folks to contact their state of elected officials. In regards to a medical marijuana bill. Elliott Nash day has presented a bill that's a basically a criminal defense thing, in essence is not going to legalize marijuana, it's not going to necessarily, or at least not in the beginning, make it possible to prevent an arrest. But what it will do is offer people a chance to prove to a jury that they were using it under a doctor's supervision for legitimate medical condition. It's kind of an end run, but it's a beginning for the state of Texas. And I do want to urge folks to contact the members of the criminal jurisprudence committee, where this bill is now moving its way through this coming Tuesday. In fact, they should be making a decision. And I'll be providing more information on that on the cultural baggage show in the 420s, as well. And I guess the, the one thing that I really want to do is say that we have so many things in common. And so far as you're talking about people, people's hypocrisy, people ignoring the fact people just pointing elsewhere while they continue to do what they do. And it is time for folks to stand up in many regards to to help make these changes happen. And I'm kind of interested in your conversation. I'll let you all get back to it. You guys keep up the good work. I appreciate you caliente.

Chris Harrison 01:39

Thank you, Dean. Dean Becker is the host of cultural baggage and on Tuesdays at 6:30pm. And the drug truth, news of Fort Wayne news on the drug truth, drug news, truth network 420. In the afternoon. Monday through Saturday, I'm sorry, I keep losing my voice here. Sarah. Okay. Hold on, is

02:05

still in the

02:07

back, you guys. You know, I remember I, like I said, I kind of grew up in Alvin. And I was, this was long before, you know, I ever, you know, experimented with any mind or mood altering chemicals. And, you know, I was actually in science class. And the big thing to scare the little boys away from using marijuana was that if you use it enough, it'll make you grow breasts. And what? Really?

02:52

Yeah, exactly. And it wasn't too long after

Sarah DePalma 02:58

your Well, it's funny when you're transsexual how things hit you, because on the other side of the gender, I was standing in a target one day, and there's two women in front of me that have just watched the Geraldo Rivera show. And one of them is saying to the other one, do you think Hi, do you think those transsexual people really exist? You know, I couldn't keep my mouth shut, because I walked over, put my hand on the shoulder and said, Well, you've just met one. Just get wide open. You know, just to build do that felt so good. It's also one of the nice things about going to talk to some of the classes arise. Often, the guys think they're gonna be pretty macho bottom is always one that says, tell us what the surgery is. Right? And so I do in graphic color, color detail, and you look up there and they I bet their legs together. Their eyes are turning blue, and their story, they ask the question, and I sit there and I feel so much better. All right, well, let's go back here. So well. Okay, so now we're going to return to Mark's story. Oh, this is according to James Dobson. Folks, believe me, we could never be this I don't have any

04:12

storybook music or something. Actually, we

Sarah DePalma 04:15

do. We do have the we do have the SpongeBob. So with that, let's return to Mark's story to explore what is going on with him here in him and other boys who are experiencing pre homosexual urges homosexual okay. We also want to consider what causes their sexual identity disorder. Wait, wait, he never wants to set sexual orientation. Reason is you can't cure in orientation. The way you perceive yourself right? So you can't cure that. Therefore, it has to be something else. And what he chooses to call it is a sexual identity disorder. Yes, but earlier on Like a legitimate something you'd find in the psyche in the in the psychiatric manual, but it's not.

05:05

Well, didn't he just prior to this call it a gender identity all believe we're getting

S

Sarah DePalma 05:11

there. Yeah, we're getting there. To get those issues we turn to the very best resources for parents and teachers I have found. And then he PFLAG right. Oh, he plugs this book for this guy who it turns out was discredited out of his own psychiatric group. Oh, Doc, this Dr. So and so has permitted me to share some quotes from the manuscript of his new book manuscript, right. And here are some of these were his words. There are certain signs of pre homosexuality, which are easy to recognize. And the signs come early in a child's life. Most come under the heading get ready, okay, of cross gender behavior, cross gender be there are five markers to identify this disorder. That's

♂

05:56

because all gay men are effeminate.

S

Sarah DePalma 05:59

Well, there is no such thing as gender identity disorder. There is gender either as gender identity, their sexual orientation, but there is no gender identity disorder. It's a made up thing. It doesn't exist. I actually went to the American Psychiatric manual look, it doesn't exist the isn't anywhere. So how can this guy write this book? And say, these are the five markers for a made up disease?

♂

06:27

Oh, okay. Well, I would love to hear about the marker. And

S

Sarah DePalma 06:31

I'm thinking to myself, this guy, slick. His guy is making the devil sound like he's worth two for a penny. It's unbelievable. Okay, so here are the five things. Okay, if your child repeatedly states the desire, or the insistence that that she is the other sex. Now, you know what I told my parents when I was five years old. Prior to and you know what, it wasn't anything I had any control over? And I, I don't know what saying that you're being affected your feminine.

♂

07:05

I don't know what that yeah, I don't know. Well,

S

Sarah DePalma 07:07

what does that prove? In boys? If there's a preference for cross dressing, or simulating female attire in girls and insistence on wearing only stereotypical masculine clothing? So I guess if you're a lipstick lesbian, you're not on the

07:24

list, right? Where?

S Sarah DePalma 07:28

Then you're. And I read this and thought, what is what is he talking about? Yeah, and, and that the Okay, this is good. He's explaining to us what cross gender behavior is? Why didn't they ask a transgendered person we could have told them we could have saved in the price of the book. Yeah, I mean, in a tablet, it's a made up disorder, there is no such thing. If there is this strong and persistence preference for cross cross sexual roles and make believe play, or persistent fantasies of being the other set,

08:01

and he's saying that all these gender issues will lead someone to being gay.

S Sarah DePalma 08:08

Yeah. Now, now, okay. Okay. Now what this is, when you think about this, this is a very neat trick that he's pulled. Right? When we go when we go to the Congress, and we talk to them about sexual with sexual orientation, or gender identity, they wouldn't know what we're talking about, because Dobson is saying, Oh, no, that it's a totally different disorder. And it can be cured because it's a disorder not an orientation. It's

08:35

also using that logic that you know, an apple is round, a baseball is round. You can eat an apple and because a baseball is round, you can also eat Yeah,

S Sarah DePalma 08:47

yeah, it's circular logic. And he's using made up phrases that are for for disorders that don't exist, that he's telling you markers a how to tell this make up the rise this mean, and I'm thinking okay, if there's an intense desire to participate in stereotypical games, and pastimes of the other sex, so I guess if you're a florist you're you're headed to hell for sure. That's right. You know, and if you're a makeup artist and Hollywood, they're gonna stoke the fires, you know? And I Okay, fine. And finally, he says the onset of most cross gender behavior occurs during the preschool years between the ages of two and four. It two years old, I didn't know I had toes, or Hi, I watch cross gender behavior. Was I distributing it to you for? I don't think so. You need to worry about occasional cross dressing. So transvestites are off the hook? Oh, yeah, you're off the hook. You should become concerned though, when your little boy continues to do so and at the same time, begins to acquire some of these alarming habits. For example, he may start

using his mother's makeup cause he may avoid other boys in the neighborhood and their rough and tumble activities, and prefer being with his sisters instead, who play with dolls and doll houses. Now, let me tell you something. My partner Laurie has two sisters. One is a doctor, and one just came home from Iraq was a colonel, Colonel the military, when they were kids, if they want to dump trucks, the parents gave them dump trucks. If they want to dress as the mother gave them the dresses, and they didn't attach any gender meaning to it at all. It was just a toy. That's all and you know what? That turned out just fine.

10:33

No, no, they're not barefoot and pregnant. Yeah, you

S Sarah DePalma 10:37

know, and they're not suffering from made up disorder. You know? What I mean? It's nonsense. And what are you saying with all this? If you have these things, then you're a gay man. Right? Which is really confusing. I thought we're talking about gender. Well, now that's what we're talking about. It didn't exist Okay. Later he may start speaking in a high pitched voice. He may affect the exaggerated gestures and even the walk of a girl or become fascinated belong here. Apparently the only gay people this guy knows his drag queens I know an awful lot

11:19

and all 800 of them write

S Sarah DePalma 11:26

C and C or become fascinated long hair earrings and scarves to one study. I love this. In one study of 60 effeminate boys aged four to 11 98% of them engaged in cross dressing. And 83% said they wish they had born been born a girl. Mr. Jobs, I hate to tell you this, but those are probably transgendered people. Bry almost certainly there's a transgender view and you wouldn't know a transgender person if they kiss your butt. It's in fact, there is a high correlation between female behavior and boyhood and adult homosexuality.

12:06

Really,

S Sarah DePalma 12:07

so apparently, the only homosexual he knows is on wheeling grace. That's and his name is Jack.

12:14

12:14

That's right. That's right. The other one

S Sarah DePalma 12:16

the other one can't be homosexual because he acts straight and he's a lawyer or a lawyer and you're in you act straight and you look straight, then you must be straight. I want to introduce him some my Leatherman. Yeah, they look great. They act straight, except that they could really flog his butt. But good.

C Chris Harrison 12:37

Sarah, one quick question. You keep saying gender identity disorders not is not in the APA. It's not in DMS for

S Sarah DePalma 12:45

No, now there's there's gender there, too. There's sexual orientation. But there's no such thing as gender identity disorder. What he's done is he's taken several words from legitimate from legitimate disorders and turn them into one

C Chris Harrison 13:02

because I'm looking at the closest thing I can find a list of the DMS for online here gender dysphoria is from psych net, dot Psych. Net UK on Comm and they have a listing for two different types of of gender identity disorder as how it's listed at section

S Sarah DePalma 13:21

is this. What's the guy's name is Robert Stoller, Robert, Robert J. Stoller of what Robert J. Stoller was, was the guy who coined this phrase, of gender identity disorder that they keep quoting. And when you look it up on the it turns out this guy was discredited by his own organization,

13:37

when we say yeah, there's

13:40

GID

S

Sarah DePalma 13:41

dysphoria, there's gender dysphoria, there's gender identity dysphoria, but that's something different.

O

13:46

Yeah. And he's doing is taking these terms and just kind of squishing them all together and coming up with his own thing.

C

Chris Harrison 13:54

It doesn't say if it being written by specific person, it looks like you're saying it's from the DMS 430 2.2 and three Oh, point.

S

Sarah DePalma 14:03

I don't know, I know I in 2.6. I went to the DSM four and look and there's no and I didn't find any such thing. And if you can, you can look up Robert J. Stoller. I think you'll find them too. And he had a very interesting history. But a lot of his work ended up being discredited. His argument was the transsexual caused by fathers who kept their distance too far. And, and in fact, and part of this in one of these pieces here. He actually goes through and blames fathers for transsexuals, which, which is kind of strange to me. Let's see. He says boys in deep seated in disturbing feelings and they are different and somehow inferior. And parents missed the warning signs and wait too long to seek help for their children. One reason for this is they are not being told the truth about their children's gender confusion, and they have no idea what to do about it. If they're not being told the truth. What have they been told? I just it just struck me I wonder what they were. Perhaps your concern about your child and his or her sexual development way. Gender, I thought we're talking about gender. How did we end up with sexual development? Maybe your son or daughter is saying things like, I must be gay. Or I'm bisexual. You found same sex porn in the room or evidence that he has accessed it on the internet. You found intimate journal entries were about another girl in her diary. And the most important message I can offer to you is that there's no such thing as a gay child. Or a gay teen. Excuse me, but left untreated studies show these boys have a 75% chance of becoming homosexual 75 How do I know that? 70

O

15:41

Not 7475 75

S

Sarah DePalma 15:46

i Okay, I want to read that again. And we'll make sure I got this right. There is no such thing as a gay child. Or gay teen. What the hell is hatch then? The people in hatch as far as I know, those are gay teenagers aren't?

15:58

No, they're pre gay.

S Sarah DePalma 16:05

They're pre homosexual. That's right. I missed that. The point is all is what a tangled mess this guy.

16:11

I mean, obviously, he's taking all sorts of little bits of little bitty pieces of truth from all this other all over the place and squishing it all together.

S Sarah DePalma 16:23

Make no mistake, a boy can be sensitive kinds social, social, artistic, gentle and be heterosexual. As long as he is roughhousing he can be an artist, an actor, a dancer, a cook, a musician and heterosexual. These innate artistic skills aren't quote, who he is part of the wonderful range of human abilities, and there's no reason to discourage them. But they can be developed within the context of normal heterosexual manhood. In my opinion, the father plays the essential role in a boy's normal development as a man can

16:57

I just stop you there? Because it seems like he just spent like, several paragraphs saying that those things they just said weren't normal. or abnormal. And and they cause being

S Sarah DePalma 17:14

unless somebody calls you gay, fag. Normal guy, gotcha.

17:19

Okay.

S Sarah DePalma 17:20

I don't know. It strikes me. I mean, the whole thing started is cockeyed. As far as I'm concerned. He says the truth is dad is more important than mom. Mothers make boys fathers make men. I hear say feminist all over America, jumping out of windows. And looking for next to chuck. What an idiotic thing to say. Oh my god. It see here and in psychoanalytic in language

mother is the first love object. And she meets all her her child's primary needs. Girls can grow up to grow in the identification of their mothers. On the other hand, a boy has an additional developmental task to identify from dis identify from their mother and identify with his father. So apparently, if you were a single family, child parent. You have no chance of him normal kids. Right? Right. Yeah, you have no chance. Yeah. And then he quotes Robert Stoller who says the business is being a man is don't be a woman. Can you be any more insulting? I mean, I mean, really? Could you really be a lot more insulting than a comment like that? i Okay, fine. Meanwhile, the fathers the father has to do his part. He needs to mirror and affirm his son's maleness. Here we go with the roughhousing again. He can play rough and tumble games with his son. Why does this boy have to be rough and tumble?

18:49

You know, why wasn't there there was a movie RuPaul made with Tammy Faye bag came? Yeah, this sounds it would make a good pair. Yeah, actually it was. But I'm a Cheerleader.

c Chris Harrison 19:06

I think that was Catherine Catherine Hicks. It wasn't Tammy Faye she wasn't in that No. But it route Paul was RuPaul was in it plant mail.

19:16

And my God. You know this sounds like something straight out of that movie.

c Chris Harrison 19:21

Well, yeah, that was about reparative therapy and going to go into a train me into a camp, basically to undo your homosexuality,

s Sarah DePalma 19:34

right. Meanwhile, the boy's father has to do his part. He needs to mirror and affirm his son's maleness. He can play rough and tumble games with his son in ways that are decidedly different from games he would play with a little girl that on NASA that's why because if you play rough and tumble it differentiates you from girl girls. That's right. So if you're a tomboy, boy, are you in trouble? Apparently, you're headed to be a pre K note if you're a lipstick lesbian, you'll be pretty homosexual. He can help his son learn I'll hear to two thirds of throw and catch a ball. And he can teach him to pound a square wooden peg into a square hole. And he can even little of this

20:15

pound a square peg round. Okay? Yeah. All right,

S

Sarah DePalma 20:19

right you can even take his son with him into the shower, where the boys notice that dad has a penis all just like his only bigger something.

O

20:31

Blocks and holes and showering with children

C

Chris Harrison 20:38

know why there's shades Michael Jackson

O

20:46

our with kids that make

C

Chris Harrison 20:48

under their philosophy, you know it when you start hearing about, you know, men roughhouse and, you know, hammering square pegs into round holes. You know, it sounds like they're setting up these boys for rape. And for domestic abuse, you know, really to be a real man, you need to be violent. Now.

S

Sarah DePalma 21:06

Well, the thing that this is, the thing it seems to me is these are kids who are going to show up calling the suicide hotline, because there'll be so screwed up, they're not going to know which end is up. And these are exactly the people that we find is transgenders people coming to me to meetings and saying, If you don't find an answer for me, I'm gonna kill myself, right. And many of them do attempt it. I mean, it's really scary. If a father wants his son to grow up straight, he has to break the Mother Son connection that is proper to infancy, but not in the boy's interest after the age of three. And this way, the father has to be a model, demonstrating it is possible for his son to maintain a loving relationship with a woman his mother, while maintaining his own independence. In this way, that father is a healthy buffer between mother and son. So who is he blaming for this? He's is he blaming mothers because they don't let go of their kids? Or is he blaming the kids because they don't they're not smart enough to let go of the mothers. I mean, I'm I'm listening.

O

22:05

I mean, by the logic is so full of holes, obviously, he's preaching to the choir here,

c

Chris Harrison 22:11

but part of the philosophy of you know, the love of love went out in the reparative therapy. Is that the genesis of what homeless the homosexual lifestyle comes from usually an absentee father for gay men and you know, this over this domineering mother, that's that is the genesis of it. That's what they were the always good portion of the

o

22:33

so an inherent without with a feminist mother causes gay children.

c

Chris Harrison 22:43

Well, you know, the I've looked at the fact that I think it's rapid, I think is rabid Republican ism. You know, Sonny Bono's daughter, Newt Gingrich's sister? My father I think, you know, Sonny Bono

s

Sarah DePalma 22:59

clearly is responsible for

c

Chris Harrison 23:02

kind of in the parade of gay men following share around blame, you know, but no, I mean, that was part if I wouldn't start with doing this topic. I would have brought the workbooks from love one out.

o

23:13

How did you get that?

c

Chris Harrison 23:15

I covered it as a reporter. Oh, my God, Scott. Scott was there as an infiltrator. So I got to I actually interviewed one of the speakers from the event. Melissa Frey rear waves. Okay. Yep. Former lesbian Melissa Frey rear. I've reviewed a guy from exes international guy from Focus on the Family.

s

Sarah DePalma 23:44

And you came back here and you're still saying

C

Chris Harrison 23:47

what I? Well, my philosophy, the way I went in there is, you know, I don't want to hear the sound bites. We I think we hear a lot of sound bites back and forth on a lot of these issues. So I asked them a question, gave them the mic, put the microphone in there and said, Tell me and when we played the clips on the air, I didn't edit it. You know, what exactly is focused on the family? Well, here is exactly what it says. You know, when I asked Melissa Freiburg, do you think you can change? Is homosexuality a choice? She said no.

S

Sarah DePalma 24:18

Well, James Dobson just said it was not a choice either. Yeah, yeah. But the reason he said he said it was not a choice is because it can be if it's a, if they choose it, you can't cure it. You know, so it can't possibly be a choice.

C

Chris Harrison 24:31

We'll see. I was hoping for them to say it was a choice because then my next question is, okay, so choices shouldn't be protected. And she go Yeah, I said, Well, isn't being born again a choice. But why is that protected? But because she wouldn't because she said you know, it's not a choice. I couldn't go there it's like Asterix FJ that say, well, there goes that page a question. I was, I

Ω

24:55

was fed to me the whole thing was you said, you know, we want your side of it. And we're going to present it in a respectful way. And what I got out of it after listening to it is that these people are crazy. And they came across to me that way, because they had such misconceptions.

S

Sarah DePalma 25:14

Look, Jimmy, listen to this. This is the last paragraph. But in here, he says, Here's what it comes down to. The bottom line is that homosexuality is not about sex. It's about everything else. And he says, This includes loneliness, rejection, affirmation, intimacy, identity, relationships, parenting, self hatred, gender confusion, and a search for longing. He says, This explains why the homosexual experience is so intense, and why there's such anger expressed against those who are perceived as disrespecting gays or lesbians, or making the experience more painful. I suppose we, if we who are straight, had walked in the shoes of the other world, we would be angry to.

Ω

25:56

We're not angry, I'm not angry.

S

Sarah DePalma 25:58

I'm pretty happy the way I am back

♂

26:01

there, it sounds like it could be from the heterosexual community to the longing. Well, I found out that

♂

26:08

well, no, I mean, he, the way he sets it up is, you know, the conclusion you he he wants you to draw for yourself is that if you're going to be homosexual, you're going to be all these things, you're going to experience all these negative things. And however, if you're heterosexual experience

S

Sarah DePalma 26:30

exhibits very expensive because people like him and making you like pure hell. I mean, really, isn't that the bottom line? You're gonna experience loneliness and all this crap, because this guy is persecuting you constantly?

♂

26:43

Yes, and if there is that in our community, it's because we have been raised to think that way.

S

Sarah DePalma 26:50

He at the end of this last paragraph, he tells people that they should if they discovered that period, there's their child is effeminate, that they should seek out professional help. But not a psychiatrist who's identified with the American Psychiatric Association. Oh, not a professional. No, well, no, they will. Because the APA says this is all a bunch of crap, that that there's nothing wrong with being gay. So he wants you to get a professional but a professional who agrees with their point of view, oh, now we're going to find this person and maybe in Utah.

♂

27:22

What happens if you have a son that's not effeminate? Who plays football? Who plays baseball?

♂

27:28

That doesn't exist? And it's clearly

s

Sarah DePalma 27:33

you and I go to Dr. Cole's good doctor calls time, what I want one of the afternoons we were there, he asked how many people had actually been in the military. And nearly all of them had been in the military. Yeah, the reason that they had gone in was to prove to themselves that they were masculine. Right. And what they ended up proving to themselves was I gotta get through the hell out of the army. And there were several who had decorated combat soldiers and absolutely, but, but And so going off to war and getting yourself shot at didn't kill you. Why would any of this crap that he's suggesting, how would it conceivably help? Well, I've,

o

28:13

you know, we both know it's not, it's just going to add more shame and more guilt right to someone who's already struggling. And like I said, I'm sure that this is just preaching to the choir, and I am not surprised to find that it has a link to donate.

s

Sarah DePalma 28:31

But it's not preaching to the choir. This is the most powerful man and the right wing today. And Jerry Falwell, and he has the ear of President Bush, and is credited with getting bush to come up with the amendment to ban gay marriage. The guy is not spoiled. That was the point that I wanted to make sure people understood. We're had a good time with this guy. But he's a dangerous man. Yes, he's a very dangerous man. And one of the ways we've talked about how he phrased things that sounded reasonable, or utterly absurd. That's the danger. That's the danger of a guy like this. He sounds reasonable. When you see him on Larry King, he seems like he I've heard him say, well, we love homosexuals. I can't take any more of this kind of love, you know? Exactly. And that's what worries me about about this guy. When people read this webpage, they're gonna come away and say, well, he seemed like a reasonable guy. Maybe he knows what he's talking about, when in fact, the guy has been full of crap for years. Then the second for the second paragraph on we've had a good time at this guy's expense, but only because we looked at it two or three times to get it right and because we had a background that would pick up on it, the vast majority of people aren't going to pick up on that he's going to look reasonable he's going to act seem like he's someone who knows what he's doing. That's the person I fear the most I don't worry about the Nazi out in the bias in the box shooting you know yelling at me. I worry about the person that sounds reasonable on television that wants to do harm to me

c

Chris Harrison 29:56

and let you know you're listening to after hours queer radio with attitude here on listener spot. Answer commercial free Pacifica radio for the Gulf Coast KPFT 90.1 FM 89.5 Galveston and always on the worldwide web at KPFT dot o RG. We got a listener who called in here, Danny. He is enjoying the show. It's very informative. He's usually not up this late.

 Sarah DePalma 30:15

Well, I'm glad we're glad you're here. You stayed up tonight listener

 Chris Harrison 30:18

sponsored and volunteer here. He wants to know where the about the art where the article came from?

 Sarah DePalma 30:24

It is let me see if I can quote it here. http, colon, backslash backslash, www family.org. Make it easy. Go to your go to your pointer, go go to focus on the family. And was somewhere in the right hand side of the screen? I think it is. There's a section on the call hot topics. And you click on homosexuality. And that's where all of these articles are.

 30:50

So it's right from the Focus on the Family. Yep. So yeah,

 Sarah DePalma 30:53

I actually printed it off. I printed it right off of their website and brought it with me today. But that's where you can find it. And that's, that's what I'm saying. What worries me about him is he seems to be unlike Jerry Falwell, who you can dismiss as being a kook, right there. Or you know, other people who are saying, well, we we stopped hurricanes to our faith, right? Dobson sounds very reasonable. And he sounds educated. And he sounds like he's talking about real diseases. With real psychologist, he doesn't point out that these people got kicked out of their own associations for some of what they've said, right? He hasn't pointed out that the American Psychiatric Association thinks that guy is a kook. He he's got his own way of presenting it. That's very slick. And that's what worries me about them. I were much more afraid of guys like this, but it's the name of any right wing radical

 31:41

circular logic, though he talks about you're gonna have of life of shame and guilt. And, and my my take on it is that we have been raised by heterosexuals who have instilled in us that so it takes years to shrug that off, to say, to be able to look in the mirror and say, I am not ashamed. I am, I am a perfectly formed human, and I deserve love and respect. And I'm gonna have it,

 Sarah DePalma 32:13

you know, and I wasn't an effeminate boy at all. I was the captain of a tennis team. I was the captain of my baseball team. I was on our swim team. I did a lot. I had my own radio show

when I was 14 years old, for heaven's sakes. So you know, I grew up in I grew up in the 60s in a very quickly, but I didn't grow up at a feminine at all, but I'm certainly transsexual,

32:34

and that's, that's the thing. He's quitting effeminate boys with homosexuality, but there are a lot of boys who aren't effeminate and who are homosexual.

S Sarah DePalma 32:43

I would say the vast majority probably there you go.

32:45

I mean, this is that kind of South American logic of have only effeminate men are homosexuals, and the guys who are the inserters, no matter who they insert are great, are stark straight.

S Sarah DePalma 33:00

Well, you know, what it is to Jimmy is that he only sees the Dale carpenters of the world. Yeah, he's seeing straight guys who act straight and seem straight. So he never sees them. He's only seeing two extremes. Great. He's seeing, you know, drag queens on one hand, I guess. Or I don't think he's even mad at all other people. As he doesn't Yeah, it doesn't. Well, he made 800 homosexuals. One of them was my own.

33:22

No, no. All of them they are all feminist,

C Chris Harrison 33:28

or effeminate, man. Yeah. Well, Reverend Dobson on behalf of those who use the ripcord as a bar we invite you to come and join us at the ripcord and we'll be glad to show you the cross and the way it can be used in a different way.

S Sarah DePalma 33:40

Pretty good with the flogger, I can really hit my target. It was just pointed out to me that a lot of his Dobson's past work you can find in 1000s of church libraries. Really? Yeah. You know

33:52

what this is Paul, really dangerous is his early works is the only thing that I've seen on the market in 50 years that actually resembles a real child. And that was before he got into this.

 S Sarah DePalma 34:06

Yeah. Yeah. Dobson is a hit this guy is is he's a snake oil salesman is what he is. And what in for people who don't have a background in gay gay issues. They're gonna read this and think that sounds very reasonable.

 34:19

Sure, especially if you're a concerned parent,

 34:22

and you don't know anything about sexuality. That's right.

 S Sarah DePalma 34:26

Yeah. And it's, you know, James Dobson is he's got the ear of George Bush. So this makes it makes him a dangerous guy. And I just occurred to me that when I saw the billboards in Galveston, it occurs to me that we've talked about the James Dobson or Exodus like, we know what it is that they believe, but we never really have talked about what is it? What is it they they what are they saying, really, when they say they can cure homosexuality? What does that mean? That means that you're going to be abstinent. Well, you know, it wasn't that long ago that you shock therapy to cure. Yep, well, that's true. And if Actually, I think in Utah, they were still doing it until recently. So, you know, yeah, we still have a long way to go. So for all you folks out there who think, hey, gay people have got it easy, pretty much and we're on the downhill slope and our rights are right around the corner, I invite you to go read Dobson. And remember that this guy sits at the right hand ear of the President of the United States. And then ask yourself, just how dangerous is this guy? Here? If you really think we got an easy time of it, you ain't been steady enough. So, wow, well, okay, that's all I had. Okay. But I just had after watching this stuff on Galveston. Well, we saw several of the, of the billboards, and I couldn't get over it. Because again, they look so reasonable. And you think, why would anyone object to this? You know, and what I think we happens a lot in the gay and transgender community, is people are told by their leaders who is the enemy, right? But But if he asked them, well, why are they the enemy? They don't know. They don't want I don't think we as leaders talk enough about the real guts of what it is, what is it we're opposing? Why is it we have to stand up and be out sometimes and fight as a result? Because if you're silent with a guy like Dobson around, he's going to put you down, he's going to tell you right down the river, right? You This is a guy you can't you have to be out with. You can't use it. There's no other way to deal with them. And even then, I'm not sure there's any way to deal with a guy like this. This is the kind of guy that sells your life insurance as you're heading for a car wreck. Okay, I've had my fun. Laurie awaits. Yeah, she does. And I promised her that I would be a good girl and get home on time.

36:38

Yeah. So now I also want to add, go ahead. And if you get a chance, go to www dot trans houston.com. And you can always reach me via email through that website. There's actually in Houston right now, a number of programs that are very helpful to someone who is in transition. It just depends on a number of things. In your background, there's housing, there's food, help with food, there's help with rent, there's help with clothing. And you can find all that information at trans houston.com Great,

S Sarah DePalma 37:20

It was just we got to talk to this person. Well, when you call talking about this person, this person is not here. It's endless. It's just basically

42:21

they gave you the they gave you the runaround get

42:22

42:25

and it has what career you are going for computer computer, computer, computer, digital image and digital now

42:34

and what that's what I'm doing now, but it's you know, get small companies so you know, they ~~basically ain't doing all the riffraff that a normal a normal company would do. And it was like~~

basically didn't do any of the things that a normal a normal company would do. And it was like, Okay, you do your work. You do a good we like it. So we don't even care what happened back then. Because we want to we want to know what you're gonna do now. We like what you do. That long as you keep up what you're doing when it's fine. We cool with

42:56

it. That's a respected that's a respectable employer. If that would ever make

43:00

us a small company. I think maybe 15 people and

43:05

you pulled up in a nice ride now. That dance is yours. Okay, it's yours. That pays for that you had a lot of hell. Yeah, I got a lot of where does the bags where did the meals come from? Chrome Shine. Yeah.

43:44

I first got out. I was on a high that first day. When I came to sail. You ain't up oh, I'm ready to go. I was on a high the whole day. I got to the house, took a shower. hopped in my car and left. I went at the house. 20 minutes 15 at the top just to get in get my family something to wear. put some clothes on shower lotion now. Brush my teeth hit the dough and I was gone. What do you do? I went to Mom was what the dads you know, just you know, immediate family. That's exactly what immediate family was first. And then the next day we got my hair cut. Went to church that night because that was New Year's. And Saturday was the next day. So it was basically this Hangout day.

44:29

Oh, you got out Friday to Yeah,

44:31

I started I No, no, no, no, I got out Thursday. Oh, which was the next day was Friday, which was New Year's Eve. New Year's Eve. Yeah. New Year's Eve cuz Saturday was New Year's Day. So it was just like, complete. Did you get tipsy? Oh, yes.

44:51

Did you do family with New Year's? Yeah. Oh. What did you tell him in and kind of the stories of what was going on in there anything that

44:59

my family was Like, you did that, we're gonna leave that there. You know, it was like just totally ignoring it you know you made it home safely. That's that you know you did that you did your fall flat leave that there and that was basically it. You know me and my sometimes my brothers we were talking about how ease you know this how preside because you know I got some partners as long lock and I'm like, Oh man, I'm soups. Don't go on lockdown. I'm soups. Johnny's Johnny's you won't get a peanut butter biscuit,

45:34

a pancake with peanut butter. They run out of breath and

45:37

it's just and it was like, it's like that reason I'm like, man you get hauled out on lockdown.

45:44

And I you know I made I made a comment I did an hour last week with Jimmy Carter and in fact a lot of people wrote in about that our slave I got your letter the sex in prison there's Oh, oh you know I haven't told him about AC coming up too much. Right there on zero Eli

46:07

46:10

Oh, and he and in his little eggs came on a line right before he went on to the red and blue red

head. You know about me and redheads. In fact, there's one walk in the streets right now.

46:23

But um, yeah, so it's a whole lot just a whole lot you got for us. You know you got a mate but Ballston inmate relation that's not gonna stop No, not ma six not come stop. They can't stop that.

46:39

What's the most prisons now are in California and another state I think Arizona are actually passing out condoms.

46:45

Texas needs to Oh yeah, definitely. Texas needs to they need to beat Texas needs to come with the time they sold Flintstone

46:53

wood I don't what I don't like about the fact is they sit here and claim that they're so insufficient on funds but yeah, I know right? Oh

47:03

yeah. He goes to the units and

47:07

they're well fed there Yeah, it's it's it's all forest Yeah,

47:11

you got all the cows out in the field but it makes it not eaten it

47:14

no no no we don't eat We don't eat that chicken we may study we don't we don't eat that garden we're out there whole squad

47:21

yeah we you know they eat the garden because it sounds slop

47:25

No, they we get the love we get the we get the trash yeah the basically the good stuff goes to the market

47:32

and really the offices they get what the whatever Excel you know they get a half decent meal.

47:41

I never had sex was actually one other was this one boss man, but that was I knew him before I knew him from over here. Did you ever have any sex with any officers in there? Was there

47:51

was nothing there? No officer

47:56

I'm trying to I'm trying to think of which officer there was no and you actually when we were there there was no no offices for that. Was that Scott Thompson? Is that Miss Thompson? There was Miss Thompson

48:06

Oh yes, she

48:07

was okay. And then there was more with his little flip flopping and

48:11

then you know you had a couple of you was lying. But then you know someone put up their front like oh you punked you doubt about it? I'm like yeah, okay. What's your phone number? What's your way okay? If I see you in Crockett because that's around the corner because that's basically why i love them i from you know, you seem to be like okay, what's okay, we'll hook up

that. But wait a minute. Six months ago, I was at pa meet you kicking the straw man used to be the same bed together. You know, we real tight tighter than you know we we more than homeboy, you know right? And it's you know, they just put their front and I'm like whatever. Williams Oh, yeah, Williams got a guy got Williams got a guy got an older one. Remember the one you clown?

♂ 49:02

♂ 49:49

Oh, yeah. That's right. I was next door. Do you wanna? Yeah, Curtis?

♂ 49:54

Well, why don't you Okay, why don't you get roll right before I left. You gotta roll like a month before God left for a couple of weeks. Oh,

50:01

because of what I did to talk about, what was his Thomas? The one I asked about the black pride in Galveston. What is that the setup is? Yes, but I asked him hey, do you know

50:11

about splash coming up to? Oh, it is yeah, first weekend in May

50:15

and you know what Miss? Oh, what's that? Right? Yes No that that girl laundry laundry the witch woman Miss not miss dove but the laundry Miss Davis is Miss Davis why she wants to know where her pictures she's where's my pictures that

50:31

she has? I haven't been what I went last year. But I'm gonna go to the beach. It was like from here to a much Rockies you couldn't get on the beach. And then if you walked down he was like,

50:42

I do remember like daycare. I do remember because it was it was all youngsters what you wrote me and told me about what

50:47

nothing but kids I'm like gangster want to be kid or just not gangster want to be kids this fags and training. My artist, just young kids like 1516 dressed up just drag makeup, hair, wigs, makeup eyelashes,

51:03

all wrong for the sun.

51:04

I'm like, You're 16 years old. And you dress up in women's clothes and I already Cloner

51:12

it starts out sound on it. As as to as as we advance more, we sit there and say that it's an early age.

51:22

But I guess it would be for me. Women's calling is not for me. Right? I guess that's just that's just the individual but 16 I'm like,

51:32

is that too young for you to sit there and explore your own sexuality?

51:35

Not only to you, alright, and I can't I don't see I'm not knocking

51:40

my flavor. Yeah, you know if I get into it, but if you

51:45

like it, I love it. So we're going to splash then. Yeah, well, we're supposed to go is supposed to be a lot of

51:52

stuff popping this year. But who knows? You know? Everybody's all talk right now. But you I gotta wait to see when first of May hits. I was doing what Yes, of course we're gonna make

Chris Harrison 52:04

Houston Splash is going to be May 4 through the ninth 2005 it you can find more information on the web at Houston. splash.com.

52:16

Is it sponsor? Is it sponsoring anybody this this year is? Is there any kind of sponsors for slash? Well,

52:20

that's the that's black gay pride here in Houston. Right?

52:24

Exactly. Because last year was at East Beach. It doesn't say in

52:27

the release that I got. They just if you go to the webpage, they'll give you all more information. Well, I'm

52:34

sure we're gonna get more information. In fact, I'll make a note of it and look it up and see see, what more do you stay? Do you stay in touch with anybody still on the units? No,

52:44

not really. Because they got a lot of time. A short time was?

52:51

Well, I tried to stay in touch with everybody that that has written me. I try. It's not easy.

52:58

I stay in touch with Mason. But Mason got 25 You know, he only done like, what? Three, four? year four? Maybe five or five of it?

53:07

Does he have your address? Yeah, yeah. You know, he's gonna write you know, yeah. Yeah, we are rewriting. You're gonna be getting a whole lot of letters and guides and everything. Like,

53:16

yeah, yeah, gotcha on a blast. I'm like, whatever. But uh, I like Mason, and another partner. But I mean, basically, Mason's all the one I really, really really keep contact with.

53:31

I hadn't seen Mason in a couple years. Yeah, he went on the Trotsky camp. So what what plans have you set for yourself anything working in the future here since we're interviewing some quarry here from three weeks to get you here?

53:46

Really just really trying to just stay focus is trying to stay out of the hands of the state? Because that ain't for me. Not for me at all. And just religious Trina?

53:58

Yeah, have you been have you been up and around the Montrose Westheimer in Pacific all back in Hyde Park

54:04

used to hang up a Cabos up here until they close down. Okay.

54:07

But have you seen all these hustlers walking the streets? Yeah. Have you recognized any of them? I've seen a couple.

54:13

No, I just you know, how you you say I'm not trying to hit him. I've been talking to every single one of them because you know, they just step out in front of you like my big old truck is just a go kart. I'm like, I got a lot of weight behind me. You walking out in front of me like that. It's just

Chris Harrison 54:32

Well, one thing you also need to be worried about smile if you go talking to them. It is actually against the law in the city of Houston to talk to a known slur. Are you kidding? No,

54:41

I did not know when did that enact?

c

Chris Harrison 54:44

Probably about seven or eight months ago. Oh really? If a police officer sees you talking to someone who is unknown Hustler, I'm just as guilty. You can be popped for it. Oh, well,

o

54:56

that changes a whole lot of so you Oh, I've picked up this cute little redhead I'm talking about. Yeah, I have a fetish for redheads as Cory It's gonna that's gonna be so hard.

o

55:11

Oh, make sure my Windows logon.

c

Chris Harrison 55:13

Oh, no, no, it's just another use that they have for trying to turn the hustle router.

o

55:21

I can't understand why do you think they're out there hustling core? Do you have any? Is that to? Do you need a moment to reflect on that? I don't like it. I mean, I understand it. I can understand the need for it. They they're trying to feed themselves or support their habit.

o

55:33

Oh, well, I understand it. Yeah. I mean, it's like, go to a shelter.

o

55:37

It won't get a job. There's construction. There's, there's plenty of opportunities down there. It's just, I guess it's easy for him.

o

55:46

It's a fast, just like selling dope fast money.

o

55:49

And what's sad is it's just it's not helping the Age community. It's not helping hepatitis, syphilis, gonorrhea STD. It doesn't look good on the outside area. And I don't know I would I would be interested. How would you want to sit there? Would you want to be part of something to try to

help? I don't know. Kind of make a club sit there. Do. You see. Chris over there is? Well used to be what is the director of the X

c

Chris Harrison 56:16

q patrol, but sure, Chairman of Q patrol,

o

56:19

I really want to bring back coop patrol. Now I got I got this one right here who will help me? Like what does that Q patrol is a group of volunteers that walk around the neighborhood and ensure safety there was safety to avoid what gay bashings crimes burglaries mainly gay bashing is mainly mainly just to have a known presence keep patrolling the Montrose area needs cute patrol that really cuz it's bad and I didn't you know, it's it's it's ridiculous. And I'm talking that street is thick. It's like Collins Avenue in Miami.

o

56:54

It's thick, it's pathetic.

o

56:57

And part of my part of I mean, I don't know what was going on this kick just sitting here trying to reform prison prison laws in prison. What a what word I'm looking for stereotypes. One of the one of the one of the one of the avenues is to stop these hustlers. Now I? Oh, yeah, everything that we do in here can be heard you. You can hear everything. Microphones, pick up everything. So if you fart girl,

o

57:22

a guy they picked it up.

o

57:26

But yeah, there's a there's a whole bunch of opportunities. Actually, we you know, you have to excuse us people. We were just thrown in the studio here because the global segment seems to be absent.

o

57:37

Well, no, you got thrown in there because I'm interested in what you two have to say to each other.

57:42

Yeah. Well. You been on

57:45

for those who don't know, when do we run across each other? 2001. Two?

57:52

Was it 2002?

57:55

April, May.

57:57

It was six months. That was six months or nine months. Nine months. It

57:59

was it was a minute. It was a nice it was

58:01

it was ran Elon anyway. Yeah. Basically.

58:04

Because we had we had the paper we had the conversation. I mean, it was like everybody was trying to get the three row now stayed on.

58:16

Jared little Jared Leto crash offer.

58:18

Oh, I wish I could run over him right now because I had the vehicle for a big Hallmark

OH, I WISH I COULD RUN OVER THEM RIGHT NOW BECAUSE I HAD THE VEHICLE FOR A BIG HAILILILIK.

58:27

58:57

Sure did a lot of it. You had a lot to talk about. And we'll be getting letters yesterday. And you will

59:05

be answering someone

59:09

59:13

Because Saturday what they'll tell you? Oh, they'll tell you. Okay, they will quote you word for word.

59:18

59:50

Chris Harrison 59:52

All right. Well, thank you all and I guess we're also having other old voices. We sure are. And so we're going to do Here's a little PSA in your ear. And then last.

C

Chris Harrison 1:00:45

Of course that was Johnny dangerous with not your average. Of course the clean radio edit. Your mic is on?

♂

1:00:55

Does that. Is that the CD that has a nice picture of him on the back? Yeah, crack kills. And there's a lot of crack there. Yeah. So well, we get a treat and you wish I'm talking about the audience is getting a treat because they're going to hear a voice they haven't heard in a long time. Elijah is back

♂

1:01:18

Grilli. How you doing? Good. How are so great,

♂

1:01:22

great, great. Last time, you were here you were what were you doing clip promotions? That's right. Yes. With riches. Specifically, and you were booking some really nice entertainment over there to a very small crowd. And I didn't know you left, and they went out of business. So I don't know if one follows together. But well,

♂

1:01:54

I left. Now do insurance.

♂

1:01:56

Yeah. What is that? All of a sudden, you've been gone a year and you come back over a year, Jim? Yeah. Well, you come back in and you're all settled, and you're, you know, Sedona quiet and yeah. And actually

♂

1:02:13

saw those sedatives, okay.

♂

1:02:18

And you're working for you're doing doing insurance. And that is a subject that we haven't talked about a lot. But I think a lot of GLBT people are kind of intimidated by it, because we have to deal with mostly the street community. And we're, we kind of feel we're at their whim. But you have your work in a different type of agency. Correct.

1:02:47

We deal primarily with the Gay, gay community. And your ads

1:02:51

are in all over and TW tweet, TW TX T.

1:02:55

Voice

1:02:57

See, I can't I can't I keep wanting to say twit. It was all those years when twit was still in operation TX t, which is the old triangle and the voice and out smart. And there's your picture bigger in life? Does that good? thing? That's a very good thing, because I think it's important that that folks know that there's an agency that they can go to that.

1:03:27

Will the Smartlist issuance agencies have been around for 15 years, same location. So it's a Farmers Insurance Agency, so

1:03:36

Oh, really? I did not know that. Okay. That's good to know. And you cover what all kinds of

1:03:45

auto home life business, you name it, we can share.

1:03:49

I don't want this to be a commercial for your agency. And I know you don't either. That's, that's not that, first of all, that we can't do that. Right. It's kind of this kind of radio. We don't do ads. But I think it's important that the audience know that there's an agency out there that not only is gay and gay operated in gay run, but serves the gay community. And so that may be enough of that. Okay, so what else is going on in your life? I hear it's just kind of all work and no play. Exactly. Which is the exact opposite of when you were last year, which which seemed to be except for your promotions all play and very little work.

1:04:31

And was that person that

1:04:35

you had a lot of time to play and fool around and help raise money and do allow people to take

Chris Harrison 1:04:41

tequila shots off your ass?

1:04:42

Yeah, do nude right.

1:04:44

It was not off my ass. Thank you. So much. So you know,

1:04:48

you're recording regions? Yes, yes. his groin region? Yes.

Chris Harrison 1:04:54

I don't know that always happened when I was out of the room.

1:04:57

We'll go get a shot glass. Ah

1:05:02

there's still some fun left.

Chris Harrison 1:05:04

I mean, if I had the key I've got access to a liquor cabinet just a couple of blocks away.

1:05:10

Let's go blocks who is not right here right now.

1:05:13

That's right. It's not right here right now and that's not on him. Wash

1:05:19

is like no ignoring us.

Chris Harrison 1:05:21

I know it. Well, you guys. Were having good conversation. I just wanted to interrupt. That's okay.

1:05:25

Naughty part. See the three.

1:05:28

The more the merrier.

1:05:29

They're not naughty. They're nice parts. Are they? Yes. You're working way too hard. Is that's true? Yeah, basically. Yeah. You were just saying you don't even date or anything. You're just kind of Nope. Nobody

1:05:47

wants to date me. Oh, we're too much

1:05:50

yours. I can't believe that. I can't believe that. Nobody wants to date me. Well, as I was saying, You're not much unlike me when I was your age. I spent many years not dating. Because I wasn't interested. I had a horrible breakup for my first lover and I just avoided dating. In fact. I

went out on dates. But very few guys ever got a second date. It was just didn't want to get close to anybody. And then I turned 30 and Stanley came into my life. And there you are.

1:06:23

And you're still waiting on me. Yeah. That's all I'm doing. Jim. Don't just wait on you. Yeah, right.

1:06:28

Right. Wait no longer than

1:06:32

Okay. Let's go. Okay, that was gay marriage legal. marriage legal today. Yeah, it changes every other day. So

1:06:40

no, it was it Massachusetts still or isn't it? Oh, no. civil unions in Vermont are still valid. But you know, I don't know. I don't know. I don't think they're legal in Britain. No. Yes. As a matter of fact, so. And in Canada. Certain parts of Canada. Not all of Canada. The middle part.

1:07:04

I guess not the lower not the upper middle groin area.

1:07:09

Oh, we're back to that good.

1:07:12

What's wrong with that?

1:07:13

You see you still have that that that wicked smile. And that kind of teasing way and flirtatious and

1:07:21

you just want me get naked don't you Jim?

1:07:23

Of course. That's all it is. That's all it should and here he is. He's on board and

1:07:37

all you want to Jimmy isn't it just to see me naked? Yep.

1:07:41

Okay, now the shirt. Great. Wow. Are those new tags?

1:07:45

No, they're same ones always.

Chris Harrison 1:07:48

He just never looked at.

1:07:49

Imagine me not noticing.

Chris Harrison 1:07:54

Hey, Jimmy, his eyes are about two foot higher when we're looking at

1:08:01

any shape shave it said, Oh, you have a Thomas shave anymore.

1:08:06

Thank you very much. Well, okay, folks, that was my paycheck for the year. I get a lot of perks around here and

1:12:14

There's a there's a gay newspaper somewhere that I was reading about called guess what mom? Read

1:12:24

what I was asking were what sweat mom.

1:12:27

Guess what, Mom? It's a gay newspaper. And where it was this? I don't remember. It's in this list of people to sell pictures to. I've got it figured out whether or not those kinds of pictures I'm a photographer like actual real photography.

1:12:41

A lot of things aren't each other.

1:12:42

I am photographer. I even make Julianne Fries. No, not really. But I do cook.

Chris Harrison 1:12:51

You'll make the most well life one day. Let's do the MBB letters.

1:12:56

Oh, we got a whole bunch of them. Name them off real quick. James, Steve Jeffrey, Jeffrey, Jeffrey, Jeffrey, Tigger, Jeffrey, Christopher, Jerry. And of course ticker again ticker sends us a whole bunch of information on the bisexual community and bisexual information. Y'all want to sit there and pass those out. Look around in their ticker. We appreciate that information. Appreciate you sending us those documents. We'll look over and see what we can talk about. James, of course wrote me again. Appreciate your letter James. James doesn't say much except that he does. Listen to the show and enjoys everybody here. Pass that letter on. Slave you right way too much. Way lot of time. Steve. I didn't get your letter. Of course. I'll do my best to try to correspond with you as much as I can. Steve doesn't say much. Except that somewhere is what is it? Greetings. My name is Steve Michael Inger and I'm 27 years of age good enough for me.

There's more. Betsy, we're gonna have to put Oh, hey, slave. Yeah, the slave. I got your handkerchief dude. It's awesome. Yes, yes. Yes, it's mine. I can't wait to show my mom totally do exactly what you're not said. Wolfgang got your letter, your little comment on about how we don't pay enough attention to the NBB letters. Well, first of all Wolfgang we do especially me and for the fact that I can't sit there and take exactly the whole hour and relayed messages between you and slave when you are neighbors on air. Dude, get over it. Okay, we get your letters. We appreciate your comments and your little snide rule about why we didn't take the time that come on man.

1:14:56

And then Jerry Baker writes, pass these around, let people read them in here. Y'all gonna sit there? Actually we did get I can't find where did where's it at I probably over there we did get something on Gwen everybody remember GWEN The Trent the governor Rio he's the one that was killed I can't find that where that article was

c Chris Harrison 1:15:19

are well let's take a step out let's pull music and let's try and regroup here we'll be right back that was scot free they from his album they call me Mr free and that is another day of cruelty and we're back with the letters

1:15:40

more we've got from ticker we got ticker with ticker did was C sent out a whole bunch of why would lesbians and gay organizations include bisexual safer sex for bisexuals and their partners about the bisexual Resource Center. All these are from the bisexual Resource Center in Boston, Massachusetts, USA. Web web address being www.bi-resource.org bi-resource.org. You have one particular that you wanted to read.

1:16:10

Yeah, actually, I've got a couple here that I'd like to point out. Some of them really apply to me, you know, me being bisexual. Go ahead. First one here is why are bisexual button. And really that's not more ma'am core, I'm more of a closet kind of guy. Second one is where a bisexual pride t shirt, like those available from bisexual from the bisexual Resource Center. Third one has come out to parents, relatives, friends, coworkers. And honestly, I've got a problem with that one. Because, you know, if I came out to my mom I'd be I would just be so afraid to break her heart, you know, and that's why I'm still you know, well in the closet myself. But one day I'll come out and it'll be all good. Fourth one is talk about talk about bisexual, lesbian, gay and alternate lifestyle issues go go a step beyond the comfort level when discussing these issues with others, and still another Nother one I'm working on. And number five here, from the 50 steps to bisexual visibility, speaking public about my sexuality, consider joining a GLBT speaker's bureau, which I'll have to consider that

1:17:15

as it's something that you can go to, as you said, Uh,

1:17:19

well, it says here, consider joining a GLBT speaker's bureau and I'm relatively new to the Houston area. I don't know any places I'd actually be able to go to, but maybe you guys could help me out with that.

1:17:29

Actually, there might be something at the Montrose clinic that actually I think they do the bisexual community the tool, this is a club actually, that's Adam. There's actually there's information right there. There's a phone number phone number of 86174249595. That's how you can contact the by Resource Center. They also have an address if anybody listening wants to contact the by mail, peel box 1026, Boston, Massachusetts, zero to 117 Dash 1026 And you can just address it to BRC, they also have an email address at BRC at buy resource.org or internet at WWE dot buy resource.or G. Actually there's they give out these these are all free bisexual, internalized oppression, I think I might be by now what do I do? And then of course bisexuality is or opening. You know, I actually also had another article that someone sent, they sent a whole Rolling Stone piece on Gwen and I can't find it, but I'm looking for it. And we'll address it. Slave on your letters, a whole bunch of them. Wow, I got your most recent letter. In fact, it's the one that you give special thanks to the hour that I spent last week with Jimmy on talking about the truth and the fact that you wanted to send Jimmy and the crew here I love you for allowing me to go ahead and go the truth. I'm all about that. I will definitely definitely let them know. Everybody has seen the handkerchief. What do you point out?

1:18:57

Well, number 17. Over here on the 50 steps of bisexual visibility. I really want to point this one out because this is a get together with a group of bisexuals to go out to a dinner, go out to dinner or to a bar which I think is just cool, you know getting together with other bisexual people. And another one here is arranged for a by night at a local gay or lesbian bar. Some bars may help a sponsors sponsorship and publicity, which I think is cool, because it's the community helping out the you know, exactly GLBT community exactly, you know, and number 19 I really like a range of bisexual retreat, including discussions and recreation, either for day or weekend.

1:19:32

You know, funny that you mention last week we had Gigi and here she does have a a function. I don't have the information with me, but she does offer bisexuality exploration gatherings. And there's something in fact, we'll try to get that information to you. What how many there's they got 50 steps in

1:19:52

Yep, there's a little pamphlet here I'm reading is from the bisexual Resource Center in Boston, Massachusetts. 50 steps to bisexual visibility and A lot of these are just really great, you know, but some of them are real common sense. Like the first one just wear a bisexual button. You know if you want people to know you don't want to be really flamboyant about it, just wear a little button with a little symbol on it that says you're bisexual.

1:20:11

What's the symbol for vice? What's the symbol for bisexuality?

1:20:14

It's the double SEC symbol. It's got a double sex male symbol on top of the female symbol on on bottom.

1:20:21

Okay, that I didn't know that I didn't know bisexuality actually had a symbol.

1:20:26

It's kind of odd because bisexual and I had to come out to my parents and my family to be gay. And then I had to come out to the gay community for being bisexual and I thought that was really weird.

1:20:41

I found the letter from Wolfgang, Roy Travis Stacy Alex and everyone name I don't know yet I enjoy the show. Last week I would have liked to heard my letters and slaves letter get read slave spent a lot of time on his letter he does every time he writes. Wolfgang, I know and it was down to the night Let him hear his letter on or get some strong feedback. So I will let it rest at that man slaver sending this about Gwen, aka st Gwen sanguine, some about making winners sainthood. And this way I said the hate crime bill was good for those who can't protect themselves or not or go around to do so after blank. Like these done what they done. So um, for the bill to be passing all the what Bill is he talking about? Hey, Bill, anybody? I've never heard that one. I've never I don't I know about Alabama. It's and they're banning same sex unions across the board. But I haven't heard. Is there a bill? David? Is there a built up for? I don't know, I just worked here. Don't ask me things. I don't know the answers. We'll get our political guy. He's. Yeah. Where's our political? Yes. Go get the political person. Okay. Yeah, really? Anyway, since he sends me the the murder of a boy named Gwen a Rolling Stone article and February 24 2005. Hey, say, Chris,

1:21:59

let me guess it's the dignity for all students act.

1:22:01

I know actually, what he says it's a hate bill about Glenn. Hey, Bill crime that would recognize he doesn't get it doesn't give it in

Chris Harrison 1:22:12

the transmitter what law? I mean, what state doesn't?

1:22:15

He doesn't say he just says let me go back to what it says again. The Hate Crime Bill is good for those who can't protect themselves. It's what he says about that. They did that. Uh huh. So all for the bill to be passed.

1:22:27

Okay, well,

Chris Harrison 1:22:29

is Gwen Arroyo who was a transgender, male to female who, in New York, California, California, who apparently was discovered as being male after someone picked them up what

1:22:42

know what it was, she was at a private party with friends, homeboys or whatever. She was 17. And people obviously got a little bit buzzed and things got heated and a crew to two, I think it was two or three to get what they thought was obviously a gorgeous female because she looked pretty good. They took her to someone's garage or something like that. They started fooling around. And that's when they noticed that she had she had a peanut a beggar package. Right. And so they beat her to death.

Chris Harrison 1:23:10

Yeah. And I don't know if that's a California, Newark, California. Okay, but now we're saying about the law is that a California law or state?

1:23:19

Okay, the hate crime bill is good for those who can't protect themselves are not around to do so after blank holes like this done what they done. So I'm all for the bill to be passed. And all the USA

1:23:32

thing with like, the hate crime law says right now, if you got beat up, or killed by people who were yelling, the word fag, if they did it, then they would get sentence for murder, or assault, whichever. And then along with that, because they had said the word fag, they would get an extra, like year or something. Yeah, that's something they got it. But it's not

Chris Harrison 1:23:56

depends on how the state laws are written,

1:23:58

then, if you include sexual identity and gender identity in a hate crimes bill itself, then it is a full blown hate crime. And you get a much severe penalty. It also

Chris Harrison 1:24:07

depends on the how the state wording is in the state of Texas, under the James Byrd Hate Crime Act, which is actually what's called a bias law, but what it comes down to is, it's it's not a determinant until it comes time for sentencing. So basically, you go through the entire trial, and you just say, This person was killed this person, this happened here. And then when it comes time for sentencing, they say, Oh, by the way, the guy who did the attacking said faggot or Dyk or, you know, trainee, then they can tack on some more to the sentencing. It just depends on what the state is and what the state laws are, of how their their wording, the law on that. So, I mean, if it's California, I think there is already some sort of protection for homosexuals in this state constitution. See, I

1:24:57

haven't heard anything on the news or anything newspapers about any hate. You know, I all I heard recently it's been making the news stories Alabama's full ban on all same sex unions. That's you know hate crimes

1:25:09

don't usually get much press attention obvious Hey hate crime legislation I'm hate crimes do Chris but the legislation there have just not

1:25:17

Oh and you know what I'm going through the article that Wolfgang sent us they have pictures of the three offenders that are responsible like what is that a black male or Hispanic male and a white male covered the whole basis

1:25:29

I heard a story the other day about a guy who got gay bashed by these, I think there's two or three other guys. And one of them was already put on probation for raping a four year old boy. And I'm like, and you're gay bashing someone else? Let's turn you a freak.

1:25:45

Christopher also sent I got your letter Christopher and I will send a letter back to you. And and of course it's got Steve's letter. Nothing much said just appreciate the show and listen to it. You wanted to point out yeah,

1:26:00

for me, I'd like to read some more of these. Bisexual. Yeah, like to read some more this. Bisexuality some questions answered from the bisexual Resource Center in Boston, Massachusetts, one of the biggest ones I read here really stood out to me isn't just a phase. And the question is, isn't it just a phase? The answer is no, no more than being a heterosexual homosexual is. And I think this is funny, because when I tell people I'm bisexual, they think, you know, they think I'm confused that I won't go one way or another. But I say I'm a equal opportunity employer. And another one here is it says Isn't it just a transition to being lesbian or gay? And that's the question and the answer is maybe for some people, some lesbians or gay men come out as bisexual first, but most bisexuals remain bisexual for the rest of their lives. And I think that's one of the most interesting things.

1:26:45

I think for some people, it really is a face like I'm not one who thinks that you can change your sexuality that much. That's true, but I think like, I think maybe at some point, I actually was bisexual. I don't know, because I can't think back on it that well. But like, I know, there's a certain point that every kid hits, you know, especially gay and lesbian kids where, you know, society tells them they should be attracted to one thing but their bodies tell him that it should be attracted another thing and it's just the act of sex, sex in and of itself that can turn someone regardless of gender. Like I fooled around with girls and didn't exactly enjoy it, but you know, that have the natural reactions that a heterosexual would to it.

1:27:22

1:27:00

Bisexual, bisexuality some questions answered. Another one I'd like to point out. So what exactly is a bisexual? That's the question and the answer is a bisexual is someone who is sexually and emotionally attracted to the people to people of all genders. And I don't know if that includes transgender, but um, personally I am attracted to males and females. And, and I'm not going to change no matter what

1:27:59

I had before the bisexuality I just can't call myself a freak. I'm I prefer I mean, you know, I'm not totally do even if some Paris Hilton intelligent you are just too quiet for some people that are if there's if there's an opportunity, I'm all about the night. I'm not I'm just a freak for

1:28:17

free if I was going to do I'm going to be clinic, Hillary Clinton. I mean, come on. Like she's just

1:28:22

power Sharon Osbourne. Sharon. Oh, no, no, no, I

1:28:25

want someone who's gonna get me somewhere if I'm gonna do that would be Hillary.

1:28:29

It's the mother thing for sure. Clinton. Because

1:28:33

I couldn't ever do Hillary because, like her I'm on top. So you know, we'd have to find a bottom.

1:28:40

I want to have a strap on that lesbian action.

1:28:43

If I ever could ask Bill Clinton one question would be What kind of strap on Hillary uses.

1:28:47

Oh, boy. Max is

1:28:50

that that pretty much covers on the letters from the MBBS the handkerchief that everybody see what slaves sent me? Yes, he would like to is another female. It's all female. It's all female with actually it's pretty good. It's very well detailed. Nice work. He said he put a lot of time and and I appreciate it. I'll take care of it. Actually, it will be framed. He'll go on Stacy's wall. Hi, Stacy.

1:29:15

1:29:31

My sister's there. I'm picking my sister up when the show's over. I'm the designated driver. This

1:29:38

guy there is so I went by there around 12 And there wasn't much of a crowd.

1:29:42

About 12 o'clock. Everybody was inside on the dance floor. South Beach.

1:29:46

Yeah, I went by and go in. No, I didn't know. Yeah.

1:29:52

It took a while to get warmed up. But when it did, it was like you couldn't move. So but it was fun.

was mostly good straight in from California. Right. And

1:30:09

are you sure? I don't know how good it was. But I mean, she knew the words. She knew the words and how the outfits but you know, as far as the rest of it,

Chris Harrison 1:30:17

well, that gets Madonna by every day. So,

1:30:20

I don't know Madonna sometimes it's in other words,

1:30:23

my sister made my boyfriend and I listened to Madonna when we were taking her up there. And erotica.

1:30:30

That's the one they didn't play anything off of.

1:30:32

We got out of the car and they got another car and I'm just like, Okay, that was enough Madonna for the rest of my life. Yeah, it's weird because they would run out a huge Madonna fan.

1:30:39

They would rather play like repeats of remixes of remixes of like the same generation of Madonna music and skip entire decades of her career. So yeah, it was kind of disappeared.

1:30:50

Do you like our old stuff? Stuff?

1:30:52

I like a mixture.

1:30:55

What about someone with a cowboy hat?

1:30:56

I liked that album. It took me a while to get used to it but once I did, yeah, it was really good. They played a lot of that a lot. Actually, they played music probably about 30 times. But it was the rest of it. No no. Mindless Madonna. Isn't that all of it? And RJ thank you for the letter I got it at my house. And it was more of a personal note so expect to reply soon.

1:31:24

Oh, yeah, that reminds me slave on the one of the songs he wants to do both of them by the way, I'll contact you you'll get all recognition on the song if you actually write songs for this band you'll get all recognition on that it'll be signed contract and everything like that
