Gary Norman 00:01

It's called equality begins in home. And it's an organism. It's a group of activities that are taking place in every state in the Union this year, and the 30th, celebration 30 year celebration of Stonewall. And what the taskforce has done is given out \$5,000 to each state, for the National organized on a state level and a local level, to make sure that people know equality begins at home. And

Roy McCarthy 00:40

that's how you fight racism and bigotry of all sorts. Yes, is at home,

Gary Norman 00:43

it's not in the nation's capital, it's in your present. And that's what they're trying to encourage. So there is going to be a big event, march 21, through 27th, a whole bunch of different events taking place each day in Austin, showing the people who are in the legislature, what we feel about equality, and particularly equality for the gay, lesbian, bisexual and transgender community. Now, the reason I mentioned this is because to go to Austin, you of course have to plan ahead. So I'm mentioning again, it's March 21 to 27th. Now, this Tuesday, the local Houston group covering the equalities begins at home and taskforce activities, called Houston's creating change committee is having its first social gathering and discussion about the events in Austin, and what that group wants to do during the year to heighten awareness. On this 30th anniversary year.

Roy McCarthy 01:57

What would someone do if they wanted to become a part of, of this group?

G

Gary Norman 02:05

Well, on Tuesday, we're having a little social gathering and discussion. And it's going to be held at the West grey cafe. And the West grey Cafe is located located at 415. West grey. It's just down from Cafe. And just next to one's email, the meetings not actually meeting a gathering we're going to have there's going to be dinner and a few other things. It's going to start at seven and go to about nine 930 10 o'clock. And talk about what can we do? Anyone, anyone who wants to come,

R

Roy McCarthy 02:40

Alright, that sounds that sounds pretty good. And that's a way if somebody wants to get involved in the community, and then we can become sort of stick their toes in, in the waters of activism. That sounds like a great place to begin. Yeah.

G

Gary Norman 02:55

And the thing about the taskforce, it's a national organization. But what they do is promote local activism. That's what they're promoting local activity. They pass money out to the local people, not take it into Washington. That's an interesting one that's coming up and talking about

R

Roy McCarthy 03:15

activists and being I mean activism and getting your toes wet in the waters of activism. If you're unable to do that, or even if you are, the Lesbian Gay rights lobby, is encouraging Texans to call Governor Bush at area code 51246 through 2000. And let the governor know that you oppose House bill or HB 415 and HB 382. These bills will only harm the 1000s of children waiting for adoption or foster care. Those are the two bills that we talked about in last week's new segment

G

Gary Norman 03:58

last week, probably the week before and the week before that, but

R

Roy McCarthy 04:01

one is important. One is to ban children from being adopted by gay or lesbian parents. And the other one is to do check on people who already are adopting or being foster parents. And if they are gay or lesbian, then pull the children out of their home.

G

Gary Norman 04:23

If there's if they're a foster parent. They can't pull them out if they're adopted, but they can't

have a foster parent. And the thing is that the bills that we have, cover what needs to be covered, because what's important, and what the present law says is they have to look at what's for the interest of the child. This has nothing to do with what's in the interest of the child. This is just arbitrarily taking them out because of something like sexual orientation. What's the next criteria? Are they going to do it What's Next thing we're gonna do about sexual orientation? That's why we have to stop.

R

Roy McCarthy 05:05

You know if for people out there that are kind of wondering whether it's okay or not for gay, lesbian, and transgendered people to adopt or be foster parents, if you're wondering about the possibility of us turning the kids into flaming queen or something like that all of us gay people were raised by heterosexual parents. We came from heterosexual homes for starters. And secondly, if you're worried about us, molesting the little children, that's not going to happen. I mean, let's, let's face it, let's be honest, the majority of child molestation cases happen by opposite opposite gender, the majority of child abuse is from comes from heterosexual families.

G

Gary Norman 05:58

And as far as the gay community is concerned, gays and lesbians adopt for each one that adapts to chances are 10 to one that they will adopt someone who is has severe disability or as HIV eight, when you compare it to the street population. They are adopting children who are under stress who are having problems. And as

R

Roy McCarthy 06:30

I understand there are there are young adolescents and teens who are gay, that are waiting for adoption. Models and then what better role model than a stable gay or lesbian or transgendered home? Yeah. Anyways, if the governor is unavailable, asked to speak with his liaison at the legislature, Terrell Smith. Now, if you are unable to reach Smith, go ahead and leave a long message for the governor. Give us that number. Again. That's Area code 512-463-2000.

G

Gary Norman 07:11

Okay, on Friday, I went and I actually was on Thursday, I went over to a page called physically positive. And it's a it's a physical occupational and speech therapy facility. And I talked to a gentleman there. And his name was David is David shackle. Here's what David said that most of his people are recipients or a lot of them are recipients of mod metal, Medicare. He said it distressed him to see that Medicare recipients are being denied services that provide them with a normal life. In the case of the case of HIV and AIDS, recipients are living longer due to the prescribed drugs. But a lot of these drugs create enormous side effects, some of which can be controlled by physical therapy. So they provide physical therapy for HIV AIDS, patients, clients, and there's a cap, there's a Medicaid cap of \$1,500. So these people can't get the physical therapy they need. At the same time, the Medicare said they were going to look at this. Congress said they were going to look at this. They've been stopped. They're busy trying to

impeach people and throw people out of office they're not working on. So you can call your Senator, you can call your congressman in Washington and tell them, hey, get to work on this thing. And let's get this cap off and let's provide information for people. Okay. All right.

R

Roy McCarthy 08:59

Going along in medical news here, like to mention that Michael regio, who's the Assistant Director with Red Cross has been appointed that agency's Tech's HIV AIDS statewide network coordinator, and congratulations go out to him. And this is he's an active member in the HIV AIDS service community in Houston and throughout Texas. roadshow accepted the position on January 18 of this year. And if you'd like more information about the HIV AIDS network here, call area code 713-313-1621. That's 713-313-1621

G

Gary Norman 09:46

the Houston has been a community center, which is located at three Hawthorne has unveiled several plans that it's going to do this year to raise money for the organization. Listen. This is individual memberships, student and senior memberships. So we're looking for volunteers for the community center. That's what we're asking for. That's the most important thing. Not necessarily the money, but come out to the community center. spend an evening, show people around, meet people talk to people, be a volunteer.

R

Roy McCarthy 10:27

And I understand that quack is now calling the center home.

G

Gary Norman 10:31

Yeah, they're using the the upstairs bathroom. What? Yeah, you're using the bathroom. There are two bathrooms upstairs a room. And so we're just when there's they're just making a lot of space available setting up a place to call home and put their materials that they use in their performance invokes

R

Roy McCarthy 10:54

the community center. need your donations, we have groups meeting in the bathroom. Yeah, well, that's

J

Jimmy Carper 11:02

why I used to meet people in the bathroom too. But it was about that as well.

G

Gary Norman 11:07

Gary Norman 11:07

The thing that's good about it is that people are there at the center all the time. And it's an opportunity to meet people and for groups to interact. And it's getting busy. Yes.

Roy McCarthy 11:17

A lot of interaction in the bathroom. Well,

Jimmy Carper 11:19

well, what's what's going to happen there, they have a couple of space, very spacious bathrooms, and they're going to, like, remove the fixtures in one and could be a small meeting room.

Gary Norman 11:34

They have a lot of good material.

Roy McCarthy 11:36

Okay, moving right along. Regarding the Don't Ask, Don't Tell the military and all this. Why don't you know that nearly 25% of people that are being discharged from the military last year are being here for being gay, or we're trainees at a pace here in Texas in San Antonio. The Don't Ask Don't Tell don't pursue is a complete farce, folks,

12:02

aren't number war people

Roy McCarthy 12:05

that have been discharged from the military for being gay or lesbian. Then at any other under this, Don't Ask Don't Tell, don't pursue policy than at any other previous time in our military history. And the only way I can figure this out is that the military must be pursuing and they must be asking. Okay, getting back to Texas, some 271 people are about 65% of the 414 Gay discharges in the Air Force were trainees at the Lackland Air Force Base in San Antonio. And this brings to 30%. It's an a 30% increase in the number of people that have been removed from the Air Force, which was part of a record number of expulsions in 1998. Under the Pentagon official policy, in 1998. There was 1100 45 people discharged in the military. Under the Don't Ask, Don't Tell, in 1994, just five years ago, there was only 617. When I first started at the station, about five years ago, it was the number was 617. That number is just about doubled to 1100 45.

13:29

It's not working, and

Roy McCarthy 13:33

just wanted to let y'all know that the military is still a very dangerous place to be if you're gay or lesbian. And I'll tell you some, the the one of the things about being lesbian, lesbian women getting kicked out from is not all of them are lesbian, some of them are being sexually harassed by superior male officers or equal or someone of equal rank. And they turned down the the they say no to sex, like they're supposed to, under the uniform military court code of uniform justice or whatever book they call it. According to the military law, you're not supposed to have sex in the military, period. And if a female turns down a male offer for sex, she gets labeled as a lesbian and then kicked out. So there's a lot of straight women that are being kicked out for being loving. So if you get if you're strict, this Don't Ask Don't Tell applies to you too. You are in danger. That's why we need gays in the military.

Gary Norman 14:49

I wanted to mention and give congratulations to the Stonewall Democrats of Houston who elected their first set of officers at their annual meeting. And Mark Wood has Spin I elected to Stonewall Democrat president. In addition, Patrick McElwain has been elected vice president and Marvel ways as treasurer. So congratulations to the Stonewall Democrats and their little election and and his big upcoming here

Roy McCarthy 15:19

with the definitely has a lot of work to do.

Gary Norman 15:22

You want to congratulate anybody?

Roy McCarthy 15:25

Yes, I do have a congratulations going out to Lynn Redgrave, who won best supporting actress in the Golden Globe. For Gods and Monsters. Oh,

 Jimmy Carper 17:36  
we don't have a gay and lesbian Museum in Houston, so to speak.

 Gary Norman 17:45  
Yeah, it's been worked on, I think, little bits and spurts and stuff. We really, because

 Jimmy Carper 17:51  
a lot of us have things I have the prototype of the t shirt for the 1987 march on Washington. And my possession Yeah,

 Gary Norman 18:02  
we kind of we kind of get all that.

 Jimmy Carper 18:05  
Stuff like that. That really means a lot to our history. And you know,

 Roy McCarthy 18:09  
the funny thing is. you never know what you have folks. The other day. I was going through

the family thing is, you never know what you have to do. The other day, I was going through some of my boxes. About a week or two ago, I was going through some of my boxes. And I found this old article from the Houston Post. Yeah. So and we all know how long the Houston Post Yeah, that's been gone a while and in there was a article on the queue patrol that had just started up. And I I gave it to Michelle who's connected with the patrol for the patrols. Hysterical Archons one I'm sure there must be some hysterical things in there too.

**J** Jimmy Carper 18:46

You know a lot, a lot of things along that line. The pride committee of Houston is and that's that's the outfit that puts on the parade. They're looking for a volunteer who can help us publicize our events in the local Spanish mass media. If we are interested in getting information in local publications, radio and TV in the Hispanic community,

**R** Roy McCarthy 19:13

I know I'll talk to you good talking talking about the Hispanic community gets what?

**J** Jimmy Carper 19:18

Well, if Well, hold on, anybody out there if if you if you would like to do this volunteering or know somebody who would contact Jack Wolinsky, at the pride committee, he you can reach him at wolinsky@earthlink.net Wolinsky v a l n. S, Ki, or give a call to the broad committee.

**R** Roy McCarthy 19:47

Now talking about the Hispanic community, yes. Okay. Last night I was over at Toys. Yes, I know. I've been meaning to get there for a long time.

**J** Jimmy Carper 19:58

He came over before He was going over there.

**R** Roy McCarthy 20:01

And yeah. And guess what? I was talking with the new manager, General Manager of toys. And he was, you know, very impressed with our radio show and everything. Man, he announces to his patrons to listen in after hours.

**J** Jimmy Carper 20:21

Very nice. Very, very

R Roy McCarthy 20:25  
good spirits segment here.

J Jimmy Carper 20:27  
Well, I know and as soon as we have an opening on after hours, that is the next segment that will be here.

R Roy McCarthy 20:35  
Okay, moving right along in order to fight prejudice and bigotry. It's one of the places that you find fertile ground for homophobia and hatred and bigotry is in church,

J Jimmy Carper 20:49  
I guess. And in many cases, I am

R Roy McCarthy 20:52  
just thrilled to announce that the Reverend Peter golems, who happens to be the main number one Harvard University minister, yeah, minister at Harvard University, he is coming here to town. In fact, he may very well be in town right now. And he's going to be preaching later on today or tomorrow Sunday at St. Stephen's Episcopal Church in Alabama and Woodhead. Yeah, yeah, it's a great place and he's gonna be preaching at the eliminate M service. And then he's gonna be preaching at the 7:30pm Christ Church at 7:30pm. Service at Christ Church. That's downtown right now. Peter Gray, Gomez made headlines several years ago when he appeared at a rally of gay and lesbian students in Harvard, yeah, and revealed that he too was gay.

J Jimmy Carper 21:44  
Whoa, okay. So

R Roy McCarthy 21:49  
Oh Christ Church is located at 1117, Texas and St. Stephen's Episcopal churches at 1805. West Alabama, Alabama and wooded Yes.

G Gary Norman 22:00  
I'm following along with that theme. The self described lesbian evangelist James fire. Her as a pioneer and current leader for inclusion of gays, lesbians, bisexuals, and transgendered persons in the Presbyterian Church is going to be in here here in town. She was the keynote

persons in the Presbyterian church is going to be in here here in town. She was the keynote speaker for PFLAG second major healing, the hurt conference. And so she's going to be back here on February the fifth at 730. And she's going to deliver a sermon to central Congregational Church, which is located at 1311 Holman, just south of downtown Houston community, community college. And there's gonna be a reception hosted by Lutyens concerned and that will immediately follow the service. So Friday, February 5 7:30pm 1311, Holman journey so far is going to be here in town.

 Jimmy Carper 23:04

Okay. There's it for those of you who out there who are HIV positive, there's a place to go to talk about being HIV positive, and that's the center for AIDS, which is located at 1407 Hawthorne here in the Montrose. And they do have events coming up February 9, is their monthly meat mixer. It's, it's a place where people who are HIV positive can come and discuss how they are doing, and also learn about the latest than in HIV and AIDS treatment. And then on the 11 they're going to have a community forum and titled taking those blankety blank pills and sticking to your HIV drug regimen which which can be a problem when you have to take pills several times a day, some with food, some without it's really kind of tough. So that's February 9, and 11th. Center for AIDS. 1407 Hawthorne, I'll be there.

 Roy McCarthy 24:05

And sometimes, I bet that it can get really confusing as to which ones

 Jimmy Carper 24:10

Oh, it is. It is it is it is and sometimes you wake up the next day and realize that oh oops, I forgot to take those pills at that time and you know, just kind of screws things up. And our friends quack. I just I'm just jumping right in there. Oh, that's our friends quack.

 Gary Norman 24:32

queer artists collect. That's right.

 Roy McCarthy 24:33

Meet up in the bathroom.

 24:37

storage space.

 Jimmy Carper 24:39

There you go. Are you talking about not

**G** Gary Norman 24:41  
their performance? Their storage space? Oh, wait. Let's see them

**J** Jimmy Carper 24:47  
performing in the bathroom. Did you talk about the the first works art space that they were the February thing that they were doing?

**G** Gary Norman 24:57  
Oh no, I didn't. I didn't mention them. I did. You know that

**J** Jimmy Carper 25:01  
yah yah yah yah Sixto from quack

The the idea behind the show comes from a desire to examine issues about love within the community, especially during a time when press and attention to our community has focused on and about hate crimes. We'd like your help in to continue refocus the dialogue that was ignited with the math, Matthew Shepard murder. With your participation. We can use as much a method to make sure the issues brought up by this tragic death will continue to be discussed. If you are interested or have materials you are willing to donate, please contact Sixto that's s ixT Oh, that's his name. 713-223-8346

**R** Roy McCarthy 26:08  
Okay,

**J** Jimmy Carper 26:11  
.

so have you ever seen some of the quack things?

**R** Roy McCarthy 26:14

Oh, I have been featured on TV monitor.

**J** Jimmy Carper 26:17

It's just great. Now featured speaking of TV Montrose. Big Boy is just going crazy because I keep cutting in front of him. This week, this Monday night on TV Montrose will be an entered the first time in the history of, of the switchboard the gay and lesbian switchboard. They have allowed TV cameras inside the premises of switchboard and, oh, we're gonna get to see the inner sanctum the inner sanctum of the switchboard and be entered in Steve Baker is interviewing three people from the switchboard. So from

**R** Roy McCarthy 26:59

going from top secret location and everything. It's going to Well, the doors wide open.

**J** Jimmy Carper 27:05

Well, no, we didn't exactly give the address or anything but

**G** Gary Norman 27:10

the first talking chat inside. That's right,

**R** Roy McCarthy 27:14

folks. I'll say this. They're not located in the basement of the White House.

**J** Jimmy Carper 27:18

No. And we're not located in the bathroom of the community.

**G** Gary Norman 27:24

Are they do they get any video of your bathroom?

**J** Jimmy Carper 27:31

But that's on Monday night, eight o'clock? Warner Cable Channel 74 or Jr's Bar and Grill.

**G** Gary Norman 27:39  
You can go to Jr. Yes, same time. Or

**R** Roy McCarthy 27:43  
you can still purchase a video copy.

**J** Jimmy Carper 27:46  
No, they're not doing that. Anyway. I asked Steve. He said Well, they didn't get too many orders. So they they're not even advertising that anymore. Okay, I know that that was a cool deal. But

**R** Roy McCarthy 27:58  
all right now, may I continue?

**J** Jimmy Carper 28:01  
Oh, were you talking?

**R** Roy McCarthy 28:03  
And he was goofy. Tonight I'm telling the several area nonprofit agencies have received money. Good old money. I haven't gotten any of that. So but these other groups did. Chase Bank and the Hollyfield Foundation has given several organization you know, funding.

**G** Gary Norman 28:28  
They had a little reception for this last night.

**R** Roy McCarthy 28:32  
The \$1,000 Grant was given to the Montrose Counseling Center to chase banks as racial harmony and diversity program. And Hollyfield Foundation gave grants to the Center for AIDS assisters to hatch to the black tide committee to our youth Austin to the Texas Human Rights Foundation, the Montrose clinic and the Montrose counseling center right now, the foundation's grants to the clinic and to the center are together and as one grant, because they want these

two separate organizations to work together on one project. Yeah, and it's for a joint endeavor to educate lesbians over 40 about breast cancer and self care. That's very important. Very important. And the war to hatch will help pay for the salary of the group's first full time paid. Director, program director or sis hers received money from Hollyfield and sisters helps women who are coping with life threatening and debilitating.

**J** Jimmy Carper 29:49

It's an amazing organization it's there's no I don't believe there are any paid staff there at the sisters and it's it's lesbians. donating their time to help other lesbians who maybe cannot cope anymore. Maybe they have a debilitating illness or something like that. You come over and do shopping, mow the lawn, you know, things like that to help other lesbians keep their home.

**R** Roy McCarthy 30:18

Right. And they wore to the black tie committee is to underwrite this year's dinner. And now youth Austin received a grant for its school outreach program good. And the Hollyfield Foundation has given out 1000s and 1000s Oh,

**G** Gary Norman 30:37

my last year they gave out \$33,000.

**R** Roy McCarthy 30:41

And so this year, the grants are going from between \$1,000 to \$7,500 7500. And they have a 13 member board of directors, and they evaluate all these different groups as applications. And in case if anybody wants to know about the Hollywood foundation, I just want to let you know that it was formed in 1994, in remembrance of Jay Hollyfield, who died of AIDS related illnesses. And every year the foundation gives out money to different deserving groups, right?

**G** Gary Norman 31:17

Yes, I'd like to just mention a few things on the calendar. Sure. Getting father's father's first Oh, you'll meet this Monday, February 1. That's a support group for gay fathers who want to keep or re establish the relationship with the children. That starts at 8pm. For more information, you may call 713-861-6181. That's 861 6181. I also like to mention that the Houston gay and lesbian Political Caucus is holding its monthly membership meeting at 7pm. For more information, you may call 713-521-1000. That meeting will be held at a Houston lesbian and gay community center, located at 803. Hawthorne, right in the center of the Montrose. And at the same time at the same location, for those of you who want Montrose clinic is given free and anonymous HIV testing from six in the evening, until eight in the evening. So that's a little bit that's upstairs away from the main meeting, but it's a good opportunity, if you want some testing to stop by. And I also just wanted to mention that this coming Friday, February 5, at the

center, again, between five and 730. The pride committee invites you to stop by to meet the executive committee coordinators, co chairs, the Board of Directors, corporate sponsors, and the Grand Marshal nominee. Oh, so

**J** Jimmy Carper 32:59

yes, I know about that. Yes. So because I was on that committee.

**G** Gary Norman 33:04

It's the unveiling of the 1999 Gay and Lesbian pride. So that's fabulous. Yeah.

**J** Jimmy Carper 33:14

What day is that?

**G** Gary Norman 33:15

That's this coming Friday, February 5, from 5pm to 7:30pm. Okay,

**J** Jimmy Carper 33:20

you're listening to after hours, news and views. Right here on KPFT Houston and KEOS College Station, we have a couple of more things before we get into some music and fun stuff and and asking for your pledge of support for KPFT and after hours. And that number you can call right now at 713-526-5738 and talk to. We have operators sitting by in the lobby. But you know it's not too early to plan things for Valentine's Day and for women. There's a women's Valentine dance Life begins at 40 singles group for women over 40 and over. They will take members under 40 if they really want to join is sponsoring a Valentine's dance and fajita dinner on Valentine's Day from five until 10 at the hop

**R** Roy McCarthy 34:18

here to dinner
