attitude and that love who you admire.

00:04

And that's what I discovered during my let's see if I can be a bisexual stage. You know, I proved that I can have sex with a woman. Yeah, I didn't know, it just didn't do any if the man hadn't been there, you know, I was having sex with couples. If the man hadn't been there, I probably couldn't have gotten a hard on. So, you know, after a while, I thought, why am I

00:28

doing this? Since 1966, still only 10 Now, there you go. That's,

00:37

that's my motto.

00:40

Before we go too much further, I do want to put out some resources out there on the internet, please do because there's a lot of a wealth of resources available, where you don't have to go through this process alone of coming out. Because it can be a hard time especially just coming out to oneself. And I think that's the first place you got to come out. If you're gonna come out, is to oneself first. You bet. There's a collection of personal stories by gay and bi married men at [http, slash slash world.std.com. Forward slash till the E Wk forward slash forum.ht ml](http://world.std.com/~ewk/forward/slashforum.html). Some of these are real, you're gonna have to go through that again. Why do

01:35

they do this?

01:41

If you got access to email, yeah, email me at Bierhaus at flash dotnet. I will send you these links.

01:48

Ah, yo USC at flash

01:51

dotnet. Because our net stockings, not tonight. No, not tonight. But sometimes sometimes. Our husband and wife discusses bisexuality in their marriage. Yeah. Instead of trying to go through some of these really horrible email addresses. Just email me and I'll send you the links. There's a page where some advice of men contemplating coming out to their wives

02:21

was I guess we don't have anybody here who can really talk about that, Jim a little bit, but no, she was. You were divorced before you came out? Right. Okay, that's before

02:32

I even had an inkling really?

02:37

Yeah. And before I forced you into it, anyway, no.

02:44

That's where the bondage came in.

02:49

There is there is a real problem in in a married couple, a male and female married couple, either of them coming out. Because maybe if they have children they're afraid of you know, the other one's going to divorce them and take the children away and blah, blah, blah, and and whether the job finds out

03:12

Oh, that's just gay. I mean to strike couples. Now a lot of lesbians are adopting children. Yes, that's true. Gay men are coming apart. Well, after their one determines their buy in so yes. Then all of that. Yeah.

03:32

I wonder who handles this news better. Women are bad males or females are?

03:38

Oh, I bet females handled a lot better. I'm sure. Read that. Yeah. Yeah.

03:46

I can't.

03:48

I hate to make blankets. I

03:49

do too. But yeah, you know, I just know, man, individual basis. You know, the men that I've known throughout my lifetime. I know how they would have reacted.

04:01

Well, I had one woman that came out to us dating her and we were kind of going together. This is when I was younger, but as soon as I told her, she took me up to the bedroom and screwed me like crazy and then told me go away. Never come back. Well, I guess she just wanted one last shot. Wow. Yeah.

04:28

That is such that so much like a lesbian that so much like a man like a lesbian. They all they always want to have one last parting shot. It's gonna be just the best thing you've ever had. Like.

04:41

04:41

Looking back on it, I kind of wondered if there weren't some deeply buried issues that she hadn't addressed. Yes. Make sure what? Yeah, yes.

04:50

I can't honestly say I've had a real negative reaction yet to anybody to anybody and you're out at work kind of Well, yeah, sort of. I mean to those who, to those who guy I care about. Okay. Yeah. But to the general population know another bit? Yeah, who cares? I mean, who really cares?

05:15

Well, this kind of leads to the next side I have, which is about the labels by and gay from the perspective of a straight wife of a bi man. Oh, wait a minute.

05:28

It is 10 of one. Go through that one more time.

05:33

One more time with flair

05:35

about labels. Okay, from the perspective of a straight wife of a bi man. Okay. And then for

05:46

basically, how a straight wife thinks about the buying gay thing, her husband being because her husband's bought?

05:54

Yeah. Okay. Okay.

05:57

I'm sure number one, I can tell you right now, the number one thing on her mind is HIV. It's like, if you if any man sleeps with another man, that's like they're gonna get HIV, please.

06:13

Oh, really? Don't you know that the entire gay community? There are no HIV negative men in the gay community.

06:23

It comes with a little pink truck. Yeah, I guess.

06:26

I mean, I grant you. I'm positive. But, you know, people know that. It's I mean, but you know, I do know a few 100 gay men who are negative still.

06:39

Exactly, exactly. And I'm still negative and then slept with a lot of people. And

06:46

the thinking is that if you slit if it's an opposite sex couple, you don't have to worry about AIDS. And boy, that can that get you into big trouble.

06:56

It's it's not your sexual orientation that makes you vulnerable, unsafe sex practice. There you go. Bottom line, if you don't go, if you don't see that you're taking, taking a risk.

07:09

And many of us, you know, do take risks. We do

07:15

well, there's, you take a risk just leaving the house. You take a risk to sitting in your house. So I mean, it's all a big kind of a gamble as to how much risk you're you're willing to take? Yeah, yeah.

07:30

But there there are some risks you have slightly more control over Yes Yeah In comparison

but there, there are some risks you have slightly more control over. Yes. Yeah. In comparison,

07:38

any age at all, without a condom is ludicrous. And it takes two parties. Now, you know, don't let's not get this blaming thing. Oh, they didn't tell me they were HIV. You know, it takes Well, I keep bringing

07:53

up this point that and this is not out in the research a whole lot. But I have seen some research on prostitutes. Yeah. So I've been routinely exposed to the virus still come up HIV negative, but people swear that they have gotten HIV from them. And it may be that some people are just carriers of the virus, that

08:15

could be

08:16

a possibility. Something like that respect. I think it's a cop out.

08:21

I think it is too. But but there is that possibility that someone could be just a carrier. I know I've been exposed to the virus, but I'm still HIV negative. I still wear a condom even if we're both HIV negative. Because, you know, Well, number one, I don't want to give something to someone else. And number two, I don't want to get something from someone else. Yeah. And so I think it's really important to play it safe.

08:52

And I guess that if you're that if all if gay men are supposed to be all HIV positive, then if you're by then you're just twice as promiscuous. Is that? What well,

09:07

would that be twice as promiscuous as me? Trust me?

09:10

I mean, where is that nonsense?

I mean, where is that nonsense?

09:13

That bisexual spread aids all

09:15

I wanna know. That drives me crazy. Yes. Let's go to a piece of music. Well, before

09:20

we do one more thing on our site. I am going to read this web address because I think it's an issue with a lot of people. Okay, write it down. Folks are coming out to children. Oh, yes. Yes. And that one is wow. [http, colon. Forward slash forward slash world who are ld.std.com forward slash Tildy](http://worldwhoareld.std.com). Character? Ew, RK forward slash out. Ch i L dot HTML. And nowadays things get really bad. as it looks like if you just got a world std.com, you'll find a lot of Yeah.

10:09

The children probably handle it better than we think. It's just when they go telling other kids and then other parents find prejudices and bigotry gets rubbed off on others. You know what there?

10:24

There are some issues and in discussing sexuality with children, and it should be done in an age appropriate fashion. Sure. You don't want to go into deep graphics with a low kid.

10:37

Difficult. I had, I had to give the facts of life to a kid. Yeah. A friend of mines son. And it was very, very difficult. Because it's, we have problems talking about sex to each other. Yeah. And when you're giving the birds and bees speech, it's hard to know what what what the kid really comprehends what he understands. But he already knows. And he's embarrassed. So he's not asking any questions. He's just looking at humans as blank look, you know, like giving you any feedback. It's, it's tough.

11:15

Yeah. Monty Python keeps coming to mind. Yeah, sex education class.

11:20

I've known several. I've actually known several people who had kind of telling had to tell their kids at some point that they're, you know, and, and they've gotten every reaction under the sun from, you know, the kid who said, Oh, really? And then went on, you know, with their live happy little lives to two children who have freaked out. Yeah, you know, and it's like, Bye, Bye, mom, whatever. And out the door, they go never to be spoken words between them again. So you know, I've seen every.

12:01

But I think it's important, and coming out to educate yourself about a lot of things before you make that big leap. No kidding. Because there is so much at stake. Especially if you're married to someone and have kids. There's a lot that you should educate yourself about. And I'm gonna give you one more

12:21

really easy. Oh, good and easy. Wow.

12:24

It's a bisexual Resource Center out of Boston. Yes. And it's [www.by resource.org](http://www.byresource.org).

12:35

Wow. You know, if you go there, you can probably get all those other ones.

12:40

Yeah, probably that got lots of links like that lots of information. They'll even send you stuff. Well, what was that again? It's [www dot buy resource.org](http://www.buyresource.org) got all kinds of pamphlets. So mail out and they've got a big area. Just tons of information there. Well, let's

13:02

go to see some years. Oh,

13:03

hold on. I see. It's time for an ID.

13:05

Yes, I'm going to do that. Okay, but I'm going to go to a piece of music. Okay. And when we come back, I'm gonna say hi to Colin, who is in Huntsville, and I'm going to talk about that and we're going to give away some more movie tickets. And we're going to talk about something else you have on your list. Yes, your favorite subject

13:29

nog me in Pali. And there we go.

13:33

And you're hearing all of this.

13:35

I'm saying it as an end because I hear so many people say it as if they're opposed to one another.

13:43

And you're hearing all of this on KPFT Houston and ke O 's College Station, this is after hours queer radio with attitude. That was nice music that's that is Tom McCormack from his album rose colored glasses. And that was of course the title track. And before that a perennial favorite here at after hours. Jamie Anderson from her latest album drive all night. That was I want to be a straight guy. I mean, you know, we're talking about you know, straight guys being by and all of that. First of all, I want to say hi to Colin, up at Sam Houston State. And I got an email from him and I can't read it all because because it's too embarrassing to me. He's a really nice guy, but I want to Well, okay. By you like my name is I'd never give last names. But yeah, my name is Colin and I'm a senior Radio Television major at Sam Houston State. I'm also the Program Director of our radio station there. It's 90.5k s h EU And I'm gay woohoo. Well, first of all, let me say that I have been a listener to your show for years. It helped me out during my high school years discovering your show by accident one night, and was hooked ever since. Unfortunately, since I go to school in this backward in this town, Huntsville, and it's just far enough away. I can't pick up after hours a good majority of the time, but he can pick it up tonight because he called in Ah, yes. And he can't pick up ke O 's in College Station, because the output there isn't strong enough. You know, they've got various Yeah, yeah. So this brings me to my point, I'm getting ready to start a gay oriented show like yours on the airwaves. It will be the first of its kind in Huntsville. So we don't know how it's going to be taken. Well, you know, when this show started, there was, you know, a little negative feedback too. But, you know,

15:55

the interesting thing is that he may find that some people,

15:58

there'll be a lot of people who like it, they may not be able to say it out loud. Yeah. Yeah. Yeah. You may not get a lot of positive feedback at first, but hang in there with it. Yes. This is the Bible Belt low. Yeah, we know, we know. But in any case, it's going to be it's going to air the same time. Yours does, because that seems to be the best time for this area. Okay, we have the god guys on Friday nights and the queens on Saturday night. Cool. Anyway, since I love your show, I was wondering if by any chance we could call it after hours north? You bet you can. I would be very honored calling if you would call your show after hours north. That would be great. Just great. That that really is cool. Yes. And gosh, our program is going to be very similar to yours. Music views, news and hopefully interviews. Yeah, you'd be surprised once you get the show going that people kind of pop up. And

17:10

you know, I'm, I'm reminded of a line from Steel Magnolias. Yeah, when Dolly Parton sees the new store and goes, Oh, my God, I'm a change

17:30

she's got trophies north and one of the agenda though. Now you're at? You know,

17:39

I wish you luck in and if you need any help, let me know how, you know, I can, I've got some comprised some music maybe, you know, in fact, I've, I've got a stack of CDs that are duplicates of ones that I already have in my library. And I was wondering, you know, who would be interested? Maybe calling somebody

18:01

else like to suggest to Colin, yeah, he do. Keep this show. He's planning very diverse. So yeah. And Representative community? Yeah.

18:12

It may be tough, you know, to find transgenders, and in bisexuals and Phil, but, you know, who would have thought cats? Yeah, you know, all of these transgendered folks that are, you know, in Brasilia and, and Galveston and all over the place. Yeah.

18:31

Well, the other thing, too, is it's hard to find guys in Houston sometimes

well, the other thing, too, is it's hard to find guys in Houston sometimes.

18:35

No kidding. I mean, you know, like, like I said, we were we were on that discussion. It's like, gays have bars, there's, you know, and if you're not a bar person, there are actually more churches for gay people than there are bars. There are more organizations, social organization, twice as many social organizations as bars here in Houston. But I, you know, when it comes to bisexuals, where are the bars? Where's the social organizations? Where's the political organizations? You know, where do you go to be with folks of your own kind? Because I know that it the feeling, you know, sometimes when you're feeling lonely, and you know, I live in the Montrose Hell, I'm surrounded by you know, you can go to a bar and instantly you're surrounded by you know, hundreds of people just like you, but what Dubai's do

19:36

well, I went to the San Diego bisexual conference over 10 years ago. met tons of guys some of them that have written back some I met Fritz Klein there. Oh, number of people that I went to the North Carolina conference met with Rain, Hutchins. Oh yeah. Then I went to several other country conferences and I met Lonnie Kamani. And all of a sudden, I had people that I could put on the air. Long distance. And yes, the other thing I got from it was formed a very close connection with the whole by movement. And last year, we did the South Central Conference, and I brought them to here. And that has had such an impact. Yes,

20:36

it is. But it's like once a year, you can go to a conference and be surrounded by by, by people what you know what happens like on like, next Friday night, when you're like by yourself,

20:47

it's a starting place. And what we've seen since that conference is that by net Houston is growing. We're getting more and more people coming.

20:55

I noticed that I went to a meeting last Wednesday night over it. Hobbit.

21:01

Yeah. And what I look at it is is that I'm planting some seeds. And maybe in five years,

21:08

no pun intended.

21:12
In five or 10 years,

21:13
we might have a buy bar. Hopefully, yes. And we may have by community said you may find out more. Yeah, you'll be more gay people in there then than you'd like. But hey, you know, if not, well, if it's identified as a buy bar, then people will come?

21:31
Yeah. And the thing is, and I didn't understand it. Well,

21:36
I don't mean to be cutting you off all the time. But you know, these ideas pop in my head, because I don't understand why there isn't a buy bar because there's got to be twice as many by people than gay people.

21:47
I think part of it has to do with visibility. And part of it has to do with the closet.

21:52
I guess. I think

21:55
I think that's what I ran into when I first formed by net Houston and get tons of people calling the by Nightline because it was an ominous and they wouldn't come to a meeting. Because all of a sudden they had to park at a physical location and walk in the door. And that was too scary for a lot of people. And they didn't want to be accident. You know, I always get people saying, Wow, come to your meeting, but someone might see my car. I've got personalized plates, and then all of a sudden they know I'm bisexual and blah, blah, blah. And you know, hey, you know, park in the back park down the street? Yeah, whatever.

22:27

11 22:37

Is that? Is that why maybe you're in like in a restaurant? Right? Yeah.

22:40

Channel two isn't gonna have a camera crew out the door. In fact, we'd love to have them have a camera crew outside the door. Out there. Shut wagging. Yeah, so certainly. I'd love it but they wouldn't want to come and see us. They have no interest.

23:08

Amazing. But what's what's in store for buying it? Where's it going?

23:17

Well, for right now we've got the next South Central Regional Conference coming up this October.

23:24

No, I meant local local.

23:27

Basically, we're looking at for new location. We're outgrowing our present day one. Okay. We're getting too cramped in that little room.

23:35

Yeah, I noticed that.

23:36

Yeah. If everybody showed up, who normally does one on one week. Yeah, we'd have too many people. Too many people would

23:47

meet everyone more than overflow the room? Yeah. You meet every Wednesday.

23:50

23:51

Yeah. And we've had a couple of nights where we were kind of filled beyond capacity, good standing room. And

24:00

that means that you know, hey, more people are interested and so you're, you're actively looking for a bigger space

24:06

is the other thing. Yeah. The other thing I'm doing is I've started a bisexual pagan Coven for by pagans that are interesting. And we do all kinds of interesting things. Which I'll go into on another show.

24:24

And, and no, this is not devil worshipping or any baby No, no, no. This is this is praising nature. Yes, that's what paganism is praising nature and

24:40

celebrating nature and we do rituals and we look at ways to heal the world and each other. Okay. All our magic. Well, it's kind of like the Wiccan read. Harm nuns.

25:01

Do as you will or she will. And it harm none do as you will, you know,

25:06

short version that's, that's the short. Yeah, there's a slightly

25:09

longer version. Yeah.

25:13

But yeah, it's it's kind of this thing of looking at ancient civilizations, some of the I've studied a lot of religious practices and ancient civilizations and identify real strongly with the to, to spirit concent someone that's both native male and females. and they were native tribes in this

concept someone that's both native male and female, and they were native tribes in this country. And they were considered very holy people that they because they love both genders could live both genders, they could also walk, but the material world and in the realm of the spirit,

25:57

I may have mentioned this last week, but I have another name where I have kind of my naked pictures and you know, and all of those kinds of wonderful sites on my computer, and one of the ones I just signed up for on E groups is called nude American nude Native Americans. Oh, cool. And it's actually it's less pictures and more discussion. Yeah, about to spirit and all of this kind of stuff in different tribes and yeah, it's, I have I'm really starting to learn a lot for on the site that I expect it to be titillated. Together Yeah, moving over to the other side, but it's really a good ie groups it's maybe it could go both ways. Native Americans it's very, very good. There's, you know, if you don't want to look at the pictures, you just don't download the pictures just you know, follow the discussion.

27:04

On another note, I think there's any any crush any of the conservative hardcore anti, you know, queer community Christians,

27:19

right wing right. You know,

27:21

you know that way. Oh, yeah, I know. I know several. I have friends who are crushed but the the I was going somewhere without

27:37

you Sure. Where

27:41

you just three

27:43

good range of thought. Derailed Yeah.

27:53

That's terrible. Yeah. Okay. You know, I'm getting I'm getting old. What can I

27:56

say? Yeah, you know, and dementia. 32. But, you know, coming up with a slap, you know, damn dementia. Yeah, it was the right wing. for you there.

28:11

Oh, yeah. That's where I was going with it. Wow. Okay. It's, you know, of course, it's that whole thing of the first of all, you know, we're all supposedly going to hell, because we're gay and all that. And that, you know, so if you're gay, and you're pagan, you know, you just as far as some people are concerned, you're you're it's a double dose. Yeah,

28:34

they just double. Yeah. You know,

28:38

and yeah, well, screw

28:39

I get.

28:41

I've always you know, I, you know, I did, I always thought it was kind of cool that I, when I started doing, you know, getting into more pagan belief and system and you know, the whole Yeah. It wasn't until after I started doing it that I've found out that my last name is pagan. Yeah, put it my my last name is a derivative of the, you know, is a Yeah, offshoot of the word from which we get the word pagan. Yes. And, yeah, before we run

29:18

out of time, I do want to quickly touch on polyamory and monogamy. kind of wanted to bring this up because there's another I've been seeing this on the listserv, yes. And several listservs and I don't think it's just restricted to the by men. I think it's throughout a lot of even the gay and lesbian.

29:44

The by the mono monogamous versus polyamory.

29:49

I see that question on a vs. Question. Yes, a lot. Yes. Like they're opposing camps or something. Well,

29:57

you know, especially with the marriage thing and the that the DPS going on in Vermont now and, you know, there's this kind of there's been this conservative swaying in sex and relationships for for several years now.

30:12

But um, you know, I kind of wanted to touch on this Yeah, cuz you know now that there's a lot of people that, you know, myself included, you know, I grew up thinking, you know, well I'll try being monogamous but I never could

30:25

No, I never could either. And I would never, never tell anybody. I would be monogamous bits.

30:34

But what I see it is is not just one versus the other I see one option of many Yes. And you know you can have everything from pure monogamy to serial monogamy to polyamorous commitment within a certain number grouping. Everybody stays faithful within that group. Yeah. Or you can have Pilate pure polyamory where you make love to whoever feels right.

31:05

But I don't necessarily see

31:06

it as part of a spectrum. And, you know, I had when I was first coming out as bi, I had this woman who is married to man into a monogamous relationship. Who was, you know, probably, for me one of the most ideal monogamous people I've ever met. You know, she really

exemplified monogamy at its best, really. And I really liked her. But she was very open minded. And one day she came to me, we were walking along the beach, and she said, You know, it's a shame that our school systems don't teach that there's more than one option. It's really a shame that boys can't wear women's clothes. Yeah, that it's not acceptable within our society. And just, you know, this just blew me away. This was coming from someone who truly believed and practice monogamy

32:04

totally. Just because you're monogamous doesn't mean that you're not. But I

32:09

found open. And I thought, you know, this kind of made me stop and thinking, why can't we have that within our communities? Really? Why do we have to be pitting monogamous groups on one side and polyamorous on the other side and having this you know, constant, pool and polish and, you know, if you're monogamous or if you're poly, you're, it's like, we can exist together. And they aren't mutually exclusive.

32:44

Not at all.

32:45

It's like, and I respect people that are into monogamous relationships, whether it's a marriage or any type of monogamous commitment.

32:56

One of the advantages I've always thought of being queer is that we can create our own relationships, we don't have to follow any set pattern. And for me, I love to me I love many people, you know, and to direct all my love to one person is not natural for me.

33:18

Well, for me, I found that, you know, a lot of people assume that sex is one entity. No.

33:27

It's like now I'm into all kinds of things. Everything from No, not quite how to say it. About a screw to.

33:42

To sex with friends.

33:43

Yeah. Well, an ominous sex, which has a whole different flavor. Yes. And privileges. BDSM that's a whole different flavor of love. They're saying I'm into spiritual sexuality, sacred sex. Yeah, and during sex magic. And these are, you know, there's a wide spectrum and each type of sexuality I get into is a bit different from others. And I've discovered that no one person could fulfill all the needs that I have. Unless I met someone else that was a little more aligned like I am.

34:23

A little bit of everything. And that has a really super high sex drive because

34:33

no

34:35
