So that's why in the brain, actually Drew Barrymore is on the phone and, and, and the guys quizzing her about, about, about scary movies. And the serial killer who is on the phone. And he's like, who was who was the killer in Halloween? She was, um, Michael Myers. Well, Mike Myers was hosting the MTV Movie Awards. And so they did this thing was with with him on the phone, like, who's your favorite guy from Saturday Night Live. Michael Myers. Kind of funny. To be there. I'm sorry. Continuing on. And I know and bind that Houston, we're talking about pulling together and running a van for those interested in running up to Boston for the conference. You know,

... . . . .

Kirk Keevert 16:50

I think it'd be so much more of that. I think there should be fans that go to everything. I knew I was going to venture off into a whole other story all about me and you just don't care. So go ahead. I'm sorry. So So we're actually we do care about oh, pretend all you need to. Okay, so. So this is instead of the usual musical segue that we do, we'll just

Jimmy Carper 17:12

say you're listening to after hours. We're radio

Kirk Keevert 17:15

with attitude to Houston and ke O 's College Station. That's it. I just throw all this stuff extra stuff in and

Gigi 17:21

I've got one other thing. Do you? Yes. Are those pagans out there?

Jimmy Carper 17:26

Oh, our friends the pagans. Yes.

Gigi 17:29

The Christmas rebels ex Celtic celebration is the

Jimmy Carper 17:34

most fantastic. This

Kirk Keevert 17:36

is the thing. This is the thing that you guys were talking about last time around Christmas, after you had come back from it. And we're like, oh, Clark, it's so fabulous. It's so wonderful. Oh, it was tonight

Jimmy Carper 17:48

to get those tickets early. Yeah, go get the tickets early. Good. But you know, double the performances on and have selling they sell out

Gigi 17:56

every night. The performance For ticket information call 713-668-3303 Because it's all Celtic this year. Yes. And that's. I mean, Miss GiGi does the props and

Jimmy Carper 18:14

then kilts I love.

Gigi 18:17

Men in kilts are even making a straw man. I mean, a Wicker Man. I'm sorry. There's gonna be some straw in it too. And it's gonna be fabulous. They are lining up some music from all over the world for the show. I mean, they are getting people from England from Scotland from Ireland. Oh, yes. So it should be really a wonderful pagan celebration of the Winter Solstice. And it's going to be in a new place. It's the Morse opera house at the University of Houston campus instead of at Rice.

Kirk Keevert 19:00

See, I told you those were too loud. Those Those were the ones that made me have that I have the feedback last time. Well, I don't know where it is. Okay, nice. So it's uh, so So that was the hormone news for this week. It did it did it did it did three. And now it's fine that time. Yeah. I love you. And you and you and you. I love you. It's fine at GiGi Hello.

Gigi 19:37

And tonight, I have guests with me. It's the Vita and she is working on a new CD. It's gonna be coming out at some point called release. And I want to kind of turn it over to you for a few minutes. Can you talk about the plans? where you're going? What's happening? Because I know that there's a lot that you've been working on with this.

20:14

Well, I think this is

Gigi 20:18

what number seven? Something in there. Anyway, seven. Oh, there we go. You're on.

20:35

Number seven. Okay, yes, I'm DaVita. And where we're at today is with a project that's entitled release. And basically, it this CD has songs on it that deal with love that deal with inner harmony, inner peace, inner searching, and just growing within oneself, because that's where we have to begin with to continue on with our life. The first song that I have on on tape at this time, is a song entitled, we come from the bayou. And this is a song about Houston. And this song just popped up one day, and I just wrote it out. And there it went. And it's gone through several transformations. And we'll go through some more until that point where the CD is compiled. It will, it will go through its changes, just like all of us do. So, anyway, that's the first tune on this song on this on this particular project. So anyway, I have this on tape here for us to listen to here. 90.1. And so good about that. Makes a difference.

Jimmy Carper 21:59

You're ready to go to it. Sure. Okay, that's that's your you're listening to after hours on KPFT Houston, and ke O 's College Station.

Gigi 22:18

Ah, that was good. Hey, well,

22:21

that's where we're at. We come from the bayou. And it's actually a very beautiful place. We are here in Houston, Texas. So that's where we're at. Cool.

Gigi 22:33

I just finished reading a book. And you know how I go with books. It takes forever. But I've been sick with a cold all week. So I've had plenty of time to read by red dye fried green tomatoes. And were they fried? Oh, it's the story. I don't know how many people have seen the movie or read the book. But the book is just awesome. And it's about some lesbians back in the 30s 20s and 30s. Is that right? And it's just they ran this little coffee shop. Food kind of place along with a small town railroad called the Whistle Stop. And one of the main characters in the big was eyes doing things, helping people out during the 30s the depression. The hobos would come in and get meals that you wouldn't charge anything for and and it was just one of the things that really overwhelmed me about this whole story. And every time I see the movie, I feel the same one. It's just the love that's poured out. The Caring the giving to people. And I know that's a big theme and your music works. Yes, it

24:04

is. Because we we have to strive for one has to strive for, for the love. Sometimes we live our life and we're in society as it is today. And there's so much hate and so much ugly, that we have to separate that and go okay, we don't have to follow that. I don't want to do that. There's

so much beauty in the world. And sometimes it gets over overcast by the ugly. And it takes a moment just to sit back and go Wait, how can I redo this how can I refocus this how can I re apply because that makes everybody involved with one situation more positive and, and and capable of loving one another. So I

 Gigi 24:53

think one of the things we live in such a materialistic society now and we lose touch with people and sometimes we see the people on the street and, and they become numbers, they become something far removed. And it's like, you know, a lot of times it just takes little things to reach out and, and help people. And it can make all the difference. That's

 25:18

right and also at work amongst helping people. People also have to realize they have to help themselves. Because there does come a point where, wait a minute, okay.

 Jimmy Carper 25:30

So somebody has to want to help themselves. Yeah,

 25:34

exactly. And then we've we're all work better together and stay positive and loving, which goes into the next song, do you know that I came for you is about two birds. And it's not necessarily a love relationship. It's about just a well, I say love relationship, because I feel like majority people feel like love is. Oh, baby, baby, baby. But people have forgotten that you can express love, which is the person sitting next to you. Mm hmm. And keep your pants on. Right? Oh, yeah, but express that exactly. That love and always

 Gigi 26:13

sexual. I mean. No, do you have?

 Jimmy Carper 26:20

I know what you mean?

 Gigi 26:21

I do have love for my sister here. And it's never been sexual. Or almost never.

26:29

I do remember one night Oh, nevermind.

Gigi 26:33

Oh, I'm so bad.

26:37

But anyway, so that goes into our next tune. So we might as well just go ahead and fly on through it. Okay. Birds. There we go.

27:13

Got a small house on a small yard

27:19

two tall dogs and a tall car

Jimmy Carper 27:32

Okay, hold on here. You've done something wrong. That's the first song. Well, you to talk about. Okay. Well take care of lying

27:44

on through to the second song. And oh, well, let me go ahead and just talk about my progress. Yeah, Project projects take quite a bit of time. And as I've been working through this, it takes anyone who does take a project under their wing say, bingo, I'm going to do something. It takes so much time. I just want people to understand and realize that.

Gigi 28:07

Yeah. What's that? I know, You've done a lot of work on these songs. You've gotten them copyrighted and

28:15

yes, they're all copyrighted. I'm also working on some multimedia. And I'm in the next process of this project going to go on ahead and enter studio And then I will actually digitize the works

of this project, going to go go ahead and enter studio. And then I will actually digitize the works and add more instruments. And I'm making visuals to the songs so that they can be viewed on the internet, they can be put onto a compact disc. And, and expressed in multiple ways. Cool. So here we go. And do you know that I came for you? And I have to say this? I mean, I had a hard time with the title. Because at first I said, Oh, gosh, I can't and title something this Do you know that I came for you? It had nothing to do? Oh, yes, I know what it means. But it's basically it's kind of that deja vu I've met you before or Gosh, you've run into this individual. And bingo, you're you their guardian angel for that moment. You've run into them after 10 years of seeing them before and another time and another state and another country. And it's it's just that that energy that keeps maybe the relationships coming back to you which which I've personally experienced is really freaky. But it has happened and it does happen. And then also meeting new people and going on with life and find those people that help you grow. That just help you grow in life and that's the most important thing if used not growing in life, you will not become a flower. And, and that's the bottom line.

 Jimmy Carper 30:07  
Okay, now What song do you think this is? I believe

 30:09  
it's you. Do you know that I came for you? Yeah, it's just for you, Jimmy. Okay.

 Jimmy Carper 30:24  
That was good. He certainly was, I really liked that song.

 Gigi 30:31  
And it's all dedicated to EJv

 30:35  
90.1 FM. And, and we're just having a great time here. And actually, I just want to just telling JJ that I really appreciate you spotlighting me because this is in a process. And it's not the final product, but I'm really excited, where it's where it's been, where it's come to, and where we're at today. And gives me a little bit more fire to put in your mind. You know what, and keep me going.

 Gigi 31:05  
Cool. Tell me a little bit about what, what's behind that song?

31:15

Basically, it's just like I said, at the very beginning of the song, it's a song about be it two birds in my multimedia piece of work. It's it's portraying two birds. But it's basically two souls that help one another succeed. And I think us being the higher homo sapien, the higher mammal, like to think we are exactly right. That, you know, we do need a little off from another person, be it our husband, be it our wife, be it our lover, be it, Gosh, 10 years after I get married, someone I made, and gosh, I've seen them in another life somewhere. And it just strikes me dumbfounded. Let me hold on to the chair has been going out to the movies tonight. We watch the children. Hey, you. Wow. So that's where we're at. It's basically spirits colliding to help one another and ultimately, to help one another continue to grow. And that's sometimes as we get older, we tend to start fizzling out. And we have to keep keeping that little bit of candle going just to keep us going with our arty our ideas, because all of us there are

Gigi 32:51

because I know a lot of times it's you do lose a little bit of touch, you know, thinking about I had a dear dear friend 20 years dropped by the other day last night. And wow, it got me to thinking back at some of the things that you know, gotten into and started and some of the art projects and sculpting and yeah, isn't really, you know, just made my wheel out back to the back porch now. So I can start my pottery work again, somehow excited about that, but but it takes re you know, really looking at where you've been sometimes and then where you want to go? Absolutely. And getting back in touch with that creative side of oneself. And especially in the queer community, sometimes we lose touch with that part of ourselves. With all the day to day stuff, and like I say, we live in such a material world now. It's really easy to lose focus on that, that part of us.

Jimmy Carper 34:07

And all of us in the queer world transgenders really have a lot of soul searching to do. Yeah, you know. And I've been dying visions, the AIDS community. I know now that I'm taking protease inhibitors, I have to reassess my life because it's not going to end. You know, like, in the next couple of months, you know, I have to reassess my life because I'm gonna live Yeah. And so it's a lot of soul searching here.

34:39

It's right. Yeah. And it's when you when you finally start tapping in on it's like, wow.

Jimmy Carper 34:45

Yeah.

34:47

That sounds pretty good. You

Jimmy Carper 34:49

find out what's really, really, really important to you. Yeah, that's right. And that's that's the biggie.

34:56

I think we do tend to start losing ourselves. We stop are looking Oh, well, our job needs this. And we

Jimmy Carper 35:03

were brought and the days just pass and all of a sudden we turn around and the years have passed and we're our week,

35:11

refocusing on you, right knee.

Gigi 35:17

Community, I mean, part of the, the bind net program is always kind of focused on community first bat and unlocking a, you know, instead of being out there fighting each other, we can be out there working in helping each other and reaching out together and making our community stronger, absolutely

Jimmy Carper 35:39

we so that we can fight each other now, you know, we have to relearn how to get along with each other,

Gigi 35:45

and, but it's through getting along that we build strength and build bridges and come up with a united front against oppression. And, you know, I'm getting more and more in touch with this sexual repression that we live under. You know, it's like, learning more about myself, I'm beginning to suspect very strongly than I'm intersexual that I have both genders.
