SUMMARY KEYWORDS

people, sexuality, years, knew, gay, called, listening, love, person, sex, great, women, jim, married, portland, fetish, talking, life, guess, leather

SPEAKERS

Stacy Bolding, Jimmy Carper, Howard McHale, John Benavidez

Howard McHale 00:01

When you know, you can leave your pants on now,

00:04

you know, it was kind of just when she was talking about not being able to go back and deal with a man and all this and what I've been doing. I, the thought occurred to me and it's been my experience, I'm not just another pretty face, I have a degree in psychology, and I've done loads of counseling in my lifetime.

Howard McHale 00:24

Anyway, and it's never given me any advice.

00:27

I always say you just never take a bit. Anyway, the it's always been my experience that, you know, like the mom thing they've always known. I mean, I couldn't agree more they've always known. And then but the other thing is, when, in the in the intimate moments of married life, how could you, the people that I've counseled, it's been the most difficult thing to pull that particular part of it off, you know, and sexuality isn't like the total, I mean, everything involved in the marriage, you know, only 10%. But how can you keep the intimacy level the sexuality level of your marriage, going? And going and going and, and making it mutually satisfactory? and stuff? That's usually where the women that in cases that I've been about and counseling with him, the women have really picked up on this. Something's just not right. So when they did tell him was, yeah, and when they really looked at it a few days down the road, the anger was on the hurt and whatever. They said, Yeah, I should have known. It's like, you know, lipstick on the collar. And I mean, it's just like, I could tell Yeah, I didn't want to believe it. But our sex life just wasn't know by now. Bob, I know, you don't want that. Can you answer that real?

H

Howard McHale 01:41

Okay. That's where I'm, that's where I'm leading to? Oh, I know, you don't want to talk about sex. Right? Well, why this meant more

♀

01:47

than what he did. But

H

Howard McHale 01:51

I mean, my view is, I know you were making love to this woman because you were married to her. Not that your mind was someplace else. But were you sexually fulfilled? No. Okay, never. Well, that's not him is that we're headed

♀

02:05

to say I was never fulfilled as incorrect. There were there were periods of time that I was. But the vast majority of the time it was a with a play acting thing for me, I could perform fixed physically and I knew how to, to make the moves and do the things. But it was always within intimacy between any two people and most certainly a husband and wife. Whenever there's any strain in the marriage doesn't take any kind of you didn't get along that way. They had a bad day at the office, then. Then then the sex got worse. And the truth is, after about 10 to 12 years, there were there were problems that were related to my sexuality, that are that I exercise differently. And our sex life slowly dwindled

H

Howard McHale 02:52

away and will usually after 12 years in anyone's marriage, it dwindles away.

♀

02:58

Most certainly slows down and, and it finally dwindled away. And to the point that that vibe told her I was impotent. And with her I was and, and she had never evidenced a great desire for sexual relations anyway. And it was kind of like a relief for her that we could just move on to the sexist Welcome to Big doom. We helped each other and we're close. And, you know, we touched a lot, and we cuddled a lot.

H

Howard McHale 03:25

But do you think she loves but do you think down deep, she kind of suspected that something just wasn't right?

03:30

I think so. I mean, I've, I always believed in my mind that she knew from the day from before we married that I was that I had that I always had tons of gay friends. I mean, hell, my best man was gay. No, she knew that. She knew his gay but you know, she didn't care. I mean, she thought was great. She and I, she wasn't

H Howard McHale 03:51

married the best man.

03:53

I know. But I mean, retention. Again, we

03:54

went we had gone off him. And we went off before we married, we took went off for a couple of weekends with with a gay couple, two guys that we were that she knew. And we went out, I went off with him. It's kind of bizarre, really. But it just the sexuality just starts fading away. It's hard to do at the beginning anyway. And then finally, when other problems arise, you just kind of let that go away. And a lot of it I found with women and my the listeners may look at it differently. But with women, I found that as long as you're you're warm, and you're close, and you, you hold them and you find all them and you you're close with them that much of what they enjoy about sexuality is the closeness as opposed to men who tend to face sexual practices acts as being getting it on getting it hard doing whatever needs to be done to have it done. So just a different view of sexuality.

04:50

Like yeah, I couldn't agree more. Yeah, that's been my experience.

H Howard McHale 04:53

So now she doesn't she doesn't have a sexual she doesn't have any sexual partners. Now.

05:00

If she does I'm not aware of okay, I would be shocked if she did

H

Howard McHale 05:03

now is your sexuality has grown into where it should have been in the very beginning. It has your sexual appetite increased? Are you more fulfilled? Do you yearn for it more. The

O

05:18

biggest problem for me when you when you're married and you're gay is that all of your contacts are first even in the dark in the corner and was stolen minutes here, there and yonder. It's all, it's all a big lie. And you do that for 25 years, and you develop habits which are difficult to break, which is developing close warm relationship with some of the same sex when you just simply don't have the time or it's not the right thing to do. And I have found the hardest part for me, has been defined to overcome what I would call my own homophobia, which is afraid of being gay and going with gay people, even though I'm gay. And I know all that it's just enough socializes so much for so long, that it's hard to get it out of my head.

H

Howard McHale 06:01

Well, listen, let me tell you this. Also, if any of you listeners want to get into this conversation here on 90.1 KPFT. Just remember our phone number nine, what is her phone number five to six KPFT. And you can get in the conversation with Big Daddy and little daddy, go ahead big. I know, Jim, you got something to say. I was just

O

06:21

gonna say that. I think that maybe there's not that many people listening because they're all out in the Halloween contest. But if anybody is listening, the people that aren't would be the ones that would that this show would be primarily for the ones that are thinking about what they're going to dress for kids at this weekend as and the ones that are going to think about handing out Halloween candy, the ones who aren't out of Pacific street because it can't be. And the one thing that I think that I really want to say here from my experience in in dealing with the AIDS community for the last six years, as I'm sure you will jump on in the media and agree with is, the only thing about living this lie as it were of not being fulfilled is you're going to go out and you're going to have sex, whether it's in dark corners are here, there yonder, as you mentioned, and the white, if you're still married, you're gonna come home and you're gonna have sex with your wife, too. That's a very scary thing today, you know to do. And I know, from what I do, and who I counsel and what goes on that there is very much there's unprotected sex out there. And with the greatest increase in the HIV AIDS pandemic, in women, especially women of color. In it's not all because of IV drug use, it's because there are husbands out there who come home and bring it to wife and nobody finds out until there's some of the child born and then through reverse testing, we finally get down to where the problem is. And it seems to me you know, if you can't do what Bob did, and come to grips, then you really need to make sure that you're being very safe. So I just thought I'll put a little plug.

H

Howard McHale 08:00

Thank you for that plug. I know where you'd like to put a plug.

08:03

Oh baby I'd like

Howard McHale 08:06

In fact, I love one of them chairs. Oh, please. We got a whole shoulder go. Yeah. Bob. I'm I'm amazed at the fact that I find your story. Do you feel like you've wasted half your life? You know, that's what scares me.

08:22

I don't feel like I've wasted half my life at all. I feel that being married I gained incredible valuable insight into what the so called street community lives by with active in Republican politics. Don't shoot me. Oh my god.

Howard McHale 08:40

I'm gonna get the newsletter hangers boy.

08:42

I found out those bastards even worse than we think they are. I mean, oh, they are they are even worse than they sound like.

08:49

Did you hear my I got one great Republican joke. What did you hear that? Ronald Reagan called OJ? Yeah, he called OJ and he said listen, we're neighbors out here and we're and Nancy and I are so glad that we're through all this thing and that case is behind gentle. And listen now you know when you get them golfing in Florida. Y'all come back and he said, Nancy, I'd like to have you in Nicole over for dinner.

Howard McHale 09:16

But you know, I've told that joke and got nowhere right now. And so and the person I told it to he said to me said Are you making fun of poor Raul because he has Alzheimer's disease? And I said, Well, I thought he had Alzheimer's disease when he was president. He did. Theater and back are in his bands. Speak Ronald. Anyway. Hello, hello. Hello, my colleague. I think my I fell over my chair. But slow flying. Hey, you know, we haven't had many callers tonight.

09:47

There's one and that's us. I'm sorry. I'm sorry. I

09:52

had wasted my

Howard McHale 09:54

honesty sometimes. Because sometimes I think maybe I'm gonna wake up and I'm gonna really be straight and I wasted all my good at Howard. Never go on. I'm sorry, Robert, tell me tell you I hear you're getting serious here I can tell and and I changed the subject talking about my little black weenie at home go I understand

10:12

I understand. Now. I mean, I believe that who I am is all of the life I put together and I didn't exactly not live a life. I simply did not follow the strongest part of my personality, which was my sex drive. And I do feel that if I had been honest, I might have had a long term lover somewhat something I would have liked.

Howard McHale 10:35

Yeah, me too. And it's just hell. Listen, we'd happen we've got 15 minutes left before them wild crazy bondage girls command those, those those those, those those Halloween sounds, again, you want them I love that I

10:51

can give it to you. They were in the background. While earlier I thought I was in the middle of a dungeon and Dragon. But

Howard McHale 10:56

now now now Robert, I want you to give some advice to people, men and women who are listening, who used to be in your shoes who can't be out. Advice of them, Tell tell them what they should do, how they should feel how how what you did affected your life.

11:14

The very first thing that you have to do if you're if you're a gay person living in a heterosexual marriage is to if you decide to get out, don't blame your spouse for where you are. Don't blame

them, you have to let them know that your sexuality is something that is yours, it is not theirs. And they could have done nothing to change it. Don't blame your wife for being gay, that would say if you had been a better fuck, it wouldn't happen. You just have, you just can't do those things you have to you have to realize that that you can't blame other people for what happened. Sexually, if they if they love you straight, the love you gay, the biggest fear they have with being abandoned. They feel that you're going to walk out and all they hear they are after 20 years of marriage, they're going to have no money. No husband, no way. No kidding. And Lord knows that probably got age too. And you have to get through those fears with them. I can understand it there. But be honest to yourself. And if being gay and being out is where you want to be and it's right for you. When you finally step out, the last two years had been the best of my life. Now. See, I mean, I'd no longer feel guilty about being who I am. And say

 Howard McHale 12:33

some little data Jim's fears that they might turn the light on during sex and really see what it looks like.

 12:41

Then they might want to marry me nothing more scary.

 Howard McHale 12:45

Love and leaving money. Listen, it's been a nice show. And Robert, thank you for coming on the show. And we're gonna take thank you for

 12:53

coming out. Yeah, thank

 Howard McHale 12:54

you for coming on that

 12:55

story. Because there's a lot of stories out there and that dark code was. But I think it's it's a gutsy thing to talk about it. And maybe for whoever listening if it would get one person to own it. And whether it's telling their mother or telling their wife, I mean, there's there's got to be somebody that needs to know. And I would just like your freshmen will experience I've had, it's never a surprise to mom, never I don't care who you are, or your boss

 Howard McHale 13:05

HOWARD MCHALE 13.23

at work for some strange reason. Um, so people you're around everyday they know

13:30

that holding hands with all the waiters see nobody catch. Oh, and it's usually not, it's something a little harder for dad, but, but whoever it is, you need to tell, you know, start small somewhere if you test the waters and see what it's like, and because I think what you said about the total fulfillment that you feel, and I think whether it's our sexuality, that's a whole it's a whole person that does that. It's not just that gets out of those dark corners and quickie little things and whatever, because you your intimacy levels are affected, which is far different than sexuality.

Howard McHale 14:02

Well, Jim, do you have a coming out story of your own? I have some wild coming out stories. Oh, you just came out so many times? No, no. You're like Jim personal. Firstly, with me. There's

14:12

nobody left to come out to deer,

Howard McHale 14:15

like I told you. Personally. When I when I told my parents I was gay. I was 18 years old. And I sat them down. And I said, Look at this. I'm not going to tell you and my dad was you know that. He wasn't a hustle. He wanted to get the heck out of there. And I said, I am gay. And they looked at me. First of all, my dad said, what's for dinner? And my mother said is why are you telling me? I didn't know why. I don't have to lie anymore. And what a relief and I haven't lied in 18 years.

John Benavidez 14:49

lot on my back.

Howard McHale 14:54

Anyway, it's good. I'm glad to be 18 years old, I was much older but that's what Yeah. And my parents, I love them. I found I love them. Yeah, really. And I'm glad to be back. Jim and I are gonna be back on I hope at the last the last Saturday of every month now daddy and Jimmy and that crazy career music and hop and flop and guests.

15.10

Can we do one of those real soft low love line things some night and

Howard McHale 15:23

what the heck's alumna Oh, now we can't do that. Though I love light. I just love listening to music when they go. White and powder table. Drugs anymore. I was just teasing. It was powered over you. But I think Listen, it's been wild being back and Jim and I are so glad that many of Metro bus so hospitality she tweets tonight. But listen, I know. It's almost our turn is up. And I want to thank Jimmy over there. Thank you for letting us be on hey,

Jimmy Carper 16:04

you know, you bring something to the show. And that's why you're here.

16:12

Yeah, no, and we all have mad. Love.

Jimmy Carper 16:19

You know, when people tune into after hours, you know, a few weekends in a month, they get a pretty overall view of the entire gay community because of the people involved in the show. You know,

16:32

we're just worried about what the view they

Howard McHale 16:36

know well, they haven't seen us naked or they haven't seen us because they never come out to see us.

16:41

They don't see me naked because I don't get naked. I'm so good. No washer. Is it driven snow and twice this

Howard McHale 16:46

year, the company with your pants down?

16:49

You weren't supposed to see that.

J Jimmy Carper 16:53

That was that was I thought that was chatting up chatting, chatting that

16:58

you have such a nice way with words. Jim, I

H Howard McHale 17:00

really liked that chat. I saw you over the corner. Chatting, chatting, because I'm honest. Oh, thanks a lot. But chatty. Cathy. Now you're just missing I want to thank I want to thank my very special guest, Mr. Robert Jones for telling his story. And thank you for coming out. And thank you, Robert Jones is right. Thank you, Jim. I love you. You know you do you guys. And Jimmy. Thanks for letting us come on. We'll see you in a month and happy out month Happy Halloween play safe. Remember walking as well. And remember who loves you big daddy. And

J Jimmy Carper 17:37

I've got a kind of? Oh, I don't know. I kind of we were talking about the 60s and how a lot of us kind of don't

H Howard McHale 17:45

remember a word there.

J Jimmy Carper 17:48

Well, this is a 90s version of a good old 60s tune that the gay community really liked. It's an old song by The Supremes, baby baby. It couldn't have done better. It's got I've got Jimmy Somerville who just did a remake of it. It's someday we'll be together. Bye bye, baby who you're listening to after hours queer radio with attitude on KPFT Houston, and KEOS College Station Bryan about a year ago. We had a guy on here who was talking about baseball. And we thought well, we need to do this again. Make it an annual thing. So Alan, hi. So what's what's the deal? Well,

18:43

Braves won the series.

Jimmy Carper 18:45

No kidding. I didn't even know this. When did they do this? It is today okay. I'm not sure what the score is. And yeah,

18:59

Cleveland fans out there. Too bad to floss. Yeah. Oh, well, Atlanta Braves fans have a good party

Jimmy Carper 19:08

ah and you know Atlanta does well they know how to party down so so who do you Who do you want to be in the World Series next year?

19:28

No, not sure. Astros

Jimmy Carper 19:32

but yeah, like you Savannah last row. So no matter where they are.

19:38

You some fans prefer the Astros to be here. We do not want them anywhere else.

Jimmy Carper 19:43

That's right. That's right. Thanks, Alan. Okay, now we have a special dedication and the special dedication is going to be made by the dedicated t got a special dedication I want to thank you all do WHERE ARE YOU? Chris. Hi, Chris. I was on a couple months ago during marathon. Yeah. So I remember that I know I have a body. No one could forget all the bad reasons, though.

Howard McHale 20:10

I just want to thank you all for turning me on to Romanovsky. And Phil. Oh, yeah. And so I got a little dedication out of the, from the closet to all those out of the closet. brave boys.

J

Jimmy Carper 20:25

Yeah, romanovski and Phillips with brave boys off of the brave boys album. And that is a really good album too. And that was dedicated from a dedication from longtime listener, who Chris who just happened to stop by that's, that's kind of the way we do things around here. Now we're gonna switch gears and go to a different aspect of the show. We're going to bring on some leather, folks. And for those of you who've read Pat caleffi, his book, The latest book about daddies, you will know that a daddy has nothing to do with sex. It has to do with a frame of mind. And with that in mind, I've got a piece of music that I wanted to dedicate to our next two after hours, folks, Stacy and John. It's by a barbershop quartet. And it's called Dear little boy of mine. That's a song that any good daddy would say to his boy.

S

Stacy Bolding 21:44

That was Daddy boy, by who? Jim.

J

Jimmy Carper 21:48

That was a dear little boy. Little boy of mine by Harmony spectrum. Oh, thank you. Thank you. And I just thought that was a great piece to introduce.

S

Stacy Bolding 22:01

Yes, it is. Yeah. Right now you are listening to 90.1 FM KPFT Houston, and 89.1 fm KEOS College Station Bryan. I am Stacy and I am here with my new co host, John Benavidez Hey, John,

J

John Benavidez 22:02

how you doing, Stacey?

S

Stacy Bolding 22:18

Pretty good. Pretty good. Are you ready for the show?

J

John Benavidez 22:21

Oh, of course. I've been really excited about it.

S

Stacy Bolding 22:24

I know. We've been working on it hard for like two weeks now.

J

John Benavidez 22:27

And there's nothing like working on it when it's hard.

S

Stacy Bolding 22:29

That's true. That's true. Since the show before us was done on coming out. And you've heard all the regular coming out stories, John and I thought we would open up the show with our own SM leather fetish kink coming out stories. I think I'll and we've got two special guests here. So I think we'll let John start and then go to me and the guests. Go ahead.

J

John Benavidez 22:54

Uh, well. Excuse me. Too much coffee. Actually, the first time I had my first SM leather experience, I really didn't realize that it was that I was actually experiencing something that had to do with the leather SM community. Like so many other people. You have to identify what that is. And it was with toys. And there's so many people who feel like when they play with toys, it's not necessarily a fetish, or an s&m, s&m related at all. And then shortly after that, the tying up and the light flogging came in. But it's probably about eight years ago when I didn't get involved into the leather community until about five years ago, which really upsets me because if I had realized it, I'd have had an entire eight years of fun. Eight years, eight years, eight years of fun before

S

Stacy Bolding 24:00

you finally knew what was going on, huh? Well,

J

John Benavidez 24:05

actually, I was playing for three years and didn't realize I was

S

Stacy Bolding 24:11

so what what were you calling it back down? Or were you?

J

John Benavidez 24:15

Well, I really wouldn't call it anything. I thought it was natural. To everybody did it? Yeah. Yep. That's how I found out most people do. Yeah,

S

Stacy Bolding 24:23

Stacy Bolding 24:20

that's true. They just don't know that what they're doing is normal. My first one was, I guess you could say a little odd. It was my first experience being fistfight and of course not knowing how to play safely. We did it on alcohol. And I think the thing that made it more kinky for me was I was upside down, leaning over the bed with my head on the floor. And in the background was country music. Annie got even more twisted from there. With us tonight is babassu she is an old friend of mine from what about a year ago?

25:11

I'm only 34. Now come on.

Stacy Bolding 25:14

That's right. You just did turn 34 Then you right? Yep. And I just turned 32. So what we're about a day apart on the birthdays? Yeah, yeah. Bubba Sue and I knew each other last year and fest. She was an associate member and never went full fledge with it. But um, the thing that really kind of makes it special is I took her to a first play party with PAP and some people from LA and LA and fist and it was really fun. And so now that we've done our coming out stories, it's your turn bubba.

25:50

Well, I want to say that I came out with Jimmy Carter. No, no, no, no, not really. Not really. It was Trey now. As Stacy had said, they had decided to take me to a play party. And I guess I must have the most naive looking face out there because I had my own set of bodyguards, you know, and I mean, come on, guys. I came out since I was two years old, right. And I'm also a Scorpio okay, but they were really worried about me. And of course, I just wanted to see everything and touch everything and participate in everything. And, you know, but I kind of hung back and Stacy explained the rules and what to expect and everything and I just was kind of okay, okay, wow. You know, and then they decided to leave me alone and go smoke a cigarette. And of course, when they came back, I had set myself on fire.

Stacy Bolding 26:41

Now wait, let's explain this.

26:44

This is not a Beavis and Butthead episode. No, this

Stacy Bolding 26:47

is who was doing the fireplace on you? Was it Jan?

26:51

Yeah, this is a very experienced person.

J John Benavidez 26:52

Yes. Jan. Sounds wonderful. Oh, yeah.

S Stacy Bolding 26:54

Replay. She, so how did she do this? Okay,

26:58

I was standing back and watching. It was under very controlled circumstances. Of course, first, let us stress that you never drink when you try to do any form of s&m, right? You never, you never never intoxicated, because you have to know what you're doing. And you have to be able to feel, and you have to trust who you're with. And this is someone that everyone knew. And I was watching what they were doing. And they were setting fire to parts of the body. They didn't have any hair on it, like your back or your arm and everything like that. And I was curious. And I was like, you know, what does it feel like, and I talked to someone that had it done. And then I just, you know, they totally explained to me and it was like being close to the fireplace, it was just warm. And this was someone that knew what she was doing in a controlled environment. And after talking to her and everything, she did my arm a little bit. And I was like, wow, this is really neat. And so then I let her do my back with other women holding my hair and standing there making sure that nothing was gonna happen. Right.

S Stacy Bolding 28:01

So how did you feel about it?

28:05

It was, it was exciting. Because on one hand, you have something you're not supposed to do. Right? You know, the thrill of not supposed to the shock value, right. And on the other hand, it was very interesting, because it was just something new. And it was a different sensation. And it was it was being in control of your own body. You know, and you had people other people watching me that I didn't know. And that was exciting. Nobody knew who I was. Right. You know, and it was in a controlled environment that I didn't you know, nothing was gonna happen to me. It was a chance to fulfill a fantasy good and not be afraid of you know, of something happening.

 Stacy Bolding 28:45

So would you do it again? Oh, yeah. Good.

 28:48

Oh, yeah. Good.

 Stacy Bolding 28:50

And have you done it again? Thank you at home. Good. Kuwait. Okay,

 John Benavidez 28:58

I guess I guess what she might also be saying is if you are interested in any type of firefight, you don't need to just go ask anyone to set you on

 29:05

fire. No, no, you do it with someone that no there's there's different things that you use different techniques. You just don't set yourself on fire, you know, you'd have to burning bed. You know, be with someone that knows what they're doing. If you have questions, go to NLA or go to a fist or another organization where people have done it and they know what they're doing. And let them experiment slowly, you know, on your hand to see if you know if that's something for you.

 Stacy Bolding 29:35

So did you find this experience intimate? On some level,

 29:40

I found it interesting. This sounds strange, but I found it intimate with myself because I'm very annually return a person I buy day by day I'm a I'm a closet bank. I'm a banker, and I am very you know, I'm very upstanding and do what I do and of course to do you know, always follow The rules, you know, type person. And so for me, this is a total freedom and inhibition. I mean, I normally have to get drunk to take my clothes off. So this was something this was something new to let my hair down in front of people I didn't know. And it was kind of like, oh my god am an adult because normally it's like, oh my God, what's my grandmother gonna say? Even have a tattoo? Oh my god, I forgot, like, because I'm afraid of my grandmother, right? So it was it was an intimate experience with myself. Good making a choice to do something for myself without feeling negative consequences let letting my sexuality come out. In public without.

S

Stacy Bolding 30:36

And there was also another scene that you witnessed while you were there that you really enjoyed, because it took about two of us to hold you up during this. And that was bondage and knife play scene, right. And that was done by another by a couple that was there. And it was very sensual, sexual. And you can tell it was very intimate with the people. Did you feel involved in the scene?

Ω

31:03

Yes, um, let me explain. Because I'm always afraid that people are going to run out and try these things. And there's, you know, they don't really realize when you're talking about that couple, number one, they had been together for a long time. And they've done this quite often. And number two, they really cared about her safety, right. He was concerned that she was cold was warm enough for, you know, and things like that. And it's things that couples do that have been either long time as far as trusting one another. And to me, I related to like, maybe a scene and six and a half weeks where you've got you're using the food, as you know, a sexual. I don't know, type of foreplay. Yes. You know, it's using the food instead of using the food. He was using candle wax, he would drop the candle wax all over her body, and it would get hard. And then he would take a knife and the candle wax getting hard, right. And I was getting hard. He would take he would take his knife, and he knew what he was doing. And he would gently scrape the wax off of her body while we watched while she

S

Stacy Bolding 32:07

was suspended.

J

John Benavidez 32:09

very erotic. Yes.

Ω

32:12

Extremely erotic. And if you've ever had fantasies of somebody being tied up and having a knife, you know, was someone you knew during the show, we need to try.

S

Stacy Bolding 32:23

It is fun. So give me your overall impression of that night then

Ω

32:32

what I felt safe, I guess safety was would be the number one thing. Everybody there knew each other, it was by invitation only. It was a safe environment. There were rules, you knew that number you know the sex was not going to be happening in front of you. And that you

that number, you know the sex was not going to be happening in front of you. And that you know, you do not get involved in a scene unless someone asked you I cannot just come up and and get involved in their scene. You know, it was set up and there were certain rules and you knew the rules. And anybody that misbehave would not be allowed back. They didn't follow the rules and so I felt safe.

s

Stacy Bolding 33:08

Good. Good. Did you feel any? negative feelings I guess with men being there.

o

33:17

I like man, I'm probably I'm not bisexual, but I adore men. Great. I personally, I guess on the whole on my life would be a whole lot better if I were straight. I think they call me Baba soo because I think like a guy. And so you know,

s

Stacy Bolding 33:34

so you had no problem with the fact that the crowd was mixed that there were men and women. There were cross dressers, transsexuals, things like this.

o

33:43

When I was in my 20s I did. But you know, I am very proud that I have learned tolerance. And the thing about it is if you don't like it, baby, you don't have to watch it.

s

Stacy Bolding 33:54

Good. Good. Well, babassu I really appreciate you coming down in it's excellent to see you again. Be careful going home. Okay, got yells number and we will be in touch.

o

34:05

Hey, and I can't wait to see you and your leather again. Oh, yeah, baby, come over.

s

Stacy Bolding 34:12

I'll be up right after the show. Okay. Are we going to introduce your other half? Go for it.

o

34:18

I'd like to introduce my daddy. Ah, okay.

s

Stacy Bolding 34:22

Maybe I should do this one on my knees then. I'd like okay,

o

34:28

I'm there. She's so good there.

s

Stacy Bolding 34:30

Thank you. I'd love to introduce my predecessor to the show. And the woman that turned me on to radio because the first my first public experience was on stage and it was not comfortable. I came in and did a show with her. And it was just a click. And she knew it and I knew it. And then when unfortunately she had to go out of town. She asked me to come in and take over the show and I've been thrilled ever since. I am in introducing an old friend here called her name is Evelyn or Yeah. Okay. She is a fifth member and was back then and is still great. Great. And we want your

o

35:14

only fifth member in Portland, Oregon. All right.

s

Stacy Bolding 35:17

Yay. So see fist is all over the world yet.

o

35:21

So I was there in California now,

s

Stacy Bolding 35:22

huh? Yep. Yep. And some more in Oklahoma. And here in Houston, and we may even have a few in Dallas.

o

35:31

Oh, cool. It's a national organization already. Right. And just what was it? Was it 18 months ago? That I know it was

35:40

in its infancy. That's it. That's

35:43

it. And we're already spread across the country. Coast to coast which app girls hair week.

S Stacy Bolding 35:51

So what was your first SM leather fetish kink coming out experience?

35:59

I'm with my first husband. I'm married at 15 years of age. My husband was by I think his primary sexuality, he's probably gay. I was best friends with his lover, male lover at the time. And being being as I was 15 years old, I guess I just grew up in leather. Great, great.

S Stacy Bolding 36:34

What was your first experience and what stuck out most in your mind about it?

36:42

Because I was so young. Everything that I did, I thought was natural. Well, that was natural. To me. Nothing was out of the ordinary. Nothing that I did. In the privacy of my own home was out of the ordinary. It felt like there was supposed to be I thought everybody in the world behave this way. And as I get older, I find that most people do. And most are just afraid to admit it or ashamed. There's a lot of shame involved. For a lot of people, not for me, I've always been very comfortable with it.

S Stacy Bolding 37:19

So do you think it opens people up a little?

37:23

Well, I can't answer for other people. I know that. The s&m scene for me, turned a a fearful 15 year old bottom into a very strong 34 year old Todd

S Stacy Bolding 37:46

excuse me, I'm Julian got

J

John Benavidez 37:49

better and better.

Ω

37:53

I'm not afraid of anything. And and I think that's, I think that people who are not afraid to experiment with their darker fantasies or their darker side, those people learn to learn more about themselves than people who do shun away from experimentation. And those people. I think, I think those of us who are out in the scene tend to have a better grip on reality than a lot of other people. Yep. No, yeah,

J

John Benavidez 38:26

I would agree to I think another part of it would be that a lot of people don't know how to identify what that fetish is, or, or whatever they're practicing if it is, if it is a fetish. We were talking the other day about women who use toys.

Ω

38:50

Yes, put a call back away do

J

John Benavidez 38:54

I think it's identifying with it. We also talked to another I had also talked to another lady who was telling me that it had because they couldn't identify what their fetish was it had caused a separation. Right. And the lady had no idea that she actually, I guess, in her heart wanted to be a serious talk. And by the time the her husband had expressed it to her and wanted her to do that, she had no interest. And, I guess, by learning to identify that, what your fetish is at a young age or feeling comfortable with it, you're able to explore and

Ω

39:43

it's, it's it's so much deeper than just fetishize. It it's it's learning to identify every level of yourself and every person has a multitude The facets to themselves and just just coming to know yourself and coming to accept the good, the bad, the pretty, the ugly. The kinky

S

Stacy Bolding 40:13

the we have some eyes please. So what was your opinion then after we went out and got a cigarette and you came back and Baba Sue's got her chest on fire

40:29

after I picked my teeth well, you've got to understand that her and my relationship was knew that. And even though we had we had played a little bit right, and had talked about playing more than we had played, which is what you're supposed to do. You have to talk about it for a long, long time before you start playing. I did not expect to walk into the room and find her bare breasted it only made me love her more. Play with fire weather. No, I didn't I let her

S Stacy Bolding 41:17

help stomp a mountain more or less.

41:22

I let her have her space and let her have her moment of joy. Her little her little warm fun. A cold winter's evening, as I recall. Yeah, it was very cold. And yes, I remember I had very little on it was very cold that night.

S Stacy Bolding 41:39

Yes, it was. I agree. Well, ladies, I really appreciate y'all coming down. Thank you, Eva. Lynn. Well, thank

41:45

you for having me.

S Stacy Bolding 41:46

It's great seeing you wonderful seeing you again. And it was nice meeting you.

41:51

Nice meeting you too. And you'll be careful

S Stacy Bolding 41:53

going home. Come This is in Portland. We will. We will we'll bring the whole show. Yes, do it.

41:59

That'd be a wonderful

S Stacy Bolding 42:01

show. Yeah, I've got

J Jimmy Carper 42:04

a great remote. Yes,

42:05

I have to tell the world that I one of the people I miss most in the whole wide world is Jimmy Carter. He is part of my family.

J Jimmy Carper 42:14

I know and I really hate that you're in Portland. But you've got a great life up there.

42:20

But the Ancient One has frequent flyer miles.

S Stacy Bolding 42:26

Need more coffee?

J Jimmy Carper 42:28

Yeah, no, I know. But the thing of it is it's you know, since he lives in Seattle and you live in Portland, it's only a three hour drive love. I know. But you say I don't want to go to Seattle. I want to go to Portland and he doesn't

42:41

understand meet us in Reno.

S Stacy Bolding 42:45

You have just heard a proposition

42:47

on radio. Love you Houston. Miss you, Houston.

S Stacy Bolding 42:51

Okay, now I think we're gonna do a piece from Kk.d. lang.

J Jimmy Carper 42:54

Yeah, you're listening to after hours queer radio with attitude on KPFT Houston, and KEOS College Station Bryan. And since we're all talking about coming out and in our various forms, KD Lang has a new album out called all you can eat. And my favorite cut is something that we're looking at right here right now. I want it all.

S Stacy Bolding 43:21

Doesn't everybody Yeah. Intro somehow?

J Jimmy Carper 43:29

Yes. Kk.d. lang. I want it all.

S Stacy Bolding 43:33

Doesn't everybody? Can we have her to?

J Jimmy Carper 43:36

Well, okay, not in my power, unfortunately. But you're back with Stacey and John.

S Stacy Bolding 43:44

Yay, we're back. Okay. That was our bid on coming out. And thank you again, Baba, Sue and evil in. And the next topic for discussion is going to be public lewdness, 2106 2107, and different definitions. Because until I got this information, I didn't know what 2106 was. And I think there's a lot of people out there that don't know, because it seems like the fire for this been repealed is died down. So I think if we gave people information on this, it would be a good

way to bring him back up. And John, what I'm going to do is I'm gonna let you start with some definitions. And then we're gonna go into a discussion. And folks call in because we need your opinions as well.

J John Benavidez 44:37

I'm going to start off with the sorry, I had always assumed that this was called a sodomy law, right. And when actuality it's not, it's called The hum is called homosexual conduct. I'm gonna start off with some definitions of certain sexual acts. The first one would be a deviant sexual intercourse and the meaning of this is any kind contact between any part of the genitals of one person and the mouth or behind of another. It also any penetration of the genitals or the bottom of another person with any object.

S Stacy Bolding 45:16

Okay, so so far what we're saying is that just about anything involving the mouth, or the, or the genitals are any type of penetration at all or penetration in the bottom with any with anything, okay? So right now, just about everything is illegal.

J John Benavidez 45:39

Well, I'm not gonna say, I'm not gonna go as far as saying this is illegal. This is a definition this is how they define deviant sexual intercourse. Okay, now we're gonna go on to sexual contact. Now, this means the touching of the behind or of the brass breasts, or any part of the genitals of another person with the intent to arouse or gratify them sexually. And this is deviant. No, this is just sexual contact, okay, okay. Okay. And then the third definition is sexual intercourse. And this means the parental penetration of the female sex organ by the male sex organ,

S Stacy Bolding 46:18

very defined. Row, very defined, very defined. Okay.
