To related articles out of the Houston voice, they nearly one quarter of a community college students who took part in a survey admitted harassing people they thought were gay. University of Washington researcher says the survey of nearly 500 students is said to be the first of its kind since previous studies most mostly focused on victims of such crimes. Indeed, the assaults of gays and lesbians were socially acceptable, and that respondents often advocated a defendant such behavior out loud in the classrooms while they were while she was administering the survey. Among men, 18% said that they had physically assaulted or threatened someone they thought was a gay or lesbian. And another 32% admitted that they were guilty of verbal harassment. The figures were a lot less for women. Many explain their actions is self defense, which Miss Franklin said that was based on their perception that gays are sexual predators. Others were thrill seekers or simply went along with their peers.

And they're going to have great food, music socializing and a lot of community information. No

♂

06:48

kidding.

R Roy 06:49

And it's a great big community center picnic.

♂ 06:52

♂ 07:43

♂ 07:49

Anywho and also with the community center. If anybody would be interested in volunteering, I know that they're, you know, they're always looking for someone to help out.

Well, now we do win. Now we do. And I do want to say that if you have not registered to vote, please do time is running out. It doesn't cost you anything to register to vote.

09:33

Yeah, I just read a blurb in the paper the other day. I can't remember the figure but it was several million people were too busy. Last, the last elections to vote. It was something like 6 million people. I don't don't quote me on that figure, but there's like, just too busy. And that's every time you don't vote. You're giving someone else that much more power. And think about the people who are voting

Roy 09:57

and think about all the people who have given their lives on our soil and in foreign countries to protect our right to vote. Think of especially people that are of a minority race think of those in the last few decades, who gave their lives and shed a lot of blood so that black folks could vote when Hispanic and Asian could vote. By here in the United States,

10:30

people came here like a people could vote.

R Roy 17:09

Okay, now I'd like to wrap up tonight's News. Oh, you're gonna wrap it up? Yes. With some information from the from the gay and lesbian community from the gay and lesbian Political Caucus. Oh, good.

♂ 17:22

I'm glad you're you're bringing that up. Right.

R Roy 17:24

They have a they've got news, this news item from their

17:30

annual big do right.

Roy 17:33

Mayor Lee Brown is going to address the 23rd annual gala on Saturday, September 19th. And the task force director, executive director level will also speak at the historic Warwick Hotel. Kidding. And if you don't know where the Warwick hotel is, it's right there where main Montrose and fan and all seem to come together.

17:57

That's where Montrose dead ends into Main Street.

Roy 18:00

Right. And like I said, Houston Mayor Lee Brown will address this. The caucuses annual award dinner that night. And Mayor Brown has shown great courage and integrity in the manner in which he has advanced the cause of equality for the Kison gay, lesbian, bisexual and transgendered people for he read that and he kept his campaign promises to the caucus. And in which included sexual orientation and identity is his employment, non discrimination policy.

18:32

He's been on TV monitors more than I think anybody else.

Roy 18:38

And he has stood up. And he you know, stood up for us. Mayor Brown has stood up for us in the face of Rob Todd, and a lot of other people that that are so opposed to gay people having equal rights.

18:58

Or people having equal rights,

Roy 19:01

right, opposed to people having equal rights. Yes, people who are not equal, why are

19:05

19:05

people having equal rights? Right? That's what Rob Todd is against all people having equal rights so

19:11

that it's harder for people like him to make money ah, are making more money there. Yeah. And

Roy 19:16

people like to and then then people like to the cloud the issue by saying that we're looking for special right now, please, we're not looking for special rights.

19:26

It's just all we're looking for is guarantees that we get the same rights as everyone else, the same rights and treatment under the law.

19:33

And it really irritates me the way they they twist the language.

Roy 19:38

You know,

19:40

you can do what you say about me, as long as you tell the truth, you know, but when you tell a lie, then I get really irritated when

19:46

you can be assaulted in public in front of a police officer and nothing's done about it. Well, you don't have equal rights.

Roy 19:54

No, you don't. When you can be fired from your job

19:58

when you get from your Parliament are evicted

Roy 20:01

from your party

20:03

only because of who you sleep with are

20:05

only because of who you alleged to have been there yet. Like the the volleyball coach in Downing Bay town, who was Conference Champions anything it was simply alleged that she didn't she's never said whether she was or wasn't. But she lost her job

20:33

yeah. Anyway, we're serious about

20:39

this. By the way, other gay lesbian political coffee.

20:42

Yes. Right. But yeah, as

20:45

I requested, I guess I've made a motion one time that we do like a census of the community. And just recently, they did do a census of the community with the mailing list of the gay lesbian Political Caucus. In other words, we know basically, yeah, like, give like a lot of people think everybody, all the gay people live in Montrose. Oh, God, no, you know, the Deborah Danbury district. No, no, no, no, no, we did a survey. And I haven't seen the results yet. But there are, we are in all different preamps all over the city and everything. And that's one reason I did it because I'm tired of hearing wailed, you know, demo data represents me, but also I have a representative on the north side of Houston. Well, I have a representative on the south side of Houston.

21:33

We've always said that a small percentage of the gay community lives in the Montrose. Most of the people are the ones. I mean, those are the true activists, most other gay people because they're out in the suburbs, with lovers are alone living their lives simply. And while not openly. I mean, it doesn't take long to figure out what's going on. Well,

21:59

you're no more openly than than the the heterosexual couple living next door. Surely. They don't walk around going. I'm straight. This is my wife we boff.

22:09

Yeah, exactly, exactly. No, you just go about your life.

22:14

That's that's how I'm I come out to people is just by by living my life. I think that's that's all it was the majority of gay people do it is not avoiding it when it comes up. Okay, who?

Roy 22:26

And I'd like to thank you all for listening to this week's edition of after hours cast.

22:31

Yeah, so that was an elongated little news program. But you know, we were having fun.

Roy 22:38

And thank you, Matt, for sitting in tonight. Well, you're welcome. And thank you, Roy, for head help you all be here again next week. same bat time, same bat channel. Oh, they will.

22:49

And it's coming up to the two o'clock hour you're listening to after hours. Queer radio with attitude on KPFT Houston and ke O 's College Station. We are the queer sound of Texas. And we've had Oh yeah, we've had requests for music. And I don't have anything by Tracy Chapman because I did not bring that CD with me. She's not lesbian, but she certainly is a feminist. But Daraa in omble had wanted to hear anything by Janis Joplin and I'm certainly glad to play anything by Janis Joplin. So here's one of my favorites from the new album. Was she

S

Scott Lewis 23:34

a lesbian? Oh.

♂

23:38

Janis Joplin was bisexual, she had a female lover as well as many male lovers.

S

Scott Lewis 23:43

I did not know that. Yeah,

♂

23:44

She sure did. Well, you're not gonna see that in the Rose. Actually, you did see that?

♂

23:52

Yeah, there was some content. It was trying to keep it the family got involved in this they didn't want to portray it is what I understand. Yeah, well, so they did a little bit just to give you the taste,

♂

24:04

so to speak. So the from the new album, Janis Joplin with Big Brother and the Holding Company live at Winterland 68. So live recording that they did and there's a couple of new tunes on it that I had never heard. This is Oh, my favorite rendition of this song

♂

24:32

Whoa, yeah. Janis Joplin. I love it. Summertime. From the new album.

S

Scott Lewis 24:44

Now I know what I sound like on drugs. God What the hell was that?

♂

24:47

Who says pitch? Oh, Miss. Miss Scott Lewis is here she has dropped by. She's been on hiatus as

some Spanish Spanish guy that's right.

 S Scott Lewis 25:04

Relationship in my life. It lasted three weeks or 74 pages

 25:10

long enough for you to make him breakfast or anything.

 S Scott Lewis 25:14

We had a to Quito. But uh,

 25:17

was that small?

 S Scott Lewis 25:18

How long can I spend to say something that I don't know that I could say so I'll just skip over it. Just Oh, it's after two in the morning. Can you eat one as you know? Oh my god, I'm not even I'm that hungry. You know, you can't eat it to Pesos every night. You know? You got to go to Taco Bell once in a while. Yeah.

 25:44

Yeah, that's what I woulda thunk. Yeah, well,

 S Scott Lewis 25:47

Jimmy, what is going on? I know that Jimmy is first of all, we're all in black here tonight. Everybody's in black. Work with me here. It's radio. They can't see it should dip ships Jesus Christ. Anyway, we're all in black mirror. It's like nude radio. We used to do nude radio. But we weren't naked because police people would come and shut us down. Nobody

 26:09

see me naked. And the people in the studio would have come and shut

S

Scott Lewis 26:13

people in this town. Anyway, so work with me here. We're all black. Jimmy, of course, you can look at the veil on this claim. The quarter I understand. Well, possibly could be on it. You know, it seems

♂

26:28

as though the city is like giving them lots of hassle, lots of hassle that

S

Scott Lewis 26:33

New Orleans will never die before the French Quarter

♂

26:39

theater theater here in Houston. I mean, the city has been giving them all kinds of hassle with this new sob ordinance and,

S

Scott Lewis 26:47

and Jimmy talks to officers every time they come out. And it doesn't seem to do any it doesn't work. And

♂

26:52

I mean about though, I mean, what is the distance and all that? So what you're talking about? No, no.

S

Scott Lewis 26:59

No, they allowed Jimmy to come right up to I mean,

♂

27:00

distance from

♂

27:02

an area No, no, no, no, no, no. All kinds of new restrictions. obstructions, they had to add 60 seats so that it can be considered a theater. Well, now

s

Scott Lewis 27:14

wait a minute, what's wrong with that? That's just more man for the Pickens.

o

27:18

Okay, so they bring in so they brought in a bucket that just brought in a bunch of plastic lunch.

o

27:25

I love it. Get those little chairs for the kid? Ya

o

27:32

know, they had to do that heard of the French Quarter? The people don't stay in the chairs that long. With half the seats, right that, you know, I mean, we're talking about kind of, yeah, well, it's hard

s

Scott Lewis 27:45

to sit in a chair when your ankles are behind your neck. Could you tell us about that? No, I can, you know, you could always

o

27:54

used to used to be we'd call down there. And the other thing is the other side's gonna let me tell you. There's there are two parts to the French Quarter. There's the theatre part and then the the other side and then there's the Jimmy Carper wing. Yes. That has has several rooms when there's

s

Scott Lewis 28:08

completely financed by his \$5 admission over the years.

o

28:14

Which has, you know, a little arcade area with TVs.

s

Scott Lewis 28:19

Jamie there enough to know. Well, one foot six inches by 13 feet eight inches.

28:25

They there's something about the licensing there and they cannot show X rated films on the closed circuit TVs. So they're showing channel two or something.

Scott Lewis 28:43

Well, there's enough facts on that channel between Chuck Georgia and Frank bill. Have you seen this friggin Chuck Georgia the guy is the gnarliest homosexual I have ever seen in my life, allegedly. What does she do? Okay, he does this. Oh my god. Imagine that. Please don't tell me.

29:07

Don't please don't tell me you don't.

Scott Lewis 29:09

He does. Whether every weatherman in this town. Isn't Nellie ragin homosexual. He does this thing, right. Brandon is not an ally, and they do this thing on Letterman. Now, I don't know if you've seen this if you ever watch Letterman, but Letterman has spoofed and I'm guaranteeing you this whole deal is based on Chuck George Letterman is doing this spoof. Now they've got the late night weatherman. Chuck George goes out to these different places called neighborhood whether something was out at five o'clock in the morning and he'll be with like the Drug Enforcement Agency, or the Girl Scouts or Betty's knitting club or something. And he's like sitting there knitting with him and everything. Hi, this is Chuck George. I'm out here at Betty's knitting club and where do you need Oh, boy. Hey, ladies, how you doing this? The weather this morning is gonna be well Letterman's do no he's just so I'm hearing

30:00

and he told me you are not serious.

Scott Lewis 30:04

He'll be with the Girl Scouts and he's dressed up like a big friggin oatmeal cookie. And then and then you keep going when you do that you just keep just keep going. So So then Letterman's got a spoof on him now, and I'm sure they do this all over the country. But I think this is based just purely on Chuck George. So they go and we have the late like weatherman and they go to him, and he's like, in a classroom with some kindergarten students or something. And they'll be talking and here we go. Oh, yeah. Dave, we're, we're cutting out this yellow paper and this construction paper and the stars and we're gluing it to the blue paper. And yeah, it looks really

cool, David, it's really nice. And take a look. Yeah, but what's the weather like? Well, I don't know. I've been in here all morning. And I haven't really got a chance to see this guy is based on shirt.

30:56

Oh, that's funny.

s Scott Lewis 30:58

Oh, it is very funny. It's very funny this year.

31:01

No. I get up at noon.

s Scott Lewis 31:05

Yeah, but you gotta leave the French Quarter. No, it closed back to the original closes early these days. Does it get ready cause permanent? Yeah, I think so. So yeah, you can always tell Jimmy's at the French Quarter, just get within a three block radius and just listen for a mountain. Okay. Oh, no.

31:24

I guess I just have to start going to the tubs again. A more again.

31:29

What are the other regulations and you're upset?

s Scott Lewis 31:31

And on that note? Well, I

31:32

don't know all the regulations because I've never played by

31:35

the rules. Upset about the regulations. Yeah, right now the city is going through a problem with the stadium being too close to a church. And

 Scott Lewis 31:44
so they moved the entrance.

 31:45
They changed the entrance. Right? Okay.

 31:47
If you remember a couple of years ago, they tried to increase or they did increase the distances from a beer establishment from a church. Now they're in the ballpark. Right. And it's a and they tried to do the sob ordinance the same way. They wanted to do not literal linear linear distance but a radius you have another beer girl and a radius reduced have another beer and then and here it is. They're doing the same thing. I mean, when they want to talk about distance in neighborhoods, it's one thing but when it's about their own little ball,

 32:21
well, you know, let's face it, the downtown money is gonna win. They're gonna have their way can you

 32:27
play dollars for Coca Cola? Coca Cola.

 32:31
Do you think you're gonna win?

 Scott Lewis 32:32
They pull out their downtown money they can have their way with me? Yeah, hey.

 32:38
Oh, yeah, well, you know,

s

Scott Lewis 32:40

just for a break. I'm exhausted. Jesus, Chris. Do you know what it's like to have rainbow de cloud over your shoulder?

o

32:50

When he bathed with an SOB license, so I know all about

s

Scott Lewis 32:54

it. Oh my God. Look at this picture. You see this picture her and this sob license? full makeup with her Little Caesar cut mistakes. They take my wig. Do you think they knew? Do you think they knew

o
