SPEAKERS

Jimmy Carper

00:01

If you're talking about real SM, the way we practice it, which is, you know, safe, sane and consensual, where, where you do it in a loving way. It's not, it's. And so there is a project out right now, where the people that are going to the local chapters, it's a real grassroots kind of thing of now members that are going to and trying to convince the various local chapters, that this isn't the violence. And it's not easy, because you got the feminists that are out

00:40

there, there's a really strong strain of abuse.

00:43

And you know, you know, even if it's two women doing it together, they say that

00:48

it's kind of little, little cultural revolution, they're pulling off and tagging, you know, people unfairly with their own prejudices, their own little model of, you know, this symbolizes that the US kind of like, a witch hunt is what it is. Yeah.

01:05

Yeah. Well, one of the one of the things, the other things that that I'm involved with, is the National Coalition of sexual freedom. And what we're doing right now, trying to document we've got a survey that we've been putting out there, and we're trying to get as many answers back as possible. It's available on the internet, we also are sending it out to different groups

like National leather Association, and, and tests, and various groups around the country are sending it out to their members, because we want to document not only, you know, have you been a victim of discrimination or violence, but also the demographics so that we can then take that information. And we can go lobby Congress.

01:58

In fact, you've done that, haven't you? Yeah, Washington, April,

02:01

I participated in the second annual leather Lobby Day, basically. And we went and we went to the different congressman, and it's a real trap, walking through the halls of Congress, you know, and

02:17

you're dressed in leather.

02:18

And, you know, we're just absolutely shocked. Because, you know, here we are with these two women, and we're really nicely conservatively dressed looking like regular American, and talk, you know, saying, well, we will want to talk to you about discrimination. And we walk in there and we start talking about dominance and submission and bondage and, and how many people are doing it and, and they're like, they're surprised. Nobody's ever really come

02:47

who did you talk to talk about this kind of stuff with him? Did you speak?

02:52

We went to various, basically the way Congress works, okay. The congressmen basically a running around fundraising and cutting ribbons, and stuff like that the real the real power in Congress is with the AIDS, the AIDS of the people to collect the information, and really tell the congress people how to how to vote and what's going on. So we went to see very various aides and different kinds, like Schumer, the last class, Barney Frank, various, various, we looked at some of the voting records to see how they were voting on other sexual freedom kind of issues. You know, usually if most of those issues are usually GLBT, gay, lesbian, bisexual, transsexual type issues. And those are the people that are really out there doing lobbying,

02:58

04:00

I want to do that. I want to go to Washington lobby

04:04

with us. And what we've done is we've put together briefing books, which really blew them away, because we went up there really professionally, because some some of the kinky people that we have working for us happen to be professional lobbyists, lobbyists, kinky people come in all sorts of types of people. You know, there's doctors and there's lawyers. And yeah, there's people that work up on Capitol Hill.

04:32

I bet there are other people who like to drop in 20 bucks or would like to come up to Washington or do any number of things with the Coalition for sexual freedom. How would someone get in touch with that particular group?

04:43

There's two ways to do it. You can either do it through the internet, which is probably if you're online, that's the cheapest way to do it. I would go to [http colon slash slash members that aol.com slash NCSFREDOM slash survey dot HTML](http://members.aol.com/andCSFreedom/survey.html). That's a good page to start with, because that's really where our surveys at right now we're trying to get enough answers back.

05:19

I think most people know the AOL numbers thing Would you repeat the last part of the address?

05:24

[So members.aol.com/and C S, Freedom slash survey dot HTML](http://members.aol.com/andCSFreedom/survey.html). Thank you. And there's also a phone number. Yes. What is it? 183833318?

Jimmy Carper 05:43

I'm gonna ask you to repeat that one more time, because we kind of got fuzzy at the beginning,

05:47

one more time on the phone number

05:49

718-383-3318.

05:55

Okay, and that's for the National Coalition for sexual freedom of sexual freedom. That's, that's, I would think more than any other one group I've heard that's would be a great banner for

J Jimmy Carper 06:07

they're more interested in the sexual freedom. Generally, yeah. General, yeah, just depending on what your sexual preference are, whether you're into smbd is just sexual freedom, but

06:18

it's a lot of a lot of it's leather. And they're there. I mean, like that, like the after hours program here, three out of four, you know, host of different segments have applied or part of the essence seen, and are very open to various, you know, Pan sexual experiences. And, and, you know, that's where, what the kind of alternative sexuality community that we need to be a part of, we don't need any sort of divisive crowd going on in the coalition is just a coalition.

06:48

Right? Right. Basically, what we have said, sitting on the board, we have members, representatives from tests from national leather Association, from GM SMA, which is the biggest gay male, SM activist organization, and society, Janice out in California. And then there's a lot of other individual member organizations, as well as individual, anybody can join doesn't cost anything. And then there's, there's, there's, you know, what's going on up here?

07:28

Somebody looking,

07:30

just came back up into the room, I noticed. My friends untying her, you know, she's in this big harness. Good, real. I gotta tell you that stuff, too. You know, I'm talking about the, the. I'm talking about all the political stuff. But you know, here she is. She's wearing this latex katsu and she's got black robes. It's copper colored, and we're using like, I used black rope and a salmon colored rope and it's intertwined. And

07:59

would you like would you like for her to say hi to us in Houston?

08:03

She's actually Canadian. She came down from Toronto say hi. That's naughty Nancy. Hi naughty. And, and my friend Helen is

08:16

unting her. Oh, say hi to Holton from Russell down here.

08:19

So Hilton

Jimmy Carper 08:22

challenge has got a great laugh. I want to mention something real quick. I got this little note from DJ and memorial. He's listening right now. And he's getting ready to put handcuffs on his boyfriend. Oh, you go Hey. You just talk dirty to him at the same time.

08:42

Those handcuffs on too tight. DJ is a woman

Jimmy Carper 08:46

DJ Thank you. I didn't know what how you do it to DJ still. Make sure the safeties on those handcuffs.

08:55

Yeah, always double lock.

08:57

I like I like the shackles too. There are these English shackles that are shaped kind of like the wrist and they're

09:03

lovely that the highest Darby. Yeah, yeah, I got a pair of those. I

09:06

got a fetish for the

J Jimmy Carper 09:10

few finishes.

09:12

Can we talk about the you know, we've interviewed rich doctor last time last

09:17

year. He's here at IML and he's actually competing. He is Mr. Leather Colorado, Rocky Mountain leather. And and he's competing so we'll see him he's been doing the whole contest in pain.

09:32

We're all going to be at the Summer mountain in the mountains. Yes. And if you are interested you get on the local Houston web pages find out about thunder in the mountains such as Colorado Law their pride. Lolita is doing a workshop

09:49

workshops. One called beating at hover everything from spanking to paddling to kick Training and, you know, cover the safety aspects as well as you know how to do it centrally and warm up and, and the whole, you know, roleplay aspect that that's, that's what it was gonna be a lot of fun. The other thing I'm going to do is SM and spirituality,

J Jimmy Carper 10:18

that's always a very interesting subject. Well, what

10:21

a lot of a lot of spirituality goes on. If you go into some of the more primitive cultures, and even if you go into early Christianity, okay, they were using pain as a way to transcend. And unfortunately, the modern church has like really gotten rid of all those cool kind of things, you

know, where they used to do floss and

10:45

go down to Mexico and see guys, flogging themselves and Dragon crosses, and

10:51

you see things like, you know, faqeer Musa far during the ancient Sun ceremonies, and you go into, like Malaysia, where they do all those big piercing kind of things and walk through the streets with these big frames,

11:05

Hindu and Hindi aesthetics that do some pretty serious and some of the same, the, actually the exact same procedures are practiced, you know, in supposedly profane western context. Or, you know, I see the Hindi guys hanging balls off their chests with hooks. And I've seen the same thing 100 times down here at s&m scene, so

11:30

we're gonna do is we're going to put the two together in a context that we can do, I have a co presenter there. Her name is Peggy. And she happens to be a pagan pagan priestess. And what I'm gonna do is I'm going to do, and we have a, we have a bottom, who's the bottom Russell, me. And so what we're going to do is, she's going to take him on a guided ritual. And we're going to do this in a workshop. And I'm gonna do the, I'm gonna play Pearson with needles, and she's going to guide him and we're gonna go somewhere with it. And the, the two things will facilitate each other.

12:22

I've attended a local working group, and I'm interested in some of these things pretty intensely, in part Native American have had a lot of, you know, non Christian experiences with things that are close to this. So I think it's gonna be great.

12:38

Oh, yeah. Yeah, I'm looking forward to it.

J Jimmy Carper 12:41

You know, earlier, Russell had mentioned that you were the, for Inoue,

12:50

I was a Lifetime Achievement Award winner now.

12:53

Did you go to bat with for that one?

12:57

I don't know. I was really shocked. I was really shocked.

13:00

Maybe it's because you've had such a tremendous impact on the community. I mean, you've you've

13:07

you know, part of it is, yeah, I am very active between oil and Tobago and the National Coalition of sexual freedom, and Black Rose and, and, but a lot of what a lot of my outreach is through the internet.

13:22

What's your website? Okay,

13:25

I got a website. And I do well, I'll tell you, the website for us, okay. It's http colon, slash. Slash members.aol.com/lolita. s s CLOLITASSC. Like safe, sane, consensual. And so I got the website, the websites been up for like a couple of months. But what I've been doing for the past three or four years, I do a weekly newsletter that goes out via email. And, and it also goes out on a bunch of websites around the country. Joe Gallagher has leather page.com. So it gets posted up there. And it's posted on a few of the BBS is also a whole BBs network, and you're up and I get read, there's about 800 email addresses that get it weekly. Plus, it gets read on the web. What was really wild is coming to IML. And these contestants coming up to me and saying, you know, you've been helping me because I've been reading your newsletter. And this is getting me prepared to compete in this contest, because now I know what's going on. And that's that was like, wow,

14:49

we need to do a station identification.

14:51

Hold on just a moment. The sound of Texas KPN T Houston, of Pacifica radio network station, naughty boy. One FM 89.1 kg EOS College Station.

15:03

Yes. And

15:04

you're listening to after hours queer radio with that too much.

15:11

Okay, sweetie, we got some more time left, what would you like to talk about? Is your plaything still there?

Jimmy Carper 15:19

Are you going to be going to Lille? Yeah, yeah.

15:23

I had. I had lunch today with Mark Fraser, who's the president of National Weather Association. And in he's over in Dallas, and with Don Bastian, who's another one, and he's doing the program, programming. So we got a chance to talk a little bit about that. I think Dallas, little this year is going to be stupendous. First, we got it out of Portland, which is really great. And I think Texas, Texas is very strong. First of all, you got three NLA chapters. And they all know how to work together. They've done things together. There's local groups that know what they're doing and know how to work together. And I think it's Texas knows how to throw a party. I had a great time. When the one was I found it was used. It was Houston. Yeah. Right? And coming back to Texas is going to be great. I'm really we're

Jimmy Carper 16:21

looking for I'm looking forward to seeing you. I'll be there. Okay. Are you teaching any workshops?

16:27

Yes. I don't know what yeah, I'm on the list, we have to figure out. Don said, I'll probably do beading as well. And I don't know what else. I don't know what else but I'll be there. And, you know, which means that, you know, yeah, I'll do some teaching. And I'm gonna play. That's why important to me. And they're going to also do a leather activist round table. Basically, what we do is we get different people that are, you know, I'm a very, I'm a party animal I like to play, that's really important to me. But I also like to do the activism thing. And so

17:10

this is a woman that went like 10 years ago, or was absolutely in the closet ashamed, isolated, Oh, yeah. Like many of us, were including me, you know, and she's out there, just swimming and sore, you know, the rest of us. And I urge you out there, if you're listening, you know, to play safe, sane and consensual privately. And by all means, come out and meet some other people, the support and the camaraderie that you gain. I mean, the people that I feel the closest to in my life are people that are into the scene. They're also very bright, educated, creative, intelligent, cultured people really nice, really worthwhile to know. And also, we're stronger in large numbers. Yes, absolutely. You know, if we're isolated in the closet, we don't stand a chance at all, politically, or socially, or in any way.

J Jimmy Carper 18:00

Plus, like you were saying, most, most the people involved in the same like to have fun. And if anything, you're gonna make great friends, hopefully long life friends.

18:14

And you're finally going to find some people that share your sixth sense of humor.

J Jimmy Carper 18:19

And you know, what's so strange is that you don't know how much is lifted off of you. Yeah, when you realize that you're not the only one I know, when I came out, just being gay. It was tremendous to me. But when I came out into leather, that was even more so. Have a letter release on me. Oh, yeah. Oh, yeah. And when

18:42

we say coming out, it's not it's not necessarily Yeah, to like, wear it on your sleeve and put your name out there we're talking about, it's kind of like a I mean, you, you admit that this is what you're interested in. And, but in our case, you pursue it with with VLANs.

J Jimmy Carper 19:00

Hello, my name is John if I didn't do this,

♂ 19:05

you know, I don't think everybody has to be out, out out. Totally out. I'm not totally totally out. I have, you know, I have a very straight vanilla kind of job. And, you know, I'm in sales. Okay. Some of my customers are kinky. That's great. I love working with them. But I have really regular straight customers and they have no idea about my sexuality. And you know, something, it's not on my it's none of their business. Well, I'm doing at home with a partner. And it doesn't come up. I don't ask them how they have to how they make love, right? You can you can get involved and do these things without being totally out and worrying about, you know,

♂ 19:51

this is somebody who's lobbied in Washington. I mean, there there are a lot of

J Jimmy Carper 19:55

people who are involved like in let's say for the organization you were speaking of earlier, oil

♂ 20:02

and Spiegel or no the now the Coalition for sexual freedom Coalition

J Jimmy Carper 20:07

for sexual freedom who aren't necessarily into the scene boudoir into helping Yes.

♂ 20:14

Oh yeah, one of the one of the things that we did really well is in New York, we we made a really good connection with the gay and lesbian anti violence project under the covers.

J Jimmy Carper 20:30

Get under the covers. Yeah,

♂ 20:31

well you know she's she just got out of the lake Texas. She's a little cold. You know I'm

Well, you know, she's she just got out of the lake, yeah. She's a little cold. You know, I'm ignoring her.

20:39

But once you bring her over and pinch her nipples.

20:44

Oh, that's so inappropriate over the radio.

20:48

Well, maybe something else would be. Anyway. Yes, I'm sorry. You were saying?

20:53

I wish I know, where was I?

20:58

Oh, we're talking about the National Coalition and

J Jimmy Carper 21:02

a lot of people who aren't into the scene who get involved because they want to help. Oh,

21:06

yeah. And I was talking about how we made this great connection, anti violence violence project. And they've actually come out and you can see the statement on on on the site of the the FM policy reform project site, oh, I should give you that site too. That's http, colon slash slash, members that aol.com Now SM, and LW SM, slash home, H o m a dot HTML. And there you can see statements from from the AVP, as well as different doctors, and psychiatrists and lawyers and real people that, that that aren't necessarily into this, but recognize it as a viable. Okay, thing to be.

22:00

Yeah, I remember reading about, I think it was in coming to power about the lesbians in National Organization for Women being referred to as the lavender menace. And, you know, I mean, like lesbians were not accepted or approved of until, you know, there's a bit of a

revolution. And, you know, eventually, most of us were very fit. I like Lolita as a feminist, I'm a feminist. I mean, we behave that way. I, my lover, and I do different things together play different roles, and we do so very intensely, but our relationship is very egalitarian. And, you know, based on economic independence and, you know, productive in, you know, thoughtful relationship with each other. In fact, CHANNEL SEVEN

22:48

is, unfortunately, there's a lot of feminists in now, that, you know, think that, you know, there's only one true way to be a feminist, you know? Yeah, or something. Yeah. Well, you know, and, you know, s&m is, is just not approved. Because, you know, they, they, they don't understand the power, the power thing, and, you know, to me most, most of all this, to me, it's all very finite, you know, I'll go into this. And afterwards, after seeing or after a weekend, you know, it's all back to where we were, you know, I could separate the fantasy from the reality, you know, the fantasy might be that, you know, I'm the princess. I mean, in real life, I'm not,

23:39

I feel like multiple orgasms are a great achievement. As much as making a lot of money is

Jimmy Carper 23:46

achievement is the is now it's not so, so much of a thing to talk about having multiple orgasms.

23:53

Yeah, I mean, my I know that I know women, including my lover are occasionally wanting to play a quote submissive role in bed. This affects not and it balances their, their, their feelings. And you know, I mean, my lover is, you know, very, very happy with our sexuality.

24:17

And I'll tell you, if I if I wind up topping too much I really crave bottoming, if I bomb too much I crave topping, you know, I, it I think it's very healthy. I also prefer to play with other switches.

24:30

It's a good way to get your I mean, there are all sorts of violent repressed people out there who take their need to dominate their need to aggress out there and and, you know, put all these laws that are so, you know, odious and repressive and oppressive to the, you know, those of us who are a little bit more marginalized than they are. Instead of doing that, what we do is we play a little game, get it out of our system. and go on with our lives. And most of us are the most genteel and sweet, you know, supportive, warm, affectionate people that you're ever going to meet.

25:09

Most of us, most of us. I gotta say there are there are people out there that are

25:16

sick. Yeah. Well, we interviewed John wise. We talked about

25:20

consensual. Yeah. And, and, you know, they they ruin it for the rest of us.

25:25

Well, we have Yeah, and the funny thing is, I mean, there are a lot of like, straight heterosexual, you know, missionary style rapists murderers out there much more so but whenever it Sue s&m thing, for some reason, people connect it in that way, and it gets very negative publicity. But the thing is, when we're all in the closet, we're also much more vulnerable. You know, and we talked with John Weiss about this one guy that has at least last stop. Yeah, you know, at least at least we kind of got him out of circulation there exactly. work. And that's how we got in with the anti violence project in a big way. Exactly.

26:01

Well, you know, years ago, when I when I first you know, not when I first but when I was really into the scene, they had this art dealer, crossbow. And he analyzed, and, you know, there was the hood and the handcuffs and the guy died. And, you know, this was my, this is all I knew what s&m was, and I said, Oh, my God, you know, you do SM you die. And it was very scary for me. And it wasn't till I really got involved that I saw, okay, that, that, that you can use a hood. And it can all be very safe. And you know, and, and

26:46

it's really very, I find it's not inherently dangerous, but it is very complicated in it, there are a lot of dangers that that are out there. And by all means that you know, the other reason besides is getting some support emotionally and psychologically, socially, politically. Get out there to these groups locally and nationally and learn what you're doing because there are real, real dangers

27:13

to safety, how to do it safely. And the other thing I this is how I meet people. Yeah, exactly. And

I know who's safe, and who's not safest place.

J Jimmy Carper 27:27

Any other things in a group, when you do get involved with the social organizations that are teaching about different s&m Being gay and kink, that you're also going to meet people who will be able to tell you whether or not somebody say, right, yeah,

♂ 27:44

I mean, we have

♂ 27:47

also learned how to negotiate Yeah, and, and you, you learn how to say, you know, because so often we don't know how to speak up what our needs are, and what our limits are. And this, we were taught how to negotiate and say, what we what we want, and what we don't know, you know, if you can, if you can get across what you want, and what you don't want, and the other person can get across what they want and what they don't want, you're both going to have a really good time to build up trust, and then want to play,

♂ 28:22

there are a lot of techniques that we teach in these in the heiress workshops, we had a whole workshop of just about how to protect your personal safety in the scene, you know, how to have a person that you call when you go out to meet somebody how to meet them at a coffee shop first, before exchanging any pertinent, you know, like personal phone numbers or meeting in the homes.

♂ 28:42

If somebody wants to meet me, I say come to a test meeting.

♂ 28:45

Yeah. Or, and also, you know, when you go out to meet someone for the first time, you know, you call another person who's who's into the scene, and, you know, let them know where you're going, and who you're meeting

♂ 28:58

them by a certain time, then they call the police. Yeah,

29:02

I mean, we go to great lengths to ostracize people that we believe are dangerous, or interesting. Yeah. And, you know, in the public scene, or, you know, what I call the public scene, which is very private, can be very private. You know, we deal with people who are either violent or, you know, who, occasionally we have happy when somebody says somebody's last name, you know, they are just, you know, pummeled with with compliance. And, you know, we don't we don't even like people who, even unintentionally, you know, even slightly out and other person, we're very protective of each other's identities. And we're also very protective.

29:46

I didn't use my last name, only been using my last name for like, I don't know, the past year or so. Because I was I was just afraid of being out and now

29:58

I use my name with other people in this and I don't use it generally out there on the radio and things like that, but anybody who's really into the scene, 30, they're going to be I'm going to be very open to them, and then you'll find out what most people,

J Jimmy Carper 30:12

it was probably easy for me, because I came out when I was 13 being gay. So, I mean,

30:20

it's harder for heterosexual. Because it's, it's the first time coming out, you know, a gay gay person, it's the second time they've, they've gone through it once. So, yeah, so, you know, and so much of this is trust base. You know, and it takes a while to build up trust. And when you're doing these kinds of activities, you know, being tied up, I mean, once you're tied up, you can't get out. I mean, I use things that walk. And, you know, once you're locked up there, you're not going anywhere. So in order, in order for me to, to submit to that, I have to trust the, to really know the person that your

31:06

tremendous growth experience to I mean, like we talked about you, you know, finding out what your needs are, and clarifying where your head is really out, a lot of it is just figuring out what you really want and, and pursuing that in a way that that's positive. And a lot of people internalize these images of what we're about sexually in a very negative way. They have a lot of very negative preconceptions about our activity, our lifestyle, and instead of pursuing this in a healthy way that this productive I mean, that can involve marriage, children, whatever, whatever people want their lifestyle polyamorous. You

31:45

know, it's very, it's very funny. We did the Black Rose event last year, and you know, people were really nervous, because, you know, here we were, all these people in black leather, we carry with them, you know, we're scary looking bunch, and now we're doing it again this year. And the, the staff that was on last year, they're asking to be on again, because we were just so much fun. And we're nice people, you know, we know how to tip well. And, and they're very surprised when they find out you know, that, that we're good people. And it's kind of a shock to them. You know, we we had the hotel it asked us to hire cops. To, to to be at our event. They weren't they weren't worried. I think they were partially worried about other people outside forces. Maybe try and make

32:42

the only thing I'm afraid of is some guy some you know, sure creepy racist. Heard from, you know, friends word or whatever, with a two by four.

32:51

That's right. Right. And the cops were, you know, at first kind of like, oh, and then then they started seeing us interact with each other. And, and just have a good time and, and how, what our what our focus was at, and they really got to like us.

33:11

Oh, yeah, there. We have cops at our play parties down here. And I love it. It was

33:14

such it was such an outreach vehicle because now you have these cops that had no idea what we were into. Now, understanding the difference between domestic violence and s&m understanding, you know how somebody could lovingly spank somebody else.

33:34

We have a lot of police officers out there listening driving on their their night shifts and

33:39

stay safe while you cop? Yeah.

33:43

Watch where you put that nightstick

J Jimmy Carper 33:46

watch real well, but you know, just like that. We've got police officers off duty police officers that work at Pacific Street, the club that I work at, and their whole attitude just towards it is a partially leather bar for gay man. Right? Just looking at not only the leather differently, but just looking at gay people in general differently.

34:11

Well, you know what it is? It a lot of it is people form their prejudices because they don't know Right? Yeah. Once they get to know people, and this is really kind of the kind of work that has to be done very one by one by one. And and when they get to know that know us and to see what we're about. Then they understand why we need to be totally, but they can see we're not evil people.

34:36

We need to be out enough so that people can at least see that we're not

J Jimmy Carper 34:40

evil and still be able to have somewhat some tribes. We're

34:44

not decadent, I mean, we're pretty damn sophisticated. We're clear, but we're, we're good.

J Jimmy Carper 34:53

You were saying a minute ago with the was it? Did you the leather rose?

34:58

Yeah, we're wrapping up Aleta,

J Jimmy Carper 35:01

you were saying that because of this event, people looked at y'all differently. Don't you find

that when you go to these major events? I know that to the ones I've been to they asked for you to come back to more inviting. Oh, sure about the whole situation about the people.

35:18

You know, one of one of the big things in our communities etiquette. Oh, yeah. And if you don't have good etiquette, you, you know, you just do not get along, you don't get invited to parties. People don't, you know, unless you understand etiquette, and that that really goes across into the rest of our lives and are dealing with the rest of the world,

35:43

Lolita. Thank you so much. We're kind of wrapping up. We're at

35:46

a time it seemed like it was that like, I know it. I know it.
