I know where the hell is he?

 **Roy McCarthy** 00:44  
I know what like to welcome everyone to this week's edition of after hours news and views our views and

 00:55  
its peers pews after they hear it.

—

Chris 00:58

You just wait. I've been working on a joke there for the second item. Oh, did I just blow it? Oh, no. But first, just make sure the FCC isn't listening when they Oh, but first

Roy McCarthy 01:10

got to take care of their regular business to shout out. You bet. My good nice shout out there. To Randy and rosharon to the other nd down in Beaumont, to Greenwich out there in Katy.

01:23

Hey guys. How's it hanging?

Chris 01:24

Hey, and to a new person who just called in there, Jennifer right into Jonathan. Jennifer. Jennifer, who is going to be working with KPFT here. Oh really? And Marnie. A listener and a representative of our community. Oh, my, you may be? Oh,

01:42

good, good. Good.

Roy McCarthy 01:43

And, you know, on the last segment, Jimmy, yes, there were three brand new cross dressers or transgender people. I don't know where they first time listening. Great. And I guess it was something that Scott had said I think the the deal and bought the shoes when he was buying the shoes and all that and then prompted, like three

02:08

calls or help you or you told them to tune in next week. Right? And

Roy McCarthy 02:13

I course I gave them the tax number in between because, and it was kind of exciting. You know, the, you never know, you just never know who's listening in. And for all you first time listeners, give Chris or me a call because of way we love hearing from you. He does

02:22

T 02:33  
he turns lonely

C Chris 02:34  
call us 713526573 You know, I should give out

R Roy McCarthy 02:39  
the number more often? Yeah. 713 Jam KPFT that's

J Jimmy Carper 02:42  
the one just write it down that jam. KPFT Okay,

R Roy McCarthy 02:46  
I have a little bit of a somber news that Oh, an obit to start off the news with. And occasionally now and then we do have to mention the passing of some influential member of the community. And this past week, Donald Baker, who's been a who's a gay rights activist who effectively killed the Texas 121 year old sodomy law. He died Friday of cancer. He was only 53. I know. And, you know, that's very sad that he died. Now he was

J Jimmy Carper 03:21  
the one he was in the first case, way back in the early 80s. And which was overturned. 7979. Is that

R Roy McCarthy 03:30  
okay? And he challenged the Texas 1879 sodomy law. He argued that it was unconstitutional meddled. A federal court agreed with him. But an appeals court upheld Yes, yes. Anyways, but he was a fighter for the community. And he was named by the New York native. They recognize him as one of America's 10 Most Influential gay people, really. And Mr. Baker earned a master's degree from SMU and he worked as the Director of Training and Development and their Gerber garment technology. And he transferred to Connecticut in 1989. And then he went on to Boston. He participated in the Dallas area activist group and received the Human Rights Campaign Outstanding Citizen Award in 1985. And that all Texas all of the gay community all over the country is really going to miss someone like him. You bet.

C Chris 04:34  
One thing we're going to give you a little heads up on some news we found out we're going to

look into a little bit more. Some possible problems coming up for club energy. Oh, what's happening is the fact that club energy and one of its neighbors which is a sexually oriented business, is about to get a new neighbor and elementary school is going to be built in adjacent property and Yeah, with with the with being a bar and then next door to it being a sexually oriented business. The elementary school will be within the sob Wedeman free zone.

05:10

They were there first.

Chris 05:12

Yeah grandfathering

Roy McCarthy 05:12

does not count anymore. But so

Jimmy Carper 05:15

it's so to get rid of somebody you just have to build a church or a school next to them.

Roy McCarthy 05:22

Just about Yes. Well, that

05:24

sucks donkey dicks?

Chris 05:26

Well, let's well there is there is precedent behind that there was a, I believe was here in the Houston area where a strip club bought a church and had it built so that one of his competitors couldn't expand his operate. Yes, I recall that. So what this will mean is once this is brought in any changes that wants that wants to occur at either one of these locations, could run into problems. Another thing that's going to be a difficult part on this is the fact that the school is being named for a famous recently passed away Houston newsman, very popular no self and Robert Rodriguez elementary school. So you're talking about you've got at least the two television stations that he worked for. Yes, that will be campaigning on that with with tremendous undercover organizations who under there. And so it's going to be very interesting to see how all this is going to play out really is that this was something that they put that it kind

of struck me because I was watching the news last night, basically, to see what local coverage was of World AIDS Day. And channel 11 covered this story and covered a wonderful interview with Charles Barkley. But I didn't hear one thing about World AIDS Day.

06:50

Strange, isn't it, channel 13

Chris 06:53

was the only one that had broadcast at their 10pm about that event. And I will talk about that a little bit later on in the second segment.

Jimmy Carper 06:59

And none of them had any coverage of the Day of Remembrance, for transgenders that occurred on the 28th. I was a part of that in front of City Hall.

Roy McCarthy 07:15

You know, coming from New York, and with these kinds of things happening. I've got to take a very unpopular position and say, and this this the views part of the news. It is my view for the Z word is desperately needed Z word as zoning.

Chris 07:39

Well that a lot

Roy McCarthy 07:40

of people have I mean, because as it stands right now you can have any daycare center or you can have religious groups try to force us out Yes, of an area because the greater you cannot grandfathered in any longer. You used to be able to when you can't do that any longer. Well,

Chris 08:05

that's one of the things I mean, city wide zoning is about as popular as gay rights.

08:11

Okay, so explain to me how

Roy McCarthy 08:15

zoning would work the No, wait

Jimmy Carper 08:17

a minute, the Greek Orthodox Church has a school and there is a bar on top of the building at Sky gurtner Sky Bar.

Chris 08:34

I think bars have a smaller I believe if I remember correctly, places that sell alcohol. It's like a 500 yard

08:47

well that's 1500 feet.

Chris 08:49

There's there's a 500 yard distance, sexually oriented business it's 1500 1500 yards.

Jimmy Carper 08:57

But if you 500 yards is 1500 feet. I

Chris 09:03

know for a sexually oriented business it is a it's a lot larger an area there has to be a larger separation when it comes to

Jimmy Carper 09:11

gay bars and others sexually oriented next door

Chris 09:16

to club energy is a sexually oriented business that at least in the past does cater to gay clientele.

- R** Roy McCarthy 09:27  
Well there's also there's a difference too and I'm not sure how the Sky Bar is able to get around this probably because it's not just horizontally so many feet away but vertically well
- J** Jimmy Carper 09:41  
you know I don't want to close down any anybody say but
- R** Roy McCarthy 09:45  
they all but see club energy is also classified as a dance club as a dance hall.
- C** Chris 09:52  
Yeah. Part of it also comes from the fact so what's the sky bar? It depends on how you how you measure it and what standard Excuse me. And Ron feel oh, yeah, compared to the, the Catholic churches across the street, they moved the turnstile so that the distance is not
- J** Jimmy Carper 10:13  
as not as credible. That was just so that that's the sort of thing is when you're talking was slimy. Yeah, actually.
- C** Chris 10:20  
So when you're talking about the sky bar you're talking about the front door to the Sky Bar is not on the ground floor. It's 13 floors up. So you have to count that vertical movement as well, knowing. Yeah, there are ways around I mean, in Texas, it's there. We've got some strange little quirks about that. And all that came out with the one ice house that was trying to but this was just a quick little blurb I saw on the news, and it's gonna be interesting to, to kind of keep an eye on it and find out what sort of pressure is going to be put on club energy to Yeah, just see what happens to the the sob part the the sexual organ businesses next door to it, they are separate entities. They just share one shopping center that
- J** Jimmy Carper 11:06  
speaking of ice houses, I I've been looking at one that just newly opened and I saw an advert kudos to Lowe's, and it's the Ice House for everybody. And I think that's pretty cool. It's right, where Elgin becomes Westheimer?
- R** Roy McCarthy 11:24

 Roy McCarthy 11:24  
Yeah, well, right there at Elgin and pretzels. Yeah. Yeah,

 Chris 11:27  
I'm here with the place used to be there. And so it was gas station or something like that. And then

 11:31  
that was then they were

 Roy McCarthy 11:32  
the one that you said be the guest right next to the freeway. And it's catty corner to the am

 Chris 11:37  
yeah, yeah. I think I'm bar the M, the M

 Jimmy Carper 11:41  
That's chose to loves ice house. And it's real ice house, you know, pool table and sports, TV and all of that kind of stuff. And, and they advertise in the gay press, and they're open for everybody. And

 Chris 11:53  
they have after hours, or whatever it might be. Yeah, it's, it's BYOB after hours. They have there as well. I

 Jimmy Carper 12:00  
like things that are open to everybody. Oh, yeah.

 Roy McCarthy 12:05  
Okay, folks, it has happened. There is going to be gay TV all the time. Now, 24 hours a day, seven days a week beginning December 22. Yeah, but

 . . . . .

12:18

how do you get it? Oh, oh.

Chris 12:22

Did you see the part where it said? 24/7? In there? Yes. Okay. Because when you asked me to do research on these before, okay, when you asked me to do research on it before, they were 24 Two.

Roy McCarthy 12:36

They were actually in the beginning, though. But Chris. Chris, you're right. They're advertising it. 24/7 Yeah. But you're also right, because in the very first few months, it's going to be 24. Two, but the rest of the week

Chris 12:50

is 12. It's 12 524. Two,

Roy McCarthy 12:54

it's gonna be the day five, Monday through Friday during the week and 24 on the seventh on Saturday and Sunday and you need dish. It's not on cable, it is dish and it's only going to cost an extra \$20 a month. They're going to have some amazing things on here. I was reading some of the lineups it says so far. films that they're going to be showing will be Claire de Lune. Pink Flamingos, Red Rain defying gravity Latin boys go to help men with a hot video that was twisted all the rage in the water. A Boy Named Sue Caravaggio and Edward the second. And it says the programming in the beginning is five days a week 12 hours a day. Whoa five. And from Friday at one o'clock until one o'clock on Monday morning. It's 24 hours a day. And they're going to be primarily filling it in with movies sub series and some regional talk shows like out and about and queer nation out of New Zealand and they're gonna have things like the gay dating game and I was reading some other stuff that they were having. Mardi Gras was 2000 they were going to have good morning gay America gay archives

Chris 14:16

Good morning gay America Shouldn't they be airing like about noon

Roy McCarthy 14:20

or one or two o'clock or gay across the globe which is going to be an hour special that documents the international gay lesbian bisexual and transgender happenings they're gonna have a whole bunch of different things again a good goes on air beginning December 22 And it's being produced by the triangle radio network are gay BC

14:47

gay BC

Roy McCarthy 14:54

oh, it just dawned on me gave me z

Chris 14:57

any any start thinking NBC The ABC, you think ABC but the mean the NBC logo with the rainbow peacock.

Roy McCarthy 15:05

And folks, I am proud as punch to say that Chris, my co host here, scooped out all the other media. Chris was kind of saying well, it was really wasn't a school. It was just something that I had saw a couple of years, a few years back. And we just mentioned it on the well. We put it on the air and it was as good as far as we beat them all.

Chris 15:32

We talked a little bit about queers, folks, when the British version made a brief plug on HBO. And now the Showtime network is bringing queers folk to get ready because tomorrow night tonight actually at 9pm It will be the rim job that will have tongues wagging around the world. Ah

Roy McCarthy 15:53

heard. Now incidentally, Queer as Folk and I was reading about this is Showtime is very serious about this. so serious that they are spending \$1 million an episode a million bucks and episode this this is

Chris 16:08

going to what did I hear? Out of the rim job that will have 10 tongues wagging?

Roy McCarthy 16:17

tongues wagging tongues?

C Chris 16:20

Yeah. Most of them do. Well, afterwards. Oh, this is going to be a a very interesting story from what I've seen from the I mean, Showtime is really putting a lot into this. They even have put together a 16 minute show. They've been showing this past week called is America ready, queers folks. And it's very interesting seeing what has gone into this topic and this the show. And I'll admit I've been worried about this because British shows coming over to the United States. It's been kind of 5050 I mean, millionaire Whose Line is it on the family? Yeah, these are great companies did great, but

J Jimmy Carper 17:05

you get the East Enders and like, who can understand what these people are saying

C Chris 17:09

when you when you try and Americanize it the Americanized version of absolutely fabulous. Yeah, yeah. You brought over Fawlty Towers and call it pain it bomb. But this is something they are trying to keep very true to the script. And the the rimming scene, oh my from the original series caused a lot of controversy, their phone lines were blown out, I can imagine. And while especially because the person, the younger member of the scene, and that was is even younger, and the British version, they added a couple of years for the American version. And that's they're going to be true to it, it's going to be in this segment is going to be in the show. It's they're going to show nudity of a male people of men, which is very strange. And Showtime, I will say has had a commitment to the gay community in the past. Not many people may remember back in the 80s, a show called brothers, which feature two gay characters. I remember that show on that. And they kind of got away from doing series for a while. But that was one that was very popular. And now they're going back to it. And it's as part of their commitment to the gay community that started with him doing common ground last year. The trilogy moving. I mean, the move that was in three parts of Homer, Connecticut, three generations. And I'm sorry, I confuse that with a brother. No, it was right. That's one. It's, we're talking about something it's going to be a very big it's gonna be a very controversial show. And it's going to be interesting to see how this has played out. I'm looking forward to watching the 700 Club on Monday.

R Roy McCarthy 19:00

Oh my goodness to

C Chris 19:02

see because this this was a show. The reason this got play first off on HBO a show that they call shock TV. Right and they showed the infamous I feel somewhat funny saying the rim seen the rim shot. They keep they showed that on their. On television here and it was like it was such a controversial thing over there.

Roy McCarthy 19:27

Oh folks, Chris was talking about the room shot Believe me. Believe me. Trust me. We are not talking basketball.

Chris 19:35

But we're not talking what a comedian gets after he tells a joke this is this is going to be very graphic. This is This is TV ma it's for mature audiences

Roy McCarthy 19:47

and all the young kids

Chris 19:50

which means after they get done showing the TV ma logo and they start showing you the letters you're going to see nudity you're going to see adult content, adult language adults Situation adult situation. This is meant for adults. And it's going to be it's not pornography, it's not pornography. There's no such thing as pornography unless your community says. But it's, it's you're not going to be. I mean, yes, there will be stickiness. But it's you won't see the stickiness occurring. It's going to be a very interesting show, it looks like it's going to be an hour long show, with the exception of the first episode, the first one is going to be 90 minutes. And that's going to be on show time. From 9pm to 1030. Also, if you're not able to catch it, if you don't have show time, and you're not a member of the KPFT, after hours lending library that we'll be getting maybe getting here. They will be showing it at Lobo on Monday, at eight o'clock in the evening over in the low bid area. Yeah, I did not open at eight in the morning. None of us are up

Roy McCarthy 20:55

at that time. But that's for the listeners, you know, eight yes HCM our listeners are up at 8am. So

Chris 21:04

it's one it's one of these, it's one of these shows that is going to cause a lot of controversy. I mean, if if you if you thought Ellen coming out raised raised a stink, just wait. This show may help Ellen get with when she gets her show coming up here soon. She's just signed the deal. She'll be coming back to television, and the next season or so

Roy McCarthy 21:26

**R** Roy McCarthy 21:20  
that she's got a new girlfriend.

**C** Chris 21:29  
I didn't hear that part. But that's going to be coming up. And so keep an eye out for it. Watch it if you've got Showtime. Like I said, this is going to be a very interesting show to watch. And the funny part I saw on this is once again, I want to talk about rimming again. But the it's the recipient who's actually gay in real life. It's not the giver, which blows the whole Christmas theory of it's better to give than to receive.

**R** Roy McCarthy 21:56  
I believe that's right. Anyway, I have a little bit of housekeeping here I'd neglected to give on the Get on gay TV. I neglected to give the closing information on how you can contact them. You can contact them on the web at [WWE are gay tv.com](http://WWEaregaytv.com) Or you can call 1866434298 That's 1-866-438-4298 That also

**C** Chris 22:23  
spells 1866 Get gay TV. Oh, okay. I have the other ad for it over on. Okay. Moving right

**R** Roy McCarthy 22:33  
along here. There's another group. It's the corpus, the corpus just corpus justice. I guess we were to do this at this point. You are listening to after hours queer radio with attitude on KPFT Houston and ke O 's College Station continuing with news and views it's time now for Roy's favorite segment to give to me the I am woman

**R** Roy McCarthy 24:05  
I'm gonna get you up and drag.

Chris 24:07

The scary thought is I've come up with the name and I keep thinking about it.

24:10

Oh my god, folks, I don't believe that.

Chris 24:13

Oh yeah, I want to what

Roy McCarthy 24:14

would be scary would be me and drag. Now that would be scary. Next

Chris 24:19

Chris 26:02

R

Roy McCarthy 26:13

Okay, moving right along here. Want to mention thing as I am a board member, I do have to mention this this coming Wednesday. The first Wednesday of the month is our general meeting for the Houston gay and lesbian Political Caucus. members are encouraged to attend. non members are even more encouraged to show up. We usually have somebody from Congress or city hall or some famous or infamous politico showing up and speaking and answering questions. And we have we hold our meeting at 501 Love it think of the Levi jeans 501 button flies 501 Love it. And at the love it in meetings are actually at 730. But we have the doors open at seven o'clock for social, everybody goes around talking to each other and just socializing and we had the meeting then. And you know, it's really something because the caucus is the south oldest. It is the oldest group that fights for civil rights and equality. We just celebrated our 25th Silver Anniversary. And again, that's going to be this coming Wednesday night December 6 at 7pm 501. Love it lb e TT. And that's loaded at Whitney and the discussion.

C

Chris 27:46

The discussion will be you're pregnant Chads eligible for adoption by gay couples.

R

Roy McCarthy 27:56

Well, I will say this, talking about talking about that. This shows why getting out and voting is very important. Your vote does count. It counts so much that it's being fought all the way to the United States Supreme Court.

C

Chris 28:14

I just look at it this way. I mean, look at all the time they spent trying to get the Medicaid, the Medicare people out there. And look who screwed up the election. The elderly who were say shaking, shaking so bad because they couldn't get their prescription pills, they couldn't hit the right hole. Which is not a problem we have in our community of hitting the right hole. Well,

R

Roy McCarthy 28:33

it was more than just that. I mean, there are 1000s and 1000s of ballots that have not even been counted not even one time, not even one time not even via machine. So, you know this is this is why this is why the argument is going on and on and on and on

C

Chris 28:54

why we're getting ATM looking machines next year on I will say I love the ones political special I saw on NBC on MSNBC called decision 2000 A Funny Thing Happened on the Way to the White House, really. And they were showing a bunch of the Saturday Night Live skits because I missed

those seeing Saturday Night Live being going out and patrol and doing the radio show. So I mean, the Saturday Night Live and all the late night comedies and it's like

R

Roy McCarthy 29:25

well, you know what's really sad about this is that the whole world is laughing at us. I mean, this one communist, there's one country out there that was part of the Russian bloc Eastern Bloc. I can't remember the name of that. It's one of those that's gaskets because Stan is attached Tajikistan they've got commemorative silver dollars and stuff in this indecision. 2000 Yeah. You know.

C

Chris 29:53

I mean, please you even Moammar Qaddafi he's looking at it's going you guys can't even get this right. You know, he his suggestion was just keep it on the popular election whoever gets first place is the President whoever gets second place as vice president.

R

Roy McCarthy 30:06

You know, this happened in some third world country. I'm sure we will sit in the United Nation troops, Jimmy

C

Chris 30:12

Carter would be there. But now Jimmy

R

Roy McCarthy 30:14

Carter wouldn't be there. US troops would be there. Observers from all over the world just to make sure.

C

Chris 30:21

Yeah, they've been saying that if you just remove the word America from this, and you ask them what country it was, they would never no one would ever imagine America. Some Community Center news here. The Houston lesbian gay community center has announced its new board members and officers. Okay, now, since they didn't put it in, put it into a nice little easy to read block here. I'll have to go through here. The new President of the Community Center is Tim Brookover. Yes, it will be seceding six. Feeding. He's leaving the community center succeeding. He's taking over for many Cuchi. Maria for Maria. Yeah. Who will remain on the board? Oh, yes, sir. Continuous program director. DL Murphy will be the new vice president. Yeah. Ierigot Michael lock is the new treasurer. And que Das is the new secretary. other board

members are David L. Groover. Debbie Murali. And Bruce Turner and Ron Hilaire, plus all the other members who are officers. And also don't forget at the community center, I screwed that up royally didn't I? Well, I should I just should have read it.

31:41

It was messy. Yeah, Tim,

Chris 31:42

you screwed up once.

Jimmy Carper 31:47

Tim Brookover sends us stuff every week on what's going on at the community center and I really, really happy to see it. And hope he doesn't stop.

Roy McCarthy 31:59

It's all it's all Chris's fault. Tim. It's awkward as hell don't.

Chris 32:04

Don't forget the tributary. The they already did that tree trimming party on Sunday. Sunday, Sunday, Sunday. Now that's coming up this Sunday. There's no tree over there. I just left there. There's no tree there yet. He's telling me it's already happened. Well,

32:20

he's thinking about the tree on Mary's roof. Right? It's

Chris 32:22

not lit yet. Everything that led at Mary's aside to build on top of

32:33

ads, right, baby? Oh, where are we? Trim that tree tomorrow.

Chris 32:41

Trim the tree at the community center.

Roy McCarthy 32:43

Bring us bring

32:45

your own balls.

Chris 32:49

Okay, we gotta do a BYOB somehow Houston's lesbian gay community centers located at 803 Hawthorne at Stanford it is and for more information, call them at 713-524-3818. No, Chris,

Roy McCarthy 33:03

they were also made recipient from the Holocaust Museum. Well, they're

Chris 33:10

okay. Yep. I was trying to get what all was there. There gonna be a beneficiary from a the February 4 Human race that's gonna be presented by the Holocaust Museum, Houston. And so we'll find out some more information on that later on. He also stopped by the community center, they have up some work, I believe from the classical school students as part of the world's AIDS Day.

Jimmy Carper 33:35

And on loan is a sculpture of sorts, from the that was donated to the Gulf Coast archives and museum and we have it on loan to the community center. It's, it's got a bunch of it's got names on it, it's kind of like, well, you'll just have to see this triangular piece about six foot tall with all three sides lists of names of people.

Roy McCarthy 34:07

Also, if you haven't been to the Holocaust Museum, you've heard me say this before we get there. Oh, you've got to go. I was there for the opening ceremony. And cuz Jimmy asked me to, to go and to give a report on and so I went there for the opening ceremony. And folks, let me tell you some they at the Holocaust Museum here in Houston. They are not shy about the

including the inclusion of gay people as part of the victims of the Nazi holocaust. Not at all. They have the actual pink triangle trying to have the actual concentration camp uniform with the pink triangles still there. I mean, it's

**C** Chris 34:53

I think Houston is a little more advanced on that one, because there's even a church that has a Catholic Church has a stained glass mural dedicated to the Holocaust. It's named after a saint that these churches named after St. Maximilian Kolbe was a victim of the Holocaust. And part of this display includes pink triangles on it when a Catholic Church which is quite impressive,

**R** Roy McCarthy 35:20

which is quite unusual. Yes, I hope that you can find out. And now number nine, number nine, the P flags monthly meeting which is going to be held today Sunday in there. They're also having a holiday party. And it's going to be at 2pm at the Christ Church Cathedral at 1117, Texas at San Jacinto. This is their annual holiday party. Good time to bring friends along. And please bring finger food or a dessert to share. They want us to note that they're going to begin with a small group sharing at 2pm and then gather for the party that these groups provide everyone an opportunity to discuss issues, concerns and celebrations with others in a safe, confidential environment.

**J** Jimmy Carper 36:06

What was this about somebody fingering the food? It says

**R** Roy McCarthy 36:10

please bring finger food and a dessert to share. Okay, I could say something

**C** Chris 36:19

except lady fingers and long johns and

**J** Jimmy Carper 36:24

after that, so does the BiNet group.

**R** Roy McCarthy 36:29
