SUMMARY KEYWORDS

votes, radio, listen, giraffes, houston, bisexual, work, money, candidate, call, parker, years, interview, john, sitting, gay, gigi, election, run, folks

SPEAKERS

Jimmy Carper, Sarah Dipalma, Gigi, Ray Hill, Michelle

00:01

and really you're looking at me thank you so

Ray Hill 00:03

much. Thank you so much Matthew, you have one of the most wonderful programs on KPFT and always enjoy it just before I sit down kick back relax and listen to after hours

00:14

and I'm gonna turn it on now to after I was crew Jima it's oh yeah

00:24

all right, this is bed the bed see if the rain I'm over it chances revenue an excellent time over here on a Wednesday night. We're talking to KPFT Houston, come out and visit us at the ranch. Or if that is not close enough, come to chances on Westheimer you listen to and I listen to KPFT Houston.

Jimmy Carper 01:11

Oh yes, you tuned into after hours that continuing tradition on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news, interviews and music geared for gay and lesbian people. Hear it after hours. We may be diverse, but we have one thing in common. We are out of the closet and urge everyone to come out of their closets. That means standing up for

yourself taking responsibility for your own life and being proud of who you are. Realistically we know not everyone can do that because of age job or frame of mind. That's okay. We're here for you too. So sit back, relax and enjoy this week's edition of after hours.

S

Sarah Dipalma 02:38

Well, good evening. Welcome to After hours and continuing tradition in queer radio. Since we could not find the other card will tell you right now. Some of what we say tonight may be considered offensive. So if you are offended by topics involving gay, lesbian, bisexual or transgender topics, this may not be the show for you. Okay, we covered that. We said that. This is Sarah dipalma. And no, you're not turning into the wrong show. I'm covering you for Jim Carper, who is still in Hawaii and did not ask us to go in. I'm here with

M

Michelle 03:16

Michelle from BiNet and, and Gigi

G

Gigi 03:19

permanant.

S

Sarah Dipalma 03:21

Okay, now, since I'm, I'm not used to working with you all. Tell me again what BiNet is.

M

Michelle 03:27

By now it's an organization for bisexual or BI curious people are basically anyone else who's just friendly to bisexual issues. We have meetings once a week on Wednesdays at 7:30pm or seven o'clock pm I'm sorry. And it's a great place to get together with bisexuals because I know, I know before I came to this organization, I had a lot of trouble finding other bisexuals and it's a really nice place to meet them.

G

Gigi 03:54

And one good thing about BiNet we do represent the bisexual community to shut down. And one thing that's really good is that we meet together we're a close knit bunch and we're growing part of the Houston queer community.

M

Michelle 04:17

If anybody else would like to come to our meetings we meet we meet at the MCC er on a 99 indicator from from seven to nine. So we're really looking for new people to come to our

meetings. So if you'd like to come we'd love to have you

S Sarah Dipalma 04:32

and where the heck is Decatur? I mean, I know it's in Houston but that doesn't help me much.

G Gigi 04:38

What you do is you go down to Washington, and you take a ride on silver. And then you take a ride on Decatur and we're right there on the corner Decatur one block west silver.

S Sarah Dipalma 04:52

Okay. And as people know if you're from listening to the other show, this is not marathon a marathon a we love. We love marathon a KPFT? Because frankly, we need the bucks. Okay. I mean, it's just that simple. And you you folks have the list over there. Why don't you tell folks what, what people get? We're spending their hard earned money with KPFT.

M Michelle 05:17

If you didn't get \$35 to KPFT, not only are you helping a great radio station, but you also get a free program guide.

S Sarah Dipalma 05:26

Or how much money only for \$35 Oh, so for \$35 you get a program that we're not asking for million, right? Just \$35,

G Gigi 05:34

right. And for \$60, you get a 25th anniversary t shirt, or 25th anniversary mag, your choice.

S Sarah Dipalma 05:43

Hey, listen, I've seen this t shirt. Okay, this t shirt is like, pretty good looking. We had some T shirts in the past that were like purple. And they had riding all over them. They were just like really ugly. These new ones this year. These are nice. These are apps. They're they're pitch black, with silver lettering over the pockets. Because this is our silver anniversary, we've been in the year 25 years. And so I get a silver anniversary t shirt.

M Michelle 06:09

That's really great. And you know, the mugs are really nice, too. And if you believe this though, if you spend \$90, if you give us \$90, you get both the t shirt and the mug,

S

Sarah Dipalma 06:18

and something else, if you will put \$90 in on your plastic. In addition to all the other things that you have, we will give you a full size poster movie size poster from Priscilla, Queen of the Desert. Now look, we've only got two of those. Okay, so for the first two people call in put in \$90 on their plastic. In addition to all the other things that we've talked about, you get the full size poster from Priscilla, Queen of the Desert. These are sitting on my desk, I'll tell you right now these are good looking.

M

Michelle 06:51

Wow, they're really nice. I mean, if you guys don't call in soon, I might have to just put down \$90 and get one myself.

S

Sarah Dipalma 06:57

We'll take your money. Please see the cashier in the lobby.

G

Gigi 07:03

And for \$150 you get a KPFT watch.

S

Sarah Dipalma 07:08

And watch by the way is pretty clever. I just got to look at it the other day. It's a very nice looking piece of piece. It's not you know, this is not a Kmart watch this is, you know, this is something worth having. So,

G

Gigi 07:20

and I must warn that Gigi brought her whip tonight. So y'all please give.

S

Sarah Dipalma 07:27

And the number if you want to donate is five to 6k P F T, that's really easy. Five to six KPFT what is the number I can't? If you've been you've never been this. Thank you Ray Hill is telling us the numbers 5265738 Whoever placed this did not think about short people from from where I am sitting, I cannot see the number because there is a computer monitor. And my vision is pretty good but not good enough to see through computer monitors.

Michelle 07:58

Please send in that money because I mean, Gigi like like Gigi said she has that weapon. She's sitting right next to me. So I'm kind of nervous. So please send in your money

Gigi 08:07

and I can make it hurt so good.

Sarah Dipalma 08:12

That's an invitation I think. Let's talk about what we're going to do on the show tonight. We have first of all Ray Hill is sitting in the studio. And when we come back from the music, we're going to come back with Ray Hill. And we're going to talk about a nice Parker in the nice Parker campaign. If you have not heard a nice finished third tonight, she did not make the run off. But she made a very respectable showing she was third out of 19 candidates got 11 Almost 12% of the vote. And for someone who did not have the money of her other candidates did an absolutely spectacular job. She's someone we should really be proud of. We're also going to have, we're going to do something a little bit different tonight. I was very lucky to be able to go down to Galveston. We're going to I'm going to be doing a show on this station on February 11. And I was given the opportunity to go to Galveston and tape interviews with Dr. Collier Cole, who runs the Galveston gender clinic. More importantly, though, I was allowed to get out and interview some of the women who attend the clinic. Tonight we're going to play a few teasers that some some excerpts from from the upcoming show and we're going to talk about some of that and how it applies to us. So I thought that would be interesting. We're also going to do a discussion about gender outlaw. And we have an interview with author Kate Bornstein. can find to that Kate is a very fascinating lady. The the interview aired once before, and we've had so much response and we've had so many requests from people who wanted copies of it. Get your tape recorder ready. This is one you're going to want to keep.

Gigi 09:47

And as you get ready, remember to give us a little bit of money back because this is Free Radio. We don't get money from advertising.

Sarah Dipalma 09:57

Well, I think it's probably time for us to go to some news. it and let's start out with a with a salute to a nice Parker, this from Romanovsky and Phillips V political, not polite Romanovsky and Phillips. And I think that's the perfect lead in for the person sitting next to me, a person that I consider a friend, we're with Ray Hill

Ray Hill 10:25

famously not belied. The candidate that we fostered in today's election, however, is one of the nicest most polite, wonderful people that I know. And that's a nice Parker. I've got to rattle off a few statistics. So head we'll put this in context. Understand this was a citywide election in which people avoided in droves. 6.3% of the 6.4% actually of the total, qualified voters went to vote. That's the lowest turnout in anybody's memory, there were 19 candidates. The leading candidate was Katherine Tyra, she was blessed with the full power and influence of the Republican Party, plus the supercharger of the fundamental this community attached to that. So she had the hosts the machine and everything, and they very carefully did not divide their support between Katherine Tyra and Jim Kennedy, which they well could have done. So the election results shows that that political machine was entirely focused on Catherine Tyra and so she had not just money that that group had cares a lot of money, but she also enjoyed a lot of legwork. Lists, access to people, pamphleteering churches last Sunday and working on that. That's a very difficult thing. She got a total of 15,500 plus votes, which was 33.9, or almost 34% of 6.4%. Right. So I mean, in a real election, the all of the votes that she got, would be insignificant.

S

Sarah Dipalma 12:12

Well, I think, you know, 6% of the people turn out to vote as a total entitled The total vote. Now I realized this is an awful election. And I worked on the phone banks for a nice every night. And so it was amazing to me that we would call people and we were getting things like, Well, gee, didn't you vote just last week? And I kind of understand that what I don't understand maybe you can clarify this for me, Ray. Let's assume for the moment that there are, I don't know, let's say there's 70,000 gay people in the city. Let's say they're 50,000. Okay, if half of them turned out the vote, that they would have carried the entire election,

R

Ray Hill 12:49

but you don't understand of course, your question about it. No question about it to the candidates running for the take five election year before last city council sit at large like I was raised 17,000 votes easy for us, right. 17,000 votes more than anybody got in this race. I don't think anyone accidentally voted for Ray Hill. I think that in order for them to do that they have to think about it first and shouldn't do it later. The number two person in this race is John Peavy. John PvE, enjoyed the full character and support of all of the political machine that Mayor linear has all of Lanier's phone banking experts his authority, even his political advisors, went over to the John Peavy race very often, they were able to get only 11,900 votes, almost 12,000 votes, or just over 26% of the total. Right. So 34% 26%, our candidate a nice Parker came in third

S

Sarah Dipalma 13:50

out of 19 candidate that's pretty credible, very credible. And

R

Ray Hill 13:53

I've got 19, Kansas racing to come in ahead of 16 of them, right. It's not too bad now, and he's only got 5000 little over 5000 votes which was only a little over 11% of the vote and she

only got 5000 little over 5000 votes, which was only a little over 11% of the vote, and she didn't have the money. They did. She didn't see certainly didn't have the money they did. She certainly didn't have to well, all machines to back her up, right. The situation is they've got to hear the pitter patter of little feet behind them. Right. I mean, this is proof positive, that 5000 plus votes that a nice got in today's election is far better, far more concentrated vote. Because what does it prove? It proved that nobody had discipline but us. John PVS votes John PVS black, black judge, it was a family court judge just got defeated in the Republican suite. John Peavy did not get those votes from black precincts. And you know that Ray hill because I've been to black precincts today. I went to the largest three black precincts in Third Ward today. And one of them 27 people had voted all day and another 130 people had voted all day in a third 37 people had voted. Not exactly a massive turnout is not a magic where John Peavy got his vote are predominantly white people who got most of the black votes was the ALMA Allen and Jeanne Moore who spent an awful lot of money in this. And those folks went out and worked hard to get what votes they got. They only got piddling votes 2000 For Alma and almost 3000 for Jean. Jean spent more money than anybody else in this race. So money doesn't do it. But political machines and organizations have. This was the best organized campaign. I don't know whether it was because you were there, Sarah? This is the best organized campaign we have ever done. And it paid off in real numbers. Let me tell you something they gave me the lesbians in the runoff. There's even fewer people can go to the polls in this race. People are just really not excited about this vacancy. Katherine Tyra conservative Republican but I don't call conservative Republicans against her my my good friends have been conservatives, Republicans Roy Cohn. Other wonderful friends that have been conservative Republican that I've known over the years but that she's tied in with the fundamentalist religious right. So she's no friend of ours. We can't go there. Right. And these Parker is in a power broking. But you can only power broke with John Peavy. So a person should do with and he can therefore take us for granted. But we don't have to go to the Pope. So when a nice calls John and gets the word out that she's talked to John, then we need to decide to go to the polls in even better numbers than we went today. Because that's the only way we can keep a hand in the game. And we're standing beside the table, because we don't have a seat. Right? There's no seat for us. We absolutely do not have a seat. And if you know if there are those people out there that want a fraction off and say, Well, this is not the right candidate. Let me tell you something. And these Parker was the right candidate. And this was the right time didn't work. When you come in third ahead of 16 others there could be worse news. Let me tell you something. Our freedom doesn't depend on winning or losing. Our freedom depends on what we think of ourselves and one another. The trust that we build up as a community, you don't have to be community. That's something that we did. Purposely our leadership created the sense of community and it caught on over a long period of time. Gay Lesbian radio didn't begin in San Francisco. didn't begin in New York. didn't begin in Houston either. began in Dallas. A sole voice professional voice who made a living in radio named Dave Lambeau did a program called just before dawn remember the song? The Darkest Hour is just before dawn. It was this theme music every Sunday night. At three o'clock in the morning, Dave lamb will delegate show gay and lesbian show in Dallas, Texas. They were still doing radio. This was in the 60s. Then Wildenstein was created on the KPFT simply because I thought I could do as good a job as day. And I had a vehicle, right? And then after that I am Are you started in Los Angeles. And after that, the gay program started in San Francisco and later New York. So gay and lesbian radio began in Texas by a couple of crazy guys who really didn't know what they were doing, but thought that they could make it work. After hours is a natural heir to a long, proud history of bringing you news information and analysis that you've just heard. Over a nice is right. We're supposed to do that. And you're sitting there and all of this is happening inside your mind, because that's the way radio works. Used to get letters and telephone calls doing Wildenstein on KPFT. From young lesbian saying every week when you go on the radio, I tell my mother I'm going to clean my closet and what

mother doesn't want her teenage daughter cleaning closets. And that way I will not be disturbed and I literally listened to Wildenstein in my closet. The symbol of where I listened to it in my life This is so important. So you're not closeted anymore. That was something that somebody else gave you as a gift. And now it is your turn to continue the process. And how do you do that? You go to the telephone and you call 526-573-8526 KPFT. A lot of you've listened to my voice over the radio for years, I still do radio here, not gay and lesbian radio do the prison show on Sunday. But I've been openly gay on these radio waves now for more than 25 years. And we need or were right at 25 years because the station is that old and one of the first programs we did was tape programs of radio giving lectures at the University of Houston. I want to personally ask you, the people who have listened to me for years, or listened to after hours, for as long as they've been on there, and y'all been on the air about three years

S

Sarah Dipalma 21:07

now four years, almost four years and was four years

R

Ray Hill 21:11

an important milestone. It's time that as a member of the family of after hours, you support the family, so that this family can contribute its fair share to the sport of the radio station.

S

Sarah Dipalma 21:28

I'd like to add something to that. This is something I mentioned on the show last week, we this station produces and houses hosts the only show in the country for transgendered people. I have been getting phone calls literally from all over the nation. I was recently contacted by CNN, by the Larry King Show which it appears we're going to do this there is no other station in the country that is doing a shows by transgendered people for transgender people. I was contacted by KPFA last week in Berkeley, California, San Francisco station. That's right, it looks like they are going to start picking up our show, at least on a tape delay basis. You have every reason in the world contribute to KPFT. And let me say something else to you. Tonight, I got to listen to a niece and she gave her speech. And this is going to be around in the city for a long time. It's some point I promise you, she's going to be elected. And in the next time that she runs, please, please make it important in your life to get out there and help her or help whoever it is that runs a Bray decides to run again.

R

Ray Hill 22:48

Are you gonna you know, the thing about it is it depends upon the climate depends on the race, the community will help make those decisions. I don't think I'll ever run for anything else. I've done my share I have kept on running over and over again, if no other reason than to set the example that it is not embarrassing to lose. What is embarrassing is to forget what your principles are

S

Sarah Dinalma 23:08

 Sarah Dipalma 23:09

having milk last what seven times before he was elected, he was elected on

 Ray Hill 23:11

his fourth horse race. And that's important to Harvey Milk. But, but right now, I mean something real tangible and real close to home. If you spell better than you count, the number is five to six KPFT. If you count better than you spell, the number is 5265738. And we need your call. We've had calls from other folks. We have people right there on the line like you are thinking well, maybe it's time for me to join the family and become a contributor because what you are getting for your contribution. So you may want it with a nice t shirt or a watch or some of the kinds of premium but what you're really getting is you're getting programming that simply not available anywhere else. And that's absolutely right, you're paying for commercial radio, because every time you buy some bubble gum or something to drink or something to smoke or something to chew or something of a car or something you are part of that purchase price goes for the radio that advertise that got your attention right here, it's real honest, we asked you to stick your hand in your pocket, come up with how much you can afford. We would like for it to be in increments of say \$35 For those who get the program guide and \$60 and you get all kinds of wonderful premiums. If you get 90 bucks, you get a t shirt and a mug. I mean, it's just like being on Sesame Street. It's \$150 you get to watch you know when I was six years old, my dad he said What do you want for your birthday? I said I want a watch. And so he led me

 24:51

well, okay,

 Ray Hill 24:53

five to 657385 to six Kpf

 Sarah Dipalma 24:57

I wasn't prepared for that. Three thanks. Thank you very much. I love y'all

 Ray Hill 25:02

I love I love the audience of after hours. Listen, you can look at this jar and say things half empty. Or you can look at this jar and say, We came in ahead of 16 other people, most of whom were better financed and better organized. And you can take some pride in the fact that when the newspapers printed tomorrow, a nice Parker will come in number one in the Montrose vote. And that's the only place our vote can be measured. And that's only 20% of us. When we get our disciplines spread around across the city, as it deserves to be. We will have that celebration that we had. When Harvey Milk went to City Hall,

S

Sarah Dipalma 25:48

and an ASA you're probably in bed by now what if you're not I want to tell you, we respect you, we admire you. And thank you. We have had some requests. And we have had a we had a request earlier for a song that we don't have, I'm sorry to say. So we're going to have to substitute it in this is pansy division. And you know, nobody warned me that that thing ends that fast. It's one of the problems when you start getting older, which is what is happening to me. Your your ears go first and the memory is not far behind it. I understand that we have received some pledges. Why don't you folks tell him how we're doing here?

M

Michelle 26:31

We're doing really well received a pretty generous donation from Beth and Teresa, Richard.

G

Gigi 26:38

And we've got another generous donation from Cindy Berwick. I think that's

S

Sarah Dipalma 26:47

we can't read the handwriting. We think it's out if we got your name wrong. We're We're really sorry.

M

Michelle 26:51

Yes, I do apologize. I'd also like to say that we still have both of us Priscilla posters. So if if anybody wants one, you know, come and get them.

S

Sarah Dipalma 26:59

\$75 on plastic, you get all the regular premiums, plus a full size post movie poster for \$90. Thank you \$90. of Priscilla, Queen of the Desert. And if you saw that movie, then you have some sense of what this poster is going to look like. Well, okay, we've gotten ray in we're a little bit off our schedule here. But that's alright, having rainhill in here was worth it. Quite an interview with let's talk about some stuff that I found on the news here. First of all, I like to get some your reaction to this. Some of you folks may have seen this in the paper. our good buddy Newt Gingrich is added again. It seems that Newt Gingrich made some comments in which he said females have biological problems staying in a ditch for 30 days, because they get infections and they don't have upper body strength. I am not quite certain what infection he's talking about that women get every 30 days. But that's interesting to me. Then he says men are basically little piglets, you drop them in the ditch and they roll around in it. Okay, and he was still going on. And if being if combat means being on an Aegis class cruiser managing the

computer controls for 12 ships and the rockets than a female maybe dramatically better than a male who gets very, very frustrated sitting in a chair all the time, because males are biologically driven to go out and hunt giraffes. Either, you know any men run to rafts.

M

Michelle 28:34

Right. So So I guess what he's saying is that like, if like we decided to like attacks from giraffes, we shouldn't have any women in the army. I guess it's

S

Sarah Dipalma 28:41

Well, first of all, I'm curious exactly what infection is it that women get every 30 days? I understand this. It's like the menstrual cycle, but I don't think that's what he's talking about. Females have biological problems thinking in a dish for 30 days, because they get infections. Okay.

M

Michelle 28:59

I guess men don't get infections.

S

Sarah Dipalma 29:01

Well, Pat Schroeder, who was one of my heroines. I had a response on the house of the floor, the floor the floor of the House of Representatives. She said that she was unaware women get infections every 30 days. And she said that she had seen her male relatives in ditches, but they didn't roll around like little piggies.

G

Gigi 29:21

Oh my goodness. I've known a few women that can certainly outlive me with upper body strength. And as far as rolling around and ditches I mean, Chi Chi would never consider that.

M

Michelle 29:40

I'd also like to say that that I've known a lot of men and like none of the men I know like I've ever hunted any giraffes. I mean, I just I just don't know where you got that.

S

Sarah Dipalma 29:49

If you're a male out there and you have an urge to hunt drafts. Please give us a call at a KPFT we'd like to send you in for analysis I think the giraffes That's what he said, I'm sorry, I cut this out of the Houston Chronicle. So I assume that it's correct. But that's what he says. He says

that men are basically little piglets, you drop them in the ditch and they roll around in it. And then he goes on to say that males are not good at seeing a computer terminals, because they're biologically driven. Go out and hunt giraffes.

Gigi 30:20

Or can Chi Chi be tied to a giraffe and with

Sarah Dipalma 30:24

with that we can arrange. I don't think we need new Gingrich's permission for that, do we?

30:29

You mean, that's what I've been missing in my life is giraffe hunting, hunting. There you go. searching and searching. It's giraffe hunting.

Michelle 30:38

It's like a whole new career for you, Jim?

Gigi 30:41

Oh, yes, baby. Well, the big ones.

Sarah Dipalma 30:45

Oh, our good buddy knew, you know, I don't think we're going to need the Democrats to hang Newt Gingrich. He's going to do it for himself. And he's, he just keeps it up. And one of these days he's going to succeed. Okay, let's, let's talk about the tape that I've got queued up here. I was lucky enough to go down. And as I said earlier, in interview, Dr. Cole, and will and a, Gigi and Michelle are a little bit of a disadvantage here because they haven't heard this this tape. So they're going to be hearing it for the first time. What we're going to do is we're going to play little snippets of the upcoming show on February 11. And then we're going to come back and talk about that, and talk about how they might apply for to bisexuals to gay people, whomever, whoever that might be. So let's let's go to that interview. And we're going to start out the first part of the interview is with Dr. Cole himself. We had a parent call us recently, who was really in pain really convinced she did something that made her child transsexual. So the parents understand this is not their fault. I don't even like that word. But somebody's got to see it's not their fault. Can you tell us a little bit about what what's known about the origins of transsexuality or transgenderism?

30:55

32:15

Well, I think traditionally, in years past, experts tended to feel that this was a psychologically based problem that some sort of difficulty in rearing or problems and identification with one sector, the other cause this, but again, we just did not have the technology to fully understand the problem. I liken it very much to the whole problem of childhood autism. And what I mean by that is that decades ago, experts came up with the term refrigerator parent, meaning cold parents who somehow caused this severe disorder in kids. That's all we knew at the time. Now, today, we have the technology, we understand that this is clearly a biological problem, something that goes wrong in the central nervous system. I think that we are on the verge of identifying that same kind of thing when it comes to transsexualism. Most experts today believe that it is something that goes wrong, so to speak, while that individual is developing in the uterus of the mother. In other words, it has to do with hormones, but hormones that are fetal hormones, things that go on prior to birth. As I alluded to earlier, sexuality involves a number of elements and develops across the entire span of fetal development. Some of the first things that occur course, are chromosome sacks, or mono sacks, development of bodies, but we tend to think something may go wrong along those critical stages, such that what happens is the person is born with the anatomy, one sex, but born with the brain sex of the opposite sex. So we do tend to believe that it is biological. And that's why now basically, experts in this area, have stopped trying to psychotherapy, PI's people out of this, and instead, listen to them and instead try to help them with with medical interventions to be happy and to be successful. And I might note that some of the follow up data and published articles that we've done through our program here in Galveston shows that people can lead very happy and productive lives once they complete this kind of treatment. Now we have folks that, you know, truck drivers, doctors, lawyers, computer programmers, homemakers, I mean a whole variety cuts across the socio economic span, these folks can be very, very happy and very successful and typically become more happy and more productive once they start being true to themselves and get involved in something like this.

Sarah Dipalma 34:40

That's one of the things they have always most enjoyed about these get togethers. I'm always amazed at the variety of people, they're, they're arrogant airline controllers, they're they're engineers. They're all sorts of things. And I sometimes I've been told actually, I was told this by a legislator, you If they were reluctant to work for transgender issues, because, after all, mostly they're just unemployed people. And I had to spend an hour explaining that. That was not so.

35:09

Exactly. Yeah, that's a real myth. I think again, people tend to think that transsexuals largely are drug addicts, prostitutes, and so on. And yes, those kinds of folks occur, but they also occur in the real world and in other kinds of situations. By and large, however, this represents the smallest percentage of the transgender population. Most of our folks, as you well know, from from attending some of our gatherings. We wouldn't make Herald, we wouldn't make hardcopy we'd be too dull for those kinds of ratings. Our folks are very simple, very ordinary. Their goal is simply to blend in to develop their own lives to go through this kind of real life transition, come out the other end and get on with their lives. And I think we've been very successful to help those kinds of folks that we weren't
