WWE dot KPFT dot o RG and we're at Euro Pacific radio for the Gulf Coast. We're going to put some election information in your ear and then we're going to put some music in your ear and we'll be back with the roundtable.

o

1:27:39

KPFT elections are underway candidates speak their piece every half hour.

1:27:44

Hello, I'm Earl Gerhard, candidate for the KPFT Local Station Board. KPFT has been a tremendous resource to this community for over 30 years and it is my privilege as a listener and supporter to do all I can to ensure that this treasure of progressive and marginalized voices continues to flourish. I believe the mission statement of Pacifica has stood as a framework for all who believe that we can live together in this diverse world. I believe we must become the change we wish to see within Pacifica and within the KPFT community Dwayne Bradley staff and the Local Advisory Board have done a fine job recovering the station I have a solid understanding of the obstacles this Local Station Board will face through my professional personal community experiences I have developed a variety of skills I believe will be vital for constructive and effective leadership. I pledge to be an accessible and hardworking elected representative on your Local Station Board who hold the idea of a greater Pacifica as my guiding principle vote for me, Earl Gearheart.

1:28:32

Thank you. To find out more about KPFT elections visit the KPFT website is kpft.org.

c Chris Harrison 1:28:48

Yes, that was

J Jimmy Carper 1:28:51

Mark Weigel from his album. What album

c Chris Harrison 1:28:56

is the album album? We find the elbow word we stick with. There it is their truth is and we played cut number. The damn thing reset so I don't know.

J Jimmy Carper 1:29:12

We we played no more nights alone. Now that song was one of the first gay songs that ever came out. And it was originally done by a man named Blackberry. And Mark got with him to do this duet. So you know they redid the song. I think it's a beautiful song. Plus JD Doyle was the one who was able to get that nice after hours promo from Mark waggle for

c Chris Harrison 1:29:42

us. Yes. And it's time for the roundtable. Yes. And I forgot I have to explain to people you had a dedication to me earlier. Yes, go west. Because I've teased you you refuse to play the song anymore. So whenever you're gone I always steal that song I know Lay it's best to explain why

people are

1:30:02

because it's so tired.

Chris Harrison 1:30:06

Yes, but you know, it's 12 o'clock at night and you know, most of the people on this show are tired as well. Wow. And speaking of tired people, we've got Roy here, so that's why we can talk about tired people.

Jimmy Carper 1:30:22

We had Roy's coffee so we're up. Okay, who's

1:30:24

all here tonight?

1:30:27

All right, I got a big row here. And

1:30:28

Debbie, when Merlin read, Robert,

Chris Harrison 1:30:35

Patrick, and John boy, Joseph. Boy, and that's floating around here we have got this is time now for the world infamous in a world renowned round table on KPFT. After hours. We've got the letters from the inmates from our MB B's, our smiley doing well, well, I've Robert Robert in there is out front. He's

1:31:03

in the corner. He was here, but it's gone.

Chris Harrison 1:31:06

Well, Robert, someone who read the letters.

J Jimmy Carper 1:31:09

Oh, the other Robert. Yeah. So well.

C Chris Harrison 1:31:11

Yeah, we'll need to go through and go through the letters and hopefully would you go hit Robert because he's gonna read the letter. So he needs to come in here. Hey, Robert, if you listen, please come in here. No one listens in the lobby. What we'll do is while we're waiting to crack him down, let's Okay, he's on the phone. Let's go over. They they announced him last Sunday so we couldn't get it to air on our show. Last week, but the pride committee of Houston has announced its 2004 Pride Parade Grand Marshal nominees. And the nominees are and the nominee camera for male nominee for Grand Marshal. There is Gerald B. McNeil. You heard him earlier tonight was on earlier system commissioner of the Houston softball league swore a Aubrey on TG era Houston, gay lesbian Political Caucus, a member of the Royal and soveral Imperial core to the single star.

1:32:19

That was the Montrose softball league. And

C Chris Harrison 1:32:21

it says Houston got it wrong. Wow. Gee, that's not let me see where I'm reeling when people that explains it. Yeah. Hey,

J Jimmy Carper 1:32:32

friend anyway. And he's also a board member of IC H space city empire.

C Chris Harrison 1:32:38

Yeah, that's further down here. They were listing all of his titles.

J Jimmy Carper 1:32:43

As a very lengthy list. Yes.

C Chris Harrison 1:32:46

We also have Luis Miranda, various artistic talents to promote arts understanding and education to our community member of Miss camp America. John Nechung, who is a an attorney with he's a past president of Stonewall Law Association, and works with the he's state bar on the Texas section of sexual orientation and gender identification issues. co chair of the National lesbian and gay Law Association and he's with the immigrant, the gate immigrant Task Force. Here, the National lesbian gay immigrant Task Force chair. Vance G. Nesbitt as a volunteer coordinator for numerous GLBT events including the Pride Parade, Houston, black tie dinners bunnies on the Bayou, Halloween magic and grey party. He has participated in varying omegas and evening of art, volunteer Appreciation Day client holiday party, World AIDS Day events. And the last one the male nominees is Jerry simonneau, who is president of Stonewall lawyers,

1:33:54

I guess we'd like that one

c Chris Harrison 1:33:56

for two years and he also serves on the State Bar of Texas section on sexual orientation and gender identification issues. He's also heads up the Houston Bar Association on AIDS outreach. And one thing they didn't put on here because it's not official yet but he's also a certified patrol leader with cue Patrol we're we're waiting to give him his initiation rights. Those are your male nominees female rights or wrongs. Okay, you're down another notch. Female nominations us point of view Sona Alton, Director of communication and events for the Montrose clinic and member of the crew of Olympus Carol Clark, a sister's care team volunteer for six years and as a as a member of the board of directors and vice president of volunteer services and also work with stone soup. Food Pantry. Joan Devlin who is is a Texas triangle, columnist and reporter, as well as co host of queer voices here on KPFT on Monday nights from eight to 10pm. She Volunteer of the Year and 98 and is a featured author in the 2002 Pride guide. Phyllis Randolph Frey has worked for more than 30 years for changes in the GLBT community as a transgendered activist. And she has been a frequent guest here on our show and on queer voices. And also you also heard Judy Reeve, who was on earlier with her work of G cam, and theatre, suburbia with names project and act up swell. And Gloria Silva, volunteer participant in many charity events, benefits and social works for the past 25 years, she's a singer who's performed at numerous community HIV AIDS and women's health events. Then there's the so we've got those two, we've got two left, we got the honorary the honorary individual.

J Jimmy Carper 1:36:03

It's important to point out here that the honorary nominees usually goes to someone or a couple who are straight. Yeah, non gay. That's the first one. The friendly, straightforward,

c Chris Harrison 1:36:18

honorary person goes to basically a straight person who is very supportive or helpful in the community. We've got Mike Ms. Wah, Chief Executive Officer of AIDS Foundation, Houston, Sue

and Jim Knoll, who have their work through PFLAG. Great organization. Several guests have been on our show several times. And rose Smith, who was on earlier with her work with mantras, clinic, AIDS Foundation, Houston, Houston Buyers Club, PWA coalition, PWA holiday charities, and the Co Co vice chair of the Houston Council of clubs, which runs Louis and part of the end she is chair of the Colt 45 AIDS trouble fund. And then the organizational nominees and the Imperial Court of Houston space any empire is one of the is the new court system here in Houston. Organization new members are not only diverse in age, lifestyle and profession, but are also gay, lesbian, bisexual, transgendered and heterosexual. The group has worked with several other groups here in the city to promote ideas. Then, of course, on whatever just read in the order here and remember, we can't go politicking for anyone but ladies and gentlemen, one of the nominees is Kpft 90.1. FM.

1:37:45

We might be a little biased on that when

c Chris Harrison 1:37:50

KPFT has been airing entertaining and educational, gay and lesbian radio programming for the past 30 years. And what are

J Jimmy Carper 1:37:56

we doing? Are we sneaking? Very careful on the entertaining part. I think that's certainly not educational not

c Chris Harrison 1:38:09

yours is taking a major role in outreach for not only the GLBT community, but as Houston as well. The Pacific public radio station offers to GLBT themed shows after hours, which is Sunday, which is Saturday midnight to 4am Sunday and queer voices Monday eight to 10pm other organizations in there is the lesbian Health Initiative, which was founded in 1992 to educate lesbians on breast cancer.

J Jimmy Carper 1:38:34

Good for them. That's a great cause.

c Chris Harrison 1:38:36

Yeah, unfortunately. I mean, that's, it's from my, from what I understand within the lesbian community. Part of the problem why there is that call for that is most of the women when you find out about those sorts of tests, that is when you go for your standard gynecological events,

and, you know, lesbians don't have to don't go to gynecologist some regular thing, because, you know, they're not worried about getting pregnant. They're not having to they're not going through those kinds of testings. So it's not asked,

J

Jimmy Carper 1:39:06

but they still it's, you still need to it's very important just for your overall health, and I'm glad that they're out there and doing all that we need to you know, I think it's a great it is important to point out is because of their depressed research of breast cancer, that is a big concern with the lesbian health initiatives and stuff that they found out that men can also get it Yeah, I mean, maybe not. To the extent that women I mean, not to the numbers that women get it but yeah, that we know that we know

o

1:39:39

because men tend to not go for it and you know, it's a little more embarrassing for a man but it's it's there and it's cancer does not discriminate gender, doesn't discriminate, discriminate your sexual orientation. Nope.

c

Chris Harrison 1:39:57

Equal Opportunity disease is what apps And the two other nominees are the Lesbian Gay rights lobby of Texas, the LGL. The LG R L helps to increase the influence and visibility of GLBT Texans in the state legislature. And the final nominee for Grand Marshal organization is the Stonewall Law Association of Greater Houston slag, which has earned the status of accredited sponsor of continuing legal education for attorneys. And they are going to be hosting here and we're going to be probably talking about a little bit more next week is the freedom to marry week ceremonies which is going to be this year a protest and a ceremony. Cool
