## SPEAKERS

Jimmy Carper, Stacey, Speaker 5

---

 Stacey 00:01

This was just a rehearsal type thing. And I thought it would be great just to get some information out there.

 Jimmy Carper 00:09

You want to do that now or you want to just Martha now

 Stacey 00:11

let me just do Okay, since I've got all these the funny sex laws

 Jimmy Carper 00:16

ah funny sex loony sex law.

 Stacey 00:18

Yes, though these are funny. Let's see in Williams, Dale Willowdale. Oregon, has a funny law regarding the use of profanity between a married couple. It's illegal for a husband to curse or swear during lovemaking. But a wife is allowed to whisper and identical naughty word in her husband's ear while in the app.

 Jimmy Carper 00:40

No kidding. Nope.

S

Stacey 00:42

It's in there. In Clinton, Oklahoma. Apparently the community has unusually high moral standards. The city fathers have been local men for masturbating while observing a couple of lovemaking in the backseat of a car in a drive in theater. Such a people can be fined jailed for molesting a vehicle molesting a vehicle. Yes.

J

Jimmy Carper 01:09

Because they beat off in his car. Yes.

S

Stacey 01:13

Okay, and North Carolina law has on the books against peeping toms. But the legislature the legislation they say is somewhat biased. It is legal in the state for a man to peek through a window at a woman yet. It is not against the law for a woman to peep in the room occupied by a man. Nor is it a violation of the law. If a man peers into a room occupied by a man, oh, that's a little that's a little clearer. I guess

J

Jimmy Carper 01:47

the way the laws written and they probably use pronouns like a male looking at a female not thinking that it would ever be the other way around, right? Or a male would want to look at another man. Right?

S

Stacey 01:57

So it is legal. Let's see California husbands and wives can both get a 15 year penalty term for engaging in certain sexual practices. Wow. They are specifically prohibited from engaging in any oral activities even in the privacy of their own bedroom. Why and in California, California, the most liberal state in our country. In California, it is illegal legal to have oral sex in your own bedroom.

J

Jimmy Carper 02:31

Amazing and millions of people break the law daily.

S

Stacey 02:34

Yes. All over the country. Yes, that leads into the bit with the lawyer. Okay. And if I've got it set up, right, which I hope I do. It's about the obscenity laws for the state of Texas. Not federal laws not excuse me. local laws, state laws, yes. This is state laws. Oh, he's talking about and he gets

three definitions and you have to have you have to have all three to understand it. Okay. Okay.

J

Jimmy Carper 03:12

Here we go.

W

03:13

Woman a one year average person wants to separate me better and find that takes us a whole a few different interesting steps.

S

Stacey 03:25

Which means what?

W

03:28

According What do you mean by that? Arousing, okay, thank you. be important to the three parts of the six are describes at least sense of representation of ultimate sexual act, normal or perverted, actual or simulated? Being sexual intercourse, sodomy and sexual vclt. Or at any offensive representations, or descriptions of masturbation? excretory functions, sadism masochism, lead exhibition to genitals, male or female genitals and state of sexual stimulation or arousal. Covered males are discernibly turgid state or device design and marketing is used primarily for stimulation of human organs. mouthful Yeah. And quickly, the third part of the definition the Taken as a whole, like serious literary, artistic, political and scientific value that we have with regard to sadism masochism. Okay, I know there's a mouthful of words. Let me try to shorten this obscene material or performance of the basic average person and find appeal to the French suspect to pick him up describing sadism masochism. And three take as a whole lack of serious literary, artistic, political or scientific value. May be very, very tough. You get a conviction, given such a definition. But we're back to the original question of whether or not it is the masochism of practice or are represented, right is illegal. It might be, you can't take for granted, given the definition of obscenity that you're free and clear is not obscene anymore that assume that it's definitely illegal. Okay.

S

Stacey 05:30

Here's there's something that you mentioned in there that caught my attention for political value. Does that mean if the if it's not for political value, so therefore, if we're engaged in FM or set for political values, and it's not obscene,

W

05:48

maybe for the for the jury to decide whether or not the sadism in the master has any political value? Okay. I'm sure most people don't think of sadism and masochism as having a political

context.

 S Stacey 06:07

Right. So downtown Washington, DC women of the streets that are involved with our politicians are not a fee. For political value, they get their stresses out and they go on. I think that's reaching a bed.

 J Jimmy Carper 06:30

That is stretching it a bit. Just

 S Stacey 06:31

a bit. Yeah. Okay. That's just an

 J Jimmy Carper 06:35

that was that's kind of interesting, because it talked about like, does it mean that it's obscene? If I get an erection in for no reason at all in the grocery store?

 S Stacey 06:49

It depends on how the jury interprets that.

 J Jimmy Carper 06:52

We're Yes. Yeah. Because the turgid state even closed. Right.

 S Stacey 06:56

Right. It has to be. Now don't make this specific. And I guess I'll write this down and ask him when I do the full interview. I believe it has to encompass some of all three of those definitions for it to be obscenity. Okay, so but that is just a snippet. And people please remember this is Texas law, not local or county or city laws, or federal laws. And that just gives us an overview. I felt that would just kind of give everybody just a general information to work off. I guess I'm just sitting here real jumpy. anxious to get to my thing. I love to read books. Oh, okay. Yes, yeah. And I have amassed a great collection. I enjoy them every time I pick them up. And I love to give people information because that's where you get your best information is books. I can tell you where to get some of these books. I can tell you, publishers things like that. So I just like to go into it if you don't mind.

J

Jimmy Carper 08:09

No, go ahead. I'm in fact, I was. I was looking at my library today. And I have quite a collection of s&m Literature. Yes. And quite a bit by PAC Lithia.

S

Stacey 08:20

Yeah. Oh, yeah. One of the best known Yeah, SM artist writers out there.

J

Jimmy Carper 08:26

Yeah. And what's so good about her is that she can write from either a male or female perspective. Yeah.

S

Stacey 08:31

We have one that my leverage just finished reading. I don't remember what it was.

J

Jimmy Carper 08:40

She's written so many No, but is it the daddy stories?

S

Stacey 08:44

No, it was all from

J

Jimmy Carper 08:48

doing it for daddy. No, that's a great collection. That's a great collection.

S

Stacey 08:52

But this was earlier work. And it was all from a guy's perspective. It was all about guys and the whole bit and it was good. Yeah,

J

Jimmy Carper 09:01

it really I mean, she she she does stories and she she edits s&m stories. Right plus writes manual. Yes.

S

Stacey 09:09

And writes articles for skew excuse me some of the SM magazines. Okay, before we get into this theme game music Okay, I think this is for you. Okay, it's about some of the game music. Oh, okay. On line six. Okay. Back to the books. We were out at rip cord. And we talked to Jeff at one time he works in the boot store inside rip cord. He picked up this book for me called the black book. Oh, yeah. Have you seen

J

Jimmy Carper 09:44

it? Yeah, we've it's a magazine that comes out. It's like a zine and then then it's a resource manual

S

Stacey 09:52

called the black book. Yeah, resource manual.

J

Jimmy Carper 09:55

It's mainly in the bisexual community. Oh, really? Yeah.

S

Stacey 10:00

I didn't know that because he told me this was something new boots was gonna carry.

J

Jimmy Carper 10:03

Yeah, it's been around for a while, but the editors of it are openly bisexual.

S

Stacey 10:08

Well, the editors is called the Black Books out of San Francisco, California. So and basically what it is, is where to find store right? Bars, magazines for all over the US. And I thought that was

J

Jimmy Carper 10:23

a fantastic resource. Yeah, I thumbed through one in San Francisco. I did

S

Stacey 10:29

not lie. Yeah. Well, we thumbed through that record and went, oh, we need to get one. So we're ~~going to buy boots here in the next week or two. So folks, go buy books boots. I left leather by boots~~

going by books here in the next week or two. So I will, go buy book books, tell leather by books, either inside rip cord or out on? Was it fair view? Yeah, yeah. Okay, out on fair view. It's called the black book. It's published by Black Books. And they're out of San Francisco, California. So that's a good book. The other thing I want to mention, again, is I love to read. So I have this collection. And I've got people constantly calling me and asked me, where's the book? who publishes it? Who writes it? Where can I find it? As far as where to find it locally? Start at Crossroads Lobo books, curious time sometimes has bad attitudes, and on our backs, magazines, those are also good sources of information books. Some of the publishers that publish the information in the back of their books is like rosebud. Yeah, who do a lot of fiction. Let's see. What's the other one? Nyad. presses. Good,

J Jimmy Carper 11:46

but they have some like real basic things. Yeah,

S Stacey 11:49

yes. Oh, they've done some they've done some interesting stuff. Oh, really? Yes. Oh, yeah.

J Jimmy Carper 11:55

Allison publication? Oh, yeah. Sold Allison. Yeah,

S Stacey 11:58

yeah. But Rosebud is really neat, because when you get there, the pocket books, paperback books, they put a list of all their other books in the back. Oh, cool. So the last quarter, the book is filled up with all these other books. So that's a good place to get them. I guess I'm going to start with nonfiction. I particularly love fiction. Oh, I do too. So as you can see one and a half pages of fiction. Okay. But my nonfiction are three basic books that everybody needs. First and foremost, SM 101 authored and published by Jay Wiseman. Crossroads or Lobo can get you a copy? That's right. Okay. The next two books are written by a couple of artists out of California called dose Darcy Easton and Catherine Lisette. It's the topping book in the bottoming book. Oh, excellent. But are they excellent books. I've enjoyed them both. They're light and they're easy to read, which is great for us fiction. I don't want to get into all this heavy stuff. That takes all the fun out of it for me now for short stories. Yeah. Okay. Well, you read a collection of different stories by different artists, or different writers. Yeah, that's how I started reading. Me too. That's exactly how I started reading. There's much of sluts Oh, that's great, which is edited by Pat Calafia and published by Allison publications. To good book. It is excellent. But doing it for data. You

J Jimmy Carper 13:33

doing it for data? Yeah. Excellent. I'm in the middle of reading that one right now.

S Stacey 13:37

It's fun. Again, done by Pat Calafia. Published by Allison coming to Power BI Samos Yes, this one may be a little hard to find but keep asking around yeah, we'll find a car

J Jimmy Carper 13:49

yeah, you may even want to if you're in the Montrose area, go to Half Price Books. Oh, witches on Hyde Park. It's catty corner from the post office great because they have a huge, huge gay and lesbian section. Good. You know, like, four, four or five bays of books. Just Hyde Park Hyde Park. Okay. Hi. And wha

S Stacey 14:18

and wow, okay, great.

J Jimmy Carper 14:21

They have just a huge section. That's kind of the way I do it. First, I got a half price if I'm looking for anything in particular, go there first and then you know, logo Crossroads or Inklings good? Yeah, good. Okay, great.

S Stacey 14:35

Um, let's see leather women wanted to excellent. Oh, loved him, both edited by Laura and two, published by rosebud. Then there was another one called passage and other stories. Again, published by rows, but some of the books I have are straight. Excuse me, some are gay man. A lot of mixed yes some are mixed. Some are all lesbian. Yeah, so it just I've just collected them so it's just a mix okay some of the fiction here comes the long list and I won't go through it all necessary evil the throne trilogy fun fun books the written by Artemis Oak Grove done by lace publications and there's three books in each book. The first book is raging peace where is I don't remember all three now I didn't write them down and throne of Council is the third one. Okay, but I don't remember the second one. Another pet clivia is Doc and fluff.

J Jimmy Carper 15:44

Oh yeah. Or yeah,

S Stacey 15:46

that is really a fun book. The Anne Rice Oh yeah. wrote under

J Jimmy Carper 15:53

a n Roquefort or something something like that.

S Stacey 15:56

She wrote the beauty series Yes. Which is claiming of beauty beauties release beauties. Punishment. As a matter of fact, I

J Jimmy Carper 16:04

just bought that trilogy for Jim. It's excellent.

S Stacey 16:06

Excellent. And Exit to Eden which my leverage reading right now. It's great book. It has nothing to do with the movie. Nothing. But the movie is fun. If you haven't seen it rent it. Somewhere like this by Pat Aerosmith. It's okay. Not one of my favorites. It's a good starter, I guess. Nighthawk really scary book. Yes, kinda dark, but it's kind of sets off some of those interesting fantasies in your head. And that one's published again by lace publications. The Thrawn trilogy is done by Alison. So a lot of these you've heard of one of my favorites. I love the movie. Excuse me, prompted me to buy the music from the movie. Bought the paperback then found an old copy of the original hard bounce. Nine and a half weeks. Oh, yeah. Excellent. Wow. Excellent. It is straight. Yeah. A guy topping a woman but it's a good book. Yeah. Neat movie too. Neat movie. One of my favorites. very erotic. Yes. Very. Then Patti Davis. She wrote a book called bondage. Again, it's men and women. But that's okay. It's fun. And it was put out by Simon and Schuster. Wow. So that one surprise kind of like, oh, okay, we're gonna get this. Go figure. Yeah. Sarah Adams. Who I also believe is Laura Antonin. Wrote the trainer, the slave and the marketplace, another trilogy. But they're good. They're good. Excuse me. They're along the lines of exit to eat. Okay. Okay. private lessons. By Lindsay Welch now we're getting into the Rosebud and rhinoceros book. Okay, okay. private lessons. As a murder it's a mystery. Oh, all sit around SM all the people involved are involved in the Fetish lifestyle or SM lifestyle. One way or another done written by Elizabeth Oliver and published by Rosebud and then I think we'll stop there. Let you play a little music and go on there okay, cuz you've got some music you want to play?

J Jimmy Carper 18:34

Oh, well, I've got a couple Yeah, another local artists pink, who I believe is going to be playing at Pride fest. This is her CD from last year. I don't have the new one yet. But she did a remake a kind of a dance version of an old country and western to see if you remember it.

S Stacey 18:59

Think with

J

Jimmy Carper 19:01

beautiful body. If I told you you had a beautiful body would you hold it against me and you're hearing it on after hours square radio with attitude on KPFT Houston and ke O 's College Station. I'm Jimmy Carper. And with me is Stacey. And we're going over a list of s&m fiction. Yes.

S

Stacey 19:23

Yeah. One thing one point I forgot to make while I was on I remembered it at the break was people the scenes you read in these books are fiction. Absolutely.

J

Jimmy Carper 19:34

It's not. These are not real life, folks. That's right.

S

Stacey 19:39

They can be but you better be safe, sane and consensual when you do it. Mm hmm. So SM murder. excellent book. Good mystery really. It's not typical the person you think did it didn't do it. The person you think did it didn't do it. The person you Didn't think did it though you go great one. Um, oh, that's okay. Two other mysteries written by a lesbian mystery writer. Her name is Kate Allen. And it's tell me what you like is book one. Give me back my secrets as books give my secrets back to book two published by new Victoria. Both good books written well, they're good that's it for the SM

J

Jimmy Carper 20:33

Okay, fiction okay,

S

Stacey 20:36

then I've got some erotic short story oh good some non ad there may be I don't remember it's been a while since I've read some of these one published by down there press called Harada Oh yes, I've got that. Yeah, you can probably pick up at curious times because I believe it's mainly feminist.

J

Jimmy Carper 20:54

Yeah, you could probably you can probably pick that one up at either Inklings or Half Price Books.

S

Stacey 20:59

Okay. Great. Dreams and swords. Edited by Katherine forest. Published by Nyad.

J

Jimmy Carper 21:07

Okay, yeah. Katherine forest. Excellent. Yeah, yeah. Her stuff anyway. Yep.

S

Stacey 21:12

Home in your hands. Leigh Lynch. Oh, is the wider range.

J

Jimmy Carper 21:16

She is great. And she does just some of the best short story writing I've ever run.

S

Stacey 21:22

Yeah, yeah. I've got one of her books, where she did a whole story. And it's more geared towards the people who lived through the 70s in the real defined roles. Right. Any gut kind of boring?

J

Jimmy Carper 21:37

Well, yeah, it's your basic Yeah, a lot of it is yeah, yeah.

S

Stacey 21:42

And that's done by Nyan. Another one called brush fire or bushfire. Sorry. That's edited by Karen Barber. Published by lace, getting wet, published by women's press, shoulders by firebrand players and pleasures. And I think Robbie summers got a third one out along those. Again, by Robbie Summers is the writer Nyad is the publisher of erotic Nyan by Katherine forest and Barbara Gere, again by Nyad. And then there's lesbian Bedtime Stories one into Oh yeah. Edited by Terry Woodrow and tuft up. Those are nice. And then NLA has got a whole collection for the guys. Oh, yeah. But there it's still good. There was one in here. Well, they've got Pat cliffie is doing it for daddy in here. Is true Benson

J

Jimmy Carper 22:41

now by John Preston. Yes. Anything by John Preston. Is it really? Yeah. Anything?

S

Stacey 22:47

Three other books for him. Now five others. Yeah. So folks, anything by John Preston, which is edited by John Preston. Oh,

J

Jimmy Carper 22:56

yeah. He's like the granddaddy of erotica. s&m literature

S

Stacey 22:59

for men for men. And so he

J

Jimmy Carper 23:03

he died Jamaica. Just last year. Yeah. Scary. Yeah. Yeah.

S

Stacey 23:08

I don't think Pat cool. If you would like to hear she's the grandmother.

J

Jimmy Carper 23:12

Probably not. But she's she's certainly I mean that. That's the name up there. I mean, she's just done so much. Cool. So much.

S

Stacey 23:23

All these books. I recommend reading the fiction. They really do. It's a blast. Yeah, they're short stories. But if you really want to get into it, and you're serious about

J

Jimmy Carper 23:33

get some of those Yes. 101.

S

Stacey 23:37

Start there. Yeah, read bad attitudes. Read the leather journal, read on our backs, read anything you can get your hands on.

J

Jimmy Carper 23:48

J Jimmy Carper 23:40

And if you're a guy you try the Leatherman Sam books,

S Stacey 23:52

Letterman's handbook. There's a leather man's

J Jimmy Carper 23:56

are with women. Yeah, I wouldn't advise it for women because it's really geared toward men. Yeah, yeah.

S Stacey 24:03

Leather man leather journal. And I know there's a couple of others.

J Jimmy Carper 24:07

Oh, yeah, lots. John,

S Stacey 24:08

what are those?

J Jimmy Carper 24:12

Yeah, dark triad is not here. It's like John pop up and tell me. He's gone. I know it. But I think they got an earful on literature tonight.

S Stacey 24:22

Yes. Oh, yeah. I'm sure in LA if you want to get ahold of them in LA Houston. Their peal box is 66553 Houston zippers. 77266 Dash 6553 they can get you a list. I don't know how I got this list. But it's got all kinds of books. Good organization. Yes. Oh, yeah. And they're the ones that really started the safe, sane and configure

J Jimmy Carper 24:47

bad. You bet. You bet. That is neat.

S

Stacey 24:51

And it was very prominent at TLP that weekend. So it was fun. Did you put some more music in are we gonna do safe side?

J

Jimmy Carper 24:59

No. Ready for Tiffany? All right. Okay, waiting to hear Tiffany.

S

Stacey 25:05

This is a prelude. I guess we could call it a prelude to the kiss. Tiffany who is in fist. She is also currently Ms. Texas, Ms. Texas letter pride 96. I did an interview with her almost two months ago now on lesbian safe sex. And this is probably the end of it. Okay,

J

Jimmy Carper 25:30

here we go. And you're listening to it. After hours.

S

Stacey 25:34

KPFT 90.1 Houston, ke O 's at 9.1 College Station, queer radio with attitude.

∅

25:44

Like I said, why I do what I do and practice, reach so much. I know that for lesbians, some I've heard both arguments. Some lesbians don't want to use a gentle Damn, because there is no tea because they don't have the taste. Right? Honestly, I know quite a few more lesbians who are more willing to perform oral sex. Because they don't like I mean, because there's, there's a hindrance for the taste and being them. I mean, like I said, That's it. Yeah, it comes from both sides. It depends on what you like, it depends on what you want. And

S

Stacey 26:18

okay, but you can still feel buddy through that thing. Yeah, cuz I just, we just unwrapped a condom in this lesbian safe six, she gave me we made it into a dental dam. We just unwrapped it is very thin latex, as you can see through which is much better than a demo, which was very sick. And what I did was, I put it against my elbows on the inside of my elbow, so you get a lot of body heat, and you can still feel

∅

26:42

body heat through them. Another thing that you do is, is that that's where your lives in your edible gel come in. Now you want to make sure that it's always water soluble, so that it won't

break down the latex because that's, you know, if you're going to break down the latex with the lube that you're going to use, you're taking out the whole point of safer sex.

 S Stacey 26:59

Okay, so when we go to when people go into the store to buy lube, your local grocery, your pharmaceutical, we need to read

 27:06

the content, read the contents. Most of them will say water based personal lubricant. I did one ky is a good one. Astroglide is a good one.

 S Stacey 27:17

Okay. What about and this is, I guess, because I'm a little bit older than you. I grew up with baby oil. No need to know, any oil based Pedic breaks down latex. Okay. So don't use baby oil with your latex. Right. Great. Now, what about gloves? I know of a lot of people that find them very offensive.

 S Speaker 5 27:42

I love gloves. Well, why did they find them within?

 S Stacey 27:44

Again, if they can't feel anything?

 27:49

They may not be wearing the right size of glove. Oh, I knew there were sizes of yes, let's come in different sizes. They're always the one size fits all. But I've always looked for the small, medium or large. And I have very small hands. So I need a small glove. A glove is supposed to be tight. If you've ever seen surgeons on any kind of shows or whatever I mean, you can see it's just like you can see through this condom when it's rolled out. Right, you should be able to see your hand through that glove. Okay. And you know, this one that I have right now. I mean, I'm going to put it on and you're going to know it's already in my hand because you know, yeah, it needs to be tighter and tighter it gets the more feeling that you have, I can still

 S Stacey 28:33

feel your buddy tempo. Yeah, of course you can sow there. I

28:37

love the sound of it. I hear that and I'm wet.

S Stacey 28:43

Okay, all right. Now for those of us that have fingernails and use gloves, one of the things I heard, because I love my fingernails, I absolutely refuse to cut them. One of the tricks I learned was putting on two gloves, maybe three years unnecessary. But I heard you can put cotton under your fingernails or over your tip and then put the gloves on.

29:06

If you've got enough time and enough patience it's been my experience that needed the moment you're not thinking about cotton and in the tip of your fingernail I have found that it is much harder and this is again why I encourage people to actually open up the Tech Tech see what it takes to actually break one in the act of what most people are going to be doing with the gloves you're not going to be able to break at latex is a very strong material but again, always test what you're going to be using in papers like before the SEC SEC SEC SEC actually comes to fruition Okay, so fingernails cannot go through these gloves they can but it's probably not going to happen during during a nap during the theory of sexual acts. I mean you you would have to really be trying I think to try and get your nails penetrate the only problem with nails and this is another thing I put finger caught you In my favorite tech pack, and we don't happen to have any here, but I put things in my super six pack. The only problem with nails is that things will not normally work with people with nails. Because of the length. It depends on how long your nails are. Finger cluster good if you're not going to get really deep into penetration, fingerprints are good for mouth and just for digital penetration. They're very good, but I prefer gloves. Because they're there, they cover so much more space.

S Stacey 30:35

Now only books, go back to the gloves. Can we buy these just anywhere do

30:41

we have to we have to go to a specialty shop for my my wine at Ekornes or Walmart any kind of a drugstore. The only problem is, is if you have a problem with the powder, you always need to check. Most of the gloves that you can buy just in regular drugstores will come powdered, or at least with some with some form of it's usually powder online, because they're easier to get off. Okay, yeah, and if you're not allergic to the powders, and usually they use a very hypoallergenic product, but some people are very sensitive. If you're not allergic to the powder, the powders on the inside of the glove, it's not going to harm your partner. If you are allergic there, you have a couple of options. They do sell them non powdered, but you usually do have to go to medical supplies store to try and find those. Those are important the best gloves in my opinion, because that's where you're going to find small, medium, large, non powdered, you're

going to have more of a more of a variety of medical supplies store. Or since gloves are are, are what they are, you can wash out the powder. I wouldn't wash it as just a glove. But I would wash it you can make a dental dam out of love, right? And we would again like you said in the heat of the moment, you're not going to grab your gloves and run into the exact same can rinsing it off and off. Exactly. So I wish used to have everything prepared before I'm gonna start just because I don't like to break on

 Stacey 32:14

the moon Nice. Wouldn't it be nice? Yeah. But what is something something that women and lesbians can do in the heat of the moment?

 32:23

In the heat of the moment, you can do a lot with a condom.

 Stacey 32:28

Now I'm thinking about the gloves would switch to the condom, then

 32:33

in the heat of the moment with the glove? Usually, it's like it's the preparation beforehand. I mean, chances are you I mean, you're going to have to go out and buy gloves at some point. Right? Labs are very non red, I've noticed that gloves are very non threatening for most people. Because labs, you don't mind taking them out of the box, right? You're not embarrassed, right? They're seen products. So I really I really like love, chances are you're going to have had to have gone out. I mean, if you even bought them in there, you've had to go out and buy them, right? You're gonna know what the powder affects you, you're gonna know all of that stuff. So actually, in the heat of the moment, gloves are probably one a very good choice. And my other favorite choice in the US a moment is of course, Saran Wrap has never been gotten out of their houses.

 Stacey 33:18

Just a minute. I've got that question down here. Now let's keep it general then. We've got one here. It's just a square piece of latex. They come colors or not this one just happens to be purple. And is much thicker than a condom Moore's law. I mean, you can stretch it over your hand and still not see the hand right? Why is there a difference? Why is this? I mean, why would pay for the use it wasn't you I mean, it was never invented for safer sex. And so we've just kind of adopted it and used it. I don't like don't VMs maybe because it wasn't you know, intended for it takes so much tongue muscles so much is to get through that it's a little hard to hold

34:07

to hold it over your mouth. And actually one of the other problems is is that is it your your partner if if you're going down on your partner, chances are they will they will overflow if you will overflow the perimeters of the dental dam and so I put one in there because it's such an icon as far as as that's something that that people usually know or relate with lesbians safer sex I put it in there. But I always make sure that people know how to make use of the amount of a condom make a deal damn out of a glove use the aura dams, which is a which is a mask and order them is is actually made for oral sex and it actually has a reservoir for your tongue and put it over over your head. I mean, it's not so you have over your head completely, to not have to hold it and your hands are freed up kinda hooks to the back of your ear. No, no, it comes all the way around around your head. Okay, it ties to the back of your head. It doesn't tie. It's one. It's one whole thing. You take it, and you put it up to the front of your face. And you call the you pull the back up over the back of your head. Okay, good.

S Stacey 35:22

Very good. But those available at drugstores or do we have to go to specific shops to get her more what?

35:30

I have seen them at stores. I've seen them in drugstores. Usually what I do is I get a medic edit condom shot. The problem with our dams, and this is why give other people all kinds of options is or dams are very expensive. Oh, three of them will cost you upwards of you know, it could be up to \$20 Just for three. And some people like 406 a little bit, but not that much.

S Stacey 35:58

Okay, let's go back to the everyday household item that we were talking about earlier. Saran wrap.

36:02

I love this stuff. Everybody's got it. If you didn't if you you know weren't expecting to go out and find somebody that night and you you bring him or her home particularly her since we're talking primarily about lesbians safer sex. You get there you get home and you think, oh my god, I you know, what do I do? I don't have my condoms with me. I'm out or they're all past their expiration date because it's been so long, right?

S Stacey 36:27

What do you know, condoms at expiration date condoms. Have a ring. Okay, well, we'll make sure that you know, there it is right there. It's on the back. Now they're calling do they usually laugh? If they come out of the factory, they usually have a shelf life was about four years. So

problem with expiration dates and condom is. If there's no Noxzema mind on it, it takes like three years off expiration date, people don't realize that they're not small mine actually breaks down the condom over a period of time. And also this is something that people may be allergic to. Yes, yes. Which is why you get the water based loot and yes, and which is why whenever I'm putting a female tip or six pack together for lesbians, I rarely if ever put anything with non optimal line in it. Okay, let's get back to let's move on to now. We've talked predominantly about lesbians. What about straight women? Can the strict woman use the dental dam over a over a gentleman lower extremities?

37:32

Over his anus? Yes. Not over his penis because it's it's like what I always say I love saran wrap. Right but it's not in place of a condom. You cannot wrap saran wrap around somebody's seen and then expect to have successful sex with them that safe. Yes, a barrier appropriate to the situation and for penetration. For vaginal penetration. A demo VM is not acceptable. Neither Saran Wrap either Is love a condom? Is it?

S Stacey 38:08

What about all sex?

38:13

woman's man, no, not unless it not unless it was mounting.

S Stacey 38:19

Again, condom is the best condom?

38:21

Is it because it's gonna catch everything. Okay.

S Stacey 38:25

All righty. That clears that up. Okay, back to let's get back to the saran wrap because it's there. It's cheap. It's available. Everybody does it. Everybody's got it in their house. But I love about saran wrap. You can pull it out. And when you lick it when you get it wet, it sticks and it frees up your hands. Oh, it's fabulous. It's the Wonder material. Never the thing that I that I that I usually tell people about saran wrap. I don't know if you know this, but they all taste different. All the different brands tastes different. You know, so my personal favorite. You may not like you know, again, you're gonna have to taste your ceramic. Okay, folks, everybody go to your kitchen. taster saran wrap the oven handle, chances are it's not it's I mean, chances are, nobody's going to be allergic to it. But I really recommend not using the colored because you'll

come up with a pink face that kind of really does come off. So I usually try and make use of those clear donco to use a holiday variety. But yeah, you can make it as long as you want, which I liked because you can actually have your partner basically sit on it and you know, fold it up. I mean, you have got the whole area there and it's wonderful. Another thing that that makes oral sex fun with saran wrap. It is soaked in. Yeah, it's so effective. Is the barrier appropriate to the situation and with lube. You don't even know it's there. And I know people don't believe me, right but when she put lube on you're on Your partner right and put the saran wrap over it. And actually, it's even more effective. If you then we'll go ahead and put lube on the saran wrap and then double it over so that you have lube in between two layers. Saran Wrap, okay, it's not even there. I swear it is. Wow, there. You know Wait, I'm gonna wait. Okay, um, now you can't definitely should not use it for penetration. No, no circumstances great. And he doesn't have any powder or any minoxidil nine or anything on everything. No, not cool. What else can we use? What other handy dandy things around the health? Dental, the amount of love right? So and we got that out. But did you know how to make one? Nope. Oh, go ahead. Let me go into it real quick. You cut off the four fingers, okay. And then you pick up where the pinky was cut up the side of it. That epic where the pinky was before he can write and the sum becomes return reservoir cool. So you're trying to work so hard to find anybody who can actually fill up the sum if you can't I really want to meet sudo I said why with those types of things. Sorry, hear me I love you. Let's get back to also the spring because I'm sitting here with this simple dam and you're not getting your nails through it. Or you know I am not and I are trying hard aren't Yes. And I have long fingernails very lonely, but it's very hard. Yeah, in your rings. And that's another thing to be careful of is jewelry. Yes, jewelry jewelry is a big Yeah.

41:39

Okay, b She's hurt, she's hurt her hand. So anything that is going to cause an opening that you know, I need to make people not not practice good hygiene before that. But please don't brush your teeth before sex because that creates an opening into your bloodstream. Especially if your gums leave any opening into the bloodstream automatically become a possibility of transmission and that's where things like print can become dangerous because say for example, my partner has a canker sore in their mouth and I have just brushed my teeth we both have two openings led to blood it has nothing to do with saliva, it's blood blood. It's just going back

S Stacey 42:23

so now we should put like shirts and lifesavers in these little stainless

42:27

anything but but please don't don't brush your teeth and that's another thing you know don't have to say sex and then go in the bathroom and use for toothbrush because
