You know, we diverted there a little bit, but not very much. Because a lot of the world is feeling around the thing. What does this mean, for me? Obviously, it's like a breath of fresh air, this privacy stuff, you know, they could have decided this on the issue of the government has no legitimate issue. But they went beyond that, and said that we have a right to privacy. I mean, they didn't have to find right to privacy, to say the government's got no business in your bedroom, they can say that's not a legitimate, well, legitimate state purpose is the test to getting to privacy, you have to do the time when a government can go around that privacy is if there is a if there's a purpose that is rationally related to a legitimate state purpose. And that's what keeps prostitution out of the bedroom keeps incest out of the bedroom. So that's, that's the test. And what they were saying in this case is that there is no rational basis for us to dis for us to say that privacy should be circumvented in this case, because there's no legitimate state interest here. And Rosenthal was arguing was morals are and not only morals, but this is what the state legislature said. So and that's good enough. Purpose here, the state said it therefore we don't need a court. Right.

01:29

All right. Yeah. And it's also what Scalia did. But it's what Scalia said. Ben Scalia said it in such an ugly way. And if there is, what's really interesting, and something that Dean mentioned in his call is, you know, I'd never seen an editorial really come out like I've seen lately. That is painting these people basically on the court, Rehnquist and Scalia as the old school, the old fogies, basically, who are coming forth with this archaic view of what things are, and we've all kind of known that forever, but to actually see editorials, and in very well respected papers that are coming that far is amazing. Scalia, by virtue of his language, you know, there was there was a lot of talk in the last couple years that a Frank was stepped aside, the Bush might look to promote Scalia and his position. Not anymore, not after this, not after what he wrote in this case, and he knows a no, no, it is exactly it's gone. His I mean, he he wrote himself out of that he did, and he's not going

02:30

to that may have been an aftereffect. I mean, the real There are rumors that that there are other Chief Justice choices. Yeah. without bringing in the

02:42

sounds, you know, sounds good to me. And a realistic one. It's not like we will we'd get Briar anybody but are slipping Thomas.

02:51

Well, I think that Chief Justice Thomas, it's a real possibility, because Thomas has gone to following gosh. Well, yeah, granted, he's an affirmative action following, but in, but he has qualifying. But we

03:05

just seemed like you said it's a breath of fresh air. And it has seemed to have people out there right now who are viewing the court through different eyes after this case opened eyes that have been just not wanting to open for a long time. And I think just I mean, I'm hearing from people I know that have never come forth and, and ever congratulated me on anything happening in the GLBT community who are saying things like, this case makes sense. I kind of see things now. And people are viewing their their views on on people from our community have changed dramatically. There's no question this was a sea change. This is something that is going to Oh, yeah. You know, I mean, who Charles Rhodes over from South Texas College law said that this may be the biggest case the last decade. Oh, absolutely. He's done. Absolutely. The very, very biggest. So and that's

03:53

it was over the issue, which resolved criminal laws in 13. States. Yes, it did. Was over a Class C misdemeanor. Yeah. It's not a new thing by fine only not to exceed currently \$500 when the law was written 200

04:11

But But I think this was the perfect state to do it because the law was was discriminatory because it was only Oh, sure. With gay lesbian sure,

04:20

that tries so often, and this was a state where those laws were Yeah,

04:24

and we are fortunate enough to have so many good gay and lesbian lawyers are banded together and you know, for a common purpose. got the ball rolling.

04:37

I went, you know, I chided young Michel Alon, me young Mitchell to find lawyers, very conscientious lawyers have a very serious minded deliberate sorts things out he I think he would be most flattered at being called Young. I know everybody tells me that but compared to me, everybody's young except that If I'm coming back King David

05:08

is that he works for a very difficult firm bernburg, William Anders, Williams, bernburg. And Anderson is where the briefing lawyers and helpers are used in case of jury burns already burned. And that is a tough intellectual and academic atmosphere in which just to be sure you're going to be a member of that law firm. I mean, you're going to have to keep that brain cooking on high most of the time, and lawyers sometimes don't have to practice at that level. But you have to there and and he welcomed Lambda Legal Defense Fund into that case, which of course, they'll pay for it for one thing, but they provided some remarkable lawyers, oh, lawyer, actually argued this case for the sprawl score. I had been a clerk recently on the court and had handled other cases before the court since and so he was an insider, he was a friend, he could and people don't understand that, that they're knowing you and knowing what you do. And all of that is and and and I thought it was overwhelming. That Lawrence tribe, who argued Hardwick or was one of the lawyers in Hardwick cried at this decision, saying this is a decision that would have been his and how important those arguments are. Sure. So it's an emotional day for a lot of people, especially emotional for us. And so it takes us has never had a solicitation law for homosexual practices. 2106 didn't have a solace, you've always been able to legally ask someone can join you in a moment of intimacy without impunity, or with impunity under the law. Well, now you can finish.

07:06

Next observation you get lucky the other day after.

07:10

I've got reservations for three days in the coming week. That's as close to lucky as I need to get.

07:19

Everybody listening out there is doing a standing ovation for that one. Music over the top would be very appropriate. Right

be very appropriate. Right.

07:31

I've got to dig that one out.

07:38

of memory. I'd like to start let's let's talk about money here.

07:47

Oh, real talking about money a radio station KPFT needs and deserve your support. I mean, working out this much fun on the radio. Yeah. You know, it's like you know, that you can only do have so much fun with your seatbelt on, you can only have so much as a car. You can only have so much fun when the officer is liable to drive up and say what the hell's going on. There are limitations to your fun, but you can't have this much fun on any of the radio station in the car. I mean, you could listen to us. It's like we were sitting there. I mean, like you're part of the conversation. We were talking about the quote answering the question that you were asking and where they're going next with this. And that's the way it works. And this is infirmaries it's not rush limbaugh. I'm not sitting here barking at this microphone. I'm not trying to put somebody down. I think that humor is things that are funny. I don't think that humor is ridicule. You're listening to Kpf T and Houston. Pacifica radio. That's right. This is as free as it gets. In the broadcast genre. The number is 713-526-5738 Those of you like to spell 713 Jam KPFT 713526 KPFT it's Montrose Yeah. Radio in your Pasadena home. Gosh, that's great delivery 713-526-5738 Call us after hours needs deserves your support. tax deductible if that's not if that's That's right. But if it's not important, I don't think I've ever made a dime on taxes. Oh, yes, I did. Somebody called me when played and said I'm giving you a lot of money and I want to take it off my taxes. But that's only one time out of all the years I've been doing this 713-526-5738 We need and deserve your support. Jimmy does keep it on the memory of buddy demands support the tradition to this radio station when we had no voice when we had an Oh voice The door was open 713-526-5738 Now you can see when I was successful as a Baptist evangelist, I just know how to just bring in the cheese Hey, man. It was put to music

10:13

here. I will I will. This is a song that buddy discovered way back when in the in the late 80s. It's by a English man by the name of lobby Safaree and you'll get the point of it. And you're listening to it on after hours Queer radio with attitude right here on KPFT Houston, que EOS colored station and 89.5 in Galveston.

10:52

That was Bob Hartman from his CD, very sexual man. And that was called coming out. I thought that was kind of a nice song to play for tonight. But I also wanted to play something for a very good friend of after hours. And that would be Marcy Re. Or, as she is also known, as is mama

cotton's. Sweet mama. Sweet mama. Can

11:21

you please tomorrow at Yes, she

11:24

does. She plays in Santa Fe,

11:25

my hometown. Yeah. Oh my god. Yeah, I've

11:28

got it here somewhere. Yeah,

11:29

it's a big editorial in the Gaussian daily news about her effect. It's

11:33

right on top here. Yeah, sweet, sweet mama cotton featuring Joey Bowers,

11:37

wine and vineyard in Santa Fe, Texas. That's

11:42

it 630 to 8:30pm on Sunday, Sunday, Sunday, and she is also a regular at the briar patch at the piano. And a year or so ago, she decided that she would take all of her Briar Patch fans all go down to the Hollywood hotel, where she was doing a show and did all the favorite songs that they all know and love, and usually sing along with her. This is my favorite from that from that album that live at the Hollywood and it's called desperate old guy I guess maybe because I'm becoming that I don't know something like that. Mr. Beale mistress Eden is waiting in the wings and we'll bring her on very shortly

12:42

Well, let me tell you I've got to make a correction here I announced that I was going to play a certain song and I played something entirely different. And I've just I just noticed that i did i I'm going crazy tonight. Mistress Eden is here but I'm going to ask her to wait about six more minutes because I've got this song that I said I was gonna play lobby Safaree with something inside so strong. I love that. And you're hearing it on after hours Queer radio with attitude on KPFT Houston, ke O 's College Station and 89.5 in Galveston.

13:42

Loudly set free. And that was so pretty. Is that the original version of that song? Oh, cool. That's really beautiful. Mistress Eden, I you know, I didn't mean that as a downer song. But I mean, it's just a perfect song for tonight. Especially after all that we've been through this week. The parade and the the Supreme Court. Yeah. Just, you know, Thursday, the Supreme Court. Friday was the anniversary of Stonewall and today today we have our parade. I mean, honey, it doesn't get any better than that. I saw you on TV. Ah, really? Yes. Somebody was telling me that. They got up at 630 and turn on the TV. And they saw Brian Keever and I and I thought Oh, before you had coffee.

14:36

I saw I saw more people I recognized Yeah, one crowd. Yeah.

14:39

From the from the rally that was held. Thursday afternoon. Announcement. It's

14:45

just it's an unbelievable week. Yes, you know, Wednesday night, I was a criminal. And Thursday morning, I wasn't here wasn't it? Yeah. And I'll tell ya it was so funny because it work. And all the queens that I work with, were almost on the verge of tears. Sure, because it was just like, oh my gosh, and we just felt like this weight has just been lifted off of the of our shoulders. You

15:13

know, it really hasn't even set in for me my whole life. I've been a criminal.

15:18

Well, you know, the other thing that people need to understand, especially, you know, in the leather community, yeah, this just doesn't affect gays and lesbians. Oh, everyone. That's

15:28

right. It does this connects

15:31

affects, you know, me, it affects you. It affects my parents. God forbid.

15:38

Mr. Mistress Eden does the live around the weather show? And this is particularly important, because there's such a leather, leather society, let the people get such a bad rap.

15:57

Well, you know, I spent and I'm hoping at 330, the phone rings. I spent a good deal today, because we need somebody to answer it. Yeah, if it does, please, answer the phone because it's going to be the new executive director for the National Coalition of sexual freedom. He if he could stay up this late, he was going to try to call in did you give him the 5738 number? Yes, I do. But we talked quite a bit this past week. And the thing that this this decision really affects the leather community. Yeah. Because what consensual adults are doing now is okay. I mean, we're hoping to see more. There's more freedoms crossover into that population as well. Because whether you're gay, whether you're straight in whether you kinky, whatnot. The government has to stay out of our bedroom. Yeah, if we can just get them out of women's vaginas. I'll be even happier. I, I'm trying real hard there. But, you know, it's it's just been I can't explain it. It's just such a cathartic feeling that all of a sudden, I'm free. You know, Wednesday night. You know, when I was sodomizing That poor thing. You know, I didn't didn't I was it? Is there a part of the guilt? I felt not really but yes, in a way I did. Because I couldn't openly say I was doing this. And now you know what? Guess what?

17:30

Mistress Elizabeth just walked in. And Laurie is here. Are you here together? Tonight?

17:39

I didn't know I didn't have a show tonight. So I invited

17:43

my wife. Okay, come on. You gotta get on the come. Gotta get on the mic. Gotta get on the mic. Okay, we've got Mrs. Elizabeth and then and an audience.

17:59

Eva her wife fled us and my tears.

18:04

Mistress Elizabeth. I saw you go by the whips float. That was that was pretty. That was nice.

18:10

I didn't know you were having a float. Had I known I would have come written on it

18:14

was Mary's float. It wasn't whip societies. But we got a relation. I thought I thought that was part of yours. It was web site. They were like web ca and they were looking at Mary's you know, the flow with all the parries on it. And we were getting whipped society attention. Wow.

18:32

Wow. No, so that was your float break.

18:38

That I heard that y'all had a float. And everybody said oh, you should see the lips float. See? It was

18:44

the Mary's Yeah, we got it. All we did was drive. Hey,

18:48

that's so cool. That's so cool. Yeah, no work at all credit. Know mistress Eden likes, like stuff like that, too. I appreciate you coming you you talked about how Oh, I'm lazy and

19:07

a lot of gadget. Those save time for her.

19:12

She has brought several of the many actually if those gadgets to the station, and we've described them and and describe what their fleet

19:22

actually demonstrate. Yes.

19:26

Couldn't be both people were just amazed that that last show when we had, you know, some some we had doing fire play with some guy

19:35

in the studio and needle play,

19:39

needle play and this woman was having an orgasm every time a needle went,

19:42

Well, you know, she was at this party I was at tonight and was she ever stuck with pins?

19:50

But that's Bobby.

19:51

I was just thinking that as we're talking to mistress Eden that tonight I found out through one of the pagan folks that You can use manacles to as Casta nets. That's a long story, it

20:08

must be. Anyhow, Lordy, go on.

20:13

But anyway, that's the thing is, is all of our behavior regarding, regardless of where you identify and how you identify is nobody's business anymore. And we can say that it shouldn't have ever been. Exactly. And now if we can, you know, there was a thing on NPR this week about how you know, oh, that's the homosexual agenda. And we know next are going to be wanting all these other things. And next we're going to want to, you know, right to have polygamy and I'm like, yeah, those of us who are poly are like, Yeah, you know, and it's like, it's a step forward. It's finally a step in the right direction, when it's just like I said, you know, just get them out of women's vaginas. I be even happier. But I didn't know I wasn't having a show and I was having them gone by to talk about its open

21:07

house night on parade. And I like everybody's come in and give their impressions of the parades and things they liked. And And how about that chandelier? The biggest chandelier in the world. I

21:17

have this neat little camera where you can put it on video and you hit the little button that normally would snap the photo and instead of does a video and so I was like in the truck going like this

21:35

angle all the way over to the other one. It was great. Yes. And the fireworks

21:40

miss those and I

21:42

really missed a lot I'm really

21:46

sorry times they did fireworks. Wow. That was incredible.

21:50

Anybody have any dirty numbers yet? I'm what attendance was. Everyone

21:54

that? Well, our observations but not been in every parade since 1988. biggest crowd ever. And last year, they they they thought there was the number was about 100,000. And there was a lot more this year. A lot.

22:09

I think everybody celebrate.

22:11

Sure. Yeah. There was a lot to celebrate. There's a lot of festivity in the Yeah.

22:14

Wasn't. Oh, gosh, coming down the street there towards Mary's when the crowds really get huge. And they're screaming and carrying on.

22:24

Almost like to the truck. Yes, like push him away. Absolutely.

22:30

And then the other thing that another thing that's great is the grand marshals have a tradition. And I found out today that it goes all the way back to the very beginning is when you go by Mary's, wherever you're in the car, if we were in the float, it stops and you bow to Mary's because they have been there for us for years and years and years. That's right. I mean, they they've been in the back the backbone of the bars. Society, I think. And that. And also in the in the old days. That was the bar that got rated a week before pride day, every year. You could count on it. Thank God. No kidding. So here I am on the grand grand marshal float. It is packed. It's you know, it should have been twice as big. I mean, we were really squeezed together. Everybody gets up and bows to Marys and the crowd goes crazy. They

23:29

have the shows up on the roof. Crowd.

23:31

A lot of people have on that

23:36

route. Yes, it was packed. Yeah, it was packed. everywhere, everywhere.

23:41

People were coming up and hugging us and just being all. Yeah, happy about. I mean, they had something to celebrate finally.

23:51

Oh, they were flipping out. I was like, This is painful. Yeah, yeah. PFLAG and this is my parent. Yes.

23:59

Great. I mean, it's just great that it's we've finally got to this point where everybody can say, We're Queer. We're here and yes, guess what? Everybody's gonna deal with it. Now. You

24:09

know what else more and more every year I see more and more children have children Oh, yeah. Yeah. And so everybody on the float you know, you got by a kid never reach them beats at this one kid.

24:26

Kids go man, Mardi Gras? Well, I just, it's just been it's been a real unusual week because it's like, I really truly I had a hard time for about a day just processing all the significance of everything that's gone on, you know, and here it is 25 years and just, you know, I'm getting older and we won't say how old but I'm getting older. And it's like yeah, I remember what it was like when you quit everything was you know On now it's like, it's just, it's not even an issue. It still is in some places, and it will always be in some places. You know, there's so much you know, within the s&m community, there's still a long way to go, you know, which a lot of people still consider what we do is criminal and deviant. And, you know, it was just different that's exactly have to get into the scene. Wait and Baby Don't threaten me with the good.

25:31

But until, until you came in and sat down, I hadn't even thought about what this means to the leather community means

25:38

a lot to the leather to leather community, but also to the polyamory community. Yeah, people who have more than one lover at a time. It also means a lot to people who are in the swinger community or private parties. You know, what's done in your home home, and it's private? Isn't anybody's concerned anymore. And that's the really big thing is this just is so far reaching outside of the GLBT community. It's it's just it touches everyone. You know, I as a person who was polyamorous and who has been known to partake of, and a bisexual, you know, I protect her, both men and women, and to be able to do it at the same time. I can do that. And not that I always couldn't. But it's like, it's nobody's business anymore. That's right. I don't have to justify that. And want to tell, you know, Toronto had the ruling with gay marriages recently. I read today that just in the past week, over 225 people have gotten married in Toronto. 25 of them are from the United States. They're getting calls from all over the world of people who are trying to come in schedule. And you want the City of Toronto did, which I thought was fascinating is this weekend, they've opened their marriage courts all weekend long, 24 hours a day, because there's such a flood Cohen's, and they wanted it to coincide with pride that they said while you're here anyway, for pride come on in. And you can do this. Yeah. And they're expecting just I can't wait to see what the numbers are next week as to how many got married this weekend. It'll be

27:11

interesting to see how that plays in the United States. Because I think most of the DOMA, the Defense of so called defensive marriage acts enacted by states really only cover civil unions, and only on a state to state basis that they're not going to recognize the civil union down in another state. But I don't I don't think the wording is there for another country.

27:40

But we legally recognize marriages from another country See, so Exactly. Hey, you know, let's all go to Toronto. But you know, I mean, it's just the fact that it's i When, when I heard that decision was coming out, I was like, What perfect timing and wonder. Part of me wonders if the justices deliberately timed it to coincide with pride. Makes you wonder, doesn't it? It's just kind of like, Huh, you know, cuz they could have, they could have waited a week. They could have done it a couple of weeks ago, but they did it when the momentum is just building and building and building in it. That's just, oh, it's just so great to be a part of it.

28:18

Miss Elizabeth, how do you feel about this? And then I want you to talk about whips.

28:29

Well, my wife, Eva and I are married by the state of Vermont, we have a civil union. Good for you. We felt that it was important for us to exercise our rights to the fullest extent, whatever was available to us as long as we were capable of doing it, that we should. So we felt very

strongly personally about it. And I'm very proud about doing that. Because it was a personal goal for us each you know, individually. How long have y'all been married? A little over one year, April 13. Wow, she got married March 18. In in Vermont, but we had

29:07

plans to go to Toronto. It's gonna become the new hotspot.

29:13

You don't Toronto's that, like I'm attainable? It's just right there. I mean, you know, it's an easy travel.

29:20

There's two for words you don't hear in the same sentence of is Toronto hot.

29:29

Well, I grew up in Detroit. So I kind of have an idea to go to Toronto is to go to Canada for short vacations. It's very cool.

29:39

Yeah. Yeah. That's a huge city.

29:43

So tell people about whips. Because I was last month. I was at this really, really sick and twisted party over in the backyard. And I seem to I seem to recall There was some some really nasty little things going on youtube kind of organized and will tell you

30:09

all about the pony.

30:12

A woman is upon a yes, she was hot. He was hot. She was like

30:18

licked my shoulder and then she did this very soft, very sensual kind of a weenie. I didn't know. Then got my went right down. Yeah, it was. It was great. It was wonderful. And the weather was incredible. And the tent was just you know, it was romantic. It was magical. It was great.

30:41

It was Gretna. Yeah, pretty good turnout, that what was your turnout? It was

30:45

not as we would have liked to have seen a lot more people there that night. We certainly were prepared for a lot more people that night, we had 20 pieces of equipment. And we didn't have at any time all stations, you know,

30:59

I really enjoyed that though. It wasn't a wait to play with this, you know, and the mosquitoes weren't bad. And it was actually it was really, you know, it was fun. I had a had a great time and and hopefully those negatives will never show up anyway, I don't know why that seems happened. It was him. Really hot. Couple they were from somewhere and yeah, just was enjoying. They

31:31

were very exotic. And they did the pony and cart thing to, she pulled him first in the cart. And then they traded places. And each time I gave them what we call the dragon's tail from a store that we like to go shopping and still kill to say their name.

31:49

You're your restaurant.

31:53

There's this particular whip that we really like. And we told them that be very gentle with it, you know, because you could really, you know, snap pretty hard and it would really Ouch. And they were like into it. They were like, go,

32:06

I was having fun doing fire that night. I spent the night setting people on fire that night. Me to fire that dragon tail is one of those toys that marks almost every single time I'm pretty good at

me that dragon can is one of those toys that marks almost every single time. I'm pretty good at not marking with it. But if you have to it's like a wet towel. If I'm somebody with but it's got a little bit more of a bite to it than that. But but that was a bubble. Both good. Good time out there on the patio. Thank

32:37

you. We tried real hard we did. We put a lot of effort into it. And it wasn't something that we can do by ourselves. We did it with the help of a lot of people, yourself included.

32:46

Now I have a question for you. Whip stands for women Empower society. Now there's two women here who's empowered. All

32:55

of us are okay, all women are in power

32:58

you the one holding the whip.

33:02

You're learning son, you're the one allowing you to whip is the ultimate age old question. Everybody will not sing. But now WIPs is a pansexual group or GLBT group.

33:24

Now it's pansexual. We don't discriminate against anyone, everyone, no one is excluded. Everyone's included. And

33:33

now, would I correct that there were some men empower the women in power party? Well,

33:40

women in power have men as partners, women as partners, maybe both as partners, so you can't discount the male. The people, the men who support us who are with us who love us. There are a lot of men in my life who make whipped society possible. We can't do it without

men. Well,

34:02

the thing I wanted to make clear to people, a lot of people think that when you talk about women in power, and when you talk about female dominance, that we're all a bunch of female supremacists and man haters. Yeah, do you hate men? Okay,

34:14

we love men. We love men. In fact, if y'all saw the article a couple of weekends ago, in the Houston press, it was talking about how we do something called CBT

34:28

computer based training. CPT stands for cock and ball torture, for those of you who do not know and if you have not experienced it, hold just let one of us know we'll be more than happy to show you. Yeah, we can do it really good.

34:47

We know how

34:50

about holding the whole world in your hands isn't controlled then yeah, Have a bit clearer with this poor guy over here just getting a smile

35:10

yeah, no, this is not a male hater club at all. Whipped society is definitely about pansexuality and like minded people who are looking for each other and trying to figure out you know, just what it is that we do and why and what's it about? And let's find out more and more or less just do more and more and more and more.

35:33

Is there a way for them to get a hold of you?

35:35

Absolutely. [www.WIPsociety.net](http://www.WIPsociety.net) and whip society's [wipsOCIETY](http://wipsOCIETY.com) women in power society.

35:47

And for those of you who are at the parade, they were on the Mary's float. Yeah,

35:51

we just drove the Mary's they drove it to go

36:00

that's what they call it now drive in. 20 Oh, well, I It's, it's, it's just so great to see all these great clubs here in town about you know, we have parachutes and bad girls. And there's whip society, there's club fam, there's H club pet. There's the new club, which is just started. There's arrows rhotic Rose Society, there's Anna Leigh, there's Poppy, brother of brotherhood of pain, brotherhood of pain. There's Lone Star

36:34

boys leather, our favorite boy's voice. I

36:38

never get. But you didn't need that. Kind of, I think somebody heard that name. I like to penetrate and they just kind of ran for the hills. But

36:52

it's legal. Now I

36:56

want to demo. But you know, you know, I was thinking because one of the things that I do is, a lot of times I'll teach classes on anal play, and sexual anal play. And we've had problems where, you know, it's been publicized, and people are like, oh, gosh, and they freak out. Because they think you're, you know, you're going to commit sodomy in front of a bunch of people. And, and now I can, you know, advertise it that and it's not a big deal anymore. You know, because I'm not doing it publicly. It's very private, you know, you still can't do it publicly. You can do it in front of a whole bunch of people at a private party. You know, but but, I mean, the whole thing is, is that this decision that's been handed down, it's just, it's so empowering. It is just so empowering for everyone. And it's just, it's not just about sodomy, it's not about anal

play. It's about the personal liberties that we have, and, and our rights have been recognized, regardless of what you can get, regardless of what your orientation is. What you do behind closed doors, if it's consensual is nobody's business, but the people do

38:09

the right to be left alone. Bingo.

38:13

Amen to that. Amen.

38:14

That's one of the court one of the judges said, one of her justifications was it is that if it's legal for heterosexuals, it shouldn't be legal for homosexuals. And it's, they can't segregate it. They have to do it for everybody. This was really cool. The way she worded it was like a one page and I can't remember her name, which one it was

38:34

fair, fair for all senator,

38:36

Senator

38:37

Sanders, I'm really bad with you now. Now, what we need to do is just hope and pray that what he resigns because I really do not want Bush appointing any new justices, you know, and there are still people who are going to try to pass legislation and laws, you know, just to start to chain over again of Appeals. And, and unfortunately, those people have too much time on their hands. And, you know, I think their problems would be cured if they would maybe get, you know, get sodomized. There's a few that I would be more than willing to see that happen to you know, because because there's always going to be people I mean, there's people here in this town who seem to live for that passion of what can we do to repress people,

39:27

the protesters that were there tonight,

39:28

Were there a lot of protesters

39:30

just, you know, those

39:31

people with their two big groups were Frisbees, and there was one

39:38

there was a group the first the bigger group was about by like Cafe empire. Further down little towards my Montrose from corner to corner. Yes, yeah, took up the

39:48

whole stream. They were a single line and they all had signs. What was really neat was across the way, there were these beautiful young people and one of the signs says Hate is a sin. Amen. They were, they were like she was like showing her side she was, you know,

40:09

in their face. Well, that's good. We need more that face we really do. We really, truly do.

40:16

And it's the way the whole parade turned out was just absolutely wonderful. Everything just went off from from the way I saw it, it went off without a hitch. It was really good. It was really good.

40:27

Well, one of the things that when I was talking to the guy from NCSF, the new director there is that they're hoping now that this you know, it extends into the to other communities as well. But they're hoping that we can use this as a springboard for more activism in some of these other communities as well. And drawing recognition to the fact that we have in our society, ingrained heterosexuality and everything and we're so hetero centric, and all that we do that we tend to forget disenfranchise so much of the population these days, not just the GLBT community. But you know, there's the poly community there's those who are just non

monogamous and swingers and then there's this leather folk and, and all of us have been disenfranchised for so long because we didn't fit into what moral values, you know that they were considered to be the right thing and, you know, it's falling, okay to say the right thing is your own thing. It's not anybody else's in the bedroom, you know, and it's just, I mean, I'm just like, Woohoo, yay. So, me, I'm pretty easy to please. Just, you know, Jimmy here, can you just send over his little boyfriend and give me a massage anytime he wants and I'm pleased. He's the reason I'm late tonight. I love it when he

42:08

or she said okay, try that one more time.

42:12

I said, you know, I'm easy to please just send over your hands and I'm pleased Yeah, Hans von. Yeah, he's the reason I'm late tonight.

42:21

He's very good. You know, I told you

42:24

definitely know what we were skinny dipping in the pool. I would tell what he's a little

42:32

No, no, no, he's a big horse

42:42

but he's he's a great guy. You got a real friends there. You really do he she's a sweetheart.

42:48

He's Stanley's my Rock of Gibraltar, my lover of 25 years. We celebrate today is our 25th anniversary. Wow, this

42:58

is just a big week. Yeah. And

43:01

I've been with Jim since 1991. Well, I need to

43:09

say you know what, now you can be with both of them. And it's

43:13

like I said, Stanley is my Rock of Gibraltar. And Jim is my emotional center.

43:18

I believe I can I believe it. He just got great karma. He could tell I was all tense and stress and he just like you on the massage table. I'm like, Whoa. But now it's it's just, I just think this is your poly so you can understand how much this affects so much into the other areas. And it's just so googly. I keep seeing the little line flashing. I'm hoping and praying. It's my partner's supposed to call me. Oh, they're supposed to be calling.

43:48

Yeah. I

43:49

think somebody just ran into answering the phone. I hope. So. Looks like

43:54

we hope we'll pray you know, let's all do a chance. You know, Kumbaya, whatever. But now when it's in how often does whips meet?

44:05

Never. We don't have meetings. We don't have memberships. We don't have dues. We don't have a board. And so all parties have let's

44:14

see. I liked that. I was really, you know, I don't need a meeting. I wanted a meeting. I go to AAA

see, I liked that. I was really, you know, I don't need a meeting. I wanted a meeting I go to AAA. But you know, to be able to sit there and just get together and have a good time.

44:26

No politics. No. What do you have to argue about? You're in a party, you're having a good time. You're chained? You're getting whipped. You're you know, experiencing endorphins.

44:37

Now Have y'all moved and set up the new place like you talked about? Are you gonna do that or not? We are actually moved into the height.

44:45

The house is not nearly as ready as we would like it to be, but it's livable at this point. And the dungeon out in Stafford is going to remain a dungeon a place of business. It's a great place to play in. And it's just a little tree house and we don't want to let it go yet. So we're gonna operate the whips dungeon for the next six months as well as maintain the new house so it's very

45:15

well no not Yeah, I

45:17

guess they're not a promise because he's on Washington DC time. Like he was gonna try it

45:25

well well while we're waiting we can also talk about this is membership drive aim for the station. This is the station that the only station in this city where you're gonna hear mistress Eden, talk about the leather. Yes. The only one that you're gonna have on air demonstration. Yet some guy tied up

45:54

at and there's always bodacious talk to us. Those look really good on the radio up close

46:08

. . . . .

up to the microphone so they can see

46:12

but the number so you can call

46:16

713526573 number to call to pledge your support. Should

46:22

you mind you got to show me yours.

46:33

Honey, I showed you nipple you show me.

46:37

As buddy said when he called in that \$100 on plastic, we'll get you my nipple that we opened the show with its Pamela Stanley coming out of hiding. And in it. Buddy has engineered the voice of Harvey Milk

Jimmy Carper 46:58

class doing excerpts from his speeches, stuff from the 1993 march on Washington, all kinds of different things going on. You're going to hear the official word that came out when Harvey was shot and killed by Dianne Feinstein. And she had to make that announcement to the world. If Harvey and Mayor Moscone all kinds of like that's, that's this is our history folks. And he's got in there on that song and he's putting it on CD. For anyone who pledges \$100 on plastic here. That number is 71352657385 to 6k P F T

47:45

one. I think it's important for the listeners out there to realize that this is rare that we can have a show and we can have a radio time to talk about BDSM yes to talk about s&m to talk about polyamory to talk about kinky sex and anal sex and everything. We've been doing it you

48:05

know, but we don't interrupt you every five minutes where the commercial for pimple cream,

you know takes the edge off when you have to do that. And

48:16

in order to keep having that we we really do need people support yes and the number if you can't remember that number, it's 713 Jam KPFT. And, you know, I promise if anybody calls in you know, I take off an article clothing but I mean I've already done the whole nudist thing wants tonight but she's

48:38

not wearing that much so night

48:41

gown Aren't you proud? I thought I had a whole fetish off and on but you know we have to go skinny dipping don't want to put on latex and PVC again. So you know you go for the easy thing. We've done nude radio before. Oh, we have? Yes, we have to have surprises me. Surprise me in any way. But the boy he brought in was Jimmy sign his full name on his member. Yes. I was giving autographs that evening. We have somebody who is on this line.

49:25

Is that your guy? I know.

49:27

I don't know who he is. But I'll talk to him. Well, hold on a minute. Yes. No. You know me, strangers.

49:37

Yes. Hello. You're on after hours. Yeah, doing this moment. Yes. Fine. How are you doing?

49:43

Oh, my way to work.

49:46

Well, this is this will wake you up.

49:50

Every morning.

49:53

Hey, what can we do for you, Steve?

49:55

I heard you talking about the dragon and the dungeon or something like that in the staffing. I now live in Missouri City. Oh, yeah,

50:03

that would be the whip society, sanctuary and fetish parlor.

50:07

Yeah, I'd like to get into some, like explore my other hand. My wife is involved. She said,

50:17

Well, I know you gotta go slow. Yeah. Can you just take them out to a party where there's a bunch of naked people being beat? Yeah, gotta start slow. In generally you want to start with you know, just talking about it. Maybe watching watching some really good smarty s&m Porn. Yeah.

50:33

Oh, yeah. She hate X ray tapes.

50:36

And have you tried just,

50:38

you know, some good books, something by Jay Wiseman, or, you know, SM 101. Or,

50:45

yeah, I've tried all that going on, we've been married 18 years. And well,

50:50

you know, one of the things that I have found that works better than anything else, and introducing somebody, and you can't expect everybody to have your cake, I mean, you really can't. But one of the things that I have found that really works really well is just to sit there one night and in, be masturbating and getting each other off, but to do a night where you just talk about fantasies, and you talk and talk dirty and talk about a really nice fantasy that you may have. And then have her talk about one that she may have, and everybody kind of just starts talking about it. And every time you do it, your fantasies just get a little bit darker and a little bit more. You know, start with the simple stuff, you know, like Oh, being tied down with some silk scarves and some whipped cream. And then you know, next time it may be, you know, tied down with some cuffs and something else, you know, and you just got to start slow and work into it real slow, because it's so that they don't feel threatened. Because if somebody feels threatened, they're not going to consent to any kind of that behavior.

51:47

Yeah, I tried all that work. I took it to a club called Secret. Oh, boy, she didn't like that.

51:57

You can't force her out of jetlag. No, I just go by myself next time. Well, there's plenty people out there who do like it and you know,

52:06

check your club out what Stanford one night one day.

52:09

The whip society.org dotnet dotnet. Sorry.

52:17

Yeah, okay.

52:19

.. . . . . — . .

Yeah, check it out. They'd

52:21

love to have you.

52:22

We were sure. After free is that enjoys some old female friends that really enjoy it? Oh, yeah, I have quite a few of those.

52:30

I think too, for yourself, just to become a little bit more informed about what's going on is go to other clubs, meetings, like eras, erotic Rose Society every Saturday afternoon at 12. At Rogers, they do a two hour discussion clause, class and discussion. And it's a great place to network. And clay does a really good job of running that that meeting.

53:01

Okay, where's this meeting that was held?

53:04

Friday at noon at registered? You know,

53:09

are you the why? Yeah, it's

53:12

on law. Are you dz? is what everybody calls? Yes. Yeah, it's right there on. One will ever Saturday at noon, that's in the Montrose classes there. But, Steve, we really thank you for calling. Keep listening, to donate your money and pledge money to support the radio station, you will have

53:33

done it last Sunday. Good. Good for you. Thank you very much. I

53:36

see. Somebody just handed me a note from from somebody who's been a fan of this show for a long time. Been here. Good old mighty mouth. But he passed me on and says, you know, thanks for being so upfront. Some of us have to be more private. That's right. We understand that. And that's a, that's a big thing that's important to understand about this radio station is we can be the voice for those people who can't have have their voice. Yeah. And it's not that they don't want to have it, it's

54:08

theirs. For some reason or another. Yeah, it may

54:12

be the spouse, it may be a work situation, you know, whatever. Those of us in this station gives us a voice and it gives a voice to the people who for years have not had a voice. What's nice is now the Supreme Court has given some of us a voice, you know, and allowed us to have that voice and validated that voice, which has been such a great thing. And it's, you know, I want to just say to mighty mouth that, you know, we appreciate it. You've been listened to the station since I can remember you call in almost every month. You know, and it's like, where the station and all of us can keep perverts are here. Yeah. You know, and we're always going to talk about what we can do and what we can't do and and you know, I I really truly believe that the majority of people who listen to the show aren't the people you see up and down on the street half the time. They're not the people you see at the clubs and in the dungeons and everything else. They're people who are in their home because they don't have a voice. This may be their only link to candid, Frank, honest talk about the way it is, you know, because so many people can't talk openly about things and what makes them tick, and what makes them how they feel. I mean, I know on the other shows, whether it be the transgendered show or whatnot, we always get these people who will call in. And they're like, you know, I've always felt this way. But there's something wrong with me, you know, and it's like, hey, no, you know,

55:39

what's wrong is repressing yourself, right? And

55:42

what's wrong is not being feeling like there's a comfortable place to talk. And that's one thing you need to know if you're listening out there, as you can always call and you can always talk on the show, because we'll answer your questions. I mean, okay. I mean, we've had some pretty strange callers. We still can't forget, like Clydesdale.

56:01

[illegible]

But yeah, but you know, between, like you said, the transgender segment and the leather segment, I have learned so much about my own community. And we have fun while we're educating. And I think that's what a lot of people get, they enjoy, because it's like, right on the cutting edge. And we're having fun doing it. And everybody gets to learn something.

56:24

I remember you've ever learned something from this show, you should call and you should make a pledge, because we need you

56:30

7135 to 65738 Bobby, I

56:34

remember long before I ever met you or knew anything about where this station was and everything I can remember listening to the show, and listening you to open with, you know, being there for those who can't, for the, you know, the kids at home who are listening with their headsets on because they don't want their parents to hear that they're listening to a gay show, you

57:04

know, you know, that's the key thing. Right there. That's, that's the key thing is worth we're there for those who can't, you know, and I don't I think we should never forget that. And I think that even with all the the new freedoms that we see in the more public events, there's still so many people who are still stuck in the closet. Yeah, it's a terrible place to be it is. And, you know, I had since we started doing the thing with college station, I have gotten more people contact me from that part of really, yes, I bet you I, every week now three to four people from College Station, contact me from that they've heard the show. Wow. It's just like, you know, why? You know, I just great. I didn't know there was, you know, anything out there. And for those of you listening, College Station has a really good group group called kinky Aggies. And from what I hear, they're pretty kinky up there. And I haven't made it up there yet, but from what I hear, you know, that's a good group, too. Yeah, of course. Do they hang people upside down on the cross? Because you know, they're Aggie

Jimmy Carper 58:08

What can I say? Oh, big Roy. Just it made big Roy Schneider he's got his first hate call and over two years Oh, some woman called up to say oh you fat gets you're gonna burn in hell you know she must have been one of those people standing on the sidelines tonight

58:27

oh, you know what there was people who said How was going to freeze over the witness for the Court recognized things to guess what I'm going ice skating

 58:37  
about that is I hope she keeps a seat warm for Yeah,

 58:39  
that's right. Kidding. You know, yeah, hypocrites go there to Lady.

 58:44  
My, my god that is not a God of hate. And so yeah.

 58:51  
You know what, when when any organization that calls itself a religious group

 59:06  
there'll be no heterosexual kissing on this show.

 59:13  
Got the one that got it in there from next year.

 59:17  
I forgot what I was saying.

 59:24  
When the religious group that calls itself religious spews hate, then that's not religion. No, no, not at all. That's a colt. Yeah,

 59:34  
it is. It's the brainwashing of the masses. That's right. You know, and I consider myself a very religious person. I consider myself a Christian, if you want to go into religion, but the whole

point is, is my version of it isn't the same as the stuff I see spouting down the street, telling me that this is what family values are. That's people who have been brainwashed into complacency. You know, and if you look at that there, it sees people who've been so repressed. And if you repress and you control a person's sexuality, you've control that person. And and so much of what I see is judgmental and hypocritical. And to me, those are the people that need the most help.

1:00:18

The church is in there is in yourself, whatever religion it is, it's in yourself. And I

1:00:24

want to remind people out there that gay and lesbian, bisexual and transgender people came from homes that had religion in them. I did, and well, I did. When we grow me both realize that whatever church we're in, unless it's, you know, the rare church that accepts us, is rejecting us. In this town. There are more religious organizations for gay GLBT people.

1:00:58

Isn't it wonderful?

1:00:59

Yeah, you name the religion, there is a Queer counterpart to it. And it's in this town. And there are more of those than there are bars. Yes. In this parade, look at the roster that parade everything in the parade tonight. That's right. There were more religious organizations in that parade like dependent bars. So what does that tell you about our community? I think spirituality is very important. And I'm not just talking about religion, religion, we have the pagan group. Yeah. And many of us are pagans, or atheists, or agnostic,

1:01:40

or universal, or whatever.

1:01:42

But we all we all have a spirituality and we

1:01:45

all respect each other, regardless of whether we agree with them or not. Exactly.

1:01:50

We, we have all the people we should we are so diverse. We should know about diversity, and differences with people in our own community. Amen. Discrimination.

1:02:02

Lord, no, we know about that. Yeah.

1:02:06

Yep. When God said Go forth and multiply, he didn't mean procreate.

1:02:12

I know my multiplication tables.

1:02:18

Well, you know, my first encounter with with hypocrisy in hatred was probably I was in Washington with act up. Back when we did the names project, and we did the quilt in the square, yes. And I was there with named project and I was also doing some stuff with act up and, and all this. And I was just amazed at all of these people, screaming, you know, that I was going to hell and all this stuff at me, and I'm just sitting here going, I don't know what Bible you're reading. But, you know, because I grew up, you know, really, really conservative and, and it was like, I couldn't I just eat this fruit of my life. I was totally confronted with this. And I just really looked at it. And I said, you know, what, I had to do some really serious self examination. And I came to the conclusion that, you know, I was very blessed, and that I wasn't raised to think that it was all about hate. It's about love. You're right. And you know, one of the things about BDSM is it's very much a spiritual exchange with people. You're playing with people's energy. You're playing with people's, their core, basal primal sexuality. And it's very much for a lot of people. It's a religious experience. You know, the, the monks it used to flagellate themselves for years and years, they were on to something. You know, I've always seen it as a very in path to enlightenment. And I don't know what you ladies think about that. But yeah, I've always felt that it's a very spiritual connection and experience. But it definitely takes you to a different level of intensity. And I've been around people that have had just broke down and cried after it was all over with. And it wasn't that they were in extreme pain. It was that that it took them to a different level of freedom. Yeah, it's pretty, it's pretty, it's pretty freeing and whatnot. Now, those people that came in Jimmy, other people wanting to get on the mic. I mean, because I can get off.

1:04:29

I know that we have just received the pledge from Kevin. Kevin, thank you very much. And the

reason that he pledged in honor of the woman who made that hate call. So yeah, Kevin, thank you very much, Kevin. He doesn't mean in support of her writings because of her. Yes. Well, Kevin,

1:05:01

It's like those people.

1:05:02

What separates the men from the boys got

1:05:04

it? You know? Yes.

1:05:08

Is that they get to the Fred's God hates. They get that far and I sit there and go. How is that possible? You're supposed when God's supposed to be about love. I mean, God doesn't hate

1:05:25

Well, you know what? It takes a hate call to get a pledge. Bring a mind

1:05:36

right, I got my whips in the car.

1:05:40

Less than seven minutes to go for this show. Oh, wow.

1:05:44

Yeah, time flies. Yeah.

1:05:46

Yeah, I never have a problem talking. You should know. Next month. I am having a show.

1:05:51

Okay, yes. On the radio. Oh, Miss was Elizabeth anytime. Are you kidding? I really love the whip society because it empowers women and I promote you almost every week. Thank you, Jimmy. Thank you. Because I know that you've got parties and stuff going on and and and women can go and discover themselves honestly do

1:06:13

the best we can to make it available. Discover out there. We just get them out there now. Yeah. How do you get them out there?

1:06:20

I know you have those wonderful II fights. Yeah. Have

1:06:24

a wonderful Denton, so we need more attendance. So where should they? [www IP society.net](http://www.IP.society.net) If they do IP MTU IPS OCLET. Why women in power [society.net](http://society.net). And there is you know all kinds of links and ways of getting in touch with me once you get on that website. Yes. Otherwise Oh, and phone number it is 281-794-2619

1:06:53

Okay, one more time slow.
