That's gonna do it for dinner tonight. We'll see you next week 90.1 KPFT ustun. Today, Alzheimer's disease remains the most common cause of dementia and adults and affects as many as 4 million Americans over the age of 65. Yet much progress has been made in understanding this disease. And much of this progress has been made by scientists at 27 Alzheimer's Disease Centers across America. These centers are funded by the government's National Institute on Aging, their mission, translate Alzheimer's research advances into diagnosis and treatment practices. So if you're affected by this disease, as a patient, caregiver, friend or family member, the National Institute on Aging may be able to help bring information on Alzheimer's disease, or to learn about joining a research study, call 1-800-438-4380. That's 1-800-438-4380 we may not have all the answers yet. But you can help us in our search.

 01:14

You're listening to KPFT Houston and ke O 's College Station, this is after hours. And I want to say a little something before I played the first song because it's it's a tribute song actually to actress and L. Carter, who died this week. And you might say, Well, what does she got to do with the gay lesbian, bisexual and transgender community? Well, I think the song will say it. Now Carter not only was a great actress and a great singer, but a real friend to the gay community. And it says here that she died of natural causes. But at age 54, what does that mean? We do know that she had diabetes, and she underwent brain surgery in 1992 to remove an aneurysm as she recovered and continue to perform and had been in rehearsals for the musical raisin. When when she died. So from our community, to Nell Carter and her family, this is a little something that she did on TV a long time ago, 1215 years ago, but you'll understand why. Ladies and gentlemen, now Carter

I like to dedicate this to my brother Dr. Bernard Taylor. Always no longer in Pain

03:06

they used to seem to me that my life went on too fast. And I had to take it slowly just to make the good hot flashes. But when they are born to it's so hard to just slow down. So don't be surprised to see back in the bright.

04:02

The reason heartstrings is so important to me is because it was the first time I was able to come out publicly and defy my parents and my family and the real zealot religious zealots on both sides and say yes, my brother was gay. Yes, my brother died of AIDS. Yes I loved him. Yes, I still love him. And I will always love him.

05:00

 Chris Harrison 10:27

I didn't do that bad of a job. You have to go. Yay.

 10:33

No, I'm sure Chris did a wonderful job. I haven't listened to the tapes yet.

 Chris Harrison 10:37

Oh, you're gonna love how we opened the first show. Oh, joy. Let's put it this way. It was 40 degrees and raining here. So and while you were sitting in 70 degree weather 70 That's what the that's what the weather thing said it was more than that. Well, it was at night. Oh, it was getting up to eight.

 Jimmy 10:55

Oh, listen, I was in Hawaii for two weeks. And I know it was cold here. But it was horrible there too. We had they had the lowest temperature ever recorded overnight one night.

 11:07

What was that? 7757 We didn't

 Chris Harrison 11:11

get up to 57 a couple of days. Yeah. So I laughed. Yeah, a group of us gave us a little greeting to you. We asked everyone to stand up face wet face to the west. Yeah, and we all yelled bitch I think I heard you would have heard go west first there but a certain person who was probably not stable enough to operate a board misunderstood the number 12 for the number full five. Oh, and so declared his new favorite song because you know what happens when you're gone? Jimmy brings the Jimmy Vaughn brings the difference brings the pink box. Oh, I see where you hide the pet shop boy. Yes,

 11:54

yes. Yes. It's the the old standards of gay music that I bring sometimes. But you know, I don't bring the box. Just a couple of them once. So

 12:05

the low temperature there was 57 Yes, that was the lowest with all the love in my heart and to borrow from my favorite sci fi TV show which has been canceled. Yes. Frell you

 12:16

okay? Okay, two things before we get hatch on and I need. Let's see. Who do I need? I need

 12:29

we all need a man

 12:33

How did you like the show?

 JD Doyle 13:11

I was impressed. Granting that it was the pre premiere. Yeah. And they were kind of making some last minute changes. I thought they did very well. They they sang harmony like they've been together for a long time rather than early a couple few weeks.

 13:28

And what Judy told me is of course, the premiere is the dress rehearsal and effect. And what she told me is that the day before, I'd have a a crew of six guys, one

 JD Doyle 13:40

drops down, dropped out. So they were making last minute adjustments and they did a damn good job. Yeah, she said

 13:45

she was really impressed. They had they had just gone in and rehearse through the night.

 JD Doyle 13:52

But I'll say again, the harmony was superb. Really? Yes. I was impressed.

 13:57

Ah, so that's playing now every it's a from January 17 through March 8, march 8, so you have all of February to see this.

 JD Doyle 14:08

So the music, the harmonies, good. There's a funny songs

 14:11

on March 7, don't come run into me and saying, Ah,

 JD Doyle 14:14

unless they extend it, but you can't count on that. You know? That's

 14:17

right. That's right. And this is take this is over at 1415. California,

 JD Doyle 14:22

And the early part of the show, I dig deep into some lesbian musical history. Some really obscure things that you won't hear anywhere else.

15:36

There are people here I've not heard of probably true. Wow. I've not heard from folks. So this is really gonna be a good one. Okay, that's Monday,

JD Doyle 15:46

nine o'clock. Nine o'clock. Tune in today for queer voices.

15:48

Yes, that was the regular basis. Yeah. And so Kenzi six. Yes,

15:57

15:58

You know, we were talking about that. Yes.

16:00

PFLAG is benefiting from we're selling tickets. We bought a block seating of I don't know how many Sue? No, but she's been great working with she is terrific cheese. But we're doing January 30, which is this Thursday. night, Thursday, Thursday. Thursday. I just didn't work with no. But at 7:30pm hobby center at the hobby Center. 800 Bagby and downtown Houston, beautiful xelox, auditorium, theater, whatever. And afterwards, this is only from PFLAG. We're doing a reception dinner. So if you bought tickets through PFLAG PFLAG as during reception dinner with the Kinsey six, they're coming back on stage, and just kind of having a party and talk about the performance and it's terrific. Be cheese, fruit, vegetables, everything. I'm catered by yourself. Oh. Oh, yes. Yeah. I don't know how I got roped into that. But I can't

16:57

imagine the feature.

17:01

No. You call often the staff meeting. Okay, so what do

17:09

we have to call for tickets? You can swing by basic basic brothers. Oh, 1232. West timer. Yeah. Everybody knows we're basically brothers. Oh, yeah. Pick them up there. Okay. They'll be there throughout mid Wednesday. I think so. We have to return the tickets. Sure. So yeah, swing by earlier this week and pick them up. And hope to see you there. That's terrific. Yeah. Really excited about it.

17:32

Yeah, I'm looking forward to this and so Stanley, you're gonna get to meet Stanley finally.

17:37

Finally here. He does. Two years now. I've heard

17:42

it's okay. He's home sleeping.

Chris Harrison 17:44

Something it's early enough for him to be there. Are we ready?

17:47

Yeah. Oh, shall we go right into music number one. I was just waiting for the music. Yes, I know and and he's watching the clock it's 1015 minutes over okay. Yeah. Oh my god, this sincerity. No. No, right. Yes. So after this then hatch. Jimmy, is it? Where do we do it?

18:21

We'll find out.

18:22

Oh, Jay stuff. Hey, okay. Well as I live in

18:40

Yes. And that was Saturday night fish fry with Pearl Bailey. And what I assumed three Moms Mabley. But I'm probably not correct on that. Anyway, this is hatch you scenario teen Coalition

for homosexuals and hooping and Bhupen and hoping and boop until the break of dawn or at least for another 30 minutes. And oh, yeah, we can be reached at 713-942-7002. And you will be given a new number which I haven't memorized. Yeah, terribly, terribly, terribly sorry. Hatch is a gay, lesbian, bisexual, transgendered and unquestioning youth support group here in the Montrose area. And we our members range in age from 13 to 21. And if you would like to attend, just give us a little call and our little boy Lee here will give you a nice ring back. Yeah. Hi there.

19:39

Hey, how's it going?

19:40

Excellent. Excellent. No more for you.

19:47

Yeah, lots and lots and lots of fun stuff coming up and hatch. We are already beginning planning for prom and pride parade. Just the very early stages of this looking at some fun, fun stuff going on this year. Oh, yeah. And amongst other things, starting a new writers in schools program on Wednesday nights, growing and expanding and having lots of fun doing so. So let's give a nice round of applause for our guests in the booth. Today we're going to start from Bulli boo. riffs are my my co host for this evening. Give a little Hi, ah, Hi. What's your name? This is your third month in a row.

20:30

This is this is my third month in a row. So if you don't know me by now, I'm not going to tell you who I am.

20:35

Okay, Taylor's up. And here we have her lovely accompaniment for this evening.

20:43

My name is Drew and this is my second month in a row, second

20:48

to an alcoholic.

 20:51
Well, well,

 20:54
in the

 20:55
man, I'm Brendan, I'm one of the hats facilitators.

 21:01
And I'm way Oh, yeah.

 21:03
It's still cold in here.

 21:07
Lee and what do you do with that?

 21:08
I answer the hat sheath lines. Yeah, you do. Oh, yeah. Yeah. Mm.

 21:13
Hmm. Yeah. So so yeah. Speaking here with the Brendan earlier, trying to scurry and come up with a beautiful topic for this evening. And it just so happens that Lee here Hey, yeah. Nice. Nice. You you what school is it that you

 21:36
attend? I attend Reagan High School.

 21:38

21:30

And what have you done for this beautiful Reagan High School recently?

21:42

I have created a GSA for this lovely, lovely High School.

21:46

Yay. Just what's the GSA for our audience?

21:49

Oh, yeah. A GSA is a gay straight alliance.

21:54

And what does one do in a GSA? Well,

21:58

it's pretty much almost like the same things that we do at hatch. Kids come together, there's like a little social time. And then we usually have a presentation like most of the time a speaker. And yeah,

22:12

what kind of speakers do I usually have being that it's in a school setting?

22:17

Well, actually, I was really lucky. And I got to find a teacher who actually is a member of PFLAG. And she had a son who's sadly HIV positive. And I thought that it would be great for her to share her story on how it was raising her son. And, yeah, we have like, things like that just said, just like that had hatched during parents and friends night. Actually, people from PFLAG come in and share their story on how it was raising a gay child. Love PFLAG? Yes.

22:51

Do you find that you get a majority of gay or straight? Or is

22:56

actually, I'm counting like all the out and open gay students? I'd say there was only one and that's me. Counting the in closet. Kids that like actually, you know, admitted to me, I would say like, including me, there's three kids. Wow, wow. And the rest are straight. And we have up to 25 to 30 attendance. And

23:20

that's right. Wow, that's great. Wow. And, you know, and with a gay straight Student Alliance, it doesn't matter, really, this is some of those kids may end up years from now being gay, or they might not be and they just haven't been able to come to realize that yet. And it doesn't have to be about just gay students, either. It's a nice setup, I think. Yeah, I think that's great. I

23:44

mean, even I mean, even if some of those kids are closeted, I kind of hope that that, you know, none of them are I kind of hope that all of them are are straight and seeking to, to

23:53

understand, I totally understand that.

23:56

And that's even nice to you know, when you think about that there's straight students or, you know, that would come out and support and feel very strongly about doing that and be a part of that group. I think that's even nicer.

24:08

Especially since they're really putting themselves up into a lot of persecution. I think, yeah, that's

24:12

true. Has there been any persecution at all?

24:15

Actually, I get a lot of complaints from kids that like attend the Gay Straight Alliance, the ones that are straight, they say they tell their friends where they're going, I'm going to the GSA and they're like, but Are you gay? And they're like, No, it has straight in it. I'm actually thinking of

making the next flyer with like, big bold letters gay straight. And putting somewhere on there, you know, it's for all students.

 24:43

Maybe even that persecution, though, maybe that those straight kids are feeling just by going there will help them come to a better understanding of what it's like to be gay.

 24:51

Yeah, I was hoping that one of our facilitators, Mike Maghera would actually come in and show the processes of coming out to oneself, I, that was really educational for me, and I think it'll help them realize what exactly gay kids go through. You know, it's like more like the internal battle, also the external battle that we have to deal with coming out. So

 25:15

just didn't know the straight and gay kids in high school kids is just hanging out with one another and becoming friends. I mean, it tears down the barriers between the two cultural sex barriers that are totally unnecessary to be there. It tears down to the point where it's not about learning. It's just about having a good time hanging out with your friends.

 25:37

And that's the environment that we should try and create. And that's the environment that Hatch has. And I'm just trying to duplicate that. I mean, if there are guys or girls out there listening that are planning on starting a GSA, I think one of the things that could really benefit from coming to hatch is like having the skills to build like a successful GSA. I mean, and our, our program director, Deb, she can give you such good resources. And like all the speakers there. I mean, you tell them that you're have a GSA and you want a speaker like that. They're I mean, they'll give you all the information you need. I mean, a lot of my speakers right now are coming from hatch. So yeah, great resources.

 26:26

That's great. And do you want to mention when y'all meet, just in case anybody from Reagans out there?

 26:31

Oh, well, I tried to make the meetings every Tuesday. Yeah, every Tuesday, like at 345. After school.

26:40

Wow, that's that's big attendance for a weekly meeting like that. Yeah. Yeah.

26:45

Well, it fluctuates. Yeah, sometimes it'll be like, you know, 15, sometimes it'll be 25. Sometimes it'll be like 30. I mean, the first meeting, I was really happy, because we actually had to cram a whole bunch of teachers and a whole bunch of students into one tiny room. Wow, that's great.

27:06

So you're getting a good teacher showing to

27:08

Oh, yeah, there's a lot of teachers that are supportive. I was really surprised. That's great. Yeah.

27:13

Did you did you meet up with any resistance and trying to start the GSA?

27:17

Actually, yes, um, the year before? Well, we had we, of course, had the board meeting, uh, we attended the board meeting of the HSD school district. And we were giving a speech on trying to get what was we were trying to get the GBL T. Thing included into the protection against discrimination. Right, right. Yeah. And the student handbook, right. And my principal saw us there. And he asked that me and the guy that I used to go to school with Brian. You know, he had his talk to the whole faculty and staff. And there were actually a lot of stupid people there thinking that we were trying to recruit. And, you know, to get

27:59

that toaster.

28:00

Yeah, among the faculty and staff. They thought

28:02

that yeah, it was it wasn't actually there were a lot more smart teachers than the word stupid teachers. I mean, one was a coach, and one was a special ed teacher. Yeah,

28:14

that's great. Yeah.

28:17

I'm sorry. I'm just fascinated by this. They actually thought you were there to recruit. Yes. would explain recruit

28:25

to the audience like, Hey, you should be gay. It's fun. First

28:33

can be straight. You know, when

28:34

that's very interesting that the coach seemed to was one of the few people that had the biggest problem with that.

28:41

Yeah. Well, I think he was ROTC guy. He actually sat down and started

28:48

screaming Don't

28:50

be one of those can be straight people. Yeah. Flags.

29:02

Yeah, yeah. Get the flag then...

Yean, yean. Gotta love them.

 29:06

Love them peeps. Anyways.

 29:09

So how long have you been doing it for?

 29:11

I'm actually I've been doing I've been trying to do it for the beginning of the year, but I have a lot of things that I have to do, of course, like being a senior in high school. But yeah, it's been, I've been trying to do it since the beginning of the year. I had a little trouble, like getting it together. But actually, the faculty like the teacher has helped me out. And it's going really smoothly now. So I'd say like, two months into this school year,

 29:38

that's great. Yeah. That's great that you have such a big following so quickly, too. Yeah. Um, cuz I mean, like, now there's been no it's been a few months. It's not just the novelty of it, you know, it's it's that there's actually a following for it is still really big. And that's, that's excellent, man.

 29:54

Yeah, I hope that HSD will get more GSAs and actually climb is being sued because they didn't start. They didn't allow a student to start a GSA.

 30:06

Yeah, I was. I saw that on the news, actually. Yeah, that's wild. I don't understand what their objection would be really. I mean, it's just, it's just inexcusable in this day.

 30:15

What did they say? What

 30:16

would I remember? I'm not sure if I remember this correctly, but I remember it, reading it in the

newspaper in school. And they I heard someone say that she actually wanted to start the GSA, but before she actually could get everything together, Klein rushed out and made a policy to where there couldn't be any clubs, and that involved sex or sexual orientation. And she was like, Well screw the house. I'm going to see you guys.

 30:47
Good. I think she

 30:49
has ever asked the ACLU. Are they backing? Are they helping them in the lawsuit?

 30:54
Are they helping them in a lawsuit? Um, I don't know. I don't know that much about it. I'm sorry. I'd like to give you all the facts and everything. But I haven't looked into it that much. How are you? I know, I've sort of responsible.

 31:10
The ACLU filed a lawsuit. Oh, okay. The

 31:15
ACLU is the one that filed the lawsuit against the school. It was later this earlier this week. They filed it for them. That's great. Thank you see, I used to invoice a big write up of it.

 31:28
Actually. Stephen, while you're here, you start you were a member of your GSA and your school orange, you

 31:34
was a founder that we started in San Jacinto

 31:38
College. Why don't you tell us about that a little bit? Well, we're

31:41

struggling to fight to get along. The Dean of Student Life was she was ready to going forward. She was oh, yeah, you know, but the school policy is you have to have at least 10 members, and we're struggling to get 10 members. He's gay on the campus.

31:59

And you're just having like an attendance problem. And

32:01

that's about it. Well, you know, a lot of college organizations have attendance problems. are they focusing just on your group regarding that rule? Or are there other organizations?

32:12

Now there are a lot of the other organizations don't really have a problem with it, but they're really concentrating on us. They're kind of using it as an excuse to get us out. But the Dean of Student Life is behind us. 100% Kathy Knapp is absolutely wonderful. I think she's a little lesbian. But the point is,

32:33

not that there's anything wrong with

32:37

that and our president really didn't help matters. And I can't be president because I'm president of another club. What you can't be president to clubs now. That's one of the other things there

32:46

if you're gay, you cannot be

32:50

forced the ACLU

32:55

found that Houston voice so v'all can

round that Houston voice so y an car.

32:57

All right. from it. quite helpful.

32:59

Is it time for a musical interlude?

33:01

It might just be, you know, what

33:03

song I would like to hear is the mike Dodi song busting up a Starbucks, which is actually not just about busting up Starbucks. It's about the World Trade Organization riots several years ago in Seattle, Washington, where there was a very famous picture taken of a of a foot kicking in. You just cut me off.

33:27

No, no, I can still hear you. Now your

33:31

foot kicking in a Starbucks window and the foot was very nicely clad in some brand new Nike shoes. All right, that gives you a little bit of background to one of my favorites.

33:40

Oh, wait. Before we have the musical interlude I forgot to say one of the sponsors to my GSA recently passed away his name was Mr. Todd McGuffey. And I just wanted to get his name across the radio he was a big help starting the GSA and it was a big honor having us having him help us. I mean, it takes a lot of guts for you know someone to go out there and you know, put their job on the line to fight for what they believe in and I just want to give him credit for that.

34:11

Excellent, excellent fabulous Okay, I'm gonna I'm gonna I'm gonna try this while Tim is not looking here so here we go. We're gonna do this year of course of course not why Oh, see? look look look for four weeks along. Are we happy? Me, no, no. Still still not happening. Yeah, this

Look look look for four year okay. Are we happy no, no, no. Still still not happening. Yeah, this is already in favorite see Jimmy Jimmy needs to be rushing in here about now. Yeah, God

 35:00
It now word

 35:01

 35:04

 35:34

 35:35
now let's see if we can play number five Why

 35:42

 35:53

 36:01
YEAH I can't get number five to play.

 36:04

37:08

What are you looking for?

37:12

This school officials lawsuit. It's premature.

37:19

My thing? Yeah, so

37:20

lots of fabulousness about this lawsuit upon Klein.

37:26

I'm not that tall. Let me get the

37:29

adjustable chair here.

37:32

Um, I read slow here.

37:35

Okay. So little little article here from from the Houston voice. Only one half of it where?

37:44

It's the front page here. Yeah. Thank you. Yes,

37:49

thank you no problem. The American Civil Liberties Union this week filed suit against Northwest Houston's Kaline Independent School District and two school officials alleging that the district is biased because it has not approved an application for a gay straight alliance. Client school officials however, said the lawsuit is premature and that the application still is under consideration along with several other students proposals for in school groups. The lawsuit filed in federal court is against the district superintendent Jim Surrent. And principal Pat Huff. It alleges that the decision, it leaves it alleges that the decision not to approve the club application led by student Maria Duclair violates this quote violates the First Amendment to the United States Constitution and the Equal Access Act because their prohibit prohibition of the club is based on the content and the viewpoint of the speech of the clubs and its members. The ACLU is asking federal judges in Texas and in Kentucky and a similar lawsuit to force the school districts to allow students to form gay straight alliances on campus. So that is pretty much the deal. What is going on here?

39:03

Well, I hope they're successful in winning that lawsuit.

39:08

I never I never considered that. It actually violating first amendment rights. Yes, yeah. Yeah. And they're just like trying to kind of get around this. Gays, everybody else.

39:20

I'm Joe Taylor.

39:22

Get your butt in here. But yeah, say oh, hey,

39:27

hey. Yeah,

39:28

there we go. How are y'all kind of forgot to include your hair in the little

39:33

ones. It's tough enough to

39:35

attract. Hey, Jimmy.

39:40

We're having this little discussion back here.

39:43

Attracting insect

39:44

killers to the bug zappers? That's right. He was talking about but I hope so. Just just your

39:52

beautiful, wonderful voice.

39:55

Yeah. That's that's pretty much what's up Oh, I see. So yeah, yeah, we were just reviewing this little article here from the Houston voice and their article, ACLU filed suit against Houston school. Being being that of Klein ISD.

40:24

I think one of the other articles was also talking about a similar suit that was being filed against a school board in Kentucky.

40:31

I had heard something that one of one of the school board somewhere disbanded all organizations just so just so the gay student organizations couldn't meet

40:41

that was Salt Lake City. Oh, that's terrible. Yeah. But they weren't back.

40:45

I think they were trying to avoid a lawsuit by doing that.

40:49

So it's wonderful. So the school system that people who run the school system look out for the kids want to ban all student activities. That's that's a brilliant move.

40:59

Yeah. To prevent to prevent the gays from recruiting. Yeah.

41:04

You get a free toaster.

41:07

Texas and Kentucky. would have thought that we'd be having this problem in Texas. And

41:14

did you ever hear that joke? How do you know the toothbrush was invented in Kentucky? Wow. Because if it was invented anywhere else, it would have been called a teeth Brush

41:28

it only takes just a few seconds to register then it's really fun.

41:34

Was that a courtesy laugh before?

41:37

It was like I'm gonna laugh because it's meant to be funny. It's like yeah, it's one of those I'm sorry, inside joke fair from naked cop. The best show in the world. Yeah. Yes, we, sir. Well, yeah.

41:56

One of the exciting things I think hatch is planning on doing is maybe getting different GSAs hooked up with

42:05

hatch. Yeah, that's that's actually an idea that I got from a guy that comes to hatch named Ryan. He was trying to get something like that put together. I'm like, hey, well, I have the resources right here. Why don't I put that together? GSA a. Yeah, yeah. GSA. Yeah.

42:25

Yeah, a straight Alcoholics Anonymous.

42:28

Yeah, that's it.

42:31

Supposed to be needed? Okay,

42:35

I'm pretty sure there's a lot of those out there.

42:37

Yeah. But yeah, I think that's an excellent idea. Like, like drawing these organizations together, and kind of speaking and learning about how others are kind of dealing with their own problems and issues and just kind of gaining strength from that. Yeah.

42:52

Saw him. Yeah, just we have the resources to put it together. That's all these good things that come from hatch. Hey,

42:59

do we know how many GSAs there actually are in the Houston area?

43:03

I want to say three, but I don't know the exact

43:06

number. Well, your school has one client it's not. Bellaire has one. Yeah. Oh, wow. And

43:17

we used to have one. What happens? Um, it just I don't know. It's I think it poor management. I don't know. That's what I heard. Like, the guy who was running it was kind of like, well, this is getting boring. I'm gonna stop doing that. Now. What? Yeah, that's messed up. Nobody picked

43:33

it up. Yeah, yeah. The things you need to do Li is since you're a senior is lower classmen kind of mentor them.

43:41

I've been looking up and around. I bet.

43:45

One thing, one thing that I did hear about the Klein issue was I think the girl that's doing it is a sophomore. So they are the one that's that's wanting to start the GSA and wanting to, you know, press for this lawsuit. She's just a sophomore there. So Oh, that's good. Yeah. So be

44:04

around for a while. So raising her side for a while.

44:08

Good. That's great. Does anyone know who Jerry Bakker is?

 44:12
No.

 44:14
Do you drew Do you know who Jay Thacker is? Yeah, I

 44:16
just was flipping through the Houston voice and started reading a little bit about Jerry Thacker. He's a Pennsylvania marketing consultant who has AIDS. And he's just been appointed by George W. Bush to a national age panel and his mission in life is to save gay people, especially gay people.

 44:38
Is he a member of Exodus?

 44:42
Well, it all depends on what

 44:44
save? Yeah, what what save or you

 44:47
could possibly

 44:50
a good thing.

 44:50
He's already resigned.

44:51

Are they trying to save us from the fiery pits of hell?

44:54

Well, he was appointed by George Bush. So I'm guessing probably Yeah, actually, he

Chris Harrison 44:58

has turned down that appointment. And basically what his issue is the fact that he contracted AIDS from his wife who received it from a transfusion. And their daughter is also HIV. Paul is also. And so he's part of an evangelical group that's believes they can cure homosexuality, and they call it the gay plague and most of the nasty stuff, which is just terrible.

45:24

Relations straight that have AIDS, but

45:28

it's the transmission of the disease is normally from male to female. Right? Yeah. It's rather difficult to go the other way.

45:40

Well, and even I mean, you know, even if you were talking about how it was a gay plague, then why would lesbians get it less? You know,

45:48

yeah. The, the majority has lesbian servation

45:53

has been socially accepted. Right.

45:55

So it's not a gay plague unless it's isolated just to this one. When you're in the world.

46:03

It's not a gay plague. But it's just sad that

46:06

people think that it is that people still say that.

46:10

Sherry denature whose life has just been destroyed by age, his recourse against that is to blame homosexuality.

46:17

It's all these evangelists named Jerry Mann, and it's

46:20

disgusting. The George W. Bush would take Jerry Thacker and put him on a national panel. Really surprised? Well, I didn't know but it's still disgusting.

46:31

It is. Yeah. I didn't vote for him. Really? I don't think any of us did. And I don't think anyone in Florida did. But yeah, the hookup. Time for soothing ocean sounds. Yes. Actually, that was pretty good. Thank you. I have one

46:58

person who was going to be on this station Monday. I think it's 1111 30. He is okay, he claims that he has cured people of AIDS and leukemia, leukemia.

47:17

That's interesting.

47:18

Kind of do the magic a friend of mine referred to him as a new age crack.

47:25

Does he do it through sexual healing?

47:28

is just one of the purify you

47:36

not to be stepping on any toes here.

47:40

But you are listening to after hours queer radio with attitude on KPFT Houston, and ke O 's College Station.

48:27

48:37

53:31

53:50

Chris Harrison 54:01

I think I pulled one out. Remember. I was half asleep. Oh, well, how about as we stretch for time, as Jimmy decides what he's going to put him?

54:14

Well, JD Doyle is going to do a one of his future shows is going to be jazz, gay, lesbian, bisexual, transgender jazz artists. And we were discussing this particular guy, Steven Karasik, who has a

CD out I think it's there's only one called moods and grooves. And we were arguing about the how out a particular song on this was Yeah, he did not seem to think that it was particularly an out song at all. And I thought it was very out.

 Chris Harrison 54:49

Okay, so the debate will rage. Well,

 54:52

I got to let the audience listen to it and make up their minds. It's Steven Coyle. sick from the CD moods and grooves it's called Who do you do?

I love it comes comes here every time he's in town.

Chris Harrison 56:59

57:04

And he does not forget. He still

57:06

comes. Yeah. When you drive out to 90 and you see that billboard with his hairstyle. Yeah. Proper.

57:16

So I hear that we have someone on the line. Yes, we do.

Chris Harrison 57:22

You've got that button.

57:23

I get that button. Hit that button. And we got Dean Dean backer. Good evening.

57:29

Good evening, Dean Becker. How you doing?

57:31

I'm well how's everyone at the station? Great. Great. Great. Getting drizzly and cold out there now. Yeah. Yeah. Hold

Chris Harrison 57:39

on. You can't give weather forecasts in Houston. If you're not gay. There's a there's a token straight position for straight weatherman in Houston. And Neil Frank already has that. So

57:52

the other? Yeah. Most of the other weather men are gay. So Hey, bud, and you are our job. You are only heterosexual?

58:04

I must say. Yeah, there's a and you're here to talk about what the drug war my friend? You bet. Yes. I wanted to tell you all, first off that yesterday on yesterday night on cultural baggage radio show, we had Ed Rosenthal, who is most of you may know is the pot gurus, written, you know, a dozen books on growing and, you know, harvesting and curing and selection of plants for, you know, the proper use for certain patients who haven't been, you know, different medical needs those types of things. And he's been hitting the papers here, because he's the point man right now for the medical marijuana community. He's actually on trial as we speak in California for marijuana charges, you know, for possessing 100 plants for possessing, you know, 1000s of plants in another location for maintaining a warehouse for you know, every which way they can describe growing a plant. He faces up to 20 years in prison. Oops, six and a half million dollars in fines. Six and a half million dollars in fines. Yes, sir. Whoa. And, you know, you stop and think about this, you know, these these Yahoo's Arkadelphia, and Enron and so forth, stole hundreds of billions of dollars destroyed trillions of dollars of US taxpayer, you know, savings and hope. Yeah. And they're skiing this weekend or out on their yacht. And that's right, and who simply grew little bitty clones, you have 6000 clones to sell to the community, you know, good seeds structure. Good medicine for these people. The fact of it is, is that Ed was a deputized agent of the city of Oakland. They they did everything they could had to protect him. They asked him to do this for the city. Wow. And you know the police chief's many of the city council, etc. They all want to participate in this trial. And the judge is saying no, we can't talk about medical marijuana. We just have to treat this as any other trafficking incident. It's outrageous. If your listeners would like to tune into it, I think it's probably my best show yet. It's out there on the internet at unvarnished truth.org. And they can call it up online and listen to it. But in my opinion, its truth itself is on trial.

 Chris Harrison 1:00:42

Well, he's not the only case is going on in California wasn't there one that was recently wrapped up of a man with an eight year old daughter, who has had chronic pain for most of his life, and was given a thing was a 15 year sentence for possession of marijuana and he was just for medicinal purposes only. And the jury has come back. Because they weren't allowed to be told it was medicinal marijuana use. All they were told was he was growing all this marijuana. He was selling us a very simply, they were thinking he was this. This drug baron. He was the marijuana version of Pablo Escobar. And when they when the jury came out later and found the truth, after the fact, some of them were quite upset that they weren't given the whole story. Yeah.

 1:01:29

Well, it's ironic. I, when you first mentioned the younger child, it reminded me of a story that broke up, I think it was in late 2001, early 2002 actually aired on CBS News, where this mother had a youngster, you know, with a I'll say a psychological problem, okay. They're very destructive to himself and to others, the state was preparing to take him from her care, and put him under state, you know, supervision in a home somewhere. And a doctor said, Well, there's one thing you can try, and he suggested medical marijuana. And that night, the boy did something the mother had never seen before he smiled, really smiled, and he hugged her. And he now has great friends. He's doing well in school in the state of California has actually ran that through court and approved it. Hey, so, you know, we have just such great disparity between the will of the people and the draconian methods of our government really

 Chris Harrison 1:02:33

well, that's what the issue really comes down to is the fact that there are states like California and think seven others who have said, medicinal marijuana is a viable option there has benefits to it. But it's the federal government that comes in and says wait a minute, you don't have the rights as a state to make that kind of determination. Because we've already said that marijuana is a was a class three narcotic.
