SUMMARY KEYWORDS

call, aids, people, talk, houston, love, give, lesbians, hiv, gay, research, clinic, patients, rally, lesbian, chants, john gardner, information, toga party, find

SPEAKERS

Diane Williams, Jimmy Carper

00:01

While I was at work, someone came down and told me that there were a lot of men. They were wondering what was going on. There were a lot of men dressed in tuxedos in the morning,

00:11

in morning coats

00:13

down on the lower Montrose, I mean, lower Westheimer and limos and big fanfare and they weren't aware of what was going on. Well, of course, what was going on was the groundbreaking for the new Thomas Odette clinic. going on down there across from the which we support wholeheartedly, wholeheartedly. And later, I had a report from one of my many sources, my many sources at the Baron care center. That a fracas brandy heard Yeah, a fracas may have occurred there and I was one fracas. Yes, yes. What is it that Brian I mean, this Michael was, okay. This is a director for a for a for a may have occurred there. This is

Diane Williams 00:55

the deal. The Montrose clinic got funding to basically renovate the old motel and who in this room knows the name that old motel Jimmy hilltop,

01:06

okay. Now he knows because he stayed there many.

01:09

Our place I love.

01:12

I'm glad it's gone. I never stayed that long now. 15 minutes.

01:21

By me, that's always been enough.

Diane Williams 01:23

And you should know they love it. They got money to redo this and one of the speakers at the groundbreaking ceremony was I want everyone to his John Lindsay. John Lindsey, Mr. Bad politician of the year. John, you really messed up this time? Well, and you're not pretty either? No, no,

01:48

the only the only way I think John could screw up anymore, is if he brought John Gardner over to the new county HIV Bureau to distribute the funds. That would

Diane Williams 01:59

be a mistake, indeed. Well, anyway, he's not an idea, John. It's not please don't do it. You know, one goofball. And I take that lightly Cooper's doing

02:07

bad enough job for all of us. Okay. Well, the

Diane Williams 02:10

deal is that he was a speaker there and they went to where John good. John Gardner Louis Damiani good nurkic They went to where Lindsey would be and they Queer Nation and Act Up or was it just act up? It was just act up. Just act up. Excuse me. I'm sorry. Cumin was not there. The newly formed ACT UP Houston ACT UP Houston was involved and they went and protested chanting things similar to we support the clinic, not John Lindsay.

02:43

What else? Lunaire? Yes, Lindsay No,

02:46

that was good. Yeah, that was good one. Yeah. But was there not of fray toward the end about moving? John Lindsay from one place to another? Well, basically,

Diane Williams 02:58

he left in in a very quiet, head hung low, he kind of scooted off so that the minute he got through speaking or whatever, so that there would be no more fractious fracas.

03:13

Actually, his car was chased away by the activists. That's

03:17

what I heard what I heard from my source, and of course, my source, you know, being infallible. Yes, I'm fallible, suggested to me that there may have been difficulty getting him away from the site, because of the people there.

Diane Williams 03:35

It didn't really look that bad on tape. I saw it on tape. It looked like he got into his car, but people were yelling, he was behind the barricade. And so they just went, basically, some of the people that went for the groundbreaking ceremony. Were not pleased that there were protesters there, because it was the Montrose clinic. And I just want to reiterate that the Montrose clinic was not under any circumstances, the target of that particular protest.

04:07

Well, I think everybody knew that everybody realized that even and I can't recall the man's name, the head of the clinic there, who was on on the one of the news reports, said, You know, I understand their frustration, and I'm there with them, you know, just as much as I'm in here, but my position forces me to be in here. Yes. And one of the interesting things that I or something that kind of made me smile was the governor and Deborah Dannenberg. Were there for the ceremony and Deborah Dannenberg looks out at the protesters, so she mistakenly called coordination and said, I want to invite our friends from Queer Nation to come in and sit under the tent with us and participate in this groundbreaking ceremony because they are our friends. And so just a little pat on the back for Deborah.

 D Diane Williams 05:02

Not been there we certainly would have I'm sure.

 05:05

And you said sexy Richards was there and Oh, sexy sexy and Richard my lesbian over 50 is love. I would love to find that out somewhere. I would love to find that out. Yeah, she

 D Diane Williams 05:19

was on the cover of Texas Monthly. I just recently found out that was not her but it was not. I was like it was pretty close to her body actually, you know, pretty close.

 05:29

Yeah, our friend in office and Richard. Okay. We're going to, we're going to do some community events and local information. So if you have your pencil and paper handy, we can give you some numbers and stuff of upcoming events, calendar info, calendar info. Yeah, we got to find a cool and cool and keen Keno name for this part of the show when we give out the stuff. One of the things that is going to be real important is Dr. Patricia Sivan, savato lotto, Lovato is going to be giving the age of overview this year, it's the eighth International AIDS Conference. Don't miss this overview of the AIDS conference in the Netherlands, which was very played a big part in our community events in the last couple of weeks, because that's what John and Sue waited for it to happen. So that a lot of the vocal and powerful on the AIDS Alliance board would be out of town at this conference while they did their dirty work,

 D Diane Williams 06:39

I have a bone to pick about this. It's not about patricius Avada. So we might want to come back to this later. But I want to talk about this, this new new HIV strain that they're supposedly finding and strike people now. We'll talk about that later. So we'll come back to that

 06:55

it's correct for that. So if you are interested in attending this overview, it is Tuesday from 630 to 930. August the fourth and it's given at the intercare Hospital 770 601 Fannin and there will be a limited seating there's only 350 seats available so come early and they will provide food so if you're looking for some information and an evening of informed and caring people, there's a good place to spend an evening let's see I love this I love this headline here seeking bullshness Oh, I

 07:38

love that and that'd be for me.

 07:40

Yeah, really seeking butches no eyeballs.

 Diane Williams 07:45

Let's see now. Now guys you got to understand that I have on at this very moment something that is very very unlike me. I have on my glasses and a baseball cap and headphones. normally don't wear their headphones. Normally I would not be caught dead we're in a baseball cap. And I have my glasses on which is very unlike vein vein me so I'm like feeling really really bad right now. I think I'm finding some of that bitterness inside and

 08:13

even though we all know what Bucha looks like says taste of lick Tex editor Lily brain draw how love that name really brain drop. There's been little very little recognition of Bucha women's aesthetic and women's aesthetic and experience aesthetic and experience she and fellow zine editor Z Z Z Z on it tonight lately no z can call her and fellow zine editor rocks Roxy from girl jock I haven't read this Where have I been? have teamed up to create dagger and anthology dedicated to celebrating butch women.

 Diane Williams 08:58

She asked don't aren't these the same guys that do guys aren't these the same dikes that do lesbian do they do terrorist what does that call

 09:09

is that the one that was on?

 09:10

That's hot hot I had ties on they don't do that

 09:14

somebody dying somebody no one can remember it if you don't know what that is join the join a club because they're very few and people who know what hot it is yet.

 09:24
Oh yeah, I

 09:25
think it's gonna catch on real quick scary stuff. Oh really great. The Anthology will contain which positive fiction nonfiction graphics and photos photos and there's just gonna be like she was very visual obviously. I wonder I wonder what was it jab did a photo book of lesbians it was really great. I wonder what that's

 Diane Williams 09:47
I've been waiting for pet Kalif is photo album but I don't think we're gonna get and we're

 09:52
not going to put it on TV either. The Anthology will be published by cleis Press And Claire's Mother Mother over my shoulder here so the hormone

 10:05
male is correcting right lesbians that

 10:08
will come out this fall the fall and 93 editors are still searching for all the right ingredients to form their book positive anthology. You don't have to be Butch in order to submit says Roxy we're hoping contributions from all types of

 Diane Williams 10:23
you don't have to be butchered order to submit right. I like to be submitted to some but stuff happening so

 10:31
they were saying when they did this interested writers and photographers should send a saisie to dagger a what saisie You know that's that thing that's a self addressed stamped envelope CZ to dagger and that is interested writers and photographers if you're interested in doing that, here's the PIO box and the zip code so you can deadline for submission is 915 92 So you're

10:57

not admin after that

10:59

we better get on it PO Box 2587 berkeley california 94702 Now if you're interested in that, we'd love to see some butches from Houston and Texas and in their work so can I send stuff into well wanna a it says you don't have to be Butch you don't have to be but I this is interesting and I think this is just great this this really got my interest up when I saw this. It says my Madonna and Martinez ex lover in grid jocks Endless Summer issue. Pardon? Did I say something wrong again? Girl Jacks girl jocks that's why I said grid Jacks girl jacks. Maybe maybe somebody else who didn't take the show yeah. So what ex lovers this Martinez ex lover and Madonna or in this in this new magazine which ex lover would that be would that be? That's the one that Souter I'm sure.

Diane Williams 11:59

So that'd be Judy Nelson or would that be Judy? Rita Mae

12:02

Brown Rita Mae Brown. No, I don't think I don't know. Wait a minute. It that I would think would be Judy. Um, let's see there. Girl jocks oh he's got his finger here now. Nancy Lieberman Klein new book lady magic that's Mark teen is an ex lover lead alleged ex lover and

Diane Williams 12:22

lead next lover see when I start babbling like I'm about to start babble I'm gonna do this so the GIL can read the note she just got handed it okay read the note you just got the zine 100 Pies on what else we're talking about?

12:39

Let's see. Let me let me Yeah, read the note. It great girl jocks why my throat what gridlock girl you're hoping to get a girl jacket a gridlock celebrity news with cartoons, comics and sex is sexy satire, sexy satire, be good. And you can this is a new Roxa Tronic publishing a new publication of rocks a Tronic publishing in Berkeley. And if you want more information on that you can get a hold of them through this address I gave you previously. There's a somewhere in California, Oakland, California. They have in the second annual festival of the babes and lesbian positive, positive soccer tournament. So if you lesbians out there are bored on September 5 and sixth Labor Day weekend. Why don't you join them in lovely San Francisco in lovely San Francisco. And you can also take and register team so we would love to see a Houston team go down there and whip whip whip

 Diane Williams 13:43

I would love to see a Houston team. Now I'm not going to be a member of Houston team. But I would love to see a Houston team go down there and do that.

 13:48

Have you ever been out to love as you're watching the lesbians play softball on Sunday morning. It's the finest thing all those all those calf muscles. It's

 Diane Williams 13:59

I think it's a lesbian rite of passage. I think you have to do that for at least one semester or term or whatever you want to call it. That's

 14:05

interesting stuff out there. For more information about the festival of babes you can connect with club Foley Foley at 44 to 48th Street Oakland California 994609 So if you are headed out that way for September 5 Why don't you join him if not to be a spectator to play we're gonna go to a song right now by the flirtations. Oh I love that something inside so strong

 14:50

Well, we liked that. I liked that a lot. That is Diane and my new album will be sold out The back of our out of our back of our wagon on. You are getting butchered, rarely really listen to somebody called a few minutes ago wanted us to give that address for ABC television station, or ABC network again. So if you're out there your comms,

 Diane Williams 15:17

listen up one life to live ABC TV. It's 40 West 66th Street, New York, New York 1023. And we also just got another caller a minute ago, a friend of ours called from a payphone because he couldn't call from his own house. He wanted to let us know about the National Conference of Native Americans. I'm not sure what it's called this year, it happens every year. The caller went to a conference a couple years ago and said, it was just a really wonderful experience. He said, In the Native American culture, there's really no delineation between gay people and straight people. It's very, it's very unified. And the conference celebrates the specialness of gay people. This is the fifth year of it, and it's happening right now. It's gonna be in Vancouver, Wednesday through Sunday. So if you're a Native American, please explore those roots and what it means to be a Native American, gay person, gay or lesbian person. If you're not a Native American, take note and be aware that we are indeed everywhere. We're part of every culture and every people. And many cultures don't delineate between gay and straight. And usually those are the cultures that accept us better. The cultures that come up against us other cultures that not only

create us and define us, but that we tend to break out of those, those limits that they choose to impose upon us. So I think it's important that we recognize that gay and lesbian people are everywhere. And we are Native Americans. And we are Asians. And we are blacks and whites and Hispanics and every everybody else.

 17:05

Yeah, yeah. Oh, yeah. Well, um, we've been getting a lot of calls tonight. We really love this. And I love you.

 Diane Williams 17:14

We love this. And we've been answering questions and giving out information and recipes for pot roast and Nabil buns. I want to I want to tell there's a caller that calls occasionally from I think Friendswood is it that he's a straight man that listens just because he, he thinks we're cool, George. Great. So we just want to say thank you and hide all our heterosexual friends out there that call us just to tell us that they're interested in they care. So that's right.

 17:41

Let me remind you that this show is going across public airwaves. And we know you're out there listening, why don't you call us and let us know I'm straight. But I don't want to see other people put down or humiliated degra gated or slighted in any way. Come on, call us let us know. Once again, the number here is five to six 4005 to six 4000. And there are a lot of us here ready and willing to talk to you and we're willing to discuss issues and up there goes lit up. Why can we do this during marathon? discuss issues and and it doesn't have to be on a subject that we've talked about. It can be something that we don't know. So if you have some information, even rainbow Declan called us earlier,

 Diane Williams 18:27

and we love you rainbow even if you you know don't really get coordination, that's cool, too. We love everybody at EA Jays. We love we love all y'all down there whether you like us or not. That's right.

 18:37

That's right. And one of the people who usually sits home and listens to us has made it down here this evening. And he wanted to talk about he's getting his makeup put on right now. He's done his hair. And he wanted to voice his opinion, just as we would open up the line for anybody on the phone. And it's about the \$1.8 billion research money that goes for the a research into AIDS and you want to maybe you want to say Jim Well,

 18:02

11 19:00

good evening, I wanted to say that that's a lie. It's a this is a lie that's being perpetrated against gay people and HIV positive people and eight people with AIDS. And it's being thrown about to the community in general throughout the general population that research is suffering in areas of cancer and heart disease and this and that because all the money is going to AIDS research. And this is a lie. This is just an out now lie when you look at the budgets that we work with the 1.5 or \$1.8 billion is what the federal government says they put together and they use every dollar I'm spent in any remote way relating to something to the HIV issues or AIDS and lump it all together and say that this is research money. And now, I have been a health care professional, and I know how funding works, and pure funding. When you're when you're talking about pure research funding, AIDS is still lagging behind the cancer and the heart disease. We're looking at less than \$300 million dollars that goes into pure, pure research. And and it's a travesty that people are scaling these numbers, and unfortunately, they're mostly Republicans. You know, and I think the Molly Irvin's thing was right the other day when she said that the Republicans are going to be, you know, an ADA, they use the fear of black men, and in 92, they're going to use the fear of homosexuals and Hades to try to win the White House. And this is such a, you know, this does a disservice to this nation, not to us as a community, but to this nation as a whole. And Mr. Goodner, is in a position of public visibility and responsibility, and that he would openly attack any group of people, not to mention a group of people who are not well, physically, you know, to me, I, I don't I don't think that if there is a power on the other side, that that he will be getting the positive result of whatever his life experiences brought him. And I just pissed off know that yeah, I'm really pissed about that. That's right. You know, because we're not, we are lagging behind in research dollars, there are a lot of scientists out there that have ideas and and that they want to research that can't get funding, you know, and people are dying, they're trying to

12 22:16

pit patient against patient,

13 22:18

they're trying to pit that cancer patients and heart patients against HIV AIDS patients, or transplant patient, right. And they're going to use that to make you feel sorry, because you know, that so much money's not going into heart research on the thing is that they've done so much heart research in the last 10 years, that they can hardly find anything new about the heart, having been

14 22:41

a healthcare professional, one of the things that is very obvious to us in the in the business, but maybe not so obvious to the layperson is that any of these organizations that are working for research funding, or you know, trying to find new ways of doing things, their goal is never to cure the disease. Because when you do that, you're used atoms on organization, you've worked yourself out of a job, what they want to do is to make a disease chronically manageable. And that is another large part of the problem that diabetes in the heart, people in the diabetes people, they don't want to get rid of these problems, they just want to make these problems

manageable and non life threatening, so that they can have the cash cow patient in that room, generating their billions and billions of dollars. And this kind of thing is what really led me out of the health care profession. Because of this, in itself. Thank you for giving me the chance to say what I thought was important and needed to be sad.

 23:58

So that's our segment on point of view. And we would require we'd be willing to talk to anybody who has a point of view, feel strongly about something who wants to talk about it. Give us a call. Whenever Diane and I are doing show we would like to talk to you about your point of views.

 24:16

And one other one other thing I'd like to say is that you know, in Houston, we have the medical center, which is one of the most advanced facilities in the world. And yet to my knowledge, there is not one serious protocol taking place in the medical center or in the city whatsoever. There is no research, no real research going on here. In this town.

 Diane Williams 24:41

The only thing that they have is a Houston clinical research trials and they need money desperately they're about to be shut down. There is a research agency that basically takes patients that are HIV positive to use as guinea pigs but that's that's okay, because we're dying and we want to be used as guinea pigs for Right. So we don't mind test those drugs on us, please.

 25:04

You have some information. I do I have some information you have some information about the new

 Diane Williams 25:13

yet this is this is an issue Close To My Heart especially just makes my blood boil just thinking about it. In the conference that just came in Amsterdam, they talked extensively and started to scare each other and to be real. Aware of a new phenomena in quotes. It's the headline I have in front of me says CDC calls a meeting on aids like disease and HIV negative patients. Well, frankly, folks, gay people been known about this for a long time. We heard this in like 1982 1983 that people were HIV negative. Actually, they got the test. And when 8484 was the first time they had an HTLV three tests, so 1984 Let's say we found out that people were having diseases known to be aids diseases, or are age related complexes, such as PCP pneumonia, Kaposi sarcoma, definitely that that was that was the most common denominator in many cases that people did not turn up HIV positive. There's two or three different aids antibodies if I'm if I'm correct, I'm not a professional. So don't quote me on this. But basically, there's two or

three different antibodies will show up on the HIV test to get now and this is happening this in this article it says the Centers for Disease Control is called the meeting next month to discuss the discovery of an AIDS like illness in patients who don't have HIV official said Thursday. It says the CDC has known about five cases since 1989, but did not disclose the information because officials didn't believe the illness was widespread or threat, said Dr. James Curran, CDCs, Deputy Director for AIDS, and additional 21 cases came to light at the International Conference on AIDS in Amsterdam earlier this month. It goes on to talk about this. And it says the 26 million patients all have very low numbers of the body's master immune cells, white blood cells called CD fours. Basically, once again, the gay community has known about this for quite some time we rallied we've tried to get protests and we protest we've tried to get funding. And since it didn't turn up under the auspices of HIV, we've been ignored. Since stripe, people weren't willing to say I have AIDS when AIDS was known as a gay disease. And straight people were dying from things like Kaposi sarcoma, and things like that. Then nobody was willing to step forward and say, you know, gosh, this might be aids because they're straight. Only now, in 1992 Is somebody willing to step forward and say, I'm a straight person and I have AIDS. So I'm willing to put in money that this has been very widespread, very common, and people have been dying undiagnosed for many a long time just like lesbians with AIDS. And if you have anything to say about this, or you want to talk about this more, give us a call or call back next. Next weekend.

28:25

Okay, something on a lighter note. And some good news for some of our friends out there. the rip cord, which is becoming quite a place to visit these days, is having their teddy bear auction, isn't it? Auction donation auction? Party Party teddy bear parties, tri party okay party there. It's their 15th anniversary. I understand that Mary's just started a party for them. Now. That's venture render venture in Okay. Okay. So, everybody, everybody else has anybody else. Always get those lead, marries, and ripcord for the venture in their letting them know the donations of teddy bears and other stuff toys are being accepted during the seventh eighth and ninth of August with a contest for the nellist bear. The butcher's bear in the most original bear long being held on the ninth of the contest, enter as an individual club, a bar group or whatever, just enter the children need your help and it doesn't tell me what children I guess a benefit for children with age there we go. Yeah, under the picture, I believe if I'm not mistaken, this these toys go to the cornerstone house. So if you if you have a teddy bear or you can make a teddy bear, it looks like that. That's what they're looking for. Why don't you participate in this and help the children with AIDS with donations and your support there that evening. We want to talk about a few of the benefits going on at the BRB Sunday August the seventh I mean second from seven to nine Charlie Collins Kalin who is a candidate for Mr. T gra 93 presents a night with the stars to benefit body positive which could always use some support. Sunday August 9, Mike Romero candidate for Mr. T gra 93 presents a benefit for the Montrose clinic building fun, hosted by the misfits. Cowboy of the month more details than the cowboy the month

Diane Williams 30:27

by the way, I went to the denim party. Wow, what a party.

 30:29

Wow, what a party and the Garden Party wasn't real. Thank you, Jamie, by the way, you bet. And the garden party was quite a success. I understand. August 16. At the BRB, they're having the MS pie you city contest. So if you were interested in some good times there, they're getting ready to have a real blast there. EJ is at 2517 rouse Street is having a toga party all day. Is this this Sunday tomorrow this morning today? toga party. Hey, I can go to a toga party now I can toga with a 7pm show benefiting the EJ warriors to the gay World Series in in LA and we're real proud of our warriors here. Yeah, I

 Jimmy Carper 31:14

got a note from Rainbow to clown who we were going to talk about this anyway. But yes, Rainbow rainbow I planned on coming I have a toga that's opened up on the sides. Is that acceptable? Yeah, they're gonna raise money with their softball team to go to LA to the gay World Series and they at least rainbow I'm not too sure about everybody else will be flying there in drag. Thank you very much.

 31:45

And we're real proud of the warriors over there. And the the, whether they win or lose, we know they're gonna win. But whether they win or lose, they're winners for us. So they're going to be the show's going to be at 7pm at PJs. It says ambrosia 2pm and all the day pig feed in

 Jimmy Carper 32:05

That's right. pig feed. I'll be there.

 32:09

There's a pig feed and Jim will be there. So now you figure out what that means. Really. I'm curious I'm still trying to find the g spot and I miss e Jays. Volleyball in the afternoon. I used to love that. I missed what a dump. We have Christmas in July from the Colt 40 fives send out cards with \$20 donations in them. No 20 They're sending out \$20 cards. And this will benefit the HIV AIDS patients. And they want to say this benefited the AIDS patients and they wanted to say thank you from all the recipients and I'm not quite sure what that was. That was they did that they did that it was it was done. And before we go I want to get this in I want to get this in. It's about choice. This is real big because we Jimmy and I were talking earlier we've been doing a lot of political a lot of heavy stuff lately and we want you to know that we're not it's not a normal thing to do this. It's just with this RNC come in the national the Republican National Convention coming up. There are a lot of real serious things going on and we want you to know about them as well as the frivolity of our our our charm down here. All the tics are never normal, never normal. But either as camp that's right. And don't we love that too. And we want you to know that. This is is is we do have a lighter side it's just right now things are very serious and and we want you to know about those serious things. One of the serious things that I want you to know and that I'm real fired up about is the the the pro choice rally that's going to be going on Saturday, August 15 from three to seven at Mall worth and Kirby and that's for

those of you who want to know where where it's going on what's going on. It's going to be a rally for choice. There will be Patricia Ireland from now we'll be there to see Ferran though. What a babe I have such a crush on linear Weddington who was the lawyer who pleaded the Roe v Wade case. And one and poppy Norka Northcutt a nice Parker. Yes. Jackson Shaw, Linda Morales Ben Reyes and more and there'll be live entertainment.

D

Diane Williams 34:33

There's, there's also there's gonna be a lot of people there that's going to be the biggest and the best a lot a lot of fun.

o

34:41

And there's a little thing here I wanted to read because we know that this is going to be hot and they know it's going to be hot and they're telling us to prepare for it hot, hot weather hot for this rally. They know the weather is gonna be hot but abortion issue is even hot. are failing to act will not burn as as much as the Houston sun so Wilborn is more much more than the Houston sun. So bring your sunscreen shade Pearsall's lawn chairs, blankets, watercolors, visors, etc. Whatever it takes to keep you cool. They will not let the alcohol or glass containers there so leave that stuff at home. Bring your water guns also very interesting part of something to be known. So we'll be satellite parking at the ranch 9200 Buffalo Speedway at more worth meet your friends or new acquaintances at the ranch parking lot and past five or six people into one car to drive to the rally site only full cars and vans only full cars and vans will be allowed to park very close to the site. So let's carpool let's carpool do our RPC thing and our pollute politically correct thing and carpool but summit I wanted to share with you one of the things that I dread most when I go to a rally is I don't know what the chants are going to be. And I'm standing there stupid because I don't know what there's what they're saying. So here are a couple of the chants are going to be doing you might you might remember the tell him where they can find that too. You can find this information in the one that one is q1 full of information. And great article this week and this this month this month one is great. And it's got k.d. on the cover k.d. in case anybody didn't catch it early part of the show will be in town and anybody wants to donate a ticket to me and we can just get home going by the way. But the chance are to help you get fired up it says our right to life. That's a lie. You don't care if women die. Racist, sexist anti gay pro life bigots go away. I love that 11234 abortion rights for rich and poor 5678 You can't make us procreate. Not the church, not the state women will decide our fate. I love the so when you go, those are going to be the chance that they're doing and practice at home practice on the street practice on the freeway. So and let everybody know that that's how you feel about this stuff. Don't

o

37:09

forget Randles as Don't forget that.

o

37:13

We're not going caught girl caught Randall. That's right. Just caught Rendell and

Diane Williams 37:21

call John Gardner's office called John good news office. John Goodner 247 2000 to call him and tell him you think he's an idiot?

37:29

Janie, we're doing breakfast in a few minutes. Why don't you join us at Charlie

37:33

anybody we're doing?

37:37

What I'm gonna tell you what table you can write us at after hours at 419 Love it. Houston, Texas. 7706. And you're listening to after hours of continuing tradition on KPFT Houston, 90.1 FM. Stay tuned for the BBC News, followed by the carbon dating game with Eric. Now last time we did this Eric didn't show and somebody looked like he was supposed to be here and he wasn't

38:05

what he was here last week. And Whitney

38:09

May it was a weekend as one we did before. Yeah. Anyway. Be kind to yourself, be proud of who you are. Play safe. And join us next time when we'll be talking to you about what's going on in town and having a good time down here. So here's some sweet music, and we'll see you next time.
