 Scott Lewis 14:04  
It's a benefit for a mega house in memory of Lisa Lawrence, that high spirits Friday the 13th. So go out for that that'll be a good cause and something good to go for we 526-573-8526 KPFT Our next guest is Dr. John Antonio who has come in from Dallas. And Dr. Antonio is a sex therapist. And we're going to talk to him about commonly asked sexual questions.

Howard McHale 14:32

But yeah, that's right. Because you and I have no sexual probably have

Scott Lewis 14:35

no sexual problems whatsoever. But we're going to take your calls because you might have sexual problems. Look who's standing outside who's outside that. I'm waiting to two women that Sandy and Jennifer go over to the door to guns in this neighborhood. We'll get these guys up to the door and get them in so they can talk to our sex therapist. Exactly what they could talk to you about their sex life until we get somewhere phone calls.

Howard McHale 15:01

We need some photos. Anyway, what else is going on? You're looking wonderful as usual.

Scott Lewis 15:06

I feel wonder I know. How's that diet

Howard McHale 15:07

Scott Lewis 15:09

Howard McHale 15:12

Because you took off your coat. I'm here looking wonderful. I had such a good time. And Chris, my birthday has been wonderful. Thank you for making it so special this year.

Scott Lewis 15:21

Now, Dr. Antonio, I think we couldn't have come on in. Five to 65735 next to the doctor 526-573-8526 KPFT. One, I'm trying to think of a sex sex question that I could ask the doctor until we get a phone call. This is Dr. John Antonio. Sandy. Jennifer, Dr. John Antonio. He's coming from Dallas. He's a sex therapist. Do you do women have any? Any? You know, you've been at Sandia Jennifer met on the love connection four months ago, and they've been together very

happily ever since. And have y'all run into any sexual roadblocks since then, that you might want to discuss with a doctor something that something that might have come up that I mean, are y'all do y'all discuss sex? Do y'all do y'all? I mean, do you all say to each other? What do you like? Do you enjoy the or do you just kind of do it fulfill? You never really talk about it? Oh, yes.

16:21

The thing is, we constantly three four times a day, whenever we're together.

Scott Lewis 16:26

Oh, you have sex three and four times a day? Isn't that my time? I have sex three, four times a week and I'm worn out what are you to eating? What are you to eat? Lay there you know, there must be a lot of fiber in your diet or something pretty healthy. Do you do you talk a lot about what you like or what you enjoy or this is done or

16:52

in the beginning? occasion so so come up. Once in a while. She's fulfilling most my fantasy I have ever known that one will come up and she has some fantasies and like yeah, I'll talk to her like, when like, you know, during this exercise, we talk Alright, do you know

Howard McHale 17:10

any hang ups you'd like to ask the doctor? Any questions about anything or anything you might want to have any friends that might have some problems?

Scott Lewis 17:18

Or as well, we

17:19

always want sex what seemed like constantly wants sex?

Howard McHale 17:22

I guess a majority of the time has been always communication hasn't been. I agree. And I think that's the main the main thing in a relationship is that you always have communication towards each other. Can Yeah, but from a sexual standpoint, can there be too much sex doctor in a relationship? Is that become a crutch?

**S** Scott Lewis 17:41  
Or like a sexual somebody who's sexually addicted a sex addict?

**H** Howard McHale 17:44  
Well, to some people there has been that problem that they say that they're really too sexually addicted but what is sex sex is something that everyone should enjoy and should do all the time. And it's part of life you know, and there is no reason why we should deny each one of us from that. And I believe

**S** Scott Lewis 18:02  
I think that's the right answer. Oh, Doctor, I

**H** Howard McHale 18:05  
want to know what school you went to. I've got two I just got Do you have any sexual hangups? You know, as I do have a couple.

**S** Scott Lewis 18:16  
Do you and what does that Howard throw one of yours out? I'll throw one of mine out.

**H** Howard McHale 18:21  
Okay, I have this. Oh, no, I can't Sure. It's, it's all about sharing and opening up being able to spill the beans and admit to the fact that I have been on top on numerous occasions. Can we talk about this on the radio?

**S** Scott Lewis 18:38  
Yes, because I know where you're going you and I discussed this.

**H** Howard McHale 18:42  
I have a hard time ejaculating while I'm on top I have the same problem being the dominant position I can't I cannot do it. I've got to stop

**S** Scott Lewis 18:51

I think it's because I'm concentrating so hard on the work at hand that it's like I can't enjoy what my hands are but you know I'm concentrating so hard to like okay and out in and out okay keep going in out yes, it's like God this is such a chore

H

Howard McHale 19:08

well then you should change that but you have to do is move to a position that you're going to enjoy instead well that's on

S

Scott Lewis 19:14

the bottom

H

Howard McHale 19:19

shot go ahead doctor because I'm you know, I've been worried about this. Is it just the position that I'm not because I just I can't I can't I can't reach orgasm reach orgasm to the fullest. If if on the top person does that make sense? I don't know why and it's been like that my whole year all my life. Oh, really? Yes. Bottom but but it's just you know, sometimes like to jump.

S

Scott Lewis 19:51

Like, like people who go to bed with you that jump out the window. And he lives in a high rise

H

Howard McHale 19:59

so Am I doing something wrong? Is it the condom I'm using? Is it there's just seems not to be enough sensitivity is I just don't feel right. Well What position do you usually try? Let me ask you that and well if that's too personal let me let me suggest that you try another position because maybe the one that you're doing right now is in fulfilling that that sexual need that you have and maybe you should change it. And and experiment you know, other sex also a mental thing do you think maybe just some people were meant not to be on top? I think everyone is a universal kind of type of person. You know, we all enjoy either being top or being bottom. There's one to do. There's something to fulfill all our needs a doctor, Doctor, Doctor, give me the news. What can I do? I've got the blues. I want to jump the fence. I want to be top for a while. The next several years maybe? Because you know, I'm not as young as I used to be. And how old are you? 31. Good try and

i

21:04

you're still you're still very young.

**H** Howard McHale 21:07  
You ain't that smart?

**S** Scott Lewis 21:09  
You're listening to Scott Lewis and Howard Big Daddy McHale on after hours of continuing tradition on Kpf T Houston. 526573852 6k PF. T is the phone number. Dr. John Antonio in from Dallas sex therapist to the stars. He helps us

**H** Howard McHale 21:26  
out. He helps us out. So

**S** Scott Lewis 21:27  
what are some of your social hangups? Well, that's why that's probably my biggest one is that I really can't reach orgasm when I'm on top. Because I did. And it's really because I like young Nellie Hispanic guys. And then you get them home. And of course they're

**H** Howard McHale 21:42  
young married.

**S** Scott Lewis 21:48  
Back. So that's probably one of my biggest. And there was some time. Okay, let me ask you this. There have been a time or two where I have Have you ever just gotten Well, I mean, I'm not asking you why. But there's been a time or two that I've gotten bored investor base and and it's just like,

**H** Howard McHale 22:11  
well, you're not supposed to do it every time you drive to Randall.

**S** Scott Lewis 22:15  
But you'll be like watching it. And I don't know if it's because I've watched the same movie 800 times, and I just need to get that new movie, or what but it's like, you get bored. And like, there have been a time or two that I've masturbated for like, over an hour. And finally it's just like, nothing's gonna happen. gonna happen.

---

 **Howard McHale** 22:35  
Well, that's pretty good. That you can do that for an hour. And nothing has happened. I'm really amazed. You gotta change your movie. I believe it's time to read the new movie. You already know what's gonna happen. So that's already killed that exactly.

 **Scott Lewis** 22:52  
Well, of course, in adult videos, I kind of always know what's gonna happen in

 **Howard McHale** 22:59  
your TV screen is gonna get messy.

 **Scott Lewis** 23:01  
526-573-8526 KPFT. We're here with Dr. John Antonio, sex therapist to the stars. Sandy and Jennifer are in the house. That's right, Sandy and Jennifer. Right. Yeah.

 **Howard McHale** 23:16  
Happily married couple. Yeah.

 **Scott Lewis** 23:23  
You know, Dr. Antonio, they met here on a segment of our show called The love connection. And they've been together ever since. I ran into Sandy and Jennifer at Jr's the other night when I was receiving my coffee award. And they came over and introduce themselves. And we talked for a little while. And I gave him my number because they told me they live in a Hispanic neighborhood. And that there were lots of Hispanic men over there that I could hook up with. So the story again. So I get home the next day from the office, and there's a message on my answering machine from a guy named Eddie. And I call him back that night, and I leave a message on his machine. And he calls me back the next day and says, How come you didn't call me? I'm uncut, like you like, call me.

 **Howard McHale** 24:12  
Do you guys know Eddie?

 24:14  
Yes, he's mastered this is He's an assistant manager of the complex where I live, how old is he? He's 23. And go look and get really beautiful

 Scott Lewis 24:20

blue eyes. Oh, well, I called him during office hours and talk to did he tell you this?

 24:26

No, he just he and I went in the day for something and he pointed at your number. And, you know,

 Howard McHale 24:31

does he like big white girls?

 Scott Lewis 24:34

I think he's really intimidated. And he's real scared because I called. I called it I talked to him. And he was not ready. He was he was real nerd. Plus his manager was right there. He was telling me his manager was right there. And his manager knew the whole story. Because he said mask is calling. I said Scott Lewis and he goes, Scott Lewis is on the phone. And it was like a big production and he's like, can I call you back? My managers right? Someone else now he never called back. But he said he's on cut so you know I want to see him WHAT THE HELL YEAH ma'am a lot of phone calls lined up we're here with Sandy and Jennifer Dr. John Antonio sex therapist to the stars. The last one. We want to run in there and push it and we'll push it out. But now you have your headphones on so you can you hear the call? Yes. Caller Are you there?

Scott Lewis 25:45

hang up.

25:46

There are no hang up here, honey.

Scott Lewis 25:49

So So Martin, do you have like a question for the doctor? Oh, yes, I do. Okay. Is there a difference between

Howard McHale 25:56

the men in Dallas and the men in Houston? That does like a sexual hang up? Well, Howard, you have no business answering the Dallas Don't spit and they bathe?

Scott Lewis 26:20

off by a couple Martin. I didn't say that it was that direction. 33. Martin, what

Howard McHale 26:28

do you move to San Francisco bitch. So Doctor Oh, that's a personal question. That's not what the doctors here but he'll answer it. I'm sure. Why don't you Dr. Of course. Can

26:39

you repeat the question again? Martin, go ahead, please. Do you notice any vast differences between the men in Houston and the men in Dallas?

Scott Lewis 26:53

Circumcision is much bigger in Dallas. Much. It's much more. It's much more prevalent. Yeah. There's a lot more circumcised men in Dallas than in Houston. It's real popular up there. Oh, more busboys down here. That's right. Go ahead, Doctor. Doctor. What's your opinion?

Howard McHale 27:15

Scott Lewis 27:28

Martin, thanks for your call. Hi, Hi, Kate. Do you have any sexual hang ups?

Howard McHale 27:38

Not really. How's that? How's that? That water shower pick? up last time we talked about remember? I know I didn't have a name for it. How come? We're not done here answering the phones tonight with us. You want to ask the doctor anything? Yeah, I do actually.

Scott Lewis 27:54

Okay, go ahead.

27:55

Does he know anything about like AIDS and aids tests?

Scott Lewis 28:01

open ended question.

Howard McHale 28:02

Sure. What would you like to know about that? Do you counsel people? I think that everyone should get tested. If you're if you're sexually active, and you are really active in doing sex, please get tested and see where you stand on being HIV or if you're not. And if you are not, please wear a condom. It doesn't matter because it affects every one of us. Amen, please.

28:29

I just got tested the other day.

Howard McHale 28:31

And how are you doing, baby? I haven't got the results back. Okay. Well, no matter how it turns out, always realize that it's not the end of the world. And that you always have friends here and we all love you. Okay. And don't give up. I said Always remember that. Weather how your test will fight will turn out. Don't forget that you have a lot of people around you that love you. Okay, never get really sexy. Thank you very much.

29:27

I was wondering if we can get paid from all the time?

S

Scott Lewis 29:31

Oh, good question HIV from HIV from oral sex. Very good question.

H

Howard McHale 29:37

Well, you know, it's always safe to use a condom no matter what kind of sex you're going to have. Okay. So if you like to do that, have oral sex, use a real thin latex condom because it's gonna feel the same no matter what. Okay. So just be careful out there.

S

Scott Lewis 29:56

That's right. And come over to my house. Later, we'll test out that theory. Okay. Okay.

Scott Lewis 31:53

Hi, Ed. How are you? Oh,

Howard McHale 31:56

okay. Just okay.

Scott Lewis 31:58

Okay, you have a question for the doctor.

32:01

I just like to know, does it carry over from the childhood of the insecurity that being caught masturbating? And now it carries over with having to masturbate in front of someone or with someone

Scott Lewis 32:25

to reach orgasm. Oh, that's a good question. He's asking. He was caught as a child masturbating caught. Somebody caught him. And so now he can't masturbate alone. He has to have somebody else in the room or somebody do it for him.

Howard McHale 32:38

Whether or not discipline you discipline in you when you're doing masturbation is a weird thing, because masturbation has just moved off probably to mainstream with the judge and elders incident

Scott Lewis 32:49

moved into the unemployment line. But

Howard McHale 32:54

what she basically said though, was safe sex.

**S** Scott Lewis 32:59  
Exactly masturbate.

**H** Howard McHale 33:00  
You know, if someone would have told me about masturbation, they wouldn't have felt guilty for all those years.

**S** Scott Lewis 33:05  
But there's Wouldn't you say that this is this is a result of him being caught? Were you punished? Or told you know that that's wrong? Right. What are they doing when you say that that's or as a result of that? That's why his now he is not having a successful masturbation life alone.

**H** Howard McHale 33:26  
Yeah, I think he should, you should actually realize that it's, there's nothing wrong with that. And it was never wrong to begin with. It was it's a natural act. And

**S** Scott Lewis 33:39  
I'm sorry. So that'd be a break in the air.

**H** Howard McHale 33:43  
There breaking the air. Was

 33:47  
my path coming into the future?

**H** Howard McHale 33:53  
Are you afraid of doing it or in front of other people? Or are you afraid to do it by yourself? Or what? Don't be ashamed of whatever you have to do. Always do whatever you want. Like he's doing it now. It sounds like you'd be held party back there.

Scott Lewis 34:12

Well, anyway, all right. Thanks for calling Baba. Take another caller. That's a good point, though. You know, getting caught and it does have psychological impact later in life. Caller Are you there? Yeah. How are you doing? Hi, great. Who's this? Yeah, you? Yeah. Oh, my goodness, about their question. Okay.

34:36

I've been dating my boyfriend for about three years now.

34:40

And having sex we've been having sex you know, daily,

34:42

you know, as opposed to I don't know he's small. And I couldn't get off to a small one. I don't know if I'm doing something wrong or why you know,

Howard McHale 34:56

what do you like the person? Oh, yeah.

34:57

I love person there.

Howard McHale 35:00

Do you wish you had a bigger?

35:01

I know, it's kind of

Howard McHale 35:07

a herd feeling? Well, what what's the problem? Well,

35:11

I don't know, I just can't get off to it.

Scott Lewis 35:14

What are you the top or the bottom? On the bottom? You know what? All right, you too, down in there? You know what you need to do? What I would recommend, well, Doctor, what would you recommend? And then I'll tell them what I recommend? Well, actually,

Howard McHale 35:30

I don't think size should actually make a big difference in a relationship. But if it really does bother you that much, then you need to get out of that relationship. And, you know, look for something else, you know, because if that really actually is something that really bothers you a lot. I mean, why stay there? You're not going to be sexually attracted to him. And if he's not satisfying you in any way, well, then, what are you doing? Plus you're you're young. How old are you? I'm only 21 Oh, wow, gee, but don't don't grow up, you know, attitude your whole life. Because one day you'll get over 30 and go oh my god, I threw him away because he had a little dick.

36:12

I mean, this person is great. And everything. I mean, you know, okay, I mean, you know, he's real great. Well, then you ought to stay

Scott Lewis 36:18

with them. Yeah, and I arrived by a rubber appliance.

Howard McHale 36:22

Yes. There's zucchini hammer. Hammers.

Scott Lewis 36:27

How are you? You're the only person in the world I know that uses a hammer handle.

Howard McHale 36:31

Bumping hammers those rookie now the planet is all wrong.

Scott Lewis 36:35

That is all wrong. It's so Jeff don't ignore the hammer part. Did I mean by a rubber appliance? Have him use it on you?

Howard McHale 36:47

On that, girls, this is the 90s I know that. You do whatever turns you on. Maybe go to town girls. Okay. He

36:55

told me to buy a vibrator.

Howard McHale 37:00

I don't know why no, that hasn't worked or what? Get us a kink and put a condom on it. There you go, baby.

Scott Lewis 37:10

It's worked for Howard for years. Thanks for call. And

Howard McHale 37:15

that makes a lot of sense. It is. You know, it's sad because I just don't like people whose because, you know, I mean, just think of the fear of growing up, we should have a small penis, you know, how you you know how the complex you must have? Do you know what I'm saying? Not that I would know of. But just in case, no one laugh You know, I'm saying kind of, to get dumped because you have a small penis. And, and you probably have a big humongous heart I would be so I would just be heartbroken. Someone would dump me because I'd have a big penis or lots of hair. Or then that relationship was never actually worth it wasn't worth it. Exactly. Because you know that actual size does not count whatsoever depends on the person. And it's too bad that people look at that, you know, and instead of actually looking at a person if that's all if that's all you want in a relationship well, good luck and go out there and find it. Do you think do you think that might be just an age thing? An age thing? I just think they're really young. Well, I mean, still, you know, maybe I think our new generation hopefully will learn that this is you know, going into the 90s and we don't look at people just for what they have we look at people for how big their hearts are now hopefully. Right? Oh, spoken like I your doctor you a big romantic type person. Oh, it must be that Latin blood new

38:37

See? See.

 Scott Lewis 38:39

But you'd like some that Latin in you. Five to 657385 to 6k P F T Dr. John Antonio, six therapists to the stars. He has helped Howard have a sex life again. And that was the VCR was broken. And that was a chore. So Sandia Jennifer, what are you kids doing out tonight?

 39:03

You're just out driving around? Well, she came over and wonderful want to go let him come over here. But you know like earlier like you know when I first met her and stuff in the military, you know, find out what she liked. And now after four months I know

 Scott Lewis 39:19

you just because that's like you know that's called getting to know someone exactly. I've noticed in my relationship

 Howard McHale 39:26

this one has been four of them this week.

 Scott Lewis 39:31

Listen more I'm talking about the longest lasting one this in this year. Number two and

 Howard McHale 39:40

Thursday of last Thursday you have a good sexual relationship don't do I have a good sex

 Scott Lewis 39:46

lie about a good sexual like if you want to meet guys the and Camila my relationship I noticed that we you just do it you don't like you we didn't talk for a long time about the I like This I like that I want you to do this to me, I want to do that to you. It just, you just get in bed and you it

 Howard McHale 40:07

was kind of like searching for the North Pole you just hike around and wander and explore. I guess

40:14

it would just ask questions, what makes you feel good and then also kind of, you know, like, as I get to know her that also kind of food you like to eat that cook for whatever and we also we help out like, we'll go out sometime she'll by all by whatever we, you know, she, she comes over and you know, like sometimes I'll let her sleep later than I do or whatever. And it's just like we know pretty much now sexually with everybody what we like and what what kind of, you know kind of mood. We're always in great moods. Occasionally I get in a bad mood once in a while, but normally in great mood. We don't argue. We've talked we you know, if we have a disagreement work, we talk about it more and more how to and see like I hadn't been in relationship for a long time. And this is first one in long time and I think this is the first one for this is first one for her. So she'd learned and she's taught me a lot and I'm 41 and I didn't realize I talked to you a lot. Yes taught me a lot. I thought I knew everything and 41 years age, but I found out I don't

Howard McHale 41:13

want to find out there's always time to learn more. Yes, of course.

41:17

Sensitive spots we have in our bodies whenever new. Oh no. I didn't know as a woman. Especially on me that I didn't even know. Yes. You got some great sensitive solid.

Howard McHale 41:25

Is it true love gang?

Scott Lewis 41:28

No, no, not yet. Yeah, we're working on it. Well, what do y'all live together?

41:32

No, we just she stays a couple days a week. You know when she's not working?

Howard McHale 41:36

Does it does someone asking you if it's true love Does that scare you?

41:41

A little bit in the marriage thing because people think by now we should be married. I guess

Scott Lewis 41:45

it's the lesbian joke of what is the lesbian bring on the first day? A dozen roses. What does she bring on a second date? A U haul with all our stuff. Which is very true in the lesbian community as I've come to know it. I know so many women that they've had two dates and they're living together.
