The rise will no no a wild night out for a while. But you must have a face for that paint the town red paint the tone, but it means like, having sex where we drink but yeah, you know, I mean not that that's. That sounds like a typical game man Saturday night. For me. When my product when my product comes out, it's like it comes out on the rundown. Ah, gotcha. Where did horse come from? Oh, that's so cool. That's an even longer story. I mean, it's, it's, it paints a picture of you that you're not. That's interesting. Is it? What was the picture you had in your head?

00:48

Something somebody refer? Yes. You

Roy McCarthy 00:51

have to remember this is Texas. Yeah.

00:55

You Yeah, right? Well, well, I suppose we've had that problem before and what the logo for me as seahorse which takes it away from being the quadruped Ed. And also that kind of strange thing where the seahorse is the only mammal where the meal gives birth. He doesn't, he doesn't actually carry the excise and physically carry them. They're given to him, he so on and so forth. So much for the lecture.

01:21

And he tends that Yeah, it's

01:22

really unusual. And that the bottom line is, I don't know, I heated my own name and don't ask what that was. And I used to work with horses and I was looking for something else. And the thing about horses is very strong, but it's also soft at the same time. And eventually I mean, I know somebody called peg I know somebody called dolphin and I know fish the other artists from Scotland animal name funnily enough when we were introduced percentages there when we said fish have you made horse he went no and I went No but I think you know names I mean after a while you just get used to being attached to that seems to sell anymore but I forget because obviously people my country are so used to me being called horse but out here it's like I mean you do it you miss people out here seem to miss out each when they see things was like herbal. Why did my horse

02:24

not in Texas? Oh no, no. She's good. She's good. I want to thank you for being here. But perhaps

02:40

we have a lesbian and gay bookstore. bisexual transgender. Yeah, all of that. Lobo right down the street on Montrose. And they handle more of your kind of music than any other store that I know of. And

02:59

that's a good idea. Yeah.

03:01

I'll talk to Sally over there and see what she can do. Oh, yeah. In fact, Sally's doing all the buying. Oh, well,

03:08

03:12

03:15

03:27

I'm speaking to somebody in LA from google.com Yeah, girl.com

03:31

G R L

03:34

I like it better the other way. Good. Girl Scouts one lassie.com

03:42

Oh, no, no, don't get the dog started. No, no wrong. glassy.

03:49

hen.com Hello, him. Okay. No,

03:55

no, no, but I mean, there's got to be a way that people can get a hold of this

03:58

and I really want people to get that the thing about that album is for me it's it's it's it's it's almost like a best off horse because those tracks are besides which people adored and singles. I mean, I don't know how long they last these days. But a single can often lasts just a week to two weeks. And we used to put some great tracks on his besides and he just disappeared and some of our best tracks would be saved somebody was beside

04:24

the audience seemed to know them all. Yes. Oh, they're big fans.

04:28

Yeah, that very low. That was the thing Yeah, that was that was the thing that struck me in listening to it is that as I said before, it's like the whole audience knew every song by the second No,

04:39

I compare the tracks to the other two CDs and said how do these people know these must you must tour like

04:45

we we had done some tours as well, but I think people will just you know really, really hardcore fans is desperate to get stuff. And the only way to do that, I guess was to come and see the shores or beg borrow or steal this. The singles you know But I am quite keen to tie up with the previous labels and besides compilation because some of them are some of our best songs would be SES actually, because there's less pressure on that single orientation you know? So and we don't have that anymore. No we do is besides CINAHL No, no, no, no. Let's have one Maxi single. Let's have one single and 40 versions. Remix

05:27

the remix

05:28

drives me crazy. I want to thank you for being here. I'm so glad you drove in. I hope

05:44

no, that's okay.

05:45

No, we got to get to the news. And then we have another segment on the second half.

05:52

Well, you have to be the most charming person we've had that to your right to say don't get

06:02

♂ 06:02

in the dimples or plus

♂ 06:04

Oh, I hate my dimples.

♂ 06:10

Just awful, awful. Man.

♂ 06:14

The thing is when people want dimples when they don't have them, and when they've got them, they don't want them

♂ 06:24

for outgoing music, I'm going to do one that from your new album and it's a cover. And I really liked the way you do it. It's it's a very well known song over here. People will know immediately when I when I play it. But I just want to say that horse thank you for being here. And thanks for making the drive. And then we're going to do your best our best to get your CD at at Lobo or wherever we can get. Okay, okay. And this is from her new album horse. Both sides horse with the Scottish Chamber Orchestra and you're listening to it on after hours on KPFT Houston and ke O 's College Station

♂ 07:40

OH Yes, indeedy, ladies and gentlemen, now it's time for the after hours news and views with big Roy and Chris.

R 07:49

Roy McCarthy 07:49
I'd like to welcome everyone to this week's edition of after hours news and views and give me good old shout out to John down there in Beaumont to Tony way up there and midway into all of our listeners scattered all over and to our one or two listeners here in Montrose

♂ 08:06

because a lot of listeners, beg your pardon.

08:10

And they're loving the feedback.

Roy McCarthy 08:13

Anyways, have a somber note to start off this week. Have a couple of we're missing a couple of members of the community. Gary Barnett again passed away on July 6, he was a big time member of the community and he was a an untiring leader in the community. He was born on February 2 1942. And back in 1975. Gary Renata game was the founding president of the gay Political Caucus now known as the Houston gay and lesbian Political Caucus. He was the founding president of that he was also He also founded the executive professional association of Houston, the Montrose Activity Center, the Log Cabin Republicans, he served on boards for the ACLU, PFLAG and hatch, the US Scholarship Foundation. In 1976. He was made co chair of the National Gay Task Force. He was the first male co chair of the gay rights national lobby now the gay rights campaign. He was co founder of the Texas Human Rights Campaign. Gary was also was also chair of special candlelight service remembering Matthew Shepard back in October of 98. And he was past chair of the EMA Ryan White Planning Council that distributes over \$15 million annually to different AIDS organization. People like Gary Vannatta game are going to be very sorely missed. He was a very untiring member of the community, another member of the queue Unity who's going to be very sorely missed is Mike Stubblefield, who passed away just four days later on the 10th. Monday, July 10. He was 38. Mike Stubblefield. In addition to being on the board of trustees of the Houston gay and lesbian Political Caucus, he was one of the people that I sat on the board with. And I know that Mike Stubblefield also, if there was a person in this community who was in trouble, Mike STUBBLEFIELD And Ray Hill, both of them will be there for that person if it was a medical problems or if it was legal problems. Both Mike STUBBLEFIELD And Ray Hill were there and Mike Stubblefield must have had some Irish Scotch in him because he loved a good, good political fight. People like Mike fulfill again are going to be sorely missed, and they are so few so rare to be found.

Chris 11:03

And still have a somewhat somber note the 13th and 13th annual International AIDS Conference has closed session in Durban, South Africa. Excuse me, a lot of controversy was started in here in the beginning and the end, starting off with South African President Thabo Mbeki, who is pushing very hard for a fact that he's talked to scientists. And there is some divisiveness in the community about whether or not HIV actually causes AIDS. President Mbeki is one of those who has listened to the evidence and is feels that there's a African aids for version out there. That's also being caused by poverty. The conference ended with former South African President Nelson Mandela, who says that bold initiatives to prevent new infections among young people are needed, as well as large scale actions to prevent mother to child transmission. Some of the things I heard from here for about this conference, it was very surprising is in Botswana, one out of three adult males have AIDS.

Roy McCarthy 12:18

One out of three, one out of three, so sad.

C

Chris 12:22

The in Africa 70%, of the 34 million aids sufferers live on the continent of Africa. And they are expecting within five years 85% of the teenagers in Africa will have contracted AIDS through one form or one waiver and 5% 85%. They're saying that you're seeing more children orphaned by this disease in Africa than you are than what you we saw in all of the wars. of recent note. Basically, there, you didn't get much information out about the AIDS conference, I have to say I heard a lot of it on the BBC here on KPFT and Pacifica news, and also on PRI on the classical station. But the figures are pretty dramatic are saying 5 million Americans are expected because of decreased use of protection and common sense. In this disease. Everyone thinks that that protease cocktail that's out there will save them. But they're still saying that they're about 10 years away from a vaccine. And still not really even talking about a cure.

R

Roy McCarthy 13:42

Well, I know this produce everybody's body chemistry is different. And not everybody can take protease inhibitors,

C

Chris 13:50

plus the expense in that. I mean, I've I've watched I've seen Jimmy with his medicine, cat medicines that he has to take just to maintain and it's like, are you going to have actually eat lunch? Or are you just going to fill up on your pills, and it is just watching all of these things you're taking. And they do not react? Well with people. Most part. These are chemotherapy drugs, they're meant to go after cancer and they've take out some of the healthy cells with that. If you want to find out some of the information in some of the debates and stories that occurred at the 13th annual AIDS conference, you can go their website at AIDS, two thousand.com. You can also get information on AIDS prevention from the web@cdc.gov. And as the Centers for Disease Control, we've had some callers who were asking about anonymous aids testing. Unfortunately, I forgot to bring in the phone number to the Montrose clinic

R

Roy McCarthy 14:49

713-830-3000

C

Chris 14:53

And also, if I remember correctly, Wednesdays at the Houston lesbian and gay community center the mile Truth clinic comes there and does anonymous testing for AIDS. And also, if you go to some of the clubs, every so often, most of the clubs, actually most of the clubs will have them on a rotating basis, you can check with them. For more information. I know EJ has had it every couple of weeks, they would come out. And usually during the summer, I think once a month, the city of Houston has parked their aids van out on Pacific Street. And once we find some more information about some other anonymous, and that is a very important part, there's always been talk of these lists getting out. And hopefully here in Houston, we keep it a little

more private and anonymous than other places. But once we will get some more of those numbers and informations out to you and just give us a call or email us and we'll be glad to to get you as much information as we can

 Roy McCarthy 15:52

also like to report now that at the last Republican convention that was held here in Houston, people from the Republican Party, Gary Pollard, in particular, was calling for the resignation of the two judges who overturned the 2106 sodomy statute. And they circulated a letter among other Republican members party members at the convention down that was held down at the Georgia brown Convention Center here in Houston. And the majority of Republican convention is rejected the call for the demand for his resignation, because they do not want to second guess, a judge. But at any rate, Gary Pollard, who is the leader of the Harris County Republican Party, is still calling for their resignation or their defeat in next. Their optional elections,

 Chris 16:52

they are also looking at removing them as Republicans removing the recognition of the Republican Party of the judges for their actions,

 Roy McCarthy 17:03

you know, it's like they like to call themselves a big tent. And really, their tent gets smaller and narrower by the moment, but the

 Chris 17:15

minute Well, let's put it this way. There's only two things that happen under a big tent. One's a revival and one's a circus. So you talk about the Democratic Party. So so take your pick. I guess that's why they have an elephant is their symbol.

 Roy McCarthy 17:28

Okay, moving along. We have some awards that

 Chris 17:34

Yeah, unfortunately, I lost the first half of it. Yeah, that's the second half of the story, Roy. Oh,

 Roy McCarthy 17:42

and that was from page five. Okay, uncommon legacy. Uncommon legacy honored.

R

Roy McCarthy 17:53

My goodness, Sue Lovell.

C

Chris 17:54

And okay, why don't we do this, Roy, why don't you go on to the next part and stretch it by go get this story?

R

Roy McCarthy 18:05

Okay. Well, Chris is getting his story. His act together here. There was approximately 100,000 People at the London gay pride parade. They counted for the Mardi Gras was 2000 Gay and Lesbian Pride March and parade from Hyde Park to Piccadilly Circus. At the festival, boy Georgian culture come saying, and yes, folks, Bananarama is still around, and they were at the festivities. So Dana International, and the Australian pop diva, Kylie. Mani, I guess that's how you'd say her name. And London mayor Ken Livingstone told concert goers that he intends to create a city registry for ceremonies for gay couples. And he says that he wants a civil ceremony where gay couples can demonstrate their commitment. Slowly the world will change and hopefully it's moving in the right direction. The Metropolitan Police of London staff a recruitment stall at the festival and said that they were looking for a police force that represents the diversity of London gay community. And Chris I believe is ready with his story. Well, if

C

Chris 19:17

somebody wouldn't have been fooling with the papers, I would have lost it. Revert to action Burke, holder of numerous offices, elected and otherwise. And longtime political activist was named in uncommon legacies uncommon Woman of the Year at the group's fifth annual brunch, held last Sunday at the Warwick Hotel. Congresswoman Sheila Jackson Lee, State Representative Deborah Dannenberg, city councilwoman and nice Parker, City Comptroller Sylvia Garcia, and Democratic National Committee nominee su Lovell. Were all in attendance. Atterberg became the first open gay or lesbian appointed to a Senate confirmed position when she was appointed by President Bill Clinton to be Undersecretary for Housing and Urban Development. The debate was long back then and Annenberg but she finally made it she spoke about the differences of being lesbian or gay back in the 70s. He's on his way back from Idaho. Yes. Which is good, which is very good. And then our guests for tonight. Tara and Doug. We were supposed to have Jayma Shelton, but she is kind of missing an action. In gay culture, art being whether it's paintings or performance art, or music, anything of the sorts and how it has an effect on gays. I would think it's pretty heavy one. Once you say Justin, absolutely.

32:55

Especially lately in my life. How so? How so? Well, I think you know, too. I don't think they know. Did you know we will inform them right now. Um, this past week, last week, we had a group come down from New York. And there was Yes, right? Yes, yes. Yes. Yeah, we had Yes. Come down from New York and which was Barbara, I don't remember what her last name is. That will do nicely. That'll work. We'll use that Barb Becker. John Grosso and Catherine Gonzalez. Sounds about right. That sounds good. That'll we'll use that. Anyway, they came down and we first did a couple workshops and and really got to know each other and we began making producing collecting ideas and turning that into a video piece of something that piece of art in and there were five youth involved.

34:10

Yes, there were no there was one to five indeed. Seco meeting I good points there rock on here.

34:21

And it was an excruciating week. Especially. I mean, from my point of view, a lot of emotions came up for me. Because my peace ended around a certain time in my life. When I was having a lot of difficulty and

34:40

how did you guys come about? Let's tell them how we came about making the peace. Like what was the foundation like had we started it and everything.

34:49

The first the first few days? Well, it started actually last month when we had it People come in from from quack and work with us on

35:05

old quack members

35:06

of the elderly members. And we worked on two minute it was

35:17

no it was two minute free rides with Barbara

35:21

but even before that, because we've worked with Jayma the day before I ever came into town,

35:26

that fine Guy Yeah, but then we have okay anyways, we did free rides. We didn't really the time is doesn't matter.

35:36

So anyway, we did 20 free rides, and we gathered a lot of ideas. And most of it was how we viewed ourselves and and just strong things that came for came up for us and in life. Like the hardest times you went through the best times we went through and we gathered a lot of those feelings and ideas and we choose we chose the one we felt most strongly about and continue to write and telling into a quite a lengthy piece and just elaborated a lot on that and thought about what emotions were also connected to that. And

36:28

I think it was a really positive experience working with the Jayma Jayma will quack actually had a residency with hatch last year. They formed a diverse works, and it was really awesome experience then this year, we got to work with Jayma again, and also with Barbra from New York and diverse works sponsored us along with hatch and it was really unique experience because we got to put together our videos, make and create these videos that had to express our emotions without you know, like just saying it you know, saying hey, I'm angry. You know you had to be
