Oh yes, you've tuned into after hours queer radio with attitude right here on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news interviews, dialogue and music geared for gay, lesbian, bisexual and transgendered people and their friends. Hear it after hours, we may be diverse, but we have one thing in common. We are all out of the closet and urge everyone to come out of their closets. That means standing up for yourself taking responsibility for your own life, and being proud of who you are. Realistically, we know not everyone can do that because of age job or frame of mind. That's okay, we're here for you too. So sit back, relax, and enjoy this week's edition of after hours. Hello, Houston and college station and Huntsville and, and maybe Galveston, maybe Galveston, and welcome to after hours queer radio with attitude on Jimmy Carper. And welcome to the December 2 edition. And yes, this is December, the month where I play seasonal music by openly gay, lesbian, gay, no gay, lesbian, bisexual, transgendered artists, right? And I'm kind of I kind of, I'm slipping into it, you know, because I've had some requests for other things, and I've got some new music. And that's what I started out with actually, Brand New Music by Dave Hall from a CD called True, which isn't really even out yet. And that was called his was thought that was a really, really nice, nice song. And, um, and then we kind of, we kind of eased in there with Kevin Scott Hall and his version, his song, holiday spirit, he wrote in saying, I like that one holiday spirit. Yeah, that's the kind of sloth when does the trough come out?

o

03:08

Do we know? In

J

Jimmy Carper 03:09

a couple of weeks, couple of weeks? And it's only it's only on the you can only get it on the internet, actually, Giuseppe Giuseppe Joe records. And that would be email, no HTTP, you know, blah, blah, blah. wq Giuseppe joe.com And that is G iu SEPPEJO e.com. And sitting next to me is Whitney.

03:43

Hi. Hey. And I think they're loading up in there. Yeah, there's I see. Oh, there's a whole bunch of people and I Hi, I'd see

Jimmy Carper 03:52

people I haven't seen in a while.

03:55

Okay, I think y'all are back from the dead. Yeah.

Jimmy Carper 03:59

Is this is the first Saturday of the month. And that must mean that bisexuals?

Gigi 04:05

They're here, where? That's why

Jimmy Carper 04:11

they're here. They're both ways. They're not going away. Get used to them. And JG is here with Scott and Jim. And more on the way I think,

Gigi 04:27

Oh, yes, good. In fact, we just got back from the conference in Austin not too long ago. And I got just got back after that. I went to San Juan and then I came back and hit a plane for San Francisco. So it has been busy.

Jimmy Carper 04:45

And I am unhappy to say that it is way too cold for the naked radio tonight.

Gigi 04:51

Not quite.

04:53

I don't know if I'd say that.

Gigi 04:57

One thing to

Jimmy Carper 04:59

say Yes, I noticed you you've had on leg warmers? Yeah.

05:02

Yes, but they only go so far. Oh, but they warm so many parts. The rest of it you have to warm by hand.

05:12

Yeah, but Jim is actually wearing pants today. Yeah, Jim is Yeah.

05:16

So long pants for the first time in like, eight months at least. Yeah. Okay, so you know something actually touching my calf feels really weird. Like brushing this thing off.

05:31

But generally do show your outline very nicely.

05:36

You charm charmer. Yeah.

Jimmy Carper 05:41

Well, I'd like to be able to warm something up by hand. However, I am the original go on. Oh, man.

05:46

Yeah, go into man. He is the ambient temperature of the room. Yes, yes. I'm sorry. But it's kind of warm in here. So he is like below the ambient temperature. is cold, cold cold.

J Jimmy Carper 06:02

I always am. I am always cold. So if you want to chill things off, I'm your man. However, we do want to hear about the conference.

G Gigi 06:16

Oh, yes, definitely. It was really fabulous. I mean, we had. And it wasn't just a conference this year. It was also the National Meeting. That's right. And some really, we made history this year. You always do. Oh, you know. I've got a comment I want to read to kind of kick things off, because, you know, it kind of captures a part of what I sense happens in our region's so far too often. Okay, I really want to thank you all for such a wonderful event, the by conference, you really know how to throw a party living in Dallas, I don't have access to such a group as yours. But we all see what happens. I'm really inspired now to try to create one by Philip.

07:12

Oh, yeah. And yeah, this group has been tried hasn't had a couple of times. And it just

G Gigi 07:19

well, it's back on the grow. Oh, they've got a website now. And they've got a EEG group now, which is first for both. And there you are really cranking away since the conference. A few people came to the conference. And I think Philip was one of them. There's a couple of others that just were so inspired.

J Jimmy Carper 07:42

You were saying by Philip is if that that didn't mean anything to me what the what

G Gigi 07:47

out Phillips just the name of the person that wrote that. And he's from Dallas, and they got back up there and he's been getting things gone.

J Jimmy Carper 07:58

Oh, because Dallas doesn't have a

08:00

group. Oh, Dallas used to have a really good bi net. Before I moved to Houston. I've been in Houston 10, almost 15 years. They had a bi net group that met up and Oaklawn at the community center there. And it just

Gigi 08:19

went away, Deb Dixon made to Atlanta. And when she made that kind of that sense of conference, we're seeing a rekindling. And it's really reforming nicely, because there was

08:34

a large group up there. In any given meeting 20 to 30 people and it just I guess she was the motivator. And everybody else just sort of said, okay, yeah, we'll help out. But we don't know how to start things. And after she left, it just all went away. That's what happens

Gigi 08:50

far too often. But um, you know that the thing is, that's what these conferences are all about. It's rejuvenating and creating by space, a place where we can be who we are freely with one another and not have to explain our behaviors. However, they may seem to others. But got Jim and Scott both went to the conference. And I've just kind of wanted to open things up and see what Charles impressions are.

09:26

I really enjoyed all the the workshops I went to I went to the one with the blessed by spirit.

Gigi 09:36

Bisexual people of faith. Yes.

09:39

Deb Kolodny Yeah, yeah, I couldn't get that last name. It was like, but that one was really good. I enjoyed that one a lot. Yeah, I went to the most of the kind of more metaphysical I guess. events there. Yeah. So there They're all really neat, and really neat. And then of course, it did think, a little massage demo thing. And, you know, pick out Yeah, we picked out a victim and you know, and have like, everybody working on this person. So want to be effective. Yeah. Oh, yeah. They really hated it. You know, the poor guy really, really was hating it. You know, like,

10:22

I was at that workshop. And yeah, he was he was hating it, Jim. Yeah,

10:26

I could just I could tell he. He felt used and everything.

10:31

But I'm used in all the right ways, I'm sure.

10:36

And the bats, we went out to the bat bridge. Oh, did you see the bats? Yeah. Oh, man, that was so cool. That's you just sit there? Is this a whole great big gathering of people that we just sit here waiting for these little bats to come out? And it's like, they send out little scout bats, two or three of them that just kind of go out, you know, kind of test the water, I guess. You know, like, 2 million of them come out after right after that one. Just huge cloud. Oh, it's cool. Oh, wow. It really is cool.

Gigi 11:07

I didn't get to see the bats. There's so many activities going on that evening and night. And even in the afternoon. It's like, what to choose? I can't go both ways at once. Well, I can Oh.

11:23

But not in two different locations at the same time.

11:27

So did you make it out to hit me hollow the next day? No. Oh, no. Yeah, I missed that too. And it's kind of too bad. I really was looking forward to a little bit of nude swimming.

11:39

Well, Jay, and I kind of cut out early actually, yeah, the Sunday coming back. But yeah, it was one of those weekends where you get like three hours of sleep. And it's like, Friday. Wasn't that like, wasn't today, Friday? No, it's Sunday. Yeah, it doesn't feel like the next day until you've gotten to like some amount of sleep and get up and it's like, Oh, yeah. So the next

12:02

day, the sun has gone around twice since you last slept? Yeah,

12:07

it still feels like Friday, but it isn't.

Gigi 12:11

Let me kind of go over the lineup of the last conference, because it was it was a little different. This year, we only had a one day actual conference of workshops. But the Friday before the conference kicked off, we started with the national meeting. And we had leaders come in from all over the country for that. And then we took a break. Saturday, so everybody could participate in the workshops and the events. And then the national meeting, re convene early to early Sunday morning for some of us. And then we ended around noon for the national meeting. And then there's events all afternoon, all around Austin going to hippy hollow and forget some of the other ones. There's one for

13:07

there was some kind of hiking by

Gigi 13:09

hiking biking thing and just

13:13

yeah, there were some things that individual people decided, oh, let's do this, you know, gotta like small groups kind of went off and did their own thing. Yeah.

Gigi 13:20

But Saturday was real main line app. And I tell you, the workshops were intense. And then Saturday night, we had a quite a party. I mean, it was like, Go Go Borley go go by boys and girls.

13:39

Oh, and there were belly dancers and alien female.

 Gigi 13:44

And dancing and all kinds of fun season.

 13:48

It's almost like there were so many things going on Saturday night. It's like, well, there's too many things. How do I choose? No, I fit this all in

 13:57

trouble. Oh,

 13:59

God, I can't believe you just said that. fit this all in you had, could we let that line just lay there like that? See? That's

 14:09

why I leave these things.

 Jimmy Carper 14:13

You let it lay there and I'll jump.

 14:18

Only if you immerse first.

 Gigi 14:21

Yeah. But it was really an incredible experience. Just having all the people together again. You know, it's like I can never get enough of a conference by space or the retreats. It's like the love energy source and everybody's just all there and

 14:42

so yeah, the core tingly stuff. Yeah, it's just

G

Gigi 14:46

I'm still kind of floating.

♂

14:50

And Austin has hills that aren't overpasses Oh yeah, it was cool man was like wow, this is like elevate Question.

♂

15:02

What's a natural hill? I'm a Flatlander. Doesn't have a hole running through. Yeah. A hill without a road underneath

♂

15:13

a hill does not completely, you know,

G

Gigi 15:15

can get some flights with that statement.

♂

15:20

Talking about a hole underneath

♂

15:25

so bad. Scott, what was the best thing about the conference for you? And what would you like to see next year happening as far as a change in progress for the conference?

♂

15:36

Oh, wow. Definitely the massage would be the best thing.

♂

15:40

I you suck or you're just another one.

♂

-- --

15:43

I'm actually not plugging Jim. Although, you know,

15:46

I'm gonna leave it sounds hands. It says, Hey,

J Jimmy Carper 15:49

if you asked him out, he would probably let you plug him.

15:54

He wouldn't let that line lay there.

15:57

Let's see. That's why I put these things. Just to see bump bump. As far as what would I like to see for next year's conference? Hmm. I'm still kind of coming down off this years. Huh? Don't know dancing is good. Dancing with good. We had dancing it this years, though.

16:19

Yes. About how many people attended.

G Gigi 16:21

It was about I think about 60.

16:28

Okay, that was just from the surrounding areas, or?

G Gigi 16:32

Well, it's for the South Central region. We had some, I think one or two from Oklahoma. Some from Louisiana. The majority, like every year until we build up the region a little bit more come from Texas, but from all over Texas. So it's really you know, we get some from Dallas, some from Houston. Some from Austin. We had, I think one or two from San Antonio even. Even

though we don't have really have a good group down there. Yeah. I keep hoping that we can get someone to start a group in San Antonio. It's very much needed. But yeah, we got people from quiet. I think the furthest person was from New Orleans this year.

17:26

That's a good distance out, though. Um, what other conferences does by net support other than this, just this one for every year? Mmm. Isn't there one out in San Francisco? That's also by net? And I think there's one in Ohio somewhere like Clevelander? Yeah,

Gigi 17:44

there's, well, each region does their own conference, or some days some down. So there's the because conference then there's there's one coming up soon. In Florida, and it's gonna be pretty interesting. That is what mid January? Yeah. About

18:08

the I think it's like the second or third weekend.

18:11

So book your tickets now.

Gigi 18:12

Right? Yeah. And they are really wanting people to register early. If you go to BiNet Houston actually know best place. Bisexual options web page has a listing of that conference. And you can get all the information and the links from there.

18:32

And to get to bisexual options webpage, you can probably just put bisexual into a search engine and it should come up right? Oh, yeah.

18:41

Oh, yeah. That about nine?

18:45

Well, I think with bi or sexual in it. Well,

Gigi 18:48

I believe the address is bisexual.org. Hmm, www bisexual.org.

18:57

If not, that'll probably get you to a good website anyway. Start searching

Gigi 19:01

for stuff. And if you can't get it that way, then go to BiNet USA dot c www.org. Yeah. And they've got a link. Well,

19:13

the only other thing I can think of that kind of helped the conference along is let the people who have are supposed to be like, in the conference, let them know that they're supposed to be there. And yeah, I mean, you know, I just remember somebody asking me Oh, would you like to do a massage thing? I said, Yeah, sure. Okay. Good. And it's like, I get there and it's like, I didn't hear anything like when am I supposed to be doing it? Am I doing Am I doing it? And then I got there that morning and it's like I look on the board of advanced Dodd I did a me

19:53

urine event. It's like yeah,

19:54

well, man, I'm glad I showed up. I guess I'll attend that one.

Gigi 19:59

yeah

20:06

overall, it was really good. It wasn't, it wasn't quite as the comp though the honey column, the workshops were not. There weren't as many as they were last year. Wow.

G Gigi 20:22

Which is they were kind of concentrated to one day, which Yeah, last night. Yeah, that's true. They are spread out over three days. Yeah. Yeah.

J Jimmy Vaughn 20:31

And then, of course, you get the dilemma of oh, God, do I go here or do go to this? You know, but that's one of those kinds of, it's a good thing, because not everybody wants to go to the same.

G Gigi 20:44

And same workshop to give a little flavor. I mean, they had workshops on everything from polyamory, to bisexuality, one on one to buy trans issues to add to the by trans.

♀ 21:06

But why do we need conference sexuality? I mean, I like to get like the gatherings I like people getting together. But why do we need conferences? Do you know who do bisexuals need that much education or what

G Gigi 21:19

I think part of it's more than just the education I think part of it. You know, when and I've thought about this a long time, what happens is, first of all, we discover Oh, I think I'm by and we're kind of isolated, bisexuality isn't very visible. So we kind of look around, and some tend to stumble into a group like by near Houston or some other local group. And then all of a sudden, they go, Oh, wow, there's others like me out there. And, but then it's a small circle of friends. And then the next step is joining with other local groups. And that's what happens to the conference. It brings many people from all over together. And all of a sudden, it's like, it breaks the isolation of the local group from other local groups. And it just creates a really wonderful energy. You

♀ 22:19

know, that's a that's a really good point, Gigi, and I'm glad that you asked that question, Jim. For me, it does something else. Anyone who has had to deal with coming out, either to their friends, to their family to themselves, whatever, anyone who's had to deal with that realizes that there are different stages of coming out. And I guess for me what a conference does, I'm at the stage where I'm out to my family, I'm out to my friends, I'm out to some extent at my job. In other words, if somebody were to ask me, I would not make up any excuses. And there are probably a few people there who know. So I'm, pretty much I'm out there, you know, anyone who knows me fairly well knows what I'm all about. And they know that I'm a part of buying at Houston. And there's, there's different things that we need at those different stages of coming

out. I'm at the point now where I need ammunition to help educate the masses who don't know about bisexuality. And that's what a conference does for me, it gives me some of that data, some of that education, that I can help people understand just what bisexuality is all about. They may be bi, they may be straight, they may be gay, they may not know where they're at all, that's okay. As long as it's kind of like, as long as I've got something that I can say, hey, this is what we're all about. That's what a conference helps me do. Well, that's

23:45

the fellowship. And that's with any organization, any church, any, you know, Boy Scouts, whatever, is, like people like minded people, and helping each other because everybody progresses at a different rate. And you'll have people that it's their first conference, don't know a thing, are lost babes in the woods. And then you have people like Gigi, who's just in every one of them knows everything knows, everyone can show you everything about it. And that him being there, helps the new person. So it's also the fellowship.

Gigi 24:21

And I think there's another phenomenon that occurs that by conferences, the energy really soars and that's like, that's where I get my batteries recharged. Big time. It's like, you know, day to day, day after day you do your stuff, your activist stuff, and like if you're like me and out there, and you know, you kind of had these slumps from time to time where you think, gosh, I just need a little more energy, you know, it's like, how can I keep fighting the religious right, you know, it's so draining some days. And then you go to a conference and you go, Wow, I'm ready to take on The whole world now, send them on.

25:04

Well, you get that positive energy from people because they're all relaxed, and they're with themselves and they're with people that are not going to judge them. Just on one spot of information about them that they're bisexual. Yeah. You find even with the gay community to say, Well, I'm bisexual, and they're like, well, can't you decide? Well, I've decided that that is my decision.

25:32

That's a viable decision. I mean, that's why is that not valid?

25:36

Oh, yeah. I mean, it's, I got that from some of my gay friends. I mean, they were on one of the local hangout spots. And we're all cruisin and watching people walk by and, and they're watching the guys walk by and, and I'm watching the guys too. And then this good looking girl walks by and one of the one of my friends said to me, Oh, honey, you know, that's, that's a real girl. And I'm like, yeah, and your point is what? And he goes, Well, we thought you were gay.

And I'm like, No, excuse me. I'm bisexual. Hello. And they're like, Oh, well, you just haven't made up your mind. Oh, and I read them the riot act after that. I'm like, No, I have made up my mind. Maybe you haven't made up yours.

G

Gigi 26:15

The problem that comes in is the visibility factor. It's like, you see two people walking down the street. And depending on their, what your perceived gender of them is. Most people will assume they're either gay or straight. Rarely do I ever hear someone say, oh, there's two bisexuals? Yeah, they just

♀

26:39

go on by what they're seeing. Yeah.

G

Gigi 26:42

And I mean, they just don't stay we, you know, it's a kind of social structure that kind of makes us more invisible.

♀

26:53

It goes on to the same theory that it's more, okay, for a female to be bisexual than it is for a male to be bisexual. And I, to me, it's not about gender, it's about the person. I'm attracted to the person, it doesn't matter if they're male or female, you know, canine, it just, it's the person

J

Jimmy Carper 27:16

it No, it's not that it's okay, more, okay, for females to be bisexual, it's accepted more, what it means is, it's okay for women to play with other women for straight men's amusement. Okay, that's what it means.

♀

27:35

In fact, we were walking into the restaurant, and I had brought up to Jim that, you know, it's every heterosexual man's fantasy to be with two women. After you've been in a room with a bunch of naked women, you know, it's nice, but it's not the main focus of your life anymore. It just, there's a more relaxed feeling that I found being bisexual than being straight, or going to be a lesbian, bisexual, it just fit me.

♀

28:12

You know, that's a good point. And in addition to being bisexual, I'm also a pagan. And as some

of you out there who may be pagan would know a lot of pagan events are clothing optional. So I've been around lots of naked women all at once. And, you know, I mean, it's cool. But you know, it's not the biggest thing in my life, either. Yeah,

28:32

I mean, it's,

28:33

I mean, okay, it's nakedness. All right, and if sex happens, all right, but, you know, it's just not the biggest thing. What I'm more interested in, like you said, is the person who are they? What's their brain? Like? What's their spirit? Like? Who is this person that I'm making love with.

Gigi 28:49

And it's not only just about making love at, you know, now, when I get into the BI space, I can jump in a guy's lap one minute and give him a kiss, and then go and kiss a woman the next minute. And then by spice about he's cool with that. But if you tried to do it and won the, like, gay leather bars.

Jimmy Carper 29:13

You do don't even try it. They will not be very accepting, right? I'm very sorry to say my gay brothers are not about as accepting as straight men are, you know, it's just or if

Gigi 29:27

you even tried and won the straight bars, right? You know, it's the same story. And that's some of the oppression we live under. It's part of by Nance mission is for people to be able to have freedom of sexual expression and gender expression, whatever form that may take, and that's

Jimmy Carper 29:49

really hard to get across because there's, there's no unless you've got two women and a man or two men and a woman walking down straight together arm and arm. I mean, there's no visibility, right? bisexuals know.

30:08

You know, even when a person thinks that they've reached the level where they can accept bisexuality, sometimes I find that really they can't. Case in point, a relationship, which I once had with a woman, she had had some experiences with men and some experiences with

women. She considered herself straight, but by sensual as she put it, in other words, she's not really interested in women, but she's kind of done some things. And she's interested in guys see, I was like, Okay, that's a little strange. But, you know, we had a pretty good relationship, except for the fact that she had trouble. When I wanted to play the more feminine role. She got very competitive, and things got real nasty. And I'm like, Well, you know, I'm sorry, this just isn't working. Oh, they hate it was. She thought she can handle it. And, you know, I'm like, okay, you know, I'm just gonna be me. And I guess, for whatever reason, she still had trouble with things. But that's the kind of thing like Gigi was talking. I mean, that's why I'm in by net. So that I don't have to explain myself to anybody, I can just be who I am. And

G

Gigi 31:29

when the thing you bring up an important part that I had discovered long ago, is that when I'm able to express myself, with freedom of gender expression, it's very fluid. And it's very liberating. Because I can get in touch with my full self, I don't have to repress parts of myself to please a partner, when I can just totally open up and be get on my Honda 751 minute and kiss somebody, and then swimming with flowers in my hair the next minute. You know, it's really this kind of ability to get in touch with my whole self, the masculine side of me and the feminine side. And I see so many people that in our culture have to repress one side or the other, depending on their gender.

♀

32:28

I had an interesting thing happened tonight on those lines, I was out buying new shoes, and shoes, I needed running shoes. And so I'm like, you know, I'm okay, I'm looking at the Men's Running shoes. Okay. And there's, there's some good looking ones, you know, and, and I decided, well, you know, maybe I'll take a look at the women's running shoes too, and just see if there's anything I like better. And there, you know, I tried on a couple pairs of each. But as I'm looking at the women's running shoes, one of the salespeople comes up. And he approached me from behind, I guess he was walking by to stock themselves or something. said, Are you finding the shoes? All right, ma'am. I just thought I thought about, you know, should I say anything? How should I play this out? And I just decided to play it cool and turn around and say, Oh, yes, I'm finding them fine. Thank you in my normal voice. And you know, of course, I haven't shaved in a day. And, you know, I guess my appearance to him was gender neutral or more feminine or something. But then when I turned around and said to him, Oh, I'm doing fine. Thanks. It was like, Oh, I'm so sorry, sir. But, you know, I didn't say I didn't say to him, you don't have to apologize. I just kind of like, let it ride.

♀

Well, there's not many males that have hair like yours. This is true for the mean, just the color in the tone, and it's wavy, and it's gorgeous. Why don't

J

Jimmy Carper 33:49

you explain what His hair looks like?

33:52

Well, here we have a bit him out. It's beautiful. It's red. It's soft. It's

34:05

women and very wavy. And I just had both my ears pierced as well. Yeah.

34:09

Women pay big bucks to attempt to get hair like that. So yeah, I can see where he was looking at you from the back. You're looking at women's shoes. You have long pretty hair. It's maintained well, and you know, you got that cute little buck going and he just thought you were awarded.

34:31

Have to admit I kind of took it as a compliment. But the way he responded when he realized that I wasn't a woman. That's his own embarrassed. Yeah, that's the fact that I'm embarrassed is just, it's just really sad.

34:44

My roommate was we had been doing some Christmas shopping and my roommate was carrying the bag out of the store and looking in it and I had just started, you know, get out of there. There was an elderly woman that had just crossed the threshold to the store and She heard me say get out of there. She turned around and gave me the dirtiest look. And I had to sit there and explain to her for five minutes that I'm sorry ma'am. I wasn't talking to you. I didn't mean to offend you. I was talking to him. He's snooping in this Christmas packet. But it's just her first what she heard. She heard me saying, Hey, get out of there. She was walking into somewhere. This gentleman saw you from behind. saw you at the Women's wandering shoes. just assumed. This

reminds me of out of context theater. Sort of like when you hear the tail end of a conversation, but you didn't hear the first part. Yeah. Yeah.

Gigi 35:37

But I have to throw another element into this because I've had people see me face to face and call me ma'am. And because I do kind of present somewhat androgynous and as soon as I opened my voice my mouth like oh excuse me But I think that it's more than just slurs I

opened my voice, my mouth like, oh, excuse me. But I think that's more than just drag. I think we all kind of have a something we project that's gendered. Ish. That goes beyond just our physical selves. It's kind of the spiritual gender of us. That tends to project out because people pick up on that all the time with me and can't quite tell if I'm male or female. You are very androgynous.

 **Bobby 36:28**

Yeah, the the first time I met Scott Yes, Bobby. Yes. Well, there was this whole thing. You know, we're talking about the the whole male female thing. Oh, well,

 **36:46**

let's let's give the listeners the benefit of saying where we met and how it was dressed. Yes, well, we met what two years ago at Texas Renaissance Festival Renaissance fest. I was in full Ren Faire drag. Oh, but

 **36:59**

that down gorge he was in

 **Bobby 37:00**

Reno. He was wind drag that time when winds drag and and this goes along with one other thing you were you were talking about his hair. Now he has hair a very close color to the color my mother's hair was

 **37:20**

oh, that's a whole nother fetish. So

 **Bobby 37:26**

when I saw this person, we're not going with wearing makeup, a dress and with my mother's hairstyle. And hair color. I was like, Okay, I know this is a man but

 **37:50**

the Oedipal implications

 **Bobby 37:54**

and just as much...

are just so many

37:58

gouging out your eyes or anything like that.

Bobby 38:02

Mind you, he makes a bit of a fairly beautiful woman.

38:05

And you make a beautiful man Bobby Well
