and then the studio tonight we've got the theater, suburbia crowd. Yeah. They're gonna tell us about their latest play. So who's the director of this group?

00:38

That wouldn't be i Forsch liked Hello, Laura. Hello, Jimmy. I'm doing good. How are you?

00:48

Well, today's is probably something

00:49

like that

00:50

floor and I've given the same phone. So tell me a little bit about Yeah, tell me about the play.

00:57

Okay. The name of the play is the Joker fire twice. It's by a gentleman a pad cook. It is who is a native Houstonian native history? That's right, and deed to show your support for local artists to come and see the play. I've been telling everyone describing the play as a murder mystery comedy. It's a spoof on the old 40 style radio shows. Anyway, it's it's got a great cast a big cast. We got 12 people on the show. And it's a plays a lot of fun. I think I've had fun working on it. I think the rest of the cast have had fun working on it. Right? Yeah. So yeah.

01:34

Lots more headaches. Yeah.

01:38

It's twice the headache of normal play.

01:40

Okay, so who do we have here tonight? Let's go around the room.

01:43

Okay. Let's start with. We have Dean anyone tells me about a little bit about yourself.

01:49

Sure. My name is Dean Dix. I'm the optometrist at the Montrose clinic. And I've done a few shows with theater suburbia, over the years and I'm glad to be back, playing the gumshoe in this piece so

02:04

yeah, Dean's Plan A so we got a Shure Beta Hall Shibata. Hi,

02:08

my name is Shweta Hall. I'm a science teacher at the high school. This is my first play with theater suburbia. In these to be with such a great cast. I play a little card days to sell to TED to owner

02:22

02:22

son's teacher in theater.

02:27

She's left and right in your classes. We have another new comer Brian Coker Brian wants to tell us about yourself.

02:36

My name is Brian Coker. This is my first acting experience with your suburbia nonlawyer for about what almost about a year now.

02:45

We didn't hold that against you when you Yeah.

02:48

So I've been having a lot of fun with the cast making new friends, new experiences and stuff so I'm hoping that they have great time with the play good and

02:58

more yet, future Prime Brian's playing allow you Anson We also actually display as lots of new criminals. I think about half of the cast are new to suburbia. So did you bring folks in some of them I did for kicking and screaming.

03:15

I was one of them.

03:18

And another newcomers Okita. Hi,

03:21

my name is Lisa Santiago. I'm from Puerto Rico. And I am new here at theater suburbia. And I'm very happy to I play Polly, who is a secretary. And I'm just really happy to be here and come to see the play. It's a lot of fun.

03:39

Do you get a little play? Excuse me Do

03:42

you giggle in the play? Not as much as the professor if you want to know what that means you have to come back. Okay,

03:52

so she was put upon Polly you

03:54

know that she's a sexy

03:58

Polly's are sometimes absent minded. And loudmouth Secretary as his right hand woman and then we have we have a theater suburbia veteran bunny.

04:11

Hi, I'm back again. Oh, um, I guess this is I don't know what show this is but it like directed

04:19

last year to her fired

04:22

number show it is I don't like show. Nevermind. So I'm glad to be back as usual. This time. I have a little blast. I come in and say a few things and I leave and that's fine with me.

04:35

Where do you boy? Ma Flint. Who are you? Yeah, it was introduced as Benny. Is that last name? AKA barber Horton. Oh, okay. Okay, and another another person who has been at suburbia? Many, many a time Carolyn Montgomery. Hi,

04:56

I'm Carolyn Montgomery and I play Sophy the made and I flit in less than you do bunny. But how long I've been at this theater for 30 years, and I've done Oh, close to 100 plays somewhere around town at some point or another. So this is just one more the long line. I just retired this May after 44 years of teaching world history and the Houston school and she can't stop rubbing it in. That's right. I don't want to go to work anymore. But no. Right. But and Laura and I've done a play together before Kevin Favre, where she played my niece. So most of these people are familiar to me except a few of the new ones and I'm really grateful to see new people and new blood come back, please. We're having a grand time with the show. And I think it'll be really a great crowd pleaser. So jump in, everybody.

05:48

Definitely. Definitely. Another newbie, we have a Shawn.

05:53

Hi, I'm Sean Wesley. I play officer Gunderson, the always absent minded police officer, which my friends my friends told me I'm perfect for taking acting classes and done student films, this is actually my first play in the real world. So trying to get my feet wet. And I'm having a good time but

06:17

great, great, great. And we got another another base you've seen here before.

06:23

Many many times. My name is Jean Griesbach. And I played the professor and the professor is sort of the person that tells a case when he screwed up and helps him abroad which is often often let's see, I'm funny was my wife and one play Carolyn was my wife and several planet daughter

06:49

actually got got both my father's from my other from other plays here in this

06:53

Dean's plate my son where this is an incestuous relationship there apparently

07:03

it has one of the old timers that will say that new people here are just a dream to work with. It's really been fun working with all

07:11

kinds of kids. Can't forget Morgan Granberry Hi, my

07:16

name is Morgan Granberry and I've in another I'm in another comedy big surprise there but it's it's really nice to have all the new people in the cast. I'm really enjoying the show. Oh yeah, that's right. The radio announcer Oh

07:38

no, you're dropping out.

07:43

We also we also have the other director Novan can't talk other director Elvin

07:48

what before we get to Elvin, we have the cast members that are that couldn't couldn't be here tonight. Cedric Willis Lynn Hill, Ellen perot's

07:57

2345 678-910-1112

08:03

and I am sort of serving as Laura's backup on this and watching her get her feet wet in the direction we're

08:12

gonna make sure to make a couple of tapes of the sequence it's because maybe the first time you've been on air

08:22

he's always at least background

08:24

they're always here but yeah, he's always it's always at the station was

08:28

this voice you hear reading flip when we do the scene a little bit will be made. He does it much better than

08:37

that think you're wandering through a couple of scenes and get a taste of this kind of 40s radios radio show.

08:45

right up your alley? Yeah. Okay.

08:51

Polling shows her confidence in Ace.

08:55

Mr. Baxter. Why didn't you do it? Do what killed Johansson. He was a pagan customer. I didn't kill him. You was here. You were seen and your prints are on the gun. That's not all. They are some more.

09:09

It's my gun. Your gun? He was killed with your gun. Why did you do with Mr. Baxter? Hey, will you get off that trolley? No be a bunny and hop out of here. Meet me back at the office. Okay,

09:21

but I'm on overtime. Yeah,

09:23

all life is overtime say that's one for Gunderson. Now beat it. Sophie

09:27

09:31

09:39

09:43

There is every possibility if I'm not mistaken, that someone could be slain here tonight. Maybe I should take note Tom is out of Premium I'm afraid you may have to forego any such bookkeeping and Good thing I'm not. I beg of you, you simply must acquiesce to my demands. 10:29

I asked you first

I asked you first

10:31

why I thought you would have comprehended my meaning at this juncture,

10:34

10:36

I'm lucky if I can understand your pauses, who's going to be murdered? I am.

10:42

Good Person chats with the professor. You

10:45

11:13

So concerned about his well being in fact, you contacted a private I name ace backs to the shadow the guy. Very good. Hey, nice. My job. Impressed. Oh, huh. I have more but I'm not at liberty just now. If you get my drift.

11:59

And just what do you do when you are at liberty? No, I

12:03

work for the Red Cross. Help little old ladies across the street. Find lost dogs that kind of thing. Well, maybe

12:09

you could find time to help me. I'm a bit lost. You see, it's very lonely running a tattoo parlor and never meet anyone like

12:19

you. Would you like me to help you across the street? What I would like

12:23

from you might get you off the street for shall we say an evening or two?

12:29

Sergeant Plett gets a little help from his Mall.

12:32

Ma I'm trying to work here. This is a matter investigation. You just go ahead Alvin. Just

13:02

I know. Why are you here anyway? Listen,

13:05

14:44

your home and you're trying.

14:48

That's what it was all time right. The number once again is 713-682-3525 and we recommend your caller make where reservations.

15:00

That's the reservation line here. Cool. Mitch, and but

15:07

 15:07  
nothing I'm sorry.

 15:09  
What you thought you had control this show?

 15:13  
Benefit? Yeah, we want to talk about something

 15:16  
else. Just real quick first thing, just want to kind of a special for KPFT listener. So let's go do that first. Okay, so as not to confuse issues. Okay.

 15:25  
Okay, because we like KPFA listener. So we love Jimmy. If you guys mentioned at the box and, Judy you mentioned at the box office that you heard the promo on Jimmy show when you make when you make reservations, you will get two for one tickets, different price of one. That is a deal. Tickets are pretty cheap to begin your 501 C three. Absolutely. So tickets are \$10. Right? Tickets are 10 cents. Oh, yeah. Our tickets are \$2 \$10 for adults. \$9. For students and seniors. Our Sunday matinees are \$8

 16:02  
Try finding a theater night for 10 bucks anywhere folks. You can go for a couple what a cheap date. No, no, it's small. Its intimate.

 16:17  
Yeah. And we must be doing something right. Because we've been around for several decades. Yeah.

 16:22  
Here's the funny yeah. Belt, the oldest, oldest kid continuous. Volunteer.

 16:40  
You mean my second unpaid job? Yeah.

16:45

Okay, yeah, we do want to talk about the benefit. Very much.

16:49

Okay. On Thursday, September the 22nd. The cast, this is not something that theater normally does. We do a lot of benefits. But we normally give a house to an organization, let them promote and so right, because of the hurricane hitting affecting New Orleans, so so devastating the New Orleans, specifically, within Alabama. We have the cast decided that they want to do something. So they have been out promoting a performance on September the 22nd. The proceeds will go to the American Red Cross to hurricane relief fund, we are hoping that we got some some ways to get that money matched is an eight o'clock performance on the 22nd. What night of the week is that? That is a Thursday, Thursday. We're starting the show at eight o'clock that night so that you guys can be out here at a reasonable hour. Okay. And we're we're requesting a minimum donation of \$10. We would love to have more than that. Anybody can it's a first come first serve basis on CD. Now

17:47

you don't get to for one on that. No, no,

17:48

no. No, because usually, you do benefit performances for an organization which comes in they sell the tickets, they sell the house, they take the money, the cast doing the performance, and the chaos is trying to fill the house with their friends.

18:05

Very good. Very good. Anyone else wants to come not just our friends and relatives? Yeah.

18:10

And if you just want to make money not coming, you can do that. Someone else do that? Buy the ticket? Yeah.

18:16

This is just a walk in basis type thing. So performance is eight o'clock. They need to be here by 745 45.

18:24  
Chelsea,

18:27  
September 22,

18:28  
September 22 knickers thing.

18:33  
That's great. Thanks for being on after hours again.

18:37  
Well, thank you. Again.

18:39  
I'm sorry, you're not here. I had to say that. Oh.

18:45  
Actually, since you're directing a show where they're

18:50  
showing up, does anybody care?

18:51  
Yes, please

18:53  
do get closer to the mic. Over

18:55

here. Okay. Okay.

19:00

Okay, auditions are coming up for the show. But doors and air gonna be co directing, which just happens to be our Christmas show this season. But the auditions are gonna be on Sunday, September the 18th at two o'clock, and Monday, September 19, at 730. So we need all kinds of people. I think there's nine people in the cast and male female. We need someone who plays the guitar. Now we're not talking a lot of you know, electric running around doing horrible noise type stuff. Super simple scrubbing, guys. The

19:33

songs are really Christmas

19:34

songs charming. There are two original songs in the play, but they're very simple songs.

19:40

Did you give the name of the show? Or the flavor? Nobody does. Charlie

19:46

Brandel by Dave Brandt who's not local, but this is an unpublished play to my knowledge. So we will be the first ones to get to do this and the second one, so that's kind of very exciting too. So I'm excited. Doris won't be here for auditions on Sunday, but she will on Monday. We encourage everyone to come out and come out both times if you're not real experienced or haven't done plays around Houston or whatever, come on out anyway, bring a picture. If you don't have a picture, we'll take a picture or it's real simple to do. That

20:15

nothing else is played. The play going on now shows that she shows that unknown people can get cast

20:20

and because I talked so fast, you can also call 713635

and because I talked so fast, you can also call 715623

20:25

directions

20:29

and they'll tell you about the auditions and about the play that's running and plates coming up, etc.

20:35

There's also an excerpt of like the first 1520 pages on our website. theater. Theater is super old shitsville

20:47

Oh, that's right. You're calm, aren't you? I'm sorry. th er teary these people who were so confused they're gonna be like, is this still going on this is a pretty typical evening with a crowd like this. You know, it's just it's organized mayhem and we have a lot of fun doing it.

21:10

Okay, we're

21:11

gonna call it organize

21:15

a piece of music now I want to thank to the group for coming in and being with us and good luck with a boy

21:27

you're listening to 90.1 KPFT in Houston at 9.5 in Galveston and the Wild World Wide Web it K p of t dot O R G

21:51

21:51

Spears a spears from his CD boy howdy. That is still one of my favorite CDs of career music of all time.

22:01

I thought house on fire would have been a little would have been taken the wrong way. Not good paying me. I like to dance on the line.

22:12

Yes, well this week in the TX T newsmagazine. I wouldn't call the text TX T betwixt fixed I don't know. Because there's a great article about queer radio in Texas. And they talk about let's see, 12345 different shows, two in Austin, one in Dallas and two in Houston. And all Austin, K O P 91.7. We've got outspoken it's a one hour forum of arts, entertainment, interviews and news and the other one, the world famous queer waves, and Co Op 91.7. And it airs Saturday at 4:30pm. It's world famous because it's hosted by none other than Taylor cage. If you might remember a few years back we did a phone interview with with Taylor. He's a hell of a guy. Lots of very funny, easy to work with. And a very active in the queer music scene. Well, it is Austin after all, but he's always got new and very old and in between music that he plays each week. And you can actually you can listen to KO P on the web. Because I've done it once or twice. Yeah. coop.org. Yeah, something like that. K O P. In Dallas. There's a radio show on kn O N at 9.3 FM, called lambda weekly airs at Sunday at 1pm. And it's political and community talk and entertainment and reports in a quasi roundtable free for all well, that's kind of what we do here in the last hour of the show. Then, of course, they mentioned they, they had little interview there with Jack Alinsky from queer voices heard every Monday night here on KPFT. From eight until 10. But well, seven to nine and it may go to eight to 10. I don't know what's going on with that schedule. No, another change. Yeah, I think so. So, you know, just tune it seven and see if they're all and if not wait for an hour. I'm serious. I'm serious, because we don't know and when change happens, it's going to happen and you know, just won't know about anyway. And then, of course after hours. Saturday at 1am. Yeah, that's right. It's just that when you say Saturday Ready at 1am. Sometimes you think of Saturday night, and we're actually Friday, late late, late Friday night into Saturday morning at 1am.

25:08

Yet at the beginning of the show, you're telling me to say we're on Saturday, September the 10th.

25:12

Well, technically we are. It was much easier when we were on at midnight.

25:23

coughing up there. Yeah. Nancy didn't didn't talk to us about it. But she got some very good

coughing up there. Yeah. Nancy didn't didn't talk to us about it. But she got some very good information from various areas. Plus, obviously she listened to the show, too. That's nice to know. But it talks about me being the host and producer, but since earlier this year, of course, I made Chris my co executive producer, I must have. Yes, but you are. You're with you're not a rotating guest host now, you could rotate but you could rotate in several years. I

26:04

prefer my chicken rotate.

26:06

Don't go there. Joe gray isn't with us anymore. She left the show. We were sorry to hear it because I don't know she she was good. She was very good at what she did country. Like I said country died because she lived kind of far out. But it was the what I liked about jewel was that she was at that point. She wasn't involved in a lot of things going on in the Montrose. And of course most of us do not live in the Montrose I happen to but most of us don't. And so it was a perspective of someone who lived in in straight land. She's been replaced by Diane Rose who does a hell of a job here.

26:55

And will be here next week. Yes, she

26:56

will. Is she will and she'll have something SOCO because she always does. Yes, we are pegged as queer radio with attitude. And we're our irreverent, improvisational talk and entertainment with local guests and live phone and in studio interviews with national figures. Yes, and Sir Corwin has been on the show. I guess that's when Nancy was listening. And Judy Reeves, of course is more than a guest. She's kind of an unofficial host here, because she's here very often in several different capacities. Mainly with IC O H. Or with

27:40

as you just heard with theater, suburbia.

27:42

Yeah. The fears about suburbia and G km Gulf Coast archive and museum of gay lesbian, bisexual, transgender history, Inc. She just liked to have her hands on a lot of pies, which she is the chair. Yes. And of course they talked about Ray hill because he brought the first queer programming to Texas with Wildenstein back in 1975. And since then, we have we have always had continuous gay programming here on KPFT 30 years. Yes. And we are so lucky to be here.

And now we have two shows. Very different, of course, we talked about queer voices as being the queer 60 minutes and after hours as being queer David Letterman. And I think that, that there's that kind of,

28:41

I would love to get us to the point where we can call ourselves a queer Daily Show. Oh, yeah,

28:47

that would be great, wouldn't it? And I don't think we're quite there yet. A

28:51

little bit of respect a little bit more information. I think we got smart as part down board.

28:58

Oh, yeah. And don't forget Sirius Radio.

29:01

Yes. S

29:03

I R. us seriously?

29:08

Oh, the dog star Sirius. Yes. That's the

29:11

satellite radio that has lots of queer programming on it. No, I don't know about the Dallas show. But like I said, you can get K O P. Net. Which is cool. Okay, do we have MBB letters? Yeah,

29:30

I got a couple of here. Actually, I'm missing one from before it was this

29:37

one. Yeah, well,

29:39

that was for you. Yeah, that's for me. Tigger. Hey, Tigger, still having the occasional trouble getting here.

29:49

Man, and he is our one of our most faithful listeners and a member of KPFT he he's the guy who Who sends us? The stamps? Yeah, so the most precious commodity for MBBS.

30:08

Unlike some of our listeners who I mean, it's someone who's taking a part of our show. It's right showing management that about it. Yeah. Here's something we'll get Jimmy's mouth watering on Saturday. He shaved almost everything. Ooh,

30:21

sorry, I wasn't fair to either observe or help.

30:26

And because you know, he only did chest, arms, stomach and legs and Oh, Jimmy has a lady shake. That works. Well.

30:35

I shout. I shave in the shower. It's a lot easier we go. It's a whole lot easier.

30:45

I can Pharaoh I can barely hear a rainbow in there. Some reason? We're playing something on ISDN earlier. Turkey. Hopefully everything will he'll get set back on here. Unfortunately, you know, he doesn't have anything more to add because he was able to hear

31:06

31:00

I'm really sorry. I hope nobody's listening now. And if he can't, I hope folks who do can let him know that. As we always do. We read his letter on the air. Yeah.

31:20

Yeah, yeah. One of them gets a little late coming through. Let's get sidetracked somewhere. Because he was having this one was from before. An article about Portia de Rossi and they advocate. He's saying gorgeous of.

31:39

Oh, isn't that the biggest scandal? For sure. That's

31:44

Ellen's? No. It is. Okay. Ellen. Ellen's right. No,

31:50

no, no, no, no, Melissa. Melissa, okay.

31:54

Yeah. What's the what's the scandal? Well, because,

31:56

Melissa, and wait a minute. Yeah, Melissa was dating this actress, TV actress, blond hair cute. I mean, they've been together. And Porsche had it lover. And they both ditch their lovers and got together.

32:21

A heterosexual can you? Yeah.

32:24

It almost sounds like

---

32:26

Yeah, and it was really weird getting another

32:29

one. They really are a part of the

32:35

he's talking in here about there was an article in that advocate about Judge Sean Roberts, who has since this letter was written is now been nominated for Chief Justice of the Supreme Court. Oh, joy, not just an Associate Justice, which is probably gonna try and get

32:58

to the top. They have to Shouldn't they like be on the court for a while before they attain that position?

33:06

Man, you're talking about Scalia, would be next to Thanks, Paul. homophobes and robes. Yeah, no

33:16

kidding. Ya

33:17

know me with the death of Justice Rehnquist. It's now John Roberts has been nominated, which has probably helped his nomination because you know, everyone wants to feel that Chief Justice spot a little bit faster. So the probably probably probably use that just shut up. Yeah. Any dissent.

33:35

All right. You know, think this is a mixed bag. So many, so many people who who started out conservative on that court ended up going towards the middle. Yeah. to the chagrin of Republicans.

33:52

O'Connor was nominated by Reagan. Was it?

33:59

I don't know what it was. Kennedy, I

34:01

think was another one who was a Republican appointee and who kind of went centrist on it.

34:08

Somebody's calling in.

34:10

Little KPFT programming note on that, starting on Monday, Monday, Monday, Monday from eight to five KPFT program will be preempted so that you can hear the hearings for Judge Robert becoming Supreme Court. Chief Justice. This was originally going to be started last week when he was just going for his associate position. But because of the fact of Justice Rehnquist passing they decided to wait till they let's face it put Rehnquist in the ground before they started. Hire fire. Hiring his replacement would be nice. This one is a little difficult to read. It's the lighting and here isn't great for very light written pencil.

34:54

Oh, okay. That's why I can't even Oh, AJ. That's from AJ cool. Who credits Tigger for turning him on to the show?

35:09

Ah, see? Oh, that's so cool. That is cool. That is really cool. Yes.

35:18

Yeah, he was talking about some of the GSAs like I said hatch was talking about or I'm sorry, was it it was Diane rose it talked about yeah GSAs with with the Murphy when she was in here I'm having real difficult reading so I'm a bit more in the air. I my eyesight isn't as good as it used to be. Like I said,

35:43

not not this year only 33

35:47

Yeah, but you know, when I sit there I sit in front of the computer all the day, although, after four years, after four years of sitting with your face, six inches from a computer monitor. Not when you're not looking at pornography and then when you add on to it when you get when

36:02

you when you're on pornography, then it's really blurry. Oh, your head is moving. But now

36:14

I That's strange. Oh,

36:19

no, no, no, no, I

36:21

understand what it is. I'm just I'm not sure how we can cover that on the show. Go to the next topic. Let me figure out how I can get Dr. Jonathan and we can do this on the air. Okay, so

36:39

I wanted to talk a little bit about some of the stuff going on with the queer community, helping out victims of Katrina. And as we went, if you listened last week, we spent the the very beginning of the show and almost half of it, talking about the different things that different organizations were doing. And I want to update that with some information that I've got this week. The Montrose Counseling Center has resources for GLBT hurricane evacuees. Beginning lesbian switchboard Houston can provide non judgmental support information and referral. And the Counseling Center will host the support group for gay lesbian, bisexual, transgender hurricane survivors on Tuesdays. And now they have added Thursdays from 1130 till 1pm. And they I believe they provide lunch for this Montrose Counseling Center is located at 701 Richmond Avenue. Now if you're at the dome, or your Georgia or brand and you're listening there, you can get on the train and stop at the Richmond stop and just go west. Few blocks and they're right there. 701 Richmond the coordinate coordinating a database of safe homes from individuals in the community who are opening their doors to offer a place for their GLBT neighbors who have been displaced. They can lend a friendly ear if you just need to talk to someone and let you know what other services that for the GLBT and AIDS service

organizations are providing. So that that number of course for the gala has been switchboard. 71352932117135 To 930 to 11 and the game has been switched switchboard is a branch of the Montrose Counseling Center.

38:58

Jimmy YES.

Roy 38:59

Just a little housekeeping note on here on the train there is no Richmond Stop it is though Wheeler. Oh, okay. I just wanted to point that out. Okay, can be riding on that train all two

39:15

main kinds of splits it. Some of the major streets are differently named on one side or the other. Now there is another small group that is helping flood victims. We can offer studio apartments for \$11 for the first month. We require an ID and \$100 deposit then we can give a discount on the future months with no long lead you

39:39

have to have a Louisiana ID or

39:44

call William

39:47

Roy I thought it was moving back to the Toronto call.

39:50

Well, yeah. 713783821 I already announced that the most was counseling center. The hurricane support group is Tuesdays and Thursdays from 1130 to one. That's cool. Now, the mantras clinic mantras clinic is they're right there on lower Westheimer. The Montrose 200. Block I believe that global risk time. The mantras clinic and the assistance fund will make every effort to provide medical and medication assistance to those living with HIV AIDS who have been displaced by Hurricane Katrina. The clinic specializes in HIV primary health care services, and the assistance fund oversees the HIV drug assistance program. It is crucial for the community of care to be maintained. For those ravaged by Katrina who are living with HIV AIDS. The clinic is working closely with Harris County HIV services and HRSA. To ensure that

each request for HIV Medicaid medical services can be met. Montrose clinic has set up an emergency hotline and here's the number 713-830-3047 That's 713-830-3047. Either someone will assist you directly or you will be instructed to leave a message. Kay there then Houston GOP response to Katrina, the Houston rainbow cross. This is a takeoff the concept of the term Red Cross we were made up of members of many community organizations working with staff, if you whisper it goes out on the air. Working with the staff of local service agencies. We are not the American red cord cross nor are we affiliated with them. We are not trying to do what they do. We are not seeking any donations. We are all volunteers. We do not provide any social services. We are a group of people from different gay and lesbian organizations and walks of life working together. Our goal is to be a source of information for the gay men and women who are now in Houston because of Hurricane Katrina. We are networking with service agencies in our community to ensure we can offer updated information to all the gay and lesbian refugees, EPS evacuees, I don't like that refugee word. Evacuation. Yeah, they've

42:33

gotten a little bit of trouble for for that term.

42:36

I don't like it. We will try to provide updated information on housing, medical needs food and clothing. This is a C, and they

42:48

it's a yahoo group. Yeah, it's gonna go to Yahoo. groups.com. Yeah, well, the full address is going to be groups.yahoo.com/group. Slash Houston's rainbow cross

43:03

yes with an S Houston's rainbow cross or you

43:08

just go to Yahoo groups and go to and do a search of Houston's rainbow cross. That's right.

43:15

And the the Houston GLBT community center which is located at 3400 Montrose Boulevard, right, right across the side street from Kroger right there on Montrose. And that's it suite 207. The second floor when you get up there, turn to your left, go around the corner. We'll work to provide services and resources for the influx of persons displaced by Hurricane Katrina, who are already in the area or who will soon be here as part of the massive New Orleans evacuation effort. The community center crew President Christopher Brown and and bound announced

today, these services and resources will include serving as a point of information about services, providing meeting space as needed for an ad hoc grassroots community group that is forming to provide a broad range of assistance as well as a place for displaced persons from Louisiana, Mississippi and Alabama together, offering phone and internet access for displaced persons organizing fundraisers in collaboration with other community groups and a place for an information exchange possibly web based regarding housing and employment opportunities. They just in GLBT centers home base for for the gay lesbian, bisexual and transgender people and allies in the Houston metropolitan area and South East Texas. The it's located at 3400 Montrose The telephone number is 713-524-3818 that 7134 I have to 438 Eight teen the website is dub cubed dot Houston GLBT community center dot o RG. That is the updated information I have

45:18

with one caller we had Jonathan Yes, I was just checking to see what we could what we can say and how we can do it. Unfortunately KPFT is 501 C three. So we got to kind of create a fine line sometimes when it comes to political discussion he wanted to talk about remind people about no nonsense in November, which is a campaign opposing constitutional amendment 21 to the Texas Constitution. We can't tell you whether to vote for it or against it. But you know, the the facts are out there for you to make up your own decision. On as far as what to or 21 Oh, I'm sorry. Constitutional amendment to the one banner they had up here has an exclamation point after and I thought it said 21. Constitutional number 21 or 22. Day, honey,

46:15

honey.

46:21

Okay, if you want to find out more about the organization, no nonsense in November, go to the website. No nonsense in november.com. And all that is one word. And you can find out their hearts, that of their organization and what they're doing for amendment to smiley wanted to jump in here at something on Katrina news. Oh, Molly, you're on the air. Hey,

46:47

Chris. How you doing? Fine. Yeah, Jimmy Elgin. Chris doesn't want to say anything. Yeah, actually, if people don't know I've been reporting live every day Katrina and updates.

46:58

Right here on KPFT.

46:59

11 40:59

Right here on Sundays. Every day Monday through Friday at 12. Noon. For people aware, I don't know you haven't had a chance to go down there. Have you? Because Jimmy No. Rainbow has rainbow has when you go to the Reliance city or to the DRB or was GRB. So you haven't gone to the Dome City yet where you saw it. Today, we passed out radios, the 10,000 radios that we had on the FCC approval. We just took the radios down there and just basically went to every corner just handed out literally Wow. Now another thing I want to ring up to why can't we say vote on that November number of times. It's

47:37

because we do not get involved in political. We can have people on to talk about that in urging you to vote. We are a 501 C three organization. So we do not take a political stand.

47:49

I'm going to I'm going to be doing it in the news.

47:51

I know.

47:52

And so I don't know why the

47:54

smiley, I tweet, smiley? Well, we can't we can't move on. We just can't.

48:00

Okay, well.

48:02

So what's what's Do you have a dome report? Well, the

48:05

continuous thing. We've passed out the radio so now the people down there in the radios? Yeah. You mentioned that these are these groups are to support the gay community that is

then displaced by the storm, Katrina? Well,

48:17

yes. And it arose because there became a problem for many GLBT folks staying in shelters, that they were being harassed, just because they were GLBT. What's the I've

48:29

been walking around the dome and the Reliance center almost every day, and I think I've seen maybe a few of one or two people that are in the family. And most of the people that are in the family are volunteers are workers there. I think the Queen's from New Orleans went somewhere else. They're not here in Houston. Well,

48:46

no, no, no, they are here. And they'll tell you what a lot of them did. Because I have that experience. Many of them went to found a gay bar to go to and asked about assistance there. All the bartenders in Houston have been apprised of what the Houston GLBT community has to offer, and especially of course, the switchboard phone number. And so people have gotten help in that way. And you know, that's our bars at work.

49:19

Really litter I see this. I did not know that. Yes. I've been covering the dome wondering myself, where are these people? There's got to be I've been? I've been to the hotels have walked around I you know, I was wondering, I

49:30

know. And it's also the fact that we've through both the GLBT community center and through the Montrose Counseling Center. They've been setting up matching services for people who, the queer refugee, the queer evacuees who are looking for places to stay with people in Houston who are offering them a place to do that. Yes. You know, especially organization also is started off with Lone Star activists. The younger group of people just posting Hey, I've got a room Boom, someone can come and stay with me. And from a lot of emails going around through the to Yahoo groups of Lone Star activist and Louis weekend, they're using Council of clubs. A lot of people came together and we're looking for ways to help our community. And I think that's, that's what the the GLBT community is known best for living. So the council is 30 years ago with aid with HIV and AIDS, of having a step up and taking care of it ourselves. We're doing it here. We're helping our community first. Chris

50:32

... ..

Christie Silla. Yeah, okay. You know what, you funny you brought up, I was at the press conference and the health director along with the medic, medical coordinators that would transporting medicine to all the facilities here in in New Orleans and everywhere else. Me and Me and another affiliate, we both jumped on the fact that they were saying, we were asking if there was enough immunizations, and medication for HIV patients, and he was a little bit suspect on the information. So it's, it's actually that information. I wish you could. I wonder if the because the GIC doesn't have it. The

51:05

Montrose clinic has been working with different pharmaceuticals to bring in the medicines. In fact, this past Wednesday they were supposed to receive in a truckload Yes, of medicines that they were going to be splitting with for other clinics, to getting the services out of what they need. Several of the local pharmacies here in the Montreux especially our work working with ces monitors clinic to get people the meds that they need, but especially for HIV AIDS, because, you know, when it comes to trying to save your life, you know, depending on what your regimen you are on, it's a lot of pills you got to try on. That's

51:43

right, and you have to take them every day. That's the most important part. But

51:47

conditions down there, it can't be healthy for the people that are HIV effective says of the closing atmosphere, they hate the continuous moving.

51:57

And the dysentery factors. Oh, you know, the fact you're you're right now I mean, people who are still in New Orleans, basically the entire city is a cesspool. And you know, that's a great risk, I mean, tuberculosis, cholera.

52:14

You know, funny thing, there are some people that are quarantined at the Reliance center, but we weren't able to find out why what how many or anything like that we were just told that these people have been quarantined and separated. And

52:24

so of course, it could have been for a variety of reasons, it could have been the folks that were having to be in jail at the time. Or,

52:32

and also, you have to look at the fact that a lot of the stuff of what you're talking about the cholera, tuberculosis, all that is highly communicable. And you've got people who are coming in who are wading through waist deep shoulder deep human human waste carcasses. Oil, you know, all sorts of nasty things. And you know, a lot of people are getting sick, and a lot of people are going to be passing from just the the sewage aspect of what Katrina dumped in the area. Yeah.

53:10

Basically training New Orleans and everything surrounding it back to the swamp lands that it was many years ago. It's

53:16

a toxic swamp land now. Yeah. You know, you've gotten natural gas coming out of pipelines exploding, you've got fire on the water. So, you know, it's, you know, it's not just the swamp land, it's basically turned it into a cesspool is a nice way of saying it.

53:32

That's, that's a funny, I mean, you know, going into a segue I talking to some of the victims of the storm here that are sheltered here. I was asking them if they're willing to return majority of them say how long how long it ever takes, that they eventually will once New Orleans is habitable, they will once again return. Yeah, some would say but the majority want to go back home, which I can understand. But now it's left up to date. Is New Orleans. rebuildable. I mean, are they going to spend the money to sit there and fix New Orleans to what can it be what it was once again? sad, very sad.

54:09

Okay, one thing about guests. That's what they're called. They're not called evacuated. They're not called? Survivors. They're called guests. Yes, that's the term that they're using it the GRB. Really really? Yes, that is the word that in fact that's the first word you are taught. When you're trained you do not call them anything except guests because that's what they are here in Houston. Now if there are gay lesbian bisexual trenches are guests that didn't check in at the Astrodome or the George R Brown. That is the only way you're going to get those that FEMA money that Red Cross money or whatever money they're giving or realized register Oh, I didn't know that's registered, or else you will not getting kicked out. If you came in and got off the bus and just went to the first gay bar you could think of that you won't get any money unless you register you got to register that

54:58

did not No,

55:00

but they're moving out to the other places after the red crosses, FEMA has stopped handing out money with the Red Cross is still from last I heard they were going to go they started the dome and they were gonna go over to the Georgia Brown and they were gonna start going to the outlying, would

55:14

you still unless you still must register because down the road, there will be more money for you. If you do

55:21

not quick note, if if you do not have an ID or any kind of indication because you lost it in a storm, there is a process they can find out who you are, where you're from, and then they'll work with you. It's just it's just there is a separate process if you don't have any identification or anything.

55:34

Okay, smile. I got a question for you. At the George Brown as of Wednesday at midnight, the only volunteers that are allowed in the building are those from Operation compassion. It's the Second Baptist church organization. They're not accepting anybody unless you go through their two hour program. I was just wondering, is that going on down at the dome? No. You just

55:57

come in on a piece of paper and then you're whisked away to go carry boxes, foods water, I can stand around, look pretty talk people and tell people to go this way or that way? Well,

56:06

it's really sad that many of us volunteers that had worked since Friday, when we were four or five, six days. And as of Wednesday, it is they decided they needed a church group to decide I mean to have be their volunteers.

56:24

No, they just meant

56:26

24 hours a day. Yes.

56:30

That's a 24 hour, seven hour, seven day a week thing. You have to belong to this. You'd have to group you have volunteer, you wear this little yellow shirt that says operation compassion. And if you check the newspaper, it was in the paper, I think on Wednesday.

56:45

Well, that sucks. The big one.

56:48

Just kind of ridiculous. I mean, that's kind of droid is these people must be tired of seeing yellow shirts walking everywhere.

56:54

I mean, there's no, I mean, whenever I started working there on Saturday, it was like, they didn't ask you what your religion was. They didn't ask you nothing. They said, We need an able bodied. Go that way. And this isn't a public building. This is a church. This is not in a synagogue. This is not some church facility. There's no religious symbols on the George R Brown. But to be a volunteer, you must belong to Operation compassion. Now if you do a Google search right now, I did this when Thursday morning operation compassion, comma, Houston is Second Baptist Church all the way down. And it's all about that

57:30

program and trying to get new converts. And I

57:34

contacted channel 13 This afternoon Laughter They talked about Pat Robertson's opera, Operation Blessing. And he said to me, Operation Blessing is a pat robertson organization. You know, the diamond mine, to guy uses his planes to go get his diamond to send his equipment down to collect his diamonds in Africa. Well, I talked to channel 13, about Operation compassion and how it was being dealt with at the GRB. And I thought it was unfair. I don't think you need a faith based organization umbrella. Absolutely not to go in there and volunteer. You just need an able bodied person. And he said, and this these man said that he's been

getting a lot of comments about that. So well, of course. There was one lady. There was one lady at 530 in the morning that arrived at the on Thursday morning she arrived at at the GRB plus the Georgia Brown for anybody who wants to know GRB and she was ready to volunteer another day, and she's been had been there like four days before. They said, Oh, you gotta take the course. Now with the operation compassion?

58:43

Well, that's the first thing I've heard anything about anything like that from the GRB? Yeah, I was talking to the I've been talking to all the media affiliates when we're up in the press room, just trading information. What's on what and, you know, we've heard the GRB is a little bit better than the actual code the

59:00

risks if you talk to the people at the at the GRV. I talked to a lot of I talked, they said, Oh, compared to the dome, this is the risk.

59:09

What's funny is that by the 18, by the 18th of this month, the people at the dome and the Reliance center should be housed. They're going to try to clear that area out there. Well,

59:20

Wednesday when I left about midnight, there was like 1300 people there had the GRB now heard on, rewatch what was the channel 13. Now there's 1800. So I'm wondering if they're moving the people from the dome. Yeah, they are to the GRB are with the families because some of the families are separated. You

59:41

know, Jesse Jackson came in and I interviewed him for Pacifica. His his main goal, his whole objective with the end day WcP along to talk to the minister and Islam is to get these people back home. Right.

59:56

They're getting the debit cards out so they can rent apartments. Yeah,

1:00:00

exactly, this is just temporary, they might, we might have incorporated an entire city of

displaced victims from the storm. But they're most the majority of them are just temporary. They're just gonna be here until New Orleans or something around New Orleans is ready and they're on their way.

1:00:14

And in the meantime, when they're getting ready, after 30 days, you can register to vote.

1:00:21

I can also add that when we had Allison come through, and a lot of people were displaced from their homes got flooded out. FEMA is doing I guess the program where they actually did though, place you and certain there's I guess there's certain apartment complexes and areas around Houston like they're being rented out that have programs for our say, Section eight and lower income housing, they're actually famous putting people into these apartments. And yeah, and toting the note for him. And you know, getting them in there. I mean, so people who did miss out on the on the debit card giveaway and bank draft or whatever they're doing,

1:00:54

still have a roof over their head. Well, I heard they're doing a checking account now or something.

1:00:58

Yes, if you open a bank account fee, and you register with FEMA, FEMA will set it up to where it'll automatically it'll ACH into your account, like electronic funds transfer, it's a debit card, no, it's not a debit check card, it automatically transmits into your account, it's basically trying to use

1:01:18

it rather than handing out a debit card similar to what the Red Cross is doing. Rather than doing that what they want to do is do a direct deposit into your own account that you already have, right? It

1:01:29

prevents things like the other day when they said people who aren't even from Louisiana, people are just, you know, kind of making their way into the into the Reliant, you know, complex over there, just to get their hands on these \$2,000 debit cards. And it cuts down on that. Yeah,

1:01:43

we went. When I arrived there that morning, they went on, they were on lockdown, I had to sit there and park and walk in. And there was a little fight tensions got pretty strong. But they weren't \$2,000 The female, the female they got today. Most of the people I talked today about receiving money from FEMA, they didn't care. They were just happy. They were just happy. Just nonstop. But the Red Cross cards, that little debit cards, they were passing out. These people just didn't understand it. One lady got \$25 One lady got 1600 Another lady family three got 600.

1:02:14

Well, I have to add that to that. Well, I was looking into it. And then with the Red Cross and FEMA, there's two different operations going on there. The Red Cross is doing it based on the size of the family members in the party that are in, you know, in that household. It ranges anywhere from 300 at the minimum from what I saw, and what that was being reported, was a minimum of 300 up to \$1,500.

1:02:37

A lady had a lady that 25 One family had 300 cars. It wasn't they weren't organized, they were just I mean, these people

1:02:48

that made them based on their actual income.

1:02:52

It was the size of the family.

1:02:53

One person had 1600 I mean, you know, it was supposed to be a flat rate but they just didn't have an organized and Okay.

1:03:01

Have they had it. Org. This has not been organized at all. It hasn't been organized from the get go. It

1:03:05

is now they got Mounted Patrol moving the crowds around but I'm gonna go ahead and go to bed now. Okay. Okay.

1:03:13

I also talked to a cop that the GRB they said that somebody was walking, some people had walked in, and they would go through the clothes and stuff. And then they were ripping it off and they arrested him. If you're going into this big shot. This is not knowledge. Looting, but there was a case where you'd be right. Yeah, you know, they were going in there and just taking I guess they thought they were volunteers and they ripped them off and stuff.

1:03:45

But one little thing I want to point out here. One of the churches that is part of Operation compassion week. Yeah. It's also bearing United Methodist Church. Really? Really? Yeah. See, Operation compassion. Yes. Is part of the Second Baptist Church is offering is holding the facilities to do the training. There's also a training class that you can go to on Monday at First United Methodist churches West Campus, and Houston First Baptist Church on the 19th. But Second Baptist has been doing a lot of the training sessions.

1:04:23

He's the leader sucks What if you're a pagan or a Hindu?

1:04:27

enumerating to the one webs website, they do allow people of other faiths because they have people who were in the training class that was a woman in a in the Muslim got the Muslim woman garb, the veil and that

1:04:42

young is the head of it. If you read the article, too, I'm

1:04:46

reading the bearing Muna my bearing Memorial United Methodist Church, how you can help the victims of Katrina operation compassion. Oh, and they are doing it through the Houston South district of the Texas annual conference which As a Methodist organization, basically the operation compassion is not just a Baptist thing. It's not just a Methodist thing. It crosses over several of the lines. And yes, Edie Young is the one who is doing a lot of the events, who's hosting a lot of the training sessions that you have to go to. That's the leader. He's the leader of it. He's the leader of that church, but you're no, he's

1:05:25

the leader of the operation compassion, he was the leader at the state. I

1:05:28

mean, it shouldn't matter who the leader is. The

1:05:31

problem is, you don't you should not have to have an umbrella called Operation compassion to go in there to volunteer. I mean, they didn't, they didn't even cross it took them five, it took him five days to even develop this program. And we were doing fine without him. People

1:05:46

put their stamp on things. It's like, oh, hey, look at exactly what's

1:05:50

exactly what's gonna happen on channel 14, whenever Ed Young gets out there and says, Oh, I did this as

1:05:56

well, also. But there is an advantage to having an umbrella organization in which you have better organization. When you have a bunch of people, different groups, all not communicating. Everybody spinning up doing your own thing.

1:06:12

Oh, you mean seemed better at Crossing?

1:06:15

What happened right there in New Orleans. I mean, it all comes down to is a lack of communication and a bunch of organs

1:06:21

that are not doing it

1:06:24

by force, or organized, nobody communicating. And

1:06:27

they're not doing it at the dome, put into smiling. And I heard that before to them not started. I mean GRB it's, it's really a public building.

1:06:37

The website I went to first said about the that it is the Astrodome, and the fact that they're invited there by the Harris County Office of Emergency Management, Operation compassion, in coordination with local and state governments, the interfaith ministries of Greater Houston has been given primary responsibility to feed the evacuees from Louisiana, at the George RR brown Convention Center.

1:07:01

And that was their main main job was the feeding that was gonna be there. But there are other jobs besides as a volunteer, there's checkout, which I did for three days. There's information booth, we've all we were all trained to do that before.

1:07:15

The ranking. Okay. You heard what I just said, Who is who's in charge of this interfaith ministries of Greater Houston. Second Baptist Church is serving as the central administrative arm of this collaborative relief effort. It is open to everyone.

1:07:32

That's the way it should. Okay.

1:07:33

It should be open to everyone. But that's what it says. So they call it a faith based organization. Yes, it should. Whenever you have volunteers, you shouldn't have to

1:07:42

do we've already gotten past that No

so we've already gotten past that. No.

1:07:46

That's the argument. And that's why some people are upset about I contacted 13. They there's a lot of people that are called

1:07:52

upset about what they're mean, while they're doing what they're doing for these people. I mean, as long as I mean, as long as people are getting taken care of nothing. Thing

1:07:59

is the last night I worked there. I worked with the Baptist right next to me, I had no problem with it. But when I found out it was that from then on, it was going to be an umbrella organization that's going to decide on what does you know,

1:08:12

interfaith ministries of Houston is the one who's in charge of operation could compassion for Katrina, interfaith ministries of Greater Houston has been given the primary responsibility to feed the evacuees from Louisiana at the George R brown Convention Center. And it is the umbrella.

1:08:31

I know not

1:08:34

rella interfaces for you to do located in the Montrose right.

1:08:40

I mean, it shouldn't it shouldn't matter what umbrella you have over you telling you to do what we need for five days. volunteer to help these people you should do it people and not for you,

1:08:51

or I think as an individually should be able to be allowed to go in there just like you're able to go right now to the dome.

1:08:58

Which they don't go to a two hour training session, honey.

1:09:02

I mean, it's protocol and they're gonna require it and you know, they're gonna have it the other way might as well coming out if you really want to help you go through it. I

1:09:11

don't think they're gonna have that much religion to Well, remember,

1:09:15

we already had all right, we already know how to sit in there. Jesus hallelujah, they're gonna be like, well, this is what we need to do. This is where yeah, this is. This is how we're sorting things. This is what you got to do to get these people taught

1:09:26

for four or five days. We did our own without the interfaith with that. Operation. Compassion.

1:09:34

Hey, we got smiley back again.

1:09:36

While we're getting ready to wrap up, we

1:09:38

got to wrap up. Yeah, we're close to the end. And we have talked that that's object enough to kill it. We, that dog did hunt. Well, if

1:09:52

you really, if you really want to volunteer and see what the facilities are like, You should do that because you will not believe I'm gonna just get just one minute for me. Did you on the morning

shift one morning, one minute 76 showers were installed by fire Friday. That was like a couple days after the hurricane. I mean,

1:10:10

there's survivors

1:10:19

out there we were mines in the wrong place. Bend over welcome, buckler, so we already strapped our seatbelts in here ready for this one. We knew we were coming this way.

1:10:30

They have 800 mattresses I mean air mattresses on the floor and cars. News

1:10:35

praised Houston.

1:10:39

It's amazing. They knew how to find Mayor Nagin was in Dallas and he needs praise Texas, Houston, Dallas, San Antonio, everybody for what they've been doing. I mean, he he's just dumbfounded all the support that they're getting for, you know, not I'm not going to use the word refugee because that's sort

1:10:55

of factory survivor evacuate or guests. The

1:10:58

term that when I was watching this, the press conference he held he had in Dallas, the term he prefers to use for these people is survivor.

1:11:09

Gas but there was one lady that says I am a survivor. This is we went through part one. We went through part two, and now we're in part three. Well,

1:11:17

all I can say is Texans love Louisiana.

1:11:22

And you're in the heart. Note they love New Orleans. You're deep in the heart of Texas. You're

1:11:30

welcome to do that music is coming. So it's last call folks.

1:11:39

All right, we are out of here.

1:11:41
