Up next, it's going to be it's after hours reading time. And this time we're going to be reading from a really cool book, which actually isn't new. We had it last year. And I guess in a way that kind of makes it over, but it's still cool. It's called *discontents*. And it's a collection of nuclear writings. It was edited by Dennis Cooper. Yay. We really liked Dennis Cooper, because basically he does all his violent sex things. What we're going to be reading is an essay by a porn performance artist, and he sprinkled and it's about her the first time she had sex with her transsexual boyfriend who used to be Linda but is now less basically, I mean, we're gonna start in media wrath because basically we're skipping to the good parts. Okay, and what's happened up to this part is they've met in Boston because he lived in Boston and she lived in Manhattan. They've come together and now they're about to do it for the first time. They couldn't do it when they first met. They had to wait for less his penis to heal. And now I think it's, it's ready and David's gonna read.

01:08

Listen, dress me, complimented me on my finger, my softness, my perfume and my smooth white skin. He sure knows what a girl liked to hear. After all, he had been one. I took off his shirt. His arms and chest were covered with tattoos. He had large succulent nipples the kind made for feeding babies. Below the nipples were scars where his breasts had been removed. I took a nipple between my lips and nursed which he liked very much. I pulled off his pants and thought how much of his life he had worn silky lacy panties. Now he wore men's briefs, which I then took down there it was his brand new caulk with a shiny red bow tied around it presented to me as a precious gift. I was delighted with the gift and with less his creativity and playfulness. It was a fat flashy penis. remarkably large considering it was all patchwork. The head looked very realistic, except that there were long hairs growing out of the tip of it, which I turned out to be which I found to be a total turn on. The shift was the shaft was quite scarred. It bent to the left was natural and color and shape and very unique. Like a typical man he asked Is it big enough? I assured him it was perfect in every way. He was considering getting another operation to get bigger testicles. And he asked my opinion on the matter. His balls were tight looking at very realistic. I liked them just the way they were. I've always liked a woman's mound, and I prefer to think of his balls as an exceptionally mountainous mountains. When I ventured down it was there under his balls that I discovered a lovely treasure, a succulent, large red clitoris with a huge purple head and very moist pink pussy. When Les proudly displayed both sets of genitals. I went into ecstasy, panning and moaning amazed by my good

fortune. What more could a buy girl want? I scooped his penis into my mouth and gave it a passionate wet suck, that I lift and kiss my way down to his pussy and suck that clit like I never sucked a man's clip before. And indeed I hadn't. It was wild and strange. Like I was in some sort of parallel reality or hallucinating. I informed less that I was having the last day of my period. He said rate found my Tampax string and pulled what man could be more understanding and unintimidated by a little blood than a man who used to menstruate. He slipped his index finger inside me and went right to my G Spot fingering my like only a lesbian could less had no doubt into bed with many, many women before me. He obviously loved women and their bodies. He had charm and charisma and a woman could trust him and feel safe with him.

03:45

Okay, now to continue the fabulous story of Annie and less, Eric Deutsch is going to continue the reading.

03:54

Because we were both very anxious for the big D flower raishin we kept foreplay to a bare minimum. I lit some candles and incense and ritualize the initiation within invocation of the goddess of blessing of the new penis and of less for being such a brave pioneer. And then I have a gave a brief moment of gratitude. Never before in history has humankind been able to change people's gender so completely. I felt honored to be one of the first women in the world to try a human made penis. I prayed that lesses First, be joyful and healing. We prepare the penis for penetration. In order to make less erect, he must slide a hard plastic rod into the center of his hollow penis. The rod slipped right in. It was an instant erection and it felt freeing not to worry about having to get it up and keep it up. Even though I didn't have to worry about getting pregnant less doesn't have sperm. We decided to use condoms for safe sex and to prevent any infections in case less wasn't totally healed. We considered what the most appropriate first time position should be and decided I would get on top. I squatted over him, gave him my best kiss ever took a deep breath and lowered myself onto onto the newborn phallus. I felt it push up inside me, my throat opened, and I groaned with pleasure. It felt fantastic. It really worked. But after just a few strokes, we had to stop the plastic rod had pushed its way up and out the head of his cock and through the condom, we had to go into the kitchen and cut an inch off the rod. Thank goodness I owned a sharp small saw. In spite of all the modern technology that went into making lesson stick, we still had to work out a few basics. We laughed about it, and luckily less didn't seem alarm. Back in bed we tried. We tried a variety of positions, some worked and some didn't. The clock would flow right or left or it would go to a bad angle and slip out. This first time would require some patience and compassion. I wasn't used to these newfangled penises, and after all, it was less as first time less seemed quite happy with his new sex toy. He told me that watching the pleasure on my face made the pain of all 12 surgeries worthwhile. The penis had surface sensations. He could feel my muscles squeezed tightly around it, but most of his sensitivity was still in his clitoris. And okay, and I made sure to stimulate it while his was inside me something I've never done before. We tried to think a better system than using the rod. Perhaps we needed a thicker rod or a bass at the end of the rod. Less got the bright idea to try using his thumb. So he squeezed it into the shaft. I couldn't contain my laughter when I saw his with his thumb inside it or his thumb with a around it. He joked it looks like I'm back to lesbian sex again, using his fingers for you know, it's like a fancy snap on toy I made just for you. When I managed to stop laughing I

got back on top and rode the M thumb like a champion. Less had more control over its direction and it was thicker, harder and longer. It felt divine. I was on the brink of orgasm when less screamed out in pain. A panicked My heart skipped a beat. I thought I'd ruined his new \$50,000 thing. I dismounted and he screamed in agony as he removed his thumb from his thing. Married you almost broke my thumb. When he saw that all was well we laughed hysterically I mean hysterically.

07:42

Okay, and I guess we'll continue the reading and I will do that. Let's see. Okay. Suddenly, I was overcome with the motion and my laughing turn to crying. I was so touched by lesses optimism, good humor and lack of expectations. I was touched by how wonderfully freaky he is and how he lives his dream. I cried thinking about how much physical and emotional pain he must have suffered to change his gender. I cry for all the people who don't love their bodies just the way they are. For all transsexuals who have suffered the many who have resorted to suicide and for all sexual persuasions who are made into outcast by our society. I mourn to Linda Nichols, whom I know would be whatever I would have liked very much. But by then she was virtually dead. And God lets told me not to cry. Look at all the adventures I've had and the places I've been. It's been a wonderful adventure. After all, I might not have met you. We made love all night until seven o'clock the next morning. After all his blank stay hard for 11 hours straight. He told me I was the best blanket ever had. I knew it was true. I was the only blank he'd ever had. I love being with him and love being with a hermaphrodite. I wondered if I become addicted now and no longer be satisfied with regular men or women? Would there be more hermaphrodites entering the world? Would there be a new community emerging one of men with blanks? Would they become a new political force women taking over the world but as men? Would men now be able to become pregnant? I imagined how less would look nine months pregnant? Would he have would we eventually develop a new awareness of transgender of looking beyond a person's gender to His Spirit, whereas society would no longer try and mold us into being plain old heterosexual. Having sex with less was a constant mind blank. I could put my finger inside his blank his blank and fill her balls. His skin was soft and smooth like a woman's yet he had hair on his chest. His hands were small and delicate with a woman's touch. Yet he wore men's rings. His eyes and lips were so central were framed by a stubby beard. Although he protested I got him to put on a pair of my high heels. He was the first man I've met whose feet were my size and who could walk perfectly in fourth and stilettos. Sometimes he dropped little hints let me know he was still a woman deep down you He said that when he goes out into the world, it's like being a spy. Sometimes I become the more aggressive dominant lover. I reached for my favorite dildo. A four inch rockhard quartz crystal blank and I slipped it up inside his blank. He was so wet and juicy. Apparently the hormone pills makes this blank extra wet and give it a strong musty odor, which I really liked. Hormones also greatly increased the sex drive. Perhaps this is why female to males are often notorious womanizer. Unfortunately the love the pills are dangerous and very hard on the liver. His blank was tight. He has never had intercourse with the man so technically he's still a virgin. I imagine a threesome with let blanking me while he was getting blank by a guy less went for an orgasm. We wouldn't want him to get blue balls. I blank is blank with a dildo and gave his blanket hands up. While he vigorously freaked physical tourists. It was so far out to see a man fracas coutures when he came, it sounded like a woman's orgasm. But with the man's voice. He was of course capable of multiple orgasms. I think we're going to stop right there. On any sprinkle.

11:00

11:09

I remember reading this myself, because I have a copy of this book. And I think it's very important that we're able to air it. Because this is another part of sexual diversity that you just can't find everywhere. In fact, we had a caller call in and say, Wow, this is really great because he was following along with his copy.

11:30

Oh, really? Yes. Wow. So we weren't the only ones with a copy. That's right.

11:34

That's right. It's a very good collection,

11:37

too. Yeah, it has things pieces by let's see, Dorothy Allison. She's pretty cool. What other pieces that I like really brain drop. Can't say the title of that one. But it's really cool. Vaginal cream Davis. Cool. Cool. Diane damask VAs is totally cool comic in. We're basically a feminist goes out and yes, right down to the question. What's so great about a penis? Bow Houston, David Trinidad and a female and a whole bunch of people. Yeah. So it's a great collection. Yeah, you can probably find it at crossroads. Inklings or? I bought mine at Lobo. Yeah. Maybe even at the birth books. It might. Yeah. So go out and buy it. You want it? You're saying something?

12:23

No. I was saying you need to hear from we need to hear from vaginal cream. That if you want to read some of that piece.

12:30

Okay. We will read from vaginal cream Davis. It's a really cool piece where she talks about about basically stripping the feet of one of the Beastie Boys, the one who is now married to surname I only sky

12:45

maybe people don't know what shrimping means. Oh, okay.

12:49

Well, first of all tell you who doesn't know cream Davis's. Yeah, tell you what scrimping is okay, vaginal. It's this really cool. Black drag queen from LA. She's in a couple of bands. I'll read you

the little bio in the back of the book. Yeah,

13:02

that's what she puts out the scene and she's done a couple of really cool bands.

13:09

What's the name of her zine? Okay, here we go. It's in the bio

13:12

vaginal cream Davis edits of the zine fertile. Latoya Jackson magazine

13:17

is one of the one of the originals. Yeah.

13:20

And she's she's she's on really close terms with the Bruce liberis. In addition, she's a member of the band's Pedro mural and Esther, the afro sisters and Cholita. She directed and starred in the videos, that fertile feeling and it all started in black, and is the author of the collection of poetry rich to his husband. She lives in Hollywood. And okay, I guess I'll like read that part. Okay. It's entitled myself sexual.

13:47

Wait a minute. Wait, you didn't tell them what shrimping is. Oh, I'm

13:50

sorry. scrimping is basically sucking on the toes of somebody. Yeah. Okay. Yeah. Okay. Okay. That milky Magnesia mouth fat always. And again, middle ages looking Bret Easton Ellis. I can remember the first time I saw him. It was years ago at this club called bar Deluxe on the strip at the Imperial gardens Japanese restaurant. The same place is now the celebratory of Roxbury. This was right when his first book less than less than zero came out. And he was wearing his trust fund baby look and was with some equally rich balls like Agatha I noticed little Dame Ellis was giving giving me dagger eyes like he disapproved of my African American Flint boy asked him to, so I asked my companion if he knew the plump Fe boy. My friend fill me in on his tea and I realized I'd heard of him and for some reason I had pictured tall boss be functional and a bit humpy. The reality of Bret Easton Ellis at this particular stage of his life and career was that

he was a 22 year old trapped in a frumpy, old school Queens body. He wasn't just pre Stonewall, look at it. He was Stonehenge. I read it novel eyebrows Get Booked soup and couldn't imagine how it merited all the hoopla. In fact, I thought it was valid and just play In awful, it was boring white people wish, just like the movie sex lies and videotape. The real tragedy is that it could have been interesting. The French writer friends was the gun wrote her first novel. Bonjour. Yeah, whatever that word is, when he was only when she was only 17. And it's beyond brilliant. She lost her ads after she got older. The movie version with Jean Seburg is one of my all time vaginal favorites. But that's another story. So moving along in time, but just a few years ago and in New York in New York City. I'm at this gathering at a swanky loft and there is Bret Easton Ellis along with fellow wealthy eight camera Jana wits and that J guy Max something or another road bright lights big city now with a motley triumphant Aaron bread has gotten fatter and uglier. Miss Janowitz is completely Pei passed it and J bird is Jay Yang. Easton starts to stare at me acting like he's never seen a big beautiful drag queen before. Well, needless to say, I'm pissed. I'm just about to knock that Martini out of his head. It started house riot when the host of the party introduces me to Molly Ringwald and her then bow Adam Horowitz with the Beastie Boys. I was surprised that Molly looked much better in person than in her lame movies and Adam just made me want to get down on my knock knees and unzip his pants and work on that pectoris of his. He was wearing hustler white pants that perfectly shaped the outline of his thicker. He was very friendly and soft spoken which always gets my juices just in a man. Adam sua there is distinguished playwright Israel Horowitz and even though Adam is compact and size his body is the kind that makes my drive blank get all fidgety? Ever since that evening, I've been wracked by thoughts of Adam. He lives in LA now with the ultra princes Ultra pensez Princess actress lone Skye who I hate worse than death. One time we had a photo spread together for ID magazine and she was a holy Rowley terror not wanting to wear any of the clothes the style is brought for the suit and getting embarrassed by posing in the middle of Hollywood Boulevard. I don't know what someone is perfect is Adam season a chick like lone her brother Donovan Leitch is just like her but even more a prissy woman that hideous Susanna Hoffs formerly with the bangles deserved him. I've got to stop getting sidetracked getting back to Adam. Now that he is in LA and LA resident, I see him at various functions all the time, and I wonder how I can possibly get frisky with him. Just a month or so ago, he was at the opening of a new restaurant bar club and he was just a little tipsy and I managed to maneuver him away from my only long enough to get him alone in the women's laboratory and proceeded to remove his high top black sneakers and tube socks and syrup his big thick Jewish feet right off those toes of he has tasted so good, juicy yummy. I looked between each full toe and on the bottom and he'll have his foot and what it looks red was Adam was tripping on my boat in the sand completely uninhibited madness. And I was very much tempted to pull his wank out from his pants and turn it but I didn't have a condominium with me and I just am just the thought that Adam sticks his penis into lone made me not want to put my mouth thought so I set up with the strip job and I slept on his bullet nipples as well as his entire pectoral cavity. To be completely honest, I couldn't tell if you if Adam was really as into it. This little session as I was seeing rather confused and disoriented by what was happening to him. But he didn't try to want to wait either. So he must have enjoyed himself somewhat. And that reflect a riff Yeah, yeah, that was vaginal cream Davis myself sexual from the books discontent new queer writers, edited by Dennis Cooper published by amethyst. Very good. Yeah, go to your local queer bookstore

18:41

or ask for it they can order it it only takes a week or so yeah.

18:50

20:56

Just I don't understand what you mean. But what what you're talking about, but, yes, okay. You

told me to say yes, yes.

21:05

Okay. Yeah, yeah. And we also want to shamelessly promote this new rave being thrown by the matrix crew, which are those folks over at Mega zone. It's called Dimension X in 3d, universal experience that's going to be happening Saturday, April 24. And those of us who may or may not be in Washington for the Martin Washington, we're basically we ride and rip apart the nation's capitol. It's going to be what from 4pm to 4am. Where is it? It's at? Lone Star amphitheater. Wait, isn't it? No, that's not Astor. Well, okay. It's a totally different place. But basically, in the afternoon, they're going to be having hip hop music in the later later after that it's going to be tribal music in the evening, deep house and all night hardcore. Actually, some pretty cool DJs free through 3d cinema, free brain machine ambient chill out room, mind bending projection, smart bar, friendly security and all that cool stuff. Very cheap, cheap, cheap, cheap ticket prices. For any information call 8675919. The number again is 8675919.

22:17

And you know these raves work because here in the public news personal section. Have fun at the rave. You are wearing a black coat over a t shirt blonde shaved up Hi, I'm the blonde by boy with the choker chain. I wanted to talk to you shyness will never be my friend. Will you write cure boy?

22:38

Okay, where did it come from? Did you get the pod? Did you get the number?

22:42

No, they can get a public new shit.

22:45

Okay, it's from public news. And where was it where it wasn't where it was? Where is it? Show me where it is. And I'll give the

22:53

right it's public news ad box. 20440. So, like I said before, right, it's a hit.

23:07

Okay, and while while I'm here, I want to plug the alternative Broadcasting Service, which is

innovative television production for the 21st century. Basically, it's a guerrilla queer media outlet. And we do all kinds of cool, cool stuff with queer television. What we're working on now is the televised broadcast of the gay and lesbian march for Pride week or whatever the hell it's called. And we're particularly looking for people of color and women, although white people are encouraged to apply to for more information on that you can contact Mike Stubblefield at 5263424 That number again is 5263425

23:49

No, I really think that it should be like mandatory for our listeners to have pen and paper already ready because we've given out so many numbers tonight.

23:58

Yeah, and then we still have even more information to give out. Okay, Jen, June 6. Frieda kalo exhibit opens in Houston. Soul stop in America and we got it. Yay. Oh. Okay. I'm sorry if I just said no. Okay, I'm sorry

24:16

about it. Freedom would have been banned by the NEA now

24:20

not not the really big question these days is okay, since we all are aware that that Grunge is dead. It is no more it's Stop it You look very grunge. It's completely

24:30

no a 10 drag.

24:33

Oh, I'm sorry. It's completely and totally dead. The big question these days is what are we going to wear when we crossed the opening of the free to kalo exhibit?

24:42

Well, you don't have to crash. Why not? Just will be. I have I'll get my invitation. It's not that

24:50

those of us who are not Eric, who are still forced to cross the event. What are we going to wear

24:55

something with a hood?

24:57

Okay, something with the hood.

24:59

It's That's June How can you know?

25:02

Well, you have to take time to plan these things. I mean, if you have any ideas about what you'd like to wear to the free to kalo exhibit, to, which I might add we are going to call and write Madonna and invite her to the to the opening. Call us up at 526-573-8526 KPFT

25:18

cut offs, open toed sandals and along weave.

25:21

Oh yeah. And when I'm really cool.

25:23

Well, I don't know. I must admit I'm kind of hoping that one day I'll really be able to afford that Donna Qur'an New York, you know, skirt for men? Yeah.

25:32

Because one of the things that Frida did his male drag in her painting exact.

25:35

Oh, we forgot to say that she was bisexual. So we're not just talking about it because we like it.

Was talking about it because she's bisexual

we're talking about it because she's queer.

25:43

Painted herself in a suit.

25:45

Yeah. Okay, okay. All right.

25:51

What about open toed baseball shoes

25:53

with a baseball hat

25:54

off and on. We've.

25:57

What's something

25:58

from an Abbott and Costello routine? Nevermind.

26:01

Okay. Okay. I've just never given

26:04

didn't realize we were plugging Abbott and Costello while we're talking

26:07

fashion and they were bisexual. So that's important. Okay,

26:13

I think whatever Michaels wearing is gonna be the thing to wear in June.

26:16

Oh, not just talking to Mr. Baseball shoes. Okay, well, I

26:21

mean, I had no idea what they were. But okay, now that we've declared the death of grinds, what's the new the new movement? Drag? Acetic

26:28

juice would be

26:30

cool. It's it's happening. Okay. But But can we combine the Hasidic Jew look and the drag look? Oh, easily anything with a prayer shawl? Jewish drag queens. Yeah. Well, Eric, you're Jewish. That's right. God,

26:48

okay, we can eat not a dry cleaner.

26:50

That's okay. Well, we'll be dry cleaned up the Hasidic Jewish part

26:54

in the middle of summer camp, perfect.

26:57

Okay. And I've also kind of decided that I am coming out into my blackness. It's time for me to ~~work the black angle~~

WORK THE BLACK DRUGIE.

27:03

And as you know, after the show tonight, I am coming into my blackness

27:07

cool. I'm coming into my blackness. And you know, the thing I want most right now is one of those huge humongous Angela Davis type afros. Now, I don't anticipate growing my hair that long, so I figured I just gotten by a wig. But that I don't spend a lot of time combing it out. Nonetheless, this is true. And you know, I'm going to have one of those those comps that have Yeah, one of those pics that has the, you know, the black hand, the clenched fist. And what I was thinking was that I could go and dress and be very pimp like, and Eric, my best friend and Boon companion can be your hoe. Yeah, you could be by how basically a long blonde wig and you know, skimpy suede things and

27:50

it'll work. So do we know when our next show is? No, we don't know when our next show is? Well, that show will be a fundraiser for you to buy some some garments from the Donna Karen New York collection.

28:03

That would be kind of cool that we had like a like a fundraiser for like queers who could not afford designer where

28:09

we can do that. But we'll just we'll start with you start with me.

28:13

Do you mean like, front for a fashionable Houston or something? Does it need a name?

28:18

Well, that's that works. Okay. And then since you're artists, you can help them create the whole visual thing. Yeah. Basically, we're raising money for careers like us, who absolutely have to have you know, Champa go to a and all that cool, fashionable stuff, but can't afford it.

28:32

So we'll start a group called queers like us. cool to me. Oh, but wait, wait, wait, wait, no, it can't be. If we're into the whole homecourt movement, then we can't be queer anymore. Because queer is clone. So now to decide that well, that's a personal issue that we'll have to discuss.

28:51

Okay. Well, yeah, no, we're gonna fight about more later, we're going to be fighting about that because I'm not going towards homework or I'm going towards hip hop.

28:58

Well, yeah, that's true. But you can't use the term queer anymore. It's not politically correct. It's, it's 80s. It's dead. It's very,

29:04

I think the most important fashion question at the moment is how to be formal and the answer is to wear beads on the outside instead of on the inside.

29:12

But the question is, what kind of beads

29:13

Well, if you've been reading International Male magazine, you know that there's a six foot strand of pony beads made of glass. There's the leather choker piece necklace, and there are some other choker necklaces with the Indian motifs.

29:29

So people that can't make it to the bead shop to just go ahead and buy their own beads can order them for \$2. We were

29:35

at a party tonight and a really good looking guy was wearing a like an Indian Mexican silver choker necklace. It had three strands in silver.

29:46

29:46

You heard it here first.

29:49

Okay, and then while we're like talking fast, and we might as well plug, Esquire, a gentleman, the new quarterly Escar Esquire magazine, which is basically I don't know what Excuse the show really cute looking boys wearing fabulous clothes featuring an article on gay fashion. Yes. Which Eric was displeased with? Well, I

30:07

read it and, and the quotes that they took out of the article are displeasing and misleading, but the article itself is good.

30:14

There is also an article on black elegance, which I'm gonna read. So I can be up on the now and be very back and very elegant at the same time. There was also the photo the photo spread with Marcus scheck and Burke, who is the only male model even remotely approaching supermodel status. So you all agree, yeah. So that should be on the newsstands now gotten by it, and we go, I'll be hip hop happening and cool. I guess you can probably tell that we're wasting time because we're pretty much out of topics.

30:46

Did I say that I needed a band and my name is Greg, Florida. Okay, my number.

30:49

Do it again. Go ahead. Okay, wait, well,

30:52

31:00

And I'm, and I'm offended at your comment about the 80s. The 80s live on the eighth in New York still live on in some people's mind. And my mind, I am very proud of my she's cried in the 80s. What are you 18? Yes, I'm 18. You should? Your 80s It's sentiment?

31:26

generation should be thinking about or now in the future? Not why can't rd in the 90s where we're still not even the middle of the 90. Okay, great. What's

31:35

your problem with the 90s?

31:36

No, but it's too commercial. I mean, if the if the music the ad is way, way way, like music industry, if it's my it's my own personal goal to change the music industry as it is today. And if I do not get if I do not, if the music industry does not change as it is today, that I'm just gonna kill myself. Well, they're really, one year later. Music I made mainstream Greg mainstream music today is not art. It's just money like Paul Abdul Whitney Houston, please. That's just because of money grubbing Corporation, mainly,

32:18

but they both came to fame in the 80s. And we don't listen to those people anyway.

32:23

And mainstream music in the 90s is alternative. I'm talking about, like, new wave. Whether it be like we talking about baby talk, talk.

32:34

And the scary thing about it is, is when you listen to 104, they are just now playing all those songs from the 80s and the 80s. For the first time, thank you, because they

32:50

think we don't know. But when I was in New York in August, they were reviving the music of 1984 and Culture Club and yes, and so forth. And I thought it was because it was the first music that people fantasize to in junior high school for the most of the audience there. Okay, that

33:03

I also think that it's also the music that we listened to when we were young. And that we're reliving our youth. Because, you know, we're all with not much to look forward to. Yeah, and we're all like approaching 21 You know, and after you're 21 you have nothing else to live for. Well,

33:20

I apologize because I haven't listened to 104 because, as Morrissey says I've just been truly disappointed. Hang the

33:30

DJ who insinuation

33:33

vocation raishin Okay, now,

33:36

I have a vocalist. I need a band. Okay,
