08:43

Once we in Houston finally are overachievers I guess they're starting. Good evening. Good morning. Good. Whatever it is to you. It's after hours news and views. Stop shooting for Roy is me substituting for Michelle is me. It's me. It's Chris. All right. You're hurting going serious anymore. So once again, we are going we're announcing the demise. Unfortunately it's like TV Montrose is now gone for good.

09:12

Yeah, read the little thing about that. Well, they were first going to just change it. It was going to change and now it's like gone.

09:19

It was especially crystal into this big guy. City, a statewide Texas in Houston. And unfortunately the marriage didn't work out. And it's going to be going off their last episode is Monday. It will not be come out TV Texas. They're going to be talking about the Galveston hotel. The Hollywood at Galveston and there's going to be a there's gonna be mixing in some of the final conclusion story that they had previously created several months ago when they thought they were going off the air and got a big infusion of funding. So it's going to be Monday, April 26 At eight PMX channel 74 on your Warner Cable. I don't know if that also includes the new people who have Tci. And now that new Time Warner indications. I don't know if you know, give us a call.

10:13

I'm really gonna miss it. I watched it every Monday.

10:15

Unfortunately, I never got to see it. I never had I had Tci and then I changed the link star. So the most I ever saw was the opening credits. And these gorgeous Russian hairdressers. Oh yeah, before my parents came back in the

10:29

Russian Yeah, the trip to Russia was really cool. Really cool. That whole that's one of their their better episodes

10:37

makes you want to almost get a passport from a little I saw you some vodka right about now. The decision to cancel TV Montrose was for good. This is the last one they said is largely financial, lack of community support. And unfortunately, when we see all the news, the letter the news press they've gotten here that they are going off, it'd be nice if they would have gotten some of that a little bit more of that during it. So they are going to be gone for good. And hopefully someone will pick up from the pieces and run with and have the financial backing ahead of time so that this won't have to limp along month to month. And forgive me people this is the first time I'm doing this by myself. I don't have Roy smacking me in the head. Right keep waiting for Roy to call. On on the legal front, the first appeal has been filed in the infamous sodomy case that occurred here. September 17. Up there as the phone

11:37

there goes wandering up.

11:41

I was Lily Tomlin last September 17, John Lawrence and Tyrone Garner were engaging in consensual sex. When police officers kicked in the door thinking there was a robber, an armed robber. They pleaded not no contact. Yes, yes. It does not say but if several months ago that they had it was Ember Yeah, they went for just Spees plated, pled no contest. And now a and a mecca. Amicus. Well, I really am filling in for why aren't I I'm stumbling and bumbling and I'm mispronouncing everything. This is an amendment case brief. Whatever the world that is. We're just Katrina when we need her. Really little Roy's coming in with a message. Is it big Roy? Yes. Next coming, promises to smacks just hang on, Roy, I got plenty more. Which means that they're filing a brief with the court on issues that they believe are of particular importance. If the case goes all the way to through the federal system, it may eventually get to the US Supreme Court, where unfortunately the last time they discussed the topic, they voted for the state and the Georgia sodomy law.

13:00

That was to challenge the sodomy law. Yes, because

13:03

there's the state sodomy law here in Texas. 2106 very specifically says it's only for same gender relationships. If they would have walked in if the police would have kicked in the door and found say a man and a woman engaging in the same activity. It would be perfectly legal

and you'd say a man and a woman engaging in the same activity, it would be perfectly legal. The only way the man and woman we get get that from my read it by the way they could be arrested for similar charges if they were doing it in public. In the park, yes. But in their own apartment. And that's the part that see major challenges under the Texas Constitution. There's an equal right protection. And they're they're challenging on the part that only same gender.

13:46

I'm sorry, it's the same amorphous Yes, but neither six. So what's the

13:52

state has some strange laws with that? Also, like don't get it. If you read there, it's really interesting when they get into the talk about how you use toys. You know, what we can't help someone with

14:02

think that only two guys in his whole state has ever had that. Done that. I mean, this is Ray,

14:10

it's the first it's the first two.

14:13

It's the first it's the first one in nearly 116 years that the law, the sodomy law as it was in its old incarnation and a new incarnation. Someone's actually been arrested for it. I know, back in what was it 72 or 74 is when the state legislature removed the heterosexuals out of the sodomy law and just change it from instead of everyone having sex to just being of the same gender. So that's the part they're doing is the back in 1974. They committed the if they would change it back to heterosexual conduct, as well as homosexual conduct. We would, we wouldn't be able to have a leg to stand on where we're complaining. But because they did that change, of just making it forget same gender relationships. That's what the challenge is going off of that they're discriminating against one of the poor Foreigners because that happens to be a man.

15:01

I know I know I know the situation but it makes a ridiculous it's just ridiculous.

15:06

Unfortunately that's when you get the politicals in and that's usually where ridiculous value

15:10

on there and claim that we've all had gay sex fill the courtrooms. We're all sodomy. That's right. Oh, save me now. Oh boy,

15:26

we're good to see.

15:28

Are you taping this for Jimmy? Oh, absolutely. I hope for hope you get well. This week I was also National Crime Victims week and there's gonna be a focus on sexual assault and gay bashing. It starts today Sunday April 25 and runs through Saturday, May 1. This year's theme is victims voices silent no more and emphasizes the power of the personal story of victims and how their individual and collective voices have improved our justice system and made our community safer. In Houston, the the events will be commemorated at the Montrose Counseling Center. And this week, they're going to be screening two films that recognizes victims of crime and those who serve them and provide victims with public forums to share their voices and visions for justice. On Monday, April 26 At 6pm they will be showing the HBO doctrine documentary can't save documentary. But that was a royal one. Okay. Rape cries from the heartland immerses the viewer in the lives of seven women who have been sexually assaulted. This is also going to be followed up with on Tuesday, April 27, the movie Licensed to Kill which is a riveting journey into the minds of men who, whose contempt for gays led them to murder. Arthur Dong who was here in Houston, at the last premiere they had for that I think it was over at the rice media center. Michelle covered that for us is himself a survivor of a gay bashing in San Francisco. And basically what he does is he talks to these people who have been convicted of it and go, Why did you do it? And it gets very deep from what I have not seen the movie when Michelle was talking about it before. And it's very interesting to look at that aspect of it of why it occurred from some of these people. And that's going to be on Tuesday, April 27 at 6pm. This is where again at the Montrose Counseling Center 701 Richmond both of these will be followed by a discussion. And there is a warning here that's the film's contain graphic crime. So one Richmond, Richmond and Stanford. Oh Karen left at Bank view and about a block back. Right. Come early. There won't be there's not much parking around there. The films include graphic crime scenes and adult language may be inappropriate
