Stacy Bolding, Jimmy Carper

00:02

In the gay community, we that gay letter community, we live by Quito, which is safe, sane and consensual. I want to know if this has any meaning to you. And if, if so, do you practice it here?

00:17

We do have a we do have a an interview session with all of our potential slides before every session. That way they know where their mistress is coming from and what was their you know, what they're looking for in their session. We tell them what our limitations are. We asked them what their limitations are never ever crossed any boundaries that they do not want cross, but we will explore almost every every aspect of of anything that they're looking for an obsession.

00:53

It's, it's safe to say, well, you use safe words, you have you do set up the boundaries before you get into the situation.

01:00

Yeah, we have. Now we're adopted is not one.

Stacy Bolding 01:08

Okay, you're dealing with the public, and the public isn't usually very educated. So one of our main questions is how does the facility handle unsafe play or security issues.

01:22

We've really never been in a situation where we've been in great danger. So we don't have any type of security guards here at any time. However, we were always in a one, almost always in a one on one situation, in the rooms. So it's really not necessary for there to be someone in the rooms to oversee that everything goes on.

01:51

So I would also assume that the initial interview that you do before you set this up would help with that to definitely go ahead. And Do any of you guys go through any type of training? Have you? How long have you been practicing? What your what what you're doing here? If you're a dominatrix dominatrix? Or if you're a passive? Have you been doing it a while? Did you? Do you have a mentor? I got

02:22

involved. I was working at a store here in Houston, a lingerie store and a lady came in who was a private dominatrix. And I got to talk with her. I really didn't know that there was this type of thing. And blogging as a profession was, it was out there. I'd been doing it personally, a little bit here and there for a while, but really didn't know, the boundaries that there were. And I started talking to her and then started asking around at different places that I could possibly do this professionally. And it just kind of happened to fall, fall into my lap.

03:11

I'd heard about it but um, I guess my training started when I started working here and I'd seen videos and and thought it was really cool that as my training did start here, and I felt like I've learned a lot.

03:27

So it's, it's safe to say that a majority of your first experiences were were fantasies, they were they were set up, they were set up in your head, barely, you know, expressing your kink in your mind. We've all been through that. I understand that.

03:44

We are going through this process right now,

Stacy Bolding 03:46

out there that are transsexuals and cross dressers. Do you get any calls from any of these people?

03:53

Quite a few. Definitely. We have a lot of regular classrooms that come in here late at night before they go to clubs or after they go to clubs. And they come in here and they have regular sessions. And we do all all sorts of things.

04:08

We, we can either I always in my initial interview, ask them if they want to be addressed as a woman, or if they want to be dressed as a man dressing up as a woman. Or, you know, how did they look at themselves? You know, we explore all of those boundaries in a way that in any ways that that particular person would want them to be explored.

Stacy Bolding 04:34

How about the idea of a man who wants to crossdress but doesn't exactly know how to do it. Do you have any of those type of clients?

04:45

I've done a conference on consultations before. We're really we have a lot of phone calls from from men who are looking to get into something like that. They don't know where to shop. We don't provide clothes here. Those Simple fact is we can't get different sizes and plus, you know, intimate where there's diseases and stuff and you know, things happen. But I am I tell them where to go to shop, places they can go that are that don't mind. Yeah, they don't care. And a lot of men don't even know that there are places out there that they can do that. So we, I've consulted with a lot of men who are looking to get into

05:26

that, right, and to encourage them to be more open lab more afraid to approach that side, because, you know, they don't want to go out in public, because it's

05:35

really sad, because obviously, it is a fantasy that they have. And again, we're talking about, we're, again, we're hitting on the subject here, where, where people don't feel free enough to express themselves. That's the whole problem.

05:53

With the strike community, generally, they don't feel comfortable expressing themselves.

05:59

I am going to I am going to kind of rephrase that a little bit. Because I don't want to say I don't want to generalize just the straight community. We're gonna call it the vanilla community. But I'm gonna go on to the next question here, because I'd like to know dominium.

Stacy Bolding 06:22

I was here a couple of weeks ago, talking to the manager. She told me a story about a gentleman that comes in in a major design and does all the cleaning. Can you elaborate a little more on that for Yeah, he's,

06:38

he's one, we have several of those commands. He comes in, he's about five, and a very big guy, he wears probably a size 14. And enjoy. And he enjoys coming in and cleaning for us. And he cleans our bathrooms. And he wears a little, little wig and a little hat. And he looks really cute. And he says Holly is a duck under our doorways, but he's one of many men, and we

07:14

always tell him, he likes to be very discreet. And so if someone comes in to have a session and think you're cleaning, we always run and tell him you know, I for a minute. Like we have events of people walking around, there's a lot of people that see you, we are very disagree, if you want to be seen.

07:37

The important thing is, the important thing here is is that we're we're talking about being able to express our sexuality freely, whatever our fantasies are, without any inhibition, or built feelings of guilt, that we're doing something wrong. Now, if you don't want to do that in public, that's fine.

07:57

We also place to be that our ministers are, I have never judged any, any of my slides ever. They always come in and they say you probably think I'm a freak for saying this. And I'm like, I'm gonna tell you right now, you can't tell me anything that's going to surprise anything. You're not telling me? No, you came to me. And that's the first step. You're looking for someone to help you fulfill your fantasies or explore your fantasies in this is the first step in coming here. We want to help we're not going to judge you.

08:38

I think that's everybody's first words, once they step into the scene,

08:41

yeah, where everybody's put up certain boundaries, certain things that they feel people, expectations that people have. And anytime you put into a situation where you can't you don't feel like you're going to live up to those expectations. You tend to go a little bit more and work, which is sad. But again, I'm gonna go back to that question of many of your new clients understand your service hear what service you offer? If not, how do you explain it to them?

Stacy Bolding 09:19

In other words, pick one of us as a new client and explain it to us. Well,

09:25

something that we always have, especially on the phone is will tell them you know, what we offer you know, see what is in our lease offer will say we offer private nude modeling and domination. What is domination? And we'll say well, domination is bondage, banking, paddling, discipline training, small, certain forms of humiliation, that sort of thing. Does that seem like something you would be interested in? Or is that what you're looking for? They say yes. The thing especially over the phone, I'll I'll tell them is that it's very difficult for us to get an idea, you know, for you to get an idea of what we offer over the phone. We offer free tours. We have mistresses on staff all the time, feel free to come in, we'll give you a free tour. If the person comes in, we give him a tour, we bring him back into our bench and have them look around. Ask what they think about what they see. Ask them if they if they have any questions. A lot of people are intimidated and a lot of people are overwhelmed. Then you can see that you can see the look in the person's eyes when you walk into the den. And if their eyes light up, then you know you've got a potential slave. If they cower at the door, and they want to walk. Well, I think the nude modeling is probably a little more

11:03

how you would handle your your clientele, that would be employer. Right.

11:10

All right, the other person first experience topping here at interludes and what type of feelings

11:20

did you get out of it?

11:23

I don't really remember. I remember I was very nervous. The first time I had the minute. I had, I had been told about a regular that we have here still he's regular after all time. And he's very, very, very intense. And the owner had prepared him for my for me coming in here. And in vice versa. I've been prepared for him also were told about him, they prepared. And my first session was was going to be him and he walked in the door and you know, I want her and walked back to the room and I was shaking and thinking gosh, I don't even get to work up to him. He's so intense. And the first the first thing that came out of his mouth was the smoke and I said no I doubt he said go get someone else. So I got out of that one. He likes women to smoke during the entire session and I don't and well I went and got the lady who cannot manage for now and she did session so I kind of got out of that when first time but I was shaking so scared now. Yeah, he is our regular he comes in all the time wonderful guy. So I kind of got to work at

12:50

home I didn't have to get right.

12:53

Because we all we all build our techniques on experiences, more experiences you have the better you are at it. The more you're apt to know

13:05

I feel that we're also me yeah we have lots of equipment and our ladies are very, very experienced with that. That's that's probably our most growing grievous place that we have. And we're we're getting becoming that's something that I worked at CES and I think that probably both Mr. Sterling and myself have specialty definitely

13:42

to first experience or the one that sticks out most in your mind you thought

13:47

right? I thought I thought I did. I thought I thought I was nervous when I first started out in Domination but I really wasn't. And that just came naturally to me. I felt very comfortable and in my first session and now I feel even more comfortable. I feel like it's a natural thing to me. I don't have a problem with him being in Domination. I'm open minded anything. There's one particular incident I was real nervous about it won't be directly mentioned.

14:04

14:24

Will you just give us the generalities on it.

14:29

involving some needles Yes, I

14:30

did. Yes. And we we worked at for probably 45 minutes go for our getting him prepared for the actual Yes. And we we had him on the table strapped down. Probably couldn't feel it by the time we finished. But um he was Right, because it roll Wells was here,

15:03

wasn't he very clean when he cared, right? very sterile.

15:07

He brought needles in hadn't been open very sterile. We've worked gloves, and there was no blood or anything anyway, but we were glad I enjoyed it

15:19

remotely the word that you're gonna believe a lot anyway, I have both my apples here. And there was virtually no blog.

15:26

Right, right, or the temperature. And there's been very little blood. Yeah.

15:33

However, you got, there's not I mean, it's like, with most purism aspects altogether, it's really, really very little

15:48

nipple piercing, and it's just nipple piercing is the length of time it takes for them to heal. This is It is the longest it's the piercing that takes longest. I think one of the places is probably a PA, where the blood goes through that area

16:14

I've taken down, we were supposed to go together to

16:17

get our time period.

16:22

painful part of that is that natural reaction you get when they come back to you.

16:31

Ah, I felt it, I won't say that it was paying less. But it's I have tattoos and it was nowhere anywhere close to that topic at all,

16:44

okay. In our community, during the day, whether we find it very hard to be open with our lifestyle as far as our less or leather, ethnic fetish lifestyle, without it affecting our work without us losing our job. Here, you have the privilege. Not only that not being even considered, but how does it affect your life outside your account? Are you able to be a dominatrix all the time? Or is it just

17:19

wait? I don't know about this this morning. And in my personal life, I can pretty much be all I want to be because I was, you know, introduced before?

17:35

Right? I'm very discreet, though on what I'll say is this person on who I saw and who I don't. So of course my parents don't know. Mr. Seven, do. I think that's great. And I wish I could be that open. You know, the people that I'm involved with most all my friends, people who are close to me, very encouraging of mine at my job. No one's ever judged me. And if they did, I wouldn't be here. Anyway. I'm at a point now. And since I've started working here, I have, in my opinion can go a long way. I've I myself have become a lot less inhibited. And it's something that I think is a good quality amount. And I'm very pleased with it. And I hope that it can even

18:28

be yourself.

18:29

And I love my phone that I have the opportunity to be with you. Why is

18:39

the best design not even a job. Your life is your lifestyle.

18:46

You think this lifestyle opens a lot of those inhibited doorways. Because I found it, I found it the same way. So I was

18:56

I mean I I never imagined I never imagined the things that I've seen and the things that I've done. I never imagined that that before I started working as a kid that could even happen and things that have led me to think of other things and other things and experience different groups of people. And to know that everyone's got that side. Every

19:25

it's really strange the power of that first little fantasy and what if we take you the trip that it can take you

19:33

in August, all that I've learned in the past year? I think that there's there's a lack of knowledge out there that there are a lot 1000s and 1000s of more people out there that would like to get into this and it's just they haven't heard about it or they don't know enough about it or they're too scared to get into it. And I figure I didn't know about it a couple of years ago and there's a lot of people out there that are the same way. Like how to reach those people to get them to community

20:00

We're also going to take people identifying what their fetish is, because most people don't they have some they practice them on a on a nightly or weekly basis.

20:18

But it's identifying with his fetishes aren't realizing that that's what they are. So many people practice different things like having their wives tithing, or having their lovers. And they don't, they don't think of it as the ending of that. Or in the case of, we're on the radio here. The case of a lesbian who buy a toy, that is a sensible bet. And whether they won't realize that it is it is encompassed in the letter, FM community, that it's fair,

20:55

I have, I have a way.

20:59

He's a very, very obedient slave, he felt that it is his duty is his every everything to serve women, he has an x, y, that he that kind of in a weird way, got him involved with it, because he's always been a controlling person. He's always been in control. And through their marriage, he felt he was more of a slave to her than a husband. And he, they separated but they're still married. And he, he asked me in the name and said, How can I get her to assume this role? How can I get her to assume this role without her knowing that I'm doing it or go ahead and slowly get her involved? It ended up not working out, I said, Well, you know, started dressing yourself as a slave, this man and she became very religious. And it didn't end up working out. But she didn't even know that she was to a point. And she was during that sound she had helped develop this place, and had no idea at all.

22:04

Oh, yeah, it really is. And that's what I was just trying to say is, if she would have been able to identify with that, identify with that said, as was years before they separated, they could have had a wonderful life and never separated. But

22:24

it's amazing inhabited. Where they they feel like their wives would just freak out on if there was tell him that their fantasies and I think women should be more open minded about emotions. And

22:38

I think I think what it is, is women have the fantasies, but it's like you stated earlier, women have been suppressed for so long. We have them. We just don't know how to verbalize them yet.

22:59

Men, all around and women, a lot of women and they don't

23:07

frighten them by they

23:11

overlook it. And also, women have been drilled into position where they said over the weekend, he'll be the lady, right? When you talk about sex and when you express yourself, you're not being a lady, which is ridiculous, I guess.

23:29

Ladies,

23:30

but we also are very infested.

23:33

Yeah, nothing wrong with Yes. Well, speaking of being uninhibited, Have either of you ever participated in a dungeon by 40 that encompass all the different people that are in our communities, as far as transgender, transsexual, gay, lesbian, I'm not talking about a free for all orgy. I'm talking about a fight party, where there's nothing there's there's no penetration. It is simply women being dominated, or men being a dominant, submissive, there aren't really race, or sex. It's just top and bottom.

24:23

No, and I wish I could experience that. I've always I've always wanted to have heard about me. We have a lot of slaves come from New York, California from Europe, and tell us about these phenomenal places is phenomenal. A country clubs and clubs and I have yet to be able to experience one and there will be something

24:48

I wish we could do here is even start not necessarily something that we charge for but to close the doors to a private party.

25:00

Hey, y'all haven't heard of them. It was a group here in Houston for a while. I've heard

25:05

of them. I've encountered a few people, that organization narcissists. I don't really I didn't know anyone personally at it, I've been guessing means that I wasn't very intrigued. And the few people that I had talked to

25:27

there were people that I encountered did

25:33

not really want me to get involved.

25:38

Or that they'd had you have to fill in by

25:41

your dad and I just wasn't doing anything.

25:48

Before he goes on to another question, I'm gonna ask you both personal questions. Would you appreciate a group here in Houston where you could explore more of your SM fantasies with other women and talk to them and things like that?

26:03

I know. JC will give you all the information, but there is a group and used to him called females in search of trouble. Or

26:23

gave me I guess you'd go into a store here in Houston, who gave him a information on that and was why? It was something I lost.

26:45

We can get you on. Okay, for me. It's a really interesting group, they do a lot of things. For us that have had as many as 150 people in them, not all of them practicing. But, but you learn a whole lot by watching all these different masters and mistresses from all of yet very exciting.

27:13

It's required so many of our people so many people see our lifestyle as being deviant or demented. How do you answer this question? How does it affect you?

27:33

I personally if someone who didn't understand the I would probably I don't consider myself a violent person, but would become very long. I very much respect the gay community, I have a lot of admiration for certain things that go on in the gay community that I wish could be passed on, or bridge. I mean, I I just, I would very much I'd be very upset if someone's very offended. I have. I'm very involved with a lot of gay people. I have a lot of gay friends.

28:22

And we want to know how that makes. When people call your lifestyle BV demented? How does that make you feel?

28:34

I will, I will I would in turn, return back. Have you ever tried to your partner? Have you ever enjoyed banking, life? Banking? Just not? Most, most people will say yes. Or said that they've thought about it. And I'll say we just take it a little farther. And there's nothing easy about that at all. We just choose

28:57

to take a little farther. People fear what they don't know. And I feel like maybe it's a lack of knowledge with no, I don't know anybody who hasn't maybe gotten a little rough during intercourse or you know, wanted to handcuff their partner right pain, Roger, and people just had an experience.

29:18

Was that the movie? Yeah. wonderful example of that.

29:26

films about leasing out this beautiful place faced private parties and organizations.

29:37

I'm not really personally I don't really know. I think that was something that was always considered given the right time. We are open from 10am until 5am Almost every day. If it was then maybe on a Sunday, or some Aton that wouldn't interfere with regular business hours. I think just you If you want to do it we're booming a booming business right now. And so, to sit down for any time, we may be interfere with

30:10

your business hours.

30:13

Tuesday through Saturday, we're open from 7am until 5am. Sunday we're open 12 until eight, Monday from 10am until midnight.

Stacy Bolding 30:26

Alright, so Monday's is probably your day off and more or less. All right, one more time. Just so everybody understand. We're talking at interludes. It's the first and I guess only commercial Benjen here in Houston. The phone number for any information is 713957 1400. They are off a Chimney Rock and Katy Freeway at the wart Road exit. And any of the girls here would be willing to talk to you or give you any information. We do free tours.

30:58

There's always a mistress on staff. That would be more than than happy to give a tour. And if we can't, if there's a certain limitation that you have, we will help you figure out a place or a way to fulfill that.

31:18

Anything else y'all want to add to this? No. Okay. Especially the women. Okay.

Stacy Bolding 31:34

Okay, the name of the facility is called interludes. Their phone number is 9571400. And as you heard earlier, they are off a Katy Freeway at Chimney Rock off the worst Road exit. And right

now I'd like to thank mistress Morgan and mistress Devon, and interludes and all the people involved in that interview for giving up their time, early that Monday morning. It was early. Don't be afraid to call interludes, they will answer your questions. And the number one more time is 9571400. Their operating hours are Monday 10am to 12am. Tuesday through Saturday 10am to 5am. And Sunday 12pm to 8pm. Now, I want to again reiterate that this facility, as of now, it is the only pay for play commercial dungeon in Houston. And that is predominantly what they do. They do cater to straight men mostly. But as you heard the women say they do want some more women involved. And that has to be a personal choice. Um, some of the things that you and I found out about the interview was they weren't really ready for. I don't I don't think I that we were coming from I don't think they were taking it as seriously as we were.

 Jimmy Carper 33:02

What do you mean by that? What do you mean by

 Stacy Bolding 33:06

as serious that I previously, like we talked about they did an interview with Steven improve it and it was more fun. They were making if I'm not mistaken, they were making more light of it. Right. I did not. The the first question we asked safe, sane and consensual. I didn't feel like I got an answer.

 33:26

To us. It's a lifestyle.

 Stacy Bolding 33:29

To them. It was more of a job.

 Jimmy Carper 33:32

Ah, I get I get you. Okay. Yeah, cuz I'm confused about that, too. Because what we talk about when we talk about s&m The SM scene, it is serious. Oh, yes. And so I don't understand making light of it. But if you're not personally involved, then then I guess like you said, it's just a job,

 Stacy Bolding 33:57

right? We went over these particular questions with the ladies to give them an idea of where we were coming from, and that we were going to take a little bit more of a serious side to it. Again, because we practice this stuff, this is something we do all the time. Yeah. And we're very serious about it. Because these ladies do it as a job, and they may enjoy what they're doing. Do you I don't know. Do

 Jimmy Carper 34:24

you think maybe in the strike community it is just the sideline is not a lifestyle that people like do make mainly vanilla sex and do do a scene here and there.

 Stacy Bolding 34:39

I think the strike community does engage in SM fetish kink sack. I just think that they're not open about it. When we come out being gay, that's the hardest thing for us to do. When we come out into the leather SM bed Each kink lifestyle. It's a little easier because we've already come out. Right. Okay. When they come out, it is real hard for them to do. Yeah, if they come out? Well, yeah, in most situations when people think of leather at any type of body, they think of gay people. Yeah. So I would assume that they're so reluctant about talking about it, or saying that they have any type of leather fetishes, or any type of kink in their life, that they're afraid people are going to automatically assume that they're gay. Sure. But you got to remember that this crosses all gender lines. John and I both have plenty of straight friends.

 Jimmy Carper 35:43

Talked about doing straight scenes,

 35:47

right? Yeah. Oh, yeah. We've done yeah. We have to because

 Jimmy Carper 35:51

we've I think the s&m scene transcends sexuality. Oh, it's very pansexual. Yeah,

 Stacy Bolding 35:57

it does fuzzy. That's where people have to realize that this is not about sex. It's about a frame of mind. Right? It's about stimulating not us. Not only their bodies, but their mind. Yeah. Oh, yeah. Oh, yeah, I am, you can do that with a man or a woman. The situation where the lady was talking about her. Slave, that husband felt like he was his duty to serve women. His wife for so many years treated him like a slave without actually knowing it. And then when he finally asked for it, she thought she moved on. I don't know if she realized what she was doing. It might have frightened her to now be open. Yeah. One of the first questions we asked was about the safe, sane and consensual credo. And we always ask that, again, is because it's something we live by. I think they're aware of it. And they do it. In so far as safety to them and their customers and things like that. I just don't think they were able to put words to it.

 Jimmy Carper 37:11

J Jimmy Carper 37:11

You don't think it's foremost in their mind?

S Stacy Bolding 37:15

Because they use safe words. Yes, I am going to say that they they do practice it in a way. But because they have not woven it into their lifestyle. Like we have, right. It's something we we do without thinking. And because we do it without thinking and we we talk to people about it, we have a certain understanding of what it means to us. I don't think they knew how to express what it meant to them. Wow. Which which almost scared me to be. But when they said they use safe words, it eased that a little bit. Right. And they're, they're very aware of what's going to cause harm and what isn't. They had a beautiful deerskin flogger that all the people involved in this interview with us knew full well it would not mark you. But it would still give you a little bit of a stain. Yeah, so they have they know the safety guidelines. Again, I just don't think they understand how to put the words to it. And that probably comes from us having a lifestyle.

J Jimmy Carper 38:26

Okay, I'm so used to people having words to put to it. Right. That's almost a little on the scary side. Oh, yeah. Well, you've

S Stacy Bolding 38:36

got to also understand that in the end there's a division in the leather community from gay leather and straight left Yeah. And I'm not sure why there's a division there but because of that they don't they're not aware of all of our our slang spa I guess either bad or the laws that we live by

J Jimmy Carper 39:01

wasn't NLA supposed to bridge that gap? Try a whole lot to do that right and gay members.

S Stacy Bolding 39:10

Fist is trying to do it all say yeah, yeah. With you know, bisexual Lesbian and Straight women as well. And that's my fist plug for the night. Well, we like like we've all been trying to say here tonight it's it's shoot. Let's move on. When they said security was not necessary on specially a one to one basis. That's a point I totally disagree with. Oh, yes. I think security is always necessary, especially in those type of situations. The one on one is great. But men are still physically more stronger than women. And I just feel like those women or even those men and could get hurt in the code word is great. That helps a lot in the initial interview helps tremendously. But I think with a little more thought you could have more security and it not hurt the scene. Okay, yeah. Oh, yeah. I've always felt more comfortable participating when I've participated in play parties, and there's a dungeon master, right? Because even if you get so far into the scene that, that you let it take you away, and it happens at times you got someone

there to bring you back. Right. So, um, as far as the security goes, that kind of shielded me away from it. Yeah. Okay. And again, I've also got from the interview that this is a dungeon that caters to men who want to be submissive to women.

J Jimmy Carper 40:51

Ah, so it's more of a specialization thing. Yeah,

S Stacy Bolding 40:57

basically, yeah, they do have some submissives. Yeah. But from what I got from the interview, it's not on they don't do that on a regular basis, a majority of their clientele are straight businessmen who cannot express their sexuality to their wives. So they go somewhere, to have a little fun, something different. Now, when they have one of their submissive ladies involved, there is another lady in the room. That's good. But again, I still feel like that guy could overpower both of those women in a heartbeat. And harm come to everybody. It could happen. Yeah, it could happen. I'm not saying it will and that it ever has. Well, they were very, very adamant about the fact that they have had no problems. Oh, yeah. No, they've been very lucky. And I think for Houston, this is a giant step. Yeah. Yeah, this is a giant step. First pay for play dungeon. Now what would even be better is if we could have a dungeon. Yeah, just don't have to pay to go to well, this is the baby step towards that. That may be Yeah, this is a baby in comparison to that, but it is a giant step for our community. And so I think it's great. I really think it's great. You know, in the dungeon was nice. It was it was a lot smaller than I had expected. But as far as equipment, and just the whole setup, they could take you and put you in any situation and fulfill just about any fantasy. Yep. Now, my only thing would be as if I would not probably send any of my gay friends or any of my male gay friends. I don't think they would be satisfied. Even the ones that don't mind being topped by women. But then again, most of the

J Jimmy Carper 43:05

what you were talking about, you know, it's two different frames of mind commercial establishment versus lifestyle lifestyle right

S Stacy Bolding 43:14

right now, but then again, most of most of my friends would not want to pay for it, especially when they can go get it somewhere free right. Now one of the Mistresses that we did interview, she was small in stature, but by no means was this woman unable to handle a flogger and unable to be men to a point where they enjoy where they didn't enjoy it. I mean, she hadn't built up some muscles. Wow. Yeah. But then again, see, I've never I have never thought oh, well, she's small. I have nothing to worry about. It's the little ones you have to worry. And to be honest with you. I've said this many times. I'll say it again. Women can be so much more sadistic than men. Oh, yeah, I think it's because we take it from a mental aspect. Oh, no, it's because you get your emotions involved. Oh, okay. Okay. One of the other things they brought up and you and I talked about this earlier is the CrossDresser with the transsexuals and the

cross dressers being such a more open part of our community now I think we need to address that. Well, the thing that bothered me when we went into that was that they never refer to them as transsexuals. It was always down for those people. And it made me feel like well, okay, are you tolerating them or are you accepting them? Um, I want to say it probably really doesn't matter as long as they pay. It's a pay for play situation. And just because a man dresses in women's clothing does not make him a transsexual. No, he can be a Trump crossdresser. He could be a drag queen. He could be doing it for a fantasy. Oh, yeah. For any type of situation. Just like the Jamie story. Oh, yeah, he does it because he enjoys it. He really does. Well, you know, I'm glad they're out there because they are performing a service where people are allowed to express their fantasies and fetishes in a safe environment. And it's fairly guilt free, right, I think it gets a lot of our lifestyle out to those that we can't reach. My The only difference between this dungeon and any other dungeon that I've been to is the I guess it's the frame of mind that these ladies were at. And that probably the frame of mind that the submissives who went in to pay for play Orient, and that I'm not in the same place there with them. So I had a little bit of a problem understanding, right, I think the thing that is wholly different for me is the non pansexuality. Okay. A question that we posed to the ladies and you've said it, and I want you and I to answer this is the leather scene is divided on the straight and gay lines. What can we do to bridge the gap? We posed it to the ladies. We didn't get much response again, because it's not within their realm of expertise at this point. So John, in your opinion, what can we do to bridge the gap? Well, I think we need to put aside the actual sexuality of it, the actual gender part of it, right? And that would help a lot. Okay, because if you just looked at people as submissives, and Damas are tops and bottoms rather than what their gender is, you accept the fact you accept their s&m fetish is not what their sex is. Okay. I think I'm taking the step and going out 10 Or Lutz, that was yes, acknowledging that it's there that it serves a purpose. Having them acknowledge us that we serve a purpose, I think are two major steps. I think we have to continue to acknowledge each other for a while till people get to the point where it's Hey, it's not always sexual. Oh, yeah. Okay, time it's not sexual. Right. The other point that I wanted to bring up is when we mentioned to the ladies deviant and demented lifestyle. The girls immediately jumped on the fact that we were gay and lesbian. That wasn't our point at all. Our point is whether you're straight gay or lesbian, the SM fetish kink lifestyle is seen as deviant and demented.

J Jimmy Carper 48:01
Oh, yes.

S Stacy Bolding 48:04
And after after rephrasing it, we got the answer we wanted. But I think I want to hear from John. Every time someone has told me my life is deviant, or sick or kind of kinky. I want to I want to wonder how they gauge that. Because in my opinion, someone like Jeffrey Dahmer is a very deviant person and sick, right? I'm nowhere near that. And it's all consensual. That's right. And it's all about pleasure. That's right. My answer is probably just like one of the other ladies answer. Have you ever done it to this extreme? Then you've done what I've done. I've just taken it to a different level. So I think that was about all on the dungeon that we had if you had anything else. No. Okay. The one other thing I wanted to do was we had a comment from Roy, the phone boy on the 2106. And his comment is 2106 is a violation of the First Amendment separation of church and state. It being 2106, in his opinion, affirms the Judeo Christian ethics.

The government must not be run by any religious that ethics besides MCC church that teaches that homosexuality is not against Christianity. Again, this is a personal opinion from Roy the phone. Boy, you sincerely appreciate it. Thank you. And you're gonna go into some music.

 Jimmy Carper 49:47

I'm going to go to a couple of different people. Okay, great. Oh, thank you, too. Well,

 Stacy Bolding 49:54

thank you. We had a great time. Yeah. Okay.

 49:58

And now you are listening to after hours queer radio with attitude on KPFT Houston and KEOS College Station Bryan and Greenwich speak into the microphone son. You were telling me earlier about a situation that happened.

 50:19

Yeah. Last night me and my lover was walking from a bar going to a friend of mine's house. We were assaulted with a gun put. We were forced to be put onto the ground can be much further sorry. Excuse me? Yes. Much and we have reported to the police. But the main thing is that I like to tell people to be careful when you're walking. Try not to walk alone and do not walk in the dark areas. We want shot. We want Stratford the 400 block of it of Stratford as a very dark area.

 Jimmy Carper 51:04

And that's right around Avondale. Yeah. Okay.

 51:11

Then, but try to stay out as much of the darkness as possible. Whenever you walk into your car walking home. Yeah. I've also gotten advice from friends of mine that know about this now, too. If you're going from a bar home and you just live right down the street, still take a cab or get a ride from a friend. Because it'll be a lot safer. But this community is not the same way it used to be.

 Jimmy Carper 51:37

Well, that's true. That's true. And And last night, I was on Q patrol and we do patrol that area we just didn't happen to be there when you were a wish. Yeah, yeah.

51:50

Keep a child does help a lot.

Jimmy Carper 51:52

I agree. We try. We try.

51:55

Well, this happened like a quarter to two. But when the whole deal was over, we ran I can imagine we ran

Jimmy Carper 52:04

and now I think I have a dedication to make. Yes. Why don't you read it? Alright, I liked and you are

52:16

my name is Nick Araya I'd like to get dedicate this song to my lovely Greenwich. I'm so I'm sorry. I've been so moody lately, but always know that no matter how cranky I am, I'm

Jimmy Carper 52:27

ah. And and that'll be it for after hours and we're going out with Melissa Etheridge. And what is she sending?
